Biographical Sketch

Dr. Arthur Howard Estabrook was born on May 9, 1885, to Arthur Francis and Susan Rebecca (Breck) in Leicester, Massachusetts. Estabrook earned the A.B. degree in 1905 and the A.M. in 1906 from Clark College in Worcester, Massachusetts. He was a fellow and assistant in zoology at Clark in 1906-1907. Estabrook received his Ph.D. from Johns Hopkins in 1910 and was a student at the School

Scope and Contents

The papers of Dr. Arthur H. Estabrook contain correspondence, news clippings, research materials, and reports and publications on his research on racial integrity, sterilization of the mentally defective, venereal disease campaign in New York City, crippled children in Buffalo and Erie County, and a housing study in Buffalo.

The major part of the collection deals with studies on racial integrity; mixtures of Indians, Whites, and African Americans; intelligence and criminality. This early eugenics work by Estabrook was conducted in Pembroke, North Carolina, and in Robeson County, North Carolina. The resultant publication, co-authored with Ivan, E. McDougle, was Mongrel Virginians: The Win Tribe, published in 1926.

The collection contains some background material for the 1915 study of the Jukes of New York state, and the 1922 study of the "Tribe of Ishmael" of Indiana. The material dealing with the Carrie Buck trial (the 1924 case against the Virginia statute on sterilization of the mentally defective, which was eventually upheld by the U.S. Supreme Court in Buck v. Bell [1927]) consists of limited correspondence, news clippings, and court records. Two studies resulted in publications: "The Crippled Children Situation in Buffalo and Erie County" and A Roof Over Their Heads. What's What in Housing in Buffalo.

In addition to the writings by Estabrook, the collection is of interest because of the newspaper clippings showing current attitudes and the wide range of the research materials included.
Arrangement of the Collection

The collection is organized as follows:

Series 1-8 relate to studies on racial integrity, mixtures of Indians, Whites, and African Americans, intelligence and criminality. This early work by Estabrook was conducted in Pembroke, North Carolina, and in Robeson County, North Carolina. Please note the dates for series 5 and 7 are not inclusive.
