Biographical Sketch

Dr. Arthur Howard Estabrook was born on May 9, 1885, to Arthur Francis and Susan Rebecca (Breck) in Leicester, Massachusetts. Estabrook earned an AB degree in 1905 and an AM in 1906 from Clark College in Worcester, Massachusetts. He was a fellow and assistant in zoology at Clark in 1906-1907. Estabrook received his PhD from Johns Hopkins in 1910 and was a student at the School of Philanthropy in New York in 1914. Estabrook married Jessie McCubbin on October 25, 1911, and married Anne Ruth Medcalf on July 8, 1931, after his first wife’s death.
Dr. Estabrook worked in the Eugenics Record Office of Carnegie Institution of Washington (1910-1929) and served as a special investigator for the Indiana State Commission on Mental Defectives (1916-1918). Estabrook traveled to Virginia on behalf of the Eugenics Record Office to study the issues and people involved in the Virginia sterilization case of Carrie Buck. Estabrook served in the U.S. Army in 1918-1920 as a Captain in the Sanitary Corps. He began working for the American Society for the Control of Cancer in 1929 and served as president of the Eugenics Research Association in 1925-1926. [Unless otherwise noted all information in this text is from Who's Who in America, 1935-1936 edition (Chicago : Marquis Who's Who)].

Estabrook died on December 6, 1973, in Chatham Center, New York [Files of the M.E. Grenander Department of Special Collections and Archives, Chatham (NY) Courier, 13 December 1973].

Scope and Contents

The papers of Dr. Arthur H. Estabrook contain correspondence, news clippings, research materials, and reports and publications on his research on racial integrity, sterilization of the mentally defective, venereal disease campaign in New York City, crippled children in Buffalo and Erie County, and a housing study in Buffalo.

The major part of the collection deals with studies on racial integrity; mixtures of Indians, Whites, and African Americans; intelligence and criminality. This early eugenics work by Estabrook was conducted in Pembroke, North Carolina, and in Robeson County, North Carolina. The resultant publication, co-authored with Ivan, E. McDougle, was Mongrel Virginians: The Win Tribe, published in 1926.

The collection contains some background material for the 1915 study of the Jukes of New York state, and the 1922 study of the "Tribe of Ishmael" of Indiana. The material dealing with the Carrie Buck trial (the 1924 case against the Virginia statute on sterilization of the mentally defective, which was eventually upheld by the U.S. Supreme Court in Buck v. Bell [1927]) consists of limited correspondence, news clippings, and court records. Two studies resulted in publications: "The Crippled Children Situation in Buffalo and Erie County" and A Roof Over Their Heads. What's What in Housing in Buffalo.

In addition to the writings by Estabrook, the collection is of interest because of the newspaper clippings showing current attitudes and the wide range of the research materials included.
