Administrative Note

President's Task Force on Priorities and Resources was a group created by the President to work on updating and assessing the University from within. The Task Force was made up of members from each major department of the University. A product of this was the publishing of a report in May of 1975 about their findings related to each individual department.

[^ Return to Table of Contents](#)

Scope and Contents

The items included in this collection are meeting minutes, departmental evaluations, finance reports, as well as recommendations for University improvements. These documents all proceedings of the Task Force as well as the response by University Administration. This includes a cumulative report published and sent to the President of the University in May of 1975. The report detailed recommendations on admission and curriculum both campus wide and at the department level. They also gave recommendations on how to follow through on these plans.
