MAPPING STRATEGY — Prior to a hearing before the State Grievance Board filed by Sing Sing chapter of the Civil Service Employees Assn., these four men met to map out the strategy for their appeal. From left are Harry W. Albright, Jr., CSEA counsel; and James O. Anderson, secretary; Harold O'Mara, president, and Frank Leonard, delegate, all of Sing Sing chapter. Story on this page.

Wilm Seeks Upgradings In Conservation; Cites More Complicated Duties

ALBANY, Feb. 12—An application for reallocation and reclassification of the State's game protectors has been filed with the Director of Compensation and Classification by the Conservation Department.

The appeal, transmitted over the signature of Conservation Commissioner Harold Wilm, covered the entire wildlife protective title series. In addition, as part of the request, Wilm notified the Compensation and Classification Division that he wished to establish new minimum qualifications for the Conservation Officer title.

Recent Appointee

ALBANY, Feb. 12 — Mrs. Katherine N. Britt of Warsaw is the most recent appointee to the Allegheny State Park Commission. She replaces John C. Ward of Buffalo, whose term expired.

The application would reallocate and reclassify:

1. Game protector (G8) and marine fisheries protector (G7), both to Conservation Officer (G11).
2. Assistant district game protector (G12) to assistant regional Conservation Officer (G14).
3. District game protector (G16) and district marine fisheries protector (G15), both to regional Conservation Officer (G18).

Reasons Cited

The department set forth eight basic reasons for the reallocation and reclassification requests in its application.

ALBANY, Feb. 12—Total victory in an 18-month fight by the Civil Service Employees Assn. was assured last week with the announcement that \$175,000 had been included in Governor Rockefeller's Budget for construction of sanitary services at Sing Sing Prison.

Wagner Assures CSEA On Rent Agency Aides

ALBANY, Feb. 12—Mayor Robert Wagner has assured the Civil Service Employees Association that the civil service protection of some 800 employees of the State Housing Rent Commission "will not be jeopardized by their transfer to the jurisdiction of the City of New York."

Wagner's assurance was made in a telegram to CSEA President Joseph F. Feily, in which he said he was "mindful of the rights of

these employees and, as a strong believer in the civil service system, his administration will act to protect these rights in discussions with legislative leaders and the governor's office.

"This position is made clear and unequivocal," Feily was told.

The CSEA President had urged Mayor Wagner to co-operate in amending the housing bill before the Legislature to insure maximum protection to the 800 employees who would be considered for transfer from the State to the City agency.

Urges Amendments Support

Feily urged that the Mayor support amendments that would provide:

Lower Paid Aides Need 70% of Final Pay For Retirement, Survey Says

(Special to The Leader)

ALBANY, Feb. 12—A private consulting firm has recommended that the State Retirement System provide pensions for lower paid state and municipal employees equal to 70 per cent of their final salary.

The study, made by the New York City firm of Powers, Perrin, Forster and Crosby at the request of State Comptroller Arthur Levitt, suggested the 70 per cent figure for those workers earning up to \$4,000 a year.

The percentage should be gradually decreased, the firm indicated, to about 40 per cent for employees

in the \$20,000 and up bracket. In other comments, the firm

criticized the State's 55-year plan as discriminatory against lower-paid workers, who "have the greatest need of assistance in old age."

The consultant also noted that the State's present death benefit program was inadequate for employees with 10 or less years of service.

Many of the suggestions made

by the firm call for increased benefits, which have been sought by the Civil Service Employees Association. The CSEA now is seeking legislative approval for improvements in death benefits and supplemental pensions.

55 Plan Called Luxury

At one point in its report, which praised the System as being "well (Continued on Page 3)

Deputy Correction Commissioner William E. Leonard made the announcement before the State Grievance Board, which had convened to hear a CSEA-directed complaint on sanitary conditions at Sing Sing guard posts. The complaint was part of a group grievance involving Sing Sing, Clinton Prison and Eastern Correctional Institution.

The conditions at Clinton and Eastern were corrected, following a successful hearing in November, 1960, before Leonard. The Sing Sing action was carried to the full State Grievance Board, however, because of a long delay in taking the necessary remedial steps at the downstate prison.

New Facilities

At last week's hearing, Leonard said the \$175,000 was earmarked for construction of new sanitary facilities at the Sing Sing guard posts and for the re-routing of present sewer pipes. He said surveys of the work needed are completed and formal bids for the jobs would be advertised for in June of this year.

The State Grievance Board is expected to render a final determination of the action, which will show that the complaints at all three institutions have been satisfactorily resolved.

The group grievance was originally brought by Frank Leonard, of Sing Sing; Charles Raymond, of Clinton, and Robert Bleiden, of Eastern. At last week's hearing, the correction officers were represented by Harold O'Mara, president of Sing Sing chapter, CSEA; James O. Anderson, and Leonard. CSEA counsel Harry W. Albright, Jr., represented the Employees Association in the action.

Zaretzki Asks 10% For Lower Grades, Effective April 1

ALBANY, Feb. 12 — Senate Minority Leader Joseph Zaretzki wants the Legislature to give a ten per cent pay hike to lower paid State workers and a five per cent raise to those in the higher salary brackets.

In debate on the Senate floor, last week, Zaretzki called for a review of Governor Rockefeller's proposed five per cent across-the-board State pay raise.

Your Public Relations IQ

By LEO J. MARGOLIN

(Mr. Margolin is Adjunct Professor of Public Relations in the New York University School of Public Administration and is a vice-president of the public relations firm of Martial & Company, Inc.)

GOOD PUBLIC relations for more than a billion dollars in public money requires no louder voice than for a million dollars.

THE TEST is simple: Is a good job being done in administering the billion dollars plus? Or in the care of the million dollars?

NEW YORK State's Division of Housing and Community Renewal is a fine case history of the ledger adding up to good public relations when a good job in the public interest is being done and is transmitted by a full information program pitched in conversational, factual tones rather than in very loud hi-fi stereo.

THE DIVISION of Housing administers \$1,190,578,609 in public funds—not including its own operating budget.

IT DOES this for low rent public housing in 38 communities; in middle income housing totalling 45 projects, and more coming; and in urban renewal, funds for which are now committed for 54 projects in 43 communities.

IT ALSO administers the State

the first 31 days of this year as compared to 32 in the first month of 1961 - an increase of 103 per cent.

Commissioner Murphy said: "We are off to the worst start possible in traffic safety. The alarming increase so far this year indicates that attention to traffic safety, which has been emphasized for years, seems to be diminishing. We cannot afford this unnecessary sacrifice to carelessness. Most of these accidents and deaths could have been avoided. No one has declared an open season on pedestrians. I urge everyone to drive defensively and walk watchfully in order that this shocking toll be halted now!"

THESE FIDUCIARY duties are huge armfuls of responsibilities, requiring extensive, carefully documented facts-and-figures files.

IT IS THE facts-and-figures technique which is the cornerstone of the Division's public relations. The nuts and bolts of their public relations program is "public information". It is based on the theory: "Give light and the people will find their own way."

BUT THE LIGHT must be clear and bright, not diffused, murky and gray — meaning, of course, that the good performance and good achievement in the public interest must be present. If these elements are missing, only bad public relations can result.

THE DIVISION'S public information, or public relations, program is unique. It is supervised by a highly respected public relations specialist, Grace Bliss, Commissioner James W. Gaynor's executive assistant.

ITS BACKBONE is the Public Information & Reports Bureau, of which Avrum Hyman is director. It is staffed by economists and statisticians rather than publicity personnel. Explaining this unusual, but successful arrangement, a top official said:

"**WITH THE** present composition of technical personnel we feel we are best able to supply the public with accurate information about our programs. Provided with this information, the citizenry of this State have been willing to support our efforts."

THERE IS hardly any arguing one can do with \$1,190,578,609 worth of public support.

MENTAL HYGIENE MEMO

By WILLIAM ROSSITER

CSEA Mental Hygiene Representative

(The views expressed in this column are those of the writer and do not necessarily constitute the views of this newspaper or of any organization).

MHEA Meeting—Aides Honored

THE MENTAL HYGIENE Employees Association recently held a two day meeting in Albany.

ON JANUARY 22ND, MHEA representatives met with officials of the New York State Retirement System. Representing the Retirement System were Leon Braun, Deputy Comptroller, Isaac Hungerford, Administrative Director and Max Weinstein, Chief Actuary. Some of the MHEA representatives included John O'Brien, President, Arnold Moses, 2nd Vice-President, and Doris Blust, Secretary. Sam Cipolla, acted as chairman and did a splendid job.

SOME OF THE TOPICS discussed were: a non-contributory system, retirement after 25 years service, interest rates, variable annuity, vested rights and supplemental death benefits.

CONSIDERABLE interest and cooperation was displayed by the officials representing the retirement system. It was a successful and informative meeting.

THE BUSINESS MEETING of MHEA was held in the evening of January 22nd at the Wellington Hotel. Much time was spent on proposed legislation that will affect the mental hygiene employee. Direct action was taken to increase membership dues and place same on a payroll deduction basis. Final action will be taken at the February 27th meeting. MHEA membership has increased by 700 the past year.

A LUNCHEON MEETING was held on January 23rd at the Wellington Hotel. Guests from the New York State Department of Mental Hygiene were Dr. Paul Hoch, Commissioner, and Mrs. Hoch, Granville Hills, Personnel Director, Mrs. Margaret Farrar, Director of Mental Health Education and Information. Ann Bessette, Emil Bollman and this writer, CSEA mental hygiene representatives, were also guests.

DELEGATES used whatever time was available visiting legislators at the Capitol re: bills that the Civil Service Employees Association has introduced that will benefit the civil servants.

MERIT AWARDS given recently to Mental Hygiene employees consist of the following:

LAWRENCE DOYLE, Central Islip State Hospital, won \$10 for constructing a wagon to carry barber equipment to wards.

LELAND COVILL and Edward Brennan, Rochester State Hospital, won \$25 for constructing a mobile utility cart for maintenance purposes.

THOMAS Umina, Middletown State Hospital, won \$10 for making a rubber mouthpiece to help prevent patients undergoing shock therapy from biting tongues and lips.

MICHAEL RANALDO, Craig Colony, won \$10 for making a wind vane out of scrap formica for use in washing machines so that cover cannot be removed till machine has stopped; result: increased safety.

RUDOLPH HAHN, Central Islip State Hospital, won \$25 for making a portable hoisting rig to raise large valves and expansion joints.

ALBERT AEBERLI, Middletown State Hospital, won \$10 for suggesting that pool tables in children's units be covered with canvas instead of felt because canvas lasts longer.

MRS. PEARL BEERS, Newark State School, won \$25 for her suggestion about a toiletry cabinet to hold tooth brushes, hair brushes, and other toiletry articles. A special feature of her cabinet is the ultraviolet unit to help sterilize the articles.

OUR CONGRATULATIONS: We are always happy when state employees come up with constructive ideas that are rewarding. Think it over - send your suggestions to the Employees Suggestion Program, Civil Service Department, State Campus, Albany, New York.

IT COULD help your department, your fellow workers and New York State. Remember the money that the State saves by your suggestions will help you in many ways - concerted action by many could even aid (to some degree) in the reduction of your tax dollar. Think it over!

'Long Weekends?' State Employees To Get Five This Year

ALBANY, Feb. 12 — State employees will have five "long weekends" this year, according to a report from the State Civil Service Department.

Of eleven legal holidays - one more than last year - five will be three-day weekends, also one more than provided in 1961.

The extended weekends result from New Year's Day, Lincoln's Birthday and Labor Day occurring on Monday, and from Columbus Day occurring on a Friday with Veterans' Day on Sunday.

The day following Veterans' Day, Monday, Nov. 12, will be observed as the holiday by all state offices.

The other six holidays are

Education CSEA Dinner Dance Set

The annual dinner dance of the Education Chapter will be held on Wednesday evening, February 21st, at the Circle Inn, located on Route 9 just north of Albany. Pleasant dining, light entertainment and an evening of enjoyable dancing will be combined, as they have in the past, to provide one of the gayest evenings to brighten the winter season. The invitation to attend this year's Dance is extended not only to members of CSEA, but to non-members as well.

Washington's Birthday, Feb. 22; Memorial Day, May 30; Independence Day, July 4; Election Day, Nov. 6; Thanksgiving, Nov. 22 and Christmas, Dec. 25.

Employees who must work on any of these holidays will be given compensatory time off at another date.

GO-GETTER — Mrs. Ruth Gregory, center, proved herself the real go-getter this past year as a member of the membership committee of Pilgrim State Hospital chapter, Civil Service Employees Assn. She individually signed up 130 new members and is being congratulated here by Mrs. Julia E. Duffy, chairman of the committee, and

Lawrence Barning, chapter president. The good news was announced at a recent meeting of the membership committee, where a report on state CSEA membership was given by Michael Murphy. Also heard from was John Corcoran, CSEA field representative, and Louis George, president of Kings Park State Hospital chapter.

Retirement System Study Calls For Improvements In Pensions, Benefits

(Continued from Page 1)
run and efficient," the consultants said:

"Considering the high amounts required to be contributed for the age 60 plan, it is easy to see that a great many employees, especially the lower paid ones, could not afford the luxury of the age 55 plan. Thus . . . it seems to discriminate against the lower paid workers, who have the greatest need of assistance in old age."

The report told the Comptroller that the trend in private industry and in government was toward a

non-contributory pension system. State workers now contribute an average of two to three per cent of pay toward retirement.

Levitt is sponsoring legislation to put the State System on a non-contributory basis. The estimated cost to the State is about \$5,000,000 a year.

Under the present law, the consultants noted that investment of as much as 10 per cent of the System's assets in equities was authorized. The firm said it might be desirable to substantially increase this percentage in the hope

of increasing the long-range investment performance of the fund.

System as 'Loan Agency'

The consultants also commented that Retirement System employees "must sometimes feel they are primarily operating a loan agency and only secondarily paying pensions." This was a reference to the large number of state employees who are required to take out loans while traveling on state business.

The firm said the administrative cost of about "\$2,000,000 for the State Retirement Division did not seem high in considering the large numbers of pensioners receiving checks, active members for whom contributions and other data must be carefully and correctly recorded, terminations of employment, deaths, retirements, and last, but not least, loans."

Variable Annuities

A large section was devoted to a discussion of variable annuities.

On this subject the firm said: "There has been considerable attention in recent years to variable pensions as opposed to the more standard fixed pensions. The measures adopted are ones which are expected to produce pensions which will generally reflect increases or decreases in the cost of living. The variations can be based directly on cost-of-living statistics, or, as is commonly done, the measure can be the actual investment performance of the pension funds' portfolio compared with an assumed investment performance."

Correction

In a recent edition of The Leader, it was announced that the European tour sponsored this year by the Capital District Conference of the Civil Service Employees Association would depart on August 7 and return Sept. 7. The correct return date is Sept. 2.

Don't Single Out One Group For Raises, Erie CSEA Urges Buffalo Mayor

(From Leader Correspondent)

BUFFALO, Feb. 12—All employees of the City of Buffalo are entitled to wage increases and "it is wrong for any group of employees to be favored by the city over any other group."

This, in essence, is the feeling of members of the Erie Chapter, Civil Service Employees Association, expressed in a letter to Mayor Chester Kowal.

The letter, signed by Alexander T. Burke, chapter president, followed a recommendation by Police Commissioner Howard Finney, formerly of the New York City police department, for general wage increases for policemen.

Letter Gives Stand

Commissioner Finney recommended that patrolmen receive \$7200 annually—a jump of \$1900 over the present yearly wage. In support of his recommendation, Commissioner Finney said a Buffalo Police Department survey revealed that most city policemen are in debt.

The letter prepared by the CSEA unit declared, in part:

"We feel that it is wrong for any group of employees to be

favored by the city over any other group.

All Have Problems

"All city workers have financial problems. Many of them, like policemen, have homes to pay for, children to be educated and debts to be repaid.

"The time has come for a searching study of the city's entire pay structure. That study will certainly show that the civil servant — the person who has dedicated his life to public service—is worthy of his hire.

"We believe that policemen deserve better pay and we hope they get it. We believe that all city employees deserve more pay. And we hope that they get the consideration due them, too."

ACCIDENTS take a TERRIBLE TOLL.

yet SICKNESS accounts for 70% of all disabilities!

It's a fact, each year millions of Americans lose billions of dollars in lost wages as a result of accidents and sickness. Statistics show that 1 out of 3 people will be disabled before age 65, and approximately 1,000 people are permanently disabled due to accidents alone each day!

The C.S.E.A. Accident and Sickness Insurance program administered by Ter Bush & Powell, Inc., offers this vital protection to any active C.S.E.A. member. Over 38,000 employees are already covered and many have received benefits which total millions of dollars. Enroll now in the C.S.E.A. Accident and Sickness Plan and provide an income if an accident or sickness disables you.

Orphan's Educational Assistance

The War Orphans Educational Assistance Program provides financial aid for the children of deceased veterans of the Spanish American War, World War I, World War II, or the Korean Conflict. However, the veterans death must be connected with active service.

Generally, the program applies to children between the ages of 18 and 23, although it is possible, in some cases, for children to begin school before 18 and to continue after 23. In no event may schooling extend beyond the 31st birthday of the children.

Young men and women in school under the War Orphans Program receive \$110 a month, if enrolled full time; \$80 a month, if three-quarter time, and \$50 a month, if one-half time. Schooling less than one-half time is not permitted.

Training under the War Orphans Education Program may be taken in schools and colleges only. On-the-job training, on the farm training, and correspondence school training, are prohibited. All courses taken by young men and women must be approved for veterans under the Korea G.I. Bill; such approval carries over to the War Orphans Program.

Questions Answered

What does the VA mean by a "presumptive period" in connection with diseases?

Generally, a war-time or Korean Conflict veteran who develops a chronic disease to a degree of 10 percent or more disability within one year of release or separation from service may be presumed to be service-connected for VA Disability compensation, in the case of active tuberculosis, multiple sclerosis, or leprosy, present law provides for a three-year presumptive period.

Because of my late husband's military service, I received some \$3,600 in death gratuity payment. Is this money subject to federal income tax?

No.

I have not been feeling well lately, and think I need a medical check-up. Will the VA do this for me?

No. The VA gives medical examination only to determine the presence of a condition claimed to be service-connected, when needed for government life insurance purposes, or when application is made for hospital or domiciliary care.

My father, a World War II veteran, died recently from causes not connected with his military service. In order for me to be eligible for the VA pension, since I am unmarried and not yet 18, what service requirements must my deceased father have fulfilled?

Your father must have had at least 90 days service, part of which was during wartime. During

World War II the wartime service dates are December 7, 1941 to December 31, 1946. He must have been discharged under conditions other than dishonorable.

Has the GI loan guaranty re-use provision been extended for World War II veterans, and if so, how long?

Yes, PL 84 by the 87th Congress extended the restoration privilege until July 25, 1967, for World War II veterans, and until January 31, 1975, for Korea veterans. The VA must have been completely relieved of liability and no claim may have been made against it for the previous loan if restoration is to be granted.

Who gets the burial flag used to drape the casket at funeral services?

The American Flag, provided by the VA, used to drape the casket of deceased veterans may be given to the next of kin or close friend or associate of the deceased.

Foreman Demands Reinstatement

LACKAWANNA, Feb. 12 — A former public works foreman has served notice on this city that he plans legal action if he is not reinstated to his post.

Michael Kogutek said he was illegally discharged for the post which, he contends, is covered by civil service. He has demanded immediate reinstatement with back pay.

His claim, referred to Corporation Counsel Norman Walawender for study, is pending. The city contends that Mr. Kogutek absented himself from his job without permission and had thus forfeited civil service protection.

A Pension Study

SOME weeks ago, these columns called for a study in depth of New York City and State retirement systems, with the hope that such a study would be non-partisan in effort and aimed at producing a uniform and equitable retirement plan for public employees.

At present, we pointed out, both systems are out of joint. Different benefits are paid to persons in the same service; interest rates vary, etc. Like Topsy, these deviations from original intentions "jess grew."

This week we are happy to report that one such study has been completed by a private firm at the request of State Comptroller. We cannot say at this time whether or not the study is accurate, but it certainly is interesting.

It suggests, for instance, that employees in the lower grades need a higher per centage of final pay for adequate retirement income than those in the higher grades. It calls for a larger investment of retirement funds in the general investment field. It points out that wholly-paid retirement plans are the trend in both public and private employment.

What we would like to see now is a similar study by all government units in the state, and a meeting of minds on this vital issue to re-align the retirement systems to suit contemporary needs, while at the same time projecting future demands. And it should most certainly be done on a non-political basis.

For the present, we commend Comptroller Levitt for issuing the results of this survey, which is sure to stimulate thinking in this area.

Executive Order No. 2

MAYOR Wagner's executive order number two which was delivered to all department heads this week drew sharp attention from all city employees.

The order now gives Deputy Mayor Edward F. Cavanagh, Jr., the sole power to allow the transfer of employees from one department to another. Interdepartmental "piracy" was given as the reason for the order.

What is drawing criticism is the possibility of interdepartmental promotions being stopped. This would be unsatisfactory to all, especially the civil service employee. The City would also lose good employees if this were the case. An eligible on the top of a city-wide list would possibly be frozen in his position if there were no openings for promotion in his department. A man at the bottom of the list may be in a department where there are many openings. This would allow the appointment of the last man on an eligible list before the first.

However, Deputy Mayor Cavanagh pointed out the reason was the transfer of top aides from department to department. These transfers, he said, cost the city money in training and loss of continuity.

We hope this is the only reason. We would not like to see a competent civil service employee lose his chance for promotion because he is not in the right department.

Hits "Mirage Of Equality" With Private Industry

Editor, The Leader:

The Director of the Budget, after a long study of labor statistics and a Presidential panel that included some of the wealthiest industrialists in America, concluded that the wage of Federal employees were far below the national average for comparable work in virtually every category.

I am therefore deeply moved by the (Federal) Administration's generosity in offering to grant these employees the increase required by today's wages and today's prices. The increase will come over a period of three years, the first installment of which would be received nearly a year from now.

The President, who has often complimented "civil servants whether they be high or low," now positively flatters them. He apparently considers them patient enough to wait for the things that they deserve now, and which the average American doing comparable work now enjoys, until a future date. After all, what is a year or two or three out of the other guy's life?

But is it only three years? One need not be a student of economics, like President Kennedy, to realize that by the time three years have passed and the long-awaited third installment has been received, the march (or, if the international situation worsens, the gallop) of inflation will leave the salaries of Government employees lower, relative to those in private industry, than they are now. Thus the mirage of equality with employees in private industry will be as far away as ever.

In these uncertain times it is incredibly unrealistic to determine what the standard of living of Government employees and their families will be three years from now.

Civil Service LAW & YOU

By HAROLD L. HERZSTEIN

Mr. Herzstein is a member of the New York bar (The views expressed in this column are those of the writer and not necessarily constitute the views of this newspaper or of any organization.)

Check Your Beneficiary

SUPREME COURT Justice Harold Tessler was elected in Queens County about a year ago. Long before that time, from 1946 to 1951, he was a member of the New York City Law Department with me. He had been in charge of real estate law in Queens County.

I ALWAYS had a terrific respect for Judge Tessler and it continues as he continues to write fine opinions like the one in *Kruze v. Kelleher*, which appeared in the New York Law Journal of October 27, 1961.

THE KRUZE CASE

MR. KRUZE had been an employee of New York City and a member of its Retirement System. He died on March 15, 1961. He had a credit for salary deductions and cash death benefits.

TO WHOM should these be paid? That was the question.

THERE WAS Mrs. Kruze, the plaintiff. She survived Mr. Kruze. However, the policy did not name her. Should the money have been paid to her?

THERE WAS Mrs. Marie Domingus Martinez, the former wife. Mr. Kruze had obtained a judgment of divorce against her in 1939 and she had remarried also. But the policy still named her as the beneficiary. Should she be paid in accordance with the policy?

THE RETIREMENT System had no difficulty finding an answer. It refused to provide the plaintiff with blanks upon which she might present her claim for the accumulated salary deductions and cash death benefit of her late husband, upon the ground that the same were not payable to her but were payable to the named beneficiary, Mrs. Martinez.

THE JUDGE DECIDES

THERE IS one thing that should be remembered about the Retirement System and that is the strength of a designation under it. Judge Tessler agreed with Retirement and wrote on this subject, as follows:

Upon the death of a member, the cash death benefit as well as the accumulated salary deductions then standing to his credit are payable to his estate to such person as he has nominated or shall nominate by written designation duly executed and filed during his lifetime.

THERE WAS nothing in this case which warranted the Court in making a finding that the money designated to be paid to Mrs. Martinez should be paid to Mrs. Kruze. Nor is it at all like the case of *Quin v. Annese*, New York Law Journal, October 14, 1940, page 1074, column 1, where the designated beneficiary acquiesced in the change and released all claims to the Fund. This was at best, perhaps, a plain case of a mere intention by a member of a retirement system to name his second wife as beneficiary in place of his first wife whose designation as beneficiary he never revoked nor took steps to change.

THE JUDGE decided this case in terms of retirement law as it is generally understood. The man who pays the premiums designates the beneficiary and when he dies his beneficiary remains unchanged by adversaries, retirement systems or courts. I wish that more of you knew this. A lot of policies which contain beneficiary provisions which seem like errors would be rewritten by more active pensioners.

Questions Answered On Social Security

Below are questions in Social Security problems sent in by our readers and answered by a legal expert in the field. Anyone with a question on Social Security should write it out and send it to the Social Security Editor, Civil Service Leader, 97 Duane St., New York 7, N. Y.

My son joined the army in 1958 and decided to become a career serviceman. Does he receive Social Security coverage?

Yes. Members of the armed forces have been covered by Social Security in the same way as people in civilian employment since January 1, 1957. They receive Social Security credit for their base pay for active duty. Their share of the Social Security tax is deducted from their base pay just as the Social Security tax of civilian workers is deducted from their wages.

Do I have to quit work complete-

ly to get Social Security benefits? No. You can earn as much as \$1,200 in a year and collect all your Social Security benefits. Even if you earn over \$1,200, you may be able to draw some payments for the year.

I am thinking of opening a small business. Can I get Social Security coverage this way?

If your net earnings in a year amount to at least \$400, you will receive four quarters of coverage for the year. If your net earnings are less than \$400.00 in a year, you will receive no Social Security credit for that year.

I worked for two years under Social Security before I was 18 years old. Does this work count toward the quarters I'll need when I retire?

Yes. You can get Social Security credit for work covered by the Social Security Law no matter how young or how old you are.

Looks like she got less than she bargained for. Rising prices in recent years have made many people feel the same way. However, electricity is one exception.

It's true many electric bills are higher these days. The main reason is the tremendous increase in the use of labor-saving and pleasure-giving appliances — television, dryers, etc. But the more electricity you use, the bigger the bargain. Thanks to Con Edison's step-down rates, the cost per kilowatt-hour goes down as your use of electricity goes up.

DOUBLE LOSS — The State of New York lost two dedicated civil servants recently when Dr. and Mrs. Hyman W. Abrahamer retired from Marcy State Hospital. Both had long careers with the State before going to work at Marcy, where Dr. Abrahamer was assistant director, and Mrs. Abrahamer was chief of nursing services and training. At the time of retirement, Dr. Abrahamer was also clinical assistant professor of psychiatry at the Upstate Medical Center in Syracuse. The Abrahamers now live in Fairhope, Alabama.

Craig Colony Aides Head Mason Lodges

Two members of the executive council of Craig Colony chapter of Civil Service Employees Assn. have been elected Masters of their Masonic Lodges. The Leader learned last week.

Samuel M. Seltzer, a past president of the chapter, was honored by being named master of the Lodge in Mount Morris and a similar honor went to Benjamin Hoagland, Master of the Lodge in Nunda.

Mr. Seltzer told The Leader that Richard Middlebrook, of Attica Prison chapter, CSEA, was elected for the same office at the Masonic Lodge in Attica.

There is no pension barrier in Federal employment against retired city and state employees, making this exam especially popular with these persons. Retired New York City and New York State workers cannot gain employment in city or state service without losing pension rights.

Filing for the test is limited to college graduates and those who will graduate within the next 21 months. However, three years or more experience in administrative, professional, investigative, technical or other responsible work will be accepted in lieu of the educational requirements.

For grade GS 5, paying from \$4,345 to \$5,830, candidates must meet the above experience or educational requirement. For the GS 7 positions, paying from \$5,355 to \$6,840, candidates must have an additional year of graduate study of a combination of graduate study and experience totaling one year.

Federal Service Entrance Examination tests will be given monthly until May.

Application form 5000 AB can be obtained from the regional office of the U.S. Civil Service Commission, 220 E. 42nd St., New York, 17, N. Y., or from the U. S. Civil Service Commission, Wash., D.C.

Permanent Jobs

\$78.40-a-Week Apprentices Jobs Open in Brooklyn

Apprentice jobs, paying \$78.40 a week to start, are now being offered by the Brooklyn Navy Yard.

The jobs are career-conditional, and are in the mechanical trades, which are listed below.

There are no qualification or experience requirements. The only requirement is to pass the test. It will contain questions designed to measure aptitude for learning and performing the job's duties.

The full title of the exam is "apprentice (first year) mechanical trades." Complete information on it is in Announcement No. 2-1-1 (1962).

It and application forms are available from most post offices (except the main post office in Manhattan); from the Executive Secretary, Board of U.S. Civil Service Examiners, New York Naval Shipyard, Naval Base, Brooklyn 1; and from the Second U.S. Civil Service Region office, 220 East 42 St., New York 17.

Applications for the test must be in by March 22. It will be given at locations throughout the New York

City area, including a few on Long Island, New Jersey and Westchester.

The Trades

The apprenticeship trades are: Blacksmith, boatbuilder, boiler-maker coppersmith, electrician,

electrician (power plant), electronics mechanics, joiner, machinist, machinist (marine), molder, painter, patternmaker, pipe coverer and insulator, pipfitter, rigger, sailmaker, sheetmetal worker, shipfitter, shipwright and welder.

Motor Vehicle Drivers in City Start From \$81

Beginning March 1, applications will be accepted by the City of New York for some 200 chauffeur and truck driver jobs. They pay \$81 a week to start. The filling period will end March 21.

The jobs are in almost all departments of the City government. They pay a top salary of \$102 a week.

There were no education or experience requirements for the last motor vehicle operator test, and there is no reason to expect any

change in the exam particulars. There was no age requirement for that last test. And candidates were required to have a valid chauffeurs license by the time of their appointment. The current eligible list for motor vehicle operator was set up in February of 1959 and will expire in February, 1963. Thus by the time the list from this exam is established, the other will be nearly expired.

The written test, to be held sometime in June, will be designed to measure candidates' knowledge of motor vehicle operation, general intelligence, aptitude, judgement and ability to follow directions.

There are 70 provisionals serving in the title now, and there are 200 budgeted vacancies. This means that 200 more jobs may be filed during the year, pending the budget director's approval.

Beginning March 1, official announcements and application blanks will be available from the Applications Section of the New York City Department of Personnel, 96 Duane St., New York 7, N.Y.

Next Exam For Peace Corps To Be Given Feb. 17

The next Peace Corps placement test will be conducted on Feb. 17. Postmaster of New York, has announced.

Applicants for this non-competitive examination, to be given promptly at 8:30 a.m., should report to Room 724 of the Federal Building, 641 Washington Street, New York 14, N.Y.

Peace Corps posters announcing the examination will be displayed on bulletin boards in local post offices.

Further information may be obtained by writing to Peace Corps, Washington 25, D. C.

Personal Contact Called Most Important Point In Making Impressions

(Special to The Leader)

A recent issue of the Public Administration Review notes that the "point of sale," where an employee meets the public, is a significant factor in the determination of people's impressions of a government organization.

In discussing the public relations of government agencies, the author of the article, David Cox, a management consultant, emphasizes the point that legal interpretations hamper a government employee's ability to satisfy customers' wants. However, within the framework of rules which must be followed, an employee's behavior in dealing with the public is most important in establishing good public relations.

Need Is Low Sometimes

In his study of local unemployment offices in an unnamed state, Cox found that the need for "public relations" was low because of the stoical attitude of applicants and because of the inflexibility of the laws under which employees carried out their duties. Specific rules governed eligibility and amount of coverage.

Cox estimated that 85 percent of the activities of all government type organizations are constrained by regulations, leaving about 15 per cent where public relations might be important. In most cases where public relations is required, Cox said, "it is predominantly a point-of-sale focus with the customer-employee axis the significant one."

His Conclusions

Cox's conclusions about the importance of personal relations are supported by a little known study conducted by a large petroleum company. The report of the study stated that people gained 94.7 per cent of their favorable impressions about the company from

Vernon, who are or become members of CSEA may apply for its low-cost Group Life Insurance.

Applications and explanatory literature can be secured from any CSEA Chapter or from its headquarters at 8 Elk Street, Albany, and 11 Park Place, New York City.

Under the CSEA Group Life Plan, a member 29 years or younger secures Term Life Insurance protection for 10¢ bi-weekly per thousand. Older employees enjoy proportionately low rates.

In addition to low cost, the plan provides many advantages. Claims are paid to beneficiaries of deceased members within 24 hours after notice of death is received at CSEA headquarters without red tape. Payment of cost is made thru convenient payroll deductions.

The CSEA Plan now covers over 50,000 of its members and has been steadily developed and improved throughout the years. It provides double indemnity for accidental death and waiver of premium if total disability occurs before age 60. The premium charges to insured members under the plan have been reduced on several occasions in the past and cash refunds have been paid to insured members.

The continued development of the CSEA Plan was made possible

by ever increasing membership becoming insured thereunder. The total membership of CSEA is now over 98,000. Any employee of the state or any political subdivision is eligible for membership therein. State Police, prison guards, and other members who have hazardous employment usually have to pay additional premiums for Life Insurance, but in the CSEA Group Plan cost to all members, regardless of employment, is the same.

The special offer is good only during February, 1962. Bring this matter to the attention of your fellow employees. Within CSEA circles, the usual reference to its Group Life Insurance is "How can I afford not to have it?"

Manhattan State Chapter Readies for Elections

Rent Aides Assured

(Continued from Page 1)

1. That employees who are not transferred to the City of New York would go on city preferred lists as well as state preferred lists;

2. Options to employees to retain their present medical coverage under the State Health Insurance Plan;

3. Full assurances that transfer shall not decrease gross annual pay;

4. Full conformance with section 70 of the Civil Service Law in its terminology. Feily said the present bill provides that New York City may certify to the State Civil Service Commission those employees who it will not accept. It is the obvious intent of the bill, Feily said, to provide great latitude to the city in the administration of the Rent Control Law.

However, Feily told the mayor, "we are confident that you will share with us the view that civil service employees should receive even greater assurance of job security than are provided in the measure at this time."

Hits Effective Date

The Minority Leader pointed out that under the Governor's plan an official making \$12,000 would receive \$1,000 while a \$4,000-a-year employee would get only \$200.

The Democratic leader also attacked the August 1 effective date of the proposed raise as "too close to election day." He proposed that the raise be made effective on the April 1, start of the State's fiscal year.

In another development, the Senate received a bill from the Assembly where it passed with only one dissenting vote, which give civil service employees 20 days instead of eight days to answer charges which could lead to removal or other disciplinary action.

Wilm Seeks Title Changes

(Continued from Page 1)

These are:

1. Game protectors may now be appointed from eligible lists on a regional rather than a county basis.

2. A required training course for new appointees to be conducted by Cornell University.

3. New supervisory duties under the title.

4. More responsibility in programs arising from the Fish and Wildlife Management Act.

5. Complete peace officer status under the game protector title.

6. Enforcement of the State Navigation Laws.

7. Greater participation in handling of criminal cases.

8. Increased public relations duties.

Has CSEA Support

Under the proposed new qualifications, Conservation Officers would be required to have completed two years of college training, including not less than six semester hours of biological sciences; or to have graduated from the New York State Ranger's School or its equivalent; or to have graduated from high school with two years of experience in game, fish or forestry work; or to have a satisfactory equivalent of any of the above.

These proposals have had the full support of the Civil Service Employees Assn., which has worked for some years to better the careers of Conservation Department employees in these areas.
