NORLDS FAIF TO SPONSOR<br>NATIONLL POSTER CONTEST<br>FOR LIL SCHOOL STUDENTS

On Tuesday, March 30, Grover A. Whalen, president of the 1939 New York Worlds Fair, announced at the annual meeting of the Eastern Art Association in New York a national poster contest open to all students.

The contest will be in four age levels of competition. They are: Children from the first to the seventh grade, children in the seventh, eighth, and ninth grades, children in Senior High Schools, and students in art schools and universities. The maker of the best poster in each of thsee groups will receive a gold medal; the makers of the second best will receive a silver medal and the next five in each will receive bronze medals. Numerous students of honorable mention will receive certificates.

A state board of judges will select from the best posters of each age level the poster which they think the best from that state, of course they will tike into consideration the ages of the contestants. To the student designing this poster will go a silver trophy and a cr.ance to compete for the grand prize. A jury of nationally known poster artists will select the Grand Prize winner. This student will receive a free trip to the Fair as well as a gold cup to be awarded on Feb. 15, 1939.

Address all correspondence to the State Superintendents of Commissioners of Education.

## PRESENT WORK - FUTURE GATIN

We hate to bring up an unpleasant subject, but perhaps it's about time we began to consider the fact that the final exams are near at hand. From early April to eaxly June isn't much time when you stop to figure it out. In fact, it's a dangerously small space for most of us to get caught up on work that we just let slide from time to time.

A little systematic sjudy each night (bebinning this evenine) will accomplish a ereat deal more than the sketchy, last minute cramming that most of us inally resort to. Remember, the higher your marks are each June, the better your recommendation for college will be. So your Hígh School marks become enormously important to you in later years. igholarships are won only by studenus who really do their best.

It isn't only that the phase of passing of the excms counts, but the material in your courses must be well learned if it is 012 to do you any eood in later years. Every subject that you take in High School is going to prove valuable to you in time.

Another of the unendin problems confronts us again. It is not possible to please everyone, so I tuess there will $\varepsilon$ lweys be controversies. At the besinning of the term our assembly progrems were on Veanesday. This wes fine for a while. However, it seems that if the firls went to assembly on Wednesday they had to miss GoA.C. on Friday in order to take Chemistry Leboretory. The matter wes takch to the student council. There it wes decided thet the essemblies should be changed to Fridey. This ellowed the girls to go to G.A.C., but miss the ussumbly programs.

However, tiais involves difficulties, A few people were satisfied and many others annoyed. It serms that state College cilso hes essombly directly before us. If they heppen to run over their scheduled time, thet makes our progrem shorter. In fact, le.st week it cut our program in helf.

It is very discoureging to everyone, especicily the actors. They con't get the stage set in the few minutes they f e c.llotted between the two progrems, perticulcrly if the college hes e pley. Porpaps it would help if we could run over e fev minutes, but \& college class prevents that possibility. The most serious thing is thet some poople miss their lunch evory wook, due to this schudele. In conclusion, miny students heve remarked thet f . homoroom period on Fridey is very hendy to get homework done before the weekend.

Whe.t do you scy? Just ste.te definitely whet you went. The Sudent Council and the foculty have done their best to clear up the problem. Suggestions will be gre.tefully roceived.

## WHAT AEOUT MIE COAFEHENCE ROOMR

For the pest fow ycers Milne pupils end their toachers have been heving conforences to help thom in their work. The plece of mectins has senerelly been the cuditorium or the holl benches. Because the benches soon become filled, the cuditorium has been usea more. Now thet the nuw rule states thet no conferences are to be held in the cuditoruim it is very difficult to find c. plece for one. However, there is $\varepsilon$ room off the librery which is colled the Conference Foom. It wes orieinclly used for conferences, but recently this hris boen forbidden.

Why cint the students of Milne use this room? While tocchers end pupils wi nder around trying to find room to hive conferences, il.o Conference Room remeins idle.

HOOK: LINE SZ二D S SNKER
Here are the latest reports of the great tribe of fish catchers. Bill Geisel caught one twelve-inch brown trout. Milla Hall spent a few days fishing in st. Lewrence River, and caught 20 large perch. This proves that a woman can catch fish.

I caught 5 brown trout hn the Anesquethaw creek. They ranged in length from 10 to 11 inches. I caught them in self-defense.

## Bums Along the *nesquethan.

Yes sír, $1 \vec{t}$ was in the wee small hours of the mornins, Saturday to be exact, and I was paged twice to get up and have breakfast. I went and opened my tackle box. Whew: Did the moths fly outis? I thought I had opened up my pocketbook. After much difficulty in getting ready I met my friend, and off we went. We drove through a snowstorm so thick it looked like ping pong balls from Heaven. We finally got to the stream, and it was frozen over. What a job removing theice. We set up our tackle, and baited our hooks with worms. By the way, it wasn't very warm out. It was so cold our lines froze in midpair, and the fishes carried blow torches on their backs to thaw out our worms that were presented on a hook.
