County Payroll Deduction Bill Passed by Assembly; Introduced By A Former CSEA Regional Attorney

ALBANY, March 17 — The State Assembly has passed a bill — introduced by a former regional attorney for the Civil Service Employees Association—which would permit political subdivisions to deduct employee organization dues from payrolls.

John J. Conway (R.-Rochester) made his debut in the Assembly by introducing and speaking on behalf of the bill. Until recently Mr. Conway was CSEA regional attorney in the Rochester area.

The bill now awaits action in the Senate, where it was introduced by Sen. A. Gould Hatch (R.-Utica).

Permissive Legislation

The legislation is permissive and does not bind either the subdivision or an employee to participate.

The Civil Service Employees Association has long sought such legislation to provide an easy method of payment for dues and other items.

Some counties already have granted payroll deduction of dues and Comptroller Arthur Levitt had ruled earlier that such deductions are not contrary to current statutes.

The Conway-Hatch bill will allow payroll deductions on all subdivision levels.

Applies to All Subdivisions

By being a permissive bill, the legislation in no way forces a "closed shop" on employees and thus permits employees themselves to make a choice on whether or not they wish to take advantage of this method of payment.

Hearing Set On Reallocation Of Prison Guards

A hearing on the reallocation of Correction Department prison guards from grade 11 to 14 will be held March 20 at 10 A.M. in Hearing Room 3, State Office Bldg., Albany, before J. Earl Kelly, State director of compensation and reclassification.

The hearing was requested by James Adams, Correction Department representative for the Civil Service Employees Association.

A report on the session will appear in next week's issue of The Leader.

Senate Passes 40-Hour Bill; Fight Still On For Salary Increases

ALBANY, March 17 — The 40-hour week for State institutional employees took a step nearer reality last week when the Senate approved the work reduction bill introduced by Sen. Fred Rath (R.-Utica).

The Assembly is expected to okay companion legislation, introduced by Assm. David R. Townsend (R.-Rome), within days.

The bill will then go to Governor Averell Harriman, whose approval is certain.

The legislation, sponsored by and introduced at the request of the Civil Service Employees Association, carries a no-loss-in-take-home-pay provision. The 40-hour week would take effect after July 1.

The reduction of the institutional work week represents a

great triumph for the CSEA, which fought for years to get these employees on a 40-hour week.

First break in the six-day week came in 1956 when Governor Harriman reduced the work week by four hours.

The next year, Republican leaders sliced another two hours off in a general employee program that also carried wage increases for State workers.

This year, both political parties announced they were in favor of the final reduction.

Pay Fight Still On

In the meantime, Association officials are carrying on their battle to obtain a wage increase for State workers.

Earlier in the session, Governor Harriman had announced a pay program that would grant pay boosts for most workers but his proposals were later deleted from the budget by the GOP.

Restoration of these raises in some form can still be placed in the supplemental budget, however, and the Association is conducting a fierce campaign to convince Republican leaders of the vital need for a round of increases.

State workers have refused to accept the GOP deletion as final and are continuing to pour letters to their representatives urging them to support a salary increase. Disbelief that the Republicans will not come through is rampant among employees in view of the extensive revising of State salaries begun by the GOP last year.

Chief concern of these employees is that they will again be left behind in salaries while inflation continues, despite current recession reports. Thousands of these employees have had no new money in years.

Final decision is expected within days as the Legislature will probably end its session sometime late next week.

Other Legislation

Now that the major business of approving a new budget is out of the way, action will be forthcoming on many other pieces of employee legislation.

Association bills covering vested rights, general retirement improvements, better working conditions for State troopers, political subdivision improvements and many other items are expected to be acted upon.

CSEA Offers Life Insurance Without Medical Examination To Members Who Are Under 50

During March the headquarters of the Civil Service Employees Association will accept applications for its Group Life Insurance from eligible applicants age 50 or younger without medical examination. Older eligible employees must take the usual physical examination at the expense of the insurance company.

Employees of the State and of

the counties of Westchester, St. Lawrence, and Chemung, and the cities of White Plains, Ogdensburg, Potsdam, Newburgh, and Elmira are eligible for the CSEA Group Life Insurance providing they are or become members of CSEA.

Applications can be secured from any CSEA chapter or from its headquarters at 8 Elk Street, Albany. Completed applications should be sent promptly to CSEA Albany headquarters.

The CSEA Group Life Insurance has been in effect since 1939. Thus far it has paid over \$11,000,000 to beneficiaries of insured members. The claim checks are in the hands of the beneficiary usually with 24 hours of the time CSEA is notified of the death.

Very Low Cost

The cost of CSEA Group Life Insurance is very low — 13c bi-weekly per thousand of insurance for members 29 years and younger. Older employees are charged proportionately low rates. Payment of premium is by convenient payroll deduction.

Almost 40,000 CSEA members are insured under its Group Life Plan. Because of the large number insured and satisfactory loss experience, the plan has been constantly improved for the benefit of members. Within the last month, because of favorable loss experience during the preceding year, four weeks' premium, minimum \$2, was refunded to all members of the CSEA Group Life Plan.

All eligible members should investigate the CSEA Group Life Plan carefully and suggest the same action to all their fellow employees.

CSEA Group Forms Four Corner Club

ALBANY, March 17 — A new club was formed at the Civil Service Employees Association meeting in Albany this month. It was named the Four Corner Club for the four corners of the State from which Association members come and was formed to promote better understanding and interest of the groups who serve the State. It has a closed membership of 12, a charter, and officers.

Reform Group Plans Suit Over Pay for No Work By Legislative 'No Shows'

Legal action to require restitution of funds improperly received by New York State legislative aides for work not performed was threatened by the Civil Service Reform Association. In a letter to legislative leaders of both parties, William C. Greenough, chairman of the Association's executive committee, said: "The misuse of legislative staff positions for selfish patronage purposes is degrading to our fundamental concepts of governmental morality and demoralizing to the competent people who provide the technical assistance to the proper functioning of the legislature."

Three-Point Program

Urging action at this session of the legislature, the Association suggested a three-point corrective program:

1. Establish standards and qualifications for appointment on a non-competitive basis, to assure that all persons in legislative staff positions are qualified to do the work for which they are hired.
2. Require legislators to be responsible for full and faithful performance by staff members.
3. Establish a legislative ad-

ministrative body to make certain that all staff positions are necessary and to provide centralized records for public inspection.

The Association stressed that it did not feel it necessary to bring legislative positions within the competitive civil service.

Watson Asks Civil Service Standards for Political Jobs

METUCHEN, N. J., March 17—Political appointments should have the same high standards as civil service, James R. Watson, executive director of the National Civil Service League, told the Of-

scrutiny and stricter criteria for men chosen to direct our government."

Pointing out that career employees are not involved in the charges of corruption, Mr. Watson said: "The career service deserves growing recognition for its integrity and emphasis on competence and qualifications. In the complex and increasingly specialized field of government, Civil Service workers are proving the value of merit and experience.

"Career people depend on political leaders for policy supervision, and only when the appointed political leadership fails does corruption creep into the working forces of government. When selfish politics and favoritism become the primary influence in making decisions, this means that the competent technical work of a career staff is ignored and impaired."

To build public confidence in government service and to improve employee morale, he said it is essential that appointment at all levels of government be based on merit and integrity.

"These are the same principles which have helped the Federal Civil Service grow from 14,000 in 1883 to 2.4 million men and women today," he observed.

Interest in Health Plan Choice Growing With NYC Employees

New York City employees and their organizations have become increasingly interested in a re-examination of the City-sponsored health insurance now being offered to them.

Interest has been largely stimulated by the recently announced results of the New York State health insurance program in which 85 percent of the State employees selected individual plans from among three choices offered. Although the New York City plan has been in operation for almost twelve years, less than half of the eligible City employees are now participating in the single plan available to them.

Several leaders of employee organizations have expressed their dissatisfaction with the present scope of the City health insurance coverage. Walter J. Sheerin, president of the Uniformed Firemen's Association, representing some 10,000 City firemen, recently issued a statement recommending a revision of the existing program.

THE PUBLIC EMPLOYEE

By JOHN F. POWERS
President
Civil Service Employees Association

Keep Writing

There are still two weeks before the 1958 Legislature is to adjourn. These are important weeks. During them the bulk of the Association's program will be considered. Also, during the last few days of the session, a supplementary budget bill will be introduced. This supplementary bill could contain a salary adjustment for you. Therefore, do not let your interest in the Legislature lag at this time.

Keep telling your legislative representative how interested you are in the program of the Association. Keep writing to him how you feel about the salary situation. A sheet of paper and a three-cent stamp, or a postcard, and your own personal reactions are all that is needed.

Bear this in mind—these last fourteen days are vital to your interest. Keep talking . . . KEEP WRITING!

Early Application Urged To Insure Space on Chapter European Tour

Early application for the summer tour of Europe sponsored by the New York City chapter of the Civil Service Employees Association has been urged by Samuel Emmett, chairman of the chapter's travel committee.

An announcement of the tour has been mailed to chapter members and Mr. Emmett pointed out that since only 97 persons can be accommodated reservations should be made early to insure space. A standby list will be made out but there is no assurance those on the list will be able to make the trip.

The trip, which includes round trip air transportation, hotels land travel, meals, sightseeing tours, etc., is strictly limited to members of the New York City chapter and members of their families. None other need apply.

Pay Later

Mr. Emmett reminded members that they may "go now and pay later" by financing the trip through a long-term loan from the New York State Employees Federal Credit Union, with offices at 80 Centre St. and 270 Broadway.

The trip will begin on July 23 when tour members fly from New

York City to Brussels, where they will spend three days visiting the spectacular Fair.

From there, the tour will head for Germany where visits to romantic old castles, trips to Bonn, Munich and Heidelberg and a steamer ride on the Rhine will be included.

Dinner in Venice

From Munich, the tour will go over the beautiful Austrian Tyrols bringing the travelers to Venice in time for their evening meal.

Leaving the city of canals, the journey will continue to Florence and then on to Rome. Audiences with Pope Pius will be arranged if his Holiness is receiving.

After leaving Italy, the famous Swiss Alps will be visited, with the tour members spending time in the charming alpine city of Lucerne.

Fabulous Paris will be the last stop and, during a two-and-a-half day stay, time for a complete sightseeing tour of the city will be provided, as well as time to do things on your own.

All information and applications for the tour may be had by writing to Sam Emmett, care of the New York City chapter Travel Club, Room 905, 80 Centre St., New York 7, N. Y., or by calling YUkon 6-7573.

Membership Report Urges Sustained Effort To Push Association Rolls Higher

Reporting to delegates at the spring meeting of the Civil Service Employees Association in Albany, Vito J. Ferro and James Treuchtlinger, co-chairmen of the Statewide Membership Committee, urged continued membership drives to expand the strength of the Association.

Mr. Ferro reported on the status of state membership rolls and Mr. Treuchtlinger on the County Division.

Mr. Ferro told delegates:

"The total paid membership in the Association as of February 1, 1958, was approximately 73,150. With almost seven months of the current membership year remaining, our chapters throughout the State have the opportunity, if proper effort is made, to establish an all-time high in total CSEA membership during the current year which ends on September 30. At the outset, our committee urges all chapters to establish a complete Membership Committee consisting of one member in each unit of the chapter. It is important that such committee be educated and reactivated. Through experience we have found that only by a complete personal canvass and recanvass of all non-

members can our CSEA membership be substantially increased. CSEA has a fine record, gives good service, and has a progressive program. The personal contact with the non-member is necessary to sell this good product to the non-members."

"Our Committee urges every chapter to set up an efficient method of canvassing new employees as early as possible after they first come to work for the state and its political subdivisions. A Welcome Committee should be established in every chapter to assist new employees generally on the various problems confronting them and secure their CSEA membership support.

As to the State Division, as of February 21 there were actually 55,614 on payroll deduction and 1,808 new payroll deductions ordered on payrolls and 5,930 who made direct payments to headquarters plus approximately 1,000 on pending status on payroll deduction who were on leaves, etc. — which makes a grand total of 64,352.

"Obviously, many State Division chapters have become over confident as to membership because of installation of the payroll deduction system for dues. In these chapters there has been a marked decline in the activity and organization of the Membership Committee caused no doubt by the chapters being relieved of the previous task of membership renewal of all members on a direct payment basis. Such lethargy could react very unfavorably on the overall membership picture of these chapters are not alerted. It is essential that the direct contact with the member and the canvass of the non-members be maintained by continuous activation of a chapter Membership Committee which is complete and well advised on all matters.

"Our Membership Committee will in the near future send a questionnaire to all chapters to determine the exact situation as to membership in each chapter and we take this opportunity of urging all chapter leaders to make certain that the questionnaire, when received, is given full consideration and that full information be furnished on the questionnaire and returned promptly to CSEA headquarters. The in-

formation developed from these questionnaires will be used to formulate the future ways and means of gaining additional membership strength.

"Our committee takes this opportunity of commending the chapters and its leaders for their continued unselfish efforts to build up the membership strength of our organization. Our organization does not merely consist of payment of membership dues but it is a cooperative effort into which Association and chapter officers and committee donate unselfishly of their effort and time to gain improved work conditions for their fellow public employees throughout the state.

"The continued efforts of all our delegates and chapter officers and committees is urged to establish a new membership record this year.

County Membership

The paid membership in the County Division as of February 21 was 8,798 compared with 8,729 a year ago, a net increase this date of 69.

A complete billing of unpaid members was mailed on February 21. At an early date CSEA headquarters will furnish all County Division chapters with lists of unpaid members and with information which should be of assistance in securing new membership.

A high level discussion of the problems of obtaining increased County Division membership has been held and recommendations made to the president. A complete study of the problems by CSEA staff, legal counsel, field representatives, and the co-chairman of the County Division, acting as a group, has been undertaken. It is hoped that as a result of this study certain recommendations will be made to the Board of Directors that will modernize and streamline our policies concerning solicitation and renewal of membership.

The County Division of the Membership Committee thanks the Association officers, headquarters staff, chapter officers, chapter Membership Committees and all who have assisted, for their efforts and cooperation in making CSEA the strongest and best government workers' organization in the United States.

Top Job Plan Praised

Endorsement of the new Career Executive Service in the Federal government was given by the National Civil Service League. James R. Watson, executive director, wrote President Eisenhower that "the introduction of this modern personnel concept of a corps of trained administrators is the most constructive step in Federal Civil Service since the college recruiting program was started in 1934."

President Eisenhower appointed a five-man committee under the chairmanship of Arthur W. Flemming, former U.S. Civil Service Commissioner, to administer the program. Other members are: James P. Mitchell, Secretary of Labor; Charles B. Stauffacher, Continental Can Company; James H. Taylor, Procter & Gamble Co.; and Civil Service Commissioner Fred J. Lawton. Messrs. Mitchell and Stauffacher have long served as members of the executive committee of the National Civil Service League.

Mr. Watson explained that at first 500 will be picked and that the total would soon be expanded to 1,500. President Eisenhower is prepared to make it 2,000 eventually.

State Pay Raise Legislature's Duty

FINAL outcome of the issue of a pay raise for State employees is still uncertain but we cannot believe that Republican leaders will let the current session of the Legislature pass without action on this issue favorable to the employees.

The shock of deleting Governor Harriman's pay proposals from the budget is still being felt among the State's public employees. Last year's action by the GOP on State salaries gave the employees every reason to hope the Republicans were really going to take the giant steps necessary to place the public worker in a fair position financially.

The workers are not making excessive demands. They ask only that they be paid a sufficient wage with a real relation to the current industrial employment market. This is the only method by which they can keep afloat financially—and morale wise.

The word "recession" is all around us but it has a steady companion—inflation. Whatever the depth of the recession it has certainly done nothing to depress the cost of living and this is a fact that must be faced in dealing with a salary increase for State workers.

The action taken by the Legislature on this problem will have an effect for years to come. One whole year without any pay adjustment at all will place the public employee in a really serious financial position, creating an area where it will be impossible to catch up.

Sober thought is needed on this issue and such thought should produce quick action in granting a pay raise.

Questions Answered On Social Security

WHY DO WOMEN workers and wives between the ages of 62 and 65 receive reduced benefits? C.E.O.B.

The reduction in benefits for women in these ages resulted from the compromise by Congress to liberalize the age requirements for women without raising taxes needed to pay for these additional benefits. The average woman who accepts reduced benefits at an earlier age should receive the same total benefits because of the additional payments before age 65.

WHY ARE wives' benefits withheld for months in which the husband works? C.J.E.

The wives' benefits are a supplementary benefit. They are paid because of a loss of wages by the husband. If the husband is working, the basis for the wife's payment no longer exists and she, therefore, does not receive her benefit.

WHY SHOULD a working wife pay Social Security taxes? Won't

she get benefits from her husband's Social Security? J.V.

Although a wife receives benefits based on her husband's earnings, nevertheless, her own Social Security gives her additional protection. She can become eligible for her own retirement eligible which can be higher than her benefits as a wife. She will also have protection against the hazard of severe disability. If her husband becomes unable to work and she supports him, he may qualify for benefits at age 65 on her Social Security. In the event of a wife's death, benefits may be payable to her widower and any young children.

WHY CAN'T I name my own beneficiary for Social Security in case of my death? C.C.

Because of the social insurance concept, Old-Age and Survivors Insurance aims to protect the families of deceased workers. Generally, the family includes the family includes the widow and children. To make sure that the widow and children get an income

LETTERS TO THE EDITOR

HEALTH PLAN CHOICE FOR
CITY EMPLOYEES BACKED

Editor:

Our organization read with approval your editorial headed "Health Insurance Choice" in your issue of March 4. Some of our members belong to HIP and others are members of the Blue Cross-Blue Shield Systems. Many of those belonging to HIP are dissatisfied with the treatment they receive and feel that the State employees received a much better deal in having three plans to choose from. Those of our members who belong to Blue Cross-Blue Shield pay all of the charges themselves; New York City does not contribute anything.

We feel that the City should give its employees the same choice that the State employees were given. Then those of us who wish to pick our own doctors and belong to Blue Cross-Blue Shield would receive the same 50 percent contribution from the City that the HIP members receive. At the same time, the HIP members would not be "captive" members of one group; they could select one of three groups to join and receive better treatment and more liberal benefits.

PROMPT BENEFIT ASKED
FROM ANY UPGRADING

Editor:

We have read with great interest H. J. Bernard's column in the March 11 issue of The LEADER on upgrading of civil service employees.

As Mr. Bernard pointed out, the upgrading formulas adopted by the Federal, State and local Governments have been unfair to the vast majority of civil service employees. So far as the New York City civil servants are concerned, whenever a certain position was upgraded, say, one salary grade

LOOKING INSIDE

By H. J. BERNARD
Contributing Editor

Government's Moves Toward Regimentation

COMPULSION is becoming more and more the first refuge of government in its efforts to solve problems affecting its employees. Objectives may be laudable, the mistake may be nothing worse than excessive zeal, yet if all compulsion plans were adopted, the employees' predicament would be a sorry one.

Both the Federal and the New York City governments afford current examples.

In connection with the budget bill of the U.S. Treasury Department, it is proposed that instead of paying employees directly, that lump amounts be deposited in banks, and apportioned by the banks to the employees' individual accounts. Such a plan would reduce the work of the department's Bureau of Disbursements, that issues pay checks at the rate of more than a million dollars a day to 2,400,000 employees. Employees would be compelled to have bank accounts, not necessarily checking accounts.

A Money-Savings Plan

Compulsory bank accounts would mean that many employees who don't have a bank account would be required to open one, and might be encouraged to save. On the other hand, insufficient pay, rather than employee profligacy, may be the main reason for having no bank account. The most important requirement, and one that no employer, not even government, can finally escape, is that an employee must be paid what he's worth. Private industry has little means of such escape because of the strength and power of unions, but government seems to be able to transform necessity into discretion.

The issuance of a relatively small number of checks to banks, instead of a separate check to each of nearly a million and a half employees, would save the Federal government a vast amount of money, hence the economical aspect of the plan can be hailed from the rooftops, but not without the harmonics of regimentation being heard.

Whether an employee chooses to have a bank account or not is his business, and none of the government's business, and the more the government minds its own business, the better off will not only its employees be, but the nation at large.

The taste of regimentation breeds a habit, like a drug. If Federal employees are forced to have bank accounts, and possibly in federally chosen banks, then State and local governments and even many of the large private corporations would have reason to propose amendment to the law so that they, too, could pay all their employees by group check, instead of on the individual and personal basis.

Alternative Proposal

The economy motive is uppermost, as indicated by an alternative proposal that, should the original one prove unacceptable, agencies should be permitted to issue the checks themselves. That would be much better, and employees probably wouldn't object, since they would continue to get their individual checks. But with each agency assuming a responsibility that it has yet to prove itself capable of discharging (except the Treasury Department), there'd be less likelihood of all checks being received on time.

This nation was founded on recognition of the rights and dignity of the individual. The more we dishonor that principle, the farther do we stray from the foundation.

Making Unions Behave

The New York City example is an effort made in the Council to enact a local law to regulate unions and other employee groups. Some of the unions may be locals of internationals whose former leaders have gained considerable notoriety. The temptation to ascribe to the locals the faults of former leaders of their internationals is strong, reinforced with a desire to set a local example of how the overall problem should be solved. Federal legislation intended to correct abuses in union management is high on the agenda of the present session of Congress.

The effort in New York City, not sponsored by the Wagner Administration, hence not likely of adoption, would sharply restrict the purposes for which unions could spend their money, an invasion of the functions of the union and the duties of their officers and boards of directors. Sincerity of the purpose of the proposed legislation is unquestionable. The effort no doubt is one for honesty in union management. However, the proposed method goes far beyond requiring information. Also, failure to comply with the restrictions would result in denial of recognition of the union, hence would put it out of business. But honesty can't be purchased at the price of freedom. It can not even be legislated. All that can be done, and should be done, is to compel unions to meet reasonable requirements. This the Board of Estimate has done by requiring unions to notify their members of the amount received in dues every six months, and how the money was spent.

Labor Commissioner Harold A. Felix submitted an able brief, pointing out the defects of the Council bill. Employee organizations hailed his objective and penetrating analysis. Local 267, Teamsters, passed a resolution thanking him for a job well done.

Law Cases

Sidney M. Stern, counsel, reported to the New York City Civil Service Commission on law cases as follows:

JUDICIAL DECISIONS

Special Term

Pearl v State Dept. of Civil Service. (Supreme Court, Albany County). Petitioner participated in a competitive promotional examination for certain positions in the Insurance Department. He failed to receive a passing grade on the group oral test. In this proceeding he attacked the test procedure and the rating given to him. The court dismissed the petition, holding that the oral examination was competitive in that all candidates were examined under similar conditions and their performance measured by the same standards and criteria and that it was objective in the sense that stenographic minutes and a tape recording were made of the examination which can be reviewed. After reviewing the transcript and recording, the court found the rating given the petitioner was not arbitrary and was based on reasonable foundation.

Commerford v Jennings. (Supreme Court, Nassau County). Petitioners seek to review the ratings given them on a written promotion examination for clerk in the Supreme Court, Nassau County. The court increased the rating accorded various answers with the result that petitioners were held entitled to a passing grade. It was pointed out that the court is not justified in interfering with the action of the civil service commission solely because of a difference of opinion as to the rating to be given to an answer; but that it has that duty where a review of all the facts shows that the assumptions upon which a question was framed were erroneous, or that the standard used in rating the answer is wrong, or if correct in fact has been applied in an arbitrary or capricious manner.

Waters v Connor. (Supreme Court, Westchester County). This action was brought to declare invalid certain actions of the Planning Board of the Village of Mamaroneck on the ground that one of its members, who had been a member for nineteen years, had failed to take the required

oath on his re-appointment for a new term. A motion by defendants for summary judgment was granted. The court held that under the Public Officers Law the member continues in office until his successor shall be chosen and qualified and that his failure to take the oath of office would not prevent him from discharging his duties.

PROCEEDING INSTITUTED

Mazzola v Schechter. Petitioner, a candidate in examination for housing inspector, challenges the key answer to one of the questions in a multiple choice written test.

DECISIONS

Appellate Division

Raskin v Board of Higher Education. Petitioners sought to compel their promotion to the rank of assistant professor. Special Term denied the application, holding that the Board of Higher Education is the sole body authorized by law to promote members of the instructional staff of City colleges and the court cannot usurp this function. The Appellate Division unanimously affirmed Special Term.

(Continued from Page 6)
as a result of appeals to the Salary Appeals Board, all persons in that position should have been placed in the corresponding increment step of the new grade. In other words, all employees should have benefited immediately by the upgrading instead of only those whose salary was at or below the minimum of the new grade.

In our opinion, the upgrading of any position resulting from appeals taken is a tacit admission by the Appeals Board that the grades adopted in the Career and Salary Plan were too low. Had the higher grades been incorporated initially in the Plan then every employee in a particular position would have benefited salarywise. This is a deep-rooted conviction of our organization. We believe that it is the only equitable way to effectuate the upgrading question.

GOOD EATING DEPT.

Long ago, at PETIT PARIS, we departmentalized our restaurant. Like government itself we realized we could hardly hope to supply the best in quality and service without employing specialists and dividing our operation into sections best fitted to perform their special duties. Top of the list is our GOOD EATING DEPT. Every PETIT PARIS employee has a share in the responsibility of its success. That's why State employees, from commissioner down to the clerk, have made PETIT PARIS their rendezvous for good food. Cost? A few cents more, perhaps, than at the truck stops and the chain store lunch counters. But it's worth it. PETIT PARIS, 1000 Madison Ave., Albany, N.Y. Dial 2-7864 for large party reservations.

Sidelights of CSEA Dinner-Meeting

Governor Harriman smiling good naturedly when the mike went bad during his speech to the delegates . . . Deputy City Administrator Maxwell Lehman proving himself a fine story-teller besides doing bang-up job as M.C. . . . Assemblyman Feinberg, a nice guy, gritting his teeth as the Governor blames Republican legislature for no raise in pay . . . Hats off to Bill Morgan, Civil Service Commissioner, who in no uncertain terms tried to straighten out an upstate warden for his mishandling of personal days off . . . Thank you to Assemblyman Hyman "Bucky" Mintz, who with a correction committee stormed the offices of leading Republican legislators in the fight for a pay raise . . . Dan Carey, Commissioner of Agriculture, and his lovely wife having a swell time at the dinner . . . Meet Malcolm Wilson, chairman of Joint Legislative Committee on Pensions, who knows more about Correction pensions than any guy on the hill. He gives you a straight answer. Up to now it's been no; hope it will be yes soon . . . Ed Lawlor, delegate from Coxsackie, rushed to hospital on stretcher from Hotel Wellington. Get well, Ed . . . Biggest applause of the night went to John Powers, CSEA president, and Al Falk, chairman of Civil Service Commission, two top men, both just returning from a long illness . . . Supt. of State Police McGarvey, a newcomer to this affair, sitting with his big fellows down front . . . Commissioner Tom McHugh, our boss, surrounded by Mary Houghton and Betty Emerson, Albion delegates . . . Next time you see Assemblyman Van Duzer, say hello. He bolted his party in fight for State employees' pay raise . . . Delegates from Correction did a swell job meeting with Joe Carlino, Majority Leader, William McKenzie, chairman of Ways and Means, and Jonathan Bingham, Governor Harriman's secretary . . . New officers of Correction Conference, Al Foster, president, Dannemora State Hospital; Ed O'Leary, vice president, from Elmira; and welcome back, Charlie Lamb, secretary, from Greenhaven . . . Remember this: The 40-hour bill this year only guarantees the same pay as last year for 42 hours. You do not pick up any extra green . . . Next exam for Correction Officer about May 1 . . . Harry Joyce, Attica delegate, provided welcome breather at CSEA meeting. During a too serious discussion, he was recognized by the chairman and made a motion that the chair buy everyone a drink. Laugh? The delegates rocked the room with laughter at Harry's little gag . . . Max Lehman's gag description of a politician was terrific: "One who sits on a fence and keeps both ears to the ground." . . . The dinner was a huge social and prestige success.

X-Ray Workers Seek 'Risk' Pay

X-ray and radiation technicians employed by the New York City Departments of Correction, Fire, Health and Hospitals, and the Transit Authority, in a second petition to the Salary Appeals Board, are seeking reallocation to grade 11, \$4,850-\$6,290. They are now in grade 5, \$4,250-\$4,330. Their previous appeal was denied by a 3-2 vote.

Through their attorney, former City Magistrate Eugene R. Canudo, they stress the need of higher pay to compensate present employees on the basis of the risk and value of their services, and to a recruitment of persons with adequate training and experience. The petitioners also ask stricter civil service requirements of candidates for technician jobs, to minimize the risk to patients.

Mr. Canudo submitted a brief containing excerpts from articles in professional and lay periodicals on the constantly increasing risks to patients and operators.

The petitioners have formed the Committee of X-Ray and Radiation Technicians, Louis DeVito, chairman; Roger Umhey, vice chairman, and Mabel E. Hobbs, secretary.

Head Nurses Consider Higher Pay Drive

Interest in trying to get a higher pay scale for head nurses working for the State has been expressed by several of the employees affected, especially in the Department of Correction.

Any head nurse employed by the Correction Department, or other institutions of the State, who are interested in participating in an appeal for higher allocation, should write to Harry Crist, Wallkill Prison, Wallkill, New York.

Mr. Crist stated that if the response were sufficient, that he would try to arrange a meeting of the State head nurses at a

Police-Fire Requirements Compared

A patrolman (P.D.) and a fireman (P.D.) examination will be held by New York City this year. Applications are expected to be issued in the fall.

The following compares requirements:

Requirement	Patrolman	Fireman
Age	20-29	20-29
Diploma	High School	High School
Vision	20/30	20/20
Tests	Written 50	Written 100 Physical 50
Min. Height	5' 7 1/2"	5' 6 1/2"

The fireman pass mark in the written test is 70 percent; the patrolman pass mark may not be announced until after the test.

The differences are: firemen require more acute vision; the patrolman physical is only qualifying; the patrolman minimum height is greater.

The pay is the same. The first figure gives base pay, second total pay because of two hours a week extra (42 instead of 40); grade 4 (starting grade) 4,285, 4,500; 3, \$4,485, \$4,710; 2, \$4,985, \$5,235; 1, \$5,600, \$5,881.

The uniform allowance of a patrolman is \$125 a year; fireman, \$100.

NEXT MOVE ON U.S. RAISE DEPENDS ON HOUSE

WASHINGTON, March 17 — Passage of a Federal pay raise bill by the House is expected. The Senate already has passed one. After the House acts, the measures go to a conference committee. Until that committee reports, no firm estimate of the amount is possible.

Last Call for CSEA's Spring Tour of Europe

Last call has been issued for the Spring tour of Europe sponsored by the Civil Service Employees Association.

A few berths remain open but since sailing date is April 23 only a few days are left to make application through Specialized Tours, 801 Fifth Ave., New York, N. Y.

The voyage is sponsored by the Association to provide a low-cost European tour and the 35-day journey is offered at the unusual price of \$819. This price includes ocean crossings aboard the glamorous Queen Elizabeth, an exciting land tour of 11 countries, hotels, most meals, sightseeing, land

transportation, guides, etc., and is available only to Association members.

An identical tour is being offered for September and bookings should be made now for that vacation.

The Association package will be

a "Grand Tour" in the old manner. Travelers will visit England, France, Germany, Switzerland, Italy and Austria, to name a few of the scheduled countries. The trip will be an education in international cuisine, history, and just plain fun.

Because time is needed to secure passports and other necessary travel paraphernalia, persons planning to take the spring tour should act immediately.

Applications and full information may be had by writing at once to Specialized Tours.
