## Downey Submits Tentative Plans For Film Revision

### Names Committee Heads To Direct Renovation

Tentative plans for the revising of the film concerning State College have been released according to Martha Downey '51, Student Director of the film. Students who will head committees have been appointed to aid in the revision.

According to the plans as outlined by Dr. Floyd E. Hendrickson, Professor of Education, and Miss Downey, there will be 108 sequences which will cover many new scenes as well as remaking of obsolete scenes in the present film. These sequences will not only depict the academic life but also the social life of the students.

A script for the movie was submitted to Dr. Evan R. Collins, President of the College, who approved it. Filming will take place from now until May, at which time the film will be released to high schools throughout the state.

### Film To Advertise State

It is hoped that this movie will advertise State's functions and potentialities and will interest high school students in attending the college, according to Miss Downey. A main factor in making the film a success, especially group scenes, depends on the cooperation and interest of the student body as a whole as well as those participating in individual scenes.

Committee heads recently appointed are: Assistant Directors, Patricia Jai and Georgina Magness; Make-up and Costumes, Marvin Poons; Art, Virginia Szatkowski, Seniors; Casts, David Shepard; Lights, Alan Stevenson; and Music, Mary Borys, Juniors. Members of the various committees will be announced in the near future.

Their expenses will be paid by the Tournament Committee.

Last year, 1208 students representing 151 colleges in 42 states played in the round-by-mail. The country is divided into eight zones, with two pairs from each zone qualifying for the finals. Massachusetts Institute of Technology's team won last year's trophy and title.

## Sophs Burlesque Eds' Idiosyncrasies

We've all heard of "Chloro" but have you ever heard of "Chlorine." The new nickname was attached to one of the Junior Editors as a result of the "Lack of Talent" Show presented Wednesday night in the P.O. by the Sophs News tryouts.

In the satirical comedy, Breezy Brezinsky and Irene Dick depicted two other characters, Victoria Eade and Disgrace Smith as they are seen through the Sophs' eyes. Singing and dancing was interrupted occasionally by the hysterical giggling of "the Chief" as portrayed by Jean Corigliano.

Jordine Skoff received a run and maple cigarettes for having the most lack of talent; while Barb Peace chiseled sunglasses for the least lack of talent. Dave Thomas won a lemon for the most sour performance and Breezy received a first grade reader for the funniest performance.

Any resemblance between the "Snake Pit" and the P.O. atmosphere was purely coincidental.

Friday evening the girls will be entertained by the Genesee Community Players. On the social agenda for Saturday evening is the regular Association banquet.

### Debate Wants . . .

Debate Council came to Student Council Wednesday with a motion asking that 450 dollars be appropriated in order that the Council might carry out the planned program for the year. Student Board of Finance did not approve this appropriation. In spite of this, Student Council voted to approve this appropriation.

Student Board of Finance voted against this motion on the grounds that Student Association Budget for this year is already working under a \$800 dollar deficit. Student Board disapproved unexplained spending, that is, spending which has not been provided for in the budget or which might endanger a solid financial standing. This is logical thinking.

The definite plans Debate Council presented for the year include contests with colleges such as Cornell, Colgate and others equally well known. Invitations which Debate has received are the result of its success in debates during the past year.

Participation of students in quantity in Debate compares favorably with other Student Association supported organizations which make trips as part of their regular activities. Debate provides participants with experiences valuable to future teaching experience as well as presently spreading the name of State College favorably in schools that other inter-collegiate organizations cannot reach.

It is customary to criticize an organization that does not make the best use of its money or does not use it at all. It is evident that Debate is using its money completely and to best advantage this year.

Previously, we have indicated that spending of large amounts of the surplus would be unwise. In this case it seems justifiable to give Debate Council its requested 450 dollars, with the understanding that the surplus is not now open to a field day of spending.

### More About ICA . . .

On another page of the News this week is a report which State College delegates to the Inter-Collegiate Conference made. At Student Council Wednesday night an informal report of the Conference was given by the delegates.

Besides enthusiasm for the unplanned moments of the conference, the committee of delegates brought back a not-new idea that State College organizations rate favorably when compared with the other teacher colleges in the state who belong to ICA. There are those who believe that for this reason ICA is a poor investment.

Those people, perhaps, have not looked at the situation thoroughly. ICA is a relatively new organization. It needs the support of our school as well as those who may gain more at the beginning.

Next week our delegate committee will display materials obtained from other colleges at the conference. Another constructive part of ICA's program is the Student Union Committee which will meet in Buffalo in December to discuss the problems and plans of student administration in the student unions being constructed in teacher colleges.

ICA should be given a fair chance to prove itself.

### Gamma Delta Iota

By CAROL LEBOW

A small assemblage of crooked men swayed and bobbed before a mighty altar behind which mammoth in size and subtly suggestive of a daisy, was an inky shadow pressed against the wall behind it.

This secret cult, meeting to try the case of Harvard Dunkle chanted passionately their devotions to the flower whose permanency, established by its unaltered shadow, confirmed its divinity.

No one had ever seen the daisy but since religion is built on faith, accoutments, and accumulated traditions, they had faith that something existed behind the altar, as we assumed it was a daisy that gave form to the shadow, and traditionally worshipped its yellow-but black eyes, and its white-but black petals.

Harvard Dunkle—guilty of haloni; trait, reliksh, undesirable, not illegal, but unprecedented. The prosecution proceeded: Yale Herman, after affirming his love for democratic logical reasoning shout-ed, "Even though haloni is not illegal, since we have never had haloni before, it is only logical that any one with haloni who joins us is guilty because we have never had haloni before. A Cnd, indefatigable enigmast—"The situation can be resolved into two simple components. Why shouldn't we have haloni in the first place? Is it because we do not want haloni or because we want the people who joined us not to have haloni? Now I am not against haloni. If other cults accept haloni we may not be able to get any. We want haloni however at this point there is no need."

Next mild Richard raised his unsteady voice. "I believe that we should have one person with haloni. What's the difference who he is as long as he has it? Why, if we have haloni think of what people will say of our democratic virtues. At least we should make an effort to have haloni if other people have it—but only in rare cases. Philosopher Stuart next brought up an important point that had

### Common-Stater

By GORSKIE and KYLE

The Common-Stater is given the widest latitude as author of this column, although his viewpoints do not necessarily reflect those of the STATE COLLEGE NEWS.

A BIG NAME ISN'T EVERYTHING . . . Plenty of people are tuning (the sports staff in particular) over the article in last week's News concerning the "deplorable" condition of State's sports program . . . they think that the benefits derived from varsity and intra-murals consist not only in being a winner, but also in the fun the fellows get out of the sports—whether they win or lose. When thirty guys spent nearly two hours a day practicing during the soccer season and won five out of seven games, they feel that they did get some benefit from it . . . and so did the school.

SHADES OF OLD STATE . . . And we do mean old . . . "Tomorrow's Teachers" certainly showed a different picture of the school than the one which we see today . . . glad they're rpvising it . . . the quality of knees hasn't improved much in the past few years . . . and we do wish that "Richardson, Hall of Languages," had a little more hall.

WILL SOMEONE PLEASE . . . Tell us just what "The Thing" is? . . . DOWN TO THE RIVER . . . The kids at the Clinton Square Neighborhood House are—hold on to your hats!—going down in a body to see "THE RIVER" this Saturday . . . kidding aside, this is one of the best and most faithful groups working at State . . . the children down there are really under-privileged and not always easy to work with, but any progress brings a great deal of satisfaction.

PLEASE OPEN THE DOORS . . . Not that we're grinds about homework, but it seems that the library could be open more than two nights a week . . . right now if something comes up and you can't get down to the library on one of these nights (meetings on Mondays), you're just out of luck . . . the grads, too, feel that two nights a week is not enough to work on copious term papers.

IT'S NICE THAT . . . Music Council is able to bring the best of today's artists to us . . . but their programs come so often in the middle of the week . . . couldn't they be scheduled for weekends, so they could get the attendance they deserve?

D AND A AFFILIATES . . . Are really going all out to expand dramatics at State . . . working with D and A Council they are investigating possibilities in modern dance, New York theater, a revamping of the costume room and many other projects still in the embryonic stage . . . but it looks good.

From reports at Student Council it seems that our delegates really over-awed the representatives of other colleges at the ICA conference . . . especially Brockport . . . outstanding in our achievements here at State is our student-government system . . . none of the other teacher colleges had anything to equal it . . . although last year's conference report in assembly didn't turn out too well, we think that one this year is necessary.

DISTRACTIONS! DISTRACTIONS! . . . Not that the P.O. isn't usually entertaining, but this week it was for the Birds (Juniors and editor, that is) . . . the sophis mimicked with great skill and accurate detail Disgrace Smith, Chlorine Nargill, and Victoria Eade . . . prizes went to the kids with the most lack of talent . . . and believe us, they had it.

THE HUCKSTERS . . . Have taken over State this week . . . with over fifty shots made of life the college . . . most interesting of the pictures will probably be the "typical" date by Smith and Englehart in the lounge. Four days will never be enough to recover from what the school has done to us . . . or from what we've done to the school, for that matter.

## Delegates Report ICA Conference

By MARY EADE  
The Inter-Collegiate Conference of State Teachers Colleges of New York State was held November 10-11 at Fredonia State Teachers College. Discussion groups included Student-Faculty relations, State Support of Athletics, School and the Community, Cafeteria Problems, Student Unions, Housing Regulations and Revision of the ICA Constitution.

At Buffalo where the Student Union is in operation, all organizations using the union must pay a fee when functions for which admission is charged are held. Also refreshments served at these functions must be purchased through the Union.

At most schools, students are not eligible for office unless they have a "C" or above average. Some schools are going to adopt our system of giving Constitution tests before being eligible for office.

An ICA committee was set up under the new constitution that will keep ICA active throughout the school year. The registration fee was raised to \$30 for next year instead of \$25 because of rising prices.

### Assumptions

By PAUL BUCHMAN

Last week we made a few assumptions about varsity athletics at State. On these we must all agree as a basis for any suggestions concerning varsity sports. These three assumptions are (1) everybody loves a winner, (2) States doesn't have a winner (and is not likely to have a winner in the foreseeable future), and (3), to have a winner, a school must have a system, and to have a system, a school must have money.

## Angels Top EEP For First Defeat In Four Seasons

Last Thursday in a hard fought and extremely well played game the Angels downed Potter Club by the score of 13-8. Once more the Angels rode to victory on the arm of Biloz as both their scores came on filps from big Mike.

## Angels-Finks To Battle Today For Intramural Pigskin Champion

### Strong Varsity Squad To Tackle Alums Monday

The following evening the Teachers move into the Connecticut State Teachers gym for another tussle.

### Peds Win Final; Nunez, Warden, Weatherby Star

### Finks Beat KDR In Play-Off Tilt

## Campus Interviews on Cigarette Tests

### Number 6...THE TURTLE

They had our slow-moving brother moving at too fast a pace with those quick-trick cigarette tests! A fast puff... a swift sniff... a quick inhale... a rapid exhale. Terrapin's head was spinning - didn't know if he was coming or going! But he slowed down to his own speed - decided there was no need to rush. After all, he figured, how could anyone possibly prove cigarette mildness so fast? And he was right, too! That's why we suggest: The sensible test... the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke - on a pack after pack, day after day basis. No snapp judgments needed. After you've enjoyed Camels - and only Camels - for 30 days in your "T-Zone" (T for Throat, T for Taste) we believe you'll know why...

### It's Time To Be Realistic

It's about time people around here got to be realistic enough to see that as long as the administrative status quo is maintained, it will be almost impossible to improve our varsity athletic fortunes. That is, as long as there is no money backing the teams that represent State College, we will have no sustained successes—no matter what sport is implied. Of all the varsity sports at NYSCT, soccer alone has any chance of success in any consistent manner, i.e., it is the only sport in which we have any chance of ever becoming a "power" and in spite of the fact that our soccer team finished the season with a 5-2 record, the situation still remains whereby soccer is student supported, and purely amateur in every sense of the word.

### Potter Attack Rolls

In the second half, behind superb blocking, the Potter attack began to roll. Twice in the third quarter they drove to within the ten yard line only to be stopped by the Angels' defenses. Especially good on these occasions was Harry Johnson who twice in succession nailed runners for good five yard losses. After the second of these stands, which ended on the 2 yard line, Potter scored an additional two points. This occurred as Biloz, attempting to run the ball out of his end zone, slipped on the muddy turf.

### Frosh Rip Sophs; Hoppey, Walker Shine In Rout

In the traditional rock-'em sock-'em rivalry day football game, the highly regarded freshman eleven exploded with three second half scores to make the day a pain-filled one for the outclassed Sophomore aggregation as they coasted to a 26-0 win.

### Blue Devils Move

Early in the second period the Sophomores kicked out at midfield. Walker then pitched beautifully to end Jim Bennett who was bounced out of bounds on the 15. Walker then hit Hank Lull on the 5. The touchdown resulted from a bullet pass to Bob Hartman in the end zone. The frosh star added the extra point on a wide end sweep.

### Hoppey Interception Leads To TD

On the initial play after the ensuing kickoff, Hoppey intercepted Sophomore ace Abe Blattman's heave on the frosh 40. With Walker passing and bootlegging beautifully, the inspired Blue Jays drove to the Soph's five yard line in just four plays. Walker threw to Bill Howlett for the third touchdown. The extra point was added on another Walker pass, this time to the alert Tom Hoppey.

### Not Far-Fetch'd

This schematic propose is not as far-fetched as might be imagined. Today's trend in collegiate athletics is definitely a trend toward emphasis (with the possible exception of basketball, which is a good sport for a small school to become a big power, on a small budget).

### Not Far-Fetch'd

Lack of attendance at games of our school clearly shows the general lack of interest toward varsity athletics that is inherent in the student body. Varsity athletics may be traditional, but they don't really "belong" at our school, so isn't it about time we stopped making a farce of it?

### Varsity Has Depth

Hathaway has drilled his men into top physical condition and unbeatable team spirit.

The State followers will see a veteran five in action this year. Captain Jim Warden, a three-year vet, and Bob Brown, a two-year man, will hold down the guard positions. Big Bob Tabor, a six-foot-four Sophomore, will play the pivot spot while a close battle for the up-front positions is waged by such capable veterans as Max Fallex, Paul Carter and Al Kaehn. A wealth of material adds depth to our squad. Hathaway has at his command such outstanding performers as Bill Walker, senior freshman from Goshen; Pete Telfer, a very crafty and seasoned ball player; Hank Hull, an up and coming six-footer from the frosh ranks, and such hold overs as Art Goldin and Bob Hausner.

### Defensive Play Outstanding

Both aggregations missed golden opportunities to score in the last half. The pressure was on and neither club could punch one over the final stripe although the advantage presented itself time and time again. Brilliant defensive play featured this half of the game and the Page League title went to the Finks by a 12-7 margin.

### Champs To Be Crowned Today

In today's championship game, the weather providing, there should be quite a bit of aerial activity. The two finalists both tend to rely on passing as their main offensive weapons. Highlighting the Pink offense will be the passing of Ray "The Arm" Champlin, Tom Yole and "Killer" Kaehn's catching abilities. Pat Dooley's kicking talent and the rugged line play of Paul Ward and Don Sonberg. The tiger-like play of Mike Cortese features their defense.
