The present senior class leads with a total of forty-two honor students, eight of which received high honors. The senior class of 1931 was second with thirty-three, including four high honor students. The class of 1933 is third with twenty-nine, including six who received high honors. The class of 1934 is last with fourteen, and with only one high honor student.

Pi Gamma Mu To Meet Wednesday In Lounge

Pi Gamma Mu, national honorary social science fraternity, will have a meeting Wednesday night in the Lounge of Richardson Hall at 7:30 o'clock. Russia will be the theme of the general discussion of the fraternity for the coming year. Charles Swick, '32, announced today.

Kenneth Miller and Bernard Simon, seniors, will collaborate in presenting a paper on the historical backgrounds of the Russian revolution at the meeting Wednesday.

While A Student At Colgate Dr. Risley Waited On Edison

Dr. Adna W. Risley, head of the history department, boasts of an intimate contact with the late Thomas Alva Edison. This occurred in the summer following the professor's freshman year at Colgate university.

During that summer Dr. Risley was employed as a waiter in the Hotel Athenaeum, Chautauqua, where he waited upon Mr. and Mrs. Edison. Dr. Risley says that he noticed particularly Mrs. Edison's careful administration to all her husband's needs. Thomas Edison would pay no attention to the food before him until his wife induced him to eat.

It is interesting to note that Mrs. Edison's devotion and constant attendance upon her husband's wants, which impressed Dr. Risley so much, were accredited by all the newspapers, a week ago, as having been very important factors in Thomas Edison's success.

SALE OF TICKETS FOR CHOIR TO BE NOVEMBER 11 TO 13

Tickets for the presentation of the Westminster Choir of Ithaca in Chancellor's hall on Thursday night, November 19, will be on sale in the rotunda of Draper hall, Wednesday, Thursday and Friday, November 11, 12, and 13. This presentation is under the supervision of the College music council.

The price of the tickets will be \$1.50 for reserved seats, and \$1.00 for general admissions, according to Katherine Belknap, '32, president of the council. Student tax tickets will be worth fifty cents in obtaining the tickets, Miss Belknap said.

Tickets will be available for the public sale at Clift's music store on Monday, Tuesday, and Wednesday, November 16, 17, and 18, she added.

MARCI GOLD, '33, WILL DIRECT PLAY ON TUESDAY NIGHT

Marcia Gold, '33, will direct the advanced dramatics class play which will be presented in the auditorium of Page hall, Tuesday night, at 8:15 o'clock.

The drama concerns a noted English critic, his wife, and her handsome lover. Donald Hallenbeck, a special student, will play the part of the critic; Frances Gaynor, '32, that of the wife; and Thomas Garrett, her lover.

The committees in charge of the play are: John Grossenbacher, '33, settings; Mildred Smith, '32, properties; Betty Gordon, '33, house; Katherine Moore, '33, advertising; Frances Ab. Malon, '33, costumes; Helen Silver, '32, makeup; and Dorothy Busc, '33, clean-up.

Board To Take Drastic Steps To Avoid Deficit

Drastic steps will be taken by the Pedagogic board this year to prevent a recurrence of the huge deficit which accrued on the books of the 1931 yearbook, Michael Froehlich, '32, business manager, announced.

All fall, or group pictures must be paid by January 8 at the latest. Froehlich said. Failure to meet obligations for group pictures will result in their exclusion from the 1932 volume.

Business necessity prompted the move, Froehlich said. Without cash the yearbook finds itself unable to meet obligations in time to take advantage of discounts.

Letters will be sent to the president of treasurer of every organization in the College requesting his full cooperation in forwarding the amounts due.

"We feel sure that members of organizations will realize that we are doing this only to prevent another deficit. It is the best solution the board could offer," Froehlich concluded.

COUNCIL PRESENTS MORLEY THURSDAY

Noted Essayist to Give Talk on "Escape Into Print" in Page Hall at 8:30

Christopher Morley, lecturer, essayist, and columnist, will make his second Albany appearance Thursday night at 8:30 o'clock in Page hall auditorium under the auspices of the dramatic and art council, Helen Mead, '32, president of the council, announced today. The topic of his lecture is "Escape Into Print."

Mr. Morley, a graduate of Haverford college in 1910 and a Rhodes Scholar at New college, Oxford, England, in 1910 to 1913, began his professional career as a teacher. He tried publishing, later becoming a columnist. He has written many essays and books. Perhaps the most charming and best known of these is "Parnassus On Wheels." The enthusiastic audiences that attend Mr. Morley's lectures show his ability as a speaker to be as great as that of a writer.

Students who have paid their student tax may exchange their tax tickets for student tickets, Monday, Tuesday, and Wednesday in the rotunda of Draper hall, Miss Mead added. Those who have not paid their tax, may secure tickets for the lecture for fifty cents. This money will be refunded when the student pays his student tax, she said.

Tickets which are \$1.50 for individually reserved tickets, and \$1.00 for seats in the reserved section, may be obtained at Clift and Sons, 177 Broadway, Wednesday and Thursday, or orders may be sent to Frances Root, '33, with checks payable to Thelma Smith, '31, treasurer of dramatic and art council.

Tickets will be available for the public sale at Clift's music store on Monday, Tuesday, and Wednesday, November 16, 17, and 18, she added.

Psi Gamma Adopts "Polly" As Guardian Of Sorority

"Polly," a small black dog, will be the second mascot to be adopted by a State college sorority, having been brought all the way from Iowa for the purpose of furnishing protection and amusement for the members of Psi Gamma.

Since "Polly" is only a few months old, her main occupation has been lapping milk from a saucer in the kitchen. As soon as she is sufficiently grown and trained, however, she will undertake the task of "guarding" the sorority's possessions.

MEN WILL DEBATE TEAM FROM UNION UNIVERSITY FRIDAY

The State college debate team will take the platform next Friday at 8:15 o'clock against the Union university debate team in the lounge of Richardson hall, according to Ruth Kronman, '32, president of debate council.

The team to oppose the Union debaters will be composed of Samuel S. Dorrance, and Charles Swick, seniors and Renwick Arnott, '34, alternate. The subject of the debate will be: "Resolved: That private capitalization as now practiced in the United States is unsound in principle as an economic organization." The State college team will defend the affirmative.

Former debates with the Union teams have been broadcast over the radio station WGY in Schenectady. As the debate this year is being conducted in Albany, arrangements are trying to be made to have the debate broadcast from the Albany radio studio, WOKO. The debate is to be a decision one.

In the following Saturday night a State college team composed of George R. Rice and Kenneth Miller, seniors, will meet the debaters of the British universities in State's third international debate.

Josephine Holt, '32, Is Chairman Of Bazaar

Josephine Holt, '32, will be the general chairman of the annual bazaar of the Young Women's Christian Association, to be conducted in Page hall gymnasium, Saturday November 21, according to A. Ruth Van Buren, '32, president.

The theme of the bazaar will be a State fair. Articles will be sold at the class booths. Country dances will be played. The committee will be announced later. Miss Van Buren said.

Dr. Thompson Gives Interesting Facts In History Of Scholastic Honor Society

How low a record do you need to obtain the highest award of scholastic election to the first group in Sigma Iota Lands? How nearly perfect is the record of the President of the society, who is always the one with the highest record? Has it raised the scholastic standard? Has it raised the average of the entire membership in Sigma Iota Lands from the class of 1930 to 2.17, the average for the entire membership from the class of 1931 was 2.21, the average of the group first chosen from the class of 1932 to 2.48? A fair comparison would be of the eleven members chosen in October last year, whose average was 2.88, with those chosen this October, whose average is 20 points higher. The highest grade this year that of Miss Henry, is 2.81, to be compared with the previous high record of 2.72. The lowest record in the group chosen from 1932 is 2.47, the lowest last year at this time was 2.49. But five this year had a record of 2.50 or higher, to be compared with only one last year. In other words, the class of 1932 is 2.48.

The average in the class and a number of other interesting statistics from the records of the dinner of Sigma Iota Lands at State Street Keefer's last Saturday evening, in a talk by Dr. Harold W. Thompson in the initiation of the following new members: Margaret Henry, President; Mary H. Alexander; Sarah Fasoldt; Evelyn Fortmiller; Margaret Fortmiller; Margarita Galusha; Anna Goldman; Helen Mead; Mary Esther Mead; and Catherine Riegel.

Dr. Thompson pointed out that the first group selected each year is made up of the four per cent of

WHY NOT AT NIGHT?

Many students have expressed the opinion that some solution of the library problem be presented immediately. The new Hawley library will not be ready until some time in March. Meantime, the scanty facilities of the present library continue to be taxed far beyond capacity.

The News suggests that the open hours of the library be changed. Most college libraries allow students to work evenings. Why not State's? The problem of attendants should be easily handled. There are many students in the library school who are sufficiently trained to assist in the work.

There is no desire to add to the work of the present staff whose time is well filled already. Yet the predicament of the students ought to be considered. If the facilities of the library were opened to students until 9:30 o'clock, many students would hasten to avail themselves of that privilege.

It would be advisable for a petition to be circulated among the students. On a questionnaire might be distributed in assembly in order to gauge student opinion on the matter. If a sufficient number were interested, a committee might be appointed by the president of the student association in order to confer with President Brubacher. He would be willing to cooperate and if the plan is at all practical, will endorse it.

Five additional hours would certainly do much to relieve the afternoon congestion. It would mean that many of the students would be able to postpone supplementary readings in history, English, and science. They might well do this work in the evening in an atmosphere conducive to study, rather than in a crowded room where elbow room is as much as can be reasonably asked.

LET'S SUPPORT IT

The move to introduce a track team in State college athletic circles is one deserving of all support, even to the extent of financial assistance from the student association.

Three years ago a group of men organized a cross country squad and conducted practice sessions with regularity. After several weeks of work the movement failed, chiefly because of lack of coaching and financial support.

This year a new opportunity is offered. It is needed. There should be opportunity for non-varsity men to engage in a variety of sports. The girls' Athletic association plans and carries through a program of varied and beneficial athletic activities. It is agreed that the men are in the minority, that they cannot expect so wide a range in choice. But it is not asking too much to request that every man be given an opportunity to participate in some sport other than basketball or baseball. Ability naturally limits participation in those fields.

There are enough undergraduate men to undertake this project. If experienced coaching can be obtained, the men will be glad to get it. If not, they will be able to work by themselves.

NO CRITICISM NECESSARY

The freshman class has come in for some criticism in the conduct of the elections of officers. It has been charged that members of the class have placed too much emphasis on regularly organized "campaigns" and have appointed "managers."

This critical attitude is not well taken. There is no reason why men and women of this college should not have the same opportunities for conducting elections as are granted in other institutions. Even the students of Milne High school are allowed campaign managers and election speeches. Shall College students be allowed less opportunity?

BOOKS: STUDENT WRITES DIARY; BOOKS: STUDENT WRITES DIARY; UNDERWOOD ON POLITICS; BUCK TELLS OF ORIENT

By G. P. R.

Larry, Thoughts of Youth. By Himself. John Day Co. New York. 152 pages. \$1.25.

This is the diary and letters of a modern college student, written in a manner so frank as to commend the book to every college man and woman. It is a narrative of many experiences with which they are familiar.

Larry reveals his innermost thoughts and sets forth his most intimate problems. His sports, hobbies, and scholastic ambitions were varied and in each of them he excelled. He writes with an unspoiled truthfulness that gives a complete picture of his first two years at college.

Larry, a student at Lafayette, is keenly interested in all phases of extra-class activity. He is an athlete, a debater, socially prominent on the campus, a scholar, and possesses a keen appreciation of out-of-door life.

A tragic accident cut short this promising career but he has bequeathed to the college youth of today the story of his life as it appears in these pages—an inspiration and an example to every man who desires to be a college man in the fullest and finest sense of the word.

Drifting Sands of Party Politics. By Oscar W. Underwood. The Century Company. New York. 422 pages. \$3.50.

Questions of deep personal and political interest to the American people are raised and answered by Senator Underwood in this review of the actual governmental machinery of these United States.

Numerous laws are passed by Congress each year. Do they represent the opinions and fulfill the needs of the majority of the voters or do they represent the wishes of a small, central, and highly organized political minority, far removed from the masses they are supposed to represent?

One of the main criticisms of American government today is that its actual machinery is too far removed from the people who vote at the polls. Mr. Underwood takes the reader behind the scenes and gives an intimate view of important pieces of legislation which occurred during the administrations of Cleveland and Coolidge. Congress, the senator charges, has drifted away from the fundamental principles of government as laid down by the founders of the Constitution and has become the mouthpiece of highly organized minorities.

Excellent background is offered in the book. The history of early legislation, the combat between Federalists and Democrats, the political issues of Harrison, Cleveland, and McKinley, and the forces that moved this nation from the Spanish War to the World War, show the real purposes of the volume.

Bureaucracy in Washington is condemned in unmistakable terms and the people are given the facts which led to the writer's conclusions.

It is a book which may well be added to the library of any social science student.

The Good Earth. By Pearl S. Buck. John Day Company. 375 pages. \$2.50.

The Good Earth, brilliantly conceived and written, has met with the acclaim of every reviewer and has gained the distinction of being placed on the list of the book of the Month Club.

It is one of the few stories of Oriental life which has rung true, partly because of the fact that the author has spent many years of her life in China. On the surface it impresses one as being an excellent commentary on Chinese life, written with warmth and sympathy. Yet it is of far greater scope and portent than an epic of China. It has qualities which make for immortality. It brings home in accents unmistakable the tragedy of life almost the futility of living.

Dorothy Canfield, foremost American novelist, says of the book: "To find such a rare book gave me a thrill of delight. A rare, fine, sterling piece of work . . . I hope that as many Americans as possible will read it."

Its style, power, and dramatic qualities command it to the literature. Its timeliness, with the difficulties in China today make it doubly desirable for the historical

Sex in Marriage. By Ernest R. Gruen and Gladys H. Gruen. Macaulay Company. New York. 230 pages. \$3.00.

This book aims at the presentation of common sense matters of sex life and supplies much information usually unavailable.

Most unhappy marriages, the authors write, are due to mistakes in sex relationship. They describe accurately and scientifically the physiology and functions of the complementary organs and discuss a wide variety of subjects under the head of human relationships.

Subjects studied in hygiene are discussed here with much greater detail. It is information that should be available to every college man and woman, the people who will handle the affairs of the nation tomorrow, the people with whom lie the responsibility for the next generation.

It is a book well worth the reading. It belongs in the library of every liberally minded student.

Hunter Paper Publishes Cigarette Advertising

New York (IP) The Hunter Bulletin, student paper at Hunter college, the only institution of higher learning in New York City which is open to 3,000 women exclusively, last week for the first time in 18 years to hunting, publishing cigarette advertising.

The appearance of two large cigarette advertisements in the paper was described by authorities of the college and representatives of the paper as merely the results of greater enterprise on the part of the paper's advertising department. There has never been a ban on such advertising according to Dean Anne E. Hicklin-Bottom. Smoking is now prohibited in any part of the college's main building at Park Avenue and 68th Street, but it will be allowed in a social hall in the new Hunter college centre now under construction at Jerome Park Reservoir, the Bronx.

MEN MAY ORGANIZE TRACK TEAM HERE

Asikis Leads Efforts to Get Equipment and Training for State Squad

Due to the energetic efforts of several track enthusiasts, led by Gus Asikis, '34, attempts are being made to organize a State track team. For several years many attempts have been made to form such a squad, all of which were unsuccessful due to lack of equipment and training facilities.

Several years ago the men at State had organized a cross-country team, but interest in this sport was gradually diminished, necessitating its elimination.

This year's material for a track team shows exceptional promise. There are thirty candidates, all of whom have had from one to four years experience in high schools. Authorities of the Albany Young Men's Christian association have agreed to permit use of the track and field house for a moderate sum of money.

The prospective squad is exceptionally strong in experienced sprinters and long distance runners, including Francis Harwood, Lazarom, seniors; William Collins, Bernard Kerlek, and Benjamin Ingram, juniors; Robert Meyers, Gus Asikis, William Nelson and Thomas Garrett, sophomores; William Jones and George Storey, freshmen. Some of these men have participated in field events such as high and broad jumps, and the shot put.

The party inspected the new dormitories of Smith college. The use of bicycles for campus trips was prevalent among the visitors noticed. They also visited "The Beeches," home of former president Calvin Coolidge.

MEN OF ARIZONA UNIVERSITY DESIRE DUTCH PAY DATES

Tucson, Ariz.—(UPI)—While women students throughout the other colleges and universities of the country were debating among themselves the advisability of offering to pay their share in the cost of dates with college men, University of Arizona males took things into their own hands and organized a Bachelors club, the main purpose of which is to demand that coeds dutch on the expenses of all dates.

Although a Spinners club, combatting the move of the men, was formed almost immediately, the University was surprised to find that what looked like a majority of the women were behind the men in their efforts.

Jack O'Dowd, football center and student councilman, was elected president of the Bachelors club by more than 170 men students who crowded to the organization meeting.

It was pointed out by the men that women students as a rule have more money to spend than men students, and that if the women would accept the challenge to pay their share in dates, more dates would be possible and the social life of the campus greatly enhanced for the duration of the depression.

Christopher Morley, who will give a lecture here Thursday night, praised the State college Co-op in an article in the Saturday Review of Literature, dated April, 1931.

"The tenth anniversary of the Co-op, one of the foremost bookstores in the country, illustrates the fact that there never has been and never will be any slump in the educational book business," Morley said.

He emphasized the commendation written by Professor Richmond H. Kirtland, of the education department, in the booklet commemorating the anniversary of the bookstore. The quotation is, "Two minutes there always reminds one of the good things he once meant to write and of the better things he still means to read."

Dr. Thompson Gives Interesting Facts In History Of Scholastic Honor Society

(Continued from page 1 column 4)

num Laudis, is truly remarkable, setting a new record.

The major departments represented this year are: Latin, mathematics and library science, 2 each; History, chemistry, English, and commerce, 1 each. Five of the members have a minor in History; the other minors are distributed singly among mathematics, physics, biology, English, and commerce. Adding majors and minors, we find that history leads with six, mathematics follows with 3, and there are 2 each in Latin, English, library science, and commerce.

Dr. Thompson compared these figures with those of the eleven members chosen last October from the class of 1931: History led with 5 majors, with 3 majors in mathematics, following, and one major each in French, Spanish, and Chemistry. Combining all the majors and minors in the two groups,—the first drawing in 1931 and the first drawing from 1932,—the following totals were obtained: History, 11; mathematics, 8; French, 5; English, Latin, and commerce, 3; chemistry, library science, and biology, 2; Spanish, one.

It appears, then, that the highest grades are obtained in history and mathematics; and that the largest department in college, English, gives relatively few high grades. Dr. Thompson pointed out that the reason why success was so marked in history and mathematics might be because those subjects were so well taught and were elected by the intelligent in large numbers, but he thought it curious that those subjects were the very ones feared by freshmen.

He reported that 6 of the 11 in last year's group actually improved their standing after election to Sigma Laudis; that the rest all finished well above 2.00, though the order of places was pretty well changed except that Miss Steele remained at the head of the class in June. All of the group obtained positions, two of which were marital. There were no men in the first group chosen this year, and none in the first group of last year; but there were four in the second drawing, in March, last year, and there was hope for the sturdier sex this year. Last year, one member of Myskana, Carolyn Kelley, was selected in the second group. This year, Helen Mead is a member of both societies and so has the highest award in both scholarship and student activities.

TEAM TO OPPOSE HARTWICK COLLEGE

Coach Calls Squad to Practice for Beginning Contest on December 4

By KENNETH MILLER, '32
Sports Editor

The basketball men of State have started to team in preparation for their first contest, December 4, against Hartwick College of Oneonta. The first practice was Monday night, and a large number of basketeers gathered to participate in the initial tryout.

Coach R. R. Baker says "It is too early in the season to give accurate predictions about new players". He said also that although several new players showed up finely in the first workout that the chances for a good team appear no brighter than last year. He stated "I find no Bancroft among the freshmen".

One of the outstanding games of the year will be played early in February when State will oppose Lowell Textile Institute of Lowell, Massachusetts, one of the strongest of eastern teams. Last year Lowell ran up a long string of victories and will certainly provide keen opposition for the State quintet. Two years ago State was defeated by Lowell in an overtime game. This contest was the most exciting of the entire season.
