STATE UNIVERSITY OF NEW YORK AT ALBANY
1400 Washington Avenue, Albany, N.Y. 12222

*Campus
Progress
Report*

DATE: 29 October 1973

TO: Vice President John W. Hartley
Administration Building - Room 326

FROM: Mr. Walter M. Tisdale
Service Building "A" - Room 103

SUBJECT: Campus Progress Report No. 230
Exterior Stair and Podium Paving Completion

Work on the repair of exterior stairs and podium paving throughout the campus has now been completed.

Stair repair included replacement of damaged treads and platforms, plus application of waterproofing to traffic surfaces and mortar joints to prevent further deterioration.

Podium paving at Dutch and Colonial Quadrangles was restored to proper elevations, eliminating what had become a hazardous condition.

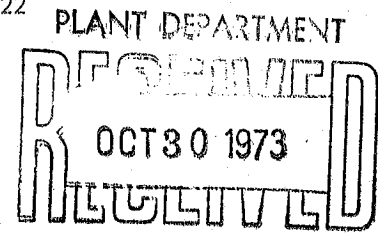

The condition of mortar at stairways was found to be better than expected, and some restoration work originally anticipated turned out to be unnecessary. Rather than take a credit for deleted work, which would disappear into the State's general fund, we have arranged for the contractor to install some additional podium paving at the main entryways to the dormitories. This work will ease pedestrian access, and eliminate further damage to the planting beds which have been trampled by persons straying off the existing paving.
