Mrs. Warren T. Reilly accepts a posthumous award from Dr. Henry Brill, Assistant Commissioner, Department of Mental Hygiene, at Utica State Hospital. Her husband was awarded \$100 cash and a certificate of merit for a study of frozen fish fillets in connection with hospital nutrition. He died as the result of injuries suffered in an automobile accident last December.

## Assn. Protests Cut That Would Impair Job Services

ALBANY, June 22 — Jesse B McFarland, president of the Civil Service Employees Association, in a communication sent today to Senators Irving M. Ives and Herbert H. Lehman, and Leo O'Brien, urged a reconsideration of the proposed reduction in the appropriation for the administration of the unemployment insurance systems and employment services by the States. Mr. McFarland said: "This Association of 56,000 public employees within New York State earnestly urges reconsideration of reduction in funds requested by the President for the administration of unemployment insurance and employment services by the States.

"The reduced appropriations will aggravate present insufficiency of funds for the maintenance of an adequate staff to service application of thousands of claimants as well as result in tremendous losses in improperly paid benefits and uncollected taxes.

"The proposed reduction in appropriations threatens dismissal of at least 1,000 employees, despite the great need for their services for the efficient carrying out of the responsibilities and obligations confronting State administrators. Our State Industrial Commissioner, Edward Corsi, has stated the facts fully in messages to you. Again we respectfully ask your aid in gaining needed funds".

### Corsi's Stand

Commissioner Corsi in his letter to the two Senators and 43 Representatives from New York said: "If the action finally is allowed to stand, not only will 1,100 permanent State employees face dismissal but also it will mean tens of millions of dollars in benefits improperly paid and untold millions in taxes uncollected, hundreds of thousands of New York State citizens denied service in their application for employment and the virtual elimination of vocational counselling of handicapped persons, including veterans, young people and older workers having difficulty in finding employment at all".

The jobs are in the Division of Employment, State Department of Labor.

### Special Committee Meets

The Association's special committee on Division of Employment problems at a meeting, reviewed the effect of any possible reduction in services to the public, and recommended that the Association set forth the argument against any such reduction, in letters to the two U. S. Senators and the 43 Representatives. The committee agreed with Commissioner Corsi that the proposed curtailment was unthinkable, and supported his arguments against any such reduction.

A delegation of the committee conferred with Harry Smith, personnel director of the Division of Employment, and urged that all possible efforts be made immediately to convince Congress that extent and standards of services in New York State, regarding unemployment insurance and employment service, be fully maintained. Mr. Smith promised full co-operation, and said that the

employees would be consulted at all stages of all developments.

One fact that was discussed informally among DE employees was that New York State through the tax on employers, pays into the Federal treasury so much more than its gets out, that any curtailment of services in New York State, for the benefit of what were termed the "cattle States," would be the grossest sort of discrimination.

The chairman of the special committee is Celeste Rosenkranz, of Buffalo. Other members are Henry Shemin, George Roht, Theresa K. Armeny, and Alfred A. Rinehardt, NYC; Joseph Redling and Mary Ronda, Albany; Lillian M. Wilson, Rochester; Alethea Kloeppel, Buffalo; John Keegan, Binghamton, and Catherine O'Connell, Syracuse.

## Assn. Staff Enjoys Picnic At Lakeside

ALBANY, June 22 — The headquarters personnel of the Civil Service Employees Association enjoyed a picnic and social evening at the home of Dorothy MacTavish, a member of the staff, on a lake just outside Albany. After supper cooked over the open fire, outdoor games were enjoyed. After dark, the party moved indoors and exhibitions of various dances such as the rumba and "hula" were staged by Jessie Napierski and Barbara Foster, accompanied by Faustine Spencer on the piano, and by Association President Jesse B. McFarland on the harmonica. Card games were also enjoyed.

Other members of the staff present were Ruth Bailie, Betty Nelson, Paula Grogan, Ethel Fay, Barbara Foster, Jean O'Hagan, Dorothy Sheehy, Joe Lochner, John J. Kelly, Jr., Henry Galpin, Philip Kerker, and Roy Fisher. Guests included Jane Fisher, Jim O'Connor, Johnny Grogan, and Jack MacTavish.

### MRS. ENNIS APPOINTED

ALBANY, June 22 — Mrs. Gertrude L. Ennis, of Lyons, N. Y., was recently appointed by Governor Dewey as a member of the board of visitors of the Willard State Hospital.

## Binghamton Hospital Setting Fire Safety Record

BINGHAMTON, June 22 — A full dress inspection of the safety department, including institution firemen, institution patrolmen and attendants detailed as patrolmen, was held at the Binghamton State Hospital.

The inspection included the aerial ladder in use and the pumper under pressure and throwing water.

In charge was Frank W. Bell, chief institution safety supervisor. Present were Dr. Arthur G. Rodgers, director, and Dr. Claude R. Young, assistant director of the hospital, and Joseph M. Goewey, safety consultant of the Department of Mental Hygiene.

### Diploma Recipients

The highlight of the inspection was the presentation by Dr. Rodgers of New York State Fire Training Course diplomas. The following men who, during the course of the past year, had successfully completed the basic, intermediate and advanced courses in fire training of the New York State Division of Safety, received diplomas: Chief Bell, F. S. Yarosh, Foster Rowe, Guy Rauch, Richard Parrotte, Raymond Parrotte, Robert O'Donnell, Joseph Hackett, Wallace Curtiss, Herbert Simonds, George Boland, LaVerne Cole,

Burton Gebo, Elmer Williams, Robert Whittemore and Richard Adams.

The courses were given at the fire station of the hospital, with the hospital's own fire-fighting equipment. Battalion Chief John Sedor of the Binghamton Fire Department give the instruction.

### Setting a Record

Four more men of the Safety Division are presently taking these courses and Binghamton is well on the way toward being the first Mental Hygiene institution and probably the first New York State institution or division whose entire safety staff has taken the full course of fire instruction of the New York State Division of Safety.

### SHAPIRO APPOINTED IN STATE ACTIVITIES STUDY

ALBANY, June 22 — Governor Dewey appointed George M. Shapiro, his counsel, as a member of the Temporary State Commission for Coordination of State Activities. Mr. Shapiro succeeds Lawrence E. Walsh, counsel to the Public Service Commission, who resigned from the Temporary Commission.

## Safety Chiefs Hear Talk by Dr. Silvern

ALBANY, June 22 — Safety administrators from nine of the larger departments of the State met at Civil Service Training Quarters, 40 Steuben Street, to discuss safety problems and procedures within State operations. The conference was conducted by the Bureau of Accident Prevention of the Division of Safety and was moderated by Daniel P. Webster, safety coordinator.

A feature was a talk by Dr. Leonard C. Silvern, training coordinator of the Division of Safety, on how the various State agencies can utilize the State fire training program and how employees who take this training can obtain certificates upon completion of the required 45 hours of intensive training.

Talks on safety subjects were given by Mr. Webster, Stanley G. Allen, and Emory E. Towson, representatives of the Division of Safety.

Administrators attending were Lee Behringer, Workmen's Compensation Board; Lewis Binns, Education; Howard Briggs, Correction; Thomas Casey, State Fund; Joseph Goewey, Mental Hygiene; Richard Mattox, Health; Borden Mills, State University; Thomas Vosburg, Public Works, and Morris Wiener, Social Welfare.

Personnel from more than half the State hospitals attended the recreation workshop for all downstate hospitals, held at Kings Park State Hospital. The group photo includes Dr. Harold Abel (1), recreation supervisor, and Dr. Richard V. Foster (2), Assistant

Commissioner, both of the Department of Mental Hygiene, as well as Dr. Charles Buckman (3), senior director, Kings Park State Hospital. The workshop idea is spreading in State service and proving unusually successful.

## Employee Activities In Albany

Three teams are tied for first place in the State Softball Game, as of results posted last week. They are the entries from Civil Service, Motor Vehicle and Tax and Finance, each with a 3-1 record for the year.

Graduation events are the topic of conversation at Social Welfare this month.

Several years of night classes ended most successfully recently when Walter Hart, Troy, senior clerk in the Bureau of Office Administration, received his Bachelor of Arts degree in Sociology at nearby Siena College.

Commissioner Robert T. Lansdale received the honorary degree of Doctor of Laws from St. Lawrence University, and Mrs. Jessie Lockwood, Bureau of Vocational Rehabilitation, was as proud as could be when daughter Jean graduated cum laude from Albany Academy for Girls.

One of the highlights of the Civil Service Department's annual picnic on June 22 will be an all female softball game.

The Hilltoppers, recruited from among young ladies in the State Office Building will do battle with the Down-on-the-Levee Girls, a group of athletic young women from the Hoy Building, 40 Steuben St., and 112 State St. Chairman of the picnic is Charles T. Kline.

## Higher Benefits in Effect July 1 Under Assn. Policy Of Sickness-Accident Insurance Coverage

BY C. A. CARLISLE, JR.  
Ter Bush & Powell, Inc.

All persons insured under the Civil Service Employees Association group plan of accident and sickness insurance have now received their new policies. The green card accompanying each policy, if not already returned, should be returned promptly, to Ter Bush & Powell, Inc., 148 Clinton Street, Schenectady, N.Y.

The new policy provides all the benefits of the old policy, plus important additional benefits, at no extra cost.

If you have question which you want answered, please write to Ter Bush & Powell.

For complete statement of benefits see your policy and additional benefits rider. A brief outline follows:

**Non-Occupation Accident Benefits**  
Total Disability: Up to \$150 a month from the first day and for as long as 10 years for any one accident, plus 15 per cent additional monthly payment for total disability commencing after continuance insurance of one year but before age 60.\* (See below for meaning of asterisks.)

**Death, Dismemberment or Loss of Sight Benefits:** Principal sum for loss of life, both hands, both feet or sight of both eyes, one hand and one foot, either hand or foot and sight of one eye; one-half the principal sum for loss of either hand or foot or sight of one eye. The basic principal sum is \$1,000,\*\* but for injuries occurring before age 60, the principal sum increases \$500 at the end of each consecutive year of insurance until the principal sum reaches \$2,500. (The basic principal sum of \$1,000 applies to accidents occurring at age 60 and subsequently.)

**Minimum Indemnities for Fractures and Dislocations:** In the event of certain fractures, dislocations or amputations, indemnity of not less than specified amounts is payable irrespective of the period of total disability.\*\*

**Expense of Treatment for Non-Disabling Injuries:** Up to an amount equal to one month's indemnity—a maximum of \$150.

**Occupational Accident Benefits** (If covered automatically or purchased on an optional basis.)

The same benefits as those for non-occupational accidents except that the limit of the period of total disability for which monthly indemnity is payable is one year for any one accident.

**Total Disability:** Up to \$150 a month from eighth day and for as long as one year, plus(\*\*) 15 per cent additional monthly payment for total disability commencing after continuous insurance of one year but before age 60, plus (\*\*\*) increases in payment period to as long as two years for total disability commencing before age 60, except when due to tuberculosis or pregnancy.

**Hospital Confinement: (\*\*)** Benefits are provided for hospital confinement of forty-eight hours or more during first seven days of total disability commencing before age 60 and lasting more than seven days.

The new plan is unusually broad and provides considerably more coverage than was available under the old.

The insurance committee and the board of directors of the Association carefully considered this new and broader plan and approved it by a large majority vote.

If you are not insured now, write a card or letter to Ter Bush & Powell and ask for a brochure describing these new and broader benefits. You owe it to yourself to investigate.

\*Benefits so marked are provided by the additional benefits rider. The rider remains in effect during the continuance of the policy until July 1, 1954 and the Association will negotiate with the company in your behalf for continuation of the rider beyond that date.

\*\*Benefits so marked are also provided by the additional benefits rider but apply only to a policy in which the monthly indemnity rate is \$75 or more. If the monthly indemnity rate of your policy is less than \$75 you can arrange for it to be increased to \$75 at the premium for that amount by written request to Ter Bush & Powell, Inc., within 60 days from July 1, 1953.

**FRY NAMED COUNTY CLERK**  
ALBANY, June 22 — William H. Fry, of Rocky Point, has been appointed County Clerk of Suffolk County by Governor Dewey. Mr. Fry fills the vacancy caused by the resignation of R. Ford Hughes, of Riverhead, N. Y.

## Mental Hygiene Assn. Will Meet on July 13

ALBANY, June 22 — The annual meeting and election of officers of the Mental Hygiene Employees Association will be held at the Hotel Wellington, Albany, at 10 A.M. on Monday, July 13. The following chapters have designated delegates to attend:

State hospitals: Brooklyn, Creedmoor, Central Islip, Gowanda, Hudson River, Kings Park, Marcy, Middletown, Manhattan, Pilgrim, Rockland, St. Lawrence and Willard.

State schools: Newark, Rome, Syracuse, Willowbrook and Wassaic.

Also, Craig Colony, Letchworth

Village and Psychiatric Institute. The nominating committee consists of Thomas Conkling, Willowbrook State School, chairman; John Graveline, St. Lawrence State Hospital, and Walter Jenner, Syracuse State School.

Recommendations for nominations should be sent to any member of the committee.

Present officers are: F. J. Krumman, Syracuse State School, president; John O'Brien, Middletown State Hospital, 1st vice president; Lida C. Macdonald, Brooklyn State Hospital, 2nd vice president, and Dorris P. Blust, Marcy State Hospital, secretary-treasurer.

# New Civil Service Plan For State Starts July 1, New Appointments or Not

ALBANY, June 22—Is the State Civil Service Commission as now constituted conducting its last meeting this week?

This is a question being asked today.

Ordinarily the Commission meets monthly, except for August of each year.

**Commission to End**

However, this year the legislature passed an amendment to the Civil Service Law which becomes effective July 1, and does

away with the Commission as now set up.

On failure of the Governor to name the new head of civil service and the new Commission, the incumbents continue in office.

However there is no provision which guards against these factors:

1. Under the law the President of the Civil Service Commission becomes the responsible director of the department after July 1. This power, now lodged in the Commis-

sion itself, would therefore pass to J. Edward Conway in the event no successor is named.

2. The other Commission members will take a cut in pay, if held over.

At present, Commissioners Louise C. Gerry and Alexander Falk receive a base salary of \$11,950. As of July 1 the law provides a base salary of \$10,000.

Many are wondering whether Governor Thomas E. Dewey will name a new head of civil service prior to next week.

Kenneth A. Valentine (left, rear) was installed as the president of the Public Service Commission chapter, CSEA, Metropolitan District. Front row, from left, John F. Powers, 1st vice president of CSEA, who installed the officers; Florence T. Osinski, chapter secretary, and Philip Wexler, whom Mr. Valentine succeeds. Standing, Edith Fruchthandler, vice president, and Nathan L. Elgot, treasurer, both chapter officers.

The Payroll Division bowling team won the State Insurance Fund championship, finishing 10 points ahead of the second team. Front row, from left, S. Epstein, M. Flamboltz and D. DeSimons. Rear row, P. Schire (guest), A. Wechsler, Garten, Pirk and M. Wechsler.

## Hospital Prizes to Be Awarded

In conjunction with the annual field day exercises at Central Islip State Hospital on June 24, special prizes will be awarded to the winners of all-patient activity contests and tournaments recently held at the hospital. The awards will go to a checker champion, the winners of an amateur entertainment contest, and womens' bowling tournament.

J. J. Perillo, recreation supervisor at the hospital, announced the inception of the all-patient activities in February, 1953. The proposal brought an immediate and enthusiastic response. Ninety-two patients entered the first ac-

tivity, an amateur contest at the weekly dances. One patient acted as master of ceremonies. He directed the presentations by duets, trios, quartettes, and sextettes. Original lyrics and music were composed.

**Audiences Were Judges**

Programs were prepared, appropriate music selected, and rehearsals held in various wards, with keen interest and cooperation evidenced. An audience of 900 to 1,100 patients judged the offerings, and prizes were awarded. The contests began on March 6. Finals were held May 15.

A cast of 40 patients prepared

an hour-and-a-quarter vaudeville show, which toured the hospital and performed in wards whose occupants could not visit the auditorium.

Other activities were inaugurated. A tournament of both straight and Spanish checkers were held for male patients, and a bowling tournament for women, under the director of Mrs. L. Dunn of the recreation department. The checker tourney was conducted by the patients themselves. Each ward chose a committee of three judges, who collected the names of entrants, as-

# Safe Driving Drive is On; Barrett Co-Author of Idea

Seven northeastern states have united in a summer speed control program to make their highways the safest.

Alarmed by a series of "summer bulges" in serious accidents in recent years, caused by record flows of vacation traffic, the states from Maine to Maryland have mapped out an intensified highway safety program for June, July and August. It will be the first regional effort of its kind.

James R. Barrett of Albany, chairman of the Northeastern State Safety Coordinators, spon-

sors of the highway safety drive, said that safety coordinators will act as liaison officers of official accident prevention agencies in their respective states. Mr. Barrett, chief of the Police Bureau of New York State's Division of Safety, and William M. Greene, of Hartford, director of the Connecticut Safety Commission, suggested the unified program. States represented in the coordinators group include Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, New Jersey, Delaware and Maryland.

Lester Hoenig won first prize in the ceramics group, Metropolitan Conference Art Show.

# Employee Activities

THE ANNUAL meeting of Onondaga chapter, CSEA, was held at the Kirk Park Community House.

Conlon, CSEA field representative—attended a meeting with Onondaga chapter representative Vernon A. Tapper to plan the fourth employees' workshop to be held in Utica on August 15.

Feily, 4th vice president of the CSEA, guest speaker of the evening, awarded 80, 90 and 100 percent membership certificates, and installed the following officers: Mrs. Norma Scott, president; David Rogers, 1st vice president; Edward Stevens, 2nd vice president; Carl Merklein, 3rd vice president; Mrs. Irma I. Misita, secretary; Mary Hickey, assistant secretary; Eleanor Rosbach, treasurer, and Mr. Tapper, chapter representative.

Clift (outgoing president), Kenneth Given, Earl Emm, Donald Boyle, Claire Wales, Ruth McCullum, Chester L. Duff, Robert Sawyer, Joseph Bourke, Winifred Johnson, Joseph Settineri, Dwight Burlee, Arthur Darrow and Mabel Smith.

Accomplishment for the year 1952-53 was the vacation plan for City employees. The chapter worked arduously on this program and presented it to the Mayor and Council early in the year. Much research work was done by the chapter committee before presentation. Research Director Laurence J. O'Toole found the program close to the line he had reached by analysis of plans of the State, various municipalities and private industry.

## Eminent Voices Sound Call for Increased Pay

**P**UBLIC employees are not without their supporters and admirers in high official places of government. The value of the employees' service is recognized, and the need of raising pay is admitted.

It is too bad that not all those who occupy still higher positions, with which goes practical control of such matters, are so seldom so thoroughly convinced. For instance, Governor Thomas E. Dewey did not include in his agenda for the special session of the Legislature any provision for a general pay increase for State employees, nor even for additional funds to effectuate admittedly necessary upward reallocation of pay in certain State titles.

### The State Comptroller Speaks

Addressing the Conference of Mayors, State Comptroller J. Raymond McGovern dwelt on the need for adequate pay by municipalities. Because of the nature of the forum, and for other reasons, it would have been impolitic, no doubt, for him to have mentioned State pay, but his remarks with the geographical limits are welcome and appreciated nevertheless:

"The municipality which pays its officers and employees less than the going rate is rendering a disservice to its taxpayers as well as to the employees. It is encouraging costly turnover and is likely to find itself left with a majority of employees who do not include as high a proportion of alert, able, ambitious persons as those who left to take better jobs."

### Brownell Speaks of Scandal

U.S. Attorney General Herbert Brownell Jr. addressed the graduating class of the Federal Bureau of Investigation National Academy. Naturally, he didn't have to feel confined in a geographical chamber. He went so far as to call the low wages of law enforcement forces a scandal. Said Mr. Brownell:

"The scandal of low wages paid American law enforcement must some day be corrected. This is one sure way to fight corruption, since honest men whose efforts are properly compensated are not readily tempted."

These truths are as self-evident as any characterized as such in the Declaration of Independence. The wonder is that it takes government so long to meet its moral obligations regarding pay. If it was as indifferent to its legal financial obligations, it would be bereft of credit.

Lagging pay scales should be corrected without delay. Meanwhile the outspoken public officials who dramatize the injustice inflicted on public employees deserve the thanks not only of the employees but of the public as well.

## Disability Compensation For U.S. Workers Analyzed

The protection given by the Federal Employees Compensation Act to persons injured or disabled while working for the federal government were explained by Daniel M. Goodacre, chief of the claims department, Bureau of Employees' Compensation of the U. S. Department of Labor, at a Federal Safety Council meeting at the Department of Health, Education and Welfare, 170 Varick Street, NYC. He pointed out that few federal employees could afford comparable accident or life insurance protection.

He revealed that more than 67 percent of the 876,000 federal white-collar workers were in civil service grades paying \$3,800 a year or less. He said a disabled federal employee earning \$300 a month would be entitled to compensation

amounting to two-thirds of his basic salary, or \$200 a month. An employee at the same salary level, with one or more dependents, would receive 75 percent, or \$225 a month. Mr. Goodacre reminded the members that disability payments are not subject to withholding tax, and an employee injured on the job actually receives all except 10 or 15 percent of his take-home pay in compensation benefits. He said that Federal Safety Councils, through their educational efforts, were doing much to reduce accidents among federal employees. He urged all federal agencies to assign representatives to the Council. The chairman of the meeting was George R. Orth, safety superintendent of the Brooklyn Navy Yard.

## Question, Please

**I** NOTE from the article in the June 16 issue of The LEADER that the U. S. upper age limit for jobs on other than a temporary basis is now 70, instead of 62, and that for temporary jobs, not to last more than a year for each hiring, though hiring is renewable up to a like period, there is no upper limit. Please explain what effect this has on retirement age in the U. S. civil service. P. L.

**Answer** — The upper age liberalization for hiring purposes has no effect on the U. S. Retirement Law. The compulsory retirement age remains 62. The answer to the inferential part of your question, regarding giving up one's job because one reaches 62, while others may be hired to fill it to age 70, is as follows: The employee compulsorily retired could be rehired under a special provision of the rule. Hence he would have to retire, having no choice, but could go through the routine of being rehired, to continue to age 70.

**WHAT IS** the status of the Rhodes bill to require union recognition by the U. S. Government of organizations of its public employees? L.P.C.

**Answer** — The bill remains buried in committee. Congress is expected to adjourn by July 31. There is little likelihood the bill will be acted on in any way prior to then. What will happen to the measure subsequently is problematical.

**WHEN** will the U. S. start setting up the hearing panels under the new loyalty-security-fitness program? P. L.

**Answer** — Organization of the panels is now under way. The members consist of U. S. employees. However, review of decisions adverse to an employee of any particular department would be made by a panel consisting of employees of other departments. No panel member would pass on the merits of the case of any employee of that member's own department. No department head would have to comply with any recommendations of the hearing panel. Because of the restricted nature of the review, employee or organizations will carefully watch the operation of the new system.

## Comment

### 40-HOUR WEEK ASKED IN MENTAL HYGIENE

Editor, The LEADER: I am an attendant in the State Department of Mental Hygiene. When are we going to get that 40-hour week? We get one day a week off, plus one extra day a month. With just three extra days more off each month, we'd have a five-day week. Long work-weeks make us all stale.

H. N.

## THEY SAY

**EVERETT M. DIRKSEN**, U. S. Senator from Illinois: "There has been a tendency on Capitol Hill for nearly 21 years, as I have seen it, that when anybody suggests a pay raise for Federal employees he's looked at rather carefully to see if he has a touch of leprosy. I do not agree. I think the government has to pay decently for what it gets."

### 3 NYC Agencies Win Safety Awards

Three City agencies, the Department of Water Supply, Gas and Electricity, the Board of Water Supply, and the Office of the Borough President of Queens, received safety awards for the greatest improvement in safety performance during 1952. Mayor Impellitteri awarded trophies to the three agencies at a ceremony at City Hall. Commissioner Dominick F. Paduano received the award in behalf of the Department of Water Supply,

Gas and Electricity for an improvement of 30 percent over 1951. President Irving V. A. Hule received the award for the Board of Water Supply, which had a 48 percent improvement over its previous year's record. President James A. Lundy accepted the award for the Office of the Borough President of Queens for a 51 percent improvement in its record. The awards were designed to stimulate a city-wide safety drive.

The 25-Year Club at St. Lawrence State Hospital honored employees with 25 years' service at its second annual dinner. Pin recipients pictured are, front row, from left, Elizabeth Hobbs, Dorothy Jacques, Agnes Savino, Winifred Topham, Blanche Spilman, Frank Rabetoy and Cecil Stokes. Back row, Ralph Briggs Jr., Milton Jacques, George Lashomb, Edgar McDonald, Laura Pfaff and Thomas Moore.

## CIVIL SERVICE

# NEWS Letter

**JAMES C. WORTHY** has changed his views about Federal employment. The Assistant Secretary of Commerce, before taking over his U.S. job, wondered what attraction Federal employment has, with pay none too generous, and opportunity for advancement none too keen, contrasted perhaps with what prevails at Sears Roebuck in Chicago, where he'd been a top official. Now he says that the inspiration of Government work is the knowledge that such performance is important to the whole nation. "Federal employees," he says, "have a sense of being close to the center of things," and he's glad to find a wealth of competence among them.

**A PLAN** to substitute oral tests for written ones, in many Federal exams, has evoked a sharp attack by the Government and Civic Employees Organizing Committee. The union fears that candidates would be tested orally on extraneous subjects, and that personal angles would dominate examiners' decisions, if the plan goes through. "There is no doubt," adds the union, "that written examinations alone can not reveal the total of an individual's abilities and capacities, but to outlaw paper tests completely would be to belie all the advances to date of psychological tests and measurements. Actually oral tests are far too prone to be colored by personal reaction of the interviewer, and very frequently results of orals by several interviewers with one candidate turn up extremes in rating. This throwback to prescientific recruiting was advanced to the Society for Personnel Administration at its recent annual conference, and met with varying reactions. There is little chance of majority acceptance of the proposal, but there is always the threat of less far-reaching changes being slipped in unnoticed."

**ONE OF THE IMPORTANT** aspects of the change of administration from the Board of Transportation to the Transit Authority in NYC is the effect it will have on the powerful Transport Workers Union. The strength of the union is recognized, not only by its members but by the TA. However, the members of the TA are not paid, are not in politics, are not prospective candidates for elective office, and are expected to deal with the union strictly on a business basis. Some of the union's outstanding successes in the past have resulted from political deals. Also, the change-over to the TA raises the question whether the TA employees are subject to the Lyons Residence Law, not generally applicable to Authorities, so the Municipal Civil Service Commission has asked Corporation Counsel Denis M. Hurley for an opinion. Meanwhile, all Board of Transportation eligible lists have been voted recently as "appropriate" for filling the same or similar jobs in the TA. Every day some new problem crops up in connection with the change-over, which is now in effect.

**ABOUT THE TIME** that the new law takes effect whereby the State Civil Service Department will be reorganized, the final, complete report of the Mahoney Commission, dealing with civil service administration, will be released. . . Congress is planning adjournment by July 31. Many measures sponsored by U.S. employee organizations will not be acted on by then, but the repeal of the Thomas amendment, affecting U.S. leaves, is not one of these, because forfeit of leave is enforced, under existing law, after June 30. Repeal, with limitations on accumulations, and especially on terminal leave, will be enacted, effective before June 30.

# Compromise Is Reached On U.S. Annual Leave

WASHINGTON, June 22—Agreement was reached by Senate and House conferees on a new US annual leave and terminal leave plan.

The Thomas amendment, under which employees must use their leave by June 30 of the year following the one in which it is earned, would be repealed. In its place, annual leave accumulation, the terminal leave maximum, would be limited to 30 days. Employees who now have more leave than that to their credit would be

entitled, and those who have earned, or will earn this year, enough to constitute an excess over 30 days, would have to use the excess in the same year as earned. But employees now having more than 30 days' leave to their credit would not be entitled to accumulate more, until they use the excess over 30 days.

**Separate Group Planned**  
Those who have rights to leaves in excess of 30 days would be required to use the excess gradually, and the US Civil Service Commission would be required to see that this was done.

US postmasters, marshals and US attorneys and their legal aides

would remain under the new general leave provisions, but about 600 officials would be put in a separate annual leave and terminal leave class of their own. This would be done by Presidential order. Evidently the subject was discussed with President Eisenhower, or his representative, and approval of this aspect obtained in advance.

The officials in this group would not be entitled to any terminal leave pay, but would have annual leave rights that could exceed those granted to employees generally, because of the responsibility of the positions.

**Speedy Action Sought**  
The compromise was not reached without considerable debate. Though Chairman Ed Rees of the House Post Office and Civil Service Committee didn't like the provision that any excess leave could be used only during the fiscal year when earned, he signed the recommendations. He pointed out that even the Thomas amendment gives employees until June 30 of the next calendar year and felt that advancing the date was too restrictive.

Others, both from the Senate and the House, had ideas contrary to other provisions of the compromise, but yielded, for the sake of speed. One objection was that terminal leave pay, which is given in a lump sum, is limited to 30 days.

As June 30 is the last day to use present leave credits, quick action was necessary.

**Way Out**  
The problem now is to get the legislation enacted before then, although, even if there is some little delay beyond that date, a retroactive clause in the legislation could take care of that.

### Data on Applications by Mail

Both the U. S. and the State issue application blanks and receive filled-out forms by mail. In applying by mail for U. S. jobs do not enclose return postage. If applying for State jobs, enclose 6-cent stamped, self-addressed 9-inch or larger envelope. The State accepts postmarks as of the closing date. The U. S. does not, but requires that the mail be in its office by 5 p.m. of the closing date. Because of curtailed collections, NYC residents should actually do their mailing no later than 6:30 p.m. to obtain a postmark of that date.

NYC does not issue blanks by mail or receive them by mail except for nationwide tests, and then only when the exam notice so states.

The U. S. charges no application fees. The State and the local Civil Service Commissions charge fees at rates fixed by law.

A new publication, "The Journal of Public Administration," will be launched next winter by the New York University chapter of the American Society for Public Administration.

Dean William J. Ronan of NYU's Graduate School of Public Administration and Social Service announced that the "Journal" will feature outstanding student reports and abstracts of these. Each quarterly issue also will have a brief article by a faculty member or other authority on public administration.

## PROMOTION EXAMS FOR POSTAL SUPERVISOR

Post Office supervisors will be chosen by competitive promotion, according to the National Federation of Post Office Clerks, which says that the plan, already tested in some cities, is slated for nationwide adoption.

Clerks and carriers in grade 7 and above will be eligible to compete for the supervisory posts, now filled by postmasters at their own discretion. Personal and political considerations are frequently involved in the decisions.

Three ratings—A, exceptionally well qualified; B, qualified; and C, unqualified—would be given. Candidates in group A would be appointed before those in group B; those in group B before the lowest-scoring aspirants.

## WRITTEN RESIGNATION IS BINDING

The NYC Board of Estimate has very broad power to refuse to permit withdrawal of a resignation, was the decision of the Appellate Division, First Department, last week, in a case involving a former Secretary to the Commissioner of Marine and Aviation. ## LYONS LAWS EXEMPTIONS

Councilmen Edward A. Cunningham of the Bronx and Aloysius J. Maickel of Queens have introduced a bill in the City Council to exempt veterans of World War II and the Korean conflict from provisions of the Lyons law, which requires NYC residence for all City employees.

The new measure would provide that any such veteran who was a NYC resident when he entered the armed forces would be permitted to hold a job with a City department even though he lived outside the City now.

## FIREMAN PHYSICALS

The NYC Civil Service Commission reports that 1,630 fireman candidates had passed the competitive physicals held at Van Cortlandt Park, The Bronx, while 296 failed. Four men had perfect scores.

# Stop Headlight Glare! Actually See After Dark!

DO YOU DRIVE YOUR CAR AFTER DARK? Do you know that 4 out of 5 fatal smash-ups are caused at night to SAFE, careful drivers who are trapped... blinded... and killed by the headlights of another man's car?

Here is the first full story of how you can completely avoid that blinding headlight glare... avoid those night driving accidents... how you can actually drive at night with almost full daylight safety!

How many times this month have you been completely blinded by the headlights of another car? How many times have you been blinded when you were driving 30-40-50-miles an hour... when you were in the middle of a dangerous intersection... when you were turning a sharp curve or corner? Yes, how many times this month have you been forced to trust your life—and the lives of your family—to a driver who doesn't even have the sense to dim his headlights?

## These Accidents Can Be Avoided

Do you know that now you can avoid all these risks? Do you know that during the last five years over 70,000 drivers have found a new way to protect themselves against this headlight blindness? That these drivers have tested and proved an optical instrument that actually makes the brightest headlights as easy to take as dims! Here is that amazing story:

Five years ago, three of the country's top optical experts decided to tackle this problem of headlight glare. They immediately discovered that all of the common remedies were either useless or actually dangerous. These experts discovered that there was only one sure way to protect yourself against this blinding night glare—a piece of optically colored glass worn by you, yourself—that filters out the glare from these headlights in exactly the same way that a pair of sunglasses filters out the glare of the sun.

These experts discovered that scientists had developed such a glass—that many of the leading automobile manufacturers, such as Buick, Cadillac, Oldsmobile, Lincoln and Chrysler—were equipping their special deluxe models with special glare-resistant windshields. However, the cost of this glass on these special cars was necessarily \$20-\$50.

To avoid these costs these experts took this special glare-resistant glass and built it into a pair of Night Driving Glasses that could be worn by any driver. Since they eliminated all rays of glare, the experts called them RAYEX Night Driving Glasses. Here are some of the amazing results they discovered when they tested them.

## This Is How Night Driving Should Be

1. WITH THESE RAYEX Night Driving GLASSES, you can look directly into the brightest headlights. You will see the headlights as pale amber discs—but you will

not see the glare. You could pass an entire line of fifty cars, and not even squint.

2. WITH THESE RAYEX Night Driving GLASSES your eyes will be protected against any intrusion of glare. They will not have to adjust themselves to constant flashes of light. You will actually be able to see better... clearer... and farther with them on than you could see without them. You will see dark objects more quickly. You will react more quickly to the pedestrian who darts out of a side street... to the dark bumps in the road that ruin your tires.

3. SINCE THESE RAYEX Night Driving GLASSES PROTECT YOUR EYES AGAINST STRAIN, you will not suffer from dangerous night driving headaches. You will be able to drive as much as 400 miles in a single night without feeling the slightest strain. You will not be tired after short rides. And, above all, tired, strained eyes will not cause you to fall asleep at the wheel. You may make even the longest trips with absolute confidence. ORDER TODAY! Use coupon below!

## Proven By Over 70,000 Drivers

Before these glasses were advertised in this paper, they were distributed to over 70,000 drivers... volunteers who tested them under every possible sort of night driving condition. Here are the actual reactions of these drivers—their own, unsolicited experiences with these glasses. Perhaps they will help solve your night driving problems.

### DO YOU EVER DRIVE ON THE OPEN HIGHWAY?

"On my trip to Denver last week, I must have passed at least 50 cars. Not one dimmed down his lights. If I hadn't had your glasses, I would have had to pull over to the shoulder, and wait till they passed by. As it was, I didn't even squint."—Mr. F. M. F., Bremerton, Wash.

### DO CHILDREN RIDE IN YOUR CAR?

"I drive my little girl home from a country school during the twilight hours. I was always afraid—either of the blinding lights from the other cars at that hour—or of hitting one of the other little girls in the streets. Now, thank God, I know I can see them. I wouldn't take \$100 for these glasses."—Mrs. L. G., Forest Hills, New York.

### DO YOU GET NIGHT-DRIVING SLEEPINESS?

"Drove 112 miles after midnight without the slightest strain. Never felt so relaxed and confident in my life. Thanks!"—Mr. D. F., San Antonio, Texas.

### DO YOU HAVE WEAK EYES?

"My husband has a cataract on his left eye and could never enjoy driving before

## PROVE IT YOURSELF! MAKE THIS CONVINCING "LIGHT-BULB" TEST

When your RAYEX NIGHT GLASSES arrive put them on. Look directly into the strongest electric light in your home. You see the light... the glare is gone! Then test them again in your car. Look at street lights, headlights, under every sort of difficult night driving condition. If they do not do

GONE FOREVER! Blinding Headlight Glare—the number one cause of traffic accidents in New York today! Read this amazing story of how science conquered this "one unpreventable" accident!

He thinks your glasses are wonderful—says they're also good for protection against the sun.—Mrs. L. B., Elizabeth, North Dakota. (NOTE: We do not recommend the use of these glasses as sun glasses. They are as different as night and day. They have only one purpose—to protect you after dark.)

And here is the one fact that all of these drivers agreed upon... this is the way they would affect your night driving.

The very first moment you put on RAYEX Night Driving Glasses you enter into an entirely new world of night driving. There is no more blinding glare. Instead, the headlights of every car... every street light... every window you pass, are a soft amber yellow.

You'll notice immediately, that you are more relaxed... more confident about your driving, because you can actually see better and farther. Test these glasses against the first two or three cars you pass. Prove to yourself that you can see their lights... but there is no blinding glare. After that you will be able to totally disregard the headlights of any car coming toward you on the highway. You will be able to sit back and relax—enjoy your night driving as much as you do in the day.

# Activities of Civil Service Employees in N. Y. State

## Kings Park State Hospital

**A MILE OF** fire hose set up by five fire companies took part in a pump relay drill on the grounds of Kings Park State Hospital recently. The Fire Chiefs' Council of Smithtown organized the drill, bringing vump equipment from the nearby towns of Smithtown, Hauppauge and St. James. The hospital and the village units were out in full force.

The mile of hose pumped thousands of gallons of water in an outstanding display of team work in a difficult group endeavor. Hats off to all regulars and volunteers.

The showing of two films at York Han for more than 200 employees was hailed with interest, enjoyment and a demand for more. The films, "Safe As You Think" and "City of the Sick," were viewed by hospital maintenance men, student nurses, fire and police officers, among others.

Get-well wishes to Walter Lynch of the main office; Elizabeth Miller, housekeeper of Home T; and Nora Roosa, attendant, Group 4.

In the opening game of the season, the Kings Park team outplayed the Brooklyn Dodger Rookies 12 to 3. The Dodger Rookies, comprised of present college and high school ball stars, have in the past farmed out many stars. Coaches Marty O'Donnell and Al Kunzman and Scout Turk Karma presently direct the Rookies.

The game was played at Tiffany Field, with Dr. Buckman, hospital director, throwing out the first ball, immediately following the National Anthem played by the patients' band. The band, under the direction of Bob Schulze, provided inspiration during the game, and entertainment afterwards.

The juvenile patients were served ice cream, peanuts and cracker-jack, with Dr. and Mrs. Buckman pitching in on the distribution.

The Boston Red Sox Rookies are next on the baseball schedule.

In the minor leagues, Coach McKechnie's Building D-C boys trampled Coach O'Reilly's 3B Vets to the tune of 19 to 2. McKechnie's boys smashed five runs in the first

inning and followed through with tight fielding.

Recently a group of 20 boys and girls from the juvenile service watched the Dodgers play at Ebbets Field through the sponsorship of David Soden, who is associated with the Knot Hole Club. Plenty of refreshments was supplied, and the kids really had fun.

Get-well wishes to Rev. Martin J. Daly, hospital chaplain, and to Mrs. O'Leary, both hospitalized in Huntington. Sympathy to Mrs. McMahon in the death of her husband, Patrick.

Best wishes to Kathryn Morse of social service, who recently left Kings Park to be married.

Dr. Dorothy Weigert is enjoying her vacation in the Virgin Islands. Mr. and Mrs. Bill Williamson are in California on vacation.

Welcome to Dr. Abraham Weinstein, who recently joined the hospital staff.

Margaret Laszesk of the employees' dining room is confined at home with a broken leg. Art Server and Frank Campbell are in the hospital at this writing. They would enjoy seeing friends.

Mrs. Amy Fitzgerald, Minna Stein, Agnes Dolan, M. Spradley, R. Hart, E. Nordquist and D. King are also in Ward 80.

## Ray Brook

**THE RAY BROOK** chapter, CSEA, climaxed a social season and election campaign with a dinner-dance and installation ceremony at Swiss Chalet, Saranac Lake. One hundred fifty members and many guests attended.

The ceremonies were opened with the Invocation by Father Claver. Dr. Frederick Beck, medical director of Ray Brook Hospital, made the welcoming address. Dr. Norman Sheffrin of the medical staff was toastmaster.

J. Allyn Stearns, 3rd vice president of the CSEA, installed the new officers and made the principal address. Francis Hockey of the X-ray department is the new president, succeeding Emmet Durr, who has held office since the chapter was organized eight years ago. Mr. Durr was not a candidate for re-election. Other officers: Frank Ratigan, pharmacist, vice

president; Walter Carter, maintenance department, treasurer; and Helen O'Brien, receptionist and telephone operator, secretary. She succeeds Eunice Cross, who served as secretary for four years.

The Shene Trio entertained with hillbilly tunes. Joe Boland's orchestra provided music for dancing.

Francis Hockey presented Emmett with a gift from the chapter membership in recognition of his many years of service.

Committee members in charge of the dinner-dance were Leonard Martin, chairman; Martha Miller, Marion Egan, Emmett Brown, Frank Witkowski and Bert Friedman.

Employees of the Board looked forward to an outing at Helen Callahan's camp on Oneida Lake, weather permitting, on Saturday.

NEWS of the Employment chapter, NYC and Suburbs:

Tardy, but none-the-less sincere, June birthday wishes to: Fred Smilo (5th), Lucille Crank (14th), Rocco Agoglia (16th), Gertrude Bloch (20th), and Jack Leventhal (25th).

The Employment chapter welcome mat is extended to the following new members:

LO 730 — William Besmanoff, Henry Cohen, Harry Fishner, Elsie Hinkson, Mabel Hurst, Robert King, Max Jacobs, Clarence Leone, Samuel Schwartz, Henrietta Cook and Edward Pickus.

LO 630 — Vincent Alfieri Sr., Martin Fingerhood and Howard Krashes.

LO 650 — Mortimer Arnush, Anna Ehm, Hugh Clark, Bernice Harris, and William Levine.

LO 200 — Olga Carpineto, Henry Johnson, Jerome Keller, Charlotte Wittels and Joseph Bowden.

Helen Clark, Grace Nulty, Kay Armeny and H. Hooper attended the end-of-the-year meeting of the Westchester and Putnam County Guidance and Personnel Association. This group, a branch of the National Vocational Guidance Association, is composed of

educational authorities, school counselors and Employment Service staff members. The meeting was held at the picnic grounds of Westchester's Grasslands Hospital. The weather man provided ideal June evening weather. The catering committee promised "all the steak you can eat," and generously lived up to its contract. And several not-so-stalwart members proved they could still toss a mean horseshoe.

A special meeting will be held by the Employment chapter on Wednesday, June 24 at 6:30 P.M., at 87 Madison Avenue, fourth floor. Staff members as well as executive committeemen are urged to attend. A significant report will be submitted at that time on the Division of Employment committee meeting, held in Albany June 17, covering the impending layoffs. A representative will also speak on the new accident and health policies.

NEWS of the Pilgrim State Hospital chapter, CSEA:

Margaret Vesely and Blanche Zaloudek have returned from sick leave.

Marie Olsen, who underwent an operation in Southside Hospital, is convalescing at home.

The friends of Anna Gensch and E. Walcott are glad they are feeling better. Both had been very ill.

Vacationing: Mrs. Catherine Thornewell, who is visiting friends and relatives in Ireland; Mrs. Ava Wilson, visiting her mother in Iowa; Mrs. Edna Grell and Mrs. Helen Arthur, enjoyed a week's cruise to Bermuda and Nassau in the Bahamas, and Mrs. Margaret Heaney.

Sincere sympathy to Leo Liberty on the recent loss of his mother.

# LATEST NYC ELIGIBLE LISTS

The names of persons on the following NYC eligible lists were certified by the Municipal Civil Service Commission to various NYC departments and agencies for possible appointment.

More names are sent to City departments than there are vacancies to fill, hence all certified may not be called to job interviews.

The number of the last eligible on the list who was certified is given.

"V" means non-disabled veteran; "D," disabled veteran. "Y" signifies that investigation of the eligible has not been completed; "M" that certification is made subject to medical examination.

## NYC to Pay Half of HIP Rate Increase

The Health Insurance Plan of Greater New York announced last week that it had deferred until October 1 the rate increase originally scheduled for July 1st. The postponement affects all subscribers.

HIP took into consideration the current financial condition of NYC and agreed to the request of the Board of Estimate and the unions representing the City's employees for deferral. In turn, the Board of Estimate agreed to resume on October 1 its former policy of paying half of the entire premium for both HIP and Blue Cross for those municipal employees and their families enrolled in the plan.

The new rates were made necessary by the increase in the cost of living and the high cost of administrative personnel, medical equipment and supplies, said Dr. George Baehr, president and medical director of the plan. HIP was virtually the last of the insurance companies to raise its rates.

The postponement affects also 461 private business and industrial organizations, and civic and social agencies as well as 19 city-wide labor unions.

Currently HIP is providing comprehensive medical care to 400,000 persons in NYC and Nassu County through 30 medical groups, which together, include more than 1,000 family physicians and specialists. These medical groups are located throughout the five boroughs of the City and the adjacent county.

### Delehanty High Opens Summer Courses July 1

Now that the Regents examinations have been completed, the interest of many high school students and their parents is focused on summer high school courses. This is reflected in a marked increase in applications for admission to summer session at the Delehanty High School. Delehanty High is at 90-14 Sutphin Boulevard, Jamaica, but the summer enrollment usually includes students from all sections of the City.

Bernard B. Galway, principal, has announced that classes will start this year on Wednesday, July 1 and extend through Thursday, August 20. Delehanty High School is co-educational and fully accredited by the New York State Board of Regents. The summer session will offer a complete program of high school subjects for students repeating or advancing. The courses will terminate with Regents or uniform citywide examinations.

During the summer, day classes will be from 8:30 A.M. to 11:15 A.M., Monday through Friday. Evening classes will start at 6:40 P.M. and end at 9:20 on the same days as day classes. Small classes assure individual attention and enable the ambitious girl or boy to repeat or advance a full term's work in one or two subjects.

Mr. Galway stressed the advisability of early enrollment as only a limited number of students can be accepted.

### LAW CASES

A weekly summary of legal matters was submitted to the NYC Civil Service Commission last week by Sidney M. Stern, chairman of the committee on laws and rules:

Proceedings Instituted: O'Connell v. Grunet et al. Petitioner seeks retroactive seniority in the position of fireman in accordance with the case of Berger v. Walsh.

Judicial Decisions: Mamoo v. Keenan. The notice of examination for junior counsel (sorts), grade 3, stated that there would be a performance test with a weight of 10 and pass mark of 75%. The Commission subsequently divided this test into two parts, each weighted at 5 and with 75% required on each part. Justice Gavagan at Special Term held that this was not arbitrary, unreasonable, nor capricious but was properly taken in accordance with the Rules of the Commission. The petition, seeking cancellation of Part II of the performance test, was dismissed.

## Onondaga County Penitentiary

AUGUSTUS J. SHEA, who had devoted his life to the public service, died after an illness of a few days. He was 66. Mr. Shea was a veteran of 42 years' service, the longest service record in the history of Onondaga Penitentiary. He was appointed a keeper in 1912, and at a comparatively young age was placed in charge of the prison's largest cell block. In 1940 he was promoted to head quarry keeper, the quarry at that time being the institution's chief industry.

A solemn Requiem Mass was celebrated by the Rev. Donald Wise, Mr. Shea's nephew. The Rev. Francis Fournier, penitentiary chaplain, and the Rev. Vincent O'Connor, past chaplain, were also present.

The cortege passed through an honor guard of uniformed penitentiary keepers in entering and leaving the Church of St. Anthony of Padua, Syracuse, and again at the Cemetery of the Immaculate Conception, Pompey Hill, N. Y.

The officers with whom he worked will never forget the example of the ideal prison officer and the perfect public servant that Mr. Shea so vividly portrayed by his everyday example.

Directory Spurs Drive For Members

MARCY, June 22 - A directory of personal information, including the names and telephone numbers of various officers in the chapter, has been distributed by the Marcy chapter, Civil Service Employees Association, to Marcy State Hospital employees. Printed on light-weight cardboard, the directory is posted in each ward, department and special service office in the hospital.

The innovation was designed to create new interest in the workings of the chapter. Officers of the chapter report that it has been successful.

The directory includes the names and telephone numbers of the building or department representative, the person to call in case of death or illness, or regarding insurance problems or claims, or grievances, and related problems. The chairmen of the various committees in the chapter and the chapter's officers are listed.

# Social Security For Vets Who Hold Public Positions

By H. J. BERNARD

Employees of Federal, State and local government, who saw service in the armed forces, particularly those discharged after Korean and recent European service, are manifesting an increasing concern about possible Social Security coverage. They've been away from the domestic scene, out of touch with latest developments at home, but have heard that Social Security applies to veterans. It does, but not to all veterans.

Those veterans who were employees of the State or a community of the State when they entered the armed forces would be covered by Social Security even though they were members of a public employee retirement system, or were eligible to such membership. Neither condition bars Social Security coverage for such State or local government employees.

The same principle applies to U.S. employees, though membership or eligibility to membership in, say, the U.S. Civil Service Retirement System was open to them. Moreover, many U. S. employees are covered by Social Security, for the Retirement System is closed to almost all save permanent civil service employees, unlike the State Employees Retirement System, the NYC Employees Retirement System, the State Teachers Retirement System, the NYC Teachers Retirement System and other such systems.

Temporary U. S. employees — equivalent to the "provisionals" in other jurisdictions — are ineligible for the U. S. Civil Service Retirement System, and under Federal law, Social Security is open to them, and many thousands of "indefinite" U.S. employees as well.

### Agreement in Prospect

Under the Federal law the State may sign an agreement with the Federal Government to have employees of the State or local government brought under Social Security. New York State has signed no such agreement yet, though for some group titles, particularly in the labor service, one appears to be on the way. Nobody now under the State Employees Retirement System will be put under Social Security. If the labor groups are brought under Social Security in the future, because newly excluded from public employee retirement eligibility, it would add to any credit for any period of service in the armed forces, for Social Security purposes.

As to the others — the Federal, State and local employees for whom no Social Security can be provided — because Federal law itself excludes them from it — coverage under Federal old-age and survivors insurance will remain impossible for such public service, unless Federal law is amended to permit it, which wouldn't happen until next year, at the earliest. Congress will await a report on a pension study being made for it by a committee headed by H. Eliot Kaplan, former Deputy Comptroller of New York State, and the report isn't due until June 30, 1954, although a preliminary report by December 31, 1953 is probable.

### Special Types of Employment

There are part-time government employees, also persons hired by government on a fee basis and some others who work for government who are not eligible in a public employee retirement system, coverable now by Social Security, and would benefit by coverage during the period of service in the armed forces, plus the other.

### Public Employees Covered

The answer to the question, "Do public employees have Social Security coverage, for the period of their service in the armed forces?" is Yes.

It makes no difference whether they were Federal, State or local employees when they entered the armed forces, or became such after their discharge. The Social Security Law makes no distinction in that regard. So long as the men and women were in the armed forces, they got Social Security coverage for that period. What makes some veterans suspect this may not be true is the fact that

no deductions were made from their military pay for Social Security purposes. The Government paid both the employer's and the employee's share, in contrast to the share-and-share alike method applying in private industry.

### NYC Police Example

Suppose that a NYC policeman spent five years in the Army. As a policeman he was not covered by Social Security for his period of police service. During his period of military service he was covered. After he was discharged he returned to his police job. He still remained covered under Social Security, based on all his military period, though, again, as a policeman he was not building his Social Security credits. For the post-military service period Social Security did not apply. If he should die within an allowable period, his beneficiary would receive a death benefit, depending on the number of specific quarters of a year during which he was covered by Social Security. Also, other survivor benefits would apply. But there would be no pension benefit because for a pension to apply he must have lived, and must have attained age 65, with no exceptions.

Hence, it is impossible to have dual coverage — both forms of protection for the same job — but possible to have separate coverage for the outside job, under Social Security, despite one's membership or eligibility to membership in a public employee retirement system, and despite one's employment by State or local government. In this way the Social Security coverage obtained during armed forces service would be continued by any subsequent job in covered employment, just as it would be continued from any job in covered employment held prior to joining the armed forces, even if one were a public employee at the time of draft or enlistment, because the separate, covered job gives the separate benefit.

### Outside and Later Jobs

As many public employees have outside jobs, or worked in jobs covered by Social Security prior to their civilian service with a branch of government, they would build up Social Security credits that could enable them to retire on a higher pension than short-term coverage provides. That pension would add to any retirement income from a public employee system. Also, the Social Security pension is exempt from U. S. and State income taxation entirely, whereas the public employee pension is subjected to only limited tax exemption under U. S. law, although fully exempt from New York State income tax for pensioners of New York State and New York local governments.

When minimum retirement age is less than that under Social Security, or is based on number of years' service, which may enable actual retirement at far under 65, even at 41, it is possible for the employee retired on a pension from his public job to get a job in covered private employ, or

be self-employed, to be covered under Social Security for that subsequent period. In that way the benefit credits are increased.

All service in jobs covered by Social Security, and all military service, if within the prescribed conditions, build up one's Social Security account, to make it possible to become "fully insured." Once that state is reached, one might even stop working in covered employment, and wait until he is 65 to apply for a Social Security pension, though it would be less than the maximum which is about \$20 a week for the insured individual. No contributions could be made by or for him during the period of the gap preceding age 65.

Not until 1951 could services performed for a State or local government be covered by Social Security at all. As since amended, the Federal law permits such coverage, if the State wants it, but with the exclusion of public employee retirement system members and eligibles still in effect, for the job with government, but with no adverse effect on veterans for their Social Security coverage during military service.

From the foregoing, it can be seen that the reasons for Social Security coverage of members of the armed forces are (a) to continue such coverage, or (b) begin such coverage for those servicemen and servicewomen who did not have it before.

So much for those who were employees of one or another branch service of government.

Thousands of veterans entered government service for the first time, after their discharge. They were covered by Social Security for armed forces service and earned credits service for that past service, the same as others.

The benefits apply at age 65 or at death, and are bestowed only on request of the prospective pensioner, or, in case of death, the request of a surviving beneficiary.

### Conditions for Coverage

Where veterans have died in service, survivors wonder whether they're entitled to benefits.

When coverage does apply, it is under these conditions:

1. Active service in the armed forces of the U. S. on and after September 16, 1940, and prior to January 1, 1954.

2. Still in armed forces, or out under circumstances other than dishonorable, or insured died during active service.

3. Minimum of 90 days of such service, or, if less, curtailed for disability suffered or increased by active duty.

The wage credit then is \$160 a month in addition to any based on actual pay, but the standard \$3,600 maximum applies (\$3,000 before 1951).

The wage credits may be used in determining the amount of insurance payments to the veteran and his family when he retires, to the family of a serviceman or woman now deceased, and to the family of a veteran if he should die.

The wage credits do not apply

# FSA Explains Benefits From Military Service

The Federal Security Agency, in a pamphlet, describes the benefits to veterans as follows:

### Military Service

Under the 1950 amendments, Social Security wage credits of \$160 were provided for each month of service in World War II.

The 1952 amendments provide wage credits of \$160 per month for military service from the end of World War II through 1953.

Service after the end of World War II may be used in figuring the amount of monthly payments for months after August 1952, and for lump-sum death payments where death occurred after August 1952.

These wage credits are in addition to any wages actually paid for work in covered employment. They now apply to men and women who saw active duty in any branch of our armed services after September 15, 1940, and before January 1, 1954, provided discharge or release was under conditions other than dishonorable. (Ninety days of active service are required unless discharge or release was because of disability or injury incurred or aggravated in line of duty.) The wage credits may go to those who died in service as well as to those who die after discharge.

### Not Listed

If your active military service between the two dates given above lasted six calendar quarters, you are insured under old-age and survivors insurance until at least June 30, 1954.

### Exception

While, for Social Security purposes, these credits for military service count the same as wages in civilian employment, they are not actually listed on your wage record. Determination of your wage credits will be made when you file an application for retirement benefits, or when an application is filed in the event of your death. It will be necessary at that time to furnish proof of military service, and if you were discharged, proof that the conditions were other than dishonorable. These military wage credits will then be added to the wage credits you have accumulated in work covered by Social Security before and since your period of military service.

These wage credits are of immediate benefit to many survivors of men who died while in military service, regardless of the length of such service. Also, military wage credits may benefit survivors of servicemen who died after discharge. For example, a man who served in World War II or in the Korean campaign for 18 months may have died "insured" on the basis of military service alone. If he left a widow with children who were dependent and are now under

age 18, these survivors would be eligible for monthly benefit payments.

Military wage credits may not be counted toward Social Security benefits if monthly benefits based in whole or in part on the same period of military service are determined to be payable by the Army, Navy, Civil Service, or other Federal retirement systems. (Wage credits are not affected by compensation or pensions payable by the Veterans' Administration.)

The dependent survivors of a veteran with World War II service may be eligible for Social Security payments under a special provision of the law which grants the payments without regard to covered employment if the following conditions are met:

(1) The veteran was discharged before July 27, 1951; (2) death occurred within 3 years after the date of his discharge; and (3) no compensation or pension is paid by the Veterans Administration.

In such cases, however, the wage credits for military service are used only if they will give higher payments than would otherwise be made to the family.

# Extra Day Off Asked In NYC Because July 4 Is a Saturday

NYC employees are seeking a decision on the question of holidays that fall on Saturdays. A request was sent to Mayor Vincent R. Impellitteri asking that July 3 be made a holiday because Independence Day falls on a Saturday.

When a holiday falls on a Sunday, City employees are given the following Monday off. If it falls on a Saturday, a non-working day, they want the previous day off as a matter of policy.

# Bronx VA Needs Dietetic Interns

Applications for dietetic intern jobs with the Veterans Administration Hospital, Bronx, and other places throughout the country, are being received by the U. S. Civil Service Commission.

A 12-month internship, at \$1,800 a year, is offered. Interns who complete the internships will qualify for promotion to staff dietitian at \$3,410.

No written test will be held. Applicants will be rated on education and references. A college degree is required.

The applications may be obtained at the Commission's Regional Office, 641 Washington St., NYC.

if the veteran's military or naval service leads to other Federal retirement benefits. However, the wage credits are not affected by any compensation or pension paid by the Veterans Administration.

Active military or naval service includes Army, Navy, Air Force, Marine Corps, Coast Guard or any complements. Service in units such as Women's Army Auxiliary Corps (WAAC), Coast Guard Auxiliary, Civilian Auxiliary to the Military Police, or the Civil Air Patrol, is not active service. However, service in the Women's Army Corps (WAC) constitutes active service.

Time spent in the U. S. Coast Guard Reserve (temporary) is not active service unless the veteran was on full-time duty with military pay and allowances.

Service as an officer, cadet or midshipman in any U. S. military, naval, or coast guard academy is active service.

Service in the commissioned corps of the U. S. Public Health Service from July 29, 1945 through July 3, 1952, constitutes creditable military or naval service.

Military service as a Philippine Scout under most circumstances constitutes creditable military service.

Merit certificates were presented at the art show of the Metropolitan Conference, Civil Service Employees Association. The show ended last Friday in NYC. At left is Henry Shemia, chairman. Recipients, from left, Helman Jorner, Helen Peterson, Mae Katz, Meliye Bromfield, Benjamin Doton and Julia Steinboher.
