FEILY SEEKS MAHONEY, CARLINO AID TO CHANGE EFFECTIVE SALARY DATE

Kelly Stands By His Rejection Of Nurse Appeal

ALBANY, March 12—J. Earl Kelly, director of Classification and Compensation, has re-affirmed his denial of a reclassification of the State's professional nurse classes.

The reaffirmation came as a result of a request of the Special Nurses Committee of the Civil Service Employees Association for a review of Mr. Kelly's negative determination of April 17, 1961.

The appeal included requests for a boost of two to four grades for 13 titles in the State's nursing corps.

The Reasons

In a letter to Samuel J. Cipolla, chairman of the special committee, Kelly listed the main reasons on which he based his findings and conclusions:

1. He said that his division had found no evidence of the Committee's allegation that the "larger physical plants and patient census in State institutions required State nurses to exercise considerably more supervision over

patients and employees than in private hospitals."

2. Kelly said that in all but (Continued on Page 3)

Irwin King New P. R. Director

ALBANY, March 12 — Irwin H. King, former employe of the State Department of Agriculture and Markets and son of Kirtland King, state manager of United Press International here, has been appointed public relations director for the State Conservation Department.

The new appointee is a graduate of Cornell University, with a major in journalism. He succeeds Miss Rosemary Clarke, who resigned.

Still Time To Apply For CSEA Group Life Plan

ALBANY, March 12—Application deadline for enrollment in the Group Life Insurance Plan of the Civil Service Employees Association has been extended until March 20, it was announced last week. This is the only enrollment period that allows CSEA members to gain insurance coverage without medical examination.

This offer is available to CSEA members age 50 or younger who have not previously been rejected on the basis of a medical examination.

The CSEA Group Life Insurance Plan is available to members of the CSEA employed by the State and by those political subdivisions in which the plan has been installed.

CSEA Headquarters has sent a special announcement of this offer to its uninsured members and its chapters throughout the state. Extension of the special offer is being made because of a delay in mailing the details of the announcement. Completed applications should be returned to 8 Elk St. by the March 20 deadline.

Rejects Argument Of Lack of Funds

(Special To The Leader)

ALBANY, March 12—The battle to make the effective date for any new salary increase April 1 instead of August 1 has been taken directly to the leaders of both houses of the Legislature by the 100,000-member Civil Service Employees Association.

In identical telegrams to Senate Majority Leader Walter Mahoney and Assembly Speaker Joseph Carlino, CSEA President Joseph F. Feily said "Because of the inability or unwillingness of other

a lack of funds and asked Mahoney and Carlino for a meeting at the earliest opportunity to discuss the issue fully.

Since the State has conceded the validity of a salary increase, Feily pointed out that the delaying action was undoing in the eyes of the average state employee much of the good provided in the increase itself.

At Leader press time, Mahoney and Carlino had not yet had time to respond to the telegrams.

The resentment over the delayed effective date was expressed fervently by the more than 600 delegates attending the recent winter meeting of the Employees Association held here two weeks ago. In addition to attacking the proposal on the grounds of losing four months of the increase, a great deal of apprehension was voiced over the fact that a salary proposal will have been delayed for the second year in a row. Employees expressed great concern that this would now be the pattern for future raises.

WALTER MAHONEY

agencies of the State to resolve this glaring inequity, the Association feels it must call on the State's legislative leaders to intercede in this just cause."

Says Aides Give Subsidy

Feily told the Majority Leader and the Speaker that civil servants were "justifiably apprehensive over this delay" and declared that putting off the increase for four months was tantamount to the civil servants subsidizing the State.

The Employees Association president rejected the argument that such a delay was necessitated by

Ballots On Way To Select Beauty Queen Nominees For L.I. Show, Exposition

All chapters of the Metropolitan Conference of the Civil Service Employees Assn. will receive ballots this week to aid them in selecting a beauty queen contestant for the Long Island Civil Service Employees Show & Exposition being held April 13, 14 and 15 in the Long Island Arena, Commack, L. I.

Purpose of the exposition, sponsored by the Long Island Committee of the Conference, is to bring the role of the civil servant to the eye of the taxpayer through exhibits that will tell the story of government on all levels — state, town, county, village and school districts.

A feature of the show is the crowning of a beauty queen. By Kramer, of Suffolk County chapter, director of the exposition, asked chapter members to use the ballots to select a nominee from their chapter to participate in the contest. The winner will receive, in addition to the draperies of "royalty", a complete wardrobe

from California Casual, a leading West Coast designer.

"Her Majesty" will be crowned in the company of numerous television and movie stars. Scheduled for appearance to date are Tennessee Ernie Ford, Guy Lombardo and Rory Calhoun. Deadline for (Continued on Page 3)

The Veteran's Counselor

By FRANK V. VOTTO

Dir., N.Y.S. Div. Vet's Affairs

Questions on veterans' and servicemen's rights will be answered in this column or by mail by the State Division of Veterans' Affairs. Address questions to Military Editor, The Leader, 97 Duane Street, New York 7, N. Y.

Insurance Policies

FORMER MEMBERS of the Armed Forces who are holders of G.I. insurance policies, should make a periodic review of all features of such policies, to make sure they meet current and long range needs.

CASES ARE continually showing up where the proceeds of a policy, must be paid to someone other than the veteran's immediate family because the veteran failed to keep his beneficiary listing up-to-date.

IN MANY CASES the beneficiaries listed on G.I. policies are the same individuals the veteran designated when he took out the policy years ago, though he has since married, and now has a family.

CHANGES NEEDED

A CHANGE of beneficiary cannot be made in a last will and testament. Marriage, divorces, births and deaths, are the type of changes in family status which may indicate needed changes in beneficiary listings.

CHANGES IN beneficiaries can be made at any time, without notifying the existing beneficiary, but changes must be made in writing, over the insured's signature, and sent to the office serving the policy.

THERE ARE two different types of G.I. insurance policies, Permanent and Term. Many policies have a provision for a Total Disability Income rider. Full discussion and explanation of the various plans of G.I. insurance, as well as the Total Disability Income rider provision, will be covered in future columns of "The Veteran's Counselor."

Veterans who have any questions as to the procedures in making a change to conform to their current family status, should visit any office of the New York State Division of Veterans' Affairs or local County Veterans' Service Agency.

Questions Answered

As an orphan of a deceased serviceman, is it necessary that I be 18 and have finished high school to become eligible for schooling under the War Orphans Educational Assistance Act?

Specialized vocational training in a below-college-level school may be taken if you have quit school, are above the compulsory school age, and the VA finds it would be to your advantage to begin your vocational education before reaching age 18.

What is the patient turnover in all VA hospitals in one year?

During fiscal year 1961, which ended June 30 1961 a total of 537,022 veterans were admitted to VA's 170 hospitals, and 540,068 were discharged during the same period.

I am an Air Force Reservist. Is it true if I am recalled to active military duty I do not have the protection of rights under the Soldiers and Sailors Civil Relief Act that returning servicemen of (Continued on Page 9)

FOR HEROISM — Three employees of the New York City Housing Authority receive awards for heroic action without regard to their personal safety. The awards—\$25 U. S. Savings Bonds and certificates of merit — were presented by Authority Chairman William Reid (third from left) during recent ceremonies. The award winners (left to right, at right of Mr. Reid) are Robert McCabe of Long Island City; Thomas Troeller and

John Verardi of Brooklyn. Looking on (at left) are Authority vice-chairman Ira S. Robbins and member Francis V. Madigan. The three award winners prevented a possible explosion and serious spreading of a fire in a building on the site of the future Independence Houses, by shutting off the emergency switch of a defective oil burner in the face of smoke and intense heat. They also dashed through the building to warn tenants.

Your Public Relations IQ

By LEO J. MARGOLIN

(Mr. Margolin is Adjunct Professor of Public Relations in the New York University School of Public Administration and is a vice-president of the public relations firm of Martial & Company, Inc.)

A Long Road

CONVERTS TO the practice of good public relations for civil servants are being made daily. But total acceptance of the concept has a long road to travel.

IF ALL government units were as enlightened as the City of New Rochelle, N. Y., it would be a simple task to convince "the soldiers in the ranks" that public relations, like vitamins, are most desirable for their well-being.

IN SHARP contrast to the progressive executives running the City of New Rochelle, many government officials think of public relations only as "getting my name in the paper."

PUBLIC RELATIONS is far more encompassing than getting into the newspapers. That's only the final step in some commendable achievement in the public interest.

THIS IS but one of many items we transmitted to 150 members of New Rochelle's police force in four sessions of three hours each on "The Police Officer and Public Relations."

WE EMPHASIZED that how they dressed, how they walked, how they talked, how they carried on their duties, how they acted off duty — all added up to good or bad public relations.

THERE WAS remarkably good acceptance by the overwhelming majority of men, as we were able to discern from the second part of each session, which was in the form of an open give-and-take seminar discussion.

HOWEVER, THERE were a number of die-hards who couldn't and wouldn't accept public relations as an integral part of their job. They refused to concede that good public relations for a police officer is as important to their success as a nightstick, a gun, bullets, handcuffs, a uniform, badge, and notebook.

THE DOUBTERS were obsessed with what they considered "inadequate pay", despite the fact that their pay scale is comparable to New York City's Police Department and higher than many small city police forces. They didn't help their own public relations by quoting as facts erroneous figures.

HAPPILY, MOST participants at the sessions readily acknowledged that a police officer can no more shut his eyes to public relations. (Continued on Page 9)

State Police Conf. Backs Legislation For Pay Minimums

A bill sponsored by the Police Conference of New York, which would provide a minimum gross starting salary of not less than \$4800 a year for every full time Civil Service Police Officer in the State of New York, is presently before the Civil Service and Pensions Committee of the State Senate, and the Local Finance Committee of the State Assembly.

In an interview, President Al Sgaglione of the Conference which represents the 50,000 career police officers of the State of New York, elaborated on one aspect of the bill that would provide yearly increments of not less than \$260 for a period of ten years, making the salary of a Police Officer with ten years service not less than \$7400. President Sgaglione cited the hazardous duties of the police profession and the difficulties being experienced in the recruitment of policemen.

"It is the duty of every citizen to impress upon his governing bodies, the necessity of providing the police profession with the dignity it deserves in order that it can attract men of unquestionable

(Continued from Page 1) chapters to submit their choice for the beauty contest is April 6 and names must be given to Kramer or Charles E. Monroe by writing to P. O. Box 42, Huntington, L. I.

Free Space For Chapters

Those attending the exposition may find themselves in films. Kramer and Monroe informed The Leader that movies would be taken of the entire exposition in action and that a national television network had already shown considerable interest in the activity.

Local officials have given wholehearted support to the show. As a matter of fact, Suffolk County Board of Supervisors and H. Lee Dennison, County Executive, approved a sum of \$2,500 to aid the

exposition. Civil service employees are reminded that many officials from their jurisdiction will be in attendance.

An important phase of this exposition is the space offered each chapter to prepare an exhibit. Monroe urged chapters planning to accept this offer to complete plans and submit them at once to Kramer at the above address. This offer gives each chapter the opportunity to tell its own, individual story to the public and to fellow civil servants.

Four exhibitor passes will be given to each member of the Metropolitan Conference for free entry to the exposition. Otherwise, admission will be \$1 for adults and 50 cents for children. These passes will be mailed to chapter presidents no later than April 6.

Kelly Says 'No' Again

(Continued from Page 1)

one of the hospitals visited by the Division in its investigation, "there was a uniform feeling that pay differentials were not warranted for psychiatric or any other special service nursing and there was no plan to provide pay differences for such assignments." The committee had maintained that the type of patients in State hospitals as compared with those in private hospitals cause additional nursing demands which should be recognized in the State's pay schedule.

3. The Division director conceded the Committee's point that "State nursing positions involve housekeeping, clerical and some food service responsibilities whereas these are not required of nursing jobs in general hospitals."

4. Kelly likewise conceded that "there is general recognition among private hospital personnel that with psychiatric nursing in State Hospitals there is a hazard involved, many mental patients are uncooperative or unresponsive and 'locked door' atmosphere is unpleasant, at least to some degree . . . and results are less

concrete and take longer to achieve than in many medical or surgical services."

Comparisons

Kelly attempted to qualify this concession, however, by stating that "conditions in the medical services of general hospitals are equally as depressing and unpleasant since there is a large population of older patients with chronic conditions that do not respond readily to treatment."

Kelly maintained that "there is clear evidence from our field study that the personal preference of the individual nurse is the most important factor in the kind of job sought and that a pay differential will not overcome resistance to a particular nursing assignment."

He said that as a result of the survey the Division found the State to be "in a good competitive position with respect to recruiting from the available professional nursing supply."

CSEA officials said the decision will be appealed to the Civil Service Commission at an early date.

No Need To Delay On Health Plan, Fees

MAYOR Wagner, in an interview with The Leader, has reiterated his campaign promises to eliminate filing fees for New York City jobs and to allow City employees a choice of health insurance plans.

Action on these items has been delayed, he says, because a variety of "cheaper" health plans have been submitted since the original requests for plan bids was made and, speaking on filing fees, a search is being made to find a revenue replacement for the income from filing fees.

We urge the Mayor not to delay action on either item for the reasons stated above. Cheaper health plans can only mean less service. And the revenue from filing fees is practically insignificant compared to the gains in recruitment that will be made by eliminating the application charge.

Kelly Decision Takes Advantage of Dedication

IN a mishmash of illogical arguments, J. Earl Kelly, State Director of Classification and Compensation, has reiterated his rejection of an appeal to reallocate titles in the State's professional nurse classes.

On one hand, Kelly declares, State nurses do no more work than nurses in general hospitals. On the other hand his opinion recognizes excess duties. He admits there are hazards in caring for mentally disturbed persons. But then says that this is no worse than caring for chronically ill patients in general hospitals.

What appalls us more than anything, however, is Kelly's use of the fact that nurses come to psychiatric nursing because of a special feeling for the job and his argument that additional salary, therefore, has no influence in this area. The two are not connected. One does come to a job out of preference. To use this dedication as a means for not paying just salaries is disgraceful.

In essence, Kelly's main argument continues to be that the State will not reallocate the nursing professions because it doesn't have to. His document accompanying the rejection failed completely to answer the question at hand: do these nurses deserve better pay.

It is not the duty of the Director of Classification and Compensation to save the State money. His duty is to recommend just salaries and titles for State positions. There is increasing evidence that Kelly is more and more becoming a conservator of State funds rather than a personnel specialist.

Questions Answered On Social Security

Below are questions on Social Security problems sent in by our readers and answered by a legal expert in the field. Anyone with a question on Social Security should write it out and send it to the Social Security Editor, Civil Service Leader, 97 Duane St., New York 7, N. Y.

My sister, who never worked, was collecting widow's benefits. She recently died and I paid her funeral expenses. Can I be reimbursed by Social Security?

No. Lump-sum death benefits are only payable upon the death of an insured worker.

My husband died in 1939. He was covered by Social Security, but I was told that year and several

times later that I could not collect on his Social Security account when I am 62. Has that been changed?

Yes. Survivors of workers who died after March 31, 1938 and before January 1, 1940 can now be paid the same as survivors of workers who died after 1939. A widow who is 62, has not remarried, and has not built up a higher payment by her own work, can collect monthly widow's benefits.

I got a statement of my earnings from your Baltimore office and I find that my records don't agree with yours. What do I do now?

Get in touch with your Social Security district office promptly.

Letters to the editor must be signed, and names will be withheld from publication upon request. They should be no longer than 300 words and we reserve the right to edit published letters as seems appropriate. Address all letters to: The Editor, Civil Service Leader, 97 Duane St., New York 7, N.Y.

Sees Inequity In Social Security Payments

Editor, The Leader:

There is a matter which I think should be adjusted by the Congress. This concerns a Social Security inequity. It is believed that the Social Security amendments of 1961 were intended to equalize benefits for both men and women regarding retirement at age 62.

However, this does not work out equitably in the case of many thousands of municipal and state male workers who entered the Social Security System in 1956.

A female worker entering Social Security during 1956 and earning the maximum under S.S. during all years involved would be able to retire at age 62 (in 1963) at a monthly S.S. income of approximately \$100.80.

A male worker under all of the same conditions would be able to retire at age 62 with a S.S. income of approximately only \$78.40.

Yet both male and female workers pay the same amount of Social Security assessment. This is obviously very unjust and it is my opinion that a proper adjustment should be made in the law with no undue delay.

Says Leader is 'On Target'

Editor, The Leader:

Your editorial on "Grievance Machinery" was right on target. All of the employee organizations in the New York City courts have been pleading to have grievance procedures added to a reform bill put before this session of the legislature.

But, in spite of very cordial relations with the Joint Legislative Committee, we have not been able to persuade them to insert grievance provisions in the bill.

Court employees will be in a unique position if they contest the new personnel rules to be made by the appellate judges under the reformed Judiciary Law. If an employee brings suit to declare a rule arbitrary and capricious, he cannot win unless the lower court judges find that the appellate judges were unreasonable. Need more be said?

Certainly, this situation requires that the new law mandate grievance machinery; and we all support The Leader in this project.

Civil Service LAW & YOU

By HAROLD L. HERZSTEIN

Mr. Herzstein is a member of the New York bar

(The views expressed in this column are those of the writer and not necessarily constitute the views of this newspaper or of any organization.)

End of Lyons Law

ON THURSDAY Mayor Wagner signed the bill repealing the Lyons Law. No longer will you have to prove three years of residence in New York City in order to work here; nor will you have to prove that you are still living here during the period you are working here. More than half of the City's employees had obtained waivers of the Lyons Law under special provisions of it, and were not bound by it. But the other half had to obey and live here. Now, you can work for New York City and live where you want to live.

WHILE THE Mayor is entitled to a lot of credit for getting rid of this horrible law, you must consider that credit on the basis of nine years in office. It was good work, but not very fast work. In any event, we are rid of it now; and as in all things political, you are grateful when it does occur and you forget about the time it took.

SYRACUSE

THE RESIDENTS of the City of Syracuse and of Onondaga County, in which Syracuse is located, have been much more alert to the necessities for changes in the opposite direction of the Lyons Law. Let me get directly to the two prominent cases on this subject.

GIACOBBE v. Onondaga County Civil Service Commission, 21 Misc. 2d 188, 191 N. Y. S. 2d 900, decided by Judge Bert S. Lockwood, on October 6, 1959, was the first case. After the petitioner got on the police force, he moved out of the City of Syracuse but stayed in the County of Onondaga. Shortly after that time the Syracuse charter was amended requiring residence in the County instead of the City for two years. That all occurred in 1957, before the acts took place in this action.

ON SEPTEMBER 18, 1959, the Onondaga County Civil Service Commission, which has jurisdiction over appointments in the City of Syracuse, published a notice of a promotion examination in the City of Syracuse Police Department, for police sergeant and detective, but they required two years of legal residence in the City of Syracuse. Residence in Onondaga County was not enough.

THE PETITIONER was outlawed, and he got busy and brought the action. He claimed that the action of the County Commission was arbitrary, capricious, unreasonable and illegal. The Commission answered that that was not so. Under the Commission's interpretation, a man would have to move back into the City, live there for two years, pass the examination, be put on the force at the new job and salary, and then could move right out again.

FAVORABLE DECISION

THE JUDGE did not go for that one. He decided in favor of the policeman and wrote, as follows:

The Court considers that the residence requirement of two years in the City of Syracuse immediately preceding the date of examination to the positions of detective and police detective is arbitrary, capricious, unreasonable and illegal. The respondent is directed to accept petitioner's application for promotion to police sergeant and detective to be held on the 21st day of November, 1959.

Ordered accordingly.

THE SECOND case was Smith v. Onondaga County Civil Service Commission, 24 Misc. 2d 305, 192 N. Y. S. 2d 552, decided by Judge Frank Del Vecchio, on November 13, 1959. In this case when the applicant was appointed a fireman he lived in the City of Syracuse. After appointment, he moved elsewhere in Onondaga County.

FOR THAT examination it was stated that the person who takes it must have resided in the City of Syracuse for two years—just as in the preceding Giacobbe case. In this case, in answer to the petitioner's charge that the requirement was arbitrary, capricious, unreasonable and illegal, the County Commission answered that its rule was adopted pursuant to Section 20 of the Civil Service Law, and that it was valid and that the petitioner did not meet the requirements.

ORIGINALLY, the Syracuse charter had a two year requirement for residence of Fire Department members. However, in 1958 it was amended to permit firemen, other than paid officers, to live outside the City. This is what Mr. Smith did. The Court would not let him be knocked out for it, and directed that he be given an opportunity to take the examination.

I WAS DELIGHTED to see that E. Stuart Pomeroy was counsel for the respondent. When I went to Syracuse University in 1925, I used to reside in his parents' home on Comstock Street, and I remember Stuart and his room very well.

What the President urges...

PRESIDENT KENNEDY'S MESSAGE ON THE NATION'S HEALTH NEEDS—FEBRUARY 27, 1962

GROUP PRACTICE "Experience in many communities has proven the value of group medical and dental practice, where general practitioner and medical specialist voluntarily join to pool their professional skills, to use common facilities and personnel and to offer comprehensive health

services to their patients. Group practice offers great promise of improving the quality of medical care, of achieving significant economies and conveniences to physician and patient alike, and of facilitating a wider and better distribution of the available supply of scarce personnel."

IMMUNIZATION "There is no longer any reason why American children should suffer from polio, diphtheria, whooping cough, or tetanus—diseases which can cause death or serious consequences throughout a lifetime, which can be prevented, but which still prevail in too many cases.

I am asking the American people to join in a nationwide vaccination program to stamp out these four diseases, encouraging all communities to immunize both children and adults, keep them immunized and plan for the routine immunization of children yet to be born."

H.I.P. practices!

THE ONLY HEALTH INSURANCE PLAN IN GREATER NEW YORK THAT OFFERS:

GROUP PRACTICE H.I.P. is the only medical insurance plan in Greater New York that provides the kind of group medicine the President is talking about. Doctors in 32 H.I.P. medical groups—more than 1,000 family physicians and specialists ranging from pediatrician and allergist to neurosurgeon and heart surgeon—work as teams. They pool their training and experience to give each family comprehensive care—preventive, diagnostic, and curative—for as long as required. No matter how many specialist, labo-

ratory, or x-ray services may be needed or how prolonged the illness, these services are provided without extra charges, without forms to fill out, and without red tape.

More than 640,000 New Yorkers are now receiving such comprehensive medical and surgical care through 32 H.I.P. medical groups located throughout the five boroughs of the City and in Nassau and Columbia counties. As indicated by the President's message, they represent the wave of the future in prepaid medical group practice.

IMMUNIZATION More than 95 per cent of children enrolled in H.I.P. medical groups are immunized, as the President suggests, against polio, diphtheria, whooping cough, tetanus, and smallpox within the first year after their birth

as a matter of routine. H.I.P. offers this immunization service to its adult subscribers and provides the required immunization agents against these and other diseases free of charge.

Houston To Leave Welfare

ALBANY, March 12 — Raymond W. Houston, State Commissioner of Social Welfare, is retiring July 1 after 28 years of government service.

Appointed commissioner in 1954, he had served as deputy commissioner of the department since 1945 and as first deputy since 1953. He began his career in government service in 1934 as director of the Emergency Relief Bureau of Nassau County.

In accepting the retirement notice, Miles B. Amend, chairman of the State Board of Social Welfare, said:

Pioneering Cited

"I regret Commissioner Houston's decision to retire. He has been a forceful and courageous spokesman for the inarticulate needy. He has pioneered in helping to fashion the fundamentals of modern public welfare administration. He has earned retirement after 36 years of dedicated service, but his experience, wisdom, judgment, and administrative talents, demonstrated in public and private programs, should not be lost to the people of the State.

"I hope that, even though he is retiring from public service, Commissioner Houston's knowledge and experience will continue to be available to all of us in social welfare, where he has earned, personally and professionally, such distinguished national stature."

\$200 SUGGESTIONS — Conservation Commissioner Harold G. Wilm, left, is shown presenting \$200 in suggestion awards to two career employees of the Conservation Department, Gerald J. the other branches of service have?

This act, passed before creation of the U.S. Air Force as an independent branch of the service, did not include Air Force personnel. However, subsequent legislation blanketed them for full coverage of rights extended other servicemen under the act.

As a war veteran with a non-service-connection disability, I have succeeded in arranging admission to VA hospital at a future date. I cannot afford the cost of travel to the hospital which is some distance from my home. How do I apply for travel at government expense?

Contact a New York State Veteran's Counselor and explain the situation, he will aid you in requesting authorization for travel expense.

How many World War I veterans took advantage of the GI loan benefit to buy homes?

The GI home loan program was not set up until the end of World War II and World War I veterans were never eligible for its

benefits.

How long must a woman have been married to a World War I veteran before the VA will consider her a widow if he dies?

She must have been married to him for five years unless (a) a child was born to them, in which case there is no time factor needed or (b) unless she married him before December 14, 1944. The similar date for World War II veterans is January 1, 1957, and for veterans of the Korean Conflict, it will be February 1, 1965.

If a veteran names his mother as the beneficiary of his GI insurance policy and then marries, is his wife protected?

The veteran will have to notify the VA if he wishes to name his wife as his beneficiary. Your local New York State Veterans Counselor will give you full details regarding a change in beneficiary.

How many applications for home loan guaranties were received in 1961.

There were 135,000 applications for the guaranty of home loans in fiscal year 1961.

Crossing Guards Being Recruited; Part-Time — \$1.65

School crossing guards are now being recruited by the New York City Police Department for jobs which will open in September.

The examination will be held on May 26 for these jobs which pay from \$1.65 an hour. Top pay of \$1.75 is received after two years of service.

School Crossing Guards are responsible for protecting children at designated traffic spots. The work is part-time during a five-day week throughout the school term. An average day involves an hour of duty in the morning and in the afternoon, with a two-hour tour at noontime.

It is desirable that guards live no further than one third of a mile from their assigned crossing, since duties require them to commute from home three times a day. Successful candidates for these positions will receive training course at the Police Academy prior to a regular assignment.

Applicants must be U.S. citizens between the ages of 25 and 50.

Female candidates may not be less than 5 feet 1 inch tall; males not less than 5'5". Weight should not be abnormally out of proportion to height. Other prerequisites are good hearing, a grammar school diploma or the equivalent, 20/40 vision with glasses, and good character. It is stressed that anyone presently employed by the City of New York is not eligible.

Interested persons may apply now at their local precinct station house. Candidates may select as many as four school crossings at the time of application, provided each is within one-third of a mile of his residence.

The examination will consist of

a medical examination, character investigation, and oral interview, along with the previously mentioned written test. Applicants will be notified by mail concerning the

exact time and place.

The Department gives all Guards a uniform allowance of \$15 after six consecutive months of service within a fiscal year.

Also needed are bookkeeping machine operators, at \$3,760, (three to six months experience required); electric accounting machine operators, 3,760 (nine months to a year of experience); and clerk-stenographers, \$3,760 (high school graduation and ability to take dictation at 80 words a minute required).

Recognize Conservation Aides' New Duties, CSEA Urges In Title Appeal

ALBANY, March 12—The Civil Service Employees Association has urged the Director of Classification and Compensation to act favorably on a reclassification and salary appeal for all Fish and Game law enforcement personnel in the Conservation Department's Division of Fish and Game.

The appeal, made last month, seeks a change in title terminology from "Game Protector" to "Conservation Officer" and salary boosts from two to four grades.

Joseph F. Feily, president of the CSEA, in a letter to J. Earl Kelly, Director of Classification and Compensation, said that "with careful consideration of the appeal, the Association is convinced that the equity of the proposal will become apparent and that you will act favorably."

Feily outlined various changes in the duties and responsibilities of the game protectors and listed six changes that, he said, have taken place since 1959. They are:

1. Heavier reliance by the Conservation Department on special game protectors, of which there are now three classes. He noted that game protectors may supervise as many as four, or more, "specials" during peak pressure periods.

2. The Conservation Department now has the responsibility for enforcement of the State Navigation laws which formerly rested with the Department of Public Works.

3. The development, in cooperation with Cornell University, of a specialized course which a game protector must complete during his probationary period and before permanent appointment.

4. Greater availability of trans-

portation, population increase and additional leisure time has placed increased pressure on the state's recreational facilities.

5. Game Protectors now participate more in the programs arising from the Fish and Wildlife Management Act.

6. Game Protectors now have greater participation and responsibility in the prosecution of their own criminal cases.

Feily pointed out that in 1959 game protectors were 18 per cent behind the average maximum salary of other public jurisdictions and, by last year, were 20 per cent behind.

Under the reallocation proposal, Game Protector and Marine Fisheries Protector, G-7, would both be changed to Conservation Officer, G-11; Assistant District Game Protector, G-12, would be changed to Assistant Regional Conservation Officer, G-14; District Game Protector, G-16, and District Marine Fisheries Protector, G-15, would both be changed to District Conservation Officer, G-17.

Uniform Sick Leave Policy For Cortland City Aides In Works

(From Leader Correspondent)

CORTLAND, March 12 —

Inequities in sick leave for Cortland's municipal employees are being studied by the Common Council with an eye toward setting up uniform system for all workers.

Sick leave for the 100 city employees now varies from none, officially, for those in the Department of Public Works, to 90 days for members of the Fire Department.

The 90-day plan for firemen was established by a 1958 amendment to the city's original sick leave system, adopted in 1948.

It was revealed at the Council's last meeting that some retiring employees have found a way to get around state auditors and legally collect accumulated sick leave.

City Atty. Edmund Hoffmann Jr. said that in 1960 the state attorney general ruled the city employees cannot accumulate sick leave. But some retiring employees have collected sick leave accumulated by remaining on the city payroll but not working, the Council learned.

Questioned

Commenting on the present inequities, Second Ward Alderman William Brewer declared: "How did this 1958 resolution get in and get by. It amounts to preferential treatment. If I were in one of the other groups, I would have been here" (at the meeting).

Mrs. Margaret Dexter, Sixth Ward alderman, urged the Council to set up a plan that would treat all city employees alike.

The Council then agreed to put the matter over for further study.

5-Point Plan, Interest Rate Measures Signed By Gov. Rockefeller

ALBANY, March 12—Two civil service bills, including one which extends for another year the five percentage point retirement program for state employees and continues the program's availability to political subdivisions, have been signed by Governor Rockefeller.

Both bills were introduced by Assemblyman Orin S. Wilcox, R., of Theresa.

The percentage points measure assures the state's assumption of a portion of state employee retirement contribution, a program initiated in 1960 by the Civil Service Employees Association.

The effect is to increase by five to seven per cent the take-home pay of all state employees who are members of the State Employees Retirement System, the State Teachers Retirement System or the State Hospital Retirement System.

Governor's Message

In signing the bill, the Governor said:

"These programs, which represent a part of the efforts of this administration to retain and attract the highest caliber personnel into state service, were extended last year and I have recommended that similar extension again be made, paralleling this extension for members of the State Employees Retirement System."

The Governor also signed the bill which extends for one additional year the benefits of special interest earnings under the State Employees Retirement System to members now earning three per cent on their retirement fund. Under the same measure last year, the Comptroller raised the earning to 3.5 per cent, or an additional one-half per centage point.

Calendar Year Is Basis

The bill also provides that the average rate of investment earnings by the Retirement System be calculated on the basis of the calendar year instead of the fiscal year.

This change aids the Comptroller in the calculation of a rate of special interest on earnings and aids those planning to retire shortly after the end of the fiscal year in learning what income they can expect from their retirement fund.

Cortland CSEA Readies Slate

CORTLAND, March 12 — A five-member nominating committee has been named by the Cortland County Chapter, Civil Service Employees Association, to select candidates for the next year.

The committee, appointed at the group's monthly meeting, will report at the April meeting, said Harry Cooper, president of the chapter, who presided at the session.

Named to the committee were Mrs. Bernardine Demond, Mrs. Clara Hebert, Mrs. Betty Chase, Mrs. Virginia Colton and John Palmer.

A Washington Birthday party and card games followed the meeting, held in the County Courthouse. Prize winners were Lawrence Thomas, Mr. Hebert, Mrs. Colton, and Miss Mary Jane Morgan. Refreshments were served by the social committee composed of Miss Morgan, chairman, and Mrs. Demond and Mrs. Doris Newton.

Cayuga CSEA Meets, Hears Conference Workshop Report

A regular monthly meeting of the Cayuga County Chapter of the C.S.E.A. was held at the Knights of Columbus Rooms last month.

A report was given on the recent Workshop of the Central Conference held at Syracuse.

Members attending from the Cayuga Chapter were Mrs. Ruth Spoor; Earl Lytel; Mrs. Louis Labreck; Mrs. Harold A. Murdock; Mrs. Mary Wood and Edward Marco. They also attended the 25th Anniversary celebration of the Onondaga County chapter of C.S.E.A. in conjunction with the workshop.

It was also announced at the monthly meeting that Helen Saxby, nursing supervisor of Cayuga County Public Health Nurse service for eight years has resigned her position to accept one with the U. S. Public Health Service in Washington, D. C.

Helen Drancsak, of County Nursing Service, is attending the University of Michigan where she will receive her B.S. Degree in June, 1962. Mrs. Clara E. Coppello of Cayuga County Nursing service is attending Syracuse University School of Public Health to earn her B. S. degree in June, 1962.

Reappointed

ALBANY, March 12 — George A. Newbury of Eggertsville has been reappointed to the State Banking Board for a term ending Mar. 1, 1965.

PROBLEMS — Of various State agencies and departments were discussed at individual meetings by delegates from the various divisions who attended the recent CSEA dinner meeting in Albany. Here are some of the meetings as seen by The Leader's candid camera.

PR Unit Names Foster Potter

Foster Potter, director of public relations for the Department of Agriculture and Markets, has been elected president of the Upstate New York chapter, Public Relations Society of America. Mr. Potter, who also is chairman of the public relations com-

mittees of the Civil Service Employees Assn., previously served the society as a vice president and secretary-treasurer.

Other CSEA members in the group are Deputy Tax Commissioner Norman Gallman, Frank Otwell, public relations director of the Tax Department, and Phillip Kerker, public relations director of the Employees Association.

Manhattan State Hospital Group to Elect Officers; Will Use Vote Machines

Voting machines will be a feature of the elections of the Manhattan State Hospital chapter, Civil Service Employees Association, being held on March 13 and 14.

The machines will be located in the lobby of the Dunlap Building and members of the Chapter's election committee will be present to assist voters who request help.

The nominees are: for president, Charles Loucks and Sophie Slutz; first vice president, Jennie Allen Shields and Betty Lavin; second vice president, Rose Battle; third vice president, Larry Lillis and Harold Holder; secretary, Frank Rozeboom and Floyd Hawkins; treasurer, Leon Sandmann; delegate, John Wallace and Amos Royals; and alternate delegate, Doris Roberts and Robert Magee.

Progress Report

A regular Chapter meeting will be held on March 14 at 4:45 p.m. in the Assembly Hall. Election results will be made known and the new officers will be sworn in by

the Association field representative.

The Chapter president and delegate returned from the Annual Meeting in Albany, where interest was shown in, and support given, for the Chapter's free toll bill.

Commissioner Paul Hoch, Senator Ernest Hatfield, Grace Nulty, CSEA President Joseph Felly, Association counsel Harry Albright and Leader editor Paul Kyer all played important parts in getting the bill prepared, according to the Chapter. Senator MacNeil Mitchell introduced the bill.
