## ASSEMBL IES

What is this year soing to bring forth in the way of entertainment for its Jhaior High School？Other years we have had assemblies representing the different homerooms，clubs and classes of Milne． Many times there have been a surp？us of assemblies and then asain people have signed $u p$ and then have backed out at the last minute This is not a good policy，and it could be easily changed so that every week there would be an assembly without fail．When you are choosins dates for your assembly，be sure you cre allowing yourseif enough time， Then et to work and sive one thet will be of interest to everyone Come on： Milne－ites，letis show this year that we can sive oood，well organized and interesting assemblies．

## IN，BUT NOT OUT

There are two things that have gone into Studeint Council and have never come out again．

The first is about the parties．Are we foing to have two or three parties， this rear？A vote was taiken in each homeroom to determine this，and to our knowlede nothing has come of that vote．

The other subjeot is our annual outing．are we to have an Excursion or are we $a_{i} a i n$ to have a Field Day？

Perhajs the Council will answer the－ se cquesions for us．We，indeed，hope so：

## WE Wall a JOURN ${ }^{2} L I S M$ ROOM

＂We want a journalism room，＂is the Junior Hish Crimson and White＇s plea。 The senior staff has a room especially for the purpose of comiosing the paper． It has two larje dekks and other necessary equipment which is necessary． The junior staif has to put up with a small ineficient room and inadequate equspmento Professor Sajles once said in an adaress that everythine was possib？e． He gave for an exampde vie sFory or a boy who wanted to＂make a gymastic team． After practising all summer he finally got on to ito If ererything is possible， why then canit we have a journalism room？With ari efficient room and acc－－ urate equipment we would probably have a larger and better paper．

DO YOU TNOW？
Do your know ${ }^{\text {ºm }}$
There are more then 4,000 books in the Minne Jibrary？

That the Large Dictionary has 2811 pages？

You，therefore，have something to be proud of in your libra：y？

If you could read a book in an average of three days it would take yal more than three years to read all the books？

## $\mathrm{CH}_{2}$ RACTER SKETOH

This week our victim has dark hair and dark eyes．He or she is in home－－ room 135 ，He or she is a cheerleader and also quite a dancer．

The onswer to last weok＇s charaster sketsh is Robert Wheeler。

All answers to this weekis sketoh are to be placed in the Crimson and White drawer in Miss Moore＇s office，
