**GOV (Governance Council) - Karin Reinhold, Chair**

**On Mar 29<sup>th</sup>:** Governance considered enfranchising part time faculty. Informed by the reports on contingent concerns written by the Blue Ribbon panel (Report of the Panel on Part-time and Contingent Faculty and Staff) and UUP (Woven Into its Very Fabric: a Report on Contingent Labor at the University at Albany, Survey Data Analysis and Policy Proposals), as well as the AAUP report (The inclusion in

Governance of Faculty Members holding Contingent Appointments), the council agreed to extend voting rights to part time faculty. Historically, part time faculty were not given voting rights because they were thought as being hired on a short, temporary situation. This has ceased to be the case at our institution and nationwide. A large percentage of faculty holding part time appointments work in their positions for several years in a row. More than 20% of part time faculty has been in their position for more than 10 years. Therefore, the council decided to grant voting rights to part time faculty who has been employed a minimum of one year or a minimum of two semesters.

Part time teaching faculty consists of more than 50% of the teaching faculty. Adding them to the roster of voting faculty will have consequences to voting procedures that require a quorum of faculty. Keeping the current rules for amending the Bylaws with a considerably larger roster of voting faculty could prove unworkable. Therefore, the council also recommended reconsidering the procedure for amending the Senate Bylaws.

The Chair requested recommendations for the Senate webpage which are listed below.

The Council discussed issues related to video recording of Senate meetings. Some concerns presented by the chair were that people would be afraid to talk at Senate meetings because they are being videotaped or that people would be less candid in their presentations because of a fear that what they say can be taken out of context and misused. The Council felt that these could be initial responses but that people soon would feel comfortable enough with the technology that it would not be a serious detriment to Senate discussions. A few members were familiar with the videotaping of Senate meetings in Florida and they felt comfortable with it. In general, it was felt that the advantage of having this technology that brings information out the larger community in a direct way, without the processing that minutes are subject to, and in a much faster way, far outweighs the possible negative side.

On Mar 31<sup>st</sup>, Collins, Poehlmann, and Reinhold met to discuss the process for council membership for next year.

Recommendations:

1. Procedures to enfranchise part time faculty should go together with a new procedure to amend the Senate Bylaws.
2. Recommendations for the Senate website:

- o Front Senate page should have a) News, b) top issues/cases/stories the Senate is considering, and if appropriate c) information about a particular issue.
- o More frequent updating of legislation.
- o In the membership area, each individual Senator should be able to post articles on Senate issues (blog).
- o Support for the webpages. Elisa may get overwhelmed.
- o Easy access to updates on the status of programs, resolutions, etc that have been submitted to the Senate for review.
- o Each sub-council should have a brief description “about this body”.
- o UPPC should have a link to information about the university’s budget.

Actions taken:

- The Governance Council endorsed:
  1. The proposal for governance representation in the Assessment Advisory Committee.
  2. Enfranchising part time faculty.
- The Governance Council approved a Charter amendment of Section IX: *Amendment of the Charter*. The current version requires 2/3 of Senators to pass. The proposal changes this requirement to 2/3 of **voting** Senators.
