Legislative Correspondents Guests At CSEA Luncheon; TV, Radio Men to be Feted

ALBANY, Nov. 23—Legislative correspondents for the State's major newspapers and wire services were guests of the Civil Service Employees Association at a luncheon for the Albany press corps here last week.

Purpose of the luncheon was to introduce the Association's new president, Joseph F. Feily, and members of the Association headquarters staff to the newspapermen covering political activity on Capitol Hill.

Television and radio correspondents will be given a similar affair in the near future.

Mr. Feily told the newsmen it was his hope that "we will all be seeing a great deal more of each other."

News men in attendance were Warren Weaver of the New York Times; Leo Quinn, of the New York

Herald Tribune; Ray Borst, of the Buffalo News; John Considine, of International News Service; Frank Daugherty of the United Press; Earl Sorenson of the Associated Press; William Ringle, of the Ganer News Service; Duane La-

CSEA Moves To Protect Rights of Barge Canal Workers If System Is Transferred to U. S.

ALBANY, Nov. 23—In a move to protect the interests of Barge Canal employees should the system be transferred to the Federal Government, the Civil Service Employees Association has called on Gov. elson A. Rockefeller to form a special committee to deal with the future of these workers.

Voters earlier this month approved a constitutional amendment which would permit transfer of the system from state to Federal control. It has been generally assumed that the State would take advantage of the amendment and pass over the canals to national control.

In a letter to Governor Rockefeller on the issue, Joseph F. Feily, Association president, wrote saying:

As you can well imagine, the many loyal state employees who have given long service to the State in the New York State Barge Canal System are naturally apprehensive and uncertain as to what their future status will be. We are aware that no immediate steps have been taken either by announced proposals by your administration for legislation in the next legislative session, or with any announced agreement with the federal government for the transfer or lease of the Barge Canal System.

Nevertheless, the employees certainly would not be appraising the situation realistically if they did not believe that

the constitutional amendment prompted by past legislative and administrative action did not portend some immediate change in their status. We would therefore request that at the earliest possible moment, your administration give some formal statement as to policy with respect to the State Barge Canal in order to clear the air.

Employees on Committee

We would also request that a

special committee be appointed to make a full and careful study of the entire problem. We believe this committee should consist of representatives from the Barge Canal itself, who, better than anyone else, could explain their problems and needs in this matter. For example, any proposed change in their status would involve immediate questions as to whether they would be permitted to remain in the New York State Retirement System, or whether they, on the other hand, would be eligible for the Federal Retirement System. There are also the considerations of seniority rights, eligibility to the New York State Health Insurance Plan, and the like.

We feel quite strongly that the formulation of such a committee consisting of the appropriate representatives of your administration and the Barge Canal employees' representatives might very well constitute an excellent forum for an exchange of views in this regard, and should, as a result, insure the employees full cooperation for the effectuation of the policies of your administration.

White Plains Unit To Seek Raise for City Employees This Year

At a meeting to be held Nov. 30 at 8 p.m. in City Hall, the executive committee of the White Plains unit of the Civil Service Employees Association will determine what percentage pay increase will be sought for city employees.

The decision to seek a raise was made after a study of the report of the State Department of Civil Service, which comments on the low salaries of the city employees.

Howard H. Griffen, Jr., White Plains unit president, said they will press for a longevity incentive resolution which has been presented to the mayor and Common Council.

Attending the meeting with the executive committee were Thomas Luposello and Jerry Rogers, CSEA field representatives, and Gabe Carabee, a member of the executive committee of the Westchester CSEA unit.

Counties Can Reimburse Tips

Counties may reimburse employees for tips under an informal opinion rendered by State Attorney General Louis J. Lefkowitz.

In a letter to chapter president's of the Civil Service Employees Association, Harry W. Albright, Jr., CSEA counsel, advised members that the Attorney General ruled that refunding of expenses for "reasonable" tips was allowable as a necessary expense in the performance of duties for counties.

His ruling, said Mr. Albright, does not mean necessarily that counties will make such reimbursement but does grant them the legal right of so doing.

METRO CONFERENCE HEARS CSEA VICE PRESIDENT

Charles E. Lamb, standing at the microphone, fourth vice president of the Civil Service Employees Association, is seen here as he addressed a meeting of the Metropolitan Conference of the CSEA at its recent meeting in Manhattan State Hospital. Listening to his remarks are, from left, Kenneth Valentine, Conference Secretary; Sal Butero, first vice president; Irwin Schlossberg, president, and Mildred Gettings, secretary. John Wallace is president of the host chapter to Conference meeting.

IN CITY CIVIL SERVICE

By RICHARD EVANS JR.

177 Versus Murtaugh

Hess, Konig and 177 others versus John M. Muraugh came to the Supreme Court last Wednesday, three years after the Board of Estimate established the uniform leave regulations for city employees.

At issue was a special lack of definite regulations regarding vacations, sick leave and credit records on time off. Employees represented by David Weissberg claimed that they have not received the benefits of the uniform leave regulations. They pointed out that the Corporation Counsel had sustained the claims of the employees in 1957 but the Magistrates Court employees had not yet received these benefits. A court order issued September 30th by Judge Lupiano granting the employees some of the items requested has not yet been put into effect.

Judge Murtaugh, representing himself, requested a resettlement of the September court order but offered to grant similar benefits upon the individual request of each of the more than 700 employees in the department.

Judge Lupiano adjourned the case for 30 days to allow the Chief Magistrate and the employees to "get together."

In the meantime the Department of Personnel announced last week that it would accept as a reason for declining appointment as probation officer in the Magistrates Courts, the fact that the jobs are not under city regulations regarding sick leave and vacations.

Park vs. Parking Lot

A battle of beauty versus the budget came to a conclusion last week when the Board of Estimate finally approved a 1955 map of the City Planning Commission. The story started when the old Tombs came down many years ago and plans were made for a bright vista in front of the Criminal Courts Building. As an interim measure, the area was made into a parking lot.

In 1955 the City Planning Commission designed a map which would cut out the intervening street and make a Civic Center Park from Lafayette to Centre Streets between Leonard and White Streets. However, the Budget Bureau insisted that more money would result from a parking lot. The battle has waged for four years until the map was finally approved at the last Board of Estimate Meeting. Now Civic Center employees can look forward to a green campus for Spring lunch hours.

New Municipal Building Police Headquarters, Police Academy

A new Municipal Building will rise directly east of the present structure in 1964 if plans itemized in the new capital budget are not

distorted by the new "save the schools philosophy." Estimated cost is \$21,300,000. In it will go most of the departments now in rented space—the City Administrator's office and Welfare Department now at 250 Church Street, the Transit Authority now in Brooklyn, and most of the offices associated with the Mayor and the commissions appointed by him. The whole neighborhood will change with the demolition of the New York Law School and the Rhinelander building, the creation of new streets, and a new Brooklyn Bridge approach.

Also scheduled in the capital budget are new Police Headquarters (about 1965) and a new police academy (about 1962). No site has yet been chosen for the police headquarters although Commissioner Katz and his committee are "looking for a place as close to the Civic Center as possible." The expected tab—\$17 million. The Police Academy will be situated at 20th Street just east of Third Avenue and is budgeted at \$9,674,000.

Another improvement envisioned by the capital budget is the demolition of the famous Tweed Courthouse in City Hall Park. A million dollars has been appropriated for the improvement of the area which is underlaid with an intricate network of subway station.

It Figures

The 11,452 officers and men of the Fire Department put out 48,101 fires in 1958, the new Statistical Guide for New York City reveals. The book put out by the Department of Commerce and Public Events came out last week with 64 pages of facts and figures.

The 24,509 police officers operated from 2,351 call boxes. The Parks Department took care of 34,851 acres of parks and 2,282,000 city trees. The Public Works operated and maintained 54 buildings with a gross area of 7,308,638 square feet. Purchases bought \$64,618,435.61 of stuff in 39,967 orders. Traffic collected \$6,963,897 from 50,000 meters. And the red light you passed was one of 270,693 warnings they supervise. Sanitation Department hauled 1,120,000 loads amounting to 3,070,000 tons from 9,550 curb miles of city streets. And Welfare paid out \$300,935,057 to 370,927 persons.

Another interesting figure: There are 1721 government offices in New York—681 City, 286 State, 550 Federal, and 204 Foreign.

Sick Leave Rules Here and Elsewhere

The problems of sick leave get a thorough run-down in a new pamphlet put out by Public Personnel Association. It's called "Reducing Sick Leave Abuse." Some points of interest are:

Sick leave allowances run from five to thirty days per year, but accumulations are permitted. Nineteen per cent of the communi-

ties allow accumulation for thirty to sixty days; thirty-four per cent up to ninety days; fifteen per cent from one hundred twenty to one hundred fifty days; and twenty-two per cent allow unlimited accumulation. New York City allows 1 day a month with 180 days accumulation.

Everywhere the greatest use of sick leave is during the last three months of winter.

In general, the higher the salary range, the lower the sick leave use.

In Wayne County, Michigan, an employee who uses less than six days sick leaves, earns three extra days vacation.

*In Burbank, California, retiring employees get paid for half their accumulated sick leave.

MENTAL HYGIENE MEMO

By A. J. COCCARO

Read 'Em and Weep

As a serviceman during World War II it was common practice to pass leisure hours playing poker with the boys. A favorite expression of one of our young soldiers as he laid down his winning cards was "read 'em and weep."

This writer got the same feeling recently when an employee asked him to read through the full list of titles upgraded by the Division of Classification and Compensation. The worker pointed out a very apparent feature, "out of the 2,400 positions upgraded there isn't anyone below State pay grade 11." The list of re-allocated positions was very unpopular with the institutional employees.

Look At The Action

Only a small number of hospital titles were re-allocated. In the case of Occupational Therapy it widened the gap between the instructor and the therapist, when for years the instructors' contention has been that the gap should be closed. Recreation instructor and occupational therapist title with similar qualifications and pay grades for years are now listed differently. The change in the physical therapist title was good but did not include any change for the employees doing physical therapy in the mental institutions.

I believe there is agreement that morale is an important factor in work production. As difficult as it may be, it would then be good to attempt to measure how the employees look upon an action of this nature.

Our employees find it difficult to understand the work and decisions of this Division. However, in fairness to the Division of Classification and Compensation, it should be noted that the major salary problem is not one of allocation. A general raise for all State workers at this time is a must if our State government is to be fair to our employees and if it is to compete equally with private industry in the labor market.

Equal Work Benefits For Per Diem Aides Sought By Monroe County Chapter

BY GARY STEWART

ROCHESTER, Nov. 23—Arguments for placing Monroe County per diem employees on a par with other county workers concerning employee benefits have been submitted to the Board of Supervisors by the Monroe County chapter of the Civil Service Employees Association.

Mrs. Ruth McFee, chapter president, said the target date of Jan. 1 has been set to gain better working conditions for the per diem aides.

In speaking for this group of employees, the chapter wrote the Board saying:

We represent all the per diem or hourly workers now working for the County Department of Public Works working out of 145 Waring Road. There are 19 men who work all year for the Highway Department and are not employed part of the time by any town.

These men work 45 hours per week and are desirous of continuing to work 45 hours per week. However, these men are members of the Retirement System, receive seven paid holidays and 12 days vacation. They do not receive any sick leave, do not get all holidays given other County employees. These men are not permitted the benefits of payroll deduction for their hospital insurance. They pay their own hospital insurance quarterly; of course, the County does not pay one-half of their hospital insurance unless it is payroll deducted.

Five Benefits Asked

We, therefore, request that the County give these permanent hourly employees the same benefits as all other County employees, namely, (1) full

sick leave, (2) vacation, (3) personal leave, (4) all holidays allowed other County employees and (5) that they be given the privilege of payroll deduction for hospital insurance and that the County pay one-half of this hospital insurance.

The State of New York gave all these benefits to their hourly employees some time ago. In 1958 the City of Rochester gave all these benefits to all regular hourly and per diem workers. We feel the County of Monroe should also extend these benefits to all hourly or per diem workers.

While our request is for this one department, no doubt there may be others who would benefit by such action if granted to all such County employees.

We would appreciate your consideration of this matter and, if possible, grant these benefits effective January 1, 1960.

Plan to Use Civilians in 100 Police Fingerprint Jobs; Dept. Is Cool to Idea

By RICHARD EVANS, JR.

A way to provide New York City with about 100 more active line police patrolmen has been appealed for by Louis Chonoles, a senior fingerprint technician from the City Department of Personnel. He represents an association of persons on the current City eligible list for fingerprint technicians. President of the eligibles group is Natalio Sola.

Mr. Chonoles appeal, which was first suggested in early 1954, is to replace the 100-odd patrolmen assigned to fingerprint work in the Bureau of Criminal Identification.

He appealed to have fingerprint technician eligibles appointed to the jobs, thus saving money, since fingerprint technicians are paid less than patrolmen, and at the same time providing the city with around 100 more patrolmen on the line.

"I have the facts and figures," Mr. Chonoles told The Leader, "to prove the City would save at least \$100,000 in salaries every year by this move."

Mr. Chonoles said the Police Department has refused to appoint fingerprint technician eligibles on the grounds they were not qualified for the work in the Criminal Identification Bureau. Instead, he said, patrolmen with no fingerprint training were appointed to the jobs and then trained.

Mr. Chonoles said that to pass the City civil service fingerprint technician test one must be fully qualified for any fingerprint work. He said one Police Department official had told him, a senior fingerprint technician with 11 years experience, that he too would be unqualified for the Identification

Bureau fingerprinting jobs.

Mr. Chonoles showed The Leader a file of letters and clippings which went back as far as early 1954, in which he had recommended the personnel switch in the Identification Bureau. Subsequent newspaper clippings in his possession showed then Police Commissioner Francis W. A. Adams as being in favor of the move. Separate units in the Department also conducted studies of the situation and recommended to Commissioner Adams that the uniformed fingerprinters go on regular patrolman duty and be replaced by civilian technicians.

"So far, according to Mr. Chonoles, there has been no action toward replacing the uniformed fingerprinters. A letter from a Police Department official, dated Oct. 29 stated that the Department of Personnel was unable to get any qualified fingerprint technician applicants between 1956 and 1959 to fill five openings in the Bureau of Criminal Identification.

Another letter, dated Nov. 12 and also addressed to Mr. Chonoles, reported that there were no fingerprint technician vacancies in the Police Department. Mr. Chonoles told The Leader the five vacancies mentioned in the Oct. 29 letter had been filled by typists.

The City Department of Personnel established a 23 name eligible list for fingerprint technician in late Sept., 1958. The last number appointed was 15. There have been no appointments to the Bureau of Criminal Identification from this list.

U.S. Service News Items

Longevity Pay

Since 1949, when the federal government adopted a longevity pay plan for civil service employees, the idea has spread to many other jurisdictions as a morale builder for those who can't move up the service pay ladder. More than 1,400,000 federal employees are covered and a substantial number in 18 states and 15 big cities now have such a plan.

In most cases, longevity pay is determined by one or more of these factors: time in service; time in grade; and time at maximum. In some cases, service ratings play a part.

A report issued recently by the Public Personnel Association suggests that "the increment should amount to 4 or 5 per cent." Most plans with two or more steps require five years between increments, but others vary from three to ten years. In addition, many jurisdictions increase vacations after periods of service varying from 10 to 25 years.

Arguments for longevity offered in the survey include:

- (1) Rewards long and faithful service.
- (2) Provides continuing incentive.
- (3) Mitigates problems of dead-end employment.
- (4) Compensates for lack of opportunity.
- (5) Increases retirement pay.
- (6) Supplements non-monetary rewards.
- (7) Reduces turnover.
- (8) Reduces operating costs by retaining key personnel.
- (9) Minimizes reclassifications.
- (10) Retains skills of experienced employees.
- (11) Provides improved service at less cost.
- (12) Avoids demands for salary revision.

An equal number of objections are also cited.

Christmas Holidays

The President's aides say Federal employees will probably be given the afternoon of Dec. 24 but no time off preceding New Year's Day.

This plan will be recommended to President Eisenhower by personnel officials who have already approved it. The President is not expected to issue an annual holiday order before early December.

Most Federal agencies, as usual, will be liberal in granting annual leave to employees during the holiday period. Employees planning such vacations, however, should make their leave applications

Ante Is Up For Medical Officers

The United States Civil Service Commissions has approved payment of the highest rates for their respective pay grades to all medical officers in grades 11 through 17. The move is designed to attract more applicants to the short-supply jobs.

About 1,135 doctors will get immediate pay boosts through the order. Also, 325 others will be hired during the next few months.

All salaries in each grade will henceforth be the same, with raises only by grade, instead of also by rate in grade. All GS 11's will get \$8,230; GS 12, \$9,530; GS 13, \$11,090; GS 14, \$12,550; GS 15, \$13,970; GS 16, \$15,150 and GS 17, \$16,335.

130 New "Supergrade" Jobs to \$17,500

The Civil Service Commission has allocated 130 new GS 16, 17 and 17 jobs among 29 different Federal agencies. The total number of supergrade positions that pay \$14,190 to \$17,500 now totals 2,075.

NYC Says "Thank You"

FIREMAN FIRST grade Edward J. Campbell's funeral was held last Friday. He had died a hero, at 38, fighting his last of many City fires. He had been cited for bravery and heroism a number of times.

Firemen die every year, so in a sense, Mr. Campbell's death was a statistical expectation. Someone must protect the lives and property of the City from fire and some of the firemen who do it must inevitably die for it.

As Ed Campbell answered his last alarm, he was aware that nine firemen had been killed in 1958 and that 1,950 had been injured — every fireman is aware of such facts.

Ed Campbell also was aware, when he went to that last fire, that he was a highly trained specialist with a perilous job, and was paid the maximum for his grade. He was paid \$115 a week, before deductions, for his knowledge, his skills and his life. With a wife and three children to support, he felt he couldn't afford the added deduction for social security coverage.

So his wife and children, aged 10, 12 and 14, will have to live on a pension of \$57.50 a week, the City's way of saying "thanks" for his services. This is something for the voters to remember when fireman pay and pension appeals come up.

Accent in the News

THE DEATH of Edward Campbell was a one-day story in the Press and New York will soon forget his heroism.

But almost at the same time, the Press carried another story — the news of cheating by other public servants — the few rotten apples that must inevitably be found in the barrel of 246,000 who work for the City. And this is the story that will be long remembered, the story that must inevitably rub off on all civil servants.

It is unfortunately true that what the good men do is soon forgotten, but the evil lives on to plague their colleagues. The 99 and a fraction per cent of industrious, loyal, honest public servants must bear the stigma of the few who dishonor their associates, their jobs and all public service.

Economies Must Contain Consideration of Workers

TRUE ECONOMY in government has no enemy in employee organizations. But effectuating an economy frequently involves dismissal of workers and here the employee organization serves its members by bending every effort to protect the status of workers threatened by a job foreclosure.

The Civil Service Employees Association is now moving in two areas to make sure its employee members are fairly treated. New York State is considering the transfer of the Barge Canal System to the Federal Government. The State is also planning to close down its highway weighing stations. A good number of employees will be seriously affected by both moves.

To give these workers all the job protection possible, the Employees Association has called for a special study committee to be set up by Governor Rockefeller. This committee would particularly seek ways and means of absorbing these workers in other State departments.

Most of these employees have long years of service with the State. They deserve the best treatment possible in protecting their careers and the Employees Association is to be congratulated for the efforts on behalf of these civil servants.

LETTERS TO THE EDITOR

SAYS INSTITUTION AIDES PENALIZED

Editor, The Leader:

It is with great dismay that I, as a Mental Hygiene employee, am obliged to accept the recent ruling of the Grievance Board re the 37½ hour work week for clerical employees of Institutions and the Department of Health and the Department of Welfare. A review of the action taken by the members of the Grievance Board since the inception of this grievance reveals that first, the Civil Service Employees Association was requested to undertake a survey of the number of clerical employees involved. At a later date inquiries of a similar nature were directed to the Institutions of the Department of Mental Hygiene by the members of the Grievance Board.

There can be no question now that these investigations were designed solely to create the illusion that serious consideration was being given to ways and means of resolving this discriminatory practice amongst state civil service employees. The decision which the Grievance Board finally arrived at clearly indicates that these were merely delaying tactics, of a most deliberate nature, intended to placate the complainants.

Says Issue Prejudiced

What other conclusion can be drawn but that this issue was prejudged and settled even while the hearing was in progress? It is inconceivable that the State of New York can require employees who qualified through the identical examination, for the identical Civil Service List, to accept employment in a position requiring the equivalent of fifteen more working days per year than in other positions filled from the same list. This is what actually happens when a clerk accepts a position in a Department of Mental Hygiene Institution rather than in some other Dept. of Mental Hygiene office. This is equally true in the Department of Correction, Department of Health and Welfare Dept.

It has been widely proclaimed that the intent of the new Attendance Rules was to eliminate the description of Institutional employees as "second-class citizens." The ruling of the Grievance Board in this matter is contrary to the stated intent of the Attendance Rules which were promulgated for the purpose of removing this "second-class citizen" stigma.

BROOKLYN STATE HOSPITAL EMPLOYEE

HOW ABOUT TIME OFF TO VOTE FOR U.S. WORKERS?

Editor, The Leader:

Just before election day the employees of a Federal agency, with offices here in New York City, were notified that those who resided in the New York City area would be excused for voting on Tuesday, Nov. 3, for either one-half hour in the morning or one hour in the afternoon.

Although I grant this is generally sufficient time for a citizen to cast his or her vote, I know that the State Election Law, Article 8, No. 225.5 (Book 17 Election Law, McKinney's Consolidated Laws of New York) clearly states that:

An employee may absent himself from his work for a period of two hours in order to vote at a general election (this includes all elections covered by election law) and no deduction from his wages may be made by reason thereof, even though the polls are open for the period of two hours outside of his regular employment

CIVIL SERVICE NOTES FROM ALL OVER

TRENTON, N.J. — Unlike New York City and New York State, New Jersey had a closing surplus on June 30 of \$8,442, or \$867,000 less than was anticipated by the Legislature.

WASHINGTON, D.C. — Recent Federal Court decisions are making it more difficult for Government agencies to get rid of unsatisfactory employees. This statement was made by Ernest Betts, personnel director of the Agriculture Department in San Francisco at the annual conference of the Public Personnel Association.

TRENTON, N.J. — Patrols of motor vehicle inspectors are now being deployed along principal highways of New Jersey to catch law breakers.

LABOR DISGRACES no man; unfortunately you will occasionally find men disgrace labor.—Ulysses S. Grant.

PEOPLE MAY ASK: "What exactly is Civil Service?" And the answer is:

Civil Service is that system of public personnel administration where job selection, promotions and day-to-day operation of the system are based on competence and ability administered with impartiality.

Civil Service is also a state of mind whereby the modern public administrator is concerned with the efficiency and continuity of

the machinery of government rather than the political party in power at any given time.

SACRAMENTO, CAL. — Addition to California Labor Code: "Neither the State of California nor any county, political subdivision, incorporated City, town, nor any other municipal corporation shall prohibit, deny, or obstruct the right of fire fighters to join any bona fide labor organization of their own choice."

THE SOCIAL SECURITY Administration recently took steps to formalize a six-year-old practice of helping state public assistance agencies to locate parents who have deserted their needy children. Under a plan initiated by the Administration in 1953, 46 of the 53 states or other political jurisdictions arranged for information on deserting parents to be sent to their public assistance agencies by the Federal Bureau of Old-Age and Survivors Insurance.

THE PASTOR of a church on the outskirts of town phoned the local board of health to ask that a dead mule be removed from in front of his house.

The young clerk thought he'd be smart.

"I thought you clergymen took care of the dead," he remarked.

"We do," answered the pastor, "but we get in touch with their relatives first."

Questions Answered On Social Security

I have a cleaning lady who comes once a week to help with the housework. Do I have to pay social security tax and what should I do?

If you pay your cleaning lady as much as \$50.00 cash in a calendar quarter, you must pay the social security tax. You should make a record of her social security number and how much you pay her. Notify the District Director of Internal Revenue that you have a household employee, and at the end of the quarter, he will send you the tax form to be completed. The total social security tax is 5 percent of the cash wages. You may deduct 2½ percent from your employee's wages and you add 2½ percent. This tax rate is effective for wages paid in October, November, and December 1959. A form for notifying the Director of Internal Revenue may be obtained at your social security office.

I worked in a dress factory from Jan. 1949 to Dec. 15, 1954. From February 1955 to about August 1957 I worked for a government agency which did not have social security. On August 15, 1957 I was in an auto accident and suffered a broken back. I

period. 1942 Op. Atty. Gen. 159. I would like you to bring out in The Leader whether or not this action on the part of the Federal agency is within the law.

A Civil Service Employee and Voter

We cannot give definitive advice on this question. We publish the letter so that those who can not only give advice but effect decisions on the matter may be made aware of it.—Ed.

am not able to work. Inasmuch as I did not work under social security after Dec. 1954 can I qualify for disability payments? I am 54 years of age.

Under the 1958 Amendments to the Social Security Law you require at least 5 years of work out of the ten immediately preceding the onset date of your disability. Your employment from Jan. 1949 to December 1954 which was under social security will give you the required number of years of employment. You should file an application to obtain a determination as to whether your disability meets the standards set up under the Social Security Act.

I am getting a monthly disability check from the Bureau of Old-Age and Survivors Insurance. I have been disabled for two years. My husband was disabled for many years and I was supporting him until I got sick. Now we have no money except for my monthly check and our savings are all gone. Can't we get any help? My husband never paid into social security.

Your husband may be eligible to a monthly benefit equal to half of your benefit. He would be eligible for benefits from September 1958 on, if he were at least 65 years old and had been dependent upon you for at least half his support in the year before you became disabled.

Even if your husband is not yet 65, you should contact your local social security office to file proof that you were supporting your husband. This proof must be filed by August 31, 1960.

New Correction Officer Test: March Filing Set

March, 1960 is the date set tentatively for opening of a filing period for correction officer (male), according to the New York City Department of Personnel.

The written test is tentatively set for June 25.

The Department of Personnel explained that the new filing period was needed that soon because the present correction of-

ficer eligible list would not be sufficient to meet the Correction Department's needs.

The salary range for the title, effective Jan. 1, 1960, will be \$4,622 to \$6,008, based on a 42-

hour work week. There is also a \$95 uniform allowance.

Candidates for the last City correction officer examination were required to be between 20 and 31 years old (with certain exceptions for veterans); at least 5 feet 7½ inches tall; have 20/30

vision in each eye, separately, without glasses, and have high school diplomas or equivalency certificates at time of actual appointment.

Our next general membership meeting will be held on Monday, November 30, at 4:15 PM in the Community Store Lounge. This meeting will be devoted to a discussion of the salary resolution recently adopted at the Annual meeting of delegates in Albany. A more fully detailed account of the issues involved has been distributed to all members. All employees are welcome to attend this vitally important meeting.

We have invited F. Henry Galpin, salary research analyst; Davis L. Shultes, chairman of the salary committee; James Casey, New York City field representative; and Mr. Paul Kyer, Editor, The Civil Service Leader, to be present at this meeting to provide information and answer questions. You owe it to yourselves to attend this meeting, get the facts and decide what action you want to take in this matter.

Our Chapter has long been an acknowledged leader in Civil Service Employees Association activities, but our actions must be representative of our entire membership. This is only possible if you attend meetings and let your voice be heard.

On November 10, immediately following a meeting of the board of directors, there was a meeting of our newly formed membership committee. This proved to be a most interesting and provocative meeting and was fully reported upon by Paul Kyer, editor of The Civil Service Leader, in the November 17 issue.

It is hoped that in time the ideas developed at this meeting will result in improved services to the membership. Direct mailing of notices of meetings, regular publication of a news letter and the establishment of a credit union are but a few of the many tentative services being considered.

We were privileged to have several guests at the meeting, among them Phillip Kerker, James Casey, and Paul Kyer. Leo Wenitt, field representative of the New York State Credit Union League, Erwin Schlossberg, president of the Metropolitan Conference, CSEA; and Sal Butera, president Psychiatric Institute Chapter, CSEA.

In all fairness to all those employees who gave of their time and effort so generously and unselfishly it must be pointed out that all chapter officers, members of the board of director and committees serve on a purely voluntary basis. The only reward they seek is the interest and support of the membership. It is up to all of us to encourage their continued efforts by attending meetings and contributing our ideas.

The BSH Psychiatric Forum opened its 1959-1960 series on November 5 with a most interesting address by Bernard Frankel, executive director of the Long Island Consultation Center. Mr. Frankel discussed "The Role of Low Cost Clinics in Community Mental Health."

The next meeting of the Psy-

chiatric Forum will be held on Thursday, December 10, at 8:30 PM in the Assembly Hall. At that time Dr. Richard C. Robertillo, chief psychiatrist of the Long Island Consultation Center and author of Voyage From Lesbos, will be our guest speaker. All employees, their families and friends are urged to attend this educational and enlightening series of discussions on a wide variety of mental health topics. The Forum meetings are open to the public.

The occupational therapy department will hold its annual pre-Christmas sale of articles made by the patients, on December 8, 9, 13 and 16, from 11:00 AM to 4:00 PM in the lobby of Building 10. All proceeds go to the O.T. Fund for the benefit of the patients.

In the "better late than never" department we wish to report that the recreation department provided a most beautifully decorated setting in the assembly hall for our patients' halloween dance on October 28. A good time was had by all.

Sincere condolences are extended to Henry Girouard, our chief supervisor, on the loss of his mother on October 25.

Ill in the Sick Bay at present are Vera Ross, Lottie Houston, Archangel Sena, Malisha Barber, Willie Carter and Frank Morgan. We extend our best wishes for a speedy recovery to each of you. Recently discharged from the Bay and presently recuperating are Agnes Searson and Robert Chute.

Also recuperating from prolonged illnesses are Eva Levenberg of West Building and Olivia Cox of Building 10. Mrs. Cox has requested this opportunity to publicly express her appreciation to her many co-workers who have so generously aided her during her illness.

Congratulations to Christopher Grucci, representative on the board of directors of the grounds personnel, on the recent marriage of his daughter. Also in order are congratulations to Mrs. McDermott, supervisor of West Building, who was tendered a surprise party by West Building personnel last week in anticipation of her approaching retirement after 30 years of loyal and devoted service. Best wishes for much happiness in the future.

This is your column. Please submit items for publication to Mr. Emil Impresa, Assembly Hall, Ext. 264.

Willard State Hospital

Willard State Hospital Chapter's drive for membership is now underway and within a short time all members of the executive council will be given membership cards for all non-members in their unit. It is requested that each non-member be contacted to join the Association.

There are a few departments where one person is keeping that particular unit from having 100 per cent membership and since that one person has received the same benefits that everyone else has received, it is only fair that this person be willing to join the Association and thus aid in securing further benefits. Both the O. T. Department and the Transportation Department have all members but one.

George Wachob from Ter Bush & Powell has made a canvas of all employees regarding health and accident insurance and has done a fine job. Those employees who have taken the insurance must become members of the Association at once or their insurance will be cancelled. For membership cards, please contact any of the officers of the Association.

Dr. Clarence Dunbar is convalescing at his home following surgery performed at the Arnot Oden Hospital in Elmira, N. Y. Edward Limner is convalescing at his home following surgery. Following the reading of the secretary's and treasurer's report, the delegates who attended the Albany meetings in October reviewed some of the resolutions for the members. Winners of the Thanksgiving Turkeys were announced following the business session of the meeting. They were: Mrs. Gladys Butts, State Conservation Department, Mrs. Mina Weir, State University Teachers College, and Mr. Robert Safford, Homer Folks Hospital.

Plans were made to have a speaker on accident insurance at

the January meeting. However, this was preceded by plans for the annual Christmas dinner for the Chapter. A charcoal broiled chicken dinner will be served at 6:00 p.m., with the usual Christmas festivities. St. Lawrence

About 80 members of St. Lawrence Chapter, County Division, of the Civil Service Employees Association enjoyed a steak dinner at their Membership Rally Dinner at the Tick Tock in Canton on Thursday Evening, Nov. 5.

Presiding as Toastmaster was Edmund L. Shea, C.S.E.A. Council of Ogdensburg. Mrs. Mary Manning of Ogdensburg, president of St. Lawrence Chapter, welcomed the guests after Rev. Orion Hess, former pastor of the Baptist Church of Potsdam and now case worker in St. Lawrence County Welfare Department, gave the invocation and Mr. Glen W. Miller, village clerk of Gouverneur, led the group in the pledge of allegiance.

Mrs. Manning, in the absence of Mr. Elmer Hewlett who is chairman of the membership committee, urged every member to act as a committee to secure new members, contact new employees, and renew the old. She stressed the value of strength in membership to increase the ever-increasing 87,000 members of the Association.

J. Ambrose Donnelly of Albany, field representative of the Association, reviewed the over thirty resolutions relative to County, non-teaching and municipal employees passed by the recent delegates at the meeting in Albany and which the Association will submit to the coming Legislature.

Senator Robert McEwen of Ogdensburg commented on his bill on vested rights in retirement, pointing out the value of being able to keep the pension intact until retirement age even though a member no longer works in state, county or municipal service. He also stressed the T. B. Bill for state workers. The Senator also explained the processing of bills and the points that should be covered in attempting to get bills out of Committee. He spoke very warmly of his contacts and association with John DeGraff and John Kelley of the Association's legal staff. He praised the work of the C.S.E.A. and its 87,000 members.

Senator McEwen and Mr. Shea both agreed that such a program worked out by the St. Lawrence Chapter, with the help of headquarters staff to furnish comparative statistics, could be of untold value to the members and, at the same time, would enlighten the general public on the services they receive from its public servants and which they unconsciously accept without giving thought to the effort and work involved.

Such a program under the guidance of Council Edmund L. Shea is about to be started and it is hoped that by the time next July arrives the St. Lawrence Chapter of C.S.E.A. will have done a job that not only its members but the legislators and general public as well may be proud of.

Also present at the dinner meeting were John Graveline, president of Central Conference of C.S.E.A.; Fred Kots, St. Lawrence State Hospital, Ogdensburg; Emmett Durr and Eunice Cross of Raybrook State Hospital; and Brooks Warner of Marcy State Hospital.

Joseph Felly, president of C.S.E.A.; Raymond Castle, second vice-president of C.S.E.A.; Vernon Tapper, third vice-president of C.S.E.A.; and Assemblyman Verner Ingram of Potsdam sent

their regrets for not being able to be present but extended good wishes for the membership rally.

The Manhattan State Hospital Chapter of the Civil Service Employees Association acted as host to the Metropolitan Conference at a meeting held Nov. 14 in the Hospital Assembly Hall.

Dr. John H. Travis, as senior director of Manhattan State Hospital, welcomed the assembled delegates. Betty Lavin, Frank Walsh, Larry Lillis and Fred Weber, the Chapter's social committee, performed their duties efficiently. The buffet supper and refreshments were enjoyed by all and many fine compliments were made regarding the preparation of the food. The program was lively and further details concerning it will be published by the Conference.

The Chapter's membership is steadily climbing higher, with renewals and new members coming in daily. Association lapel pins are available to all members, but the supply of automobile emblems has run out. New ones have been ordered from Albany and when they are available, those interested will be notified.

Manhattan State Hospital's employees were saddened to hear of the recent death of Dr. John R. Knapp. The good doctor was very well liked and his profession has lost a very fine practitioner. Dr. Knapp served the State of New York faithfully for over 40 years, as director, assistant director, and in other capacities in Manhattan State. His retirement several years ago was marked by a party tendered by the Staff and employees of the Hospital. Deepest sympathy is extended to his brother and members of the family.

Newark State

Arthur Blaisdell, Protestant Chaplain, in teaching a Sunday school class. The staff welcomes them to the school and also wishes to express its appreciation for the very valuable services the volunteers are rendering. It is hoped that more community members will become interested in this rewarding type of service.
