Importance: High

This is great news!

Congratulations to colleagues in our Department of Mathematics & Statistics in the College of Arts & Sciences on the final New York State approval and registration of a **Master of Science (M.S.) Degree Program in Data Science!** Formal State approval correspondence is attached for your reference, along with the program proposal itself. The faculty are now authorized to promote and deliver this new program to students.

I ask that responsible colleagues receiving this notice, as appropriate to responsibilities, take actions as warranted to establish the new M.S. program listing in the Grad Bulletin and University administrative systems. As illustrated in the proposal, it is expected that enrollees will complete the 36 credit curriculum over 2 years of study. Thank you and successful implementation to all involved.

Jon Bartow
