

UNIVERSITY SENATE
UNIVERSITY AT ALBANY
STATE UNIVERSITY OF NEW YORK

Introduced by the University Planning and Policy Council
April 11, 2005

COLLEGE OF COMPUTING AND INFORMATION

IT IS HEREBY PROPOSED THAT THE FOLLOWING BE ADOPTED:

1. That the University Senate has reviewed and endorses the attached proposal to create a College of Computing and Information from the former School of Information Science and Policy, the Department of Computer Science, and the Ph.D. Program in Information Science. The Senate finds the organization and purpose of the proposed College to be consistent with the educational, research, and service mission of the University. The Senate understands that the College will work with existing resources of the units and its establishment entails no prior commitment of resources other than those already in the College.
2. That this proposal be forwarded to the President for consideration.
