The only consolation we can see for WAA is that at least this is one thing that nasty Sports editor won't be able to blame on them. Even a person so obviously unintelligent must come to the same conclusion Tuesday, February 13 on the subject as did Mark Twain.

Seriously though, we sympathize with te WAA program makers. News that the gym will be open tomorrow Wednesday, February 14 and that games can be made up at that time is an encouraging note. ## Nelson Releases Tentative Plans For Summer, '45 English, Math Courses Included In Curriculum

The schedule for the eight-week accelerated program for summer, 1945, has been announced by Milton G. Nelson, Dean. This schedule is quite definite as it stands and will be subject to almost no change. Classes will begin on June 25 and examinations will be held on August 17 and 18, with July 4 a holiday.

Last semester accelerated students were asked to indicate whether or not they planned to attend the summer session. Those who thought they would attend were sent a tentative schedule and instructed to mark the subjects they would take. Summer Schedule

As a result of the information collected the present program was evolved, and it varies only slightly from the proposed schedule. Dean Nelson said that students who have not signed up for the summer session but decide to attend before it begins can probably be accommodated. No fees or other charges are levied for the accelerated session. Six-Hour Courses

#### Nelson Nullifies 'Rumors; School To Recess In Spring

The rumor floating around the halls of State to the effect that Easter vacation will be eliminated this year has been "spiked" by Dr. Milton Nelson, Dean.

Dean Nelson said Wednesday that present plans call for adherence to the schedule in the catalog-that is, spring recess from noon, March 28, to 8:10 A.M. possibility of a change in the

Washington's Birthday, which is on Thursday this year, will not be a holiday. The Dean explained that the holiday would be too short to warrant the strain on the railroads which would result from students going home for the long week-end.

The speculation about Easter vacation was also based on the transportation problem, and it was suggested that keeping students in classes during the Easter season would further relieve the situation.
