Dear Dr. Jarvis:

Proposal Nos. 934-92 and 935-92

I write in regard to Joseph C. Burke's letters of September 25, 1992, requesting approval of curricular and award changes for the Doctor of Education (Ed.D.) programs in Reading and in Curriculum and Instruction offered at the State University of New York at Albany.

I am pleased to inform you that, on the basis of our review, the requested changes have been approved as detailed on the attached listing from the Inventory of Registered Programs. These programs are now registered as leading to the Doctor of Philosophy (Ph.D.) degree.

Because the change of degree was approved on the basis of a review of the current programs, these registration actions do not indicate retroactive approval of program changes. For graduates of the Ed.D. program to have their degree exchanged for a Ph.D., the University's faculty and administration would need to examine each case individually to determine whether all the requirements as approved for the Ph.D., such as the nature of the dissertation and the mastery of research methods, were fulfilled. Documentation should be retained for each case reviewed and, where an exchange of degree is approved, the original diploma should be returned.

Thank you for keeping us informed.

Sincerely,
Donald J. Nolan

SUBJ: Award Change Approval 

Good news. As the attached FAX indicates, our requests for permission to grant the Ph.D. in place of the Ed.D. for programs in Curriculum and Instruction and Reading have both been approved. Thank you all for your efforts to see these proposals to a successful outcome.
