These specially developed glasses are designed to take the glare out of headlights of approaching cars. They were widely acclaimed by LEADER readers when they were first offered last year.

Group Life Insurance Approved by UFOA

The Uniformed Fire Officers Association at a membership meeting held at the Hotel Martinique, NYC, last Thursday night voted unanimously in favor of changing the constitution to permit the association to contract for group life insurance. The proposal would have to be adopted at a subsequent meeting and, after that, by members in a mail ballot before becoming effective.

There was a large attendance, made so, it was believed, because of the bill in the City Council for compulsory retirement at age 63. However, the subject did not come up for discussion.

There was considerable debate about the new hours in the Fire Department. The method by which the quota is increased to permit a 42-hour week by July 1 was explained in detail. Of the promotions, there will be 80 to lieutenant, 17 to captain, and 22 to battalion chief. In addition, there will be 435 fireman appointments. These are additions to the existing quota and were approved by the Board of Estimate.

Two nominations were received in the current election, both for filling two lieutenant vacancies. The nominees are Francis W. Voo-see of Hook and Ladder 1 and

Walter C. Bersig of Engine Company 241. Nominations remain open until the July meeting. The actual election will be soon thereafter under the auspices of the American Arbitration Association.

Much interest was shown in the proposed increase in rates for HIP coverage. The members of the uniformed force have a very high percentage of membership in the HIP, and the percentage of officers who subscribe to the plan is even higher, according to their numbers, than the percentage among firemen. There was considerable sentiment in favor of the City paying half the HIP income.

- What the Doyles get for 16¢ a day
- Refrigeration—24 hours a day
- Automatic washer—1½ hrs. a week
- Vacuum cleaner—1 hour a week
- 2 Radios—1 hour a day
- TV—(21" set)—3 hours a day
- Iron—2 hours a week
- 2 Electric clocks

average Con Edison electric bill by 60—and see what a daily bargain you're getting with Con Edison electricity. (Remember, your bill covers a 2-month period—and may show use of gas as well as electricity).

Institute for Chaplains Conducted by State

ALBANY, June 1—The Department of Mental Hygiene conducted a three-day institute for chaplains of the State's mental hospitals and State schools, at Central Islip State Hospital. About 75 institution chaplains attended for three days. In addition, the department invited the Department of Correction, Department of

Health, and Department of Social Welfare to send representatives.

First of its kind, the chaplains' institute is part of a long-range program of the Department of Mental Hygiene to enhance the ministrations to the spiritual needs of patients, Commissioner Newton Bigelow said. Chaplains of all faiths serve at the department's

institutions, conducting formal services, officiating at religious observances, and visiting patients.

Clergy on Program

On the program were the Rev. Henri Samson, S.J., of Montreal, the Rev. Ernest E. Bruder of St. Elizabeth's Hospital, Washington, D. C., and Rabbi I. Fred Hollander, of the Institute for Pastoral Psychiatry of the New York Board of Rabbis.

Never A Dull Moment In U. S. Civil Service

NEW YORK State and NYC civil service are relatively quiet, but the Federal civil service does not seem to be able to exist without turmoil.

Something called the Whitten Amendment produces a rash on the skin of civil service, by limiting the number of permanent appointments arbitrarily, as if necessity were never to be consulted, and puts a one-grade-limit-per-year on promotions. Then a Thomas Amendment raises havoc with annual leave. Accumulation is limited, and the rule of use-it-or-lose-it is put into effect.

Both of these devices are accomplished by the sneaky rider route. A rider is something that has nothing to do, necessarily, with the appropriations bill that it's attached to, but the President can not veto the rider; he'd have to veto the whole bill, and thus his hand is forced, which is arch trickery at its worst.

Light and Darkness

Now there's a gleam of light. The Senate has unanimously approved a bill to repeal the Thomas Amendment. A House committee has reported out a bill favoring such repeal. The use-it-or-lose-it rule seems fortunately doomed.

But now, as the lights begin to go on again in one Federal sector, they start going out in another.

The limitation on promotions was given a liberal interpretation by the U. S. Civil Service Commission, by the predecessors of the present incumbents. Two-grade promotions were authorized, the second not to take effect until the required year was faithfully served in the first promotion grade. It seemed fair enough. It served as a morale-builder. An employee knew — or thought he knew — that his next promotion was coming along, too, and when. It was deserved, so its arrival was made only a matter of time.

Sounds Awfully Wrong

But now a new Commission begins to see things differently, and a new regime in the General Accounting Office is condemning such so-called double promotions as illegal. Thus, though the second promotion benefits may not even have begun yet, the whole double promotion plan is attacked, on the ground that it was void from the start, hence even the first promotion, that could have been made legally, if not accompanied by the deferred other, is illegal. The GAO is considering asking those promoted employees to give back to the Government the additional money they received through that first promotion. That doesn't sound right. But it does produce turmoil. Thousands of employees are wondering whether their frail financial standing is to suffer a deadening blow.

The New Broom

However wrong the two riders were, the proposal to penalize promoted employees, demand refund, and put them back in the lower grade from which they started their career climb, is atrociously worse. At least the employees should be entitled to keep the additional money they received for their first promotion step, as an act of simple justice, and the first-step promotions should stand, even if the new broom has a meed of merit in its sweep in regard to the second promotion.

Merit Man

JOSEPH PAGANO

THIS IS the big week in Joseph Pagano's life. Of course, it was a big event, too, when he got married. But courtship and marriage, and even the birth of two children, were accomplished much sooner. It's B.S. (public relations), meaning that he'll be a bachelor of science in that specialty, and one of the first to get the degree in that particular specialty. The degree grant is something new in that field. He switched from a writing course to P. R.

Mr. Pagano, who lives in White Plains, is editor of "The Industrial Bulletin," published by the State Department of Labor, and is a member of the NYC chapter of the Civil Service Employees Association.

What will the degree mean to him? When The LEADER asked him he replied:

Same, But More Of It

"I'll continue doing what I am doing, only more of it."

He also hopes he will do it even better, although the Labor Department has an evaluation of his work which casts some doubt on the possibility of improvement. Mr. Pagano, however, is modest. He sees room.

What makes the degree a matter of such great moment is the fact that he attains it after 20 years of effort. Yes, 20 long years. Of course, there were interruptions. He's frank enough to mention the depression. Then came World War II, in which he served as a captain of artillery.

Eyes Upward

All told, he's worked seven years for the State, enjoys his job intensely, thinks State employment affords excellent career opportunities, and hopes that the next promotion exam that could affect him may contain as a minimum requirement the possession of a degree of B.S. (public relations).

Low Bow

In his spare time he's collaborating on writing text books on American industrial relations for use in junior college. His collaborators are two professors, both Ph. D's. But now, as a B.S., he won't have to bow so deeply. Just a little.

Lanzillotti Wants Fire Vacancies Filled

State Senator Carlo Lanzillotti has written to Mayor Vincent R. Impellitteri, complaining about "a serious shortage in NYC Fire Department personnel," at least so far as a survey in his district reveals. He complains about the "continued failure to fill vacancies that are within the annual budget allowance," and the "demoralizing effect of having so many jobs filled out of title," for instance, firemen serving as acting lieutenants. He notes that the increased responsibilities are not accompanied by increased pay.

The Senator calls the situation "most disturbing" and one that demands immediate attention. He asks particularly that the vacancies in the lieutenant rank, of which he's been told there are 94, be filled without delay.

His Senatorial District is composed of the First, Second and Third Assembly District, Brooklyn.

3,745 TAKE TEST FOR NYC TRACKMAN

The trackman written test given by NYC was taken by 3,745 men, while 1,463 failed to show up. The jobs are with the Board of Transportation.

CIVIL SERVICE

NEWS Letter

SPEAKING of riders — additions tacked on to appropriation bills, for some extraneous purpose — U. S. Civil Service Commissioner Fred Lawton told the Senate Rules Committee: "Surely no one will seriously suggest that Government personnel legislation should be enacted in such a fashion at this." All the Senators on the committee had voted in favor of this or that rider. The Commissioner was deploring the rider route by which the Whitten Amendment, strictly limiting permanent hiring, and the Thomas Amendment, curtailing use of an annual leave, and its accumulation, were accomplished. The Eisenhower Administration is opposed both to the method and the actual provisions of those riders.

A FEW MONTHS AGO District Attorney Frank S. Hogan, in response to a request, agreed that his office would investigate NYC civil service matters. Since then the investigation has actually been begun. Mysterious absences of members of the NYC Civil Service Commission's staff arise from their being called to the D.A.'s office for questioning.

THE LAST DAY for receiving applications for the \$9,050 school medical director position, NYC Board of Education, has been extended to July 1, and the Civil Service Reform Association called on physicians of the metropolitan area to apply. The association has long fought to have this position filled on a strictly competitive basis, even having had to wage two law suits to that end, and fears the Board is even now blocking the appointment on a merit basis. The Board's board of examiners denies this. The Association complains the exam was given little publicity, the experience requirement is only five years for present medical inspectors employed by the Board, 10 years for "outsiders," and recalls what it finds were makeshifts the Board of Education used to retain a medical director of its own choosing.

THE EISENHOWER ADMINISTRATION, says the Civil Service Reform Association, "isn't bent on a widespread patronage raid," and adds that quite the contrary is true. It cites 350 requests from agencies for inclusion of jobs in the new Schedule C, covering exempt positions, and the granting of only 100 of the requests. But the Association fears that rules, regulations and veteran preference laws, may be causing the dropping of highly competent employees, in reductions in force, with preservation of jobs for the less competent.

The NYC Civil Service Commission issued a list of persons designated by departments as liaison officers to cooperate with the new Classification Bureau of the Commission. Dr. Frank A. Schaefer, Commission secretary, in reporting on additions to the list, noted that "the Board of Elections did not designate a liaison officer." Final decree of absolute divorce of politics from civil service?

Question, Please

MAY I APPLY now for Social Security coverage? I am an employee of a local government in an upstate county, and my employer is not an employer member of the State Employees Retirement System. K. L.

Answer — No. Plans are being worked out whereby such coverage might become possible for you but meanwhile watch The LEADER for latest developments.

I EXPECT to take the NYC surface line operator exam, applications for which open this month. If I am offered a job as a bus driver, should I get on the list, have I the right to decline, become a conductor, since I'm tall enough, and later accept a bus operator job? M. C.

Answer — No. Those eligibles who are appointed as conductors, without being offered a bus operator job, hence didn't decline the bus job, would be given an opportunity to become bus operators, depending on vacancies and the eligible's position on the list. In other words, appointment as a conductor does not take one's name off the bus operator list. But those who decline bus opera-

tor jobs will not be offered one again, for their appointment as conductor does take their name off the list.

IF I SHOULD DIE while I am a pensioner, and the option I exercised, did not bring in any other beneficiary whose benefit was to start when mine stopped, is there any way I could bequeath the unused part of my annuity account to some relative? I am a NYC employee. M.I.G.K.

Answer — No. The death of the pensioner terminates the contract.

WHEN AN ELIGIBLE list is established by a Civil Service Commission, and rescinded, have those who were made eligibles any rights as such? J.R. O'C.

Answer — The rescission of the eligible list produces the same effect as if no list had been established, provided there were no appointments; and if there were appointments or promotions, such rescission could even undo those. The rights of eligibles are measured in terms of the eligible list as it will be, let us say, re-established.

OFFICIALS HONOR ENGAGED COUPLE

Weiner, Special Deputy Comptroller; George Marlin, former Special Deputy Comptroller; Mr. and Mrs. Lester Silver, and 150 staff members of the Bureau of Excise Taxes of the Comptroller's Office.

Millionth Chest X-Ray Coming Up

During the week of June 7, the State Health Department expects to take the millionth X-Ray in the community-wide tuberculosis chest X-Ray survey program started in 1947. Since the program was undertaken, 266 communities in 51 counties have been surveyed.

The department is planning ceremonies at the time the millionth person is reached.

ADDITION JOBS

A new list of U.S. jobs open nationwide was published in last week's LEADER, issue of May 25. Next week additional jobs in the same category will be published.

H. ELIOT KAPLAN

Kaplan to Get More Time for Pension Report

WASHINGTON, June 1 — The time limit of the Committee on Retirement Policy for Federal Personnel to report to Congress is to be extended from December 31 to June 30. H. Eliot Kaplan, former Deputy State Comptroller, is chairman of the committee.

In a memorandum submitted to the House Post Office and Civil Service Committee, Mr. Kaplan said that no survey of the Federal retirement systems had been made since their inception in 1920. He promised that the committee would make a thorough study and said that detailed analysis was necessary, since the Congress might want to use the report as a pension legislation policy.

There are 13 different retirement systems, including the military one, Mr. Kaplan said.

The committee will have to do some actuarial work itself, because essential figures do not exist, he added.

The study will include also the Social Security System. It is expected that possible effects of integration of other retirement plans with Social Security, including possibly public employee systems, will be discussed in the report.

NUMBER OF EMPLOYEES OF U. S. DROPS 21,700

WASHINGTON, June 1—Civilian employment of Federal executive agencies decreased 21,700 during April. The U. S. Civil Service Commission reported 2,506,600 Federal employees on May 1. The Department of Defense and the Economic Stabilization Agency reported the largest decreases.

Federal employment overseas decreased also during April. A total of 182,200 workers on May 1 was 2,400 below the April 1 total. About 1,500 of the decrease occurred in our employment in foreign countries.

Senate Unanimously Votes to Repeal Rider Curtailing Annual Leave

WASHINGTON, June 1 — The Senate unanimously approved a bill to repeal the Thomas Amendment, which requires use of annual leave by the next June 30 on penalty of losing the leave.

The House Post Office and Civil Service Committee reported out a bill to repeal the rider, but would reduce present leave accumulation to 26 days, from 60.

Not for Top-Notchers
The leave law, under both versions, would not apply to members of the Cabinet and other top officials. Thus, forgoing vacations would not entitle them to the terminal pay that was so popular with outgoing appointees of President Truman.

House committee members said the reduction was a necessary con-

dition if the House were to be induced to repeal the Thomas rider.

Committee's Bill
The committee's bill would allow Federal employees to use their 1952 annual leave by January 2, 1954. This is a six-months' extension of the terms of the Thomas leave law, which requires employees to use their 1952 leave by June 30, 1953.

After January 2, 1954, under the terms of the House committee's bill, employees could use their annual leave each year unrestricted, subject only to the leave accumulation maximum.

The committee's 26-day leave maximum total would not affect present employees who have accumulated more than that amount. They could still carry this

leave from year to year. It would involve only those employees who now have less than 26 days of accumulated leave. They could not complete more than 26-days total in the future.

Holiday Break

The committee's bill also would make it easier for employees to use their excess leave each year during the Christmas and New Year's holiday season. Under the present law, employees must use their excess annual leave by the final day of the last pay period of the year.

Correction Group to See Donovan

ALBANY, June 1 — The semi-annual meeting of the Civil Service Conference of the State Correction Department will be held Tuesday and Wednesday, June 2 and 3, in the Wellington Hotel, Albany. Representatives of departmental employees will meet with Correction Commissioner Edward J. Donovan to discuss employee problems.

Officers of the Conference are John Mullaney of Auburn Prison, president; Cornelius Rush of Green Haven Prison, vice president; Rose Ann McCarthey, Albion State Training School, secretary-treasurer.

The organization is unique in civil service. Representatives of Correction employees meet regularly with administrative officials at the highest level to discuss working conditions, vacation and sick leave policy and similar matters.

Stop Headlight Glare! Actually See After Dark!

DO YOU DRIVE YOUR CAR AFTER DARK? Do you know that 4 out of 5 fatal smash-ups are caused at night to SAFE, careful drivers who are trapped, blinded and killed by the headlights of another man's car?

Here is the first full story of how you can completely avoid that blinding headlight glare... avoid those night driving accidents... how you can actually drive at night with almost full daylight safety!

How many times this month have you been completely blinded by the headlights of another car? How many times have you been blinded when you were driving 30-40-50-miles an hour when you were in the middle of a dangerous intersection... when you were turning a sharp curve or corner? Yes, how many times this month have you been forced to trust your life—and the lives of your family—to a driver who doesn't even have the sense to dim his headlights?

These Accidents Can Be Avoided

Do you know that now you can avoid all these risks? Do you know that during the last five years over 70,000 drivers have found a new way to protect themselves against this headlight blindness? That these drivers have tested and proved an optical instrument that actually makes the brightest headlights as easy to take as dims! Here is that amazing story:

Five years ago, three of the country's top optical experts decided to tackle this problem of headlight glare. They immediately discovered that all of the common remedies were either useless or actually dangerous. These experts discovered that there was only one sure way to protect yourself against this blinding night glare—a piece of optically colored glass worn by you, yourself—that filters out the glare from these headlights in exactly the same way that a pair of sunglasses filters out the glare of the sun.

These experts discovered that scientists had developed such a glass—that many of the leading automobile manufacturers, such as Buick, Cadillac, Oldsmobile, Lincoln and Chrysler—were equipping their special deluxe models with special glare-resistant windshields. However, the cost of this glass on these special cars was necessarily \$20-\$50.

To avoid these costs these experts took this special glare-resistant glass and built it into a pair of Night Driving Glasses that could be worn by any driver. Since they eliminated all rays of glare, the experts called them RAYEX Night Driving Glasses. Here are some of the amazing results they discovered when they tested them.

This Is How Night Driving Should Be

1. WITH THESE RAYEX Night Driving GLASSES, you can look directly into the brightest headlights. You will see the headlights as pale amber discs—but you will

not see the glare. You could pass an entire line of fifty cars, and not even squint.

2. WITH THESE RAYEX Night Driving GLASSES your eyes will be protected against any intrusion of glare. They will not have to adjust themselves to constant flashes of light. You will actually be able to see better, clearer and farther with them on than you could see without them. You will see dark objects more quickly. You will react more quickly to the pedestrian who darts out of a side street to the dark bumps in the road that ruin your tires.

3. SINCE THESE RAYEX Night Driving GLASSES PROTECT YOUR EYES AGAINST STRAIN, you will not suffer from dangerous night driving headaches. You will be able to drive as much as 400 miles in a single night without feeling the slightest strain. You will not be tired after short rides. And, above all, tired, strained eyes will not cause you to fall asleep at the wheel. You may make even the longest trips with absolute confidence. ORDER TODAY! Use coupon below!

Proven By Over 70,000 Drivers

Before these glasses were advertised in this paper, they were distributed to over 70,000 drivers... volunteers who tested them under every possible sort of night driving condition. Here are the actual reactions of these drivers—their own, unsolicited experiences with these glasses. Perhaps they will help solve your night driving problems.

DO YOU EVER DRIVE ON THE OPEN HIGHWAY? "On my trip to Denver last week, I must have passed at least 50 cars. Not one dimmed down his lights. If I hadn't had your glasses, I would have had to pull over to the shoulder, and wait till they passed by. As it was, I didn't even squint." —Mr. F. M. F., Bremerton, Wash.

DO CHILDREN RIDE IN YOUR CAR? "I drive my little girl home from a country school during the twilight hours. I was always afraid—either of the blinding lights from the other cars at that hour—or of hitting one of the other little girls in the streets. Now, thank God, I know I can see them. I wouldn't take \$100 for these glasses." —Mrs. L. G. Forrest Hills, New York.

DO YOU GET NIGHT-DRIVING SLEEPINESS? "Drove 112 miles after midnight without the slightest strain. Never felt so relaxed and confident in my life. Thanks." —Mr. D. F., San Antonio, Texas.

DO YOU HAVE WEAK EYES? "My husband has a cataract on his left eye and could never enjoy driving before

PROVE IT YOURSELF! MAKE THIS CONVINCING "LIGHT-BULB" TEST

When your RAYEX NIGHT GLASSES arrive, put them on. Look directly into the strongest electric light in your home. You see the light... the glare is gone! Then test them again in your car. Look at street lights, headlights, under every sort of difficult night driving condition. If they do not do

GONE FOREVER! Blinding Headlight Glare—the number one cause of traffic accidents in New York today! Read this amazing story of how science conquered this "one unpreventable" accident!

He thinks your glasses are wonderful—says they're also good for protection against the sun. —Mrs. L. R. Elizabeth, North Dakota. (NOTE: We do not recommend the use of these glasses as sun glasses. They are as different as night and day. They have only one purpose—to protect you after dark.)

And here is the one fact that all of these drivers agreed upon... this is the way they would affect your night driving.

The very first moment you put on RAYEX Night Driving Glasses you enter into an entirely new world of night driving. There is no more blinding glare. Instead, the headlights of every car... every street light... every window you pass, are a soft amber yellow.

You'll notice immediately, that you are more relaxed... more confident about your driving, because you can actually see better and farther. Test these glasses against the first two or three cars you pass. Prove to yourself that you can see their lights... but there is no blinding glare. After that you will be able to totally disregard the headlights of any car coming toward you on the highway. You will be able to sit back and relax—enjoy your night driving as much as you do in the day.

Thousands Face Loss Of Cash In Snarl Over U. S. Promotions

WASHINGTON, June 1 — U. S. employees who were promoted two steps, under a liberal construction of a law that limited promotions to one step, may have to give back to the Government the additional money they received because of the second-step promotion.

Under the Whitten Amendment, promotions were limited to one grade at a time, with a year's wait between promotions. A year ago the U. S. Civil Service Commission, considering that its action was consistent with the law, authorized two-grade promotions, but sus-

pending the increased pay of the second higher grade until after the year in the lower promotion grade had been served. Informal approval of the General Accounting Office was obtained then.

Many such so-called double promotions took place. In the Internal Revenue Bureau alone there were 200; all told, thousands.

Now, under a new regime, the General Accounting Office takes a contrary view. It states that the second promotions were "not only improper but illegal." Senator John Williams (R., Del.) reports that the GAO is considering a demand for return of the "excess" salary payments.

Questionnaire Going to 80,000

JOB QUESTIONS

Questionnaires are to be circulated among the 80,000 employees whose jobs are being studied by the new Classification Bureau of the NYC Civil Service Commission. Mayor Vincent R. Impellitteri told a group of department heads and other officials at City Hall last week. The meeting was held so that departments will fall in line with the project to create a scientific classification.

Heading the bureau is Sidney M. Stern, one of the Commission's top examiners.

The Mayor asked that employees fill out the questionnaires promptly and accurately, as the returns would be used as an informational basis for the survey.

He added that, even though the \$5,000,000 for salary increases arising from reclassification had been stricken from the budget, it would

be possible to grant individual increases.

Step by Step

Budget Director Abraham D. Beame explained that transfers of appropriations, and non-filling of vacancies, could produce sufficient money. He also promised to back up the Commission in its pleas to the Board of Estimate for whatever funds are needed to effectuate the reclassification, which the Mayor said would be made service by service. That would prevent the postponement of any benefits until the whole reclassification is completed.

The new bureau has started its efforts and expects to be running in high gear within three weeks.

President Paul P. Brennan of the Civil Service Commission presided over the meeting.

Moore Named To HIP Board

Frank C. Moore, retiring Lieutenant Governor, was elected to the board of directors of the Health Insurance Plan of Greater New York, at the annual meeting at 7 East 12th Street. David M. Heyman, chairman of the board, made the announcement.

At the same time three physicians were elected to the board. They are: Dr. E. Dwight Barnett, director, Institute of Administrative Medicine, Columbia University; Dr. Duncan W. Clark, professor of environmental medicine and community health, State University of New York College of Medicine, Brooklyn, and Dr. T. Duckett Jones, vice president of the American Heart Association.

Also re-elected were Mayor Vincent R. Impellitteri, Benjamin Buttenwieser, of Kuhn, Loeb & Company; Dr. Dean A. Clark, general director, Massachusetts General Hospital; George G. Kirstein, executive vice president of HIP; Edward A. Norman, president, Aaron E. Norman, Fund; Dr. Willard C. Rappleye, dean, College of Physicians and Surgeons, president in charge of Medical Affairs, Columbia University; William Reid, president, Hudson & Manhattan R. R. Company; Howard F. Vultee, vice president, Marine Midland Trust Company of New York.

STENOGRAPHY TYPEWRITING-BOOKKEEPING Special 4 Months Course Day or Eve

U. S. Jobs Are Plentiful For Typists and Stenos

A U. S. exam for stenographer and typist jobs is now open. Defense agencies in the metropolitan area are in urgent need of such employees.

Any person over 17 may apply. Applicants will be accepted from blind persons who can hear the spoken voice, for positions involving machine transcribing duties.

No specific experience or education is required.

The written exam will include a general test, and a test of typing and shorthand ability. Stenographers are expected to take dictation at 80 words a minute.

Starting salary for stenographers is \$2,750 a year; typists, \$2,500. The work week is 40 hours. Some appointments may be made at higher salaries, up to \$3,175, for stenographers, and \$2,950 for typists.

Apply at any post office in the metropolitan area, except the New York, N. Y. post office or apply to the Second Regional Office, U. S. Civil Service Commission, 641 Washington Street, New York 14, N. Y.

The exam remains open until the needs of the service are met.

Registers of eligibles will be merged with those established under a previous exam. It will not be necessary to file again, if one has already received an eligible rating.

If one is enrolled as a student, he should indicate on Application Form 5000-AB under the heading Application Record Card, the date he expects to be graduated.

The written exam will deal with copying from plain copy (typewriting), general abilities tests, stenography (required of stenographers only).

Same for Both

Copying from plain copy, and the general abilities test, are the same for typists and stenographers. In the stenography test, the competitor will answer questions based on his notes; he will not make any typewritten transcript.

Typist competitors who qualify in plain copy will be rated on the general test on a scale of 100. Stenographic competitors who qualify on plain copy and stenography will be rated on the general test on a scale of 100.

Must Supply Typewriter

Applicants must furnish typewriters for use in the room. Any style of typewriters, including electric, may be used. Upon receipt of admission card to the exam, persons who plan to bring electric machines for use in the examination should contact the examiner in advance. Re-examination will not be granted because of a faulty typewriter.

Any system of making notes, including the use of shorthand-writing machines, is acceptable, provided that the notes are given to the examiner. The use of typewriters for making notes is not permitted because the noise of the machine would interfere with the dictation.

Applicants totally blind or who have vision so seriously impaired

that they cannot read typewritten material at the usual working distance for performing typing duties, should request, at the time they send in their application card, that a reader be supplied by the Commission to read the questions to them and to record the answers in the general abilities test. Applicants will not be permitted to provide their own readers. Blind or semi-blind applicants will be provided with dictating machine recordings in place of plain copy in the typing test. Blind applicants may be required to furnish their own transcribing machines and typewriters. The model of the transcribing machine they plan to use must be stated on the application card so that the proper kinds of cylinders, belts or disks may be provided for them.

Exam Centers

Applicants will be notified of the time and place to report for the written exam, at Brooklyn, Flushing, Jamaica, New York and Yonkers.

Applicants must have reached their seventeenth birthday on the date of filing application. There is no maximum age limit.

Applicants must be physically able to perform the duties of the position. Good distant vision in one eye, and ability to read without strain printed material the size of typewritten characters, with or without glasses, are required for most positions. However, some positions involving machine transcribing duties may be suitable for the blind.

Data on Applications by Mail

Both the U. S. and the State issue application blanks and receive filled-out forms by mail. In applying by mail for U. S. jobs do not enclose return postage. If applying for State jobs, enclose 6-cent stamped, self-addressed 9-inch or larger envelope. The State accepts postmarks as of the closing date. The U. S. does not, but requires that the mail be in its office by 5 p.m. of the closing date. Because of curtailed collections, NYC residents should actually do their mailing no later than 6:30 p.m. to obtain a postmark of that date.

Washroom Aid, Ex-Communist, No Security Menace

Holding that a person who has a City job as a washroom attendant does not hold a position that could effect national security, Justice Aron Steuer, in New York County Supreme Court, last week ordered Bonaventura Pinggera, 75, reinstated to the job from which the Municipal Civil Service Commission disqualified him because he was once a member of the Communist Party. The court held that the evidence indicated that the employee was expelled from the party in 1939 for opposing one of its major policies.

"It is a bit difficult to visualize," said the court, "how a washroom attendant in his official capacity can give aid to his country's enemies."

In regard to the theory that the employee might have "gone underground" to obtain his position, the court said the idea was fantastic.

But the Court did compliment the Commission on its vigilance in excluding Communists, former Communists and fellow-travelers from City jobs in which they might lend aid to undermining our form of government.

HIP SEE CITY PAYING ITS SHARE OF HIGHER RATE

The Health Insurance plan stated that it expects that the increased rates, as far as NYC employees are concerned, will be shared by the City on the existing parity basis. The new rates are to go into effect on July 1. City officials are studying the rates.

The HIP claims that it has made out a case in favor of the increase, and that the main source of opposition comes from City employees who resent the refusal of the City to pay its share. The basis now is 50-50, and some City employee groups, agreeing that the raise is inevitable, are urging the City accept its responsibility on this score.

HOUSING AUTHORITY SCHOLARSHIP AWARDED

The first two scholarships for children of NYC Housing Authority employees were awarded to Arnold Reich of Manhattan, and Joseph Rocchio, Jr., of the Bronx. The awards are worth \$350 each for four years.

Arnold Reich is the son of Oscar Reich, a civil engineer assigned to the Authority's Construction Division. Joseph Rocchio, Jr.'s father is an assistant resident buildings superintendent.

NYC Eligibles in Reach of Appointment

Eligibles on the following NYC eligible lists were certified by the Municipal Civil Service Commission to various NYC departments and agencies for possible appointment.

More names are sent to City departments than there are vacancies to fill, so all certified may not be called to job interviews.

The number of the last eligible on the list who was certified is given.

"V" means non-disabled veteran "D" disabled veteran. "Y" means that investigation of the eligible has not been completed, "M" that certification is made subject to medical examination and "VC" subject to confirmation of veteran preference claims.
