SUBJECT: - Campus Progress Report No. 86

This past week we received and have erected the bronze name plaques on all of the buildings on the new campus, except for the academic podium buildings. They came out exactly as anticipated, and the comments I have received thus far indicate absolute approval. Each Hall in each of the Dutch and Colonial quadrangles has been named; the Medical Center has been named, as well as the various buildings in the Service Group.

Name plaques have been received and are on hand for the State and Indian Quadrangles, so that we shall not have to wait so long in labeling these buildings, after we take them over.

Still needed are proper names for the buildings on the academic podium. I hope that you will be able to firm this list up as soon as possible, as our time is running short, bronze becomes more scarce daily, by virtue of the Vietnam war demand, and we shall soon have to act on this list or be disappointed by another long delay.

Anything you could do to finalize completion of this list of names would be appreciated.
