Three Chapters To Hold Meeting Explaining How State Salary Plan Works

ALBANY, May 3 — The Civil Service Employees Association chapters at Pilgrim State Hospital, Kings Park State Hospital and Brooklyn State Hospital have arranged special meetings for the purpose of reviewing and explaining the new State salary plan.

Perry Bendicksen, President of the Association's Pilgrim Chapter, will preside at a special meeting on May 4th at 8 P.M. in the Auditorium, Pilgrim State Hospital. Henry Galpin, Research Analyst of the Association, Albany, who participated with Association representatives in negotiating the new plan, will give a detailed explanation of the salary plan and the steps now in progress by the State for its full application. Charles R. Culyer, CSEA field representative, will also speak.

Angelo Coccaro, President of the Kings Park State Hospital Chapter, will preside at a similar special meeting on May 5th, 8 P.M. at the Employees Lounge, Community Store, Kings Park State Hospital. Mr. Galpin and Mr. Culyer will address the meeting.

All state employees are invited to attend. Opportunity for questions will be open to all.

A special meeting on the salary plan will also be held at Brooklyn State Hospital, May 5th, at 4:30 P.M. in the Auditorium, presided over by Emil Impressa, President of the Brooklyn State Hospital

Chapter. The speakers will include Mr. Galpin and Mr. Culyer.

Tremendous Interest

Tremendous interest exists among State workers in the new salary plan which provides complete conversion from a present fifty grade to a thirty eight grade plan for the 80,000 employees in over 3600 different titles. Both classification and allocation are involved, with final decisions by the State Classification and Compensation Division and the Director of the Budget now being considered through the period to October 1st and retroactive to April 1st.

State Salaries Known in August

ALBANY, May 3 — The big State question, "What will my salary be?" is going to be answered early in August for those who aren't listed now.

The staff of the State Classification and Compensation Board is working at top speed to finish the job of "slotting" the jobs and their salaries—that is, making the reallocations—by August 1.

VICKERS PROMOTED IN CONSERVATION

ALBANY, May 3 — Robert J. Vickers is the new assistant superintendent of law enforcement for the State Conservation Department. His promotion from district game protector was announced by Commissioner Perry B. Duryea. A veteran of World War I, he has served the department since 1925 in Albany, Rochester and Glens Falls areas. The job pays \$4,984 to \$6,088 a year.

Results Of State Clerk Test Due Late Summer

ALBANY, May 3—Results of New York State's big clerical examination series, held March 27, will be announced in late August or September, a spokesman for the State Civil Service Commission has told THE LEADER.

Work on the series is well underway to determine successful candidates for some 2,000 job openings as clerks, account clerks, file clerks and statistics clerks. The examination results also will be used to fill vacancies for mail and supply clerks in state agencies.

8,783 Took Exam

A Civil Service Department tally shows that 8,783 candidates actually took one or more examinations. Before the examination series was held, the department said 10,427 individuals had paid 15,427 separate examination fees. The report shows that 1,644 candidates failed to show up for the tests, although paying entrance fees.

Department officials apparently had expected a larger turnout of candidates. A total of 25,000 examination booklets was ordered printed.

New Fashion Trend For State Aides

ALBANY, May 3 — Capitol observers are wondering if a new fashion trend is being set by the Jones Beach and Belmont Lake state parks.

Here's a description of the summer uniform that's been ordered for employees.

An officer's Navy blue tropical worsted coat (46 at a cost of \$25.25 each); officers' white duck trousers (60 pairs at \$5.39 per pair); white poplin shirts (246 at \$2.95 each) and numerous yachting caps, some with gold chin straps for officers, and others described as Foreman's Yacht caps.

Also on order are 53 parkas for lifeguards, some with a "Sea Horse" ornamentation and some without.

ALBANY, May 3 — The gigantic task of converting the individual salaries of nearly 80,000 State employees to the new 38-grade pay scale got under way last week.

The first reallocations from the old to the new salary plan, covering about 30 per cent of the State service, have already been approved. All remaining reallocations will be announced early in August.

Higher pay rates have been approved for attendant and staff attendant in mental hospitals, clerk, file clerk, typist and stenographer. There are close to 26,000 positions in these titles, about 24,000 of which are currently filled.

Comptroller J. Raymond McGovern and Oscar M. Taylor, President of the State Civil Service Commission, have thrown the resources of their departments into the salary conversion project to insure completion by October 1, when the new rates will go into effect retroactive to April 1.

Most Complex Ever

Both officials said they believed it to be the most complex and difficult salary adjustment program ever undertaken anywhere.

Special headquarters in the State Office Building here have been turned over to teams of employees of the Department of Audit and Control and the Department of Civil Service who will work together all summer on fixing individual salaries according to the new rates.

They will use conversion charts covering 238 closely-figured pages which detail more than 10,000 different possible adjustments. There are still other exceptions to be

calculated individually. The charts were compiled by the Civil Service Department's Division of Personnel Research.

Meanwhile the staff headed by J. Earl Kelly, Director of Classification and Compensation in the Civil Service Department, is hard at work on the job of placing each of the 2,700 titles in State service in its proper niche in the new pay scale. His determinations are cleared through Governor Dewey's Salary Advisory Committee before they are referred to Budget Director T. Norman Hurd for approval.

Material gathered by the Personnel Research Division is still coming in for use in this part of work. Research will continue through the early summer.

Intensive training sessions for payroll auditors in Audit and Control and payroll examiners in Civil Service have been conducted by John Mooney, attorney in the Civil Service Department. This training was necessary because of the intricacies of the new statute.

Acting as liaison officer and in charge, for the Civil Service Department, of the work of computing the new salaries of individual employees is Joseph P. Tammany, Principal Examiner of State Payrolls.

Other training classes will be held late in May in Albany, New York and Syracuse for finance officers, personnel officers and account clerks concerned with the actual preparation of payrolls. A training manual is now in preparation which will explain operation of the new plan.

The Salary Changes

The salary changes approved last week are as follows:

Title	Old Salary	New Salary
Attendant	\$2180-2985	\$2450-3190
Staff Attendant	2451-3252	2720-3520
Clerk	2180-2985	2320-3040
File Clerk	2180-2985	2320-3040
Typist	2180-2985	2320-3040
Stenographer	2180-2985	2450-3190

The salaries given for attendant and staff attendant are for a 40-hour week. These employees work 48 hours and earn overtime pay for the additional eight hours.

According to the new salary plan, employees earn an extra increment after five years of satisfactory service at the top of their grade. The extra increment step does not appear in the table above.

POWERS LAUDS AIDES FOR MARCH OF DIMES DRIVE

ALBANY, May 3—John F. Powers, CSEA president, has written to organization representatives in the Albany area thanking them for their efforts in the March of Dimes campaign, most successful ever conducted.

Looking Inside

By H. J. BERNARD

THE APPEAL RIGHTS of non-veterans in Federal service being negligible, no matter how much an effort is made to disguise them as reality, the House Post Office and Civil Service subcommittee is commendably pressing for the same appeals rights for non-veterans as veterans possess.

The appeals apply in disciplinary cases. In various jurisdictions discrimination is practiced against non-veterans, non-exempt firemen, non-classified employees, and the like. The "nons" may be entitled only to written charges and an opportunity to reply, but no appeal. In Federal service, and elsewhere, if a "non" is fired for clearly identified reasons he will stay fired, without redress, though the discharge may have been unwarranted. The idea it is difficult to get rid of him is an agency self-delusion.

Veterans in Federal service are entitled to appeal to the Civil Service Commission if the penalty is dismissal, or suspension for 30 days or more, or reduction in rank or pay. Non-veterans are not entitled to any such appeal. If the Regional Office of the Commission decides adversely to the veteran he may take his case to the Appeals Board in Washington, D. C. The number of reversals of departmental disciplinary action has been large in the past, at the first appeal level, has dropped considerably lately. Reversals by the Appeals Board are rarer. But in any case a really culpable veteran's penalty sticks.

Though the relative number of non-veterans in Federal employ is gradually diminishing, the justice of the subcommittee's stand is obvious. Recent U. S. hiring shows 67 per cent are veterans. Soon veterans will constitute two-thirds of all Federal employees.

The subcommittee's interest in uniformity of safeguard, with no reduction of veterans' appeal rights, is forthright and courageous. Congress should lose no time in putting the non-veteran on a par with the veteran. Appeal right is one area in which no veteran preference is justified. Even veterans do not want any advantage over non-veterans in this respect.

ANOTHER PROJECT that deserves support is that of Senator Leverett Saltonstall of Massachusetts to provide a full-scale U. S. employee safety program. Private industry has done much to protect employees from death or injury. Government has lagged. New York State and NYC have safety programs of considerable scope and value. The U. S. has much room for improvement of its own meagre efforts.

GOVERNMENT is up against it in the college-graduate recruitment field, principally because of higher pay offered by private industry. However, it can't be said the Federal government, through the College Federal Agency, isn't trying hard to get scientists, physicists, chemists, and electronic, electrical and mechanical engineers, through solicitations at campuses.

Publicity on recent reductions in force by U. S. agencies, and some rough deals workers got from investigating committees, do not ease the College Federal Agency's task. Actually, there is a core of employment security in the Federal government for any hard-to-fill jobs. When the U. S. goes after the dean's list it is not to offer a candidate a temporary job. The specially trained have at least as much security in Federal employment as in private industry, probably more. The U. S. government never goes out of business.

MANY OBVIOUS shortcomings exist in government. Since most rectification costs money, the cure is postponed from administration to administration. So in NYC there has not been no real annual increment law in a decade. The existing law, based on salaries of the long ago, is inapplicable, hence increments are a matter of indulgence. They should be firmly statutory, as they are in the Federal and State governments.

The NYC reclassification project is moving now, and when the reclassification is finally started, a realistic increment plan is to be included. It should cover all grades, which the informal increment policy does not.

THE U. S. Civil Service Commission proposes that the employees in the Crafts, Protective and Custodial Service, numbering about 70,000, be placed under the pay jurisdiction of local Wage Boards. This would be the equivalent, say, of taking all NYC laborers, mechanics and trades workers out of the graded service, whereby they would be paid the rates prevailing in local private industry.

As far as it can safely do so, NYC puts such positions in the graded service. The courts have held that employees whose positions are graded are not subject to the State Labor Law regarding prevailing rates of pay. In the NYC Transit Authority alone thousands of such jobs are graded. The shift from grading would be costly to the City, the only reason why it is not done.

The U. S. Civil Service Commission, noting CPC employees receive about \$500 a year less than employees doing the same work in the same or similar title in private industry, makes its recommendations on the merits. The estimated annual cost of the switch is about \$35,000,000.

Prison Guard Test Closes On May 14

No experience is required for jobs with the State as prison guard at \$3,411 to \$4,212. Applications will be received until May 14, and the written test will be held on June 19.

The work-week is 48 hours, but for the extra day overtime rates are paid. The overtime averages about 20 percent more than the salaries stated above, which are the pay at beginning and after five mandatory annual increments.

The jobs are in the Department of Correction at Attica Prison, Wyoming County; Auburn Prison, Cayuga County; Clinton Prison at Dannemora, Clinton County; Great Meadow Prison at Comstock, Washington County; Green Haven Prison at Stormville, Dutchess County; Sing Sing Prison at Ossining, Westchester County; Wallkill Prison, Ulster County; Elmira Reformatory, Chemung County; Reception Center at Elmira, Chemung County; Institution for Male Defective Delinquents at Napanoch, Ulster County; New York State Vocational Institution at West Coxsackie, Greene County; and Woodbourne Correctional Institution, Sullivan County. It is expected most appointments will be made to Green Haven Prison. Later employment closer to home may depend on transfer from Green Haven.

Age and Height

Age limits are 21 to 30. Minimum height is 5 feet 9 inches in bare feet, minimum weight, 155 pounds, stripped; sight without glasses, at least 20/30 in "either eye."

Candidates must be graduates of a standard senior high school. A high school equivalency diploma will be accepted in place of high school graduation. A candidate offering an equivalency diploma in lieu of high school graduation should specify its number and year of issue. Information on equivalency diplomas may be obtained by writing to the State Education Department, Albany.

Conviction of a felony will bar, and conviction of a misdemeanor or other violation of law, or a history of mental illness or nervous disorder, may bar examination and appointment.

Shorthand Reporter Test to Be Held July 1; Apply Until June 1

The annual examination for certified shorthand reporter will be held at 1 P. M. on Thursday, July 1, in Albany. Applications must be filed with the State Education Department, Albany, N. Y., not later than June 1.

An applicant must be more than 21, a citizen of the U. S.; a resident of the State; have a senior high school diploma or equivalent; technical training in verbatim reporting of matters involving law, medicine, and science, and at least five years' experience in stenography.

Candidates will be tested in reporting court proceedings at speeds up to 200 words a minute, and questioned on elementary law and legal procedure. The pass mark is 85 per cent.

Library Jobs

Library assistant jobs in and near Washington, D. C. are offered by the U. S. at \$2,950 to \$3,410 to start. The exam remains open until further notice.

The experience requirements in months for the three grades:

Grade	General	Spec.	Total
\$2,950	9	3	12
\$3,175	12	12	24
\$3,410	12	24	36

Any type of general clerical or office experience is acceptable for general experience. Specialized experience refers to experience in a library. Undergraduate study may be substituted for general experience, education time counting as three-quarters of experience. Library science study above the high school level, at a residence school, may be substituted for specialized experience, three semester hours for three months' experience.

Minimum age is 18. There is no maximum.

Apply to Director, U. S. Civil Service Commission, 641 Washington Street, New York 14, N. Y., and mention title and exam number, 404.

PLEADS GUILTY OF ATTEMPT TO SELL FEDERAL JOBS
WASHINGTON, May 4 — The Republican chairman of a township in Minnesota pleaded guilty to trying to sell Federal jobs, while a Republican precinct chairman in another Minnesota location was similarly accused, but is yet to answer in court, Attorney General Herbert Brownell Jr. announced. Mr. Brownell said the Eisenhower administration will not tolerate any form of job selling.

Salary Question Box

As a service to its readers, The Civil Service LEADER will run a question box where questions concerning the new State salary plan can be asked and will be answered. Your questions are solicited. They will be referred to the staff of The Civil Service Employees Association and to State officials. Questions of general interest will be answered here, and those that are applicable to individuals only will insofar as possible, receive a direct mail reply.

QUESTION: I just received my last increment April 1st this year and my title is Attendant. Will I be entitled to the full benefits of the salary increase this year? Will the new grade bring us to an equal salary with those who are getting the 7 1/2% or will they just get more?

ANSWER: It has just been announced that the position of Attendant has been allocated to Grade 4 of the new salary plan with a starting salary of \$4,450 and a maximum of \$3,190. The maximum of Grade 4 including the extra step is \$3,338. Since you have just reached your maximum you will not be eligible for this extra step until you have been at your maximum for five years with a satisfactory performance rating. The increment of the new Grade 4 is \$148 and according to the law you are eligible to receive, this year, a sum not to exceed two new increments or a total of \$296.00 over what your gross was on March 31, 1954. You have already received through your regular April 1st increment \$160.00 of this. Since your salary prior to April 1, 1954 was \$2,825 and you are eligible to receive a total of \$296.00 this fiscal year, the most that you can receive this year will be an additional \$136 or \$3,121. Next April you will receive the additional \$69.00 to bring you to the maximum of Grade 4 — \$3,190.

The 7 1/2% extra pay you mention was a pay differential granted for extra hazardous work. According to the new law no State employees will be given pay adjustments above and beyond the maximum of the new grade to which his job is allocated unless he is entitled to the additional increment.

QUESTION: I entered State service on September 15, 1950. My grade was G-27. On July, 1951 my job was reallocated to Grade 28 but I did not receive a pay raise. My question is — under the new State salary schedule what grade will my job be in and what will my basic salary be?

ANSWER: At the present time the grades of only a few titles in State service are known. It is expected that final information will be available about August 1. You will enter the new salary plan at the same increment step in the new grade to which this position is allocated, as you are now receiving. Under the new plan all emergency compensation has been merged into basic pay scales.

The first part of your question is a general salary question rather than one relating to the installation of the new plan. You were eligible for an increment on April 1, 1951 and regular increments thereafter until you reach the maximum of your new grade. The benefit you received by reason of the reallocation of your position upward of one grade was an increase in the maximum of \$210.00 base pay.

QUESTION: I would like to know whether the State Police are included in the recent pay raise? Would the extra step based on length of service be applicable to us?

ANSWER: Chapter 308 of the Laws of 1954 authorizes the Director of the Budget, in his discretion to adjust salaries of certain State employees on Oct. 1, 1954 with the increase retroactive to April 1, 1954. This law would authorize, but not require, such upward adjustment for the State Police.

Since State Police have their own salary scales that are separate from the regular "Classified" Service the extra step increment established by the salary bill applicable to the "Classified" employees does not apply to State Police.

Metropolitan Conference Reports Bowling Success

The Metropolitan New York Bowling League, consisting of a New York City Division and a Long Island Division, is complete for the year 1953-1954.

The Central Islip State Hospital Chapter was victorious in the Long Island Division and the State Insurance Fund Chapter, after a photo finish with the New York City Chapter and the State Psychiatric Institute and Hospital Chapter, won the New York City title.

There will be a home and home series to determine the Metropolitan Conference championship on May 10th and 17th.

All chapters who are interested in bowling next year are requested to appoint a bowling chairman in their respective chapters in order to organize a bowling team. Bowling will be bigger and better next year.

This Conference was the first to start such a league. The publicity received by the chapters and the new members recruited will more than compensate for the efforts put forth.

Chapters should inform Al

The Conference must know just how many chapters are going to participate in next year's event. The contract for the bowling alleys will have to be signed very shortly. The trophies for this year will be presented at the annual luncheon and installation of officers to be held at Jones Beach in June.

William S. Skuse, retiring from the Division of Vocational Rehabilitation, State Educating Department, is presented with a gift by Melba Binn, on behalf of the staff in the Rochester Office.

Wm. F. Skuse Retires After 37 Years

ROCHESTER, May 3 — Tuesday evening, April 21, co-workers, former associates and friends met at The Colony Restaurant for a testimonial dinner to William F. Skuse, who is retiring from the N.Y.S. Education Department, Division of Vocational Rehabilitation on May 1.

Many letters and telegrams were received. Governor Thomas E. Dewey's message applauded his "distinguished service" and told him, "on behalf of the people of New York State I thank you heartily." Education Commissioner Lewis A. Wilson lauded Mr. Skuse's contribution to the handicapped. Karl G. Kaffenberger, Director of the Division, commented on his record and how the division would lose by his retirement.

Representing division offices were, John Cummings, Albany; Angelo J. Cardarelli, Elmira; Edward Simon and Edward Hartwig, Buffalo; Gerald Moyer and Walter Blankenhorn, Utica.

On behalf of the staff of the Rochester Office Mrs. Melba Binn presented Mr. Skuse with three gifts for his auto, among them being "a jack to give him a lift with his retirement allowance."

Bill, as he has been known to people in his thirty-seven years of State service, started his civil service career with the Labor Department, later transferring to the Education Department, where he has spent the last 28 years of his service. He has been a pioneer in the field of Workmen's Compensation and Vocational Rehabilitation for the physically handicapped.

Bill will be glad to correspond with his friends and they are always welcome at his home, 121 Woodbine Avenue, Rochester.

Promotion For Employment Interviewers

Employment interviewers, State Division of Employment, with a year's service as permanent competitive employees in the title, have until June 4 to apply in the exam for promotion to senior employment interviewer, \$4,512 to \$5,339. That's the present pay, but is subject to the State pay raise formula.

The application fee is \$3. The written test, to be held Saturday, July 10, will have a weight of 6; training and experience, 4. In addition, a service rating of Good will be rewarded with 2 points extra; Superior, 4; Outstanding, 6. Training and experience will not be rated if the number of eligibles does not exceed the number of existing vacancies.

First promotions will go to those within a promotion area who outrank others in the same promotion area. After that promotions will be made from the general list.

TOWN AND COUNTY EMPLOYEE NEWS

Erie County Sets Up New Pay and Classification Plan Affecting 3075 Aides

BUFFALO, May 3 — The Erie County Board of Supervisors last week adopted a modern salary and job classification plan for county employees recommended by Barrington Associates, management consultant firm, following a five-month job-evaluation survey.

The plan will eliminate many salary inequalities through assigning the same salary grade to all occupations of the same job value. A total of 3,075 Erie County employees will receive salary increases at an annual cost of \$1,326,590. These include about 80 per cent of the county's employees who were found to be inadequately paid. No across-the-board increase was recommended at this time.

The Barrington survey stated that average salary levels in many instances in supervisory, technical, professional and administrative jobs lagged while those in unskilled and less responsible positions generally were sufficient. Many salary ranges were found inadequate to provide incentive for improved performance or to recognize length of satisfactory service. Cases of inequalities for job requirements and an absence of a consistent pattern were disclosed.

Barrington Associates has had previous survey reports adopted by Westchester County.

22 Job Groups

All the County positions are divided into "Job Groups." The lowest category—Job Group I—has a salary range of \$2,270 to \$2,910. Included in this group are book finishers, chambermaids, charwomen, clerk-typists, infor-

mation clerks, kitchen helpers, messenger mail clerks, microfilm helpers.

The job groups go up to 22—a salary range of \$17,600 to \$22,800—the pay of the County Comptroller.

Barrington describes the key features of the plan as follows:

"(a) Average salaries in Erie County will be slightly greater than prevailing salaries at all job value levels.

"(b) Salary ranges are provided in each salary grade with sufficient width between minima and maxima to adequately recognize length of service and merit of performance. In many cases, minimum salaries have been decreased while attractive maximum salaries have been provided.

"(c) A consistent pattern of salary ranges and steps has been applied to each salary grade. There is opportunity at all job-value levels to advance approximately 29% above the minimum salary for the job in 5% steps through merit and length of satisfactory service.

"(d) Inequitable salary relationships have been corrected, providing equality of pay for jobs of equal value.

"(e) Salary levels for middle and top management jobs have been established sufficiently high to: (1) Attract and retain highly qualified efficient personnel for the county's most responsible jobs; (2) Permit recognition and compensation of successively more responsible job at all job value levels.

Nassau County Employees Win Victory as Officials Act to Grant Pay Raise

MINEOLA, May 3—Nassau County employees, growing in organized strength and prestige, this week have assurances of pay raises and of possible other advances.

Mrs. Helen Kientsch, president of the Nassau chapter, Civil Service Employees Association, emerged last week after a two-hour conference with County officials with heartening news. Deputy County Executive George A. Frier told her and other representatives of the chapter that a full 7-point program of the group is receiving serious study, and that a number of the points would in all likelihood be acceptable to the administration.

Pay Increases

The important question of pay increases, it appears, will get a "Yes" answer. At this writing it seems probable that an over-all pay rise of about 7 percent would go into effect on July 1, and also that the \$850 emergency bonus would be frozen in as part of base pay. The chapter had argued that

the County could do no less than the State in freezing in the bonuses.

An additional possibility foreseen is a reclassification of all county positions. Such a reclassification, plus a modernized pay plan, would not only be helpful to employees but would make the operations of County government more efficient.

Prevailing Pay Rates

Charles Culyer, field representative of the Civil Service Employees Association, submitted to the County Executive scales of pay to skilled and semi-skilled labor in the County. State law calls for prevailing rates of pay, and efforts will be made to attain this objective.

Mr. Frier also told Mrs. Kientsch that the County would not stand in the way of employees who wish to join the chapter.

A meeting of the chapter held in Hempstead last week indicated rising interest among local employees in building the chapter.

Cortland County

THE CORTLAND Chapter, CSEA, held a tureen dinner, along with a regular business meeting, on Wednesday, April 28, at the County home with 65 members and guests present. Ernest L. Conlon, CSEA field representative, was principal speaker. President Claire Moquin announced there will be a Workshop meeting and dinner May 8 in Binghamton, and all members wishing to go should make reservations by May 1st.

Mr. Francis McAndrews expressed a thank you to the Board for the \$100 pay raise for all custodians and maintenance men.

Onondaga

WILLIAM KOWELL was appointed Deputy Commissioner in charge of the County Division of Veterans Assistance by Commissioner Leon H. Abbott.

Mr. Kowell has been in veterans affairs posts for 23 years during which time he has been a case worker, legal assistant, senior investigator and assistant to the director.

The Onondaga Chapter of the CSEA recommended a resolution that the position of Deputy Commissioner be continued and that Mr. Wm. Kowell be appointed to this vacancy.

Mr. Kowell is a member of the Onondaga County Chapter Civil Service Employees Association and we wish to extend to him our congratulations and best wishes.

Police Medical Rules

The following continues publication of the medical rules in the patrolman (P.D.) exam being given by NYC. The Municipal Civil Service Commission expects to complete this week the rating of the written test, taken by more than 10,000. Failures will be notified. Those who pass will be called to the medical test. Medicals start just before or after Memorial Day. If the list consists of fewer than 5,000 names, physicals will start about July 15 and last until around Labor Day.

76. The candidate who is marked REJECTED OR ELIMINATED is at that point out of the competition and all consideration for the position. As a matter of policy every rejected candidate is entitled to one reexamination during the period prior to the Competitive Physical Examinations. The word "one" is emphasized. Not since 1934, has any candidate received more than one reexamination. If the candidate is a second time rejected or if he is absent from the reexamination afforded to him he is entirely eliminated.

Governed by the provision of this paragraph are such defects as the following: Chronic Facial Acne, Asthma, Total Baldness, Birth Mark, Blood Pressure, Defective Color Vision, Dementia Praecox, Epilepsy, Perforated Ear Drum, Short Height, Defective Hearing, Abnormal Heart Condition, Hernia, if hazardous, Absence of Kidney, Lower Extremities, History of Confinement to Mental Hospital, Narcolepsy, Pin-Point Pupils, Recent Scar or Wound, if hazardous, Spinal Curvature, Plate in Skull, Ulcer or History thereof, Upper Extremities, Defective Vision.

Disabled Veterans Preference
77. The legal privileges and preferences of a recognized disabled veteran concern his standing on an eligible list and have no reference to his medical fitness. He must meet in every respect the same standards as applied to all other competitors and it is when he has done this, his rights accrue.

78. ONE War-Incurred Disability may eliminate a candidate. **ANOTHER War-Incurred Disability** may not. Enuclation of an eye will; a well healed and non-hazardous gun shot wound will not. Deafness in either ear will; amputation of the fifth finger of one hand will not.

79. Some candidates assert their claims for Disabled Veteran Pref-

erence in an examination while others do not. The latter are still obligated to truthfully answer any question concerning their medical history.

The Medical at Civil Service and the Pre-Appointment Medical at Department

80. The former involved the examination of an average of 8,000 candidates in a period of two months; the later an average of less than a 1,000 in a year. Some phases of the standards are inquired into only at the pre-appointment medical, unless they are incidentally brought to the attention of Civil Service prior thereto. Urinalysis, X-raying, blood tests and the examination of blood pressure and ear drum are routinely, though not exclusively, delayed until the pre-appointment medical by the department medical officers.

81. The departmental medical boards conducting pre-appointment medicals follow these standards. Candidates, therefore, are required to maintain standard fitness until actually appointed permanently to the position of Patrolman or Fireman.

82. When a candidate is REJECTED MEDICALLY BY THE DEPARTMENT medical officers and denied appointment on that account, the department is required to notify the Commission of such rejection and the medical specifications thereof. The candidate is summoned as soon as possible for a reexamination by the Commission's medical examiner. The medical officer of the department may be present and may be consulted. Confirmation of the rejection by the Commission's medical examiner rejects or eliminates the candidate. If the medical examiner of the Commission finds the candidate qualified, the department must so regard him and is powerless to medically reject him again.

83. AVOIDANCE OF CONFLICTING DECISIONS. Since it is necessary to have two medical boards examining the same candidates at different times, it is almost inevitable that differences of opinion will exist especially in close cases involving medical discretion. Differences of opinion result favorably for the service when the best supported opinion prevails.

In matters not involving appreciable medical discretion, differences in findings create very difficult situations. There comes a

time in any examining process when finality in decision must be made. It is conceivable that a candidate's height, blood pressure, urine condition, visual acuity, body weight, etc. can vary slightly from time to time. There must be an acceptable time of qualification and this qualification once made must not be disturbed in the absence of manifest error or the practice of deceit.

84. APPEAL FROM REJECTION. Every candidate who is rejected is automatically granted a reexamination at which time his rejection is either confirmed or overruled. Absence from a reexamination has the same effect as confirmation of the original rejection.

85. NO CHANGE IN STANDARDS OR REGULATIONS. When standards or regulations are adopted, published and applied they may not be in any way altered except to apply to future examinations and future eligible lists.

86. HISTORICAL. Medical standards for entry into the Police and Fire Departments have been known to exist since the middle of the 19th Century. Since at least 1916 the standards have been in printed form and widely published. In 1945 and again in 1951 there were conferences held by the Civil Service, Police, and Fire Commissioners and their medical officers at which each item was studied, or newly established, re-armed, amended, deleted. In 1945 a committee of the Academy of Medicine studied our standards and the Civil Service Commission adopted their recommendations in parts and appreciated their approval of other parts. The Commission through the years has examined several hundred thousand applicants and this experience is to be found in the establishment of existing standards. Police Surgeons and Fire Medical Officers know the conditions of policemen and firemen that place them on the sick lists, cause them to seek light-duty assignments, bring about unsatisfactory service or lead to premature retirement. This knowledge gleaned from nearly a century of medical service in these departments is reflected in the standards of today. The aim is to give to the departments young men who are fit at the time of their qualification and who at the same time have no medical condition that may reasonably interrupt 25 years of full duty as Patrolmen or Firemen.

Broadacres

THE LAST meeting of Broadacres chapter, CSEA, was held at the Club Monarch. Celeste Latus, secretary, presided in the absence of the president. A social hour followed the buffet supper and short business meeting. The prize winner was Ann Griffiths.

The Florida Chamber of Commerce is after Dr. Harrison again.

It seems that this last time he just soaked up too much sunshine.

April in Paris may be a song to some people but to Hilda Vogelsang, laboratory technician, it is a reality. Her itinerary includes England, France, Germany, Italy and a visit with her family in Switzerland. (The writers are planning to go too. Anybody know where we can hire a row boat, cheap?)

Gertrude White returned recently from a trip to North Carolina accompanied by her daughter, Teddy. They managed to get to Florida, and stopped in Washington on their return trip. Teddy is now working in the cerebral palsy clinic in Binghamton.

Welcome is extended to the new laboratory technician, taking Hilda's place temporarily, Dolores Servello. It is also good to see that familiar face behind the desk at the switchboard. Welcome back, Marge.

A shower was given on April 21 in honor of Winifred Firching, who is to be married on May 1, by Esther Lenuzza, Gertrude White, Gertrude Jones and Elizabeth Silleck.

Sympathy is extended to Mrs. Felter upon the death of her husband.

Joe Doakes Confronts An 'Either-Or' Problem

JOE DOAKES suffers dim vision in one eye. That fact washes him out of exams for jobs for which he is otherwise qualified. Then he reads an advertisement of a State exam for prison guard. Minimum vision requirement is 20-30 in either eye. "Ah," says Joe, "here's my chance! Either eye means one eye or the other." But he is mistaken. "Either eye" is intended by the State Civil Service Commission to mean "each eye separately". Then why didn't say so? Well, in a way it did, only it used fuzzy language.

There is technical support for the Commission's mode of expression. Also, in the terminology of ocular examinations, "either eye" is a phrase used for distinguishing between sight tests in which both eyes are thus appraised at once, and those in which each eye is tested, one at a time. In the present instance both eyes are involved, but not simultaneously; one at a time, please.

If the candidate consulted Funk & Wagnall's dictionary he would have found the adjective "either" defined as "one or the other of two," and his hopes would be sustained; but the next alternative definition would worry him—"each of two; both; one and the other separately."

The Merriam-Webster dictionary reverses the order, the first, hence supposedly preferred definition, being "each of two; the one and the other; as danger on either side." The secondary meaning is given as "one or the other (of alternatives); as, take either road."

In the examination notice the word "either" is used as an adjective. But when it is used as a pronoun, both dictionaries say it means "one or the other".

Thus even before the examination is held Joe finds himself tested as to his ability to make nice distinctions not only in the meaning of different words, but in different meanings of the same word.

At this rate, Joe would have to be an etymologist before he could become a prison guard. The more of an etymologist he was, the more he would be convinced he could not become a prison guard.

Well, now to make the point of all this: Civil service commissions still haven't gotten away from fuzzy, equivocal, gobbledgook, mumbo-jumbo language. There's been improvement but not enough improvement. A job-application ought to be in clear, simple, precise English.

Unemployment Insurance For Federal Employees

IF THE Federal employees want unemployment insurance, they had better act to get it. The mood of Congress is to pass an unemployment insurance bill—but they won't do it if Federal aides and their organization sit back and just hope. There is a bill in Congress, but it won't pass by itself.

Dismissals in Federal service have been dramatic and sudden; reduction in force has hit thousands. These men and women need unemployment insurance as much as those who are dismissed in private industry.

County Employees Make Progress

COUNTY employees are beginning to make their organized strength and their dignity as public workers felt. In Erie County, a new reclassification—long urged by employees—now goes into effect. In Nassau, where until recently employee representatives had difficulty even seeing public officials, lengthy conferences are taking place—and with good results. In Broome County, progress is made toward Saturday closings. The number of such progress reports increases. And public officials are learning that good relations with their employees is not only good for the employees—but makes for more efficient government.

Message to The Mayor

Following are this week's Messages to the Mayor, from the Civil Service Leader's radio program of that name, and ideas sent directly to The LEADER office by employees. The LEADER welcomes suggestions for the improvement of government service. These will appear regularly in this column and will be brought to the attention of the Mayor and other top public officials. Message to the Mayor appears on the Tex and Jinx-Civil Service Leader radio show, 8:30 to 9:30 A.M., Monday through Friday, station WNBC.

THE WAY to get efficiency in New York is to start with civil service. It has really got to be overhauled, a strong man put at the top, and the reclassification brought to a successful conclusion. If we don't do that, we aren't going to get very far.—Mrs. Ralph B. Morris, president, League of Women Voters.

THE TOUGHEST task facing a Mayor of New York City isn't finances or other municipal problems. His toughest task is meeting the tremendous pressure put upon him—pressures from politicians, pressures from jobholders, pressures from special-interest groups, pressures from those who want the Mayor to appear at social functions, pressures from individuals who want something—and everybody seems to want something from the Mayor.—Henry Epstein, Deputy Mayor, New York City.

THE THEATRE is the one thing that is uniquely New York—the one thing that distinguishes the City. Yet not a single new theatre has been built since 1927. The City should encourage theatres, should subsidize summer productions in the parks, even give tax relief to new theatres. The amount of business which such a program would bring into the City—and this means increased business for hotels, restaurants, and other entertainments as well—would far offset any such subsidy.—Joel Schenker, builder and theatrical producer.

THE FIFTEEN CENT subway fare must never be increased, in fact it ought to be reduced. The subway is vital to the City, and should be considered by the City as a utility essential to its life. In fact, the City now makes up the difference between 15c and the actual 22c a subway ride costs. But this is proper for the City to do.—Harris Klein, member, NYC Transit Authority.

BRING MORE industry to New York? No—the City should rather concentrate on strengthening the essential nature of the City's prosperity, which is as a trading mart. A huge area on the West side could be converted into the finest trading area in the world, and this would put the City's economy on a more secure basis. Industry on the other hand, would only lead to more congestion, would just increase the already difficult problems the City can't solve now.—Jay Marc Schwamm, assistant to the President, American Trust Company.

AVENUES which have been converted from two-way to one-way are fine. But how about blacking out the green signal lights now shining in the wrong direction. Late at night, when fewer cars are rolling, an out-of-town driver may think that these wrong directioned lights are to be obeyed and go down the street to his doom. . . . Also, an adequate supply of one-way arrows should be tacked on to the street signs along these avenues. . . . Another suggestion: let's get rid of abandoned car wrecks which take up parking space. You see them around all over.—Charles J. Theophil, Brooklyn.

For the most interesting ideas about government, hear **MESSAGE TO THE MAYOR**, radio station WNBC, Tex and Jinx show, 8:30 to 9:30 A.M. Monday through Friday.

(Continued from Page 1) of questions hurled in his direction by publishers, business chieftains, and civic leaders among whom have been his toughest critics. No relevant question will be barred. The Mayor is putting himself squarely on the spot; but he is in the unique position of getting his viewpoints and achievements publicized under dramatic circumstances—and he is also in a position to "spot" his questioners, by asking them in effect to put up or shut up—in other words, to tell how they would do it better, how they would raise the money, how they would meet the problems they complain of so loudly. So it won't be a one-way deal—and Wagner, who handles himself well on the platform, may come away with the political coup of the year.

How It Will Work

Here is how the picture will look: There will be three salses. The Mayor and his cohorts will sit at one. At the second, will be assembled outstanding newspaper and magazine publishers, Citizens Union functionaries will sit at the third.

Questions for the Mayor and his commissioners will be channeled through Tex McCrary, the celebrated radio and TV personality, who will act as moderator.

Among the publishers will be Gardner Cowles of Look Magazine; Charles B. McCabe, publisher of the Daily Mirror; Paul Smith, new president of Crowell-Collier Publishing Co.; Elliott Bell, of Business Week; James Linen, of Time Magazine; Jerry Finkelstein, of the Civil Service Leader; Raymond Moley, of Newsweek; Mrs. Ogden Reid, of the Herald-Tribune; Mrs. Dorothy Schiff, of the Post. Radio and TV moguls Frank Stanton (CBS), and Leonard Goldenson (ABC) will also be there.

He's Helping His Critics

The show will be put on by the Citizens Union, which for decades has been cast in the role of critic. All Mayors are wary of the Citizens Union, because of the watchdog role assumed by that organization and also because it swings weight at election time, through the many opinion-molding sources

in the City who take their cue from CU.

But Wagner has gone even farther than cooperating with the CU. He's helping the organization to finance itself—and at a pretty penny too. To attend the May 11 shindig will cost \$100 a plate—or \$1000 for a table of ten. That's going to bring a lot of money into the coffers of the Citizens Union—money which might some day be used to fight Wagner. The Mayor is well aware of this risk, and is willing to take it. In fact, he even permitted the CU to use the prestige of Gracie Mansion, his home, for two meetings at which this big event was planned.

Among those who have already shelled out \$1000 for a table: Eastman, Dillon & Co.; Esso Standard Oil; W. R. Grace & Co.; Hilton Hotels; IBM; J. P. Morgan; New York Central; Standard Oil of New Jersey; U. S. Steel; Webb & Knapp; Welch Grape Juice.

Co-chairmen of the dinner will be Stanley C. Hope, president of Esso; William Zeckendorf, of Webb & Knapp; and Grover Whalen, former City greeter.

McCrary Sparked It

But the real spark plug behind the project is Tex McCrary. He and his associates originally had a bit of difficulty selling the idea to the staid, stuffy CU executive board. Now, of course, these slow-moving gentlemen are delighted; they never had it so good. McCrary conducts three shows, radio and TV, over NBC daily; included among them is Message to the Mayor, which The LEADER sponsors. But McCrary, who began his career as a newspaperman and editorial writer, is strongly interested in civic affairs. Says he: "Never before have the business leaders had such a chance to cross-examine the Mayor and his 'team'; the willingness of the Mayor to submit to candid questioning is proof enough of the potential importance of this plan."

It sure is! It's probably the most effective public relations gimmick since Fiorello LaGuardia read comics on the radio during a newspaper strike.

COMMENT

15-MINUTE EXAM CALLED TOO SHORT TIME

Editor, The LEADER:
The exam notice for U. S. messenger, open to veterans only, stated the test would take a half hour. The time limit for the test I took March 12 was fifteen minutes; I failed, because of lack of time. The candidates have to live up to the announced requirements; the Commission should do the same.

LOYALTY QUIZ CALLED WASTEFUL

Editor, The LEADER:
The latest threat to City employees is the security questionnaire. Instead of receiving decent pay rises, they are to be abused with degrading personal inquisitions, when the City is so desperately short of money, when investigations are really needed to check conditions leading to crime and corruption. To pry into clerks' minds and private lives is to me a shocking waste of the City's limited funds.

ANOMALY OF STENOS NOW TYPISTS OR CLERKS

Editor, The LEADER:
I agree with the recent LEADER editorial that those State employees who actually perform stenographic work deserve a raise in salary. But how about those who passed a civil service exam for stenographer, were then given appointments, still with the title of stenographer, yet perform no stenographic duties? And those actually performing stenographic duties, who never passed a stenography test, entitled to assume automatically the title of stenographer, without earning it through competitive examination? Then why did we stenographers bother to take a test for the stenographer title, who through no fault of our own were prevented from putting into practice our knowledge of shorthand? If inequities are to be corrected, then I think it only fair that those employees who passed a civil service test for their title be permitted to assume the duties now held by typists and clerks.

Social Security

As hundreds of thousands of Federal, State and City employees are now covered by Social Security, and more are likely to be. The LEADER publishes a Social Security column regularly, and answers questions. Address questions to Social Security editor. The LEADER, 97 Duane Street, New York 7, N. Y.

IT IS common knowledge that most of us, because of living costs and social standards, do not set aside enough money or other assets during our working years to provide adequately for ourselves when earned income is cut off by old age or for our families in case of death.

Surveys show that the majority do not have enough liquid

assets (cash or bank deposits, securities, or other forms of savings) to remain economically independent when earning stop. Without other funds to meet current expenses, many of us could not continue to be self-supporting in our own homes, or could not pay our share of living cost in a joint household with relatives or friends.

In 1935, Congress took recognition of these facts. The original Social Security Act of that year would have afforded monthly benefit payments to the retired aged worker beginning in 1942. The amendments of 1939 brought comparable protection to his family in his old age and in case of his

SUMMERFIELD OPPOSES ACROSS-BOARD RAISES

WASHINGTON, May 3 — Postmaster General Arthur E. Summerfield, testifying before the Senate Post Office and Civil Service Committee, asked approval of his proposed reclassification, which would grant increases to nearly all employees, but increases the employees regard as wholly insufficient. He opposed an across-the-board raise, saying salaries are so nearly alike that soon everybody would be getting the same pay no matter what his job. Representative Charles S. Gubser, (R. Calif.) offered a bill which would increase Mr. Summerfield's proposed raises by \$100 each and.

How Pathfinder Magazine says:

You CAN DISCOVER THE SECRET OF LOW-COST TRAVEL

from an article in the bi-weekly news magazine, THE PATHFINDER:

Dream trips you can afford:

ROUND THE WORLD FOR \$498

The Little Tyrhennia Line steamer Olbia takes a couple of days to butt through the Mediterranean, from Genoa via Leghorn to brigand-riddled Corsica. If you're aboard, don't stay up late watching the wild mountain dances of Ligurian peasants on the steerage deck. For you must be on deck at dawn—while you pass the lone island of Capraia, with salt-blown Elba to the south—to watch for the high Corsican peaks to show above the horizon.

At \$6.50 (including five full meals), the Olbia's voyage is a fair example of dream trips you can afford. And there are others—colorful journeys to exotic lands that often cost little more than your vacation at home. Trade your usual beach for a houseboat in the Vale of Kashmir, or a cruise among the lesser Caribbean islands by native trading schooner.

You can travel clear around the world—to South Seas coral isles and the misty lakes of New Zealand, to Australia and the plains of Africa, to Europe's leisurely antiquity—for just \$498 in fares. That long steamer jaunt can be duplicated in ten days by plane for \$1,700, but where's the fun?

Last year, 52 million Americans spent a record of \$12 billion on vacations. Many went on organized cruises at prices from \$125 to \$25,000. But some traveled off the tourist track, got cheaper and more glamorous vacations.

JUST REMEMBER

• • Bargain paradises get that way because they haven't been discovered by tourist mobs. They're harder to find and to reach—but more rewarding.

• • Chromed ocean liners and international hotels are America transplanted. For fun at budget prices, go by freighter and stay at pensions.

• • Make your longest hop from Europe, not directly from the U. S. Currency differentials and lower European rates can save up to 50%.

• • Don't go unless you're ready to plan well ahead and to shop for travel bargains.

CARIBBEAN. There are still undiscovered Edens at America's back door. Tobago, the Robinson Crusoe island that rivals Tahiti, where living is so cheap the island's chief official gets only \$240 a month. Or Grenada, which, as a native described it: "Dis island, sah, is ting Gahd mek from rainbo." There, for \$12 a week, you can rent a three-bedroom house with its own private beach. Many of the best spots can be reached only by trading schooner: Go down to the waterfront at Grenada or elsewhere and bargain with dinky skippers to make your own price—keep this up and cruise all the lesser islands of this jeweled chain.

Here's a sampling of dream trips
Round the World. Every 2 months a Shaw Savill vessel leaves London for Curacao, Panama, and New Zealand. Cross the Pacific, change at Wellington for another SSL ship going west via Australia and South Africa back to England. Minimum fare about \$498—but the trip is usually booked up 15 months in advance. (Reach London for about \$175 from New York.) Other round the world trips from the U. S. as low as \$250-\$300 a month via deluxe freighters.

India. Minimum fare from New York to Ceylon, India, or Malaya is about \$350. Transshipping in England, you can make the trip by luxury liner (tourist class) for \$319. Go to the lotus-covered mountain lakes of Kashmir, where a furnished houseboat with four turbaned servants rents for \$70 a month. Total costs for a couple run around \$175 a month in the most beautiful spot on earth.

South Seas. You can still live dollar. Instead, drowse on brilliant found out about the Yankee comber—but not in Tahiti which the life of a Tahitian beach-lion Sigatoka Beach at Suva or watch Pacific combers crash on reef-girt Norfolk or Lord Howe Islands. (You can reach the South Seas by freighter from the U. S.)

Africa. Perhaps the biggest travel bargain today is a 70-day luxury cruise round the Dark Continent, calling at a score of colorful ports like Dar-es-Salaam, for \$660, round trip from London. Combine this with a low cost tour of England.

Mediterranean. A two week cruise to Malta, Naples, Casablanca, and Lisbon starts as low as \$92, round trip from London, but try a longer stay—in the lush valleys of Mount Olympus on Cyprus, where a couple can live comfortably for \$1,400 a year; on Aegean islands that hide remnants of a 5,000-year-old civilization among olive and cork groves; or with the fisherfolk of rocky Sardinia, where hotel rates are 24c a day or \$1.12 with three good meals.

Atlantic Islands. Green cones standing out of the sparkling waters of the South Atlantic—these are the Azores and the Canaries. Tropical flowers, sandy beaches, and the charm of old Spain are combined here—with rents of about \$20 a month, groceries for a couple at \$10 a week and servants \$5 a month each.

The vagabond voyager with a fistful of dreams can get aids to planning from these 2 guides:

BARGAIN PARADISES OF THE WORLD.

This is a book on how to double what your money can buy. For that is what spending a few weeks or months, or even retiring, in the world's Bargain Paradise amounts to.

Throughout, you learn where to spend a white in the West Indies, Central and South America, the healthful islands of the South Seas, the wonderlands of New Zealand, the Balearic Islands, the Canaries, Madeira, etc.

You read about "Lands of Eternal Springtime," "California Abroad," "Islands in the Wind," "Four Modern Shangri-Las," about mountain hideaways, tropical islands as colorful as Tahiti but nearer home, about modern cities where you can live for less, about quiet country lanes and surf-washed coastal resorts.

About 100 photos, 4 maps. Price \$1.99.

TRAVEL ROUTES AROUND THE WORLD.

With this book you can stop saying that travel is too expensive. Passenger-carrying freighters do offer you a way to see the world for as little as you'd spend at a resort. And what accommodations you get—large rooms with beds (not bunks), probably a private bath, lots of good food, plenty of relaxation as your skip speeds from port to port.

Trips to Rio and Buenos Aires, to the West Indies, between California and New York, out to Hawaii—trips to almost everywhere—are within your means.

There are round the world voyages and shorter trips too. Fast, uncrowded voyages to England, France, the Mediterranean; two or three week vacations to the West Indies or down the Pacific Coast.

This book names the lines, tells where they go, how much they charge, briefly describes accommodations. It includes practically every passenger carrying service starting from or going to New York, Canada, New Orleans, the Pacific Coast, England, France, Scandinavia, the Mediterranean, Africa, the Near East, the Indies, Australia, the South Seas, Japan, Hawaii, etc. It's yours for \$1.

All Sam wants is your picture. You see, girls, Sam is in charge of the beauty contest which the Metropolitan Conference is running. To run a beauty contest he's got to have your picture. And if he gets your picture, you might win a handsome prize.

The Rules

So won't you cooperate? Thanks. Here are the rules.

1. Any female who is a State employee may enter the contest. She may be single or married.
2. To enter, send a photograph, not smaller than 4 inches by 5 inches, to Samuel Emmett, Civil Service Employees Association, Room 905, 80 Centre Street, NYC. Sam says head and shoulders photo is acceptable, although he adds that personally he prefers a full-length shot, and if it's an action shot so much the better, says Sam, and if it's an action

shot in a swim suit, still better. The actual words Sam used, as your reporter remembers them, were "Bikini suit," but we wouldn't dare print that.

3. Together with the photo, submit the following information: name, title, department where employed, job address, home address. Also: height, weight essential dimensions, color of hair and eyes. All this goes to Sam Emmett, lucky fellow, at the above address.

4. Deadline for receipt of photos is Wednesday, May 26. But Mr. Emmett would like to get as many contestants as possible to submit their photos early, so that the work of judging may proceed expeditiously.

Five Prizes

There will be five prizes, of substantial value, to be announced later. The photos will be judged and out of them will be selected the contestants who are to appear at the semi-finals—in person—at the June meeting of the Metropolitan Conference, to be held in Jones Beach. Distinguished beauty experts will pass judgment.

Winner of the Conference meeting will be named Beauty Queen for the area, and may perhaps later compete in a State-wide contest.

death, and advanced the date of payment to January, 1940. In 1950, the law was broadened to cover most people, employed or self-employed, who work for a living. Furthermore, eligibility requirements were made more liberal and increased payments were provided for everyone who qualifies under this Federal insurance system. Benefits were increased again in 1952.

Congress, at present, is again conducting hearings on the proposed changes in the Social Security program. These changes include recommendations to pay higher retirement and survivors benefits, to bring several million additional people under the program, and to provide other important benefits.

QUESTIONS AND ANSWERS

I AM A WIDOW and have been receiving monthly Social Security benefits for myself and my two children since my husband died eight months ago. I have now been offered an appointment to a NYC government job which would be under Social Security, but not covered by the NYC Employees Retirement System. Will my Social Security benefits be affected in any way? D.M.S.

Answer—If you are appointed to the job you have been offered, your monthly Social Security benefit will be suspended if your earnings in that job amount to more than \$75 per month. The monthly benefits of your children would not be affected.

I SERVED in the U. S. Coast Guard from 1942 until 1947, and became a police officer in NYC. I understand from other members of the department that I can get credit towards Social Security for my service in the Coast Guard.

Answer—You can. Persons who served in the armed forces of the U. S. between September 16, 1940 and the present can receive Social Security credits at the rate of \$160 a month for such service, provided no other Federal retirement system gives similar credits for the same period of service. You need take no action now to receive these credits, since they are only recorded in a veteran's account at such time as he reaches age 65 and files a Social Security claim, or in the event of his death, when his survivors file Social Security claims.

I HAVE a Social Security card under my maiden name, which I have used for the last five years in private jobs. I have now married and am wondering whether I should have my name changed on my Social Security card and on the Social Security Administration records. L.T.B.

Answer—It is important that you notify the Social Security Administration of the change in your name, so that they may adjust their records and give you a Social Security card with your old number but your new name. You should write to your nearest Social Security office and ask for Form 7003 through which your name can be changed.

I HAVE BEEN under Social Security since 1950 and have been paying in at the maximum rate. I have two children under 18. If I did will they be eligible for any payments from Social Security. O.S.

Answer—Yes, until they reach age 18. In the event of your death, the benefits for the children would be payable to their legal guardian or to the person who is responsible for their care and maintenance.

I AM 59 and want to know how long I must work and pay Social Security before becoming eligible for benefits. I have been told all I need to work is 18 months and then I can collect at age 65. E. W. H.

Answer—To be eligible for Social Security benefits, persons must work under the program for a required period of time, based on their date of birth. Persons becoming 65 in May, 1960 require 18 quarters of Social Security credit. This means you must be employed in each of at least 18 quarters between January 1, 1937 and your 65th birthday. In jobs under Social Security, with wages of at least \$50 in each quarter.

If one's job is discontinued, after he has given at least 20 years' service to NYC, a member of the NYC Employees Retirement System may be retired on an allowance, or may accept a cash settlement. For ages under 50, the retirement allowance is usually small, so that a cash settlement is preferable.

If one is involuntarily separated from the service for any reason, other than fault or delinquency, the same benefits hold. Such benefits are regardless of age or length of service, but one must have worked for the City at least six months' during the last year, and his name must not be on a preferred eligible list from which he may be appointed.

VACATION VARIETIES

By J. RICHARD BURSTIN
The season of the slashed rates at Florida resorts is upon us. Thousands think that summer is the best and most-underrated vacation season of all in Florida.

full summer program is the daily and nightly fare. The Nevele, Ellenville, has some fascinating new departments: a Vacationer Building that hits a new peak in air-conditioned luxury; a new indoor Waikiki Pool; and a Health Club with "his" and "hers" departments.

Feinstein Urges NYC Steno Clerk Lists Be Issued Now

A request for immediate establishment of the clerk, grade 5 and stenographer, grade 4 promotion lists was made last week by the City Employees Union, Local 237, International Brotherhood of Teamsters, AFL.

"The legal cases will affect only a small percentage of the applicants," said Mr. Feinstein, "all of them borderline cases who will probably just reach the pass mark if the litigation is decided in their favor."
