MINISTERS REPELL UE PLAY FOR RELIGIOUS DISSENTION

UE local 301, now certain of defeat at the hands of Schenectady's GE workers, turned last week to the ugly monster of religious hatred in a futile attempt to salvage its crumbling empire of corruption.

At a meeting requested by Leo Jandreau, UE-301 business agent, members of the Schenectady Ministerial Association heard Jandreau and Julius Emspak, UE national secretary-treasurer, attack the Catholic church, the CIO and groups allied with IUE-CIO in the fight to rid labor of its communist parasites.

Emspak and Jandreau tried to smear the Catholic Church, and called upon the ministers to oppose what they termed the "Catholic control" of the CIO.

MEETING CALLED

The meeting place was UE headquarters, 301 East Liberty Street. The time was 11:00 a.m. Monday, May 8. In attendance were 10 ministers, members of the association, Jandreau, Emspak, John Green and William Hodges.

Several ministers emerged from the meeting more convinced than ever that "Communism really is the issue."

Jandreau and Emspak specifically claimed that:

1. The Catholic church was interfering in union business;
2. The Catholic church controls the CIO, its top leaders and its national conventions. The basis for their claim was that "CIO conventions are opened with a prayer by bishops or priests." (Ministers and rabbis who participate every year in CIO conventions were conveniently overlooked by Jandreau and Emspak.)

LETTER READ

In a further attempt to arouse religious dissention, they read a letter sent by Bishop Gibbons to parishes in Herkimer County prior to the Ilion Remington-Rand election.

"It was obvious to all of us that this an attempt to provoke Protestant feelings against Catholics, and against the Catholic church," one of the ministers stated later.

MINISTER REPLIES

Another minister responded to the reading of the Bishop's letter by point-

ing out that "the issue in the election was Communism, and the Catholic church or any other group has the

IUE-CIO Deplores UE's Divide and Conquer Scheme

On this page you will read the story about a meeting of Schenectady Ministers called last Monday at UE headquarters.

It is very obvious that the UE leaders had only one purpose in that meeting: to set Protestants against Catholics.

MINISTER OPPOSED

One of the ministers at the meeting declared that the purpose of the meeting was "to provoke Protestant feelings against Catholics and the Catholic Church."

The IUE-CIO deplores any attempt by any group to provoke religious hatred in this country. Only a completely un-American group could do what the UE did.

RELIGIOUS HATRED

This country of ours was built by cooperation of all peoples, of all races and religious faiths. It could not have been built by religious hatred and warfare.

We of the IUE-CIO deplore the action of the UE leaders and we denounce their attempts to set one religious group against another. Only Satan and the minions of Satan could do what Jandreau and Emspak attempted.

WRATH OF WORKERS

The wrath of the workers in Schenectady will surely settle down on the heads of these culprits and devils who attempt to create hatred and strife in our community. There is no place in America for hate-mongers of any stripe.

By their actions they have shown their true colors. Let them be known henceforth for what they are: enemies of the American people, enemies of religious tolerance, dispensers of hatred and chaos. They will have their true reward some day!

WHO'S WHO IN UE

This is the eighth in a series of articles on the Communist leadership of UE. The material for these articles is taken from authentic government information.

WILLIAM SENTNER

One of the shining stars in UE's galaxy of Communist Party flunkies is Bill Sentner, former president of UE District Eight. At the time of the last CIO Convention, October 1949, Sentner was an organizer for the red-UE.

In July 1938 he was arrested in Newton, Iowa, for advocating criminal syndicalism. When arrested he openly admitted he was a staunch member of the Communist Party.

In September 1941 the "Daily Worker" reported that Bill was an ex-CP-organizer, member of the Central Committee, and assistant to Alfred Wagenknecht, former secretary of Missouri CP.

Sentner got out a letter to all St. Louis unions in 1943 praising William Z. Foster, then National CP Chairman.

1944-1945: He was an enrolled member of the CP North-Side Section, St. Louis.

1946-1947: Sentner was a first class citizen in the Weydemeyer Club of the CP.

He was a member of the St. Louis Central Committee of the CP, District Committee, and State Board of District 21. He regularly attended meetings of these groups, as well as section, general membership and special meetings.

FBI ANSWERS IUE PLEA

J. Edgar Hoover, director of the Federal Bureau of Investigation, promised action on IUE-CIO's request that he look into Jandreau's communist record.

In a telegram dated May 6, Hoover confirmed the IUE-CIO wire, and assured that the matter would be given to the proper department for appropriate action.

The telegram read:

"Your telegram of May five, 1950 received. A copy has been made available to the Criminal Division of the Department of Justice for its appropriate consideration."

UE Did It: Paid Holidays

A cartoon featured on the front page of "EU News" boasted about the great UE holiday pay.

Just for the heck of it take a close look at UE's so-called "paid holidays."

According to the agreement signed with GE, three and one-half cents per hour is set aside from the "package pay increase" for paid holidays.

Take the case of a porter, for example. Every year he has \$72.80 clipped from his earnings. Last year this man, with an approximate rate of \$1.19 an hour, received \$19.04 cents worth of holiday pay. He contributed to the coffers of GE the remaining \$53.76.

Even in a year when all the holidays fall on a day recognized by UE and GE, this man will lose \$25.20 of his pay.

Yes, UE did it!

BALDICINI'S RETURN FROM HONEYMOON

Mr. and Mrs. Joseph Baldicini, of Amsterdam, recently returned from their honeymoon. Joe, who works as a machine operator in Building 42, is a popular fellow and the group where he works think highly of him. Joe Brennan, his IUE shop steward, was happy to be able to get him piece rate increases on four jobs before he left for his honeymoon, after UE stewards had admitted defeat.

Billy Boy Burns, Runs To Pap

Seems as if the UE crowd is falling all over itself in an attempt to run from the IUE-CIO, and to the company. The speed record thus far is held by Billy Mastriani, who spends most of his time crying crocodile tears on his foreman's shoulder.

First, a couple signs appeared in Bldg. 73, and Billy hurried off to management to "enter a protest" about those bad, bad IUE boys.

Then, lo and behold, a very dead (king-size) rat appeared on the machine of one of Billy's staunch supporters. The rat itself wasn't too bad, but it was clearly labeled with a UE button.

By the time the elections are over, Mastrianni will be in great form for the high school track team, or maybe he's just getting in shape to get out of town!

Can you bake a cherry pie, Billy boy?

Sing A Song Of Redpants

Sing a song of Leo,
A mighty man is he.
He's a great big pillar
In the little, weak UE.
When the vote is over,
Then they all will cry,
Turning up their little toe,
"They'll lay me down and die."

YOUNG OR OLD; IUE-CIO HAS THE PLAN FOR YOU

The IUE-CIO, always out front with the economic answers, has scored another first in American industrial history by negotiating the famous Philco pension-severance plan. This is the plan that will serve as the IUE-CIO's model for negotiations with Westinghouse, General Electric and the other big electrical manufacturers.

Here's what a Philco pension plan will mean to you:

If you are an older employee, looking forward to retirement, the IUE-CIO plan will give you a minimum pension of \$100. per month. The best part is that the employer foots the whole bill, and if any increases are made in government pension allowances the worker gets the whole gain.

\$100.00 PLUS

With the bill presently pending in Congress, you would receive better than \$125 per month. That spells security to many, many old timers. It means that workers can now retire with some feeling of independence. They know that the gas bill, the coal bill, the mortgage on their home, and many essentials of daily living will be taken care of.

Sure, IUE-CIO is fighting for bigger and better pensions from the government, but it wants them added to employer paid pensions already in existence!

EARLY RETIREMENT

Do you want to retire at 60? IUE-CIO's plan will cover you there. You don't have to be 65 years old, with 25 years service to collect pensions under the IUE-CIO proposal. Workers 60 years old, with 25 years seniority, can get pension benefits figured on a proportionate basis.

For the "youngsters" who have pensions so far in the future that they don't even think about them, IUE-CIO again has the answer — termination pay.

TERMINATION PAY

You heard it right; employees at Philco, with two or more years service, have the company salting away five cents per hour in Government bonds—bonds made out in individual worker's name.

If you get laid off, quit, get fired, or be the employ of the company for any reason, the money is yours and only yours.

Young Joe Worker, low man on the seniority poll, won't have to sell his car because he owes one last payment. Mary Worker gets married and al-

ready has a nest egg to start off with, or the price of her wedding dress.

MARRIED MEN

The married men have a hunk of hard cash to fall back on as a supplement to Unemployment Insurance. That severance pay will buy a lot of groceries, pay a lot of bills and help a family thru many tight spots if unemployment strikes home.

And this same five cents per hour serves as death insurance. Should the worker die, his wife and family will not be left penniless—not with an IUE-CIO pension-severance plan. His widow, or children, get all the accumulated severance pay in Government bonds.

If a worker puts in the usual average of 2,000 hours per year he will have a termination pay nest egg of \$1,300.00 at the end of 10 years.

Remember, none of this costs the worker one red cent of his own money.

Whether young or old, married or single, IUE-CIO has the plan for you, you and you.

Why is Rivers in Schenectady?

Charlie Rivers, alias Charles Kaperaris, is field director for the UE in Schenectady? What particular qualification does he have for this job?

Has he a record of good union activity going back through the years? No! His record includes training at the Lenin Institute in Moscow. What did he learn at the Lenin Institute?

The Lenin Institute is the special communist training school for people from other lands. Its specialty is espionage and sabotage. We wonder what Charlie could be doing in Schenectady.

The Final Ride Of The Red UE

Listen you members and you shall hear The tale of a union whose funeral is near.

A union devoted to Russian jive — The funeral will be held on May twenty-five.

The Party was first and the members were last,

By all other unions this one was passed. Like all commie fronts, Stalin's the hero,

And on May 25th UE will get zero.

They scream and they moan,

They weep and they wail;

Now they've discovered they have the bull by the tail.

The members will speak, the members will strive,

But UE will be buried on May 25.

The UE is controlled by the commies and finks,

And everyone knows their negotiating stinks.

They sign all their contracts with no increases —

They call the "Daily Worker" for their news releases.

They are allied with Russia to beat U. S. A.,

And for all their mistakes the members must pay.

So join together and the commies we'll show

That there's no place for them in the CIO.

Remember the date and keep it alive; Remember the date, it's May 25.

Remember the date the UE must go— And cast your vote for IUE-CIO.

Red Hot News At A Price

While IUE-CIO was happily proclaiming the news that May 25, would be GE election day, UE flunkies were trying to "sell" the information to some workers.

The UE representatives in Bldg. 46 big-heartedly volunteered to tell the election date, if the workers would sign a petition asking Army Intelligence not to investigate Frank Emspak, George Vines and Troy Snipes.

However, the good news was already well spread by IUE stewards, and the project flopped.

Welders' Grievance Won By IUE-CIO

AL ROZEK AND STEWARD, EDWARD J. BLANK

After two and one-half years of stalling; after permitting IUE-CIO members to carry the ball; and after issuing one sad excuse after another, UE now has the affrontery to claim credit for the welders' rate increase in Bldg. 273.

Here is what really happened on the welders' grievance:

Over two and one-half years ago a grievance was filed by welders Edward J. Blank and Alex Rozek, in Bldg. 60, to have the top job rate in the miscellaneous section raised from \$1.51 to \$1.62 per hour.

Because of UE laxity in policing the contract welders in different parts of the shop, had varying top rates. There was no attempt at equalization.

Meanwhile, the misc. group was moved from Bldg. 60 to Bldg. 273, and the grievance still was not settled. It was cornered in the UE upper areas.

Bill Kelly, UE-301 president, told the stewards that their grievance was within the contract; in fact, he told them they should have 5c more per hour, because they were required to read prints. Neither Kelly nor anyone else in UE took any action.

The grievance was alternately handled by Larry Flagnan, Charles Lewis and John Warren, now all IUE-CIO men. The only thing UE stewards had to do was go in and hear that the company had agreed to the increase. Due to the efforts of this IUE group, the first raise of 5 1/2 cents was won nearly a year ago.

The real groundwork was laid by IUE-CIO stewards, and the battle to bring the grievance to top manage-

Ministers Names Omitted By IUE

We have deliberately omitted the names of the ministers who attended the meeting held by UE local 301.

Publication of the names might lead some people to think that the men were sympathetic to the Emspak-Jandreau position.

Like all good Americans, but unlike Jandreau and Emspak, they are opposed to any action that will cause religious strife.

ment was carried on by IUE-CIO men. Now that the grievance is won, UE wants to claim credit for it. There's just no explaining the depths to which they'll sink!

Ministers Repell UE Play

right to take a stand on the issue if it so chooses."

The shaky UE crowd has made its bid for power thru pitting race against race, religion against religion, and nationality against nationality. But they have failed.

The whole pattern is now emerging: attempts to arouse Protestant ministers against Catholics, holding segregated meetings for Negroes, etc.

Brother, Can You . . .

Save your rags and papers—
Bones and bottles too.
Turn them in to Jandreau,
You and you and you.
Don't you know we're hard up?
What in heck will we do?
Hurry, get the lead out! —
You and you and you.

NEGRO WORKERS SUPPORT CIO

JAMES & WILLIAM GOLDSBERRY

James and William Goldsberry, staunch supporters of IUE-CIO, are both employed in the GE plant. They are sticking with the CIO because they know what it has done to bring about job equality in industry.

In a statement to other GE workers, thru the IUE-CIO News, they tell why they are backing IUE-CIO in the coming elections.

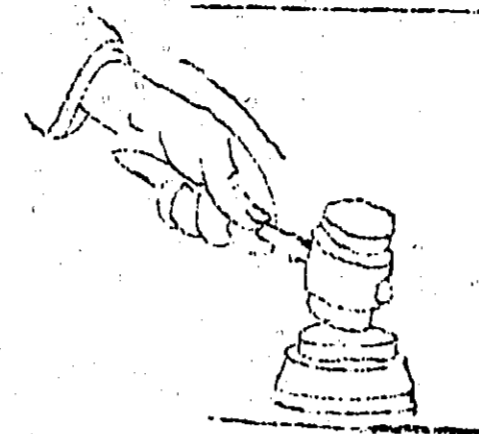

James Goldsberry said:

"When I went to work in the GE plant one of the first things I did was join the union. After attending several meetings, and witnessing the Gestapo tactics of the local leadership, I realized that UE local 301 was not run by the membership, but by a few people who had no connection with the rank and file.

"Now UE has the nerve to call special meetings for Negro workers, of which I am one. I can tell UE that its action is too little and too late. UE's sudden interest in the welfare of our people seems strange and is hard to understand, unless it is soliciting our votes in the coming NLRB elections.

"UE knows that the CIO has done more for Negroes than any other labor organization in the country. That is why we will vote for an honest, democratic organization, and an organization run by sincere, respected men and women. We are voting for IUE-CIO."

YOU BE THE JUDGE

YES, YOU BE THE JUDGE TO DECIDE WHAT THE VERDICT WILL BE FOR YOU ON MAY 25, FOR YEARS TO COME IN G.E.

COMPARE your pay check with your fellow CIO members' pay checks in Alco. Average hourly earnings in Alco for the past several months: Over \$2.40 per hour for piece workers.

Does this comparison of pay checks interest you? Or would you rather believe the Communist propaganda of UE representatives?

COMPARE your holiday pay with your fellow CIO members' holiday in Alco. Do you have a minimum \$12.00 a day holiday pay for six holidays throughout the year--no strings attached? Alco workers have this.

COMPARE your UE-GE contract, which makes no provision for company-paid life and health insurance or sick benefits, with the Steelworkers' contract at Alco, which provides company-paid hospitalization, weekly sick benefits, and death benefits.

COMPARE your UE-GE contract, which says NOTHING about pensions, with the Steelworkers contract at Alco, which provides a company-paid pension, with a minimum of \$100 per month.

Do these comparisons of holiday pay, sick insurance, and pension interest you?

Do common laborers and the guards at G.E. share in the piece-workers incentive program? They do in Alco, and average about 15 per cent above their base rate.

Would you rather have all the employees share in the profits of piece workers or have the falsehoods of the UE and its representatives?

These are some of the many benefits of a CIO organization. These are the facts and the truth--evidence given by the workers who receive these benefits, not by the leaders and representatives of CIO.

YOU, THE WORKERS OF G.E., JUDGE AND DECIDE WHETHER TO STAY WITH CIO OR TO LET THE UE AND ITS COMMUNIST LEADERS CONFUSE AND THROW YOU INTO CHAOS FOR A POLITICAL REASON THAT IS NOT THE AMERICAN WAY OF LIFE. THE UE AND ITS LEADERS WILL JAIL YOU BEHIND THE IRON CURTAIN SUCH AS COMMUNIST LABOR LEADERS IN FOREIGN COUNTRIES HAVE DONE TO THEIR MEMBERSHIP.

HERE'S WHAT YOU'LL GET

IN UE-CIO

Affiliation with CIO and a chance for real cooperation with all of organized labor in America

Membership in an organization which stands alone--cut off from the rest of organized labor.

An organization run in democratic fashion, for the members and by the members...IUE-CIO wants to give the union back to the American-minded people.

Dictators: Matles, Emspak, Jandreau, Pasche, Radosevich, Mastrianni, Friedlander, Ellis, Fernandez, Iovanelli, Brashear, Northrup, Quirini, Belgrave, the DeCosares, all of whom have Commie records.

A DECENT CONTRACT WITHOUT STRINGS GIVING YOU: Wages equal to those of Auto and Steel. Real seniority. Solid grievance procedure. Improved vacation plan. Real sick benefits plan covering hospitalization, surgical and doctor's fees, weekly payments and pensions paid for by the company.

(THIS SPACE LEFT BLANK FOR OBVIOUS REASONS!)

A UNION OF WHICH YOU CAN BE PROUD!

An organization led by communists!

A strong, democratic union which stands in the front ranks of the American labor movement.

PASCHE DUMPS JANDREAU IN WILD LEAP FROM Left To Center Backs E. Miller IN DESPERATE ATTEMPT TO RECOUP HEAVY LOSSES IN MEMBERSHIP

* * * *

SCHENECTADY, May 20—Appearance Wednesday in the GE Schenectady Works of a leaflet signed by a "Center Committee" caused renewed talk of a deep rift in the forces of the Left-wing UE.

UE, in a desperate effort to retain control of bargaining rights in the plant, apparently has dumped Leo Jandreau. The Center Committee leaflet, signed by E. Miller, allegedly comes from the office of Victor Pasche, not an elected representative of the workers here, but an appointee of Jim Matles, himself. It is believed that Pasche is now supporting Miller as leader of the local, instead of Jandreau, who seems to have dropped completely from the scene.

This incident also caused talk of another deep split . . . this time between UE President William Kelly and Pasche, who allegedly controls all local affairs, even though he was never elected by the membership. Pasche is, or was until recently, on the local payroll.

UE members themselves are spreading the rumor that Jandreau, after the expected victory of IUE-CIO on May 25, will be given a job in GE.

The tremendous trend toward IUE-CIO on the part of GE Schenectady workers is considered responsible for the battle being waged within the UE, GE workers are saying.

\$100—Cash Award—\$100

THIS SUM will be paid to all G. E. workers in the Schenectady works and area who can prove that they were ever told how to "think and talk" or "vote and worship" and were forced to do so by U.E. officials and members.

THE CAREY-KRISS CLICQUE claims that the U.E. officials were leading the union members to evil and doom "By INTIMIDATION or INFLUENCE, because the majority of G.E. Workers were either scared or stupid.

THE CAREY-KRISS CLICQUE boasts much about their patriotism, wisdom, godliness and super-ability, but underestimate the intelligence and patience of the G.E. workers with such self-praise.

DOES THE CAREY-KRISS CLICQUE hope or imagine and believe that G. E. workers have short memories or could ever forget that the G.E. Big Shot Misers did not give wage increases and other benefits long ago only because "Carey's Conspiracy and Rebellion" made it possible and easy for the G.E. Misers to ignore your demands and grievances

PHILIP MURRAY or JAMES CAREY will never make good those losses to you, and certainly Stalin cannot be blamed for Carey's blunders or for G.E. miserliness, but as long as the Carey-Kriss Clicque operates here Charles Wilson can continue to tell the G.E. stock holders while profits are enormous, "that profits and wages are not related," but G.E. workers well know how profits suddenly became related with wage cuts, when G.E. profits decline.

THE MEMBERS of the Center Committee sincerely believe that the Carey-Kriss Clicque charges of intimidation and corruption are false and slanderous, but in order to determine the truth this \$100.00 reward offer is bonafide and will be in effect until July 1st, 1950. For more particulars or claims for reward contact the undersigned.
