State Is Now Negotiating 3 Company Contracts On Health Insurance

HONORS YOUNG TALENT

Gunnar Nelson, chairman of the first annual talent contest at Gowanda State Hospital, awards Philip Rodrigues a check for \$30 as first prize winner in the contest. Leon Hines, master of ceremonies, center, awards Mary Jakubiac \$25 as second prize. Vito Ferro, president of the Gowanda chapter, CSEA, which sponsored the show, awards \$25 to Vicki Luine for placing third.

Past Reminds Pensioner Of How Much Better Off Employees Are Today

The staff of the State Division of Housing turned out in full to honor Joseph A. Urell, retiring director of the Bureau of Finance, at a luncheon at the Terminal Banquet Hall, New York City. Mr. Urell, 61, retired because of ill health. He gave 21 years of service to the State. He was given a solid gold wrist watch.

Mr. Urell, who started in Housing as a \$2,400 senior accountant in 1935 and wound up as one of three \$13,804 chief accountants in the State service, expressed his satisfaction with the improvement of working conditions.

"I think public servants are beginning to be recognized and treated more fairly," he said. "The projected Social Security and health insurance plans and other fringe benefits are very good. I'm only sorry they didn't come years ago when I could have had some benefit from them. The public servant, although he is still very much maligned and unappreciated,

is treated much better now than when I entered State service. At that time they had no grading, and we were paid by hit-and-miss methods. Now there's a minimum, increments, and even an extra increment after five years at the top of grade. Today, also, the policy of equal pay for work is more generally in effect."

Recalls Experiences

Relating his early experiences with the Division of Housing, Mr. Urell said his most pleasant business recollection was during the incumbency of Edward Weinfeld as Housing Commissioner. Mr. Weinfeld is now a Federal Judge.

"It was in Ed Weinfeld's time that we first got Al Smith's low-rent public housing program going," he said. "The Division was in its infancy and we had a challenge to meet and it was a pleasure to tackle a new program."

BELLINGER APPOINTED TO UNIVERSITY COUNCIL

ALBANY, June 3 — Governor Averell Harriman appointed Donald B. Bellinger of Johnstown as a member of the Local Council of the State University Teachers College at Oneonta. Mr. Bellinger is the president of Bellinger Transportation.

ALBANY, June 10—Final negotiations are under way between the State and three insurance carriers to provide a comprehensive health insurance plan for State employees.

Following a 14-hour session last week, the Temporary Health Insurance Board authorized Alexander A. Falk, Board Chairman and President of the State Civil Service Commission to negotiate contract terms.

After a meeting of the Board today, final decisions are expected with respect to specific coverage benefits.

Contracts Being Worked Out

Chairman Falk and his staff are working out details of the contract with Blue Cross, Blue Shield, and the Metropolitan Life Insurance Company.

The Board also has approved Group Health Insurance and the Health Insurance Plan of New York City as alternate carriers for Part II (basic surgical and medical) and Part III (major medical) coverage.

What's Being Negotiated

Negotiations with Blue Cross and Blue Shield are for hospitalization and basic surgical and medical coverage. Negotiations with Metropolitan Life concern major medical coverage.

Specifications provide for alter-

nate carriers in areas where comprehensive medical care plans are already obtainable.

The Board chose carriers after receiving communications from the Civil Service Employees Association and other employee groups. Six insurance carriers submitted cost figures.

What Coverage Is Proposed

Companies offered:

Part I (hospitalization)—Semi-private rooms for a maximum of 120 days; general nursing care; use of operating and recovery rooms.

Part II (basic medical surgical)—Benefits for surgical services necessary in diagnosis and treatment of disease or injury, physical or mental; anesthesia, radiation therapy, physician's fees for hospital care.

Part III (major medical)—A maximum of \$7,500 medical expenses in any one year, and \$15,000 over a lifetime; artificial limbs and other prosthetic devices; payment for home and office visits by physicians.

The Board discussed the proposals submitted by insurance carriers with special consultants Charles Dubuar, chief actuary of the State Insurance Department, and Murray W. Latimer, industrial relations consultant of Washington, D.C.

McHUGH HONORS 16 FOR LONG SERVICE

ALBANY, June 10 — Commissioner of Correction Thomas J. McHugh presented pins and certificates to 16 employees of the central office of the department for 20 to 35 years of service.

The employees are: Sheridan Tufts, Anne A. Curry, Lorinda Day, John Geel Hayner, Genevieve G. Gorske, Helen T. David, Genevieve M. Donahue, Joseph, E. McNamara, William E. Cahin, William T. Fealey, Sarah E. Wesels, Helen C. Fontana, May C. Shaughnessy, Olive N. Acker, Ethel Stevens and Richard E. Woodward.

Harriman Pledges 'Equitable' Raises, Institution 40 Hours

ALBANY, June 10—Governor Averell Harriman said Republican leaders passed a major bill which was grossly inequitable to the majority of State employees, he complained, adding:

"I propose next year to recommend salary adjustments designed to correct the inequities of this year's legislation."

Regarding the work-week of State institution

employees, Governor Harriman commented that he broke the barrier of a 48-hour week for some 33,000 employees in 1956, adding: "And I am committed to bring this down to 40 hours as soon as this is practicable."

The Legislature this year passed laws cutting the work-week of institution employees, now on a 44-hour schedule, to 42 hours.

Sizeable U. S. Raise Is Strongly Backed By Senate Group

The staff of the U.S. Senate Post Office and Civil Service Committee has been directed by the committee chairman, Senator Neuberger (D-Ore.), to study costs of various salary increase proposals. The staff will make its report soon.

The committee has concluded that a sizeable pay raise for Federal employees is fully justified

and it is strongly seeking a plan that can be enacted into law this year.

The House Post Office and Civil Committee will begin hearings, on Thursday, June 13, on bills to raise the pay of postal employees.

Decision on hearing on bills for increasing the pay of classified civil service employees was postponed by the House group.

Four-Day Weekend

Mayor Robert F. Wagner issued an executive order whereby some employees may get a four-day weekend that includes Friday, July 5.

Employees who did duty half a day as a skeleton force on May 31, the day after Memorial Day, would be eligible, provided their agency is not in the so-called "essential" category.

Employees who had a four-day weekend over Memorial Day will be required to work on July 5.

CAPTAIN TUCKER APPOINTED

ALBANY, June 10 — Captain Morton H. Zucker of White Plains is the new staff judge advocate of Headquarters, New York Air National Guard.

150 DETECTIVES PROMOTED

The Board of Estimate approved the promotion of 150 detectives from third to second grade. This will reduce the number of third grade detectives from 1,879 to 1,729 and increase the second grade ranks from 273 to 423.

Blissful Lady

Lately, on buses, in subway trains, on billboards — seems to me just about everywhere I look — I've been meeting a beautiful lady. She's not only beautiful, but, oh, so happy!

Who is she? And why is she so happy? She's the homemaker who's thrilled because she'll never wash dishes again ... or dry 'em, either ... for now she's the happy owner of an automatic dishwasher.

To tell you and all New Yorkers more about the wonders of electric dishwashing, Con Edison and the top dishwasher manufacturers are sponsoring this "happy homemaker" campaign.

If you want the same wonderful, carefree feeling she has, treat yourself to the bliss of an automatic dishwasher. Besides permanent models, you have your choice of exciting portable dishwashers. You simply connect the hose of a portable dishwasher to your kitchen faucet, roll it out of the way after use. And even the top is handy as an extra work surface. Best of all, you'll be free of the messy, thankless job of dishwashing — forever!

And here's a special offer. Send for Con Edison's fact-packed folder on how to select the right dishwasher as well as tips on using it. Simply write Con Edison, Room 632, 4 Irving Place, New York 3, N. Y. Ask for "Dishwasher Folder."

P.S. to Husbands: This happy, contented feeling isn't confined to wives. You'll be smiling, too, with an automatic dishwasher in your house.

Dates for New Patrolman Test Are Set

The absentee rate for the patrolman medical test is running about 25 percent. The test, to which 2,933 eligibles, have been called, is being given until Wednesday, June 12. Candidates who pass are given appointments for the qualifying physical test which will be given in Van Cortlandt Park between June 17 and July 1.

October Opening

The absenteeism has underlined the necessity for the October opening of filing for the new patrolman written examination to start early in 1958.

July appointments, and disqualifications for medical or other reasons, will virtually exhaust the existing eligible list.

At the end of the third day of testing 855 candidates had passed, of 1,254 summoned, while 118 were rejected and 281 were absent.

More Local Governments Vote Social Security With Six Retroactive Quarters

ALBANY, June 10—The Livingston County Board of Supervisors unanimously voted to grant to all county employees Social Security coverage retroactive to six quarters.

The Board also voted to pay Livingston County employees on a semi-monthly basis. This pay schedule will become effective July 1. These two actions by the Board were largely the result of active encouragement by the Livingston County chapter of the CSEA, said Mrs. Lillian Perkins, publicity chairman.

Six quarters of retroactivity have been voted also for the employees of the following local subdivisions: Chautauqua County; Schenectady County; Schenectady City.

In Schenectady County, the towns of Niskayuna, Rotterdam, and Glenville are included. Employees of the City of Rochester and County of Monroe receive the same advantage.

In Schenectady County, the village of Scotia Board of Trustees voted not to give any retroactive Social Security to its employees.

The Board of Supervisors of Westchester County voted to accept Social Security for county employees, who desire it, retroactive to June 16, 1956.

Budget Director John Peterson said that there will be an additional cost of \$370,000 for Social Security under the retroactive phase.

The Westchester County Civil Service Employees Association requested the June 16, 1956 retroactive date.

Social Security is not available however, to Parkway Police. The Board's legislation committee was asked to determine whether an amendment of the State law could bring the Parkway Police under the plan.

Suffolk county voted six retroactive quarters.

THE PUBLIC EMPLOYEE

By JOHN F. POWERS
President

Civil Service Employees Association

THE AGENDA of the special legislative session convening on June 10 will carry two items of interest to the employees of the political subdivisions.

One item seeks a change in the Finance Law to permit municipalities to borrow sufficient funds to provide retroactive coverage for their employees.

The other asks for a legislative change to increase the number of covered quarters of retroactivity for local employees from six to seven.

The provision regarding quarters is to employees of those local subdivisions whose legislative bodies are planning to grant them the full retroactive coverage under the recently passed State law. The full explanation of this change and why it is necessary appeared in The Leader issue of June 4.

Because of mechanical difficulties, unless this legislative change is granted, the employees of the local subdivisions will not receive the same treatment under the operation of the Social Security Law as the State employees, it is particularly disadvantageous to those employees in the local subdivisions who wish to retire this year and who have reached or will reach minimum retirement age under Social Security—65 for men, 62 for women—by December 31, 1957.

It is essential that this law be passed. We urge the employees of the local subdivisions at once to ask the State legislator from their district to vote for this legislation.

WANT TO PASS A CIVIL SERVICE TEST?

During the next twelve months there will be many appointments to U. S. Civil Service jobs in the Greater N. Y. area and throughout the country. They are well paid in comparison with the same kinds of jobs in private industry. They offer far more security than is usual in private employment. Many of the jobs require little or no experience or specialized education. They are available to men and women between 18 and 55.

But in order to get one of these jobs, you must pass a Civil Service test. The competition in these tests is intense. In some cases as few as one out of five applicants pass.

Franklin Institute is a privately owned school which helps many pass these tests each year. The Institute is the largest and oldest organization of this kind and it is not connected with the Government.

To get full information free of charge on these U. S. Civil Service jobs fill out coupon, stick to postal card and mail TODAY or call at office—open 9:00 to 5:00 daily, including Saturday. The Institute will also show you how you can qualify yourself to pass these tests. Don't delay—act NOW!

Even Government Learns

THE STATE has increased the starting pay of five positions, some statewide, others in particular localities.

Any move by government to increase pay, to stimulate lagging recruitment, is in the right direction. The action may have some untoward overtones when higher pay is offered in restricted areas, since other employees feel that they should not be penalized doing the same work in a different location. There is something to that argument. However, the objectors at least have the advantage of a modified precedent when their own appeal for upward reallocation is waged.

The Federal government has been increasing starting pay, too, also by offering jobs at more than the lowest rung in the grade ladder, while New York City, more slowly, has been taking steps in the same direction.

Government can no more expect to get the number and quality of recruits that it needs, by failing to meet competitive salaries, than can any private employer.

Anomalies Noted

The growing alertness of government to its pay responsibilities is not uniform. When the Federal government raises the starting pay of positions in the classified service, as distinguished from those for which wage boards set local rates, it's often generally. The old employees are not left at the old salaries while the new ones get the higher rates. New York City is less careful. In the State government, also, some instances crop up in which the newcomers seem to benefit more than the old-timers. A letter from an employee of the State Department of Mental Hygiene, to *The Leader*, woefully relates instance after instance of pay cut as hours-per-week were shortened or reallocation effected, and expresses the fear that if, as Governor Averelle Harriman has practically promised, the institution employees are to get the 40-hour week next year, another pay cut may be expected. The employee spelt out the possibility from his own bitter experience. It would be well if the Governor added to his confident prophecy of a 40-hour week for the institutional group the assurance that there would be no reduction in gross salary, and none in take-home pay except for any additional expenses the employees themselves volunteer to bear to gain added fringe benefits, like Social Security and health insurance.

Still Room for Improvement

The day when the supervisor got less pay than the employees he supervised, a chronic scar in the government scene for decades, has just about passed. The day must come, and come quickly, when faithful seniority is not penalized, either, and when government lives up to its obligations not only as to starting pay but as to retention pay. That is, employees must be paid what they are worth, as a matter of good conscience and fair dealing, and not only to assure that they remain.

What keeps many employees in their present jobs everywhere is the fact that they can't risk a change of jobs, because of their family responsibilities. In government they also have an investment in the retirement system that, so far as the pension part goes, would be forfeited if they did leave the service. Government must not make capital out of social and economic plights. Instead it should move into a new and broader area, in which

LETTERS

TO THE EDITOR

HOUSING AUTHORITY DEFINES HIRING PRACTICES
Editor, *The Leader*:

An unsigned letter appeared in one of your recent issues which gives a completely inaccurate and untrue picture of the Housing Authority and the merit system.

All permanent appointments to the Housing Authority are made on a civil service basis. If there is no civil service eligible list for competitive appointment, persons qualified by the City Department of Personnel are appointed on a provisional temporary basis. There are at present a number of provisional employees in other New York City departments and agencies, as well as in the Housing Authority, in such titles as typist, account clerk, and assistant accountant. The City Department of Personnel has for years been unable to establish adequate competitive eligible lists in these titles in which the shortage is acute both in government and private industry.

Transfers Discussed

The duties performed by these employees are in accord with the civil service specifications. Typists are assigned as receptionists at projects because part of the duties require knowledge of typing. Account clerks perform duties within their title, the same kind of duties as are performed as bookkeepers, the title of their positions before reclassification. Male clerks, as well as female clerks, are eligible for promotion to senior clerk, a civil service promotion examination for which is scheduled for the fall. The last senior clerk promotion eligible list for the Authority contained 166 names and is almost completely used up.

The Authority has always permitted transfers of employees to other City agencies. The Authority's policy on transfers to different projects or to its Central Office is a very liberal one and hundreds of such transfers take place each year.

Provisional employees are serving in accordance with civil service law. On establishment of adequate civil service eligible lists, permanent appointments will be made in order of standing on the lists. Eligibles with higher marks are not by-passed.

Policy Stated

The letter could not have been written by a Housing Authority employee because the statements are either untrue or completely distorted. The personnel practices of the Housing Authority are and will continue to be positive attempts at assisting the City Department of Personnel to recruit and appoint the best qualified people to work for an agency which has a deserved reputation

(Continued on Page 7)

it offers financial incentive for remaining in difficult and arduous jobs, like taking care of the mentally ill, and investigating the welfare requirements of the needy.

Social Investigator Example

The social investigators in New York City are an example. While the Salary Board of Appeals found that the starting pay meets competitive figures, nothing seems to have been made of the point that the turnover in the position is abnormally large. The work is demanding, sometimes even nerve-wracking. If instead of having to wait out the increments, employees in such positions could more rapidly have their pay increased in the early stages, the employer, as well as the employee, would profit. When an employee in whom the government has invested hundred of dollars in training resigns, the money loss to the employer is a half-hidden yet ponderable item in the budget.

Fringe Benefits for Per Diem Employees

THE PERIL of leaving anything to chance, in connection with compromise agreements on pay, to gain fringe benefits, is exemplified by the case of per diem employees who signed annual agreements. They are not under the Career and Salary Plan. Employees under that Plan receive standard fringe benefits. The per diem employees may have thought that they would get exactly the same benefits, but have found out otherwise.

There's a difference between being in or out of the Plan, regarding fringe benefits. Also, heads of departments and agencies have certain discretionary powers, such as in granting holy day and personal business leaves. Independently elected officials, like borough presidents, don't always exercise their discretion as liberally as do the heads of New York City departments proper.

Easy To Take, Hard To Get

The base is the 21 days' vacation. Even that has not always been granted to per diem employees, but improvements are taking place. Such employees may rejoice over the progress. Add to that base the 11 paid holidays, and employees could hardly object. But not all of them get the 11 days on a paid basis; some of them have to take holidays at their own expense. They never expected that. They find themselves much in the same predicament as laborers employed by the State.

When employees entitled under the State Labor Law to the per diem rates prevailing in local private industry forego receipt of the full dollar rate, under an annual agreement, in exchange for fringe benefits, all the fringe benefit should be specifically identified in the contract. That would put the kibosh on discretionary denial.

Nothing must be left to chance.

Law Cases

Sidney M. Stern, counsel, submitted to the New York City Civil Service Commission the following report on law cases:

JUDICIAL DECISIONS:

Trial Term

Berke v Schechter. Petitioner was certified from list for patrolman (P.D.) subject to investigation. The Police Commissioner took no action with respect to his certification. On completion of investigation the eligible was found not qualified by the Civil Service Commission and his name removed from the eligible list. He brings this proceeding to annul and rescind that determination. The court at Special Term ordered a trial of the issue as to whether petitioner was duly certified by the Commission. The trial court (Greenberg, J.) held that he was not duly certified since the certification that went forward was subject to the condition referred to.

PROCEEDINGS INSTITUTED:

Maddaloni v Schechter. Petitioner, a sanitationman, C, seeks a non-disabled veteran's point credit in an examination for promotion to assistant foreman. He had used these points in exam-

ination for promotion to his present title but claims that since sanitation man B and C are being reclassified to sanitationman, his former use of his preference points should be disregarded.

Leaby v Kennedy. Petitioner seeks to review the determination of the Police Commissioner denying reinstatement to Police Department.

DECISION:

By State Civil Service Commission, May 9, 1957, pursuant to Chapter 233.

Re: Mirian Reif. Miss Reif was employed as a permanent competitive stenographer, grade 4, in the Psychiatric Division of Bellevue Hospital. She was removed on August 1, 1955 in accordance with the Security Risk Law because she admitted having been a member of the Communist Party from 1939 to 1941. The State Commission pointed out that the basic issue involved is whether there can be a dismissal under the Security Risk Law from a position in a security agency without a showing, or it otherwise appearing, that the person involved, by virtue of his employment in his position in such agency, could endanger the security or defense of the nation and state. The State Commission construed the statute to require that in order to justify the dismissal of an employee from a security agency under the security risk law, it must appear not only that he is of doubtful trust and reliability, but also that in his position he is so situated that, by sabotage, disclosure of confidential information or by other means, he can imperil the security and defense. Since there was no such showing in this case the determination of the Department of Hospitals dismissing Miss Reif was reversed and she was ordered reinstated.

Questions Answered On Social Security

I AM 63 and have never worked. My husband is 63 and has worked under Social Security since 1937. Can I collect benefits on his work record now that I have reached retirement age? P.L.

A woman who is not entitled to benefits on a work record of her own must wait until her husband qualifies for benefits before she may file her claim, even if she reaches retirement age before he does.

TWO MONTHS AGO I filed an application for both the disability freeze and disability insurance benefits. I have not heard from the Social Security Administration as to what their determination is and I wonder if this will affect my rights to disability benefits if I have not heard by June 30, 1957? E.J.

Anyone who files his disability freeze application before July, 1957 will not lose benefits if he

has not received the Social Security Administration's determination before July. The filing of the application protects you, no matter how long it takes to make the determination. If your application is approved and your disability began before 1957, benefits will be paid to you effective with July 1, 1957, even if you don't receive your determination until several months later.

MY SON is 16 and receiving child's insurance benefits. During the winter he goes to school and does not work, but this summer he will have a job at a resort, and expects to earn about \$450 in 2½ months. Since this will average over \$100 a month, won't he lose some checks? E.J.

If your son's total earnings for the year do not exceed \$1200, it makes no difference how much he earns in any month, and benefits are payable for all the months in the year.

Apply Until June 25 For Postal Rail Jobs

The list resulting from the examination will be used to fill positions paying \$1.92 an hour at the terminals of the postal transportation service in New York City, Albany, Jamaica, and Long Island City.

Postal transportation clerks, often popularly called railway mail clerks, separate, distribute and route mails in transit. Usually, they are assigned to terminals but are subject to road duty. Regular assignment to railway post offices is on a seniority basis.

Career appointments will be made. Benefits include liberal vacation and sick leave allowances, annual raises for satisfactory service, an excellent retirement plan, and group life insurance.

A written test will be given. Applicants must be New York State residents.

The official announcement may be obtained from the Director, Second U. S. Civil Service Region, 641 Washington Street, New York 14, N. Y., and at any main post office (except in Manhattan and the Bronx). Mention announcement No. 2-7(1957).

Applications must be received or postmarked not later than Tuesday, June 25.

A series of written tests will be held. By applying in person, at Washington Street only, one gets a card admitting him to the next test and thus gets examined sooner. Tests are expected to begin on Friday, June 14.

Only men may apply. There is no maximum age limit.

No formal training or experience is required. The minimum age is 18, figured from the closing date, June 25.

Pay goes up a little each span

of 52 calendar weeks—6 cents an hour—until \$2.11 is reached, but when one becomes a regular the pay scale is \$4,680-up, for stationary jobs, and \$3,890-\$4,360 for road work. Promotions are made largely on the basis of seniority, assuming that one has a satisfactory rating in work performance.

The new list of eligibles will kill the present one, on which not many names are left.

NYC Expects To Fill 15,000 Jobs in Year

New York City expects to fill 15,000 jobs at \$2,750 to \$12,600 within the next year, said Personnel Director Joseph P. Schechter.

The vacancies will be filled by persons who pass examinations. Last year about 14,000 persons were hired to fill vacancies in the 65 agencies.

A schedule containing 287 job titles for which examinations will be given between July 1, 1957 and June 30, 1958 was released by the City Department of Personnel. Among the most popular titles are patrolman (P.D.), transit patrolman, attendant, correction officer, housing officer, special officer, social investigator, motor vehicle operator, license inspector, laborer, and bridge and tunnel officer.

Information regarding vacancies may be obtained from the Department of Personnel, 96 Duane Street, New York 7, N. Y.

REVISED SALARY APPEAL PLAN CALLED INADEQUATE

Editor, The Leader:
The Probation and Parole Officers Association of Greater New York expressed disappointment and dissatisfaction over the modus of granting increases as result of the upgrading by the Career and Salary Appeals Board. The merging of increment with the increase was primarily criticized.

It was realized that, as usual,

this is an economy measure taken by the Budget Bureau, but that it is not in keeping with the true intent of an upgrading.

Because of this condition, as well as unreasonable overlapping between the first and second grades, serious anomalies will create the necessity for further action by the Budget Director.

This comes at a time when the County Courts have scheduled examinations for entrance at a salary of \$5,000, and our services must attract and maintain our staff. It is planned to file a further appeal to the Career and Salary Appeals Board when the period of waiting expires in August.

Bill Broadens Vets' Rights In Staff Trial

WASHINGTON, June 10—Representative Paul A. Fino (R.-N.Y.) introduced a bill to provide war veteran employees with the opportunity to produce and examine witnesses in connection with actions involving dismissal from government service.

"Under the present law," he said, "a veteran employee dismissed on charges has the right to appeal to the U. S. Civil Service Commission but not the right to subpoena or cross-examine witnesses. The unfairness of the law results in not only a serious handicap to the appellant but renders his appeal ineffective. My bill would also permit him to inspect documents and offer evidence in explanation or rebuttal."

Pension Credit For Veterans Explained

The State Division of Veterans' Affairs has issued an interpretation of the law passed by the last session of the Legislature concerning prior credit for war veterans who are members of the State Employees Retirement System.

The explanation: "A new law enacted by the recent Legislature (Chapter 241, effective April 9, 1957), amends the Retirement and Social Security Law to permit any member of the State Employees Retirement System to purchase member service credits for periods of military duty performed by such member prior to the time he last became a member. It permits the purchase of such credits in the same manner as the purchase of

credits for prior Federal civil service is allowed.

"Specifically, the law states, 'The allowance of credit for such service shall be conditioned upon the receipt by the retirement system of all the payments required to be made on account thereof by section forty-two of this article.'

"Each veteran's case as to the period to be credited and the amount to be paid into the System will be determined by the Retirement System individually due to different rates of pay and periods of military service.

"Information can be obtained by the individual veteran as to the amounts involved by writing direct to the following address, giving his present Registration Number in the Retirement System: Mr. Max Weinstein, Actuary, New York State Employees' Retirement System, 256 Washington Avenue, Albany, N. Y."

ACTIVITIES OF EMPLOYEES THROUGHOUT NEW YORK STATE

Niagara

The Board of Supervisors passed unanimously a measure which will grant full Social Security coverage to about 600 Niagara County employees. The protection will be retroactive for the full six quarters starting June 16, 1956, giving employees approaching and past retirement age of 62 for women, 65 for men, the opportunity of prompt Social Security retirement.

The Board also approved a clause which would permit employees 70 years old to continue employment until they have acquired full coverage.

This action came after a request was received from Viola Demorest, president of the Niagara chapter, CSEA, who requested a study of the supplemental coverage and that consideration be given to the six-quarter coverage. After the

study was made by the Finance and Salaries Committee of the Board, the action was taken at a special meeting.

The next meeting of the chapter will be held on June 19, at the American Legion Hall, Lockport. Following the business meeting members will hear Jean Groff, Community Ambassador to Sweden.

In the meantime special meetings will be held in the several County offices to acquaint the County employees with definite procedure in carrying out the poll and referendum.

Long Island Parks

At the May 21st meeting, as the consensus of the Chapter members favor the proposed state employees Social Security program, the members were asked to support this program.

It is felt a great inequity exists in the interest rate on contributions to the Pension Plan and the members were in accord with investigating how this inequity could be adjusted.

Tentative talk was started about a fishing party for the members. Some of the members seemed to favor a beach party. Perhaps the answer would be to have both these affairs. More definite plans on this affair should be ready next month.
