## Sophomore Virtuoso Wins Amateur Contest

Everybody knows that there are five watering troughs in Draper hall but how many know that there is an unknown virtuoso right in our midst?  
 Aye Aye! (as the egotists say) there is, and it's none other than George Stangler, '40. A master of the violin, this up and coming virtuoso recently captured a wrist watch, a trip to New York city, and an audition over a major network as first prize in an amateur contest broadcast from the stage of the Grand theater.  
 Stangler will again appear on the stage of the Grand tonight in a special contest for prize winners. Optimism is running so high that Music Council is already negotiating for an engagement.

## Debate Council Plans Program

### State Debates Skidmore and Niagara on Social Relations And Labor Problems

According to William Bradt, '38, president of Debate Council, plans for five major events will be formulated in the next two weeks.

## Nightingale, Cox Will Head Senior Drive To Obtain Funds For Housing Project

### CHAIRMAN OF ALUMNI FUND DRIVE

Richard Cox and Mildred Nightingale, seniors, who will conduct the class of 1938 in its annual drive to raise money for the alumni residence halls fund.

### Chairmen to Name Captains To Supervise Teams Of Classmates

### MISS BRIMMER TO AID Committee to Suggest Ideas For Possible Projects For Construction

Richard Cox and Mildred Nightingale have been appointed as co-chairmen of the annual senior drive to raise funds for future housing projects according to Herbert Drooz, president of the class of 1938.  
 The plan will be worked as in the past with the chairmen appointing captains to supervise teams of workers who will compete with each other in raising money for the Alumni project. The drive is carried on in cooperation with Miss Bertha Brimmer, secretary of the Alumni association.  
 Seniors will be asked to pledge up to \$100 to be paid in installment over a period that may range from five to ten years in length. These pledges may be made with the condition that the installments will begin "the first February after I secure a position."  
 The chairmen are arranging for committees to explore the possibilities of projects to which this money should be devoted. In the past the classes beginning with 1936 have favored the erection of a men's dormitory similar to that of the present Alumni Residence halls for women. Other projects considered are athletic houses for men and women, an all-college social hall and a swimming pool.  
 The fact that the president of the senior class has appointed co-chairmen for this drive is an innovation for during the past years the president of the senior class has acted as chairman of the event. Drooz by appointing these expects to arouse the class more completely in pledging to the fund.  
 Appointment Bureau Announces Positions  
 The appointment bureau announces the following placements: Hilda Heines, '35, High Bridge, New Jersey, library; Dorothy Lurenz, '37, Athens, French and Latin; Paul Dittman, '38, Adams Center, commerce; Helen Sautin, '37, Johnstown, mathematics and science; Lillian Rushmeyer, '38, Bolton Landing, commerce.

## Myskania Rules On Cap Wearing

### Letter to Sophomore Head Explains Official Stand Of Senior Body

Freshmen cannot be required by Myskania to wear caps next year according to a communication received by Lloyd Kelly, president of the sophomore class, from Myskania, senior honorary society.  
 The letter further states that action for the re-establishment of this tradition must come from a resolution introduced from the floor of Student assembly and that Myskania has no power to revive the tradition by decree.  
 The reason for this is that the Student association on May 22, 1931, abandoned by resolution the wearing of caps as a tradition. Therefore, only the student body has the power to revive it.  
 According to Kelly, a consideration of this question will be included in the next meeting of the sophomore class, which petitioned Myskania for this action.  
 Following is the letter received by Kelly:  
 "To the Sophomore Class:  
 In regard to the request for the establishment of a tradition involving the wearing of caps, Myskania pronounces the following: That the establishment of any tradition must come from the action of the Student Association. Traditions do not originate by the action of any one class. Myskania advises that the question of the Freshmen caps be brought before the Student Association if desired. According to the minutes of the Student Association of 1931-32, the wearing of Freshmen caps was abolished by Student Association on May 22, 1931, by a vote of the entire assembly."

## Y. W. C. A. to Present Prominent Eugenecist

### Mrs. Elliott to Lead Discussion On Marriage Education

The topic of her talk will be "Education and the Preparation for Marriage." Earlier in the afternoon Mrs. Elliott will meet with a faculty committee to discuss the subject "Guidance in Personal Adjustment."  
 Mrs. Elliott is a well known authority in the field of Eugenics. She was chairman of the National Student assembly conducted recently at Miami university, and she has led many student discussions on the problems of marriage and the home.  
 A selected group of men and women of the student body will meet with Mrs. Elliott.  
 Sororities and fraternities are cooperating by conducting their meetings on other nights next week.

## President Brubacher Presents Plans for Five Year Curriculum

by Leonard Kowalsky  
 Those students who attended assembly last Friday listened to an interesting talk delivered by Dr. A. H. Brubacher, president of the college. The purpose of the discussion was to explain to the student body the details of the proposed five year curriculum at State college.  
 The student body first learned of the president's plans when a communication from him to Myskania appeared in the News of November 12 of last year. In this communication he suggested to Myskania that they be instrumental in expressing to him the sentiment of the student body in regard to this question. In last Friday's assembly, the president was given an opportunity to present his proposition in person to the student body.  
 In explaining his purpose, the president feels that the new regulations in certification and licensing of teachers, recently set up by the State Board of Regents, demand various curriculum adjustments. Moreover, since a new ruling requires the completion of thirty hours of graduate work within ten years after graduation in order to retain one's teaching certificate, a fifth year may be deemed necessary.  
 Therefore, in order to understand fully the resulting curriculum problems, the president feels that an

## Husted Hall Receives Its Name From Teacher, Civil War Captain

### by David Minsberg

Some men live lives which are admired by all who know them and all who hear about them. One of these was Albert Nathaniel Husted, in commemoration of whom the science building of State college has been named.  
 In 1855, Husted, a young man, came to teach mathematics at the N. Y. State normal school. He was successful and well liked and continued in that position. In fact, from that date on, he taught every year of his life except for some time during the Civil War, when he mustered a company of normal school boys under his captaincy and left to fight for the Union.  
 Leaving behind some of his boys buried on the battlefield, Husted returned to Albany and taught till 1890, when the normal school became State Normal college. In 1905, he was made head of the mathematics department. In 1906, when the college building on Willett street burned down and moved to its present location on Western avenue, Professor Husted moved with it. He held the position of professor of his department until his death in 1912. He

## New Dancing Classes Develop State's Embryonic Swingsters

In view of the important part that dancing plays in the social life of State students, your reporter found out that fifty more rhythmic will be released by the dancing class to practice their newly learned steps in the Commons during the noon hour.

The dancing class was started by a couple of enterprising upper classmen in the latter part of last semester. Its purpose is to encourage the art of dancing among State students and to make them feel more at home at State; the latter statement applies more to the freshmen than to the upper classmen. Due to "Bei Mir Bist Du Schoen" and others, the class has grown until it has reached fifty potential Fred Astaires and Ginger Rogers.

The members of the class take their instructions seriously. They are in earnest and are trying very hard to develop their style so that they can come into the Commons and compete with some of the light headed "willes" who hog the floor every noonline. Perhaps it would be a good idea to put these "willes" into a separate class and make them learn some of the more formal aspects of dancing.

The girl's dancing classes are conducted thrice a week under the ex-
