## CIRCULAR.

---

THE Normal School for the State of New-York, was established by an act of the Legislature in 1844, "for the instruction and practice of Teachers of Common Schools, in the science of Education, and in the art of Teaching." Its sole object is to improve the teachers of Common Schools; and the course of study and conditions of admission have been adopted with reference to that object.

Each county in the State is entitled to send to the School a number of pupils, (either male or female,) equal to twice the number of members of the Assembly in such county. The pupils are appointed by the county and town superintendents at a meeting called by the county superintendent for that purpose. This meeting should be held and the appointment made at least two weeks before the commencement of each term, or as soon as information is received as to the number of vacancies. A list of the vacancies for each term will be published in the District School Journal, as early as the number of such vacancies can be ascertained,—usually before the close of the former term.

Pupils once admitted to the school will have the right to remain until they graduate,—unless they forfeit that right by voluntarily vacating their place, or by improper conduct.

## COURSE OF STUDY.

The following is the course of study for the school; and a thorough acquaintance with the whole of it, on the part of the male pupils, is made a condition for graduating:

ORTHOGRAPHY, - - - - -	<i>Normal Chart.</i>
ANALYSIS OF DERIVATIVE WORDS, -	<i>Town's.</i>
READING and ELOCUTION.	
WRITING, - - - - -	<i>National W. Book.</i>
GEOGRAPHY and OUTLINE MAPS, (with map drawing,) - - - - -	<i>Mitchell's.</i>
ENGLISH GRAMMAR, (with Composition,)	<i>Brown's.</i>
HISTORY OF UNITED STATES, - -	<i>Wilson's.</i>
HUMAN PHYSIOLOGY, - - - - -	<i>Lee's.</i>
MENTAL ARITHMETIC, - - - - -	<i>Colburn's.</i>
ELEMENTARY ARITHMETIC, - - - - -	<i>Perkins'.</i>
HIGHER ARITHMETIC, - - - - -	<i>Perkins'.</i>
ELEMENTARY ALGEBRA, - - - - -	<i>Perkins'.</i>
HIGHER ALGEBRA, Chaps. VII. and VIII. (omitting Multinomial Theorem and Recurring Series,) - - - - -	<i>Perkins'.</i>
GEOMETRY, Six Books, - - - - -	<i>Davies' Legendre.</i>
PLANE TRIGONOMETRY, as contained in -	<i>Davies' Legendre.</i>
LAND SURVEYING, - - - - -	<i>Davies'.</i>
NATURAL PHILOSOPHY, - - - - -	<i>Olmstead's.</i>
CHEMISTRY, (with experimental lectures,)	<i>Gray's.</i>
INTELLECTUAL PHILOSOPHY, - - - - -	<i>Abercrombie's.</i>
MORAL PHILOSOPHY, - - - - -	<i>Lectures.</i>
CONSTITUTIONAL LAW, with select parts of the Statutes of this State, most intimately connected with the rights and duties of citizens, - - - - -	{ <i>Young's Science of Gov.; Rev. Statutes.</i>
RHETORIC, - - - - -	<i>Lectures.</i>
THEORY AND PRACTICE OF TEACHING, -	{ <i>Lectures and Expe- rimental School.</i>
MATHEMATICAL GEOGRAPHY, USE OF GLOBES, AND ELEMENTS OF ASTRO- NOMY, - - - - -	<i>Lectures.</i>
LESSONS IN DRAWING AND VOCAL MUSIC, to be given to all.	

The same course of study, omitting the Higher Algebra, Plane Trigonometry and Surveying, must be attained by females as a condition of graduating.

N. B. Any of the pupils who desire further to pursue mathematics, can be allowed to do so after completing the above course of study.

---

### QUALIFICATION OF APPLICANTS.

Females sent to the school must be sixteen years of age, and males eighteen.

The superintendents, in making their appointments, are urged to pay no regard to the political opinions of applicants. The selections should be made with reference to the *moral worth* and abilities of the candidates. Decided preference ought to be given to those, who in the judgment of the superintendents, give the highest promise of becoming the most efficient teachers of common schools. It is also desirable that those only should be appointed who have already a good knowledge of the common branches of study, and *who intend to remain in the school until they graduate.*

---

### ENTRANCE.

All the pupils on entering the school, are required to sign the following declaration:—

*“ We the subscribers hereby DECLARE, that it is our intention to devote ourselves to the business of teaching district schools, and that our sole object in resorting to this Normal School is the better to prepare ourselves for that important duty.”*

As this should be signed in good faith on the part of the pupils, they should be made acquainted with its import before they are appointed. It is expected of the superintendents, that they shall select such as will sacredly fulfil their engagements in this particular.

Pupils on entering the school are subjected to a thorough examination, and are classified according to their previous attainments. The time required to accomplish the course will depend upon the attainments and talents of the pupil, varying from *one* to *four* terms. *Very few* however can expect to graduate in one term.

---

### PRIVILEGES OF THE PUPILS.

All pupils receive their tuition free. They are also furnished with the use of text-books without charge; though if they already own the books of the course, they would do well to bring them, together with such other books for reference as they may possess. Moreover, they draw a small sum from the fund for the support of the school, to defray in part their expenses.

It is proposed to apportion the sum of \$1,700 among the 256 pupils, who may compose the school during the next term.

1. Each pupil shall receive three cents a mile on the distance from his county town to the city of Albany. 2. The remainder of the \$1,700 shall then be divided equally among the students in attendance.

The following list will show how much a student of each county will receive, during the ensuing term :

Albany, \$2.41; Allegany, \$10.09; Broome, \$6.76; Cattaraugus, \$11.17; Cayuga, \$7.09; Chautauque, \$12.49; Chemung, \$8.35; Chenango, \$5.41; Clinton, \$7.27; Columbia, \$3.28; Cortland, \$6.67; Delaware, \$4.72; Dutchess, \$4.66; Erie, \$10.93; Essex, \$6.19; Franklin, \$8.77; Fulton, \$3.76; Genesee, \$9.73; Greene, \$3.43; Hamilton, \$4.87; Herkimer, \$4.81; Jefferson, \$7.21; Kings, \$6.97; Lewis, \$6.28; Livingston, \$9.19; Madison, \$5.44; Monroe, \$8.98; Montgomery, \$3.61; New-York, \$6.85; Niagara, \$10.72; Oneida, \$5.29; Onondaga, \$6.40; Ontario, \$8.26; Orange, \$5.44; Orleans, \$10.12; Oswego, \$7.21; Otsego, \$4.39; Putnam, \$5.59; Queens, \$7.63; Rensselaer, \$2.59; Richmond, \$7.32;

Rockland, \$6.07; Saratoga, \$4.78; Schenectady, \$2.86;  
 Schoharie, \$3.07; Seneca, \$7.54; St. Lawrence, \$8.59;  
 Steuben, \$8.89; Suffolk, \$9.16; Sullivan, \$5.80; Tioga,  
 \$7.42; Tompkins, \$7.31; Ulster, \$4.15; Warren, \$4.27;  
 Washington, \$3.85; Wayne, \$7.84; Westchester, \$6.46;  
 Wyoming, \$9.85; Yates, \$7.96.

It is proper to state, that if the number of pupils is less than 256, the sum to be received will be proportionately increased. The above schedule shows therefore the minimum sum to be received by each pupil. His apportionment cannot be less than as above stated, and it may be more.

This money will be paid at the *close of the term*.

---

## APPARATUS.

A well assorted apparatus has been procured, sufficiently extensive to illustrate all the important principles in Natural Philosophy, Chemistry, and Human Physiology. Extraordinary facilities for the study of Physiology are afforded by the Museum of the Medical College, which is open at all hours for visitors.

---

## LIBRARY.

Besides an abundant supply of text-books upon all the branches of the course of study, a well selected miscellaneous library has been procured, to which all the pupils may have access free of charge. In the selection of this library particular care has been exercised to procure most of the recent works upon Education, as well as several valuable standard works upon the Natural Sciences, History, Mathematics, &c. The State library is also freely accessible to all.

## TERMS AND VACATIONS.

The year is divided into two terms, so as to bring the vacations into April and October, the months for holding the Teachers' Institutes. This also enables the pupils to take advantage of the cheapness of traveling by the various means of water communication in the State, in going to and from the school.

The SUMMER TERM commences on the FIRST MONDAY IN MAY, and continues TWENTY WEEKS, with an intermission of one week from the first of July.

The WINTER TERM commences on the FIRST MONDAY IN NOVEMBER, and continues TWENTY-TWO WEEKS, with an intermission from Christmas to New Year's day inclusive.

---

## PROMPT ATTENDANCE.

As the school will open on Monday, it would be for the advantage of the pupils, if they should reach Albany by the Thursday or Friday preceding the day of opening. The Faculty can then aid them in securing suitable places for boarding.

As the examinations of the pupils preparatory for classification will commence on the first day of the term, it is exceedingly important, that all the pupils should report themselves on the first morning. Those who arrive a day after the time, will subject not only the teachers to much trouble, but themselves also to the rigors of a private examination. After the first week no student except for the strongest reasons, shall be allowed to enter the school.

## PRICE OF BOARD.

The price of board in respectable families, varies from \$1.50 to \$2.00, exclusive of washing. Young gentlemen by taking a room and boarding themselves, have sustained themselves at a lower rate. This can better be done in the summer term.

The ladies and gentlemen are not allowed to board in the same families. Particular care is taken to be assured of the respectability of the families who propose to take boarders, before they are recommended to the pupils.

---

## EXPERIMENTAL SCHOOL.

Two spacious rooms in the building are appropriated to the accommodation of the two departments of this school. These two departments are under the immediate supervision of the Permanent Teacher, who is a graduate of the Normal School.

The object of this school is to afford each Normal Pupil an opportunity of practising the methods of instruction and discipline inculcated at the Normal School, as well as to ascertain his "aptness to teach," and to discharge the various other duties pertaining to the teacher's responsible office. Each member of the graduating class is required to spend at least two weeks in this department.

In the Experimental School there are ninety-three pupils between the ages of six and sixteen years. FIFTY-EIGHT of these are free pupils. The free seats will be hereafter given exclusively to fatherless children, residing in the city of Albany. This is in consideration of an appropriation by the city to defray in part the expense of fitting up one of the rooms of the school. The remaining THIRTY-FIVE pupils are charged \$20 per year for tuition and use of books. This charge is made merely to defray the expense of sustaining the school.

☞ The present term will close on the 17th of September. The examination of the various classes will occupy the week previous to the close. The public exercises appropriate to the close of the term will be held on the afternoon of the 17th. The friends of the school and of education generally, are respectfully invited to attend.
