First Breakthrough

Budget Amends Overtime Rules For Four Titles

The first important breakthrough in the attempt of the Civil Service Employees Association to regain overtime rights for its employees has been made. The breakthrough came in a decision last week by the Division of the Budget when it informed the CSEA that four titles, land and claims technician, junior land and claim adjuster and engineering technician would be eligible to earn overtime. All of these titles are in the Department of Public Works.

These employees had previously been denied the right to earn overtime by the recently promulgated State overtime rules. The decision by the Division of the Budget came in the form of an amendment to these rules and at the request of the Association.

According to the Budget Division, the position of engineering technician will become eligible for overtime "when assigned to the Bureau of Rights-of-Way and Claims."

Notification of the decision came from Alton G. Marshall, deputy director of the Budget. Marshall said, "this decision was made after a careful study of the material submitted by the Department of Public Works, CSEA, and further field investigation by the staff of the Division of the Budget." He continued that, "we in the Budget especially appreciate the contribution that was made by CSEA in this matter." He said the substantial time and effort expended by CSEA President

Joseph F. Feily and the staff of the Association "was extremely helpful."

Marshall said that he has notified J. Burch McMorran, superintendent of the Department of Public Works that on September 3 an amendment will be filed with the Secretary of State "which will make eligible to accrue overtime credits, those positions which must report to a district or branch office at the beginning of a work day."

At the same time, the Division of the Budget informed the Employees Association that the posi-

tions of Forest Ranger, District Ranger, Narcotics Investigator and Senior Land and Claims Adjuster "should continue to be ineligible to earn overtime."

The Budget Division's action came following a recent meeting of CSEA representatives with top division of Budget officials to discuss the seven job titles. At the session CSEA went on record as opposed to the overtime rules, not only as they apply to the titles in question, but "to the rules in their entirety," and reserved the right to bring other appeals for other titles.

Erie Probation Director Backs Employee Pay Raise

(From Leader Correspondent)

BUFFALO, Sept. 2—Leaders of Civil Service Employees Assn. groups in Erie County, who have been pressing for higher pay for probation and social workers, got a helping hand this week from County Probation Director Charles L. Hutchinson.

Present salary ranges may cause a decline in the quality of service probation agents perform for the several courts, Hutchinson said.

Because of constant turnover, he said some probation officers must work on 80 cases at a time and the accepted caseload standards is 40.

Hutchinson recommends that the present salary range of \$5,430 to \$8,970 be raised to a range of \$6,410 to \$8,280.

Salary deficiencies, the director said, are the main reason for personal turnover and recruiting difficulties.

"We have some of the finest,

dedicated people and they are doing a top job in probation work but for the past year we had great difficulties in coping with the work load," Hutchinson said.

There has been talk of lowering Civil Service requirements on probation worker qualifications but Mr. Hutchinson defended the present high standards.

"Lowering standards does nothing but lower service," he declared.

CSEA leaders will be in the forefront in the fall when demands for higher salaries for probation workers come before the Erie County Board of Supervisors during hearings on the 1964 budget.

N.Y.C. Chapter To Meet On Sept. 26

The first regular meeting for 1963-64 of the New York City chapter of the Civil Service Employees Association will be held September 26 at Gasner's Restaurant at 5 p.m. Discussion points for the evening will include resolutions for the coming CSEA state wide convention and chapter plans for the coming year. FREEDOM VOLUNTEERS — Members of the Counselers, a negro organization composed of employees of the New York City and the New York State Departments of Parole and Probation travel relaxed on trip to Washington during

last week's volunteer march to Washington to press for civil rights legislation. Some 26 buses were chartered by public employees who made the trip in a group representing civil service. An estimated 10,000 public employees attended the demonstration.

Voice Of Freedom Speaks Loudly In Rights March

(From Leader Correspondent)

WASHINGTON, D.C., Sept. 2—Last week's civil rights protest march on Washington for equal opportunities was a monumental success and historical achievement, according to A. Philip Randolph, father of the demonstration.

The 200,000 or more Americans of all races, creeds and nationalities, who voiced their protest against inequalities, injustice and second class citizenship for minority groups moved quietly into the nation's capital at dawn, massed orderly at the foot of the Washington monument, marched in high spirit to the Lincoln Memorial, listened to a two-hour program of music and speeches, and quietly moved out of town before sunset.

Joseph F. Feily, president of the Civil Service Employees Association, along with two members of the CSEA Board of Directors, Frank Wallace and Randolph Jacobs also served as marshals for the parade and represented New York State public employees.

Among the marchers were an estimated 5,000 New York City employees and officials. Mayor Robert F. Wagner led a delegation of 17 city officials in the march, including Comptroller Abraham D. Beame, Council President Paul R. Screvane, Bronx Borough President John F. Pericchi, Manhattan Deputy Borough President Earl Brown, Brooklyn Borough President Abe Stark, Queens Borough President Mario J. Carlillo, and Staten Island Borough President Albert V. Maniscalco.

The Mayor issued an order two weeks ago permitting City employees to participate without loss of pay or leave time. However, those making the trip to Washington were requested to show evidence of their participation.

The largest contingent of City employees represented the Department of Welfare. Commissioner James E. Dumpson flew in from Puerto Rico, where he was attending a conference, to lead 2,000 from the railroad station. He was joined by Deputy Commissioner Philip Sokol and Mrs. Amanda Wilkins, the Department's secretary. The Commissioner flew back to Puerto Rico the same day.

The Department of Hospitals is reported to have sent about

**Veteran's

By FRANK V. VOTTO
Director, New York State Division of Veterans' Affairs

Questions on veterans' and servicemen's rights will be answered in this column or by mail by the State Division of Veterans' Affairs. Address questions to Military Editor, The Leader, 97 Duane Street, New York 7, N. Y.

MANY OF THE three million veterans who continue their NSLI on the term plan will be forced to reduce or drop their protection entirely upon reaching age 60 or 65, because of its high cost.

AGE 60 OR 65 may seem a long way off to the average veteran of World War II, but the approximately 18 years that have elapsed since the war ended seem to have passed rather rapidly. The average age of WW II veterans is now 44. In just 16 years they will have reached age 60. The next 16 or 20 years will also seem to pass rapidly.

AT AGE 65, an insured will be required to pay a gross premium of \$47 per year for each \$1,000 of insurance, as compared to \$11.25 at age 44. This will be at a time when his income will probably reduce sharply due to retirement. The high cost of term insurance at that time will pose a real problem. Conversion to the ordinary life plan at age 44 would cost \$290.10 per year for \$10,000 of insurance. However, the premium would remain constant for the remainder of the insured's lifetime, and at age 65, if the policy is surrendered for paid-up insurance, he would have approximately \$6,225 of insurance protection paid up.

THE AUTOMATIC extended insurance provision of his policy would provide full insurance protection for over 11½ years if he discontinued payment of premiums at that time —without surrendering the policy. The policy would also have a cash value of about \$4,520. Also, at any time after the policy is in force for one year or more the reserve would be available for loans in case of an emergency. Term insurance offers none of these features.

TERM INSURANCE is designed for short periods of protection, or for insurance needs of a known duration. It serves a very valuable purpose as it provides the greatest amount of protection at any given age for the smallest dollar outlay during periods of an emergency, or while the children are young and income is small. It should be considered only as a temporary arrangement since its cost increases each five years. Over the average span of life, permanent plan insurance is less expensive.

VA INSURANCE CHECKS

Insurance checks received or uncashed after payee's death should be returned. Do not cash, as a refund will be required. Any additional amount payable under the provision of the insurance contract will be authorized in accordance with the insurance contract.

ber of the Public Personnel Association and American Society for Public Administration.

Felly was president of the Rensselaer Junior Chamber of Commerce; State vice-president, Junior Chamber of Commerce; and in 1941 he was awarded a distinguished service medal for outstanding civic work. He was chairman of the Rensselaer infantile paralysis campaign for two years and chairman of Boy Scout troop 71 for two years.

Before entering the Army during World War II, he was commissioner and secretary of Rensselaer's Civil Service Commission; secretary to defense council, and chairman of the city's rationing board. He has been a member of Boy Scouts, Red Cross, and European Relief campaigns, belongs to Legion Post 1683 and is an exempt volunteer fireman. He is a member of the Holy Name Society and other church organizations, past president of the State Employee's Softball League and a member of the Civil Service Employees Bowling League.

Felly received a B.A. degree from Holy Cross College and attended the Public Administration course at the Graduate School, New York University.

ALBERT D. SCHULER Candidate for President

Al Schuler's qualities are best depicted by the following comments from William S. Hulst, Commissioner of Motor Vehicles:

"Your enlightened and sympathetic understanding of Department problems, as well as your devotion to problems of the Chapter, have been exemplary. . . the fine spirit of cooperation the Chapter has shown under your leadership . . ."

Congratulations on a job well done."

Why does Al Schuler draw such comment? One year after Al started his career with the Department of Motor Vehicles he recognized the need for active participation and leadership in the Civil Service Employees Association. In 1944, he started a long career of dedicated service in this area of vital concern to all employees by helping to organize the Motor Vehicle chapter.

The ensuing years found Al Schuler serving on various committees and holding numerous elected offices. He recently culminated 20 years of selfless leadership by serving two terms—the maximum permitted—as president of the Motor Vehicle chapter.

Al Schuler's achievements during his two terms as president are a matter of public record. His ability and personal qualities do indeed command respect—even his opponent, President Felly, recognized this when in 1962 he appointed Al as a member of the Resolutions Committee, chairman of the State Membership Committee and a member of the Board of Directors.

Other Motor Vehicle Department administrators have gone on record concerning Al Schuler's achievements while president of the chapter:

"All of us appreciate the time and hard work which you put into your office and we look forward to your having an opportunity to take advantage of the experience you gained in further Association work."—Basil Y. Scott, director of Research & Development.

" . . . you have afforded the State, Chapter and Department with both remarkable services and

leadership."—James R. Barrett, director of Driver Safety.

Al Schuler's 20 years of State service has been as a Damages Evaluator. He is 59 years of age and resides in Loudonville.

JAMES L. ADAMS Candidate for First Vice-President

James Adams has been a Correction Officer at Sing Sing Prison for the past twenty-five years and has been an active member of CSEA.

He has been a member of the Sing Sing Chapter since its inception in 1939, serving as President and Delegate.

He served as the Correction Department Representative on the Board of Directors for nine years, during which time he was a member of many important committees.

(1) Chairman of the Charter Committee—7 years.

(2) Chairman of the Nominating Committee—1959.

(3) Chairman Special Committee to study union activities in State Service. Important election procedures and other safeguards for Local Chapters were recommended and adopted by the Board of Directors as a result of this committee.

(4) Chairman—Special Correction Department Committee.

Adams says he will be a tough campaigner for the right of all CSEA members.

Fellow members of the Charter Committee presented Adams with a leather case earlier this year as a token of appreciation for his outstanding contribution to the work of the Committee.

RAYMOND G. CASTLE Candidate for First Vice-President

Ray Castle offers a record of leadership and accomplishment to his fellow workers in Civil Service. He joined CSEA on the same

day he became regional manager with the Commerce Department, and has served on many other conference and State Committees. He served four years as president, Syracuse chapter; two terms as president, Central New York Con-

ference; chaired the Special committee on the Need for a New York City Association Office; five years as member of State Education Committee, as chairman two years; as a member of the Special Committee to Study Nomination and Election Procedures and chairman of the Special Committee to Define Duties of Association Committees. He was fourth vice-president for two years and is completing his second term as Second vice-president, serving as consultant to the Public Relations and other Committees.

Active in Central New York business and civic affairs, he has served ten years as director of the Syracuse Advertising and Sales Club; president of the Syracuse Council of Service Clubs and founder of Syracuse Toastmasters Club; International Director and District Governor (twice) of all Toastmaster Clubs in New York State for Toastmasters International which trains men interested in developing leadership in community affairs; active in Red Cross and Community Chest for many years.

Through his years of service, he has become thoroughly familiar with the problems and desires of employees and the administration of the Association. He has constantly worked to strengthen the internal operation of the CSEA and to plan, develop and urge a strong public relations program in order to elevate the concept of Civil Service employment as dignified, desirable and a useful career-profession and to win the confidence and good will of government officials and the general public.

His past record of hard work and achievement is its own guarantee of future service for the improved well being and security of Civil Service employees through increased employee benefits and better working conditions.

ARTHUR J. MILLER Candidate for Second Vice-President

Arthur J. Miller, candidate for the position of second vice-president resides with his wife, the former Josephine M. Beebe, at 8

campaign chairman for Red Cross and March of Dimes, fireman for 20 years (now exempt), past-president of Sayville School Board and is now serving in his fifth year as a member of the Board.

Miller is now and has been employed by the Suffolk County Welfare Department for the past 27 years as Assets and Resources supervisor. In this capacity he has been instrumental in developing an educational program for the committee's monthly meetings. Much of his vacation and evening time he has spent furthering the work of the Association.

A keen student of Civil Gov-

ernment, he has consistently worked towards establishing effective employer-employee relationships with opportunity for worker participation in the formation of sound policies and practices in tenure salaries retirement liberalization and other fringe benefits. He has served on practically every committee of the Association and is well versed in Association affairs. He is currently serving as consultant to the pension insurance, education membership and legislative committees.

A member of the Boy Scouts for the past fifty one years he holds both Scoutmasters Key and Silver Beaver Awards for outstanding service to Boyhood.

His past record of hard work and achievement for the Association is its own guarantee for future service to its members.

First Day Ceremony Held For First Time "Visit U.S.A." Postcard

A first day ceremony held last Friday marked the introduction of a new first in Postal Cards. Postmaster Robert K. Christenberry presented the new red, white and blue, 7-cent single and 14-cent double reply-paid International Postal Cards for surface mail in the Lower Plaza at Rockefeller Center, last Friday afternoon.

U.S. Secretary of Commerce Luther H. Hodges topped the list of dignitaries on hand to assist the Postmaster. Also present were Assistant Postmaster General William J. Hartigan of the Bureau of Transportation, Post Office Department; Charles E. Gorman, Jr., Post Office Department's Deputy Regional Director of New York; Captain James L. Macy Will Be First On Pay Raise Plan Witness Stand Sept. 4

Civil Service Commission Chairman John W. Macy is expected to be the first witness at the Senate Civil Service Committee hearings on the President's supplemental pay plan which are scheduled to begin tomorrow (Sept. 4).

Promoted

WATERTOWN, Sept. 2 — Mrs. Dorothy M. Green has been promoted to grade A supervisor to fill a vacancy caused by the retirement of Mrs. Evelyn C. Kellogg, supervisor of the child welfare division of the Jefferson county welfare department.

If the President's plan is accepted, classified employees could expect an average 4.7 percent increase. Postal employees would receive a 3.2 percent increase. These increases would be in addition to the raises approved a year ago.

Some employee groups are contending that the President's plan is still two years behind private industry. Kennedy's plan would cost approximately \$500 million annually.

Provisions Introduced To Retired Military Personnel Legislation

The opposition is lessening toward the legislation which will permit more retired military personnel to secure Federal civil service jobs. Most of the Government employee unions recently endorsed this legislation with the provision that safeguard amendments be provided.

One of these safeguards provides that no military person be permitted to hold a civil service job until six months after his retirement becomes effective.

It should be noted that, under current law, retired reserve officers and enlisted men are already permitted to hold Federal civilian jobs without restriction on combined income. The new law will place some limit on these positions. The regular officers currently barred from civilian employment would benefit most from the proposed legislation.

The Veterans Administration reports that veterans have proved to be extraordinary fine credit risks.

Wallace Elected By Gouverneur Ch.

The recently organized Gouverneur Hospital chapter, Civil Service Employees Assn., has elected Leon Wallace president for the coming year.

Other officers recently elected are: Luther Gibbs, first vice president; Lola Bonner, second vice president; Dorothy Wise, treasurer; and George M. Kelly, secretary. The first formal meeting of the chapter will be held September 12 at the hospital. Ben Sherman, CSEA New York City field representative, will serve as the installing officer at the meeting.

No Bias Here

PUBLIC employees who attended the Freedom Day demonstrations in Washington, D.C. last week were well aware of what their counterparts in private industry were fighting for. The Merit System knows no bias.

The civil service system is based on the promise of equal opportunity for all and truly competitive appointment procedure. The race, creed or national origin of a candidate for a civil service position is not known by the examiner—to him a candidate is just another number. Individual tests are identified by number before, during and after the examination. The name and number are not matched until after the paper is completely marked and graded.

Those who seek work and are the most qualified are hired. There are no ratios, no quotas—just a system of hiring the best available personnel to fill the important positions involved in the successful operation of a government.

For Emergency Use Only

CITY employees are carefully watching the newly created title of administrative aide. This title was approved as an open competitive position on the third step of the promotional ladder in the clerical-administrative field.

The reason for the creation of this title, according to Dr. T. H. Lang and Mayor Wagner is to prevent a critical shortage in professional and managerial employees. This measure, if taken in this vein, is one set up for an emergency—should one develop. To carelessly use this tool as a by-pass of the traditional career status of civil service would be a grave injustice to the career public employees who eagerly look forward to promotion as a reward for their efforts.

Questions Answered On Social Security

Below are questions on Social Security problems sent in by our readers and answered by a legal expert in the field. Anyone with a question on Social Security should write it out and send it to the Social Security Editor, Civil Service Leader, 97 Duane St., New York 7, N.Y.

"I'd like to get a social security card. Will I need to show a birth certificate?"

No. You'll need to know your correct date of birth, of course, but you don't need a birth certificate.

"My teen age daughter has been promised a job this summer working as a car hop. She needs her social security number before she can start to work but lost her card. How can she get another card?"

She should apply for a duplicate social security account number card. Applications for duplicate cards are available at her local social security office or any post office.

"My maid works for me one-half day a week and I pay her \$4.00 a week. Do I have to pay social security taxes on her wages?"

Yes, if you pay her \$50 or more cash wages in a calendar quarter.

"Is there any way I can find out how much social security will pay me, so I can decide if I can afford to quit working?"

Your social security office will be glad to check your account for you and tell you what your social security benefit will be. In fact, it's a good idea to talk to a representative while you are just beginning to think about retirement. He can tell you approximately how much your benefit will be at 65, and what it will be if you decide to retire before 65. He can tell you what proofs you will need when you file your claim. And by checking in advance, you can help your social security office to speed your first check to you.

"How long does it take to have my name changed on my social security records? I'm getting married?"

If you take your social security to the nearest social security office, they'll replace it with another card showing your new

Bauch Suggestion For Transfer Office Cited by City Aide

Editor, The Leader:

May I offer my congratulations on having published in your Civil Service Leader of August 20, a most constructive suggestion, under the by-line—"The City Employee", offered by Mr. Herbert Bauch, President of Terminal Employees Local 832.

I have been in City service for 35 years and, for almost as long, have harbored the idea of flexibility of transfer of employees between agencies.

The idea of opening various avenues of learning by means of this "Transfer of Employee Method", for each agency is a separate chapter in the lore of municipal government, will have as its effect:—

(a) An awakening in, or inculcation of a desire, to do better work.

(b) A prospect of improvement in the morale and lot of municipal employees.

(c) A keener knowledge of city government by broadening the perspective of its employees.

(d) An opportunity for management to alleviate its personality conflict problems between management and employees.

These highlighted effects plus many other beneficial results, will serve to mould a more closely-knit and smoother functioning machinery of municipal government. A most tonical and healthful effect could only be the end result.

In line with Mr. Bauch's suggestion, and the immediately prospective healthful effects which are sure to follow, if a transfer to such a new agency could be arranged, I would be most anxious and very much pleased to work in achieving this wonderful objective.

ARTHUR J. KAHN

name in only a few minutes. However, if you do not have your old card, it may require a few days.

"When should I notify social security if I expect to earn over \$1200?"

You should notify social security as early in the year as possible. Based on your estimate, an adjustment will be made in your benefits for the year so that you will not suffer an overpayment that would have to be repaid by you after the end of the year.

"I understand that the social security tax rate will be increased beginning January 1963. What is the new rate and will it be based on the first \$4800 as in 1962?"

Beginning January 1963, the tax rate for employee and employer will be 3 1/8 percent each. For self-employed people, the 1963 rate will be 5.4 percent. This rate is also based on only the first \$4800 of earnings during a year.

Your Public Relations IQ

By LEO J. MARGOLIN

Mr. Margolin is Adjunct Professor of Public Relations in the New York University School of Public Administration and is Vice President, Public Relations, of A. J. Armstrong Co., Inc.

The views expressed in this column are those of the writer and do not necessarily constitute the views of this newspaper.

A Lesson From France

THE PARIS Police Department is having public relations problems. Even though it is as far afield as France, we discuss it because there are lessons to be learned for all gendarme and their colleagues in the civil service.

PUBLIC HOSTILITY against Paris police has been mounting for some years. Justified or unjustified, the antagonistic attitude of the Parisian toward his police officers has been allowed to grow unchecked.

NO ATTEMPT WAS made by police or government authorities to win from the populace an understanding of the police, their problems, and the cooperation they needed to give the citizenry maximum protection.

EVEN IN THE best of times, Paris police never enjoyed cordial relations with Parisians. This should have been a warning to alert authorities that something better be done quickly before the situation became worse.

BY INACTION THE situation deteriorated practically to open hostility. A whole series of incidents, including open assaults on policemen, made the atmosphere untenable for all. The newspapers generated a good deal of the citizens' negative attitude by blowing up stories involving police vs. citizens.

AT LONG LAST—and we hope not too late—the Paris police authorities have stirred themselves. They began a public relations campaign to win public support and sympathy. This is precisely what the PR objective of all police departments should be.

THE ONE—and seemingly the only tool—is publication of a weekly bulletin, "Liaisons," which is distributed to the press and anyone who asks for it.

WE DETECT TWO basic public relations errors, and a few more that are not immediately apparent. The first mistake is to place total dependence on one publication. The idea of using a weekly bulletin is correct, but what else is being done? Are opinion leaders, other than newspapers, being enlisted in the campaign? What about posters, television, public meetings, sermons, visits to schools, etc., etc.?

A WEEKLY BULLETIN is simply a means of communication. If it's a good bulletin, then it is doing its job properly in the total public relations process.

BUT THE REAL "rock" is this: What is being done to give the Paris police department training in public relations? Do they know that good performance in the public interest are the key requisites for successful public relations?

THERE SEEMS to be some indication that "Liaisons" does some preaching and philosophizing. Of course it tries to explain the problems of the police department, but a publication of this kind cannot be a scold.

POLICE TRAINING in public relations has paid huge dividends in New York City, as well in such smaller communities as New Rochelle, N.Y. This training is as important as courses in crime detection and traffic control. After all, police officers have more direct and continuing contact with the citizenry than any other civil servants.

WE WOULD suggest that the Paris police authorities seriously consider the public relations training programs which have proven so successful in the United States.

GI Bill Education Benefits Expiring

The last full year of schooling for veterans taking education or training courses under the Korean GI Bill begins this September, the Veterans Administration said today.

When this school year ends, only a half year of schooling will still be obtainable under the program. Courses starting in September, 1964, must come to a close on January 31, 1965.

Congress has set this cut-off date for the Korean readjustment program of education and train-

ing for veterans without service-connected disabilities. The law give no authority to the VA to extend these benefits beyond these dates.

Originally, Korean Conflict veterans were eligible for 36 months of readjustment courses but now only 17 months will remain before the final deadline when school classes resume this September.

Don't Repeat This!

(Continued from Page 1) sive of Administration posts — Chairman of the Special Cabinet Committee on Civil Rights.

In manner, speech and appearance Aldrich is an excellent choice for the job. His calm voice and approach to the delicate problems involved in civil rights demonstrations has unraveled many a tense situation where "sit-ins" have taken place. While Rockefeller sets most policies in this area, he does trust Aldrich's independent judgment.

At 35, Aldrich has a public service career dating back to 1956 when he was named secretary of the New York City Police Department and, later, Deputy Police Commissioner in charge of the department's youth program. He went from City government to State service when he accepted the directorship of the State Division of Youth.

Noted For Integrity

Although not a spot-light seeker, Aldrich has come to the attention of numerous GOP leaders who have noted his ability as a trouble-shooter for the Governor in the civil rights job mentioned above. One Republican remarked to this writer that "one of Aldrich's greatest assets is ability to convince you at once of his integrity. He's got a rough task to perform and he's consistently come through. He has the confidence of Negro leaders in the community and is trusted by the people in CORE, NAACP, the Urban League and other organizations."

While Aldrich has primarily served in the administrative side of government, he is "exhilarated by the political side as well. He doesn't feel that, in his present position, he can indulge in politics. Looking ahead, however, he admits that he would "enjoy the chance to compete in the political arena." At the moment, he has no

definite plans.

He's Talked About

But Aldrich is definitely being talked about. To many GOPsters, he represents the type of well-educated, articulate young man that adds strongly to the party image. A graduate of Harvard College and the Harvard Law School, he also holds a degree in public administration.

One of readers wrote saying, "Aldrich is devoted to govern-

ment service and puts his whole heart into anything he does. He takes on responsibility willingly and I have yet to see a problem that held any fear for him. By one of two routes—executive appointment or election to office—Aldrich is a bright young man on the way up."

Prediction: Aldrich is a resident of Columbia County where U.S. Representative J. Ernest Wharton, who represents Columbia, Dutchess, Greene, Schoharie and Ulster

Counties, is reported to be planning retirement. Expect Aldrich to "be invited" to seek that Congressional seat in 1964. The Columbia County GOP organization will push for his nomination.

"FIREPROOFING" is a method of making normally combustible materials as nearly noncombustible as possible. It is achieved by coating or impregnating them with various chemicals or by use of asbestos, a mineral fiber which can be spun into stiff but wearable fabric. Asbestos clothing of the type perfected by Alban Simmons and others is used by firefighters and workers in industries where intensely high temperatures are used.

Pioneers in Protection

Just as fireproof clothing gave Man his first real mastery of oil-field fires and such roaring holocausts . . . so the STATEWIDE PLAN was the first program of protection against the costs of hospital, surgical-medical and major medical care for the employees of the State of New York.

This three-part program — Blue Cross, Blue Shield, and Major Medical — offers most State employees, active or retired, the most liberal benefits at the lowest possible cost. That's why more than 425,000 State employees and employees of many local subdivisions of New York State and their dependents are now subscribers.

If you are not a subscriber and would like all the facts on the STATEWIDE PLAN, see your payroll or personnel officer.

What's Doing

The City of New York has the opportunity to make a "dramatic planning breakthrough," in transit services, according to John M. Leavens, executive director of the Citizens Budget Commission.

The new breakthrough would be the use of "triple-tracking," which can increase "increase the rush hour capacity of a conventional four-track system to that of a six-track system of conventional design without major new construction."

Leavens said that "triple-tracking" would make superfluous some of the large construction programs to which the Transit Authority is committed.

The Parks Department is getting ready for its 17th annual junior olympic sports festival, to be held on Sept. 7 at Downing Stadium, Randall's Island. There will be some 53 events in track and field, gymnastics, weight-lifting, boxing and wrestling.

The Department of Air Pollution Control issued 87 percent more summonses in the first half of 1963 than in first six months

of last year. And fines levied by the Criminal Court increased by 83 per cent over last year.

From January to June, 1963, 9,702 complaints were received; 2,936 violation notices were issued; 806 summonses served; and \$18,755 in fines levied.

At least one City department has already broken Primary Day tradition. Up until this year, the Police Commissioner has issued Election Day instructions at a Police Headquarters conference.

This year, Commissioner Murphy took advantage of the city-operated TV station WNYC-TV (Channel 31). In addition to Murphy's instructions, an informative "Police Duties at the Polls" was presented. The program is being repeated daily at 4:00 p.m. until Wednesday, September 4.

At the request of Commissioner Murphy, all members of the force, including commanding officers, are attempting to view at least one of the telecasts. Those policemen assigned to election duties are said to be making a special attempt to "watch TV."

Employees of two City departments and one Federal agency are working together this week in order to distribute 100,000 FBI safety leaflets to elementary school children in public housing developments.

Members of the Housing Authority Police Force and the Police Department Youth Division will join members of the FBI on Wednesday, September 4, at the Gov. Alfred E. Smith Houses in Manhattan to distribute the leaflets to school-age children. After the youngsters have colored the 100,000 leaflets, the pictures will be distributed to the 112 public housing developments operated by the New York City Housing Authority in the five boroughs.

The 8 by 10 inch leaflet shows a drawing of a man, bag of candy in hand, lurking behind a tree. Approaching him are young children homeward bound from school. Printed under the picture are these rules: Turn down gifts from strangers; refuse rides offered by strangers; avoid dark and lonely streets; and know your local policeman.

Wichita, Kansas

Closed circuit television and a new chemical grout are expected to solve sewer leakage problems in Wichita. Under a new repair procedure developed by Guthrie Internal Pipe Repair, Inc., a television camera will be towed through the sewers while an inspector sits at a receiver noting down the condition of the pipes.

When leaks are found, a hydraulic packer will inject a grout into the leaking area, which will seal off the leak. Guthrie will do the work on a per-foot rate, and will charge separately for each repair job.

Washington, D.C.

A daily stenographer-typist examination which usually draws from 100 to 125 competitors daily was canceled last week because of traffic congestion. The Civil Service Commission's Examining Information Office in Washington canceled the competitive civil service exam in keeping with the D.C. Commissioners' request that Washington-area residents avoid coming downtown on the day of the Civil Rights March.

City Employees, CSEA March In Civil Rights Demonstration

(Continued from Page 2)

1,200 to Washington, with the Board of Education sending some 200 non-teachers, the Department of Parks 250, and Health Department 100.

Every city agency was represented. Twenty-six of the 28 staff members of City Commission on Human Rights attended.

The City Civil Service Commission was represented by Commissioner George Gregory, Jr., Arnold de Mille, director of Recruitment and Public Relations, and Margaret Parsons, a personnel examiner attached to the Recruitment Division.

William H. Johnson, president of the Guardians, a fraternal organization of New York City policemen, was chief marshal for the march assisted by Robert Lowery, president of the Vulcan Society of the Fire Department. He was accompanied by some 1,500 members of 16 Negro civil service organizations from New York, New Jersey, Westchester, Long Island, Nassau, Connecticut, and Philadelphia. They served as volunteer marshals.

The demonstration was designed to stimulate congressional action on President John F. Kennedy's Civil Rights Bill.

Following a meeting with the leaders of the March on Washington Movement, immediately after the demonstration at Lincoln Memorial, President Kennedy declared that "The cause of twenty million Negroes has been advanced by the program conducted so appropriately before the nation's shrine to the Great Emancipator, but even more significant is the contribution to all mankind."

But as the voice of each speaker echoed across the length of the mile-long poll at the foot of the Lincoln Monument and faded into

the stillness of the almost deserted downtown capitol, it became more and more apparent that the march was only the beginning of new efforts and greater demands for equal opportunities for all American citizens in every phase of American life. The demonstration left behind a ten-point program calling for:

1. Comprehensive and effective civil rights legislation from the present Congress — without compromise or filibuster—to guarantee all Americans

- access to all public accom-

modations

- decent housing
- adequate and integrated education
- the right to vote

2. Withholding of Federal funds from all programs in which discrimination exists.

3. Desegregation of all school districts in 1963.

4. Enforcement of the Fourteenth Amendment — reducing Congressional representation of states where citizens are disfranchised.

5. A new Executive Order ban-

ning discrimination in all housing supported by federal funds.

6. Authority for the Attorney General to institute injunctive suits when any constitutional right is violated.

7. A massive federal program to train and place all unemployed workers—Negro and white—on meaningful and dignified jobs at decent wages.

8. A national minimum wage act that will give all Americans a decent standard of living. (Government surveys show that anything less than \$2.00 an hour fails to do this.)

9. A broadened Fair Labor Standards Act to include all areas of employment which are presently excluded.

10. A Federal Fair Employment
