## For Politicians: Here's List of Vacant NYC Exempt Jobs

PATRONAGE is considered a big thing, of course, in the politics of any large city. The ordinary citizen anywhere in New York State assumes that New York City is simply riddled through and through with patronage; that thousands upon thousands of positions are "political," placed in the exempt class for the purpose of appeasing the woe of hungry clubhouse jobhunters.

It isn't quite like that, just as nothing about New York City is quite like the outsider's conception of it. The truth is that the number of exempt jobs in New York City comes to 514 (exclusive of department heads). And that includes the exempt jobs in the Mayor's domain, the Courts, and the City Council, out of a total employment roll exceeding 200,000.

Of this group of 514, there are 55 vacancies as this goes to press. Of course, that number doesn't represent all the pickings available to the politicians. There is the so-called "non-competitive" class, too, which allows the dumping of lesser political lights into jobs which couldn't quite make the exempt class. The non-com-

### STATE EMPLOYEE ACTIVITIES

#### Letchworth Village

D. BURT SMITH, who has been farm manager at Creedmoor for the past 12 years, has arrived in Letchworth to take over the duties of farm manager Leslie Ware, who is retiring from State service. A hearty welcome to Mr. Smith, and best wishes for good health and long life to Mr. Ware. Mr. Smith's daughter and her husband, by the way, are residents of nearby Stony Point.

Anthony Van Zetta, chapter president, has appointed chairmen of the various committees, and looks forward to an increase in chapter membership and activities. He attended the June 12 meeting of Southern Conference.

The employees' softball team, under the management of ex-president Raymond Schultze, has opened another season of fine entertainment by defeating a team from Haverstraw 9W Highway Diner, 4 to 1. Any teams in the Haverstraw-Letchworth vicinity who wish to challenge the employees' team should contact Raymond Schultze.

Hugh Grant, assistant farm manager, is seriously ill at the hospital. Henry L. Wever, business officer, and Mrs. Mattie Lou Gagan, are confined to the hospital after surgery. Speedy recoveries are wished them.

Memorial Day exercises were conducted on the lawn in front of Vanderlip Hall, with the Rev. Charles D. Fontansee of the Haverstraw Methodist Church delivering the principal address. The girls held a maypole pageant on the field in the afternoon; the boys held a carnival on the ball field; each had various games with prizes for the winners; and, of course, there were ice cream, hot dogs and soda. All seemed to have a grand time.

The North Rockland Little League baseball teams played at Letchworth recently for the benefit of everyone in the Village. Two games were played, highlighted by the performance of a lad named Gibney who had just

## DeGraff Sizes Up Employee Gains

The first two instalments of this report, published in previous issues of The LEADER, contained an overall appraisal of the session and a summary of the legislation affecting salaries and retirement. This final instalment will review the other bills relating to civil service employees and briefly outline Association objectives for the coming year.

By JOHN T. DeGRAFF, Counsel Civil Service Employees Ass'n.

The Retirement System always charged 6 per cent interest on retirement loans until the Association succeeded in having a bill enacted which reduced the rate to 4 per cent for members who joined the System before 1943 and 3 per cent for those who joined thereafter. This, too, was a temporary bill which has now been extended to July 1, 1955 by Chapter 206.

When the Association first sponsored these measures the Administration was unwilling to adopt them on a permanent basis because of the Constitutional provision which declares that retirement benefits are a contractual obligation which can not be diminished or impaired. They were, therefore, passed as temporary measures on a trial basis.

Experience has shown that the Association proposals were both constructive and sound and there is now no justifiable reason why they should not be made a permanent part of the Retirement System. Every effort should be made next year to reenact these bills on a permanent basis.

**State Commission on Pensions**  
Chapter 98 which establishes a seven-member State commission on pensions has received little public recognition although its long range implications make it, without question, the most important retirement bill of the session. What Governor Dewey has called "the next great advance" in retirement benefits will be the formulation of proposals to integrate or coordinate Social Security benefits with the existing retirement systems of the State.

A committee headed by H. Elliot Kaplan has already recommended such a coordinated plan for Federal employees and the consideration of similar proposals with reference to the State Retirement System will undoubtedly be the first order of business for the new State commission.

The Association has advocated the adoption of a plan which preserves all the present benefits under the State Employees Retirement System and supplements those benefits by extending Social Security coverage to public employees, so that retired civil service employees will receive either present benefits or Social Security benefits, whichever are the greater. This plan would particularly benefit employees with relatively "short periods of public service and employees receiving less than \$4,000 a year. It would also make survivors' benefits available to the family of any public employee and thereby remedy a serious deficiency in the present system, which provides for a maximum death benefit of only six months' salary.

To formulate such a plan and to coordinate it with the Social Security plan will not be easy, but the first step has now been taken to bring about major improvements in the public employee retirement systems in this State.

**Military Law**  
The Military Law was amended by Chapters 78 and 133 to clarify the section which permits a civil service employee to receive a leave of absence with full pay for a period not exceeding 30 days in any year when engaged in "ordered military duty."

An informal opinion of the Comptroller's Office had held that such employees are not entitled to any compensation if their ab-

sence exceeded thirty days. The Civil Service Employees Association promptly contested this ruling and these amendments insure employees the right to full compensation for a period of not more than 30 days, regardless of whether the total period of military duty equals or exceeds the prescribed 30 days.

**Educational Leaves of Absence**  
Chapter 408 provides that veterans of the Korean conflict who are eligible under the Veterans Readjustment Assistance Act of 1952 are entitled to a leave of absence from public employment, for a period not to exceed four years, to pursue or continue any course of study authorized by such act.

Chapter 409 gives any public employee a leave of absence, for not more than four months, to attend a military service school.

**Preller Commission**  
The Preller Commission on Revision of the Civil Service Law was extended to February 15, 1955. It will be recalled that the Preller Commission introduced, at the 1954 session, a comprehensive bill which redrafted and revised certain sections of the Civil Service Law. This bill was introduced for the purpose of study and consideration only, but will probably be brought up for passage at the 1955 session of the Legislature.

**Security Risk Law**  
The temporary Security Risk Law, originally enacted in 1951, was again extended for another year to June 30, 1955.

**Statement of Salary Deductions**  
Chapter 599 authorizes, but does not require, any municipality except New York City to furnish to an employee, upon his written request, a statement in writing of all deductions made from the employee's basic salary or wages.

**Protection of the Merit System**  
Almost every year, one or more bills are passed which attempt to give certain employees or group of employees competitive civil service status without examination. Governor Dewey has consistently vetoed such bills whenever they have come before him. This year, in keeping with his previous policy, he vetoed the Marro bill which provided that a confidential attendant to a Surrogate who had held such position for ten years or more should, upon the death or retirement of the Surrogate, be placed in the competitive class as a court attendant.

**Code of Ethics**  
(Chapter 695-698 incl.)

Four new laws were enacted to prescribe a code of ethical standards for public officers and employees. Governor Dewey has characterized these bills as "unique and unprecedented." Every public employee should recognize their importance and become familiar with their basic provisions.

The first bill prohibits State officers and employees from:

1. Making a contingent fee agreement for service to be rendered before a State agency.

2. Selling goods or services to a State agency unless pursuant to an award or contract let through competitive bidding after public notice.

In addition:  
3. Former State officers and employees are prohibited for a period of two years after termination of their State service from practicing before a State agency in connection with any case handled by them while in government service.

The second bill establishes a Code of Ethics for State officers and employees. Its basic tenet is that:

"No officer or employee of a State agency, member of the Legislature or Legislative employee should have any interest, financial or otherwise, direct or indirect, or engage in any business or trans-

Conservation Commissioner Perry B. Duryea (left) is shown with Chester V. Ackerley, general mechanic at the Belleayre Ski Center, which is administered by the Division of Lands and Forests. Mr. Ackerley received a \$500 merit award for design and construction of extension cleats fastened to the track of a crawler-type tractor to render it usable as a snow-packing device.

action or professional activity or incur any obligation of any nature, which is in substantial conflict with the proper discharge of his duties in the public interest."

In addition, it requires that State officers and employees:

1. Publicly record in the office of the Secretary of State ownership of interests in excess of \$10,000 in activities subject to the jurisdiction of certain State regulatory agencies;

2. Refuse private employment which would impair independence of judgment in the exercise of official duties or require the disclosure of confidential information acquired in the performance of official duties;

3. Avoid situations which are likely to give rise to the impression of improper influence or which may otherwise create or suggest the existence of a substantial conflict between the responsibilities of public office and the private interests of the office holder.

The third bill requires that a public docket be kept by State agencies listing the persons who appear before them on behalf of a client for a fee.

The fourth bill authorizes the Attorney General to appoint an Advisory Committee on Ethical Standards to which he may submit inquiries and requests for opinions covering officers and employees in the executive branch of the State government. The Committee is authorized to make recommendations for revisions of the Code of Ethics and to assist State agencies in establishing rules concerning conflicts of interest.

#### Pari-Mutuel Employment (Chapters 514, 515)

In the climate engendered by the harness racing investigation two bills were passed which imposed a multitude of restrictions upon certain financial and other interests in pari-mutuel racing and related activities of public officers and employees. One of the provisions in Chapter 514 has imposed a severe hardship upon a number of State employees and has resulted in a completely unjustifiable discrimination between State and local employees.

The new law provides that no public officer or employee shall be employed by any firm or corporation which conducts pari-mutuel racing, or is licensed to conduct its business at race tracks. The law contains a separate provision which exempts city and county employees, except those in law enforcement agencies and those receiving over \$5,000 per annum, if the local legislative body specifically authorizes such employment by local law or ordinance.

Several units of local government have since enacted local legislation which permits their employees to accept such part-time employment. Thus, State employees receiving salaries of less than \$5,000 per annum are barred from part-time employment as cashiers, sellers, and calculators as well as from working in the food concessions and parking lots while local employees in comparable positions are permitted to continue their part-time employment.

Numerous hardship cases have been reported to the Association including one low paid employee

## Transit Workers Will Win Full Raise;

**THE PRESENT LABOR TROUBLES** in the Transit Authority are only a skirmish in a campaign for higher pay that the transit workers are bound to win. They have a strong case for the raises they seek, but as the cost would run deep into the millions, and the TA is showing only a few millions profit a year, there is no present possibility of complete attainment at this stage.

The City government is hard-pressed for money, and later will have to find new sources of revenue and increase existing tax rates. For the present, the budget and the added taxes for financing it are practically set. While the TA is a lessee of the City transit system, the owner always has to worry about the lessee paying his expenses, even if the law prohibits the TA from running up deficits.

### WHO PAYS WHAT

The transit system is being operated under a 10-year lease that started June 15, 1953, and continues after 1963 on a year's termination notice. The City loaned the TA \$10,000,000, to be repaid in nine equal installments. The first bill falls due on July 1. It will be paid. All the maintenance and operation costs are borne by the TA. The City's only financial obligation is on claims against the predecessor Board of Transportation, and the financing of new construction, as capital projects, of which power house improvements are now the main ones. The TA must be self-supporting. It has no place to turn for money except fares, and the incidental revenue from advertising and concessions.

Since the TA will not be able to look to the City government itself for more money, and since the large income source of the TA is fare, if the workers' pay requests are to be met in full, the fare must be raised.

Take it for granted NYC will have a 20-cent fare, though not this year.

### FOUNDATION MUST BE LAID

To put through a fare increase is a delicate and critical operation, with political as well as public aspects. The Mayor is on the spot no matter what technical separation of responsibilities any law may attempt. No Mayor and no TA Commissioner wants to raise the fare. Mayors and Commissioners will emphasize their opposition to a fare increase, but when necessity leaves no choice will reluctantly approve or vote for it. If the employees are to get all they seek, the law creating the TA makes a fare increase inevitable.

An impartial committee appointed by the Mayor recommended a pay scale Michael Quill, president of the Transport Workers Union, found acceptable, even though a TWU meeting later hollered for more. The TA later offered less than the committee figures, raised the offer, and no doubt will raise it again. This would be part payment on the ultimate amount that will require a fare increase.

The employees have no interest in anything connected with their present plight except money. The Condon-Wadlin law, that prohibits strikes by public employees, though unpopular with their leaders, does not interest the members at large.

### DANGERS INHERENT IN STRIKE

Any strike is dangerous, even a lawful one; unless won quickly, it is lost. It is a fast-action device, either way. A strike that lasts a week is a disaster to employees. A strike on the City's transportation system that lasts even one day enrages the public against the union, the same public that would have to pay higher fare to provide the full wage increase.

No more provocation than a strike is needed to unite groups of far larger membership, resources and political value than the TWU, such as civic, taxpayer, parent, real estate, home-owner and other groups, in a No-Fare-Increase campaign. That would ruin the hope of achieving the full salary increase. The political power of the TWU, always strong, and which won a substantial raise during the previous administration, would be eclipsed, and the TWU become a political liability to any Mayor.

### COMMISSIONERS SHOULD BE PAID

While the employees are making just demands, the Transit Commissioners themselves would have an even better case, did they choose to wage it. They run a \$269,000,000-a-year enterprise on a once-a-week meeting basis. It is silly to have five Commissioners shoulder all that responsibility, and not be paid one cent of salary, and sillier to consider so big a job merely part-time. The Governor does not sign laws that are silly, or that have silly provisions, but when he signed Chapters 200 and 201 of the Laws of 1953, he could not have been himself.

## Civil Service Begins to Unbend

**THE BROADENING** of discretionary powers in civil service administration, long an obviously destined shift from increasing rigidity, already has begun. It manifests itself in release of some of the chains with which Civil Service Commissions have bound themselves, in the increase in the number of positions put in the exempt (Schedule C) class of the Federal service, in the disposition of the courts not to decide cases in a way that makes civil service administration impossibly difficult, and in the inclusion of top-level jobs in the non-competitive class.

### HUNDREDS MORE EXEMPTED

While there is no flux in the number of exempt jobs in either the State or local governments, including NYC, the U. S. Civil Service Commission is gradually increasing the number, by shifts from either Schedule A or the competitive service. The most recent U. S. example is the putting of several hundred jobs in the Refugee Divi-

# Salary Question Box

As a service to its readers, The Civil Service LEADER presents a question box where questions concerning the new State salary plan can be asked and will be answered. Your questions are solicited. They will be referred to the staff of The Civil Service Employees Association and to State officials. Questions of general interest will be answered here, and those that are applicable to individuals only will insofar as possible, receive a direct mail reply.

**QUESTION:** I would like to know if the laborers in Public Works District No. 8 are included in the recent State pay raise. If so, what pay raise will they get, since there is no title involved? Would a person with 22 years of service get any more pay than those with less if they are both listed as laborers?

**ANSWER:** One of salary bills enacted into law authorized the Director of the Budget to adjust salaries this year for employees who are not included in the "classified" service. This would include the hourly and per diem State employees. We would like to point out that this enabling legislation does not mandate but does authorize this action. We do not know what adjustment laborers are going to get yet. The extra step increment applies only to State employees allocated to the regular salary grades, but the recent salary laws do not prohibit extra pay based on length of service.

**QUESTION:** I have been on leave of absence from State service for the past fourteen months. I was at my maximum on April 1, 1949. Am I eligible to receive the extra increment?

**ANSWER:** We cannot answer that question without more information as to whether or not you were on leave without pay or with pay. Generally speaking the rule for eligibility for the extra step with reference to the leave of absence problem is this: If you had sufficient service to entitle you to an increment if you had been eligible to receive it, then it would count toward your eligibility for the extra step increment. Unless you were paid for 5½ months of service in each fiscal year, it is insufficient for you to have earned an increment. Generally speaking, people who are on leave with pay would be earning increment time. We can give you an answer for your own specific case only if you will provide us with specific information.

**QUESTION:** I am an unemployment insurance reviewing examiner and have been at my maximum since April 1, 1949. Early in 1952 I received a temporary promotion to senior unemployment insurance reviewing examiner, with a pay increase that brought me up to the minimum of the higher title. Subsequently I resumed my duties in the position of unemployment insurance reviewing examiner. Will this temporary promotion and increase in salary for the period I held the higher title affect my eligibility for the extra step increment?

**ANSWER:** No. However, the time you served in the higher position would count toward the extra step in your permanent title.

## June 19 Event Expected To Be Best in Annals Of Central Conference

Plans are now complete for a gala chicken barbecue get-together of State and County employees on June 19 at the North Pavilion of beautiful Taughonnock State Park on Lake Cayuga.

The Central Conference meeting and the County Workshop will precede the barbecue, starting promptly at 1:30 P.M. Officers for the ensuing year will be installed at the Central Conference meeting. Both groups will get together for the barbecue at 6 P.M., when installation of chapter officers will take place.

It is anticipated that this will be the outstanding event in the annals of Central Conference history, with an attendance of at least 350 members and guests. Music, community singing and entertainment will be provided at the barbecue.

Edward Limner, Willard State Hospital chapter, heads the affair as chairman, with the able co-chairmanship of Arthur Davies, Cornell State College chapter, and their various committees. Committee members have worked diligently and arduously to make the meeting and barbecue a success.

There is still time to enjoy the affair with the folks from the beautiful Finger Lakes Region by contacting Harriet Chaffee, 203 West Seneca Street, Ithaca, for reservations. This must be done immediately so there will be enough of that good barbecued chicken for all.

In addition to the distinguished guests invited to the affair, it is expected that Mr. and Mrs. William Greenauer and Mr. and Mrs. Paul Hammond of Long Island will attend.

## All State Employees in New York Metropolitan Area Invited to Attend Jones Beach Affair on June 26

The annual luncheon, installation of officers, and outing of the Metropolitan Conference, Civil Service Employees, will be held Saturday, June 26 at Jones Beach State Park.

Queen of the Metropolitan Conference beauty contest and runners-up will receive gifts, and Conference bowling trophies will be awarded.

The registration of guests and members will start at 11 A.M. in the lobby at the west end of the Marine Dining Room, located at the West Bath House.

Conference officers will be installed at 12 noon at the Marine

Dining Room. The luncheon will be held in the Boardwalk Cafe, starting at 1:30 P.M.

**Where to Get Tickets**  
Tickets for adults are \$2.50 each, including gratuities. Special children's luncheons, \$1 each, will also be served. Tickets for the luncheon may be obtained from Conference Secretary Edith Fruchthendler, care of Public Service Commission, 233 Broadway, New York 7, N. Y. Checks should be made payable to the Metropolitan Conference.

The Conference has invited officers of the statewide Association to attend, and invited President John F. Powers as installing offi-

Service pins were awarded to employees of Warwick State School, at a gathering in the social rooms. A. Alfred Cohen, school superintendent, is shown presenting a ten-year pin to Mrs. Anne R. O'Malley. Other recipients, left to right, are Frances Horton, Margaret Wilson, president of Warwick chapter, CSEA; Helen Middletown, Fredrick Appleton, assistant superintendent of the school; the Rev. Cadd Cuffee; Pedro America (foreground), Norman Gates and John Logan. Sixteen other employees were also honored with pins.

recovered from polio. Not only did he pitch well, but hit a grand-slam home run to win the game, 4 to 1. Nick Gamboli, boxing judge of the State Athletic Commission, did a fine job at the loud speaker. Johnny Burns, a State Commission referee, was on the sidelines, along with Jimmy Ross, co-manager of the Letchworth Village Little League; both were feverishly taking notes to apply to their own teams.

#### Rehabilitation Hosp.

**THE ANNUAL** dinner meeting of Rehabilitation Hospital chapter, CSEA, was recently held at Julie's Restaurant with approximately 100 attending. Music was furnished by James Rist's orchestra, and an interesting program was prepared by the entertainment committee, which was headed by Kathryn Glass. Miss Glass was presented with a gift in recognition of her faithful service on this committee during the past two years. The retiring president, Helene Lummus, was also presented with a gift for her service during a successful term in office.

Guests included the Association field representative, Charles R. Cuiyer, who installed the newly elected officers of the chapter, and Mrs. Dorothy Browning, 4th vice president of the Southern Conference.

The officers are: Margaret O'Neill, president; M. Bryan Person, vice president; Cecelia Byrnes, secretary; Helene Lummus, retiring president and treasurer-elect.

George Stephenson is chairman of the grievance committee, Mrs. Elizabeth C. Clark chairman of the publicity committee.

#### Rockland State Hospital

**THE** May meeting of Rockland State Hospital chapter, CSEA, was held at the hospital in Home 29. President: Emil M. R. Bollman presided.

Henrietta Kothe, chairman of the sick and welfare committee, reported that 53 "get well" cards and three floral sprays were distributed since the April meeting.

The membership report submitted by Henry Marier, chairman of the membership committee, showed a total of 1,049 members in the Civil Service Employees Association and 466 in the Mental Hygiene Employees Association.

A communication from the State CSEA headquarters was read encouraging all chapters to submit before August 20 any resolutions that they desire to be considered by the delegates to the 44th annual meeting, which will be held in Albany on October 13 and 14. The chapter officers urge members to attend meetings and make their voices heard in the choice of subjects they desire the delegates to bring before this meeting.

The Blue Cross — Blue Shield payroll-deduction plan was discussed in detail. The chapter is happy to know that a majority of the employees have taken advantage of this beneficial program. Enrollment in this plan will be continuous. Any employee who is interested and who perhaps was off duty at the time the canvassing took place and who wishes to join may obtain an application card from his supervisor or department head or from any officer of the chapter. After it is properly filled in, it may be forwarded to the Rockland State Hospital personnel office or to the chapter president.

Lewis C. Van Huben, chairman of the nominating committee, presented the slate of candidates for office: Henry Marier, president; William Clarken, 1st vice president; Dorothy Roth, 2nd vice president; Rebella Eufemio, secretary; and Irene Gowett, treasurer. There were no nominations from the floor. This report will be carried over to the June meeting, at which time the official balloting will take place.

The next meeting of the chapter will be held on June 16 at 7:45 P.M. in the Association Rooms at Home 29.

The newest chapter members are Lieban Cordova, Ethel Lee Jones and Jacqueline D. Holmes. Welcome, Membership has passed the 500 mark, never before achieved, and continues to rise.

The chapter is sponsoring a bus ride to Jones Beach on Civil Service Day, June 26. Buses leave 125th Street and Lexington Avenue at noon. The program will include luncheon, bathing in pool or ocean, the new Guy Lombardo musical extravaganza, "Arabian Nights," archery, shot putt golf, the Indian Village, roller skating and dancing under the stars. Tickets, \$7 each, must be purchased at least a week in advance, to permit the committee to make necessary arrangements. For tickets, call John Wallace, Con Downing, Ext. 169, or Thomas Gallagher or Joan Purtell, care of business office.

Get well wishes to Mrs. John Casey, Nils Skunes, Ray Hart, Nellie Flavin and Owen Steele.

Deepest sympathy is extended to Arthur Gillette, business officer, on the death of his brother.

The hospital patients' baseball team lost a tough game recently to Letchworth Village, 8 to 4. The many patients who witnessed the game enjoyed fine weather and an interesting game. They are looking forward to victory for the home team in the coming games.

The patients' baseball team took a good shellacking recently from Creedmoor State Hospital's patients' team, 14 to 1. But the boys aren't taking this lying down, will show their talents in the next game when they meet Kingsbridge Veterans Hospital.

Michael McNamee Jr. was among the 426 students of Pace College, NYC, who received degrees at commencement exercises at the Waldorf-Astoria Hotel. Congratulations to Mike Junior and his parents. Michael Senior has been an employee at Manhattan State for a good number of years.

Deepest sympathy is extended to Arthur Gillette of the business office upon the loss of his brother, and to Angela Cahill on the death of her brother.

Seventy employees of the hospital received 25-yr. service pins at ceremonies June 10: Dr. Maxwell Bloomfield, Mary Bonfield, Thomas Clark, Thomas Clinch, Mary Connelly, Ruth Connor, Henry Cunningham, Patrick Dacres, Dr. Gerson Davidson, Anna Devaney, Kathleen Donnelly, John Drumm,

# THE STATE SCENE

CAN a State employee be fired for incompetence while unable to work because of a compensable disability?

That question has been answered, this column can report, but not in the way that satisfies the Civil Service Employees Association.

In an unprecedented case recently, Catharine Rudolph was dismissed from her job as a stenographer for the Buffalo State Teachers College, although under the Workmen's Compensation Law her inability to type was "compensable."

The CSEA, representing about 56,000 State, county and local employees, jumped into action. Assistant Counsel John J. Kelly Jr. attacked the dismissal as "improper and illegal." It was the first time, incidentally, that the CSEA legal staff had taken a dismissal case in behalf of the Association, rather than on an individual basis.

Mr. Kelly appealed to the State Civil Service Commission to reverse the decision by the State College officials, pointing out the ramifications of the case went far beyond the individual involved.

The Commission refused, despite the arguments by CSEA's Mr. Kelly that the dismissal, if necessary, should have been for "incompetence."

Miss Rudolph had developed a sore right hand that prevented her from typing. It had been ruled "compensable," but since she did not have the full 15 years' service required by law, she couldn't qualify for a disability retirement.

University officials replied they had offered Miss Rudolph a clerk's job, which she had declined.

There may be another chapter to the story, but, as of now, the Buffalo action stands, with the approval of the new Civil Service Commission.

**THERE'LL BE SOME CHANGES MADE** — New jobs, including a deputy commissionership, are slated for the NYC office of the State Insurance Department under a reorganization plan worked out by the department in cooperation with the State Budget Division. Much of the survey work was done by Donald Axelrod, new head of the Budget's administrative management unit. He succeeded William M. Arnstein, a top ranking budget official for years before his "retirement" to accept a consultant job with the Bi-State Waterfront Commission.

**PAROLE PROMOTIONS** — Six employees of the State Parole Division received non-competitive promotions recently to rank as senior typists. All are assigned to State prisons. They are: James P. O'Neill, Irma M. Alloway, Edward E. Ellis, Donald Scott, Elizabeth M. Donovan and Marion L. Shader.

**ROUNDUP** — Newton F. Roman has been appointed acting district engineer of the Albany office of the State Public Works Department. Permanent appointment to the post will be made after the November elections. . . Lewis M. Mullarkey, Amsterdam, is the new Children's Court Judge for Montgomery County, by appointment of Governor Dewey. . . Dr. Edward H. Morgat, Niagara Falls, has been named coroner, another Dewey appointment. **WHEN 100 employees of the**

## 12 More NYC Tests on Way

The NYC Civil Service Commission has ordered the following exams:

### OPEN-COMPETITIVE

- Auto mechanic.
- Electrician's helper.
- Fire telegraph dispatcher.
- Housing fireman.
- Information assistant.
- Inspector of steel (shop), grade 3.
- Parole officer, grade 1.
- Stationary engineer.

### PROMOTION

## U. S. Summer Jobs for Undergraduates Found Boon to Recruitment

More opportunities for women graduates for careers in Federal service is one of the objectives of the College-Federal Agency Council, Second Region, U. S. Civil Service Commission (New York and New Jersey). Another is to improve the attitude of students and others toward Government employment.

The Council is headed by John J. Theobald, president of Queens College. The Council's director is James E. Rossell, who is also director of the Second Region, U.S. Civil Service Commission.

Among the accomplishments of the active Council are the junior management development program and the summer-job program. A week of orientation is followed by rotating assignments in a student's own agency and there are seminars besides in the development program. The eligible list being used is junior government assistant. The junior management assistant list is being used only by the Commission's Washington, D.C. headquarters to fill jobs in that locality, and in the field.

The problem of hiring students at campuses is still unsolved. Experiments have been made with various techniques. One of them was to have several Federal agencies try to hire prospective graduates. When there were more than

two agencies, the plan did not work well. Otherwise campus recruitment has been fairly satisfactory.

Improving recruitment in scarce categories is another unsolved problem. The Council feels certain a solution will be found, but does not expect one in a hurry.

Student aid examinations have proved productive. Students of government and social science, as well as those taking physical science courses, were examined. A student who is appointed works for the Government during the summer, starting early in his college career. He gets to know and like the work. As he has been hired as the result of competitive examination, even for the summer job, upon graduation from college he begins working full-time for the Government.

The Geological Survey, the Department of Agriculture, and the U. S. Engineers, fill summer jobs in New York.

"There is no reason," said Mr. Rossell, "why other agencies should not use students during the summer, to acquaint them with the work."

Narrowing down the candidates to those trained in desired specialties is limited because of the U. S. law that prohibits specific educational requirements unless the Civil Service Commission itself has determined the position to be one requiring formal education.

### Would Avoid Mad Rush

As soon as these two problems are solved, the Council expects exams for undergraduates to become commonplace throughout the country.

The first Council was organized in Denver in 1947. The only Council active now, besides the one in the Second Region, is that in Southern California.

"As the result of undergraduates working as student assistants," said Mr. Rossell of the summer-job plan, "we already have evidence of the good-will it is creating on the campus. These students return to the campuses and generally portray a quite favorable picture of how their government is operated. The word gets around. The prestige of the Government and of its employees is thereby enhanced. The Government will be the greatest beneficiary when the plan is universally adopted, as the operation would cut down the mad rush for seniors and the attendant confusion caused by recruiting for those about to be graduated."

The Council also induces colleges to give courses that equip students to fill Federal jobs.

There are no exams open now for these opportunities. The application period is usually open in the fall, for the summer jobs. Those planning to go to college, or who are college freshmen, who seek summer jobs that turn into steady ones on graduation, should look forward to applying.

## The Really Explosive Issue

AS THIS goes to press, relations between NYC employees and their administrators were at explosive levels. Nearly 1,000 stewards representing men in the Sanitation Department at a meeting last week were ready to take any action, up to and including strike, so "hot" were they on what appears to be essentially an elementary issue: the same issue that confronted the transit men.

The basic issue wasn't salary; it wasn't working conditions.

The real issue was: do employees have the right to sit down with the administration as equals and talk about their grievances? The employees were asking what seems to be an elementary right of every American citizen. The denial of that right provoked a reaction that ran through the whole City employee structure like a radioactive substance.

There has been a lot of talk in New York City about labor relations procedures. Some tentative steps have been taken. One interesting little sidelight: Just last week there appeared the "Preliminary Report on Labor Relations in the Municipal Service" prepared by the City's Department of Labor. The point made in this study is that collective negotiation can, should and must be a part of the City's relationship with its employees.

Of course!

## Same Pay for Same Work — Even Women

STATE officials engaged on setting up new salaries and grades are in the midst of their efforts; by August it is expected there will be final—or at least semi-final—figures. The rates of pay and the new grades for some groups are already known. We would like to suggest to the Classification and Compensation Division that two long-standing irritants be removed now, before they flare up again.

First, custodial employees in Dannemora and Matteawan State Hospitals ought to earn salaries as prison guards and other custodial titles in the prison service. The facts show that the work is equally trying, difficult, and hazardous. Some of the Dannemora and Matteawan people argue it is even more dangerous, because their charges are both criminal and psychotic.

Second, adjustment needs to be made in the pay of women employees at Albion and Westfield, on the principal of equal pay to women and men. This is long overdue, and there is no good reason why it should be any longer withheld.

## DONGAN GUILD AWARD MADE

Louis G. Stubenvoll Jr., a student at St. Margaret's Roman Catholic School, Riverdale, is the winner of the Dongan Guild's competitive scholarship examination. William Seidl, chairman of the scholarship committee, made the announcement at the Guild's annual June First Friday Dinner. The winner's father is employed by the State Insurance Fund in NYC.

The Guild is composed of Catholic employees of New York State.

Catherine C. Hafele, Guild president, expressed the hope that in the future additional scholarships may be awarded. This was the first scholarship exam conducted by

the group.

The Rev. Thomas Dunn of Cardinal Hayes High School, was principal speaker. Thomas J. Curran, Secretary of State, was toastmaster.

Guests included: Niles Becker, Deputy Commissioner, Motor Vehicle Bureau; James Amadel, Workmen's Compensation Board; Nelson Magnus, president, Chapter 33, St. George Association; and John P. Powers, president, Civil Service Employees Association.

Lawrence Meighan was general chairman of the dinner, assisted by Mrs. Mary P. Broderick, Mrs. Gertrude Heege and Lawrence Cluen.

### WHICH TEST SELECTS MOST COMPETENT?

Editor, The LEADER:

I read with interest a recent letter to the editor which raised certain issues concerning the recent examination for unemployment insurance claims examiner. In order to set the facts straight, I wish to present the following information. During the years 1952 and 1953, a research study of exceptional scope was carried on by the Department of Civil Service, in cooperation with the Division of Employment, to decide which type of tests would do the best job of selecting the most competent persons for positions as employment interviewers and unemployment insurance claims examiners. This study is described in more detail in the 1952 and 1953 annual reports of the Department of Civil Service. A random sample of over 800 employees of the Division of Employment was tested and relationships between scores on various types of tests and job performance and advancement potential were calculated. This study showed that special aptitude tests such as those used in the morning session of the recent examination for unemployment insurance claims examiner, even if used alone, would do a better job of selecting the best candidates than did the former tests on details of the State Unemployment Insurance Law. The special study also indicated the most effective weightings for the various aptitude tests selected for actual use. Furthermore, the aptitude tests were not used alone in the actual examination, but in combination with an afternoon test consisting of traditional subject matter questions given equal weight in the hope that a combination of both kinds of tests might be better for the service and more acceptable to promotion candidates than the better aptitude tests alone.

Since the major purpose of civil service examining is to hold examinations which will select the best qualified and most competent personnel to staff the government service, and since all of the extensive research evidence available indicates that the recent examination will serve that purpose better than any previously used type of examination, I believe that the writer's characterization of the examination as unrelated to the job is unfortunate and incorrect.

THOMAS L. BRANSFORD,  
Director of Examinations  
State Civil Service Dept.,  
Albany

### BIGGER STAFF FOUND NECESSARY IN NYC

Editor, The LEADER:

It was all right to reorganize a well-staffed State Civil Service Department, but the reorganization of the NYC Civil Service Commission will prove of little value unless a numerically large enough staff is provided to cope with the heavy and mounting workload, and salaries are made commensurate with duties.

P. L. WEST  
Brooklyn, N. Y.

### STATE PAY OUTCOME HAD BETTER BE GOOD

Editor, The LEADER:

The result of the conversion of State pay, under the complex formula that is giving everybody a headache, had better be good, or there will be plenty of room for mirth that so much effort was required to conjure up a mouse.

WARREN OLDER FORCE  
Watertown, N. Y.

### SENATORS SEEK BENEFITS FOR WOMEN'S SURVIVORS

WASHINGTON, June 14 — A group of Republican Senators is backing a proposal to give the same benefits to survivors of women employees as now are received by men's survivors. The Senators state there are 340,000 women members of the U.S. Civil Service Retirement System, and they deserve the same consideration for their survivors, because paying the same rate the men do.

### MEN SEEKING HATS FLOCK TO WASSERMAN'S

Civil service employees are taking the NYC back streets to Abe Wasserman's again. His tiny shop in the Bowery Arcade, off 16 Elizabeth Street, just behind the Foley Square center, is the bargain spot in town for men's hats. Top name brands of imported panamas are selling for as little as \$3.50.

## Don't Repeat This

(Continued from Page 1)

petitive class is just what it says—you get the job without having to compete for it. There may be a simple examination, to show for example that the man who has to look at books all day knows how to read; but it's nothing to phase the individual who has mastered the routine of clubhouse living.

**The Grab-bag Class**  
Then, too, there is the grab-bag class of provisionals—employees tossed into jobs without any real restrictions, ostensibly until an eligible list for the position sees the light of day. There's a limit of six months upon the amount of time one may be a provisional; but in practice that six months often extends into years.

Not every non-competitive and provisional appointee is political—far from it. Some agencies are so desperate for employees than any acceptable candidate who comes along can be put to work right away. Nevertheless, there are these various reservoirs of jobs available to the politicians.

Now here's the listing of current vacancies in the exempt class, the top class in the City's public service. Significantly, no official salaries are listed for these jobs, which means that the Board of Estimate is still on frequent occasions able to do some fixing of pay in terms of who gets the post, within limits of course.

### The 55 Vacancies

**Next week, Don't Repeat This** will list every one of the exempt jobs in City service, together with the name of the individual now holding the position, the salary he gets, and the date showing when he was appointed.

### AGE 63 RETIREMENT FOR POLICE AGAIN UPHOLD

The Appellate Division, First Department, without opinion, affirmed the State Supreme Court decision upholding the constitutionality of the Local Law requiring retirement from the NYC Police Department at age 63. Since a question of constitutional law is involved, the petitioners have a right to appeal to the Court of Appeals.

### AWARD TO BE MADE FOR MOST AID TO HANDICAPPED

The President's Committee on Employment of the Physically Handicapped will make a special award to the personnel officer of a public agency who has made the greatest contribution to the employment of the handicapped.

## Question, Please

**UNDER WHAT** plan will the current NYC reclassification be operated? Investigation of duties first, or reclassification by pay and titles, with investigation of duties to follow, if needed. L. P.

**Answer**—In the interest of getting the reclassification started without still more delay, while there will be some discussion of duties—for instance as will arise in the answers to the questionnaires being sent to departments and others—the pay and title method will be used, unless plans are changed. The investigation of duties will be made only if there is any real doubt or disagreement, as in the case of work being done out of title.

**IN CASE** of transfer, what grade does an employee get in U. S. service? Is it necessary to be on an eligible roster to be transferred? L.M.

**Answer**—Employees with competitive status need not be on a civil service register to be considered for a transfer, but may be transferred, reassigned, or reappointed to other jobs in the competitive service without again taking a competitive examination. They must, however, meet qualification standards and requirements applied in making noncompetitive actions. A permanent employee who transfers without a break in service generally is given status in his new agency at the

grade or level of his last permanent job in the agency from which he transfers, unless he transfers to a lower-grade job—in which case he has permanent status at the lower grade. If he transfers to a grade that is higher than his last permanent grade, he holds the higher grade on an indefinite basis, except that his new agency may make him permanent in his new grade under certain conditions. An employee who is reached for reduction in force at his "indefinite" grade then competes at his permanent level with other permanent employees in his new agency. The transferring employee should give adequate notice to his old agency, and the appointing officer of the agency to which he transfers will want assurance that the old agency does not object to the action. Under certain circumstances, non-careerists may move from one agency to another, but technically this is not a transfer.

**AS I AM** a veteran, employed by NYC, may I retire at age 50, and begin drawing a pension? P.L.

**Answer**—Yes, but there is no advantage in it, as you would have to pay both parts of the cost for the period between age 50 and your minimum retirement age, say, 55, plus interest. You could retire advantageously at 50, and wait until you attain minimum retirement age, before beginning to draw a retirement allowance.

**THERE IS NO NEED  
ON ACCOUNT OF ACCIDENT OR SICKNESS  
FOR YOU TO BE  
without  
your  
pay check**

**PROTECT YOURSELF THRU SMALL PAY DAY DEDUCTIONS  
THERE IS AVAILABLE TO QUALIFIED PUBLIC EMPLOYEES A LOW  
COST PLAN OF ACCIDENT AND SICKNESS INSURANCE**

***Here Are Important Facts About The Plan:***

The Civil Service Employees Association Plan of Accident and Sickness Insurance sponsored by The Civil Service Employees Association, Inc., now underwritten by The Travelers Insurance Company, Hartford, Connecticut, and administered by Ter Bush & Powell, Inc., 148 Clinton Street, Schenectady, New York, pays an indemnity for loss of time during total disability due to sickness or accident. The details of coverage are set forth in a brochure, available to anyone upon request to Ter Bush & Powell, Inc., in Schenectady, which describes the coverage of the policy issued to qualified risks by The Travelers Insurance Company. This policy is approved by the Insurance Department of the State of New York.

An Insured can receive anywhere from \$75.00 per month up to \$150.00 per month, depending upon his or her annual salary, during periods of total disability and he or she can use this money to pay doctor's bills, hospital bills, buy groceries, medicines, etc. This money is paid in addition to any other insurance the Insured may have, whether it be from hospital insurance, group insurance or any other form of income.

This insurance covers whether you go to the hospital or not, while HOSPITALIZATION insurance is limited to payment of all or part of your hospital bill.

Don't confuse The Civil Service Employees Association Plan of Accident and Sickness insurance with the various hospitalization insurance plans which are being offered today. These hospitalization policies afford certain coverages and protection while you are in the hospital. Some of them pay part of your hospital bill, some of them pay most of it, and in some cases all of it. Actually, the two plans together make complete coverage, but if you cannot afford both, remember that even during a period of a serious illness your time in the hospital may be very

limited while your period of total disability may be lengthy.

The Accident and Sickness Insurance Plan sponsored by The Association, which has been in force for more than 17 years, gives excellent coverage to qualified employees in relation to the cost of the insurance. Since 1943 the coverage has been improved and broadened on several occasions but there has been no increase in cost.

Sickness and Accident Insurance is an important item because when you are sick, even at home, there is extra help necessary, there are doctor's bills to be paid, special medicines which are very expensive, extra and particular groceries, and many other items.

There seems to be an impression among some members of the Association throughout the State, now that payroll deduction is being extended to cover certain hospitalization plans, that these plans replace the Accident and Sickness Plan sponsored by the Association. This is not so, and our representative or your Association field men will be glad to explain why it is to your advantage to retain or apply for the disability coverage which is available only to qualified Public Service Employees.

More than 24,000 public employees in the State of New York and members of The Civil Service Employees Association, Inc., are now covered under this very broad, low cost plan of Accident and Sickness Insurance, paying them when totally disabled, whether or not they go to the hospital and providing in addition many special benefits for non-disabling injuries.

If you are not already insured, write a letter to me at 148 Clinton Street, Schenectady, New York, and I will be most pleased to give you a complete brochure and application that you, too, may apply for this insurance.

## \$87 Insurance Examiner Jobs Offered by State

ALBANY, June 7—Jobs as junior insurance examiner, entrance career position in the insurance examining field with the New York State Insurance Department, are being filled through a nationwide examination open indefinitely to any qualified citizen of the United States.

Junior insurance examiners help examine insurance companies and prepare reports. The jobs are located in NYC and Albany, but involve field work. Persons appointed may have to travel throughout the U. S.

Salary starts at \$4,512 and rises to \$5,339 in five annual increases. Higher jobs with the department are filled by promotion.

Apply to the State Civil Service Department, State Office Building, Albany, N. Y. As far as practicable, the department will hold written tests at time and places convenient to candidates.

Candidates need a year of recent, full-time paid experience in an insurance company, insurance regulatory agency, public accounting firm, or actuarial consulting firm in responsible work either maintaining or auditing insurance company books or accounts, or making actuarial computations for setting premium rates and computing reserves. In addition, they need either four more years experience or appropriate college training to qualify. The examination announcement contains the detailed qualifications required.

## 3 More Questionnaires Sent Out in NYC Job Study

President Paul F. Brennan of the NYC Civil Service Commission announced that the nineteenth questionnaire dealing with the reclassification by NYC has been sent to City departments, and employee, professional and civic organizations. The questionnaire concerns recreation positions.

These questionnaires ask opinions on the existing Recreational Service classification, and the classification of similar titles as proposed by other surveys.

In addition the Commission's own tentative proposed reclassification of this service is offered for discussion.

Comment on the questionnaire is to be submitted by June 30.

A questionnaire dealing with the menagerie positions was also sent

out, giving the Commission's tentative proposal for reclassification: Rank I, menagerie keeper; Rank II, senior menagerie keeper; Rank III, supervisor of menagerie. July 9 is the deadline for return of the questionnaire.

The twenty-first questionnaire in the series, concerning positions in the Radio and Television Service, was sent to appropriate City departments, and employee, professional and civic organizations. Comments should be returned by July 16.

For the most interesting ideas about government, hear MESSAGE TO THE MAYOR, radio station WNBC, Tex and Jinx show, 8:30 to 9:30 A.M. Monday through Friday.

# Looking Inside

(Continued from Page 2)

tion, State Department, into Schedule C. Most of those jobs are as investigators. The idea is that loyalty and security clearance must be air-tight, and that the appointees must have special capabilities—as if competitive employees could not meet those requirements!

### WATCH FOR POSSIBLE SPREAD

It will be interesting to watch if the trend to exempt reclassification spreads to the State government, and local governments in the State. In the Federal government a complex situation gives the U. S. Civil Service Commission some argument for building up the number of exempt jobs, to differentiate sharply between those jobs which are policy-determining or confidential, hence should be appointive, and those which are not, which should be competitive. Hidden behind that argument is the fact the previous administrations filled jobs with employees of their own choice, then covered them into the competitive class.

The argument about confidential nature of the work was raised in favor of exempting jobs not only in the Refugee Division but also in the Bureau of Security, Consular Affairs and Personnel, State Department.

### GREATER RESPONSIBILITY ASSUMED

The two aspects—exempting jobs and removing shackles to Commission action—are different in kind but point in the same direction of greater assumption of responsibility. In making so many jobs exempt, the U. S. Civil Service Commission is practically notifying any Congressional committee, present or future, that each department assumes full responsibility, with the U. S. Civil Service Commission, for the loyalty and patriotism of each appointee to a policy-making or confidential job.

The danger in exempt jobs is the abuse of appointing power. If the increased number of such jobs is to afford more patronage jobs with which to pay off political debts, public service suffers. There is no such sign on the Federal scene, in regard to the jobs newly put into Schedule C, and no more than the usual payoff for other exempt jobs, there or elsewhere.

### ALWAYS AN EYE TO PRACTICALITY

Some allowance must always be made for political necessities, and even civil service reformers are practical enough to admit that, though not to the extent of forgiving the dropping of a tried and capable employee of opposite political persuasion for a lesser light wing rendered valuable political service. For instance, the Civil Service Reform Association objects to the dropping by the Eisenhower administration of a Marshal in New Jersey who had 26 years' U. S. service, 13 of them in the Marshal's Office, the only full-time Marshal in his district, so that a former Holland Tunnel policeman, now the owner of a sporting goods store, and president of the Young Republicans of New Jersey, could be appointed. The reform group wants all U. S. Marshal jobs put in the competitive service.

### VET PREFERENCE HOT ISSUE

In the same direction of greater discretion afforded to Commissions would be amendment of the Veteran Preference Act. The Civil Service Reform Association says the act must be modified, if the merit system is to operate effectively. Equal protection against removal should be afforded to U. S. employees with permanent competitive status, with no distinction made between veteran and non-veteran, the association holds.

Veteran preference is a hotly controversial subject; the U. S. Civil Service Commission is approaching it cautiously, but will no doubt take a stand after the canvass of sentiment of veteran organizations is completed.

### TOO MUCH AND TOO SOON

Civil service administration has grown through a series of necessarily restrictive laws and rules. The time when rigid restrictions were needed, for instance, to kill the spoils system, and later to prevent personal and political reprisals against competitive and non-competitive employees, passed long ago, it is heartening to recall. Whether the shackling has been overdone, so that Civil Service Commissions are almost hamstrung by restrictions, is one of the most important civil service considerations of this era. That it has not only been overdone, but grossly overdone, I am convinced.

### WHEN THE CHIEF EXECUTIVE STEPS IN

The fact the President of the United States and the Governor of New York State have assumed responsibility for personnel administration, and the Mayor of NYC for both civil service and personnel administration, will of itself produce greater flexibility in the administration of one branch or the other or both.

The concept of civil service is broadening noticeably. Recruitment is being edged out from its primary position by programs of job evaluation, sensible relationship of pay to duties and responsibilities, attention to incentives, training programs, and reclassifications that are promising if still only tentative.

When the chief executive shows interest in all such matters, civil service commissions and personnel directors get a green light they never saw before. Much greater flexibility of operation then results from prestige from above, without change in a single law or rule.

## HOW TO PUT YOUR SAVINGS TO WORK FOR YOU

By PETER ALLEN

Are common stocks too risky for the average civil service employee?

That is a common question asked by civil servants who have heard about the new method of buying common stocks on the "installment plan."

The answer is not simply a Yes or a No, but depends on two things: the financial position of the investor, and which common stock he has in mind.

Obviously, every individual should have a reserve of cash—or liquid investments—usually set at about the amount of three months' living expenses. This should be kept in a savings account, a federal savings and loan association, or in government bonds. After this, an individual with a steady job can wisely select the common stocks of substantial, dividend-paying corporations as a place to put his savings to work.

### Full Freedom to Call It Off

The new "Installment Sales Plan" was conceived by representatives of the New York Stock Exchange as a means of getting more individuals to buy stocks of America's leading corporations. Some facts about this plan were mentioned in last week's column. Some 16,000 individuals have begun to put their savings into the purchase of fractions of shares under this plan.

Because there is no compulsion involved in the plan, you can

stop any time you want to stop without any loss because you stopped. It has wide appeal to those who like to retain their independence, yet have a plan for saving.

What if you should quit the plan? Any time you decide to stop, you will have your full shares registered in your name on the books of the company and mailed to you without charge. Any fractional shares held by you will be sold and a check for the proceeds sent to you. This is a plan to help you invest periodically; it does not compel you to do anything you no longer want to do or no longer can do.

You can sell all or any part of your shares merely by instructing your broker to do so. He will send you a check for the proceeds, less the customary New York Stock Exchange commission and transfer taxes.

If you skip one or two periods, your broker will merely suspend your plan for you and continue to reinvest or remit your dividends, whichever you direct. However, he reserves the right to terminate the account, and would expect to do so if you skip more than four successive purchases.

## LOVELY INTER-RACIAL COMMUNITY IN LONG ISLAND OFFERS ROOMY RANCH HOMES AT ONLY \$69 A MONTH

**You'll Be Happier At Beautiful Ronek Park**

After visiting Ronek Park, touring the magnificent countryside around it, and speaking with the residents, the conclusion is inescapable that here is one of the greatest things that has ever happened in American community planning.

Ronek Park can easily stand the most minute inspection, for every detail of the home is designed for healthy living, easy housekeeping and long-lasting construction quality.

**A "Dream House" Layout**

The ultra-modern Ronek ranch home features center entrance; over-size living room with broad ranch picture window; sparkling "Domestic Science" kitchen with an abundance of duo-tone cabinets and formica worktops, automatic console range and multi-hued inlaid linoleum; 3 airy bedrooms with spacious closets plus special linen closet; sparkling ceramic tile Hollywood bath with mirrored cosmetic cabinet; ample basement space for laundry room, storage room and hobby workshop.

**RUMPUS ROOM WITH COCKTAIL BAR INCLUDED AS A FREE BONUS**

Below the main level is a full-size basement. The big attraction here is the finished rumpus room with cocktail bar which is included as a bonus absolutely free in this final section. In the previous sections, buyers had to pay approximately \$800 additional for this.

**Packed With Fine Features**

The list of construction specifications is much too long to detail in its entirety. Here, however, are a few of the more important ones: Air conditioned heat for economy and efficiency, oil burner, copper plumbing, polished hardwood floors, full rockwool insulation to keep comfort in and fuel costs down, roomy closets throughout, additional built in linen closet, large landscaped grounds and many other fine features.

Concrete walks, curbs and streets are installed and paid for by builder.

**Read the Alston Family's Exciting Story!**

Here is how one family exchanged the slums for a place in the country. John E. Alston was raised in Harlem, and hated every minute of it. But where could a Negro family live in the 30's? . . .

When John grew up, he made a decent salary driving a cab. It was enough to afford a better place than Harlem, but the same pressures that kept his folks in Harlem, forced John to raise his kids there, too.

Then one Sunday, John picked up the newspaper. In it was an announcement about Ronek Park. Two hours after that he made his down payment, 4 months later he moved in.

The same Children in Ronek Park

Now John, his wife, and his kids, Doris and Thomas, have an entire house for themselves. Now Doris and Thomas play in grassy lanes instead of fire escapes and traffic-choked streets. Now John pays only \$69 monthly instead of \$91! This is but one of hundreds of families who have traded slum environments for the sunshine, air and elbow room of Ronek Park.

**See RONEK PARK on TELEVISION**

Station WATV Channel 13  
 Thursday 9:30 P.M.

He spent hours each week looking for a better place, but he could find nothing. Wherever he went — Brooklyn, the Bronx, Queens, Staten Island, even Newark—it was the same sad story. Nothing doing!

# Discount Tickets for Government Employees

All governmental employees of the metropolitan area—Federal, State, City and Authority—are offered 25 per cent reduction on the \$3.30 and \$2.20 seats at the Jones Beach Marine Theatre where Guy Lombardo's new musical extravaganza, "Arabian Nights," will open on June 24 and play all summer.

Lauritz Melchior, the celebrated opera singer, will be the star, and the cast will include Mia Slavenska, the ballerina, in dances of the Ballet Theatre. Included also will be a whale holding about 70 men which will swim into the performance and a revival of the famous disappearing chorus that made the old Hippodrome Theatre famous.

Since these features have aroused such a large advance sale, the management has been compelled to restrict discounts to Sunday, Monday and Tuesday evenings (except July 5). And since all seats are reserved a box office has been established in Manhattan at the Rivoli Theatre, Broadway and 49th Street, so that those desiring to see the show need not go all the way to Jones Beach to get tickets in advance, or even as late as the afternoon of the evening show.

Exchange Tickets  
For those who are not familiar

with exchange tickets it should be explained that these are distributed without cost or obligation to those who wish to consider using them. To obtain exchange tickets for the Jones Beach Theatre one must write—phone requests cannot be honored—on the letterhead of a governmental agency—estimating the number of tickets that can be used. The request should be mailed to Joseph Lilly Associates, 145 East 54th Street, New York 22, N. Y., which will honor the request immediately. Those who wish to convert them into reserved seats may then take them to the Rivoli Theatre box office.

With exchange tickets the \$3.30 seats cost \$2.50 and the \$2.20 tickets \$1.65. The discount is applied to the ticket price minus the required tax and the tax on the reduced price is then added, as required by Federal law.

Special group "package" discounts also are available for those who wish to make up parties in multiple of 35. These "packages" include bus or railroad transportation, meals, bathing facilities, and show tickets. The buses can be chartered to go and return from any point in the city. A list of the "packages" available also can be obtained by mail only from Joseph Lilly Associates.

Where You Always Get A Good Buy

# Vet Named to Lower Job Without Use of Preference Remains Eligible, With Extra Points, for Higher Post

The facts: A veteran is on an eligible list. Instead of being appointed to a job in the title and grade for which he proved his worth, he accepts a job at a lower grade, which requires skills similar to the ones tested in the exam. The secondary job is called an "appropriate" one.

The question: May he pass up his veteran preference points, in accepting the lower job, still remain on the eligible list for the higher position, and still be able to use his preference points when

reached for the higher appointment from the list?

The law: The veteran stays on the list for the higher job, and may be appointed (or promoted), with preference points counting to his credit. Attorney General Nathaniel L. Goldstein has so ruled in a formal opinion to the State Civil Service Department.

What Goldstein Holds  
The opinion in full:  
"You have requested my opinion as to the construction of subdivision 2(f) of Civil Service Law,

Section 21, as it affects the right of a veteran to relinquish his additional credit on an eligible list in order to accept appointment to another lower grade position, for which such list has been declared appropriate, without losing his place on such list, as determined by such credit, for the position for which it was originally established.

"Following the command of the Constitution, in Article V, Section 6, as amended, the Legislature enacted Section 21 of the Civil Service Law for the allowance of additional credits to disabled and non-disabled veterans in competitive examinations for original appointments and promotions in the civil service. Paragraph (b) of subdivision 2 of that section provides that the additional credit shall be added to the final earned rating after qualification in the competitive examination and shall be granted only at the time of establishment of the resulting eligible list."

Constitution Construed  
"The constitutional provision itself and the conforming provision of the statute in subdivision 2(d) make quite clear that the additional credit can be used only once. The Constitution says: 'No such member shall receive the additional credit granted by this section after he has received one appointment, either original entrance or promotion, from an eligible list on which he was allowed the additional credit granted by this section.' This cannot be literally construed to prevent receipt of the credit after appointment from a list on which it was allowed if the credit was not needed or used to achieve a higher position on the list. It is designed only to prevent appointment to more than one position from lists upon which a higher eligibility has been so achieved. So the Legislature has construed it in the provision of paragraph (d) that an appointment shall not be deemed to have been made from a list on which additional credit was allowed if it did not affect his place thereon. That

construction is also the only one consistent with the provision of paragraph (f), permitting an irrevocable waiver of the additional credit on any list on which it was allowed prior to appointment or promotion therefrom.

"A distinction is to be observed between 'allowance' of the credit on a list and 'use' thereof to obtain appointment or promotion. You have informed me that you will allow a veteran the additional credit upon as many different lists as he qualifies for and will maintain his resulting position thereon until he uses it to obtain appointment or promotion. The waiver of credit on any one of such lists does not operate to relinquish it as to the others. Thus, the credit may be claimed and allowed several times and may (Continued on Page 14)

# Housing Officer Study Material For June 19 Test

The LEADER continues publication of study material for the NYC housing officer written test, to be held Saturday, June 19. The following questions deal with law enforcement.

1. The best among the following ways for dealing with sex offenders is to (a) flog them (b) show movies frequently (c) give them considerable hard work to do (d) provide them with considerable sexual reading matter.

2. The most frequent cause among the following for making a man a criminal is (a) feeble-mindedness (b) good education (c) bad environmental conditions (d) superior ability in a trade.

3. Psychiatrists would be most likely to agree that an introverted personality is usually (a) inclined to action rather than thought (b) inclined to thought rather than action (c) suffering from a serious mental illness (d) intensely interested in other people.

4. Of the following statements regarding mental health, the one with which psychiatrists would be most likely to agree is (a) the term "sadist" is frequently used to describe a person given to moods of melancholy (b) grown up people never suffer from temper tantrums (c) people with paranoid tendencies often suspect that others are trying to harm them (d) dementia praecox is a mild form of mental illness which only occurs among aged people.

5. Of the following statements regarding persons suffering from a sense of inferiority, the one with which psychiatrists would probably not agree is that such persons (a) will often hesitate to try a new kind of work for fear of failure (b) will frequently become oversensitive when criticized (c) will frequently be subject to moods of despondency (d) will never be found in a prison.

6. Ballistics is concerned with (a) the analysis of drugs (b) bullet identification (c) broadcasting radio alarms (d) the criminological examination of hair and blood.

7. Of the following, the only argument which is not a good reason for having a system of parole is that (a) it saves expense to the taxpayer (b) it gives the public the added protection of the supervision of a released prisoner (c) it permits the time of release to be fixed at a favorable occasion (d) it provides a means of giving favors to prisoners in whom the warden has confidence.

8. A famous penologist reports that some inmates have stated that impressionable boys in prison are excited by the stories told by professional crooks. It follows from this statement that in general (a) older men exercise a harmful influence on younger persons (b) first offenders in prison should be separated from persons with a record of many convictions (c) inmates in prison should not be permitted to tell one another stories (d) sex offenders are frequent in any prison.

9. A single case like that of Dillinger proves (a) that parole is a failure (b) that probation can be improved (c) that criminals should be locked up for life (d) nothing.

10. Among the following, the type of person most likely to get into fights is (a) the intelligent, older, well-educated man (b) the young, stupid person with a history of three arrests for assault and no convictions (c) the man who has worked steadily at the trade of carpenter for ten years (d) the older, stupid man who has been a laborer for thirty years.

11. The central idea contained in the term "correctional institution" is (a) punishment (b) freedom (c) probation (d) rehabilitation.

12. One investigator believes that the number of parole violations tends to decrease with the number involved in the particular crime. This means most nearly (a) a person who commits forgery is likely to violate his parole (b) parole is worth trying in many cases (c) a person who, with two accomplices, commits a robbery is less likely to violate his parole than a person who commits robbery and has no accomplices (d) it is more difficult to catch persons who commit criminal acts in the company of accomplices.

13. The most important among

the following reasons for having men in prisons work is to (a) keep them out of mischief (b) help them form good work habits (c) have them support themselves while in prisons (d) punish the trouble makers.

14. The greater number of modern penologists believe that (a) the use of well supervised probation and parole should be encouraged (b) prolonged, severe punishment is an excellent reformative influence (c) the problems of crime will solve themselves in time (d) in general, crime is a product of the movies and the newspapers.

15. It may reasonably be expected that of the inmates released from a well administered modern prison — will become good citizens (a) all (b) none (c) some (d) all but the feeble-minded.

16. The causes of crime (a) are exactly the same today as in the past (b) have been accurately and completely determined (c) are an unimportant matter (d) are an extremely complicated problem.

17. Drug addicts comprise — of the entire criminal population (a) most (b) a very substantial

### ADAMS WOULD REORGANIZE POLICE DEPARTMENT

NYC Police Commissioner Adams, in a letter to Mayor Wagner, proposed dropping the jobs of Seventh Deputy Police Commissioner, and secretary of the department, leaving six deputies. A First Deputy would outrank the others, who would be equal deputies.

part (c) a small part (d) practically all.

18. Probably the most important factor among the following responsible for the lack of improvement in our penal system is (a) public indifference and neglect (b) the stupidity of inmates (c) the fact that most inmates are irreligious (d) the fact that most inmates are quite young.

19. A criminal is typically one who (a) has a peculiarly shaped head (b) exhibits a most degenerate kind of behavior (c) is an intelligent, well educated person (d) looks like other people.

20. Among the following, the greatest proportion of prison inmates is composed of (a) aliens residing in the U. S. illegally (b) insane persons (c) normal people (d) wealthy persons.

21. There would be no crime if there were no (a) weapons (b) criminals (c) stupid laws (d) private property.

## Goldstein on Preference

(Continued from Page 13) be relinquished before appointment or promotion in order to save it for future use for a different position, but may be utilized only once. This practice is in accord with both constitutional and statutory provisions, in my opinion.

"The use of a list for a different lower grade position than that for which it was established should not compel a veteran to forfeit altogether the allowance of additional credit with respect to eligibility thereon, in order to waive the credit and receive appointment to the lower position without it. The original application for and allowance of the credit was obviously for the position for which the list was established. Where it is used for a different one because found appropriate, there is nothing in the statute or Constitution to indicate that an eligible should not have the same opportunity to have his additional credit as he would undoubtedly have if there were two distinct lists. It is true that the provisions for relinquishment of credit in paragraph (f) are literally in terms of waiving it on 'an eligible list', but I am in accord with your suggestion that in the situation presented, a list may be treated as having two distinct identities. To do otherwise would exalt form over substance and deprive veteran eligibles of a choice they seem clearly intended to have. It follows, however, that a relinquishment of credit for purposes of some different position for which a list is found appropriate, once

submitted, is irrevocable, pursuant to paragraph (f), so far as that position is concerned."

## Petition Asks Issuance Of Clerk, Grade 5 List

The campaign of clerk grade 5 eligibles to have their promotion list established without further delay will be continued at a meeting called under the auspices of Local 237, City Employees Union, International Brotherhood of Teamsters, AFL, June 16 at 6 p.m. at 170 Nassau Street, NYC.

Henry Feinstein, president of the local, telling of negotiations the administration has remained unmoved, but further meetings will be held.

"With the united support of the clerk grade 5 eligibles, we can impress upon the administration the justness of our position and thereby win this very important issue," he said.

A meeting of the local heard reports from eligibles on enthusiastic support of petitions now being circulated by the local. The petitions call on the Municipal Civil Service Commission to establish the promotion list at once. All clerk, grade 5 eligibles in all departments are to be asked to sign.

"Every eligible, regardless of affiliation, is asked to attend the

June 16 meeting," said Mr. Feinstein.

## Eisenhower Would Widen Idea Program

WASHINGTON, June 14 — Federal employee suggestion programs have become big business, President Eisenhower wants to consolidate their operation and make it bigger, better, broader.

Last year 195,000 U. S. employee suggestions were received, 43,000 adopted, at annual saving of \$44,000,000. Also, 139 employees received efficiency awards.

The President wants exceptional service, zeal in helping to make democracy work, length of service, and other non-economic performance to be rewarded, and would issue Presidential awards for such attainment. Cash awards would continue, but the new idea, in the bill before Congress to effectuate the President's plan, is that money isn't everything.

Get well wishes are extended to Owen Steele, Jennie Allen Shields, Howell Essex, Mrs. James Monaghan and Mary Lyons.

Rochester

IF YOU ARE interested in attending the June 26 meeting of the Western Conference but have no transportation, contact either president F. Earl Struke or chapter delegate Melba Binn. Mt. Morris chapter will be host for the meeting. The program includes a 2 p.m. tour of the hospital or the business session will start at 3 p.m. in the auditorium of the hospital. Frank Casey, recently appointed as a CSEA field representative, will discuss the Retirement System. Mr. Casey was with the Retirement System for many years. Annual election of officers will also take place.

Dinner will be served at Leicester Casino, Leicester; turkey and trimmings for \$2.50, entertainment and dancing. Reservations, with advance payment, should reach Eleanor Larriton, care of Mt. Morris Hospital, by June 16.

To those unable to attend the

meeting: If you have a question on retirement, write out your question and give it to President Struke.

Rochester State Hospital

THE THIRD annual dinner of Rochester State Hospital chapter, CSEA, was held in the Moose Club, Rochester. It was also a testimonial dinner for Claude E. Rowell, outgoing chapter president who has served three and a half years. A movie camera was presented by Patrick J. McCormack, senior business officer, as a token of appreciation.

John J. Kelly Jr., CSEA assistant counsel, was master of ceremonies. Assemblyman Paul B. Hanks of Brockport, principal speaker, discussed bills which had passed the last legislative session and proceedings of bills in the Legislature in general.

Harry Fox, Association treasurer, also spoke of Claude's accomplishments both locally and in Albany. Virginia Leatham, social committee chairman, and John E. Graveline, Mental Hygiene representative from St. Lawrence State Hospital, also spoke of Claude's work and interest in Association affairs.

Archie Graham, newly elected vice president, was unable to attend because of family illness. John McDonald, chief supervisor and past president of the chapter, acted as proxy for Archie during the installation, at the request of President Powers.

Bill Rossiter, newly elected president and dinner chairman, welcomed the many out of town and local guests. Among the guests were: Kenyon Tice, delegate, Attica Prison; Hazel Nelson, president of Brockport State Teachers College; Irene Lavery, delegate, Eleanor Torpy, vice president, and John Barrett, president of Mt. Morris T.B. Hospital; Pauline Fitchpatrick, president of Newark State School; Edgar Lyons, president of D.P.W., Rochester; Irene Kohls, secretary, Western Conference; Earl Struke, president of Rochester chapter; Thomas Ranger, vice president, Syracuse chapter; Dr. and Mrs. Christopher Terrence; Mrs. P. J. McCormack; Dr. and Mrs. Benjamin Pellack; Dr. and Mrs. Guy Walters; Dr. Anthony Graffeo; Harry Fox, treasurer of State CSEA.

The Rev. Eugene Golding, hospital chaplain, gave the invocation. Bill Rossiter, general chairman, and Iris Jackson, ticket committee, wish to thank the committee members who helped make the occasion so successful.

Dinner music was furnished by Iris Jackson and Mrs. Anita Brown.

In addition to the officers already mentioned, the following were elected: Dr. Anthony Graffeo, delegate alternate to president; Charles Gaffney, 2nd delegate; John McDonald, 2nd delegate alternate. Members of the executive committee are: Norma Boyington, Kenneth Twitchell, Howard Rappleye, Dorothy Hotaling, Phillip Sullivan, Herbert Thompson, Joe Hoagland, Donald Sager, Goldie Parr, Dr. Guthrie, Robert Rowland, Joseph Francati, Harold Westling, Francis Barnish, James Surridge, Ronald Butts and William Scudder.

Dancing and floor show followed the dinner and was enjoyed by everyone.

Claude Rowell thanked his fellow-employees for such a kind gesture. The movie camera was something that Claude had wanted for a long time.

The employees wish you good luck, Claude.

The date and committees for the annual picnic will be announced soon.

Napanoch

SUPERINTENDENT Thomas J. Hanlon of Napanoch Institution returned to active duty after an illness of several months. His first move was a broadcast to the inmate body reemphasizing the values of educational activity. During his absence Lloyd Wilklow, assistant superintendent, performed a capable job as administrative head.

A Benevolent Association was organized recently by the employees. About 100 have become members to date. Assessments include an initiation fee of \$5 and subsequent dues of \$4 yearly. Major benefits are for illness, retirement, and death.

The seventh annual employees' inter-faith Communion breakfast was held in May. Wendell Phillips of Port Jarvis was guest speaker.

Besides extolling the spirit of brotherhood, Mr. Phillips, a noted traveler, described life in various parts of Europe and the Far East. "It's surprising how many different faiths use the Bible as a basis of their religion," he remarked. Joseph Carberry, president of the CSEA, served as both chairman and toastmaster.

Newest feature added to the program of activity for inmates is television. Specially selected programs are presented regularly, attending groups interchanging periodically. The use of this medium can have tremendous significance in a correctional institution, not only providing worthwhile entertainment but also stimulating interest and developing knowledge in a variety of subjects, thus contributing to a richer life and helping effect better emotional adjustments.

World's heavyweight boxing champion Rocky Marciano paid his third visit to the Institution recently, receiving a roaring ovation. "I want to keep this title," he seriously proclaimed, stressing the importance of sincerity and tenacity of purpose.

Congratulations to Vida Pierson, record office keeper, who topped the senior clerk list totaling 1,225 eligibles.

Congratulations, too, to Frank Walpole, for winning third prize in the Correction Officer's Essay Contest conducted by the American Prison Association. His treatise, entitled "All They Are, Are A Result Of Their Own Thinking," intelligently expresses his views on modern penal philosophy and practice, and particularly emphasizes the important role the prison officer can play in the rehabilitative process. "The function of a prison officer today is not only to close steel doors and turn keys, but also to educate and help rehabilitate inmates," he declares. "Great stress has always been placed on a guard's custodial duties and the physical methods of controlling inmates," he states. "But the more practical problem of the prison of today, the corrective service, the methods of influencing men by intelligence and leadership, and the direct part the officer can play in molding the character and thinking of the men in his charge, has been given too little attention," he imputes, and he goes on to present some positive principles and specific ways the correction officer can employ in improving human relationships and bringing about better adjustments.

Creedmoor State Hospital

THERE IS still much speculation around the grounds at Creedmoor as to what the pay boost will amount to, for people who work off the wards. Old timers on the ward service are also wondering if the sixth increment will be incorporated in the raise in October. A couple of people have already ordered new Cadillacs. They should realize that after a new bite is taken off for pension and Uncle Sam raises the ante, they will be in a better position to look at Fords.

Employees are again reminded that if they signed up for life insurance to be deducted from paycheck, they must be members of the Civil Service Employees Association. Dues are \$5 per year, which includes a yearly subscription to The LEADER. See the representative in your building and join the Association. This will avoid lots of grief and confusion when and if your beneficiary puts in a claim.

The chapter regrets the passing of Miss Meyer of the O.T. Dept. She will be missed by the entire hospital.

Get well wishes to Agnes Mulcahy, Thomas Simons and Josephine Lehe in the sick bay. Hope to see them up and about soon.

Mr. and Mrs. Thompson just returned from a trip to California. Bob reports that it was a swell trip and the only casualty was a broken windshield.

Mrs. LaForest and Mrs. Keddy spent a few days in their home town of Plattsburg.

Mr. and Mrs. Ferguson are on their honeymoon.

We are gloating about the recent ten wins that Brooklyn had, and all we have to say to Mr. Anderson, business officer, is that "we told you so."

We invite all employees to send contributions to this column. If you have any newsworthy event or special happening, get in touch with Ed Sottong in Building P.

Great Meadow

ONE HUNDRED persons attended the eighth Corporate Communion and breakfast of Great Meadow Correctional Institution employees recently. John Heckman, Granville attorney, was principal speaker at the breakfast. Guests of honor included Superintendent Vernon A. Morhaus and physical directors John Beale and Joseph Donovan of Fort Edward High School and St. Mary's Academy, Glens Falls, respectively.

CSEA HISTORY

The LEADER will continue publication of the history of the CSEA in the next issue, June 22.

DeGraff on Legislation

(Continued from Page 1)

of the Department of Public Works who has seven children, one of whom is suffering from rheumatic fever. This employee is now barred from part-time work at a local race track which had paid him \$800 a year for several years, although there is no conceivable conflict of interest between his State job and his part-time part-time employment. Other State employees find themselves barred from part-time income which has helped them to put their children through college or to meet temporary emergencies of one kind or another.

The Association will exert every effort to bring about a correction of this inequitable and discriminatory situation. We had already asked that this matter be placed on the agenda for the special session of the Legislature. (Only such matters as are specifically included on the agenda by the Governor may be taken up at a special session of the Legislature. Governor Dewey did not include part-time employment on the agenda of the special session which convened June 10—Editor.)

Federal Legislation

This report would not be complete without a brief reference to two important bills before the Congress which have long been advocated and aggressively supported by the Association.

The first would exempt \$1,200 of the income of retired public employees from the Federal income tax. The second would exempt from the Federal income tax the value of the food and lodging received by State employees who are required to live in or take their meals at State institutions because of the nature of their employment.

Both of these bills have passed the House of Representatives and one has been favorably reported by the Senate Finance Committee. Both are supported by President Eisenhower and we are hopeful that both will be enacted before the close of the session.

The Future

Civil service employees, unlike private employees, must look to the Legislature for improved salaries and improved working conditions. Major improvements in civil service administration, in retirement benefits and in almost every phase of public employment require action by the Legislature even when the Administration is in full accord with the necessity for and the desirability of the proposed change or reform.

Any successful legislative program requires year round consideration, planning and activity. No program can be fully effective if it is limited to the three months when the Legislature is in session in Albany.

Salaries

During the past 12 years the Association's major objective has been salary increases of the across-the-board or percentage adjustment type to enable State employees to keep pace with the long continued rise in the cost of living. The stabilization of inflation will necessarily require reappraisal of our major objectives for the coming year.

Barring a new war or renewed inflationary trends our salary objectives will necessarily be di-

rected to the appropriation of sufficient funds to assure the re-allocation of positions or groups of positions to levels that are commensurate with the salaries paid for comparable work in private employment. If, contrary to our hopes and expectations, an inflationary trend should arise it can now be met by appropriate revisions of the basic salary schedules instead of by temporary emergency increases as in the past.

Retirement

One of our major objectives must be the improvement and liberalization of our Retirement System. We cannot expect that all the proposed retirement amendments on our program will be adopted in one year. Consideration must be given to the selection of priorities so that our efforts can be united behind the most important of the various improvements that have been advocated by our delegates. Exhaustive and detailed studies must be made of alternative plans to integrate or coordinate our present retirement plan with the Social Security system to the end that all employees may be assured of the maximum benefits available under either plan.

48-Hour Week

Top priority should be given to the abolition of the compulsory 48-hour week that still prevails for many employees in our institutions, despite the payment of overtime compensation for work in excess of 40 hours. The successful attainment of this objective will require a careful reappraisal and reconsideration of the plans and policies adopted at the meeting of institution representatives in Albany last fall.

Grievance Procedures

Our present grievance procedures are ineffective, unnecessarily complex and largely inoperative. Discussions for the purpose of improving and revitalizing the present plan, which has proved to be an unsatisfactory compromise, are in progress and we are hopeful that major improvements in concept and in administration may soon be inaugurated.

Civil Service Revision

The proposed recodification and revision of the Civil Service Law will come up for consideration and action at the 1955 session of the Legislature. Important issues of policy and administration will be involved and the Association must be alert to preserve and defend, as well as to improve, the basic principles of the merit system.

Summary

These are but a few of the major objectives for the coming year which must be considered before our program is formulated at the annual meeting of the Association. Many others, both old and new, should be carefully reviewed and evaluated by our members, chapter officers, directors and delegates.

The Association's enviable record of solid accomplishment in previous years is assurance to our members that, with their continued support, substantial advances will again be made at the 1955 session of the Legislature for the benefit of civil service employees of the State and of local units of government as well.
