Section 2. Program Information

Section 2.1. Changes in Program Content

No changes in program content. *Proceed to Section 2.2.*

a) Check all that apply. Describe each proposed change and why it is proposed.

- Cumulative change from SED's last approval of the registered program of one-third or more of the minimum credits required for the award (e.g., 20 credits for associate degree programs, 40 credits for bachelor's degree programs)
- Changes in a program's focus or design
- Adding or eliminating one or more options, concentrations or tracks
- Eliminating a requirement for program completion (such as an internship, clinical placement, cooperative education, or other work or field-based experience). Adding such requirements must remain in compliance with SUNY credit cap limits.
- Altering the liberal arts and science content in a way that changes the degree classification of an undergraduate program, as defined in [Section 3.47\(c\)\(1-4\) of Regents Rules](#)

Description: Entire degree requirements were restructured. Some concentrations were removed due to faculty expertise. New foundational core guidelines allow students to have choices in which areas of history they would like to study. A methods course was added to ensure students have more of an understanding of the methods historians use. A capstone course was created to increase rigor and have a significant culmination of their studies within the major.

b) Provide a side-by-side comparison of all the Courses: in the existing and proposed revised program that clearly indicates all new or significantly revised Courses:, and other changes.
