July 17 has been set as the deadline for nominating candidates to office in the Civil Service Employees Association. The bi-annual election will take place Oct. 14 in Albany during the Association's annual meeting.

Hazel Abrams, chairman of the CSEA Nominating Committee, announced that the Committee will meet July 17 to consider further nominations. These may be made by either writing to the Committee chairman at 478 Madison Ave., Albany, or by calling Miss Abrams at Albany 4-5347 or at the Education Dept., Albany 6-2641.

Nominations may also be called in the night of the meeting, which is to be held at the Manager-DeWitt Clinton Hotel. That number is Albany 4-6111.

Detailed instructions concerning the annual election will be furnished to each member with the election ballots. The CSEA Nominating Committee urges all Association and Chapter officers and committees to encourage all Association members to use their right to vote in the CSEA election.

Action Asked on Parole Officers Salary Appeal

John F. Powers, President of The Civil Service Employees Association, has again appealed to J. Earl Kelly, Director of the State Division of Classification and Compensation for action on the salary appeal of Parole Officers of the State Division of Parole which was originally filed with Mr. Kelly's agency in the summer of 1957.

Mr. Powers' letter appeal declared:

"It has been reported to me that there is a growing restiveness and expression of dissatisfaction by Parole Officers who have sought higher allocation of that position in the State's salary structure.

"The appeal has been pending

Metro Employment Asks Meeting To Discuss Staff Cuts

Probable staff cuts in the New York State Division of Employment resulting from a reduction in Federal funds will be discussed in a meeting requested between Civil Service Employees Association representatives and the Administration, it was announced. Edward S. Croft, president of the Metropolitan CSEA chapter in the Division, said he will urge Administration officials to request appropriation of enough funds to keep all permanent employees on the job and as many additional temporary employees as are required to adequately maintain the vital functions of the division.

The budget cuts were effective July 1 and could lead to the laying off of permanent as well as temporary employees.

Mr. Croft has asked for the active support of all Association members and Employment Division employees in this matter.

Any further developments will be reported in The Leader and through the chapter.

before your Division since early in the summer of 1957. This delay is not understandable and is extremely unfair to the employees affected.

In view of this, we would appreciate your advice as to any progress you have been able to make toward reaching a decision. We would like to be able to advise the Parole Officers on the status of their appeal."

Vacation Pay Sought For Barge Canal Workers Who Lost Holidays In Past

The Civil Service Employees Association, through its President, John F. Powers, has appealed to the Director of the Budget, Dr. T. Norman Hurd, on behalf of Barge Canal employees who were denied vacations in the past. Payment for such vacations not accorded is authorized under Section 134 of the Civil Service Law.

In a letter to Dr. Hurd Mr. Powers said:

"We appeal on behalf of our members employed on the Barge Canal, many of whom were denied vacations. This matter was taken up with the State Department of Public Works and we understand that a survey was made and the Department requested a deficiency appropriation of \$61,000 to correct the situation and properly compensate the employees for their lost vacation time

Levitt Backs CSEA Tip Stand; Seeks Lefkowitz, Hurd To Okay Payments

ALBANY, July 13 — Comptroller Arthur Levitt has endorsed the stand taken by the Civil Service Employees Association in seeking reimbursement for tips paid by state workers in traveling on official state business.

In letters to both Attorney General Louis J. Lefkowitz and T. Norman Hurd, State budget director, Mr. Levitt has sought their approval in making the change.

Mr. Levitt indicated he was ready to end the present state practice of turning down claims for reimbursement of tips, subject to the approval of the Rockefeller administration.

Assn. Spotlights Problem

The CSEA turned the publicity spotlight on the injustices of the present situation only recently. The request that state travel allowances be adjusted to permit payment of tips was reported last week in The Leader.

The CSEA also sought a general upward revision in state travel allowances, including higher maximums for food and lodging.

The Levitt position on tips is that state workers now are, in

effect, subsidizing the state by paying their own service charges.

He has asked for a formal ruling from the Attorney General to permit him to change state regulations to pay for service charges. There were indications Mr. Levitt was considering allowing up to \$1 a day for tips.

Letters to Hurd, Lefkowitz

For complete details, here is the text of the two letters, one signed by Mr. Levitt and the other signed by Clark D. Ahlberg, first deputy comptroller:

"Dear Mr. Lefkowitz:

"I am, as you undoubtedly know conducting a study of the procedures for payment of travel allowances for State employees. I am particularly disturbed regarding the practice of rejecting claims for reimbursement of tips. I have received many complaints concerning such rejections.

"The practice of consistently rejecting claims for reimbursement of tips is based on an opinion rendered by the Attorney General's office (Attorney General Opinion 1931, page 177), that it would be in violation of the Constitution (Constitution 1894, Article VIII, Section 9; now Article VII, section 8). The opinion states in part as follows:

"In the preparation of your rules for auditing accounts you ask us what your office must say as to tips, fees or gratuities. We assume you are speaking of moneys which are not of necessity required to be expended for any service rendered."

"Justifiable Complaints"

"I have had this situation investigated and I believe; that, to a very great extent, these complaints are justifiable.

"It appears that a tip, in a number of instances, does not constitute the giving of a gratuity, but is actually a necessity. It is an accepted part of life, especially in New York State, to tip a waiter or waitress, a port-

Unions Eye White Collar Workers

In Washington recently there was a report of a meeting of strategists of the AFL-CIO Labor Unions to consider methods of extending unionism to the nation's white collar workers. This interest in the white collar worker is coupled with the interest which the labor union leaders have recently expressed in the government worker. For most of the job classifications the interest is identical, since statistically there are relatively few blue collar workers in the government service.

During the recent decade, for many reasons white collar workers have been increasing in the nation's labor force at a much faster rate than have the blue collar workers. The blue collar or the production worker has traditionally been the backbone of the industrial unions' strength, but now in proportion to the total labor force these workers are diminishing. The trend towards automation in industry is one of the important factors in the shrinkage.

The industrial union has shown an interest in the white collar worker for some time past. However, his interest has always been that of an individual local, and not of the labor organization as a whole. The fierce jurisdictional battles which have taken place over the capturing of this new market has vitiated the effort and slowed its progress.

CSEA Must Double Alertness

If the deliberations of the Washington meeting result in a united front and policy . . . relative to the white collar worker, we in the Civil Service Employees Association may well feel some of the reverberations. We might, in time, find ourselves surrounded by units of industrial unionism making our job of maintaining our independence as a public employee organization that much harder.

It behooves us, then, to lose no time and spare no effort in strengthening our own positions to withstand any greater assaults in the future. Our success lies in the strengthening of our organization, in developing a better system of communications between our members, chapters and staff, and in a renewal of our faith in the purpose and policies of our type of employee organization. The increased revenue which we will receive from the recent dues increase will help,—but in addition, and of equal importance, is a strong belief in ourselves and in our organization as the one best fitted to meet and solve the problems of the public employee.

Association Campaign For Tip Money Gains Support Of Comptroller Levitt

er for carrying luggage, a bellhop for showing a person to his room and carrying his luggage, etc. It is a fact that employers, when hiring various categories of help, fix such employees' salaries on the basis that they will receive tips. As a matter of fact, in some establishments, the gratuity or tip is added to the check. Tips received by such employees must be included in their income tax reports, and they are considered in social security, unemployment insurance and workmen's compensation operations.

Aides Subsidize State

"These facts apparently indicate that rejection of such claims, in effect, compel State employees, in many instances, to subsidize the operation of the State's business.

"It is possible that the language contained in the opinion might be construed to mean that if it were found to be necessary, I could allow the claims for reimbursement of tips.

"However, since this practice has been in effect since 1931, I request your advice as to whether I may amend the regula-

tions of this Department to permit the reimbursement for tips."

The second letter, written for the comptroller by Mr. Ahlberg reads:

"Dear Dr. Hurd:

"Comptroller Levitt has asked me to send you a copy of the attached letter which was sent today to Attorney General Leftkowitz.

"If the Attorney General finds it legally possible for the State to reimburse employees for service charges arising from their official assignment, we would like to amend our rules to permit this reimbursement. We would want to time the adjustment in our rules so as not to occasion a budgetary problem of major dimensions for your office.

\$1 Suggested

"It has been estimated by the Budget Division that the sum of \$1 per day on a full year basis might cost the State as much as \$750,000. This seems to us to be an outside cost rather than a minimum cost estimate.

"We have also attached a draft of the proposed amendment to the comptroller's travel regulations.

"We would be glad to meet at your convenience to discuss the proposal, should this seem desirable."

Development of Campus Site To Be Speeded Up

ALBANY, JULY 13 — The Rockefeller administration is studying ways to speed up development of the State's "Campus Site" which eventually may house as many as 20 State departments and agencies.

The development in this city's western outskirts now has modern office buildings, housing the State Civil Service Department, the State Conservation Department and several smaller agencies.

A \$3.3 million power plant, next on the construction agenda, will heat the buildings in winter and air condition them in the summer.

Governor Rockefeller has named a special building committee to review plans for the site, headed by his Secretary William J. Ronan. The Governor is reported anxious to speed up the project. Under the Harriman administration, it was planned to develop the site over a period of 20 years.

Project Timetable

Architectural plans are being pushed by the present administration and the schedule calls for:

(1) Taking bids in late August for construction of Building 9 to be used by the State Tax Department.

(2) Plans are being drawn for two other Tax Department buildings, including a six-story main building and a one-story storage and emergency office building to be used during peak loads. The third Tax building will be four stories. It will be built first.

(3) Plans also are being drawn for a separate State Motor Vehicle Bureau building. The bureau now is part of the Tax Department, but may be given departmental status.

(4) It is expected plans will be completed by the end of the year for the first three State Public Works Department buildings. One will be a four-story structure to house the State Division of Architecture. Another will house the main offices of the department. It will be a six-story building. Another three-story building will be built for the department's research staff.

New York State now spends \$4.6 million a year to rent office space in Albany and only recently leased a new office building in State St. across from the State Office Building for five years at \$500,000-plus for the State Mental Hygiene Department.

Nearly 200 Fireman Eligibles Certified for Appointment

Budget certificates for appointment to vacancies in the Fire Department have just been issued, with appointments effective July 1.

The following are the names of eligibles sent to the New York City Fire Department for possible appointment.

The number of names certified exceeds the number of vacancies. Except for those called to job interviews, eligibles would not know that their names have been sent in, except for publication such as the following.

Thus, many eligibles may learn from such listings of the fact that they are at least within reach of appointment. The relative standing on the list, of the last eligible certified, appears at the end.

3,000 File for L.I.P.O. Jobs; There's Still Time to Apply

Approximately 3,000 Long Islanders have applied for the newly opened Post Office examinations for substitute clerk and substitute carrier, with more coming in every day.

A second big examination may be expected to be announced for Nassau and Suffolk Counties within a week or two for the attractive jobs. These start at \$2 an hour and demand no formal education or experience.

The local examination points—Hempstead, Jamaica, Riverhead

and Patchogue—are now scheduling tests on their own; previously this was done from the General Post Office in Manhattan. The total to be scheduled was, at press time, 663.

Pay for the career jobs rises to \$2.42 an hour, with an extra 10 per cent for night work. No closing date has been announced for applications.

More than 130 first and second class post offices are covered in the Long Island tests. Many hundreds of jobs will be filled in

the area. Suffolk County alone employs thousands of substitute clerks and carriers.

Application forms and job information are most easily obtained at your local post office. Completed forms should be sent to the local office or the Board of U.S. Civil Service Examiners, General Post Office, New York 1, N. Y.

If you are 17 to 70 years old and a U.S. citizen, you may apply.

Priority in certification for jobs goes first to those living within the delivery area of their own post office, and to provisionals and others already at work in the post office. Next, priority goes to other people in the county, and then to those outside the county.

Male applicants must weigh at least 125 pounds; this is waived for veterans, those who have held the job and those who can lift a 100-pound filled sack to their shoulders. They must not have any irremediable or incurable defect or disease which prevents effective work or which creates a hazard.

If you are on the eligible list for typists, you may also be offered a job as key punch operator, dictating machine transcriber, and other work.

A year of permanent stenographic work will qualify you for promotion examinations for sen-

Typists are in line for promotion to senior typist, senior clerk, senior account clerk, and so on.

Tests are given every weekday at the New York State Employment Service, 1 E. 19th St., Manhattan; several times a week in Albany, at the State Employment Service, 488 Broadway; and at many points throughout the state. Applications will be accepted until further notice.

The higher your score, the better your chance at quick appointment. If you don't get a job right away, your name will be on a list used to fill jobs as they become available.

State employees have paid vacations, starting at 13 days a year, and going up to 20 days, plus paid sick leave of 13 days a year. In addition, there are a health insurance plan, a liberal retirement plan and social security coverage.

Budgets and Sputniks

HAS THE frightening example of Russia's 'Sputnik' disappeared from the minds of Americans already? It would seem so from the attitudes prevailing in Long Island over school district budgets.

When the Soviet Union launched ahead of the United States for the first time by hurling Sputnik into orbit the shock to the American public was profound. Up went the hue and cry for increased education, better education and more scientific education. The excitement has since died down, along with a responsible civic attitude not only for the need of even better education but the necessary costs such education must entail.

Liberty has never been bought cheaply — it has some times only been thrown away because of cheapness. An educated, brilliant society such as ours has made America what it is today. If we want to keep our country that way — and push further ahead which is even more important — we must be prepared to pay the cost.

School districts need custodians; they need clerical help and other inter-related services, in addition to teachers, to keep our children at the intellectual level they are accustomed to in order to compete in a modern society. These school district employees are doing their part in keeping America safe, free and mentally healthful and they must be honestly paid for their efforts.

The loss of the America we know would be a far dearer price to pay.

Questions Answered On Social Security

I'm a man 28 years old and have a wife and three children. I've worked under Social Security for the past six years and have earned over \$5,000 each year. How much could my wife and children receive if I should die?
Your wife could receive a lump sum death payment of \$255 and monthly payments of \$254. Monthly payments would continue until your youngest child reaches age 18. However, they would be less than \$254 after the oldest child reaches 18.

What specifically is the "freeze" under Social Security?
The freeze under Social Security provides that a person who cannot work because of a disability may protect his right to future benefits and the amount of his benefits by applying for a "freeze" of his Social Security record. This means that the period during which he has not worked because of his disability will not count against him and will not reduce the amount of the Social Security benefits payable to him or his family in the future.

I have been told that the Social Security tax is now paid on

the first \$4,800 of my wages so that I can get a higher benefit when I reach retirement age. What about the benefits to my wife when I retire or if I die or become disabled before that?

The rise in maximum earnings that can be credited to a social security account will provide over-all protection to everyone. It will provide increased payments to dependents and survivors as well as to workers who retire or become disabled.

Is there any way to speed up my claim for social security payments when I come in to make a claim next month?

Yes, you can speed up the processing of your claim by bringing proof of your age with you. Frequently, proof of age is needed before your claim can be sent in for payment, and if you will obtain this proof now, it will save time later. Old documents such as birth certificates, marriage records, insurance policies, etc., can be used. So look around to see what you have.

SAYS TOO MUCH MONEY GOES TO EDUCATION

Editor, The Leader:

In answer to "Disgusted Nassau High School Teacher", I am a Civil Service Employee and I am getting fed up with the abuse heaped upon the public by our so-called educators. They are forever crying about being underpaid, but they are a lot better off than most of us. What other civil servants works less than ten months per year? And if you will check the passenger lists of tours and cruises, you will find that they are made up of mostly teachers. Who else can afford such vacations? If he wishes to get nasty, we can get nasty too.

He refers to the "voter's lethargy" as the cause of the defeat of so many school budgets. He has put the cart before the horse. It was the "voter's lethargy" which, for years has let the Department of Education run rough-shod over us. The public has finally awakened, and has become tired of the "educators" who measure the standards of education by the amount of money spent.

There isn't one of us who is not willing to pay for the essentials of education and the maintenance of our schools, but we can no longer afford the non-essential expenses. We do not need the elaborate buildings, the over-abundance of administrative personnel (curriculum co-ordinators, curriculum advisors, helping teachers, public relations advisors, three or four assistant principals per school), etc.

The teachers claim to be underpaid for their ability, yet they consistently claim that they cannot handle two more pupils per class, which would eliminate the need for more buildings, teachers and maintenance, thus saving us (the taxpayers) the additional expense which will eventually drive us out of our homes.

Their only solution is the cry for more state aid. Where does state aid come from? Out of our other pocket. I say that the only answer to the problem is to continue to vote down these budgets, until the Department of Education comes down "out of the clouds" and faces reality.

Christenberry Named As Full Postmaster

The nomination of Robert K. Christenberry as full postmaster of New York has been sent to the U.S. Senate for confirmation by President Eisenhower.

Mr. Christenberry, acting postmaster for more than a year, was the Republican candidate in the New York City mayoral election of 1957. A former hotelman, he has headed the State Athletic Commission.

His nomination was included on a list of 52 postmastership names sent to the Senate, whose confirmation makes the \$15,452-a-year job permanent.

CELEBRATES FIFTH ANNIVERSARY

Joseph Schechter, above, has just completed five years as chairman of the new City Civil Service Commission and the first director of the City Department of Personnel, which he played a major role in founding.

Good Planning Has Made For City Civil Service Success, Says Schechter

By Richard Evans Jr.

"Good planning is the basis of my success here," said Joseph Schechter, chairman of the City Civil Service Commission and director of the Department of Personnel.

The occasion was Mr. Schechter's fifth anniversary, July 1, as the first chairman of the re-organized and renamed Civil Service Commission and as the first director of the City Personnel Department.

In 1954, Mayor Wagner abolished the old Municipal Civil Service Commission and drafted Mr. Schechter, then counsel for the New York State Civil Service Commission, to organize the new City Civil Service Commission and found the City Department of Personnel.

The Mayor's action followed a number of criticisms by civic groups against the old Commission, charging it with incompetency.

The "Mayor's Committee on Management Survey", founded to investigate the charges, recommended that a three-man bipartisan civil service commission and a new Department of Personnel be set up. Mr. Schechter, as the head of both, was charged to develop a modern civil service and personnel program for the City.

Selected to serve with him on the committee were George Gregory, Jr., then director of Forest Neighborhood House in the Bronx, a Democrat, and Anthony Mauriello, then New York State Assistant Attorney General, a Republican.

Major Targets

Among the first major target areas the new Personnel Department marked out for great improvement efforts were:

- Establishment and maintenance of a Career and Salary Plan for City employees.
- Definition in clear terms of specifications for all City jobs.
- Adjustment of the wide salary gap between City employees and their contemporaries in private enterprise.
- Discontinuance of the widespread practice of assigning employees to duties completely unrelated to their qualifications and job titles.
- Regularization of working hours in City departments.

- Provision of incentives to promote good work.
- Discontinuance of promotions without changes in duties.

The Personnel Department has also recently completed the actual desk evaluation of 80,000 of the 95,000 jobs under the Plan, thoroughly studying and evaluating the duties in each position.

Says Mr. Schechter, "There are no more situations now, where two persons work in the same title, with one getting a salary of \$5,000 a year and the other \$12,000 for doing the same work, perhaps in the same office."

The Personnel Department, in the process of setting up salary scales, compared the salaries paid to workers in private industry and in other public jurisdictions against those paid to City employees.

"The net result," according to Mr. Schechter, "is that the gap between the pay of City workers and their contemporaries outside City service has been bridged tremendously."

On-campus recruitment of graduating accountants and engineers for City service and rapid placement in other critical job titles are two more important new programs started by Mr. Schechter. In some cases, a person may now apply, be tested and be appointed all in the same day.

Personnel Council

Another major accomplishment of Mr. Schechter was the founding in 1955 of the City-wide Personnel Council. It is made up of personnel representatives from 65 City agencies, who meet monthly to suggest and sponsor personnel policies and procedures and to discuss employee problems.

Creation of this group was a significant move toward better cooperation between the City's central hiring agency and the operating agencies.

One of the major objectives of the Department of Personnel this year, according to Mr. Schechter, is to start an Executive Training Program in cooperation with the Graduate School of Public Administration and Social Service of New York University. The Ford Foundation has given a \$250,000 grant for this project.

"My overall objective," said Mr. Schechter, "is to continue the progress made over the past five years in improving personnel management in City service."

**EMPLOYEES
ACTIVITIES**

Hudson River

The Hudson River State Hospital's 25 year service club held its annual dinner recently at the yacht club pavilion on the hospital grounds. A social hour preceded the dinner on the yacht club lawn.

New members admitted to the quarter-century club were Winifred Jennings, Elizabeth Natka, Ruth O'Connell, George B. Cole, Ralph Critelli, Clyde Douglas, Herbert P. Perigo, William A. A. Schultz, Robert J. Sheedy, Lawrence Shepherd, Irving Tomlins and Charles Veith.

Toastmaster Henry Emmer, senior business officer at the hospital, was introduced by Dr. Wirt C. Groom, assistant director of the hospital. 25-year pins were presented by Dr. Robert C. Hunt, director of the hospital.

Tribute to these veteran employees was given by Mrs. Catherine B. Corbally, vice president of the board of visitors. Especially honored were employees who had retired during the year. They were George H. Burdick, Ruth Robinson, Harriet Everett, Margaret Scott, Elizabeth Ryan, Etienne Marin, William A. Galbraith, Thomas Flanagan, Stephen Conolly, Rose E. Carney and Alonzo Shopp.

The anniversary cake was cut by Mrs. Elizabeth Ryan, the employee retiring with the most years of service. She had 54 years in State service. Sylvia Napua Pang sang several selections. Piano dinner music was supplied by Richard Ehlenberg, followed by dancing music by the patients' orchestra. Mrs. Mary O'Donnell and Ruth Van Auden were co-chairmen of the affair.

**Medics Needed

Men with experience as Army medics or Navy hospital corpsmen, or other medical experience are urgently needed to fill posts paying from \$4,040 to \$4,490 yearly, depending upon experience, at the U.S. Public Health Service Hospital, Staten Island.

Men with no experience can gain it as nursing assistants at the hospital, with pay ranging from \$3,255 to \$3,495. The \$3,255 jobs are in GS 2, no training or experience needed. The \$3,495 jobs are in GS 3, requiring a year's experience or training.

The higher-paid professional male nurses—\$4,040 to \$4,490—may work a 40 hour week or part-time. Per diem pay for an eight-hour day ranges from \$15.60 to \$17.28. There is an allowance for purchase and laundering of uniforms and other benefits.

Written examinations will be given for all positions.

**Deputy Welfare
Commissioner
Resigns Post**

ALBANY, July 13 — Joseph H. Louchheim has resigned as deputy commissioner for the State Department of Social Welfare, effective Sept. 1. He will be succeeded by Robert Shulman, associate welfare consultant in the department's New York City office.

The resignation was announced by Raymond W. Houston, commissioner, who said Mr. Shulman's appointment had been approved by the State Board of Social Welfare. The post pays \$15,084 a year.

The deputy commissioner is the director of the department's division of state institutions and agencies, which include eight training facilities for juvenile delinquents, the State Woman's Relief Corps Home at Oxford and the Commission for the Blind.

Commissioner Houston said Mr. Louchheim was leaving State service for personal reasons and expressed appreciation for his services. During Mr. Louchheim's tenure, the commissioner said standards of services of medical and allied institutions had improved substantially.

Mr. Shulman has been engaged in children's work for a quarter-century as a teacher, caseworker, institution director and child welfare executive. He has been on the staff of the New York City office of the department since 1952, where he has been responsible for the state's supervision of children's services by 100 public and private agencies.

Application blanks and further information are available at the Application Section, Department of Personnel, 90 Duane St., New York 7, N. Y. If you request them by mail, include a stamped, self-addressed business envelope.

**TWO STATE AIDES

**Federal Employees' Life Insurance
Has Paid Out More Than \$281 Million**

Over \$281 million have been paid to beneficiaries of deceased Federal employees and retirees since the Federal Employees' Group Life Insurance program became effective in 1954, the Civil Service Commission has reported. The CSC-administered program is the largest single-employer group life insurance plan in the world.

By June 30, a total of 53,236 life insurance claims totaling \$262,188,225 had been paid to beneficiaries in all 50 states, the District of Columbia, U.S. possessions, and some foreign countries. Benefits for accidental death and loss of limb or eyesight amounted to \$19,005,737 in 4,009 cases. During fiscal year 1959 alone, life insurance claims paid numbered 13,331 and amounted to \$68,146,815, while accidental death and dismemberment awards in 868 cases totaled \$4,527,345.

Under the program, group life insurance is obtained by the U.S. Government through private insurance companies. Each Federal employee who joins is insured for an amount approximating his annual salary. Through payroll deductions, the employee pays 25 cents bi-weekly for each \$1,000 of term life insurance, and his employing agency contributes an amount equal to half the employee's contributions. The amount of insurance now in force totals \$12,000,000,000.

Attesting to the highly successful operation of the program is the fact that, although participation is entirely voluntary, more than 5 percent of eligible employees have elected coverage. Over 2,200,000 employees and retirees are now insured.

Upstate P.O. Sub Clerk Test Readied

Post Office examinations for substitute clerk and carrier over a five-county upstate area may be expected to be scheduled within the next week or two. Four hundred applications have already been forwarded to central testing headquarters.

The jobs start out at \$2 an hour, and mount up to \$2.42. Ten per cent extra is paid for night work.

Neither formal education nor experience is required to apply.

The area covers Dutchess, Orange, Rockland, Sullivan and Ulster Counties, including 104 first and second class post offices. Many hundred substitute clerks and carriers are employed in this area. No closing date has been set for examinations.

Application forms and job information are most easily obtained at your local post office. Completed forms should be sent to the local office or the Board of U.S. Civil Service Examiners, General Post Office, New York 1, N. Y.

The written examinations will be held at such central points as Middletown, Newburgh, Poughkeepsie and Kingston. Candidates will be notified as to the time and place. The eligible list established from this examination will be merged with existing registers for these jobs.

If you are 17 to 70 years old and a U.S. citizen, you may apply.

Priority in certification for jobs goes first to those living within the delivery area of their own post office, and to provisionals and others already at work in the post office. Next, priority goes to other people in the county, and then to those outside the county.

The examinations are being conducted by the Board of U.S. Civil Service Examiners of the New York Post Office, by agreement between New York's Acting Postmaster Robert K. Christenberry, C.B.C. Fellows, regional personnel manager and chairman of the New York board, and James P. Googe, regional director of the U.S. Civil Service Commission.

6 Clerk Tests Set By Suffolk County

Six examinations for clerk posts have been scheduled for Sept. 26 by the Suffolk County Civil Service Commission. Applications will be accepted until Sept. 5.

No. 355—senior account clerk (promotion) \$3,720 to \$4,620. No. 356—principal account clerk (open-competitive) \$4,860 to \$5,910. No. 357—principal account clerk (promotion) \$4,860 to \$5,910.

Applications and information may be obtained from the Suffolk County Civil Service Commission, County Center, Riverhead, N. Y. (Park 7-4700, extension 241).

These examinations are open to one-year residents of Suffolk County. The eligible list as a result of these examinations will be used to fill vacancies in county service, towns, villages and special districts.

ACTIVITIES OF EMPLOYEES THROUGHOUT NEW YORK STATE

Brooklyn State

Congratulations to Mrs. Betty Wright on her recent addition — a baby boy.

Our best wishes go with Dr. and Mrs. Anthony Jimenez and Dr. and Mrs. Bruschi who recently resigned; also to Mr. Thomas Corris, Recreation Instructor, who recently resigned to be employed in California.

Mrs. Virginia Oliver recently attended the Practical Nurse Convention at Niagara Falls. Russell Fey is enjoying a vacation in the sunny climes of the golden west.

The Brooklyn State Hospital Nurses' Alumni held their annual dance on June 11th at the Paragut Inn and everyone had a most enjoyable time.

Congratulations and best wishes to Henry A. Girouard, Chief Supervising Nurse, who received his Master of Science Degree in Hospital Administration at St. John's University, and to Calvin Murphy, Supervising Nurse, who received his Bachelor of Science Degree in Nursing from the same University.

It is with deep regret that we announce the sudden passing of one of our most active members, William J. Farrell, who had been employed at the hospital for many years. Bill, I am sure, will be sadly missed by all his friends throughout the State. He formerly held the office of President and Delegate of this Chapter and he was always ready to help anyone who had a problem. We at the hospital will miss his cheery smile and friendly greeting.

We wish to express our sympathy to the family of Mrs. Florence O'Reilly, employee, who recently died; to Mr. and Mrs. Harden on the death of Mr. Harden's father; Mrs. Hortense Mills on the recent demise of her husband.

Best wishes to Charles Mandelion, attendant; Olive Moss, practical nurse, and Jeremiah Moore, window washer, who recently retired.

The following employees are making a good recovery in the sickbay: Vera Ross, Pauline Albrecht, Jeanette Sokolow, Mildred Boone, Minnie Byrd and James Keegan.

Installation of officers and members of the Board of Directors of the Ida Silver League took place on May 20th. The installing Officers were Dr. Nathan Beckenstein, Director of the hospital, and Dr. John A. Bianchi, Assistant Director.

Memorial Day Exercises were held at the hospital on May 30th. The ceremonies consisted of prayers by the various chaplains of the hospital, the singing of hymns

by some of the employees, and a short address by Dr. Nathan Beckenstein, Director of the hospital. Troop 45 from Holly Cross Church Boy Scouts of America participated in the ceremonies. It was interesting to have these Boy Scouts because a number of them are the sons of employees of the hospital.

Capping and Chevron Exercises of the 1961 class of the School of Nursing of the hospital were held on June 8th. The principal address was given by Dr. Nathan Beckenstein. Dr. George M. Bell, Superintendent Physician of the Dingleton Hospital, Melrose, Scotland, also attended these Exercises. The students are Norman Harris, Carl E. Hell, Catherine Lonieski, Carole Roberts, Mary Serra, Claude Simpson and Joan Wilson.

The present officers and members of the Board of Directors of this Chapter wish to thank all the past officers and members of the Board for their diligent work on behalf of the Chapter during their tenure of office.

Newburgh

Prior to the regular meeting of the Newburgh Unit of the Civil Service Employees Association recently a Salk vaccine clinic was conducted and a total of 161 city employees and adult members of their families were given shots, by a staff of doctors and assistants composed of Dr. William P. Howley, Dr. Marcel Benzakoin, Dr. Stanley Selsnick, Mrs. Gerald Flaun, Mrs. Arnold S. Banks, Mrs. William Montgomery and others. Those assisting from the chapter were Miss Isabel VanPelt, Mrs. Ida Bauer, Walter Peel, Art Ciccone, Edward Metzner, Thomas Metzner, Peter and Charlotte Ehrenhaft, Frank and Charlotte English, Ann Power.

Also present was Ben Krieger of the Newburgh Chapter of the National Polio Foundation, who arranged to have another clinic for the 2nd shot or anyone who was unable to attend this clinic. The date will be July 21 and at 7 o'clock at 27 Chamber St., Knights of Pythias Hall.

Frank Casey, CSEA Field Representative attended the meeting and expressed his approval of the

unit's participation in such movements as the Salk vaccine clinic and other civic movements. He also explained to the membership the reasons for the increase in membership dues and the extension of service planned by the CSEA Board of Directors to the membership, which now numbers about 85,000.

The unit voted to participate in the celebration of the Hudson-Champlain Anniversary and entered a float in the parade held in the City of Newburgh on July 11.

There will be no business meetings during July and August.

State Museum May Move to Campus Site

ALBANY, July 13—Should the State Museum, now housed in the State Education Department here, be moved to a new location?

The man raising the question is Dr. William N. Fenton, assistant commissioner of education in charge of the museum and science service.

The desirability of a new location was emphasized in the 120th annual report of the Museum which was made public last week.

Dr. Fenton's view is this: "We now occupy the fifth floor of a monumental downtown building in a neighborhood without parking facilities for visitors. The present location is the outgrowth of a more leisurely decade when the visitor came to Albany by rail or by river, but now the out-of-town tourist traveling the Thruway bypasses Albany and the Museum."

He adds: "The problem of the city museum is like that of banks and department stores whose customers have fled to the suburbs. Experience elsewhere in the country suggests that a suburban location with parking for 10 school buses and 200 cars is the ideal situation."

The annual report notes that the number of school groups visiting the museum declined last year.

Most frequently mentioned as a potential location for a new State Museum and Science Center is the Campus Site area on the western outskirts of Albany and near a Thruway interchange.

The State Board of Regents is expected to seek \$20,000 to make a survey of possible sites at the next legislative session.

Fund Deep in Red USCSC Retirement

WASHINGTON, July 13 — A record deficit of \$27.5 billion has been reported by the Board of Actuaries of the U.S. Civil Service Retirement System. The seven-billion-dollar jump in five years was blamed by the Board on higher Federal salaries, lower death rates, and higher retirement rates as the primary reasons.

The high deficit is bound to create strong opposition against any more broad liberalization of the system, and sharp differences over financing policies of the fund.

The more than 400,000 retirees and survivors have no cause for alarm, said CSC officials. Their monthly benefits will be paid without interruption. There is no real present danger, unless the entire Civil Service personnel retires en masse right now.

The board is composed of George B. Buck and Otto C. Richter of New York, and Russell R. Reagh of Chicago, all prominent non-government actuaries appointed by the CSC. They stated that the fund, as of June 30, 1958, had a balance of 8.2 billion and it has grown since to nearly 9 billion as income during the 1959 fiscal year has exceeded payments by about \$800 million.

The fund's balance will grow until 1969, at present rates, when benefit payments will exceed annual income. Unless financing changes are made in the meantime — and it looks as if there will be — the fund will be exhausted by 1987 and its deficit will be substantially larger than it is at present.

The actuaries cited several reasons why the deficit had jumped from \$20.5 billion in 1953.

Retirees are living longer with the help of modern medical attention. The retirement act approved two years ago provided "significantly higher rates of disability and optional retirement."

Also, higher salaries have had the effect of boosting the annuity value of all creditable service under the system. The average increase on the 5-year period for the 750,000 laborers and mechanics alone, CSC said, was 27 per cent. Finally, the actuaries explained, a "sizable proportion" of employees who entered Government during the past five years had previous military or

civilian service which is creditable toward CS retirement. The board recommended a special study be made of this particular cost.

A census taken in connection with the valuation brought out the fact that a sizable proportion of employees who entered Federal service within the five-year period had previous military or civilian service which is creditable under the Civil Service Retirement System. The annuity value of all creditable service has been raised by salary increases, which in the case of wage-board (blue-collar) employees aggregated 27% between 1953 and 1958. Pay of these employees is periodically adjusted, based on prevailing rates, and directly reflects unpredictable gains in wage levels throughout the economy.

Under the Civil Service Retirement System, benefits are based on the average salary received by the employee during any five consecutive years of creditable service which affords the highest average. The higher salaries have increased the liabilities of the Government, not only for future service but also for past service.

The board said the boost should be expected since private retirement systems and other governmental systems have experienced similar increases in their accrued actuarial liability or deficiency due to the upward trend in the general level of wages and prices during recent years.

The Board also recommended that more frequent valuations be made than at the present five-year intervals. When the present five-year interval for valuation was fixed by law in 1920, Federal employment and Federal salaries were relatively stable and remained so for some years. In periods of inflation on the other hand, a more frequent valuation is needed to insure that estimates reflect all current factors.

Oneonta

The regular monthly meeting of the Oneonta Chapter of the Civil Service Employees Association was held recently at the New York State Health Department Office, Oneonta, with the president Marion Wakin, in charge.

Following the usual reports, a discussion was held regarding the coming election for Association officers in Albany. The method of handling grievance problems was also discussed thoroughly.

Due to the fact that this was the last monthly meeting until September, it was decided by the members present that a raffle would be held in the fall and a committee would be appointed at the September meeting. It has also been suggested that the possibility of holding Chapter meetings every other month be brought up at the September meeting with the members discussing this possibility during the interim period.

The Oneonta Chapter is planning to hold the annual chicken barbecue on August 9, at the Sportsmen's Rod and Gun Club, at the top of Franklin Mountain, Oneonta, at 1:30 P.M. Mr. William Tiner, a member of the Oneonta Chapter and an employee of State University Teachers College, will again put on the barbecue. Tickets will be \$1.75 for adults and 75 cents for children under 12. Mrs. Agnes Williams was appointed chairman for this affair. Bill to Bobtail CSC Dying in Congress

WASHINGTON, July 13 — The Congressional bill to strip the Civil Service Commission of most of its power and functions and give them to an "office of personnel management" seems to have been killed off for this year.

That was the verdict of the bill's sponsor, Sen. Joseph Clark (D., Pa.). Senator Clark said that after a hearing of the Civil Service Subcommittee received the views of Deputy Budget Director Elmer Staats and CSC Chairman Roger Jones. Their statements added up to the view that the present bill isn't really needed.

The original charge in the 1940's, said Mr. Staats, was that a three-man commission didn't lend itself to effective and vigorous leadership. However, the CSC

reorganization in 1949, which called for a strong-chairman set-up, went part way toward meeting that. Mr. Staats asked:

"Why not give a strong chairman-type commission a full opportunity to function with a strong and vigorous chairman, which we now have in Roger Jones?"

Both men said they saw no danger to the principles of the merit system in the transfer of functions proposed by Senator Clark. Support by the public, employee groups, Congress and the President would be enough to protect the system from political encroachment, it was stated.

The provision in the Clark bill which would give the CSC final authority over employee grievances was objected to by Mr. Staats. He said giving the Commission final authority to reverse agency decisions on matters of discipline and the handling of grievances would interfere with effective personnel management.

The Clark bill would strengthen the Commission's appeal powers. The bill would give the CSC strong power to police personnel methods.

'Budget Battle of Long Island'

As a result of taxpayers' revolts in twelve Long Island School districts, 34 school districts in Nassau and Suffolk Counties, representing well over 1,500 non-teaching employees met in an emergency meeting called by Irving Flaumenbaum, president of the Nassau Chapter of the Civil Service Employees Association.

'Austerity and Minimum Budgets,' outside cleaning contractors threats to the Civil Service status of custodians were two of the issues discussed.

John P. Jehu, director of the Law Division of the State Education Department had been communicated with and in his reply said: "Schools on austerity budgets cannot operate cafeterias." He further stated, "we are now sending a round-robin letter to all Long Island Schools facing austerity budgets, answering that and several other questions raised by various school officials."

The Roosevelt Board of Education has already notified its 20 cafeteria workers that their jobs will terminate June 30th. With Jehu's ruling, the other districts must follow suit.

Mr. Jehu said school districts with austerity budgets cannot spend money for anything except teachers' salaries and essential operating expenses.

Some Questions & Answers

Then he answered these specific questions:

Q—How many non-teaching employees may a district hire?

A—Each local board must decide that for itself. They may hire only as many non-teaching employees as are absolutely necessary and if questioned, must be ready to defend each hiring, promised them at the time of hiring?

Q—How about automatic raises for non-teachers, if they were

A—Those raises are out . . . but still the districts may pay what is necessary . . . Districts that had been planning to exclude their cafeterias from their budgets and raising prices so that they would pay for themselves were told by Mr. Jehu, "they cannot do that, even if the cafeteria is not in the budget."

Some Dismissals Already

The threatened austerity budget caused District 13, in Suffolk County to dismiss thirty of their bus drivers, Levittown, Nassau's austerity budget unless the voters approve previously voted down budget, largest school district is faced with the prospect of adopting the budgets, Salvatore Ciangi, a member of the Levittown Board of Education, so informed the meeting.

After cafeteria and transportation workers, the next whipping boys in an affected school district are the members of the custodial forces. In one district in Nassau, four increment steps were cut from the custodial fringe benefits.

William Ellenger of Bethpage, opened the meeting introducing Ed-Perrott, also of Bethpage, who told of the cleaning contractor Mr. Flaumenbaum, who amplified the remarks of the previous speakers before launching into the main topic of 'Austerity Budgets'. He then asked for questions from the floor which were all answered satisfactorily.

Telegram Sent to Dr. Allen

A telegram was dispatched to Commissioner James E. Allen, Jr., of the New York State Department of Education, deploring the necessity to the non-teaching personnel in Long Island's affected city for "Minimum and Austerity Budgets", and to afford needed pro-School Districts."

Yet, there seems to be a bright spot in the distant horizon. Great Neck, Nassau's Gold Coast School District, which had previously voted down their budget, reversed itself by voting for the new 1959-1960 budget with added fringe benefits. So perhaps, the Great Spring Tax revolt of the 1959 version of the Battle of Long Island may end after all, in a square deal for all.

State Sets Union Fund Watch Unit

ALBANY, July 13 — A new unit in the State Department of Labor will watch over union funds under the new Labor-Management Improper Practices Law.

Industrial Commissioner Martin P. Cathewood has announced appointment of a career State employee, William J. Hurley of Albany, as director of the new unit. Mr. Hurley will administer the new labor law as head of the new Labor-Management Practices Division.

The Division will shortly be contacting an estimated 70,000 unions, employer organizations, employers, and labor relations consultants in carrying out the Improper Practices Law. By December 1st of this year the new Division will be processing reports from these sources, including a large number of financial reports from unions and employer organizations.

Mr. Hurley and his staff are already preparing report forms which will soon be distributed to persons and organizations requiring them. Conferences are also going on with labor and management leaders to acquaint them with the requirements of the Act and to eliminate difficulties in the reporting procedure.

Mr. Hurley has been with the Division of Employment since 1937. In 1951 he took the position of Assistant Employment Security Superintendent and in 1953 was appointed Employment Security Superintendent.
