### Retirement Bill **Defects Bring** Rockefeller Veto

ALBANY, April 21 - Governor Rockefeller has vetoed a teachers' retirement bill because of a defect in the legislation.

Pointing out many members of the system had ceased teaching but had not withdrawn their contributions in the annuity fund for many years, Mr. Rockefeller said the purpose of the bill was to permit transfer of the funds to the general pension fund.

He said the bill was designed to ease bookkeeping burdens of the system and that the proposed law would not increase or decrease benefits to teachers.

He added: "Provision is made by the bill for the recovery by the contributor of the 'abandoned' contributions without interest. By oversight, however, the bill fails to give this same right of recovery to the estate of a deceased contributor. Thus, the bill would result in a curtailment of the existing rights of the beneficiaries

He concluded: "I am, however, sympathetic to the purpose this bill seeks to achieve and believe Other Conference business will a revised form of the bill should include a report on the recent be considered by the Legislature

He added: "It is inevitable that a large proportion of present staff members in New York City will continue in New York City."

Mr. Catherwood gave assurances that the impact of any proposed shift of employees from New York to Albany on the evaployees themselves was being taken into consideration. He said no change would be considered without a genuine effort" to determine whether it was necessary.

The former dean of the Cornell School on Industrial and Labor Relations described the current department survey as being a 'careful study" of department operations in New York City.

### Central Office Idea

He termed a newspaper report that as many as 600 employees main office has been in New York might be shifted from New York City.

Behind the study, associates have indicated is the desire of the new commissioner to centralize top-level administration in one office, possibly Albany.

The Labor Department employs about 11,000 people, of whem 2,800 work in Albany.

Mr. Catherwood said department policy would be to give any individual employees or group of employees adequate notice and consideration "if" they were to be transferred from New York to Albany.

Any such moves, he added, would be made over a severalmonth period to cushion the impact on the employees.

Rumors concerning the shift of a number of New York City employees of the depaytment to Albany spread quickly earlier this year after newspaper reports that Mr. Catherwood was considering making Albany his headquarters.

In prior years, the department's

ALBANY, April 20 - New York | facilities for State employees in

Over the weekend, Governor Rockefeller signed a legislative package of three bills, which will authorize the State to go ahead with the long delayed project.

The bills had the support of the Civil Service Employees Association, which sparked interest in the program.

In signing the bill, the Governor declared: "State employees have long suffered from the lack of adequate parking facilities in Albany. Recent studies indicate a shortage of almost 1,900 parking units in the Capitol Hill area. These three bills are designed to alleviate this vexatious problem.

"The first bill enables the Department of Public Works to acquire property for parking purposes. The second bill authorizes the conveyance or leasing of such land by Public Works through the New York State Employees Retirement System, and the third authorizes Public Works to contract with the Retirement System for the construction of parking facilities.

"It is with great satisfaction that I approve these bills which go far toward solving this longstanding problem."

The legislation, as approved. does not apell out the size or location of the proposed parking facilities.

Mr. Rockefeller said Mayor Wagner had urged disapproval of the legislation as "both unnecessary and inadvisable."

The Governor quoted the mayor as saying: "The Police Commissioner did, in fact, permit special officers of the Department of Welfare to carry firearms, but withdrew that permission approximately four years ago, after several occasions of misuse of such firearms by the special officers, including one which resulted in a person's accidental death, and one in which a special officer was convicted of attempted extortion."

The Commissioner of Welfare also urged the bill's veto.

### **Bill Relieves Court** Clerk of Penalty

ALBANY, April 21 - Governor Rockefeller has signed a bill, which repeals a section of the State Judiciary Law calling for a \$250 penalty to be assessed against a clerk of a court who fails to docket or furnish a transcript of a docketed judgment.

Mr. Rockefeller declared: "A clerk of a court should not be liable for either personal omisaions or omissions of subordinates of the type specified in Section 255-a. The policy against vicarious liability is reflected in Section 54 of the County Law, which extinguishes the liability of county officers for acts and omissions of their employees. ### Similar Plans

In many ways the Public Employees Buying Plan is similar to the Army and Navy Plan created for veterans of World War I in the 1920's, and to the present operation of such organizations as the American Automobile Association. Merchants become affilliated with the plan in anticipation of obtaining a volume of business and reducing other promotional expenses. Cooperative buying plans for civil service employees are common in most European countries where similar inflationary pressures have cut into the standard of living of public employees.

Approximately four hundred merchants have enrolled in the Plan at the first invitation, including dealers in a wide variety of merchandise and services Among the fields covered are: florists, accordians, auto service, clothing for men, women and children, dry cleaning, furniture, hardware, laundry service, jewelry, musical instruments, pharmaceuticals, photo supplies, records, sporting equipment, slip covers. toys, repair services, upholsterers, wall papers, etc.

### Reckless Criticism

Mr. Lefkowitz said that "the citizen has no better or more faithful friend than the conscientious police officer. Upon his shoulders falls the duty of defending his life, if necessary, against those who attack our society. Daily we read in our newspapers and hear on the radio and television of the police officer who has saved a life at some disaster. In an emergency, he is both a doctor and a nurse. No one is more ardent a fighter than the police officer in seeking to wipe out the causes of juvenile delinquency, and in helping the unfortunate youngster to enrich his own life and to become a useful member of the community.

"Yes, in his every day, unheralded work the police officer is a social worker, a father confessor to those who seek his counsel and advice, a parent to someone else's child, and a benefactor to all in need.

"The adult who hurls reckless criticism at the law enforcement officer not only evidences his own thoughtlessness but inculcates in our youngsters a lack of respect for the law. The young boy or girl who nears a parent or other adult speak disparagingly of the police, or who witnesses a scoffing at the law, thinks it perfectly proper to do likewise. Here is sown the first seed of anti-social behavior," he said.

# State's Board of Regents To Have 175th Birthday; Alexander Hamilton One Of Illustrious Members

State's 13-member Board of Re- Department. gents-the oldest continuous pol-America-will observe its 175th birthday May 1st.

To celebrate, the board will do business as usual. It will hold its regular monthly meeting, as scheduled, in the Regents room quent on war. Perhaps there is in the State Education Building.

The Regents were incorporated by the Legislature in 1784. They exercise broad authority over New York's educational system, the largest in the country with more than four million students in the state's public and private schools and more than 100,000 teachers in public schools alone.

### They Serve Without Pay

Throughout their 175 years of history, the Regents have served without compensation. The present roster includes:

John F. Brosnan, chancellor: Edgar W. Couper, vice chancellor; Mrs. Caroline Werner Gannett, Dr. Dominick F. Maurillo, Alexander J. Allan Jr., Thad L. Collum, George L. Hubbell Jr., Charles W. Everett J. Penny, Carl H. Pforzheimer Jr., Edward M. M. Warburg and J. Carleton Corwith.

Some of the best known Regents in past years have been John Jay. Alexander Hamilton, Martin Van Buren, St. Clair McKelway, Whitelaw Reid, Chester S. Lord, Washington Irving, Owen D. Young, Chauncey Depew, W. Kingsland Macy and Roger Straus.

### Gov. Clinton Sought Plan

Since 1784, a total of 338 persons have served on the board. There have been 27 chancellors.

To assist them in their work the Regents appoint a professional educator as Commissioner of Education. He is the board's administrative officer.

ALBANY, April 21-New York employees of the State Education

Following the revolution, the icy-making educational body in first Governor of New York, George Clinton, called for a revival of education in his message to the Legislature. He declared:

> "Neglect of the education of youth is among the evils consescarce anything more worthy of your attention than the revival and encouragement of the Seminaries of Learning; and nothing by which we can more satisfactorily express our gratitude to the Supreme Being for his past favors; since Piety and Virtue are generally the offspring of enlightened understanding."

The Legislature then created a corporation to be known as The Regents of the University of the State of New York.

### Court Personnel Survey Nearing End

ALBANY, April 21 - Governor Rockefeller has reported that the State Judicial Conference is completing a statewide survey of personnel.

He added the conference expects to make extensive recommendations based upon its survey to make more uniform the classification of court personnel.

The Governor's remarks were contained in a veto message of a bill which would have permitted each judge of the Court of General Sessions in New York City to appoint a personal attendant.

Furthermore, under the bill each attendant who had served ten years would automatically be frozen into the classified service, if the judge died or ceased to hold

Mr. Rockefeller said "Legislation in this area should be desurvey are available."

### Government's Obligation

Continuing, Mr. Lefkowitz said, "Just as important as it is that you perform your duties in a manner which will earn for you the respect and confidence of the citizen, so equally it is essential that government be aware of its obligation to set a pattern as a model employer through concrete recognition of the invaluable contributions of those who serve it.

"Government officials must learn not only to recognize the needs of our civil service workers but must become militant advocates of legislation beneficial to them. Adequate compensation must be paid. Humane working conditions and working hours must be made the rule. Living as we do in an age where the life span has been increased to a degree unthought of only a few years ago, it has become ever the more essential to insure retirement and other fringe benefits molded along modern lines."

"Great progress has been made in recent years in the struggle to raise public regard for the civil service, and to make government aware of its obligations. Much remains to be done, and I know that your new chapter of the Civil Service Association will soon make itself a potent instrument of leadership," he said.

Other guests included John F. Powers, CSEA president; Frank Casey, CSEA field representative; ferred until the results of this Father Dunn and Inspector Dwyer.

## An 'Obnoxious' Situation

Mayor Wagner has stated during the past few days that the City will have to do with less police, fire and other civil service personnel than it needs because there are not enough tax revenues to pay for the desired number of public employees.

At the same time, Mayor Wagner admits there are specific taxes he could impose but will not do so because they are "obnoxious."

Looking In The Wrong Direction

We feel the Mayor is looking in the wrong direction. The obnoxious situation is an undermanned public service that fails to give the City the protection and attention to welfare and service that it must have.

Thus, the Mayor is taking steps that will sow the seeds of double jeopardy.

First, by not giving the current members of the public service the salary adjustments they are justly entitled to the Mayor is not only crippling morale but giving public employees more reason than ever for leaving aid probation and parole authorthe service and seeking other employment where a decent standard of living can be earned.

Second, he not only is not providing the City with the services it needs but is advertising the fact that City employment leaves a great deal to be desired, thus dealing a blow at future recruitment.

### City OWES Employees a Raise

Government, and by this we mean government on all levels, must wake up to the fact that public employees can no longer be treated as expendable when it comes to the distribution of budget funds. Government services in the majority of cases are not luxuries-they are vital necessities.

The City OWES its public employees a raise. Salary increases are not a matter of administrative largesse. They are a duty imposed on government by the necessity to maintain a public service that will operate efficiently.

No one, including public employees, wants to pay more taxes on an already burdened income. But no rightminded citizen wants to create the "obnoxious" injustice of not giving a worker the just fruits of his labor.

Do your duty, Mr. Mayor.

### LETTERS TO THE EDITOR

FINGERPRINTERS REBUT 'EQUAL DUTIES' CLAIM

Editor, The Leader:

The Identification Officers Association of the City of New York which includes the fingerprint men in all City Magistrates Courts, is writing this letter in response to a story which appeared in the April 14 edition of the Leader under the headline "A Fingerprint Expert By Any Other Name - Is What?"

The Identification Officers Association intends to show that joint civil service examinations and appointment from the same list do not mean that fingerprint men in different departments have the same degree of duties and responsibilities. Each department is foreign in duties and responsibilities, though personnel have taken the same test for their appoint-

We do not agree with the opinion of the Personnel Department, Correction Department and Transit Authority fingerprinter groups in their contention that they do equally responsible and skilled work. Searching criminal fingerprint classification files is not the simplified comparison of name prints. Verifying criminal records of previous arrests is not the comparison of name prints for substitution.

The Identification Officers Association will prove that the 500,-000 fingerprint classification files of the City Magistrates Court Identification Service guide the judiciary in imposing sentence, ities, assist in locating fugitives, aid in identifyng unknown deceased individuals and amnesia victims. We contend strongly that herein lies more responsibility and more required skill than do the duties of the other three groups.

ASKS TAX-FREE FRINGE BENEFITS Editor, The Leader:

As a member of the Civil Service Employees Association and a contributor to the New York State Retirement System I believe the Leader should support a program whereby public employees' "fringe benefits," such as health insurance and pensions would be paid directly to the insurers and to the retirement system, and exclude these payments from State and Federal income taxes.

Private employee plans have tax legislation relieving these fringe benefits from taxation. The pension contributions of the private industry wage earner are not taxable until he retires and has a substantially lower taxable income.

The State and Federal legislatures should be made aware of this discrimination.

# YOU AND RETIREMENT

By FRANCIS M. CASEY

Member, CSEA Field Staff

I am working as a doctor for the Department of Mental Hygiene, I have paid into the retirement syxtem over \$7,000, having been employed for 8 years. I am in the 55 year plan and am planning to retire in two years when I shall be age 62. Please answer the following questions.

1. In case I retire after 10 years of service can I get all my money in one payment?

2. Will it be with interest?

3. How much can I get by weekly payments?

1. Since you became a member of the retirement system after April 6, 1943, and over age 60, and since you will have over five years of allowable service, and your contributions and salary as a doctor would produce a retirement allowance over \$300 per year, you may not draw out your accumulated contributions in a lump sum but must take a retirement allowance to be paid monthly.

2. Accrued interest on accumulated contributions is always included in calculating benefits or the refund of the members contributions.

3. Since there are so many factors involved in calculating a retirement allowance, it is not possible to furnish individuals, in this column, amounts of their retirement allowances. This information can be secured by contacting the New York State Employees Retirement System, 90 So. Swan St., Albany, N.Y.

I entered State Service in 1948 and am a member of the new 55 year plan of the retirement system. I do not contemplate retiring until after I am 65. Can you tell me whether in the event of my death after age 60, and before retirement, my contributions will be paid in a lump sum to my estate?

I have in mind the provisions of the law with respect to joining the Retirement System before April 6, 1943. I should also like to know if this provision of the law affects one's right to borrow from the pension fund after reaching age 60.

Regardless of the date of your becoming a member of the retirement system, or plan you are participating in, if you die in service, your accumulated contributions. if so named.

service or on leave of absence. with the approval of the comptroller, again regardless of date of membership or plan, may borrow fifty per centum of his accumulated contributions, or an amount which, together with interest-on any unpaid balances, can be repaid prior to his attainment of age seventy by additional deducof such compensation.

I must retire in 1960 after 35 years of State Service. I am an trnment on Social Security. Mail honorably discharged veteran of only. Leader, 97 Duane Street, the first World War, but never New York 7. N. Y.

Many letters have been received requesting information regarding amount of retirement allowances individual would receive.

Since there are many factors involved, it is not possible to emish individual amounts of retirement allowances through this column.

Any member of the New York State Employees' Retirement System, or of retirement age, will be furnished an estimate of their retirement allowance by requesting same from the New York State Employees' Retirement System, 99 South Swan St., Albany, N. Y.

claimed the 18 months service, which I can do, but I can't find any reason why I should have my record changed. Is there any good reason why I should add this time to my service record?

The most important reason for claiming military service is that if it is allowable, the 18 months would be added to your state service,, increasing your retirement allowance at no additional cost to you, the State paying both the annuity and pension portions. Under the 55 year plan you would receive 1/60th of your final average salary for each year or portion for this service and 1/70th for each year or portion thereof under the 60 year plan.

To be eligible to receive this credit you must have been an actual resident of the State of New York at time of entrance into military service and possess an honorable discharge. Every veteran of World War I, who is a member of the New York State Retirement System, and who qualifies, may receive this credit regardless of where they were employed prior to entering State or local government service.

# A New Plan Designed to Give You Substantial Savings On All Your Purchases

You receive 3<sup>3</sup>/<sub>4</sub> percent to 7<sup>1</sup>/<sub>2</sub> per cent rebates on your purchases from ANY of these hundreds of Merchant Members.

THE PUBLIC EMPLOYEES BUYING PLAN provides rebates to members on purchases made from a long list of stores in communities throughout New York State.

Here is how the Plan works:

- (1) MERCHANT MEMBERS of the Plan—stores and services listed below—have agreed to make rebates to the Public Employees Buying Plan upon presentation of sales slips by the Plan.
- (2) CONSUMERS MEMBERS. Membership is presently limited to certain groups of Civil Service Employees. You are automatically eligible to use the Plan without cost if you are a member of the C.S.E.A. (Your membership may be evidenced by your Leader address label).

All you need do is to accumulate sales slips from purchases made at any of the Member Stores, and mail these slips to the Plan. The Plan makes a rebate of 7½ per cent of the sales slips for most stores; 3¾ per cent in special cases such as discount houses, as indicated by an asterisk next to the name on the list below. Any purchase you make from a Merchant member is on the same basis as you would make it as an unaffiliated purchaser. Rebates are payable only on cash payments, or at the time you pay your bills. Fair traded items are excluded.

At the time of making a purchase, Consumer Members needs not identify themselves unless the purchase is for a sum exceeding \$200.00. However, when applying for a rebate to the Plan, members must identify themselves by enclosing their mailing label from the Civil Service Leader or other proof of eligibility.

Each application made by a Consumer Member for a rebate must contain a summary in duplicate of the sales slips attached, showing the name of the store, the amount of the purchase, and the rebate requested for each purchase. Other procedural rules will be set from time to time.

Here is an example of how You, as a Consumer Member, may get the rebate. In the list below you see that stores operated by Mr. X and Mr. Y have items you wish to purchase. At both stores you merely make your purchase in the ordinary manner, ask for a sales slip, and then later mail the slips to the Plan for your rebate.

Below are listed the stores and services enrolled in the Plan.

Listings of stores which are Members of the Plan will appear in the Civil Service Leader from time to time. Similarly, stores which have been withdrawn from the Plan will be noted. If you wish to recommend any reputable store for membership in the Plan, please send the name and address to the Plan Office, 97 Duane Street, New York 7, New York. The Plan will attempt to enroll reliable merchants from all parts of New York State to provide a cross-section of merchandise and services in all price levels.

### Westchester Aides Have 3 Options In State Health Plan

Westchester County employees will have a choice of three options under the State Health Insurance Plan recently adopted for its public workers by the County.

The statewide plan offers Blue Cross-Shield protection plus major medical coverage provided by the Metropolitan Life Insurance Co.

Under this plan, employees are provided regular health protection through Blue Cross-Shield benefits. The major medical coverage takes care of 80 per cent of those expenses which ordinarily do not come under Blue Cross-Blue Shield.

Group Health Insurance (GHI) contains Blue Cross coverage and has no deductibles. In each of the above plans, members may choose their own physicians.

The remaining option, Health Insurance Plan (HIP) also gives Blue Cross coverage. Doctor care is assigned by the plan.

The health plan was advocated by the Westchester chapter of the Civil Service Employees Association.
