President Evan Collins

PROGRESS REPORT NO. 16

1. Duct work and ventilation fans are being installed in the commissary.

2. Arch ways are being installed on the east side of the central heating plant.

3. Plant maintenance building and garage has up-right pillars installed and will probably have roof poured next week.

4. Pillars and second story floor are being poured on the east wing of Dormitory One.

5. Six play fields have been planted and grass is starting to appear.
