The Pay Window

By F. HENRY GALPIN

Salary Research Analyst, Civil Service Employees Association

RECENTLY THE SECOND U. S. CIVIL SERVICE REGIONAL office made an interesting announcement concerning recruitment of stenographers and typists. According to this announcement, typists and stenographers were urgently needed to fill vacancies in the five boroughs in NYC. The starting salary for stenographers was \$2,750, and for typists, \$2,500. This pay does not include overtime pay, and appointments may be made as high as \$2,950 for typists and \$3,175 for stenographers. There was no maximum age limit, and applications would be accepted from those with physical handicaps. No specific experience or education was needed. A general written and typing test would be taken by all candidates, and stenographers are required to take dictation at 80 words a minute.

In sharp contrast to this, New York State is attempting to recruit stenographers in direct competition with the federal government at \$2,504, or about \$250 a year less, with similar requirements, but with no overtime pay. This salary differential is nearly \$5 a week, a pay differential of 10 per cent.

The Division of Classification and Compensation has recognized the State administration's problem in recruiting stenographers by recommending the upward allocation of these positions, but to date the Office of the Budget has failed to act, so that they are still in Grade 2.

No Wholesale Layoffs for DE; Loysen Tells Why

Milton O. Loysen, executive director of the State Division of Employment, foresees few lay-offs in the DE as a result of an expected cutback in Federal funds to the State agency.

Although New York's share in the reduced allocation for all the States has not yet been announced, Mr. Loysen said no substantial staff changes would be forthcoming.

About 200 positions which had become vacant in his department were left unfilled in expectation of the Federal Government's economy move, he said. Also, about 1,200 DE employees were laid off

in the last half of 1952.

In contrast to the New York situation, it was announced that 600 workers, or 25 per cent, of the staff of the New Jersey State Division of Employment Security would be dismissed within the next six weeks as a result of drastic reduction in that State's allocation.

THEY SAY

PHILIP YOUNG, Chairman, U. S. Civil Service Commission: "The civil service is not concerned with politics, but sometimes we can't keep politics from concerning itself with the civil service."

Started as a Laborer; Look Where He Is Now

ALBANY, Aug. 17 — Newton F. Ronan, assistant district engineer, is being transferred to the Albany district office of the State Department of Public Works, effective September 1. He leaves a similar position in the Utica district office which he has held since 1952 to replace E. E. Stickney, retired. Superintendent of Public Works Bertram D. Tallamy said Amasa Stewart will be given a provisional appointment as assistant district engineer in Utica.

Mr. Ronan, born in Albany, entered State service in the Department of Public Works in 1911 as a laborer. Progressing through various titles, he moved to the Poughkeepsie district office of the department, where he held the title of county assistant of Rockland County until he was appointed assistant district engineer. His pay is \$10,198.

Mr. Ronan is married to the former Lena Marguin of Watervliet. He is a member of the New York State Society of Professional Engineers.

Mr. Stewart is an associate civil engineer (construction) and has made a career of highway work.

Local Governments Swamp State with Pension Coverage Pleas

J. Raymond McGovern (left) Comptroller of the State of New York, and Joseph B. O'Connor, regional director of the U.S. Department of Health, Education and Welfare, sign the agreement to provide Social Security coverage for public employees in the State. Looking on are, from left, Milton Alpert, Deputy State Comptroller, who will head the State Social Security Agency; Eugene J. Bryne, legislative chairman of the Civil Service Forum, State of New York; H. Elliot Kaplan, chairman of the U.S. Committee on Retirement Policy of Federal Personnel, and Former Deputy State Comptroller; John F. Powers, 1st vice president, Civil Service Employees Association; Peter Keresman, executive secretary, Police Conference of New York State, and Robert W. Brady, president of the Civil Service Forum.

The agreement between the U. S. Department of Health, Education and Welfare and the State of New York, making possible the coverage of 100,000 public employees of the State and its political divisions under the Federal old-age and survivors insurance, was signed in NYC last week.

Joseph B. O'Connor, regional director of the Department of Health, Education and Welfare, complimented State Comptroller J. Raymond McGovern for "the splendid work performed by him and his committee," made up of members of labor, management and the legislative bodies of the State.

The signing took place in the Comptroller's NYC office, at 270 Broadway. Mr. O'Connor signed on behalf of the U. S. and Attorney General Nathaniel L. Goldstein and Deputy Comptroller Milton Alpert for the State, in addition to Comptroller McGovern.

Effective October 1

The agreement affords the State and its divisions the opportunity to extend retirement and survivors security to public employees not now covered by either the State Employees Retirement System or Social Security.

Eligible employees must become members of the State Employees Retirement System by September 14, or automatically come under Social Security.

The effective date of the agreement — when the coverage starts — is October 1, 1953.

At the moment, at least 8,000, possible 10,000, in labor type jobs in the State government, not now members of the SERS, are af-

fectured. If they are eligible to membership in that system, they may join it by September 14. If they may join it, but don't by that deadline, they come under Social Security. Others, not eligible to SERS membership, since the employer is not a participant in the system, would come under Social Security, with no possibility of exercising a choice of the two systems. The plight of thousands now without any pension coverage would end.

Big Rush by Local Governments

Labor titles were excluded by the Comptroller under a new State law, so that after September 14 such employees may not join the State Employees Retirement System. This was necessary to bring them under Social Security, because of provisions of the U. S. law.

The extension to cover the 90,000 employees, including 40,000 NYC employees, depends on the action of the State's divisions, such as cities and counties, as well as Authorities, which must take the initiative in reaching agreements with the new State Social Security Agency. Already the Comptroller is being swamped with requests from local governments.

In NYC the groups who could benefit include substitute, evening and summer school teachers, cafeteria workers and custodians.

NYC Budget Director Abraham D. Beame is studying the agreement.

"I'm trying to expedite our participation," he said. Mayor Vincent R. Impellitteri has come out in favor of the coverage.

Mr. Beame will analyze the City's payroll and consult employee groups. The Board of Estimate at its August 27 meeting is expected to act on a report from Mr. Beame.

Authorities, such as the Triborough Bridge and Tunnel Authority, may negotiate directly with the State Social Security Agency.

Local Meetings Begin

Comptroller McGovern is meeting with local officials throughout the State to supply information on steps to be taken by them to provide Social Security coverage for eligible employees of counties, cities, towns, villages, school districts, fire districts and other local units.

At each session a representative of the Federal Department of Health, Education and Welfare answers questions.

Meetings have been held in Albany, Syracuse, Elmira, Rochester,

Buffalo and Mineola, and will continue, as follows:

August 18, Exhibit Hall, County Center, White Plains.

August 19, Dutchess County Court House, Poughkeepsie, Room 34.

August 20, Fulton County Court House, Johnstown.

August 21, Broome County Court House, Binghamton, Supreme Court Room.

August 24, Clinton County Court House, Plattsburgh.

August 25, Jefferson County Court House, Watertown.

Four Alternatives

Four alternatives are open to units of local government:

(1). If a unit is a participating employer in the New York State Employees Retirement System (or, as in the case of NYC, runs its own retirement systems), it may make old age and survivors' insurance coverage available to employees who are not eligible for membership in a public retirement system.

(2). If the unit is not a participating employer in the State Employees Retirement System, it may become one and again may make old age and survivors' insurance coverage available to classes of employees not eligible for retirement system membership.

(3). If not a participating employer in the State Employees Retirement System, the unit may provide old age and survivors' insurance coverage for all of its employees except those excluded from coverage by law or by local action.

(4). The local unit may, if it sees fit, refrain from taking any action on old age and survivors' insurance coverage.

If a local unit elects to provide old age and survivors' insurance coverage to any of its employees, this coverage may be made retroactive to January 1, 1951, provided action is taken prior to January 1, 1954, but the question of past costs precludes this possibility, in practice. If a unit is a participating employer in the State Employees Retirement System, it must give three months' public notice of intention to exclude a class or classes of employees from future eligibility for membership in the System, adopt the necessary resolution, and forward proof of these actions to the Director of the New York State Social Security Agency in Albany by December 15, 1953. To comply with this schedule, public notice, therefore, must be given on or before September 15 this year if retroactive coverage is to be provided.

Success Story: Laborer To \$10,198 Position

NEWTON F. RONAN is an example of the merit system at its best. Through successive promotion exams he rose from laborer to assistant district engineer, State Department of Public Works. He is employed in the Utica Office, but on September 1 will be transferred to the office in New York City, to fill a vacancy. The responsibilities will be greater, so the transfer is another feather in his cap.

Promotion opportunities in public service are not as abundant as employees would like them to be. Sometimes circumstances move some employees up faster than others. Budget and vacancy can have an occasional fortunate effect. Mr. Ronan's case, however, can be cited as one in which progress was made to his present title the hard way. He has long been absorbed in highway problems, and represents the advance of the studious, rather than the exploiter or the go-getter. He proves, as if further proof is needed, that knowledge pays off, and that close attention to one's duties and responsibilities can be rewarding. He had no pull, but neither was he lacking in push.

From laborer at about \$30 a week to an administrator of an important office at \$10,198 a year, is no mean rise, even if there would seem to be more Horatio Alger than civil service in the story.

PUBLIC EMPLOYEES, carefully selected, expertly trained, and rich in experience in the jobs they now hold, should not be sacrificed by government turning the work over to private enterprise.

U.S. Management Training Course Starts Dec. 14

A new management training program was announced last week by James E. Rossell, director of the Second U. S. Civil Service Region, for employees of Federal agencies in New York and New Jersey. For the third successive year, selected Federal employees will learn more about how their government operates and how they can participate in its functions more effectively.

The purpose is to select and train employees who have exceptional managerial talent. Training will be given to Federal employees now serving in grades GS-5 through GS-7 who have had at least two years' Federal service, a full four-year course in college, or a combination to total four years. Employees may get information from their personnel office.

Results Known December 7
Agency candidates will be sifted beginning November 2. Written tests and oral interviews will be given. Successful candidates will be announced on December 7.

Six months of training will be given, beginning December 14, and ending July 14.

Most of the training will be work assignments to provide a variety of experience, develop skills for management responsibilities, and provide a basic knowledge of the functions and problems of the agency. This will be supplemented by an extensive reading program and by group meetings in which management problems will be discussed with experts in management work.

CUSTOMS INSPECTORS LOSE REINSTATEMENT APPEAL

Sixteen U. S. customs inspectors (export control), who found themselves without jobs when the title was abolished, lost an appeal to James E. Rossell, director of the Second U. S. Civil Service Region, in which they charged violation of their veteran rights. The men said non-veteran customs inspectors, performing similar duties, were retained contrary to Federal law.

Union Asks Speed On Welfare Clerk List

Welfare Local 371, CIO, requested the NYC Civil Service Commission to establish the list for promotion to clerk, grade 3, Department of Welfare. The Welfare list, as usual, will have the largest number of eligibles, the union said.

John P. Power, union national representative, wrote Paul P. Brennan, president of the Commission, that the delay is inexcusable and compels hundreds, of grade 2 clerks to work in grade 3 assignments at grade 2 pay.

Calculation of service ratings is holding up the list, the union reported.

CIVIL SERVICE

NEWS Letter

PART OF THE MOTIVATION for extension of Social Security to State and local employees, not now members of a public employee retirement system, is to force them to become members of one system or the other.

In some instances employees are not eligible to Social Security, because of the absence of a contract between the U. S. and a State, but in other instances employees could become members of a public employee pension plan, if they wished, but they didn't wish.

When retirement time comes around, or when the employee dies, there is much to-do about the absence of benefit. So the idea is to compel employees to be covered, one way or another, and thus impose upon them, or their beneficiaries, benefits that the employee deliberately passed up.

IN NYC the opportunity exists to provide Social Security coverage for some 40,000 employees, and the Board of Estimate seems ready to go along with the idea. What if it does cost a couple of million a year? Again it's largely a case of employees who don't want to become members of a City system, though entitled to do so, among them provisionals. The same reluctance obtained in State service. Employees who got provisional or seemingly temporary jobs feared the jobs wouldn't last, so asked themselves, what's the use of joining the pension system? But such jobs often did last for years, some for more than 20 years, though the record for a provisional in NYC is only 11 years, by hopping from title to title.

FEDERAL EMPLOYEES are not enthusiastic that their bills for salary increases never even were given a hearing by a committee during the first session of the 83rd Congress. Postal employees, particularly, tried hard to get their bills moving. The U. S. pay structure of classified employees depends largely on what happens to postal pay. It's the postal groups that put up the strong battle, have the most energetic leadership, carry the greatest weight. However, all employee hands are getting ready for a showdown fight for a raise when Congress reconvenes.

THE U. S. Civil Service Commission fared pretty well in Congress. The Senate restored that part of the budget amount that the House proposed should be cut out for regular operations, while the differences between the two branches were settled by a 50-50 compromise on the amount for travelling expenses. . . In the NYC sanitationman exam, now completed, the medical requirements are that candidates with no teeth are acceptable, but those with defective teeth must have them repaired before they can be appointed.

THE REVIEW OF 134,000 U. S. jobs by the Eisenhower Administration, to determine whether they should be competitive or appointive, is neither a constructive nor a dangerous policy, says the Civil Service Reform Association. James R. Watson, executive director of the association, says that the patronage angle isn't significant, since the majority of those employees are veterans, protected against patronage raids, or in special categories, like the FBI.

Mr. Watson points out that authority to fire incompetents already exists, so the executive order adds nothing on this score. But the order may result in a sharper line of delineation, says he, between those jobs which are policy-making and confidential, and thus properly without tenure rights.

A defect in the Federal law, says Mr. Watson, is that veterans in exempt jobs have retention rights which should be reserved only for competitive employees.

PERHAPS there's a scintilla of evidence that the NYC Civil Service Commission is becoming more liberal in its decisions, in the fact that a blind eligible, on the social investigator list, previously ruled out, has been ruled in. Not only that, but the new list has been held up, to permit appointments from the expiring list, including him.

Herbert Greenberg, the blind man, is a Phi Beta Kappa member, was graduated cum laude from Columbia University (B.S.), has a master's degree, and is earning his doctorate in philosophy. He's been working as a provisional in the Welfare Department, interviewing applicants for blind aid. So, though the Commission once felt that for general utility he wouldn't fit as an eligible, it has paved the way for his permanent appointment. Now he's permanently appointed. Nice going.

WHAT DID ANYBODY think when NYC held competitive exams, both promotional and open-competitive, for the administrative jobs? That the resultant lists would be freely used by departments, to replace personal choices in these prized jobs, or that the departments would generally rather have the jobs abolished, if eligibles were to get them?

Well, the lists exist. Only 13 of 41 provisionals have been replaced by eligibles. Of the 13 who lost out, some found other provisional jobs.

COMMENT

ANOTHER VETERAN FEELS 'LET DOWN'

Editor, The LEADER:

I read with interest the letter to The LEADER, signed Veteran, which sets forth a case that seems similar to mine.

I have been a civil service employee since 1934, when I started to work in the Department of Mental Hygiene. Before enlisting in military service, I held the rating of senior launderer. During my military service, an exam was held for promotion to head laundry supervisor.

On returning from military service, I immediately applied for this exam, but was twice turned down. The only reason stated was that I was in military service when the exam was given, and it can not be given again for only one individual.

Since that time I have taken another position as laundry supervisor, and, in 1947, accepted the position as laundry supervisor at a State prison, thereby transferring to the Department of Correction. At present I am head laundry supervisor in the Correction Department.

I have taken an exam for chief laundry supervisor and am close to the top of the list.

There have been many vacancies in the Department of Mental Hygiene. Up to date, I have not been approached, for some reason unknown to me.

It seems that I will have no opportunity to transfer back to Mental Hygiene. My work record is excellent, with a superior rating.

On resuming work at a State mental hospital after military service, had I been permitted to take the exam, I feel sure I would have

been promoted, and obtained a job near my home.

I hold nothing whatever against the Department of Correction. On the contrary, I know this department is maintained with the greatest efficiency, but I am as high in my particular field in this department as I can go. Having to work many miles from home, and in view of years in State service, I feel let down.

VETERAN EMPLOYEE.

ASKS MEED OF MERCY IN STATE LOYALTY CHECK

Editor, The LEADER:

The news that New York State is about to institute a loyalty and security check among its employees comes as a shock to those who believed that the Empire State was strong enough to resist present-day hysteria.

Agreeing that actual subversives and security risks have no place in government, I find the decision to establish the security check comes so close to ideas of the House Un-American Activities Committee investigation, the public will find it hard to believe that the one is not the result of the other.

Nevertheless, the State can meet a challenge and set a pattern that may guide the rest of the country. Many voices are advocating the need to provide a political amnesty to those who were misguided and duped into joining subversive and Communist-dominated organizations without being aware of their true purposes. Confession and repudiation could constitute full amends. A political amnesty recognizes the principle of forgiveness and redemption.

New York State has the opportunity of blazing a path in an

Uniform Vacation Plan Is in Dispute

Stiff opposition from NYC employee organizations may greet proposed standardization of vacation, sick leave and holiday rules, when employee leaders meet with Budget Director Abraham D. Beame soon.

The plan, which would affect all City workers except the uniformed forces and transit, court, education, museum and library personnel, was outlined by the Budget office in December. Employee groups were given an opportunity to present criticisms and suggestions. Their comments are now being studied by the Budget Bureau.

The proposed schedule would provide 20 days' vacation leave, 10 days' sick leave and 3 days off for religious observance each year for annual workers on a five-day week. Per diem and prevailing rate employees' vacation would range from six to 18 days' off. From two to six days' sick leave would also be provided for per diem workers.

Veterans would get Armistice Day and Decoration Day off. All yearly employees would receive 11 paid holidays.

69 Police Promotions

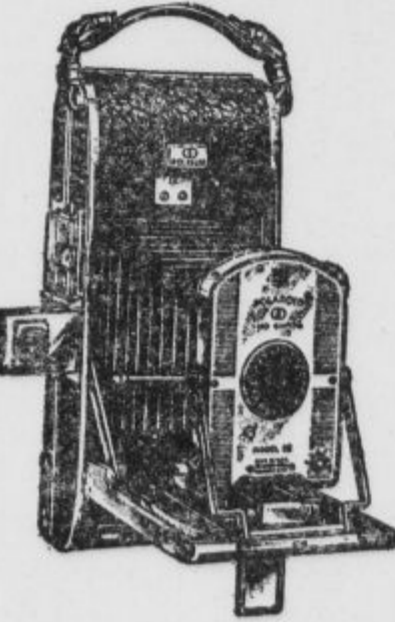

The NYC Civil Service Commission has certified eligibles to fill six captain vacancies, Police Department, at \$6,880 a year; 20 as lieutenant (P.D.), \$5,830, and 43 as sergeant (P.D.), \$5,305.

Stop Headlight Glare! Actually See After Dark!

DO YOU DRIVE YOUR CAR AFTER DARK? Do you know that 4 out of 5 fatal smash-ups are caused at night to SAFE, careful drivers who are trapped... blinded... and killed by the headlights of another man's car?

Here is the first full story of how you can completely avoid that blinding headlight glare... avoid those night driving accidents... how you can actually drive at night with almost full daylight safety!

How many times this month have you been completely blinded by the headlights of another car? How many times have you been blinded when you were driving 30-40-50-miles an hour... when you were in the middle of a dangerous intersection... when you were turning a sharp curve or corner? Yes, how many times this month have you been forced to trust your life—and the lives of your family—to a driver who doesn't even have the sense to dim his headlights?

These Accidents Can Be Avoided

Do you know that now you can avoid all these risks? Do you know that during the last five years over 70,000 drivers have found a new way to protect themselves against this headlight blindness? That these drivers have tested and proved an optical instrument that actually makes the brightest headlights as easy to take as dims! Here is that amazing story:

Five years ago, three of the country's top optical experts decided to tackle this problem of headlight glare. They immediately discovered that all of the common remedies were either useless or actually dangerous. These experts discovered that there was only one sure way to protect yourself against this blinding night glare—a piece of optically colored glass worn by you, yourself—that filters out the glare from these headlights in exactly the same way that a pair of sunglasses filters out the glare of the sun.

These experts discovered that scientists had developed such a glass—that many of the leading automobile manufacturers, such as Buick, Cadillac, Oldsmobile, Lincoln and Chrysler—were equipping their special deluxe models with special glare-resistant windshields. However, the cost of this glass on these special cars was necessarily \$20-\$50.

To avoid these costs these experts took this special glare-resistant glass and built it into a pair of Night Driving Glasses that could be worn by any driver. Since they eliminated all rays of glare, the experts called them RAYEX Night Driving Glasses. Here are some of the amazing results they discovered when they tested them.

This Is How Night Driving Should Be

1. WITH THESE RAYEX Night Driving GLASSES, you can look directly into the brightest headlights. You will see the headlights as pale amber discs—but you will

not see the glare. You could pass an entire line of fifty cars, and not even squint.

2. WITH THESE RAYEX Night Driving GLASSES your eyes will be protected against any intrusion of glare. They will not have to adjust themselves to constant flashes of light. You will actually be able to see better... clearer... and farther with them on than you could see without them. You will see dark objects more quickly. You will react more quickly to the pedestrian who darts out of a side street... to the dark bumps in the road that ruin your tires.

3. SINCE THESE RAYEX Night Driving GLASSES PROTECT YOUR EYES AGAINST STRAIN, you will not suffer from dangerous night driving headaches. You will be able to drive as much as 400 miles in a single night without feeling the slightest strain. You will not be tired after short rides. And, above all, tired, strained eyes will not cause you to fall asleep at the wheel. You may make even the longest trips with absolute confidence. ORDER TODAY! Use coupon below!

Proven By Over 70,000 Drivers

Before these glasses were advertised in this paper, they were distributed to over 70,000 drivers... volunteers who tested them under every possible sort of night driving condition. Here are the actual reactions of these drivers—their own, unsolicited experiences with these glasses. Perhaps they will help solve your night driving problems.

DO YOU EVER DRIVE ON THE OPEN HIGHWAY?

"On my trip to Denver last week, I must have passed at least 50 cars. Not one dimmed down his lights. If I hadn't had your glasses, I would have had to pull over to the shoulder, and wait till they passed by. As it was, I didn't even squint."—Mr. F. M. F., Bremerton, Wash.

DO CHILDREN RIDE IN YOUR CAR?

"I drive my little girl home from a country school during the twilight hours I was always afraid—either of the blinding lights from the other cars at that hour—or of hitting one of the other little girls in the streets. Now, thank God, I know I can see them. I wouldn't take \$100 for these glasses."—Mrs. L. G. Forest Hills, New York.

DO YOU GET NIGHT-DRIVING SLEEPINESS?

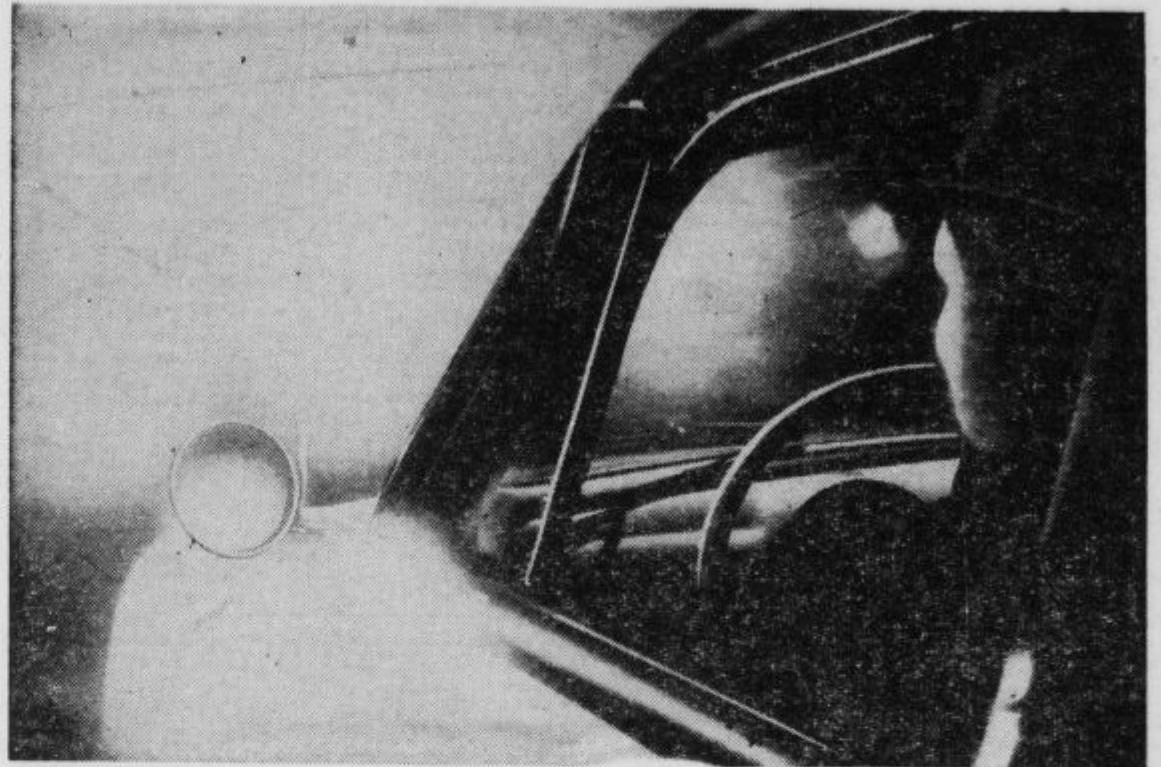

"Drove 112 miles after midnight with-out the slightest strain. Never felt so relaxed and confident in my life. Thanks."—Mr. D. F., San Antonio, Texas.

DO YOU HAVE WEAK EYES?

"My husband has a cataract on his left eye and could never enjoy driving before

PROVE IT YOURSELF! MAKE THIS CONVINCING "LIGHT-BULB" TEST

When your RAYEX NIGHT GLASSES arrive put them on. Look directly into the strongest electric light in your home. You see the light... the glare is gone! Then test them again in your car. Look at street lights, headlights, under every sort of difficult night driving condition. If they do not do

GONE FOREVER! Blinding Headlight Glare—the number one cause of traffic accidents in New York today! Read this amazing story of how science conquered this "one unpreventable" accident!

He thinks your glasses are wonderful—says they're also good for protection against the sun."—Mrs. L. H. Elizabeth, North Dakota. (NOTE: We do not recommend the use of these glasses as sun glasses. They are as different as night and day. They have only one purpose—to protect you after dark.)

And here is the one fact that all of these drivers agreed upon... this is the way they would affect your night driving.

The very first moment you put on RAYEX Night Driving Glasses you enter into an entirely new world of night driving. There is no more blinding glare. Instead, the headlights of every car... every street light... every window you pass, are a soft amber yellow.

You'll notice immediately, that you are more relaxed... more confident about your driving, because you can actually see better and farther. Test these glasses against the first two or three cars you pass. Prove to yourself that you can see their lights... but there is no blinding glare. After that you will be able to totally disregard the headlights of any car coming toward you on the highway. You will be able to sit back and relax—enjoy your night driving as much as you do in the day.

Jobs in Schedule C Now Reach 439

WASHINGTON, Aug. 17 — The U. S. Civil Service Commission has placed 28 additional jobs of a confidential or policy determining nature in the new Schedule C. Twenty-six of them were recommended by the Department of Justice, one was asked by the Department of Agriculture, and one by the Bureau of the Budget.

One is an entirely new position, while 27 were previously Schedule A jobs, outside the competitive civil service. None was taken from the competitive civil service.

Permanent career employees who were moved with their jobs from the competitive service into Schedule C have the same protection against removal as before.

Total Now 407

The Commission's action brought the total positions placed in Schedule C since the issuance of Executive Order 10440, on March 31, to 407. There are about 2,400,000 persons on Government rolls. Of the 407 jobs, 54 were formerly in the competitive civil

service, 82 are new jobs, 264 were under Schedule A, and 7 under Schedule B. Other actions raised the figure to 439.

During the same period the Commission rejected or agencies withdrew a total of 191 recommendations for inclusion in Schedule C.

Of the 28 jobs, 17 are classed as of a confidential nature and 11 policy-determining. The positions:

The positions in the Department of Agriculture and the Bureau of the Budget are of a confidential nature. They are: Department of Agriculture, Farm Credit Administration — one private secretary to the Governor, and Bureau of the Budget — Assistant to the Director.

Additional Action

The Commission has rejected 13, and approved 4 additional agency recommendations, to place positions in Schedule C.

Three of the approved positions are new. They include two assistant directors in the Bureau of Budget, and a special assistant to the Director, Office of Field Services, Business Services Administration, Commerce Department.

The duties of the fourth job, Director of the Office of Field Services, BSA were formerly performed in the competitive service.

Approval of these positions brings to 411 the number of jobs placed in Schedule C since its establishment last April. Of the 411, jobs formerly in the competitive

service, number 55, while 85 are new jobs, 264 were under Schedule A, and seven under Schedule B. Both Schedule A and B are outside the competitive service.

4. The present policy of promoting from collateral positions should be continued.

5. The NYC Civil Service Commission should not be required to obtain the Budget Bureau's approval for holding promotion examinations.

6. Those with unlimited salary rights should be eligible for promotion without examination, on obtaining the required licenses. This, says the union, would correct the major inequity of the 1942 reclassification.

The union sent the proposals to the NYC Civil Service Commission.

NYC Will Make Strong Bid for Police Candidates

The NYC Civil Service Commission has been apprised of the likelihood of a considerable number of appointments to jobs as patrolman (P.D.) next year, and therefore is planning to make a big thing of the coming exam. Applications are expected to be received during November, the written test held in March, the medicals soon thereafter, and the physicals to follow promptly, also in the spring, in Van Cortlandt Park.

Because of the excellent job prospects, and the need of a large list, the rule will be, "Many eligibles, many jobs."

The Commission intends to undertake considerable promotion, to attract a large number of candidates. The desire is to establish a list large enough to last practically

for the maximum legal life, four years. If the Commission does that, it will feel that it has accomplished something, as the exam to open soon is the second such opening in one year, and the first time anything of the like has happened in the whole history of the Commission.

Written Test

The last written test was considered stiff by candidates, and the Commission came around to the same way of thinking. The new written test will not be nearly so difficult. While it will be no pushover, it will be such, the Commission intends, as any intelligent candidate can pass.

Here in a nutshell are the requirements and related information that can be found on Page 13.

Court Groups Call Pay Plan Violated

Probation officers and parole officers from City Magistrates' and Special Sessions Courts have signed a petition to have the Board of Estimate amend the salary schedule it established last fall. The Board's resolution set their annual pay at \$3,565 a year, which included a \$180-a-year pay boost, effective December, 1952.

An additional \$110 was to be forthcoming in July, 1953, the court officers say, but they never got it. Instead increments were counted.

"The injustice of this is readily apparent and remedial action should be immediately instituted, so that increments already accrued are added to the new minimum salary," they add.

The petition is signed by more than half of the probation officers in Magistrates' Courts and by many in Special Sessions. Additional names are expected to be obtained when vacationers return to duty.

State Police Test Closes On Sept. 9

Applications are now being received by the Division of State Police, Capitol, Albany, to fill more than 150 State trooper jobs throughout the State. The written test, to be held at various exam centers on Saturday, September 12, will be the first test conducted by Lieutenant Albin S. Johnson, who succeeds retiring Captain John A. Gaffney as Superintendent of State Police on August 15.

State troopers earn \$2,370 to \$4,270.08 a year, plus lodging, food or allowance in lieu thereof, and all service clothing and equipment.

Applicants must be U. S. citizens, between 21 and 40 years, at least 5 feet 8 inches tall; must have 20/20 vision without glasses and be in good physical condition, including satisfactory hearing.

Minimum education is high school graduation or an equivalency diploma.

Nature of Written Test

Candidates must have a driver's license.

The written test will cover general information and subjects designed to test general intelligence. Pass mark is 75 per cent.

Applications are available from the Division of State Police, Capitol, Albany, and must be filed with the Division. Mailed-in applications may not be accepted if post marked later than midnight of September 8. Filled-out forms may be submitted in person until midnight, September 9.

AIR FORCE OFFICE TO CLOSE DEC. 31

About 450 civil service employees of the Air Force Eastern Air Procurement District in NYC will be affected by elimination of the district office on December 31.

Major General Kenneth E. Webber, district commander, announced that administrative functions of the office will be transferred to Olmsted Air Force Base, Pa., and that civilian employees whose duties are "functionally" transferred may elect to follow their jobs, the Government paying transportation costs.

Those who do not wish to transfer will not have "bumping" rights for other civil service jobs in the NYC area, he said, but efforts will be made to place them in other Federal jobs or in private industry.

Civilians whose jobs will be eliminated and whose pensions will be absorbed at the Pennsylvania headquarters may exercise "bumping" rights.

DR. KLEINFELD STARTS ON LABOR DEPT. JOB

Industrial Commissioner Edward Corsi appointed Dr. Morris Kleinfeld of Brooklyn as associate industrial hygiene physician in the State Labor Department's Division of Industrial Hygiene and Safety Standards. Dr. Kleinfeld took the post vacated by Dr. May Malers.

A graduate of Baylor University Medical School and a diplomate of the American Board of Internal Medicine, Dr. Kleinfeld served as Chief Medical Officer for the United Nations. Previously he was regional medical officer in New York for the Civil Aeronautics Administration.

40-HOUR WEEK ASKED

The American Federation of State, County and Municipal Employees, AFL, urged NYC Comptroller Lazarus Joseph to ready a new wage agreement for NYC laborers to provide for a 40-hour, 5-day week, salary increase, time-and-a-half for overtime and differentials for night work.

Facts in a Nutshell On Police Exam

The following summarizes requirements, and gives other information, on the NYC patrolman (P.D.) exam, for which applications may be received in November: Salary: \$3,725 to \$4,725 total. Filing: \$3. Promotion opportunity; to sergeant. Requirements: Age, 20 to 29 years on date of filing applications, except for veterans, who may deduct time spent in armed forces. No formal education minimum. No experience required. Applicant must be U. S. citizen, resident of New York State; have three years' consecutive residence in NYC prior to appointment; be at least 5 feet 8 inches tall (bare feet); have approximate normal weight for height, and 20/20 minimum vision in each eye, separately, without glasses.

Duties: General police duties, including detective work. Tests: Written, weight 50 per cent; physical, weight 50 per cent. "The written test will be held first and will be designed to test the candidates' intelligence, initiative, judgment, knowledge of the organization and functioning of governmental agencies, laws affecting the work of the Police Department. "The competitive physical tests will be designed to test competitively the strength, agility, stamina and endurance of candidates. Candidates will take the physical tests at their own risk of injury, although the Commission will make every effort to safeguard them. Medical examination may be required prior to a physical test and the Commission reserves the right to exclude from the physical test any candidate who is found medically unfit."

U. S. CIVIL SERVICE BODY VOTES POLICY ON LEAVE

WASHINGTON, Aug. 17 — The U. S. Civil Service Commission announced a new policy for its own employees, aimed at reducing their excess accumulated annual leave in conformity with the recently amended Leave Act. Starting next January, Commission employees who have in excess of 30 days' leave to their credit will be required to use at least six days more than they normally earn each year. The Leave Act reduces the maximum accumulation permitted to 30 days (45 days for employees outside the continental United States) and requires excesses to be eliminated within a reasonable number of years. Under this schedule, the Commission expects to liquidate 85 percent or more of the excess leave accumulations of its employees within 6 years. The remainder will be liquidated by 1964.

WILLARD, Aug. 17 — Willard State Hospital outscored Rochester State Hospital 8 to 2 to tie for first place in the State Mental Hygiene Department softball league. Each team has now won seven games while losing two.

Gowanda's 14 tallies against Buffalo State Hospital in their game on August 8 should have been enough to win, but not that day, as Buffalo sent 29 men (count them, 29) across the plate in a free-swinging display of power.

Craig Colony, Sonyea, outplayed Newark State School 18 to 10 the same day.
