## Governor Hears:

### Air Guard In No-Man's Land On Retirement

ALBANY, Dec. 18—The Civil Service Employees Association petitioned Governor Rockefeller again last week to correct the injustice that has caused the state's Army and Air National Guard technicians to be placed in a no-man's land with regard to retirement benefits.

The situation which is depriving the technicians of the opportunity to participate in either New York State's employee retirement system or that of the federal government is the result of the inability of the two entities to agree as to which is responsible for paying the employer's share of retirement plan costs.

Last September, through the efforts of the Association's Congressional representatives, legislation was approved enabling the federal government to contribute as much as 6.5 per cent of gross salary toward the individual technician's share of his retirement costs.

The present New York State contribution is approximately 10 per cent, however, and in order to make the National Guard technician's share of his retirement costs.

### Dems Hear CSEA Goals For 1962

Irving Flaumenbaum, president of the Nassau chapter, Civil Service Employees Association, recently appeared at a public hearing conducted by the Democratic minority leaders of the State Legislature to ask their support for CSEA-supported measures. The meeting was held on Long Island.

Flaumenbaum told Senate Minority Leader Anthony Travia that the CSEA favored a review of last year's McKinzie study, with an eye toward a salary increase for State employees.

He said that current State salaries lagged behind the recommendations of the McKinzie study and also behind a subsequent increase in the cost of living and salaries paid by private industry.

Flaumenbaum also spoke in behalf of legislation to provide fully-guaranteed one-half-pay retirement; grievance procedures for all public employees; protection against political firings of non-competitive and labor class employees; and a lump sum payment for accumulated unused sick leave.

## Review Grievance On Basis of Survey, Park Police Petition

ALBANY, Dec. 18—The Long Island State Park Commission has been petitioned to reconsider its rejection of a grievance by parkway police seeking to obtain vacation and more liberal personal leave privileges during summer months.

The benefits were denied at a hearing last January before C. R. Blakeloch executive secretary of the Commission.

The request for reconsideration was made in a letter from Joseph F. Feily, president of the Civil Service Employees Assn., and Stanly Grala, president of the Long Island State Park Police chapter, CSEA.

### Present Policy

The present policy of the Commission prohibits vacations from the third week in May until the third of September, approximately a 17-week period. The parkway police also contend that during this period the policy on granting personal leave is more strict than during the balance of the year.

By a series of tables and analyses it was shown in petition that there is a fairly even distribution of the police work load on the parkway throughout the greater part of the year, with slight decrease during the winter months.

It was also shown that since the work load began to level out, about 1960, that distribution of the work force, with a concentration on the summer months, "is no longer efficient, effective nor desirable."

### Ask For Survey

Besides the reasons established in fact, for granting parkway police summer vacations, it was also pointed out that among other important reasons was the desire

Pass your copy of The Leader On to a Non-Member

of most of the men to be able to take their vacations during the summer months when their children would not be attending to school.

Mr. Feily and Mr. Grala said it was their hope that the Commission, "having considered the grievance, will cause a survey to be conducted to determine whether a redistribution of the work force is called for."

They also offered the assistance of the Association and the chapter in conducting the survey.

### Last Chance For Social Security

State employees who have not taken advantage of Social Security coverage are reminded that their last chance to do so is Dec. 31.

New applicants should consult their personnel officers immediately.

## Wants Reasons For Any Grievance Rule Changes

(Special To The Leader)

ALBANY, Dec. 18—H. Eliot Kaplan, president of the State Civil Service Commission, has been accused of flaunting an Executive Order which Mr. Kaplan, as head of the Commission, is directly responsible for administering.

The criticism was made by Joseph F. Feily, president of the Civil Service Employees Assn., at a Commission meeting in Albany last week.

In a separate action, Mr. Feily called on the Civil Service Commission president to comply with a long-standing Employees Association request to make available to all state employees a standard and simplified outline in booklet form of the State's grievance procedures.

### Still Awaits Explanations

Mr. Feily said he was also still awaiting an explanation of a recent public statement by Mr. Kaplan that changes in the grievance procedures were under consideration.

Mr. Feily told the Commission last week that he was "shocked and chagrined" to discover "by culling through a Commission agenda" received at Association headquarters only a few days before the Commission meeting that there was a proposed change or revision of State Attendance Rules under consideration.

### Cites Order

In protesting any change of rules affecting employees without first consulting the Association,

which represents some 98,000 employees across the state, Mr. Feily cited a 1955 Executive Order relating to the submission and settlement of grievances:

"Proposed new rules or modifications of existing rules governing work conditions should, wherever practicable, be announced in advance and discussed in conference with employee representatives before they are established."

Mr. Feily said it is "difficult to understand how the president of the Commission can be guilty of so improper a personnel practice as to permit the submission of a proposed change in the Attendance Rules, no matter what its significance or its import, without prior consultation with the employees and their representatives."

### Action Postponed

As the result of the appearance of Mr. Feily and other CSEA representatives at the Commission hearing, action on the proposed change, which deals with summer employment, has been postponed

## New Military Pay Exemption

Under a law enacted in November 1961, military pay of up to \$100 a month received by a New York State resident who have been called into active service in the Armed Forces of the United States or is serving on active Federal military duty is exempt from New York State income tax. This exemption applies to pay for full-time active military service received on and after October 1, 1961, and up to June 30, 1963, or to the date on which no reserve component unit originally called from this State on or after October 1, 1961, remains on active duty, which ever occurs sooner.

A full month's exemption (up to \$100) is allowed for each month during any part of which the taxpayer is engaged in full-time active military duty. Since the law is effective October 1, 1961, the maximum exemption which may be claimed for the calendar year 1961 is \$300.

A serviceman eligible for this exemption should complete Form IT-201-MS and attach to his income tax return.

## Residence Status

If, at the time he entered military service, the legal address of the serviceman was in New York State, assignment to duty outside the State does not change his New York address. He must file his return and pay the tax due in the same manner as any resident individual unless, during the taxable year, he satisfies all three of the following conditions. (1) he had no permanent place of abode in New York State, (2) he did maintain a permanent place of abode outside New York State, and (3) he did not spend more than thirty days in New York State.

In connection with the second condition stated above, a serviceman who lives on a military installation or in assigned or rented government quarters is not considered as maintaining a permanent place of abode. Subject to this provision, it will generally be recognized that a serviceman does maintain a permanent place of abode if he leases, rents or buys a dwelling place near his station of duty and occupies it with his family, when his duty assignment is of an indefinite (rather than a temporary or limited) nature.

## Nonresident Servicemen

Members of the Armed Forces who, at the time of entrance on military service, were domiciled outside New York State, do not become New York residents during the period at such service even though they are assigned to duty

within New York State and establish a permanent place of abode within the State. The military compensation earned by such nonresident members of the Armed Forces is not subject to New York State income tax despite the fact that they may be assigned to duty within New York State.

## Taxability of Compensation

Compensation received on or after January 1, 1956, by members of the Armed Forces who are residents of this State is subject to the New York State income tax. However, note provisions of new law on Page 1 granting exemption for military pay up to \$100 a month, effective October 1, 1961.

## Nontaxable Benefits

Disability pensions and any other benefits granted for the relief of injured or disabled veterans, as well as tuition payments, subsistence allowances and any other benefits paid to, or on account of, a veteran or beneficiary under the laws relating to veterans, are not taxable.

# Your Public Relations IQ

By LEO J. MARGOLIN

WHEN CIVIL SERVICE is condemned, damned and/or besmirched, intelligent civil servants learn from the attack. If it is possible to turn the attack from a minus into a plus, so much the better.

THE EDITOR OF Forbes Magazine, a highly influential publication in the business and financial community, recently attacked civil service with a shotgun. But the basis of his attack was a single, isolated case.

EVEN HIS TITLE for the article — "The Unfireables" — was an attack. In effect, the editor was attacking one of the foundations of civil service: job and tenure protection.

THE ISOLATED CASE HE cited as "a horrible example" was that of a civilian project director at a mid-west Air Force base. If the story the editor relates is true, the director, a civil servant, goofed. But the editor makes the point that the project director would not be fired because he had civil service protection.

THIS IS WHAT the editor wrote during the course of telling the story of the project director: "MOST AMERICANS on occasion have experienced the frustrations of dealing with government agencies. More often than not the experience is a souring one, not merely in terms of inevitable delay and red tape, but particularly the indifference or seeming hostility of the employees. It is this factor probably more than any

# Jefferson CSEA Proposes Major Working Benefits For County Employees

(From Leader Correspondent)

Clarence C. Evans, County association president; Harvey Fields, Mrs. Fannie W. Smith, and Joseph Donnelly, CSEA field representatives, met on the proposals with the board committee headed by Supervisor Manford Jerome.

### Five Major Goals

Mr. Evans outlined these five association requests for supervisors' consideration:

1. Worker-county participation in the state health insurance program.
  2. An increase in take home pay of five per cent through reduction in the employee's retirement payment.
  3. Proper job classification to mandate equal pay for equal work.
  4. Ten cents per mile care use reimbursement above the 7,000-mile maximum now in effect.
  5. Five-day work week for all county employees.
- Mr. Evans estimated it would

cost the county between \$40,000, and \$41,000 to implement the so-called 51point plan, which was developed by CSEA.

### See Hope in 1962

Members of the CSEA salary committee indicated that they felt progress had been made with the supervisors' committee. They said they are optimistic that some gains may be made during the 1962 county government year.

The cost to the county of implementing a health insurance program for employes would cost "about \$22,000", Mr. Evans informed the board salary committee.

### Named To Council

ALBANY, Dec. 18 — Governor Rockefeller has appointed Edward Rejaunier of Locust Valley to the Council for the State University's Agricultural and Technical Institute at Farmingdale. His term will end July 1, 1970.

# Dems Plan Court Fight Over Merger of Monroe, Rochester Commissions

(From Leader Correspondent)

ROCHESTER, Dec. 18—Republicans have rammed through a controversial merger of city and county Civil Service Commissions.

Republican Vice Mayor Joseph Farbo contends the move will provide long needed efficiency in the Civil Service Commission with equitable city and county job requirements and salaries. The merger has been in the works for months.

Democrats on the other hand have charged that the merger is politically inspired and intended to give Republicans a voice in distribution of city jobs.

City Council approved the merger last week in a 6 to 3 vote along party lines.

Dr. Joseph L. Guzzetta became chairman and director of the new city-county commission Friday. Alfred Gates has been named assistant director.

Dr. Guzzetta, a dentist, has been chairman of the Municipal Civil Service Commission, and Gates has been executive secretary and chief examiner.

Guzzetta reportedly will receive a salary in excess of \$15,000. Gates

will get more than the \$10,578 he would have received in his present post.

It is understood that Guzzetta will give up his present position

## Air Guards Ask Governor's Aid

(Continued from Page 1)

cians eligible, the state would have to assume the difference between that and the federal maximum of 6.5 per cent.

In a letter to the Governor, CSEA President Joseph F. Feily pointed out that a number of neighboring states, including New Jersey and Massachusetts, have taken the initiative in including the technicians in their own state retirement systems.

Mr. Feily said "it appears that every argument that can be advanced to persuade Congress to pay the full state retirement costs has been used without success. In a way we can understand the attitude of the federal government in view of the fact that the Federal National Guard regulations state that these technicians are termed to the state employees and it seems that the state has been operating under such regulations for many years. We believe that the state should be willing to meet this problem half way in cooperation with the federal government and provide the remaining monies to allow state retirement system membership for Army and Air National Guard technicians."

## On Air Board

ALBANY, Dec. 18 — Dr. Leonard Greenburg of New York City has been reappointed to a new term on the Air Pollution Control Board for a term ending July 1, 1965.

to devote his time to the commission. Three girls and one technician from the city commission are to join the merged unit, and two jobs are to be eliminated at a saving of \$12,500. Increases for Guzzetta and Gates will amount to less than the saving.

Democrats not only bitterly oppose the merger, but are expected to fight it in the courts.

In the November election, Democrats won control of the City Administration and Republicans retained control of the Monroe County Board of Supervisors. Vice Mayor Farbo, among others, will be succeeded by a Democrat Jan. 1.

Democratic Councilman Frank Lamb called the merger "one of the most irresponsible actions, if not the most irresponsible action, I have seen since I have been on the Council."

Mayor-designate Henry Gillette called the move "shameful and shocking" and said:

"I didn't know people could lose in such a way. This is a sad day."

In another area, Democrats lost a proposal to block union dues checkoff for municipal workers. This was approved in another 6 to 3 vote.

Labor unions attempting to organize city employees say they have a majority of employees enrolled and will ask for immediate recognition of the unions by city officials.

The Department of Public Works reportedly has been most responsive to union recruiting efforts. Recognition by the City would make the unions bargaining agents for city employees.

Democrats have called this, for a political maneuver and have urged city employees to delay any organizing efforts until after Jan. 1.

# Executive Order Ignored By Kaplan, CSEA Charges

(Continued from Page 1)

until the Association has time to state its views.

The Association president said "We are still puzzled, however, at Mr. Kaplan's obvious reluctance to comply fully and immediately with the terms of the 1955 Executive Order."

Referring to the request for a booklet explaining state grievance machinery, Mr. Feily reminded Mr. Kaplan in a letter he had first made the request in May, 1960, and had been advised at that time that the suggestion had merit and that Mr. Kaplan would review drafts of such a manual that had been prepared by the State Grievance Board.

### The Long Wait

Mr. Feily said that he had been

further advised after another inquiry that "the revised draft of the booklet on grievance procedures has been completed and is now being reviewed. I trust that the project will be completed in not too far distant future."

Mr. Feily said he again made inquiries on the status of the booklet in November, 1960; in March and November, 1961, and had just recently received a letter stating that "as we have explained to you before, we had deferred issuing the booklet . . . until we could review more extensively the present practices and policy. Until this is accomplished and it would appear to be desirable to defer its publication."

Mr. Feily said even with respect to such a basic and simple step as a booklet on grievance proced-

ures, "almost two years elapsed before we learned that the booklet has now been deferred."

He asked Mr. Kaplan to inform the Association "how much further time you believe will be required before State employees are able to have a basic manual on grievance procedures."

### Grounds For Grievance

Speaking of Mr. Kaplan's recent statement on changes in grievance procedures, Mr. Feily said he is still awaiting notification of what changes or modifications are being considered.

Mr. Feily had said that any change made without prior consultation with the Employees Association would "in and of itself represent the grounds for a grievance."

## Mrs. Frances M. Kittleberger

Rochester, Dec. 18 — Frances M. Kittleberger, 58, longtime member of the Civil Service Employees Association and secretary to the deputy director of the Monroe County Welfare Department, was killed in an auto accident Dec. 8.

Mrs. Kittleberger only the night before had attended a CSEA dinner. Her work for the CSEA had been praised at the meeting.

Mrs. Kittleberger was a passenger in a car operated by her husband, Alfred. His car collided with another on Ridge Road, East Webster, near here in the evening.

Ralph Witmer, Deputy Welfare Director said:

"I don't know of any other person who would let her own work go to do something for someone else and do it so willingly."

The night she died, Mrs. Kittleberger had worked an hour beyond quitting time and apparently was on errands for herself and Witmer when the accident occurred.

She leaves a daughter, Mrs. Donald Pinkney, and a son, Robert, both of Webster.

## Flu Shots For Education Aides Arranged By CSEA

Inoculations against influenza were administered to approximately 800 employees of the State Education Department in Albany last week during a special immunization clinic made possible through arrangements by the Education Chapter of the Civil Service Employees' Association, in cooperation with Education Department authorities.

The necessary supplies of vaccine were obtained through the courtesy of Kenneth Griswold, Secretary to the Pharmacy Board. The scheduled date of the clinic had been postponed because vaccine was not readily available earlier this fall in sufficient quantities for general distribution.

In accordance with recommendations by health authorities who provide much more effective immunization than a single shot, a second clinic is being planned for some time in January, provided that sufficient vaccine is still available as anticipated. Details concerning the second clinic will be announced by Leo Doherty, president of the Education Chapter.

## The Gap Widens

THE gap of misunderstanding between State employees and H. Eliot Kaplan continues to widen.

As president of the State Civil Service Commission, Mr. Kaplan is the spokesman for the conduct of the Commission. As representatives of 98,000 public employees across the State, the Civil Service Employees Association and its leaders are spokesman for those affected by Commission actions.

It is in the nature of things that the two should be in communication and understanding on all important issues affecting public employees.

The Employees Association is still awaiting an answer from Mr. Kaplan—an answer that makes sense—on reasons why the Commission is placing so many positions in the exempt or non-competitive classes. This, the CSEA charges, is compromising the spirit of the Merit System.

Not only has Mr. Kaplan not acquitted himself sensibly of these charges, but also has brought another serious accusation upon himself—the flaunting of an Executive Order dealing with changes in State Attendance Rules. The order establishing the rules instructs that no changes should be made without first consulting with employees and their representatives. Mr. Kaplan has proposed a change in the Attendance Rules and did so with no real consultation with the CSEA.

In other areas, Mr. Kaplan has proceeded to act unilaterally, as though any action of the Commission were nobody's business but the Commission's. It is precisely this attitude that is widening the gulf between Mr. Kaplan and, we should remind him, the people his office requires him to protect and to serve.

## At Christmas

THE Civil Service Leader wishes the blessings of a Holy Christmas to all its readers and invokes the spirit of charity that the birth of Christ re-creates each year.

It is, indeed, a time to give of self, of goodwill and of effort to God and Country.

## Filing Fees Must Go

THERE are some important actions awaiting the return of Mayor Robert Wagner and for the sake of City recruitment we hope that one of his first orders will be the elimination of filing fees for job examinations.

The Leader has advocated the dropping of such fees for a long time on the basis that they hinder recruitment and amount to a tax on the unemployed.

Private employment has never required a fee to apply for a job. State and Federal agencies have long since dropped the practice.

New York City should eliminate this iniquity on the jobless at once.

## 8-New Projects Planned By City

Eight new projects were revealed by the City Planning Department this week in a report to the Board of Estimate. These programs are subject to approval of the Board.

The new projects are:

- Nineteen new schools, five major reconstructions, and sites or planning for 44 additional schools.

- Transit improvements including 500 new cars and a spur on the IND-Sixth Avenue Line to a new terminal at 57th Street.

- The Newtown Creek pollution control plant.

- A bridge from Queens to Rikers Island to facilitate expansion of correctional institutions on the is-

land, and a new bridge over Eastchester Creek.

- Numerous facilities for the newly-created City University.

- Preliminary work on the new Bellevue Hospital site, and preparation of plans for a 200-bed psychiatric addition to Metropolitan Hospital.

- Construction of five police stations and three firehouses, and planning of a branch library in a remodelled Jefferson Market Courthouse.

- Park improvements, including the World's Fair site and the beachfront between Fort Wadsworth and Miller Field, and planning for a new skating rink and swimming pool at the north end of Central Park.

## Social Security

Below are questions on Social Security problems sent in by our readers and answered by a legal expert in the field. Anyone with a question on Social Security should write it out and send it to the Social Security Editor, Civil Service Leader, 97 Duane St., New York 7, N. Y.

How disabled do you have to be? You must be so disabled that you are not able to work in any substantial activity. This will be determined from the medical evidence.

Will my medical expenses be paid since I am receiving disability benefits?

There are no provisions in the social security law to permit payment of medical expenses.

When I reached 65 last year, I applied for social security payments on my wife's social security account. I was told that even though she supported me for many many years before her death, I could not receive benefits because she had died before 1950. Have there been changes in the law making it possible for me to receive benefits?

Yes, there has been a change allowing monthly payments to be made to the aged dependent widowers of women workers who died before September 1950. In order for you to be eligible, you wife must have worked under social security for at least a year and a half out of the three years just before she died. You must file another social security claim and, in addition, you must present proof that your wife was supporting you at the time she died.

How old do you have to be to get social security disability benefits?

There is no longer any age requirement. Any worker who meets the definition of disability in the law can be paid disability benefits if he has social security credit for at least five years of work out of the ten years before his disability began.

A friend recently told me that I could get social security benefits for the two months I was off work last year due to pneumonia. Is this correct? I am 55 years old.

No, your friend was wrong. Only persons who have permanent disabilities can qualify for disability payments. Temporary sickness or disability is not covered under the social security law.

I'm 67. My husband gets social security checks each month. We've been married a little over a year. Can I get payments as his wife?

Yes. Because of recent changes in the law, you need to be married only one year. You and your husband should go by the social security office right away. Your payments can start with less delay if you'll take your marriage certificate and some old record of your age.

How long has domestic employment been covered by social security?

Domestic employment has been covered since January 1951. However, the requirements necessary for coverage were different prior to January 1, 1955 than they have been since that date.

Do I have to wait until the month I'm 65 to apply for retirement payments?

A man can apply three months

## Civil Service LAW & YOU

By HAROLD L. HERZSTEIN

Mr. Herzstein is a member of the New York bar

(The views expressed in this column are those of the writer and not necessarily constitute the views of this newspaper or of any organization.)

## Who Won The Ball Game?

SUPPOSE YOU have a dispute with a man and the case comes to court. Who does the weighing? The Court does the weighing and all of it. When the Court gets through, the Court tells which man won.

NOW, SUPPOSE that you work for the civil service commission and have a dispute with another man who works for the civil service commission. Who does the weighing? Don't try to answer this one too fast because you may come up with the wrong answer. Many a man does every week.

LET US GET THIS subject straight for once, without any wrangling.

WHEN A MATTER comes to a Supreme Court Justice or to the Appellate Division of the Supreme Court from a decision by an administrator in a civil service commission, the latter has a lot on the ball. The Court which will hear and decide it, only decides if he has anything on the ball. If he has, it calls everybody else out. I am neither justifying nor criticizing it—but am rather just telling you what it is.

### Judge Capozzoli's Case

LET ME illustrate the point I mean to make by a decision made by Judge Louis J. Capozzoli, sitting in Manhattan in *Wiggins v. Civil Service Commission*, reported in the *New York Law Journal* on August 3, 1961, page 5, column 5. No appeal is pending so that the law on the case is generally settled.

IN THAT CASE, the petitioner had been disqualified from the eligible list for the position of Housing Officer the New York City Housing Authority. He tried to get back via the State Supreme Court. Judging from what the Judge said, it perhaps looked pretty good for him.

He wrote:

The Court is in complete sympathy with the petitioner. In fact, if the Court had the power to upset the determination of the respondents, it would do so.

THE JUDGE knew what he was writing about. He knew that he did not have the power to follow his impulses. There was a man who did not have to scramble like most who believe that an administrator's hold is wrong. He said it was wrong and yet had to stand by it. The reason he gave was that:

"The fact that the Court may disagree with the result does not give it power to set it aside. No abuse of discretion by the respondents has been shown."

THEN, ANOTHER decision, disapproved by the Court stood as the law.

### What To Do?

THERE ARE a lot of us who do not like the type of restriction contained in Article 78 of the Civil Practice Act. It is only the deletion of it which would insure a facile reading of the article so that it will have the effect which everyone thinks it has — until he gets into a civil civil service problem.

before he's 65. A woman can apply three months before she is 62. It will save time if you bring a record of your age with you to the social security office. Also bring a record of your last year's earnings. If your wife is 62, bring her with you and proof of her age if you have it.

I have just been put on disability pension. Must I wait six months from now before I can claim and receive disability insurance benefits? I am 55.

You should contact your social security office at once. They will explain the six month requirements and assist you in filing your claim. The six months waiting period is computed from the last date you were able to work as determined from your medical and other records. However, you do not have to wait the full six months before you file your claim.

I was told that for each month of active military service, 1940-1945, I would receive social secur-

ity credits of \$160 per month. When I sent in the postcard for a record of my social security account, I learned that I was not given the military credits. Why is this?

Military service is not actually credited to the account until a claim is filed. When you apply for benefits, you will be asked for your discharge or other proof of military service.

A friend told me that I can pay my own social security tax. I earn wages of \$4,000 a year and I want to pay on \$4,800 in order to get maximum benefits. How do I go about this?

Sorry to say your friend is wrong. As an employee, your social security tax is reported and paid by your employer. In order to pay the tax on \$4,800, you must earn \$4,800. Only self-employed business and professional people and ministers pay their own social security tax on the actual amount of their net business income for the year.

Now—for '62—General Electric introduces the most convenient washer ever built . . . featuring a new, dual washing system—one to get a giant 12-pound load truly clean, the other for those small "washbowl" one-pound loads. Big volume loads are thoroughly washed, as the new Spiral Activator, with heavy duty motor, loosens soil with a more vigorous washing action. Wash-Basin loads—delicate fabrics, lingerie, sheer stockings, sweaters—all normally hand washed—can now be carefully laundered in G.E.'s new and exclusive MINI-BASKET. With the selected washing cycle, MINI-WASH gently suds and washes your clothing with a minimum amount of water.

**ADVANCE FEATURES INCLUDE:**

- Automatic Cycle Selection
- Automatic Bleach Dispenser
- Water Temperature . . . automatically pre-set with selection of type of load to be washed
- Cold Water Wash for any setting
- Spray Rinse ■ Activated Soak Cycle
- Spiral Activator 3-Zone Washing Action
- Damp Dry Spin ■ Illuminated Controls
- Counter Height—Counter Depth
- Famous 5-Year Written Protection Plan 1-year warranty against defective materials and workmanship on entire washer; 4-years additional on sealed-in transmission system. Ask your dealer for personalized written warranty with details.

# Heads of Three CS Agencies Address Personnel Council On Departmental Relationship

The heads of the Federal, State and City Personnel agencies constituted a panel of speakers at a meeting of public personnel officers and technicians last night.

The meeting was jointly sponsored by the New York Society of Personnel Administrators, the New York Public Personnel Association, the Municipal Personnel Society, according to an announcement by Dr. Martin B. Dworkis, professor of public administration at New York University and coordinator of the New York Public Personnel Council.

The speakers were John W. Macy, Jr., chairman of the United States Civil Service Commission and former vice president of Wesleyan University; H. Eliot Kaplan, president of the New York State Civil Service Department, former chairman of the President's Committee on Retirement Policy and former deputy comptroller of the State of New York; and Theodore H. Lang, chairman of the New York City Civil Service Commission and former chief clerk of the New York City Board of Education.

The panel was organized around the topic, "How The Central Personnel Agency Views Its Relationship With The Operating Departments And Their Personnel Units." The meeting was organized to give the speakers an opportunity to indicate their philosophies regarding the role of a Civil Service Commission in relationship to management in a public jurisdiction with particular reference to the problems of personnel administration. There were opportunities for questions and comments from the audience.

The meeting was held at the Examining Rooms of the U. S. Civil Commission Regional Office at 220 E. 42 St. in Manhattan.

The conference is the first of three special meetings arranged

for by the joint efforts of the participating societies. The second in the series in the second week of February will deal with "How the Head of an Operating Department Views His Relationship with His Personnel Unit and the Central Personnel Agency." In the third conference scheduled for the second week of April, the meeting will be organized around the topic "How the Personnel Officer in an Operating Department Views His Relationships with the Head of the Department and the Central Personnel Agency."

Persons interested in the work of any one or all of the professional organizations or in attending any future meetings should write to the New York Public Personnel Council, P. O. Box 178, New York 1, N. Y.

## City Pays \$4,850 While Training to Social Investigators

New York City trains people for social investigator jobs and pays them \$4,850 a year—during training. Applications are being accepted for the social investigator trainee test on a continuous basis.

After a year of satisfactory training, social investigator trainees will receive regular appointment to the title of social investigator at \$5,150 to \$6,590 a year.

A baccalaureate degree issued upon completion of a four-year

course in an accredited college is required for the position. A college series application form must be filed by the applicant.

Under close supervision, a social investigator trainee receives training and performs beginning level work in investigating need and determining eligibility for public assistance.

A written test will count for all of the total grade and 60 is the passing mark. The test will be of the multiple choice type and will

include questions on general intelligence, dealing with people, psychological and sociological concepts and general background information.

Applications can be filed, in person only, on each Tuesday between 8:30 and 9:30 at 241 Church St., second floor. The test will be

given on the same day. Candidates who have failed a test in the title in the preceding six months will not be eligible to take the written test.

Applications are available at the Applications Section of the Department of Personnel, 96 Duane St., New York 7, N. Y.

Robert Gaudette, president of the Albany Division of Employment chapter, has encouraged the attendance of members at future open meetings. He also noted that since some members of the chapter had questions on the increase of life insurance rates because of the additional coverage vice president Edward Haverly would be able to explain the change to members if they

would have their representatives contact him. Mr. Gaudette also suggested that members should attend the 20-year dinner honoring employees of the division in order to get acquainted with other members of the Labor Dept.

Dorothy Honeywell, membership chairman and recent past president, should be contacted by all representatives of the chapter in order to enlarge the membership strength.

All non-members should be contacted.

Helen Larken social chairman deserves a lot of credit for the success of our fall clam steam. Helen is the planner for the childrens' Christmas party for the holiday enjoyment of the children of all D. of E. employees. # Nassau Custodians Urged To Take Promotion to Head Custodian Exam

Irving Flaumenbaum, president of Nassau chapter of the Civil Service Employees Association, and Edward Perrott, chairman of the Chapter's non-teaching section, have urged all eligible custodial employees in the County to file for the Feb. 3 head custodian promotion exam.

The last day to file for the test is Jan. 2. Apply to the Nassau County Civil Service Commission 54 Mineola Blvd., Mineola, N. Y.

The exam is being held to fill various school district vacancies, which pay from \$4,700 to \$7,000 to

start, depending on the particular school district. For specific salaries, contact the Board of Education.

Applicants for the exam must have served for at least six months prior to the test date in the competitive class in the County. Also required are either two years of building cleaning and maintenance experience, or one year of such experience and one year's experience as a carpenter, painter, plumber, electrician or steam fireman.

A satisfactory equivalent combination of the above will also be accepted.

Final grades will be determined on the basis of a written test and seniority, for which candidates will receive .10 points for each six months of competitive class service in the school district.

A separate eligible list will be established for, and certified to, each district. Candidates, when applying, should indicate the school district of which they are residents.

## Hasbrouck Wins \$500 For Idea

ALBANY, Dec. 18 — A State Thruway employee, Melvin J. Hasbrouck of Duanesburg, has been awarded \$500 for his meritorious suggestion on how the authority could improve its pavement marking.

Mr. Hasbrouck is foreman of the Thruway's highway crew in the Albany division. He developed a 500-gallon paint tank for a pavement-stripping machine, which reduces the steps needed to replenish the paint supply. Use of the tank is estimated to save the authority more than \$5,000 a year.

The merit award is the largest ever made under the program, according to Chairman R. Burdell Bixby.
