# Answer!!!

Each plays a role in Carl Wedekind's new book!  
*Politics, Religion and Death: Memoir of a Lobbyist*

"Wedekind describes Kentucky's capital city as the domain, with a few righteous exceptions, of imperious, arch-conservative religious zealots, sometimes all wrapped up in one..."

"It is a tale that should be required reading for anyone interested in how our vaunted lofty-appearing system of law making looks from the perspective of a small frog at the very bottom of a very murky pond."

Doug Stern, review in *The Torch*, August, 2006
