Salary Resolution Calls For A 12½ Per Cent Wage Boost To All State Aides

Rockefeller Says He Is For Higher State Pay; Harriman Cites Failure Of GOP To Grant Raises

(Special to The Leader)

ALBANY, Sept. 22 — The prospect of State salary increase in 1959 appears to be gaining some ground, according to 1958 political campaign talk.

In an interview at Catskill, Nelson A. Rockefeller was the first of the major party candidates to break the silence on the State pay issue. He came out flatly for increased salaries for State workers.

In Albany, Governor Averell Harriman described the Rockefeller statement as having "a hollow

ring coming from a Republican nominee in the face of the action of the Republican leaders at the 1958 session of the Legislature"

Mr. Harriman noted the GOP-controlled Legislature had cut from his budget request such items as:

1. \$8,200,000 which would have provided increases of \$100 to \$200 for the lowest paid State worker.

2. Funds to establish a "State Employees' Incentive System" to encourage exceptional performance. This plan was recommended by a committee consisting of the Commissioners of Education, Health, Social Welfare, Labor and the State Budget Director.

3. Legislation authorizing payment by the State of the moving expenses of State employees who are transferred at the State's convenience.

Mr. Rockefeller did not give any details on what he would propose in terms of a State pay raise, but commented he thought State salaries should be increased "to a level commensurate with what they could earn in private industry."

The Civil Service Employees Association, representing more

than 80,000 state, county and municipal workers, has consistently pointed out that the public employee has lagged as high as 15 percent behind its counterpart in private industry for the past several years.

Since Mr. Rockefeller's Catskill statement there has been no further GOP comment on this issue.

Harriman Renames 4 To Mediation Board

ALBANY, Sept. 22 — Governor Harriman has reappointed four members of the State Mediation Board in the Department of Labor.

At the same time, Mr. Harriman redesignated Harry Uviller of New York City as board chairman.

Others renamed to new terms were:

Ralph E. Kharas of Syracuse; Mrs. John T. McKelvey of Rochester and Donald B. Strauss of New York City.

The reappointments are for the interim period until the State Senate is in session and can act on confirmation of the appointments.

U.S. Gives Samson Hospital To State Mental Hygiene

The Federal Government transferred the Base Hospital of the Sampson Air Force Base to the State of New York. The deed to the property was delivered to Governor Harriman by Joseph B. O'Connor, Regional Director, U. S. Department of Health, Education, and Welfare.

The hospital, which had cost the Federal Government \$8,700,000, was conveyed free, for use as a mental hygiene facility. It consists of 483 acres of land and 98

buildings.

Transfer was made under pro and Administrative Services Act, provisions of the Federal Property under which the U.S. may convey real property, no longer needed by the Federal Government, to educational and public health agencies of State and local governments, and to non-profit educational and health institutions exempt from Federal taxes. To date, \$742,373,674 worth of surplus real property has been transferred.

ALBANY, Sept. 22 — A twelve and one half per cent salary increase for all State employees will be sought by the Civil Service Employees Association during the forthcoming session of the State Legislature, Davis L. Shultes, chairman of the CSEA Salary Committee, reports.

After a year-long continuing study of wage conditions in private industry, of inflation pressures and other pertinent factors, the Association committee set the twelve and one half percent figure as the lowest equitable increase for State workers.

In addition to a salary increase, the pay resolution prepared by the Committee calls for the appropriation of sufficient additional funds to permit required internal adjustments during the fiscal year.

The salary resolution becomes the Number One resolution of the Association's legislative program for 1959. It must be approved by delegates to the 48th annual meeting of the Association October 12, 13 and 14 in Albany.

To Wage Hard Fight

Both the Legislature and the Administration will be the target of a hard fight to get pay increases. Public employees are still smarting over the failure to get any salary benefits in 1958. An Administration-sponsored pay boost was killed by the GOP-dominated Legislature this year, although the same Legislature engineered a round of salary increases the year before.

State workers feel strongly that a year without any more money in the pocketbook has put them in a serious financial condition and placed them even further behind their counterparts in private industry.

How Resolution Reads

Here is how the Salary Committee's resolution reads:

WHEREAS, the cost of living has set new record highs in 26 of the last 29 months and has risen for each of the last 7 months; and

WHEREAS, studies made of the relationship of wage levels and trends between the state as an employer and private industry demonstrate the need of a substantial upward adjustment in state salaries; and

WHEREAS, a large number of state employees have not received an increase in take-home pay since 1954; and

WHEREAS, commonly accepted measurements of the adequacy of a wage level such as turnover, hiring rates, and direct wage comparisons indisputably demonstrate the necessity of a major upward salary adjustment for State employees; and

WHEREAS, substantial upward adjustments are necessary in

order to continue to attract employees of unusual merit and ability to the service of the State; and

WHEREAS, there is a necessity of greater administrative and fiscal flexibility to permit the removal of inequities in particular cases during the year;

NOW THEREFORE BE IT RESOLVED that this Association sponsor or support the necessary legislation

(1) to provide a salary increase of 12½% for all State employees; and

(2) the appropriation of sufficient additional funds to permit required internal adjustments during the fiscal year.

Other Benefits Sought

Although more pay is the primary aim of the Association, other important benefits will be sought this year as well.

These include increased retirement benefits and a vested right in the pension system; equal pay for equal work—as in the case of correction matrons; mandating of definite salary schedules in political subdivisions and in school districts; 40-hour week for State Police along with improved working conditions and many other benefits.

Onondaga Chapter Devises 14-Point Plan To Improve County Work Conditions

Aides Must Work on Legislators

The 1959 legislative session is only a little over three months away. It is not too soon for the Civil Service Employees Association to organize its forces to present and defend its legislative program. True, there are the facts that a state election will be held in November, and that the final drafting of the Association program will take place at the business meeting in October. Nevertheless, it is imperative that certain basic things be done now — so that the Association will, immediately after election, be ready to present its requests before the executive and legislative branches.

Our chapters and their members have become increasingly important during legislative campaigns. In fact, much of our success in recent years can be attributed to the effort which the Association members made on the local level, to reach their individual legislative representatives. The members of the Association live in the districts which the legislators represent. The members and their families make up his constituency. These people are important to the Assemblyman and Senator, and, by the same token, the legislators are important to the voters in their districts.

It is the meeting between the Association member and the legislator which is of paramount importance. Whether they meet him at home, on the street, in the barber shop, in church, in a hotel, or by telephone or letter is unimportant. The principal thing is to reach him — and to let him know, as individuals, what the needs of the public employees are and what is the program of the Association. It is important that these facts be conveyed to him clearly and emphatically. This is the only way he is going to be convinced of the earnestness and validity of the employees' needs.

Activity on Chapter Level Needed

This technique is not new. It is constantly used by scores of different organizations. However, to be fully effective, our organization needs to be set up to do the job. Our chapters need to be organized with a special legislative steering committee at the helm to make certain every legislator is covered and made fully acquainted with the CSEA program. This will mean volunteer work — hard and persistent work. It will mean repeated visits, it will mean a knowledge of the facts and an ability to meet counter arguments. It will mean tact, politeness, restraint — qualities which convey the impression of a responsible organization.

The Association has over 80,000 members. Each member is a part of a family (statistically each family is composed of 3-plus adults), so that the Association directly and indirectly has an effect upon some 240,000 human beings. If each of these voiced their conviction of the validity of our organization and its program, there would be little doubt of the size of the impression it would make upon the state's governing bodies.

SYRACUSE, Sept. 22 — A 14-point program designed to bring much-needed working improvements to Onondaga County employees has been presented to the County Board of Supervisors by Arthur Darrow, president of Onondaga chapter of the Civil Service Employees Association.

The CSEA unit seeks a \$300 minimum increase for all employees, plus numerous improvements in working conditions and hours.

In presenting his program to the County Board Mr. Darrow said:

"As of 24 March 1958 the new over-all living cost peak is the 16th time in the past 18 months that the cost of living index has broken over the top to a new high.

"All surveys have, for many years past, established the fact that public employee wage rates have lagged tragically behind wage rates in industrial employment, regardless of the fact the living costs of public employees continues on a level comparable with industrial employees. In 1957 the New York State public employees received a wage increase. In 1958 Federal employees are being scheduled a 10% wage increase retroactive to January 1st.

Recommendations

"Therefore, we, the Onondaga Chapter Civil Service Employees Association, Inc. find ourselves thoroughly justified in recommending:

"1. An across the board general wage increase to the employees of Onondaga County of not less than \$300 per annum.

"2. We further recommend the continuance at status quo of the present cost of living bonus.

"3. We again recommend establishment of a 26 per year pay day schedule in place of the present 24 or semi-monthly pay schedule.

"4. In considering the longevity increment schedule which now provides an initial grant at completion of 10 years employment (consecutively) and further grants at the completion of each successive 5 year employment periods, there still remains a definite discrimination against those persons who had already completed 20 years employment when the program was originated and would have completed 30 years, or age limit, employment before entitled to a third longevity increment. We, therefore, again urge the provisions of not more than one additional longevity increment to those of completed consecutive 20 years employment as of date of program's inception, January 1,

1955.

"5. We recommend the establishment of a Health Insurance program as provided for in Chapter 461, Laws of 1956 and made permissive for political subdivisions by Chapter 950, Laws of 1958.

"6. To eliminate the required notary public certification of signature on applications for Civil Service examinations.

"7. To make effective the revision to a maximum 40 hour work week for all institutional employees.

"8. Immediate implementation by Resolution of the Board of Supervisors, of the provision of the 1955 Saturday Closing Law which stipulates shall apply to all Departments except the Motor Vehicle Bureau which may be kept open on Saturday during the month of January, only by special resolution.

CSEA Blue Cross-Blue Shield Review Health Plan Progress

State and local issues affecting members of the Civil Service Employees Association enrolled in the State-wide health insurance plan were reviewed at a recent all-day conference at Blue Cross, Blue Shield headquarters, 80 Lexington Avenue, New York City. The conference was attended by CSEA officials and the staff of the Blue Cross, Blue Shield government relations program.

John F. Powers, CSEA president, congratulated Blue Cross

and Blue Shield on the effectiveness of its non-profit, community services to government employees enrolled under the State health insurance program. Among the advantages he stressed were the provision of 120 days of hospital care, the fact that there is no deductible on basic benefits, the higher schedule of surgical allowances and the anesthesia allowance under UMS. He also pointed out the value of the major medical coverage which supplements this program.

According to Mr. Powers, extension of the State-wide program to local government units on exactly the same basis as it is now available to State employees marks another forward step in the State health insurance program for public employees.

A report by James C. Ingram, assistant vice president of New York's Blue Cross, showed that claims by CSEA employees for Blue Cross hospital services under the State-wide program averaged 125 for every working day since the program went into effect.

Eugene P. Smith, a department head for New York's Blue Shield, said that Blue Shield claims for doctor's services to CSEA employees throughout the State over the same period averaged 175 a day.

William G. O'Brien, manager of government group relations for Blue Cross and Blue Shield, urged the CSEA leaders to remind Association members of the importance of keeping their identification cards on hand at all times in order to assure prompt hospital care in case of emergencies.

CSEA officials who attended the conference included Frank Casey, James Casey and Benjamin Sherman. Among the Blue Cross, Blue Shield representatives were Robert F. Brennan, Stephen Carr, Ronald F. Dennis, William Hammersley, Mary Ann Kern, Thomas J. Kilbride, Hugh McDowell, Daniel J. O'Brien, and Daniel Rosenberg.

Seymour Halpern Running For Congress in Queens

Former State Senator Seymour Halpern is running for Congress from the 4th Congressional District, Queens, on the Republican ticket. The district includes East Queens from Forest Hills to the Nassau County border, and takes in Bellaire, Rosedale and Queens Village.

As a Senator, Mr. Halpern was known to public employees as "Mr. Civil Service." For five years he headed the Senate Civil Service Committee and he was the co-sponsor of the bill to create the Temporary Commission to Revise the Civil Service Law.

He sponsored more than 90 laws to benefit civil service employees, among them statutes to eliminate age requirements in promotions; eliminate physical requirements in promotions; eliminate promotion dead ends by permitting interdepartmental promotions; granting right of an appeal by employees in disciplinary actions; retirement at age 55; creation of the State Merit Awards for employees; granting of cost of living bonuses and generous pension gains; improving wage schedules for State employees.

He is also well known for having fought attempts to put over ripper bills in the Legislature.

Was Youngest Senator Elected
He was a Senator for 14 years, the youngest man — at 26 — ever elected to the State Senate.

Although not a lawyer, he is known for having sponsored more enacted laws than any other member in the history of the Senate.

Prompt CSEA Protection

THE CIVIL Service Employees Association, representing more than 80,000 State, county and municipal workers, has once more demonstrated the quickness and efficiency with which it operates in behalf of the public employee.

Its most recent effort concerns protection of State institutional employees' right to retain the State-legislated "no-loss-in-pay" provision when reinstating employment.

Until last week, employees — such as prison guards and mental hygiene attendants — who resigned their position in one institution and, after a period of two weeks or more, took similar employment in another institution lost money by being deprived of the benefit of "no-loss-in-pay" legislation enacted by the State. In some cases this amount could reach as high as \$150. The legislation called for a reduction in institutional work hours with no loss in pay.

The Employees Association asked Comptroller Arthur Levitt to spell out the basic right of the employee to retain this provision upon reinstatement in State service because the "no-loss-in-pay" provision was applicable to the employee at the time of resignation.

Last week Comptroller Levitt made such a ruling and a great benefit has accrued to the employee by his so doing.

The Employees Association is to be saluted for again acting so quickly on behalf of the public worker.

Top-Notch Course

NEW YORK CITY shows that it is in real earnest in its training program, for it has established the precedent of having top officials as the speakers at a 10-lecture course, including Mayor Robert F. Wagner, Comptroller Lawrence E. Gerosa, Commissioners of City departments, and Budget Director Abraham D. Beame. It's an in-service training course to acquaint City employees with the intimate details, as well as the broad service objectives, of operations of the City government. Some of the topics are highly specialized and will particularly benefit employees working in particular fields.

Other jurisdictions would do well to have the Governor, the Mayor and other high officials as lecturers in training courses, and let the employees ask questions that the speaker will answer.

Congratulations to the Personnel Department and the Board of Education on the fine forward step they have taken jointly.

Unique Responsibility

THE CODE of Ethics for Federal employees, enacted by concurrent resolution of the Senate and the House, compresses in a terse 10-point guide the traditional requirements that public employees must meet. Summarized, the code enjoins employees to obey the law, the rules and the regulations, accept no gratuities or favors that might be reasonably construed as influencing one's performance of governmental duties, and make no private promises, as no employee has any authority to make a promise binding on his public duty.

The word "employee" as used in the code includes also officers and officials, and any other appointee on the Federal payroll.

The code is not much different than its predecessors, but reaffirms the unique responsibilities of a public job.

LETTERS TO THE EDITOR

BETTER DEAL ASKED OF LEGISLATURE

Editor, The Leader:

The politicians are getting ready now to peddle their goods to the public employees to gain votes in the election.

I hope that my fellow-workers will take a close look at what's being offered them this year and insist even more strenuously than before that the Legislature accede to more of their goods.

Let's all get to work for a more varied menu

ANDREW BAKER

PREVAILING RATE LAW PRAISED BY LABORER

Editor, The Leader:

I'm a New York City laborer, one of the many who stand to benefit from laborers being under the Prevailing Rate Law, instead of under the Career and Salary Plan. I'm not too familiar with the legal technicalities, but I do know that under prevailing rates laborers, as well as all others entitled to the benefit of that law, get higher pay. I'm told the purpose of the law is to prevent the City from paying less than the rates prevailing in local private industry. The law has accomplished that.

Now I'm anxious to know what Comptroller Lawrence E. Gerosa will propose as the new rate, following hearings that ended for the run of laborers. I understand that an effort is being made to get separate hearings for sewer laborers, highway laborers, and Water Department (excavation) laborers, and although I'm not one of them, I fully agree that they are entitled to higher pay because their work is harder, has to be done under more trying conditions, and requires specialized skill. Maybe I'll try to acquire that skill so that I, too, can get the higher rate.

The Prevailing Rate Law is a blessing to City employees.

ANTONIO MARUCCI

TAKE-HOME PAY AS PENSION RATING BASIS

Editor, The Leader:

Now that most competitive and labor class city employees are covered by Social Security, an amendment to the present New York City Employees Retirement System Law should be enacted.

Under Chapter 3, Title B of the Administrative Code, if you are not entitled to share in the Police, Fire, Street Cleaning, Teachers or Education Retirement Pension or the New York State Employees Retirement System, you probably have the privilege of becoming a member of the New York City Employees Retirement System. If you entered or re-entered city-service after October 1, 1920 (after December 1, 1929 for Department of Sanitation) you may become a member immediately upon appointment, but membership is compulsory after completion of six months of service in the competitive or labor class unless your pay is less than \$3,250 a year without maintenance, or less than \$2,750 with maintenance. Amendment is needed, because of the high cost of living, so as the figure would be based on take-home pay. I am a permanent competitive class city employee, earning \$2,900. My take-home pay is \$43.63 a week. I find it impossible to live adequately on this amount of money. I could live a trifle better if I were not forced by the Retirement Law to save \$4.28 a week.

Spartan Economy and Austerity Budgets No Panacea

GOVERNMENTS report need for operating under tight budgets, therefore employees through their organizations must fight more strongly than ever to get deserved salary increases.

Government officials in harping on the financial strictures are indirectly but nevertheless clearly warning that raise prospects are slim or non-existent. Yet there are many job categories in which public employees are underpaid, some of them outrageously so, and the implication is that this injustice is to be wantonly continued. The proposition is revived that the employees are expected to help subsidize government. It would be something new for government to subsidize the employees.

Budget bureaus harp on the need for economy and tend toward salary stinginess, though practical considerations eventually limit the use of that device, too; recruitment becomes difficult; work that should and must be done is left undone, or is done with less than required skill and expertness. Along with financial economy there may be a lessening of minimum requirements, which turns out to be a squandering form of economy.

No Escape from Necessity

There are certain urgent areas of endeavor in which government can not be found wanting under any circumstances, and in such cases payroll money flows with antithetical freedom, as in the case of the Federal government's establishment of two new agencies to develop air and space vehicles, including satellites and missiles, of both manned and remote-controlled type. These functions represent probably the most important undertaking in which government is engaged, as the roster of jobs, and salaries offered, tend to prove.

The plan is to create 30,000 positions, no less, and Congress has voted the authority to do so. All this proves the relative nature of an economy budget and reaffirms the truism that government can not escape its responsibilities any more than private industry can, and boomerang. Adequate pay for the rank and file of employees may that when government attempts to do so, it finds itself stricken by a not be so dramatic a goal as the conquest of space and outer space, with trips to the moon or Mars, but the lives and destinies of millions of persons are at stake nevertheless, and lack of money is no excuse for government more than for private industry.

Government is in competition with private industry for the best brains and talent of this nation, and can not afford to be outstripped by private industry any more than the United States can afford to be outstripped by Russia in the greatest international scientific competition in history.

Public employees should gird for the pay fight that is surely in the offing, in Federal, state and local jurisdictions, and wage it with vigor and determination, with a will to win, not as a mere exercise in predestined futility.

No fight is lost that has not even yet begun.

Fabulous Enlargement

The Federal government, as part of its program for the two new agencies—the National Aviation Agency and the National Aeronautics and Space Administration—already has created more than 50 new supergrade positions, besides 300 new scientific, professional and administrative positions that pay up to \$19,000 a year. Other new positions in the same category pay up to \$21,000. Thus not only will recruitment come nearer to the goal it should have attained years ago, but present employees would benefit also because of greatly increased promotion opportunities.

One would hardly believe such a vastly expanded personnel program possible if one considered only the White House policy of spartan economy—the President's own phrase for it—under the freeze on new hiring to 2 percent of government jobs, and the reflected economies that usually go with meat-axe methods of trying to keep expenses within income. The Federal attempt to avoid budget deficits hasn't been succeeding, if only because the need for meeting requirements of public service is paramount. And that need isn't met in full while even one lone public employee is underpaid.

NYC Reverses Itself

New York City is also operating under an economy budget, or austerity budget, as Mayor Robert F. Wagner calls it, and not without some expansion of activities, and creation of new ones, thus attesting anew to the relativity of economy. When government wants to do anything the money is either always there or can always be found or raised.

The New York City budget is raising havoc with employees, not that they are being downgraded, nor denied statutory increments, but because promotion opportunities are being kept at a minimum, and even worthy appeals for pay increases through reclassification (getting a new title that carries a higher grade), upward reallocation (same title elevated to a higher grade) are not being recommended to the Board of Estimate for approval. The vote is usually 3 to 2 for denial, the majority constituting the Administration members of the Salary Appeals or Classification Appeals Board. The employee members are the minority. The membership of both boards being the same, the result is the same, time and again, and indicates not only that preponderance of evidence in support of an appeal isn't enough any more, but that for lack of willingness to meet the cost, the City is allowing its Career and Salary Plan, that started so promisingly,

to die a slow death. The result is that employee organizations are refusing to submit any more appeals, and clamor for restoration of collective bargaining on pay, an advantage that the Plan wiped out, with the implied promise that the employees would benefit more fairly, and on a scientifically determined basis.

Promise Kept Early. Broken Later

That promise was fulfilled in the beginning, as far as any one may judge in dealing with a mixture of intangibles and probabilities, but is actually being broken now in the name of economy and austerity. Meanwhile more and more employees are seeking the refuge of Section 220 of the State Labor Law, the benefits of which are applicable only to laborers, mechanics, and workmen engaged in the construction and maintenance of public works. Employees who succeed in having their status changed that way would become entitled to the rates of pay prevailing in local private industry, as determined by the Comptroller and confirmed by the Board of Estimate. In such cases the City loses its discretionary power over pay. Prevailing rates are immune from even an austerity budget.

Bulletin for Mental Hygiene Employees

Your All-Mental Hygiene Employees Association became organized in nineteen hundred and five.

It is an organization of employees in the Department of Mental Hygiene who have banded together for the purpose of promoting those objectives which would insure better working conditions; adequate salaries; promotional opportunities; realistic personnel policies; resolution of problems and the general welfare of its members.

Who, except an association of the employees themselves, is in the best position to know institutional problems and has a keen interest in the solution of these problems?

How Does The Mental Hygiene Employees Association Gain Its Objectives?

Working closely with C.S.E.A.; and through its representative, this association prepares resolutions and promotes legislation for the welfare of Mental Hygiene employees.

The M.H.E.A. has several meetings each year with the Commissioner of Mental Hygiene and the Director of Personnel. At these meetings those problems are discussed which do not require legislation but may be solved by a directive from the Commissioner's office. This is a common meeting ground and sounding board for suggestions and recommendations for the benefit of the institution employee. Many pertinent questions have been satisfactorily answered at this conference.

The M.H.E.A. periodically meets with the Director of Classification—Department of Civil Service, in behalf of reclassification, upgrading, and fringe benefits for the institution employee. Similar meetings are held with the Director of the Budget.

What Can The M.H.E.A. Do For Me?

Through its power and prestige, as it composes the largest departmental group of employees in the State of New York; it therefore, can influence the realization of the following objectives:

1. A serious salary study to reflect the duties and responsibilities of each title.
2. A salary scale comparable with the current trend in industry, and in consideration of the present cost of living.
3. Correction of existing inequities in the salary structure.
4. Modernized pension system.
5. Vesting of retirement rights.
6. Promotional series for Attendants.
7. Encourage Civil Service as a career through a study to improve promotional opportunities in ALL titles. Emphasis should be noted for the clerical workers.
8. Differential in salary for evening and night duty.
9. 37-1/2 hour week for office workers.
10. Additional increment after 25 years of service.

What Can I Do For The M.H.E.A.?

I can become a member; an active member. I can recruit members and in so doing I will help the M.H.E.A. to help me.

ACTIVITIES OF EMPLOYEES THROUGHOUT NEW YORK STATE

Creedmoor

At a meeting of the Creedmoor chapter, CSEA, held on September 9, the following delegates were selected to represent us at the annual meeting of the Association to be held in Albany on Oct. 12th, 13th and 14th:—Ray Sansone; John MacKenzie; Helen Peterson; Leona Keddy; Virginia MacDonall and Ed Sottong. A report will be given to the members at the meeting following the trip to Albany.

The O.T. Dept. of Creedmoor held a special sale on Sept. 10th, 11th and 12th which was a great success. Mrs. DeVita of that department is on the sick list. Mrs. Loomis and Miss Remsen are back from their vacations. Mrs. Kappstapler of M' bldg O.T. shop is back from her vacation at New Paltz, New York. Mr. Petersen of the power house is well on the way to recovery. Charlie Byank, Supervisor of Bldg. 8 said he was going to walk away with the bowling league this year. Harry Appicella, Paul Rawald and Charlie are the gladiators representing S bldg. in the bowling league this year.

Speaking of bowling—there are a few vacancies on the Monday night league for any employee or friends of employees who want to enter the league. The Tuesday night league is all set up and promises to be quite a scrap. Any person wishing to bowl on any league night should contact Ed Sottong in bldg. P—phone ext. 534. Plans are in the making to run a chance book raffle.

At the aforementioned meeting it was decided to run a raffle to purchase a television set for the employees sick bay. The winner of the raffle to receive a 17 inch T.V. set as the prize. The raffle committee will be John Murphy, John Mackenzie and Ed Sottong.

Public Works, Dist. 4

Rita Bates, bookkeeping machine operator, enjoyed a cruise to Bermuda on the "Queen". If the sailing was a bit rough at times, everything else compensated for it, she said.

William Saunders, Sr., of time-keeping, retired recently after 49 years of service. A farewell party was given for him, and a gift presented. Mr. and Mrs. Saunders will make their permanent home in Arizona, where they have enjoyed the winters in past years.

Harold Spaulding had some excellent fishing at Brockville, Ontario, where he spent Labor Day weekend. He was well satisfied with his catch of bass and perch and reports the fishing was the best in several years.

Rita Vanderweel, senior account clerk, motored to Boston, Hyannis, and other points on Cape Cod. A steamer trip to Nantucket Island, a two day stop at Newport R. I. and points in Connecticut added to the pleasure of her vacation this summer.

Alfred Villareale, junior engineer, and Dorothy Hydrock of Binghamton were married on August 23rd in Holy Rosary Church in Rochester. They are now living at 472 Lexington Avenue. Our congratulations are extended to the bride and groom.

Because of illness in the family, Betty Eger, stenographer in the R.O.W. Dept. has resigned and returned to her home in Hornell. Betty had previously worked in our General Office, before being assigned to Mr. Buchan's office in the Commerce Building. A luncheon party was given Betty, and a gift presented with the good wishes of her friends in both offices.

Joe McIntyre is off to the races at Belmont. If Lady Luck smiles on him, the girls in the general office will again receive a treat of Barracini's chocolates. Joe warns us however, that if the Lady frowns, we will probably be treated to jelly beans.

CORRECTION CORNER

By JACK SOLOD

A Tribute To David Duncan

They tell me that when it comes to fighting for more dough, I know how. Better working conditions, fringe benefits, pensions, this kind of stuff I understand. All my life I have been brought up to raise my voice against injustice. This also comes easy. But, writing this column is something new to me. How can you write when the tears keep falling on the paper and blur the words?

My friend, David Duncan, officer at Woodbourne Correctional Institution, died today. Cut down by that dread killer, heart trouble. He was 44 years of age. When a guy goes someone can always be found to say some kind words, but of this guy, to know him was to love him. Active in Masonic work, Scouts, Little League baseball, for years President or delegate of Woodbourne Chapter, C.S.E.A.; officer of the Recreation Fund; chairman of the Dinner Committee. Every activity found Dave giving of his time and effort. His work as an officer brought credit and prestige to all who had the pleasure of working with him. He was a R.N. and his help in the Institution Hospital was deeply appreciated by the Doctors.

I have worked in prisons 17 years. I don't cry easy; but I can't help it, the words are getting dimmer.

When a man was very sick and needed a private nurse, Dave was there. Did his 8 hours at the prison and then went to the Monticello Hospital and did 8 more. Money? Are you kidding? He's my friend, that was enough for him. Five years ago I underwent surgery, blood was needed, the first pint came from my friend Dave.

They buried him Friday at the Woodbourne Cemetery. People came from all over the State to pay homage to a grand guy. Not a big money man, not a big shot in high position, just a Correction Officer in a State Prison, who lived by the sermon on the mount. May the Angels be kind to him. Amen.

Onondaga Chapter Offers 14-Point County Program

(Continued from Page 1)

cial Resolution of the Board of Supervisors.

"9. We recommend adoption of provisions for compliance with Chapter 36, Laws of 1958 permitting payment in cash for accumulated and unused vacation and overtime at the time of separation from service.

"10. In recognition of the extensive differences in time and costs of educational background and job responsibilities for stenographer vs. typist, we strongly recommend a substantial differentiation be made in the starting salary and successive pays between stenographer and typist classification.

"11. Another item that requires serious consideration is the most inadequate pay schedules established for the various grades in the social work section of the Department of Public Welfare and Division of Veteran Assistance. Job qualification requirements being comparable to those for public school teachers, who work less than 10 months of the year and now have mandated starting salaries of \$4,000 minimum per annum, and whereas, Onondaga County social case worker starting salary is only \$2,900, second lowest in the State only to Cortland County with a \$2,800 starting salary.

"We recommend a readjustment of these classification salaries, upward, commensurate with the job qualification requirements and job responsibilities in order, in some degree, to eliminate the unreasonable personnel turnover caused primarily by this wholly inadequate pay schedule. Attention is called to St. Lawrence County where in January, 1958 these classification pays were increased by \$500 per year in order to overcome gross inequities.

"12. We recommend provision be made for guaranteed increment, in addition to rate for grade in new title, upon promotion as is made permissible under Chapter 838, Laws of 1958.

"13. We recommend that in all

cases of approaching retirement the employee, if on the basis of years worked be eligible and entitled to 4 weeks, 3 weeks, or 2 weeks of paid vacation time, shall be granted such vacation time with pay prior to retirement date. Copy of Board of Supervisors Resolution establishing such provision to be forwarded to all Department Heads and Deputy to forestall any arbitrary act on the part of any Department Head or Deputy from assuming that although a faithful employee of many years who may be reaching retirement in May (for instance) the fifth month would entitle the employees to only five days vacation time credit in terminal year.

"14. Finally, we request the establishment of a gentlemen's agreement through which the regularly elected delegates of this Association may be granted time off, without penalty or complication, to attend the regularly constituted meetings of The Civil Service Employees Association, Inc. at Albany, New York as a means of promoting improvement of employer-employee relationships."

Softball Team Seeks Opponents

In a late season rivalry between several offices of the Division of Employment in New York City, the soft ball team of the Manhattan Service Industries office defeated the Manhattan Apparel Industries office by a score of 9-2 on September 9 in Central Park.

In a second contest on September 13 at Flushing Meadow Park, the Manhattan Service Industries office outlasted the Commercial and Professional office team in a 16-12 slugging match.

The Service Industries Office is open to challenge from any soft ball team representing either the Unemployment Insurance or Employment Service offices in the New York City area. The time and place can be arranged by calling Bernard Zupa of the Service Industries office.

284 Get Glaucoma Test From Health Dept. At State Fair

ALBANY, Sept. 22 — A total of 284 persons participated in a screening clinic for glaucoma at the New York State Fair in Syracuse, August 29 through September 6, it was announced by Dr. Herman E. Hilleboe, State Health Commissioner. Of these, 15 were found to have eye tensions over the screening level. They were referred to their physicians for further study and treatment.

The clinic, conducted in cooperation with the Syracuse Branch, New York State Ophthalmological Society, was part of the State Health Department's exhibit at Senior City at the State Fair.

Glaucoma is a condition caused by increased pressure within the eyeball, Dr. Hilleboe said. The majority of its victims are persons over 40 years of age.

"It is important that older persons include a screening test for glaucoma as part of a periodic physical examination," the State Health Commissioner said. "This chronic disease, if not caught early enough, can lead to blindness."

Dr. Hilleboe said that glaucoma can be controlled if it is discovered at an early stage. The method of control varies but is generally accomplished through the use of drugs. In some cases, surgery is necessary.

Of those tested, 173 were women, and 106 were men. Sixty-three of those tested were over 50; 84, between 50-59; 88, between 60-69; 36, between 70-79, and six, 80 or older.

The clinic was included in a State Health Department exhibit which stressed the importance of periodic health inventories. The exhibit explained that a medical history, physical examination and selected laboratory tests form the basis for a good health inventory.

Aides' Labor of Love Makes New York State Better Place to Live

ALBANY, Sept. 22 — A team of dedicated career employees of the State Conservation Department watch over more than one million acres of Forest Preserve land in one of the state's fast-growing recreation areas.

The "team" is made up of employees of Conservation District 9, which takes in three counties in Northern New York rich in towering firs, island-studded lakes and wildlife.

To this region thousands of vacationists are coming each year to take advantage of the state's campsites, canoe and hiking trails and swimming and fishing facilities.

Headquarters for Conservation employees in this district of 5,000 square miles is a building built from blown-down timber at Ray Brook, N. Y. The full, rounded log is used for the outside walls, which house on the inside the offices of William L. Petty, district forester.

About Mr. Petty

Mr. Petty is a big man, with the stride of an out-doorer and love for the conservation riches of his district he can't conceal. With the department since 1943, he was born on Upper Saranac Lake and worked for the U.S. Forest Service before going with the state.

A career employee, Mr. Petty started work as a district ranger and won a promotion to district forester in 1947. He is a Cornell graduate and once worked as a supervisor in the old 3-C's, civilian conservation corps.

He is proud of his district's accomplishments in developing

new camping areas and its 320 miles of trails for hikers and its winding canoe trails.

At his suggestion, the district has its own mill where blow-down timber is converted into picnic tables and other recreation needs.

The district also includes a fish hatchery, under Charles Deuel, foreman, which produced 34,000 pounds of trout last year, including Rainbows, Lake Trout, Brook and Brown trout and Splike, a cross between Speckled and Lake trout.

Concern For Fires

Fire prevention and fire control is a major concern of District 9 employees, whose area includes the high peak section of the Adirondack mountains and some of the Adirondack's most inaccessible reaches.

A network of 18 fire observation towers help keep destruction down, under the watchful eye of George J. Youngs, district ranger whose job is fire control.

The fire observers who man the towers work under trying conditions in keeping a lonely vigil for the first wisp of smoke that might mean the beginning of a forest fire.

Those working in District 9 include: Robert Seney, William Nolan, Charles Hutson, Joseph Test, Richard Walsh, Eida DeBar, Oscar Messenger and Lawrence Bailey.

Also, William Banford, Richard Bomyea, Elliott Montfort, Wallace Scanlon, Arthur Greenough, George Davis, Peter Pelky, Joseph Gibbs, James O'Connor and Albert Ducatt.

Modern Fighters

Rangers, using two-way radios, are responsible for the protection of Forest Preserve land from fire and trespass and spoilage.

Some 40 fire trucks and equipment are kept in readiness in district garages. A 250-man fire-fighting force can be fully equipped from emergency stocks available in District 9.

Proudest accomplishment of the District 9 employee, it appears to the observer, is the way the beauties of the region have been opened up without destroying, to any great extent, their forever wild quality.

These state employees watch over the vast undeveloped camping areas on the lakes and mountainsides, where more and more vacationists are going each summer without charge to enjoy untouched nature.

New camping areas have been developed, where tents can be pitched on the shores of a lake with modern conveniences for a \$1-per-night charge.

The Attractions

Then District 9 is noted for several nationally-known tourist attractions:

The Olympic Bobsled Run at Mt. Vahoevenberg, which is the only one on the North American continent; the new Whiteface Mountain Ski Center and the Whiteface Mountain Memorial highway and Whiteface Castle.
