Dear Cerynn,

We are pleased to inform you that you have permission to recruit and interview participants for your dissertation research entitled: "An Exploration of Indigenous Spiritual Microaggressions", at the Society of Indian Psychologist's Annual Convention.

For our part the Society of Indian Psychologists will permit in person recruitment. You may have a table where you can have flyers and a private space should you need to interview someone. If you would like a private space please contact Melissa Tehee, the convention coordinator.

With my warmest regards,

Gayle Skawen:nio Morse, Ph.D.  
President, Society of Indian Psychologists
