Dear Walter:

Thanks for your letter. Enclosed please find Val's review. Let me have it back after you are through.

My life is a little hectic this academic year inasmuch as I have accepted Lindsay Roger's job at Columbia, but have to continue at the New School for this year also. But if you don't want a major effort from me, which would be difficult this year I would be glad to have a change of scenery for some days - probably better during the second term where I could get away Thursday through Monday or else after the end of the academic year.

Cordially,

P.S. Thanks a lot for sending me your pamphlet. I shall not inflict my book on Political Justice on you as you would have to read 450 semi-subversive pages on a remote subject.
