## Summary

The Special Committee on June Revision, Led by Margaret Childers has equalized the membership of our Club. This augers well for carrying out the aims of our organization.

Even though poor attendance is the complaint of many Womens Clubs, ours still serves a wonderful purpose. Serving as President has been an enriching experience.

Since our Constitution is a very flexible one, we must have the courage to try new and original ideas. People usually find time, with advance planning, to attend what they really wish to get to.

It is not too early to think of celebrating our tenth anniversary year, preparations for which will cause us to draw heavily on the records of our Publicity-Historical Committee.
