**To the Editor:**  
I am the individual who wrote the so called slanderous remarks about Forum in the COMMON STATER. Soapbox arrived at their conclusion by maintaining that there are 1301 students in our student body. The Registrar reports that the enrollment for 1952-53 is 1606 students including the grads and special students. Here is where, I believe, our misunderstanding lies, for I agree with the Registrar. Apparently, Soapbox disregarded the votes of transfers, grads, and all those who do not have assembly seats.

The above letter states that equal space was given to both parties. I noticed that Mr. Stephenson's picture (one that was noticeable from more than a two feet distance) went up on October 27 and vanished the next day. Regardless of the fact that a student may have removed this poster, Forum, being "politically unbiased" should have replaced it immediately.

In conclusion, I feel that the statements I made in the COMMON STATER still stand in that they were arrived at through careful consideration and truth. Therefore, I do not feel that I drew an ignorant conclusion and above all I did not deliberately state any falsehood.

I realize the privilege I have by writing this column and expressing opinions and because of this opportunity, I have never entertained for a moment any thoughts of untruths. When I do, I feel I should no longer be placed in such a position.

### Heads To Roll Next Thursday

Are you tired of dormitory meals? Do you yearn for the finer things from the freezer? Are you a frustrated gourmet? Do not despair. Your day is coming.

The big feast is only six days away. Tasty roast turkey, luscious mince pies, candied sweet potatoes—oh, that home cooking! Truly something to be thankful for.

But we at State have more than that to be thankful for. Just think of those reduced rate student trains, Milne, 8:10's on Monday mornings, term papers, portable mailboxes, feasibility, official notes in our mailboxes Wednesday, A-Bomb drills, Fridays, Al on the Juke Box, Two Commons, and of course those trips to Hudson.

Best of all, once we're back from Thanksgiving recess, only 19 days until our next parole!

### FIRST SUCH REPORT EVER PUBLISHED ABOUT ANY CIGARETTE

**A responsible consulting organization** has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.

**A group of people** from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields—10 to 40 a day. 45% of the group have smoked Chesterfields continually from one to thirty years for an average of 10 years each.

**At the beginning** and at the end of the six-months period each smoker was given a thorough

examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

**The medical specialist**, after a thorough examination of every member of the group, stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."

# High Finance!

The discussion on the proposed Student Facilities Board budget in Assembly last week brings to our attention one of the major weaknesses of the present governmental organization—lack of centralization of power. While this weakness is evident elsewhere, we deal with it here only in relation to the control of finances. Two weeks ago in this column we cautioned SA to consider, in thinking about the revision of the government, whether our difficulties lay in the system itself or in student handling of the system. In this case, we are very definitely on the opinion that the fault lies in the system, and strongly recommend that necessary steps be taken to alleviate resultant confusion.

As a result of questions which were left to individual members of SA to raise, specifically those concerning the re-appropriation of money for blackboards and the appropriation of money for replacement facilities, the News attempted to conduct an investigation to determine the answers to a few of SA's questions. We wanted to know how much Student Facilities Board spent under its last budget, presented in late spring of 1951-52, and for what. We discovered: Student Board of Finance has only a list of SFB's expenditures—they don't control the Facilities Board; the Business Office has only a record of checks drawn by SFB—they have no control over it. Upon checking vouchers in the Business Office, we discovered: SFB spent a total of \$5,323.02, this sum including such items as ashtrays, chess boards, chess sets, and cards all of which are up for replacement under the present budget which comes from an organization whose constitution states that it shall use money for initial costs only. In an attempt to determine if all of the appropriated money had been spent (blackboards in mind), we then consulted SA minutes for the total of the former budget. We discovered that the total budget was \$4,585.00, and that it was presented as a lump sum, without lines! Unfortunately, the records of Student Facilities Board were unavailable. If our information is incomplete, we ask to be corrected in order that SA, as well as we, may have the necessary answers. Our point is that Student Facilities Board is responsible to Student Association and ought to be more closely controlled by it. True, SA controls a fund, but that fund was established by taxing former students of the college for many years. SA has just as much right to question where this money goes as it does how money raised by current taxation is spent by organizations. True we need some of the items which conflict with constitutional clauses, but we are of the opinion that a constitution set up for a purpose and cannot be disregarded for convenience. If SFB wanted to secure these replacement items for SA, it should have altered its constitution. Since it didn't, it ought to have returned these items to SUB because it could not legally handle them. It seems ironic to us that the proposed budget went through two boards and Student Council before SA finally discovered constitutional difficulties in it.

If Student Facilities Board can bring to Assembly a budget which is their budget in name and not be prepared to defend it; if SUB which drew up the budget can be present only in part, and then have those members present capable of defending only portions of the budget; if any organization can propose a budget containing lines which conflict with its own constitution and not have them questioned until this stage, we have the makings of a financial mess on our hands! Why is SFB so different that it does not need usual budgetary review or the approval of SDF? Is the only that it was set up for a purpose and that this is a fallacy of our constitution, that all of our finances ought to be under one financial agency which would be empowered to review budgets, all budgets, investigate them, raise questions before they are presented to SA, and then be prepared to defend them. If we want sub-bodies of funds, all right, but we need one centralized agency at the top to be responsible for protecting the interests of SA in all financial matters.

# The Hypocrite Revealed

By ANITA E. LILENFELD

New York's my town. Don't tell me about it, you who take the excursion train down on Sundays, spend a few hours absorbing culture and depart for comfortable homes elsewhere. You can't even begin to know New York until you've crossed the Brooklyn Bridge into Manhattan at dawn, and seen the mist slowly rising from the East River. Until you've wandered around Canal Street, stepped over bums lying on the filthy pavement sleeping off their drunk, until you've been close enough to smell Mott Street, where a cutthroat beggar will sell you a pair of second-hand shoes, while not more than three blocks away, the heart of the jewelry district beckons the gem-lover like Mecca beckons Mohammedans, you haven't seen New York.

New York is the center of contradiction. Have you ever passed thru the financial core of the country, down Wall Street, where the biggest bankers and insurance brokers have their offices and felt the pulse of business in the air? Or have you wandered at random thru Little Italy, where the streets are brightly lit at night and dirty naked children run wild during the day? Do you know what it feels like to see Chinatown, with its narrow, smelly streets and turn around and look at Tiffany's on Fifth Avenue where the streets are wide and the buildings so white you think of an alabaster city and the people look like Esquimaux?

Have you ever seen the city wake up? The big delivery trucks crowd the market district; men are loading and unloading sides of beef, crates of fruits, huge pans of baked goods, that's when to get your bread hot and when your newspaper still smells of fresh ink. It's so early that parked cars on the street reveal lovers still locked in a clinch, while the moisture condenses on the wind-

To the Editor:  
I'd like to throw a wordy bouquet to an organization on campus that functioned last Tuesday for the benefit of SA in general, and that's to the D and A Affiliates, and that's to Through their organized efforts to sell tickets to "Don Juan in Hell," to charter buses, and to keep interested students posted on time schedules, the Affiliates made it really easy for many of us to hear the First Drama Quartette perform in Troy.

I appreciated their interest and consideration as, I think, many others did.

## MILLIONS FOR DEFENSE BUT NOT ONE CENT FOR TRIBUTE

Today is the day—the hour is 12:30—the place is Page Hall—come and spend your money. We have everything you could possibly want—blackboards (movable at that), plastic cards, ping pong tables, checkboards (and checkers too, maybe), chess sets, radio phonographs and so many more items that we couldn't possibly attempt to mention them. Not too much information is available about these tremendous buys, but let's get in there and spend anyway; we've got the money and it's burning a hole in our proverbial pocket. \$17,000 is a horn of plenty—it can never run dry, but if it does we can always go out and pick up another wad.

## UNACCEPTABLE

The whirl of the machines is slowly fading away as the seven groups of Greeks begin to relax. The decision now rests with you frosh. But . . . with 155 gals out of 259 getting bids, we wonder why ISC didn't think about raising the quotas this year. Maybe something can be done this year so that there won't be as many unhappy faces in the ranks of the class of '57 as there were around the halls last Monday. On the subject of sororities—a word to you frosh females: just because you join different organizations, shouldn't mean the end of some of your other friendships.

## SCOOP

The Page Opera House tonight presents the Stokes-Peterson Concert sponsored by Music Council. Here's your chance to be a first nighter without paying. (It's free) And—don't forget to check the dates that the Don Cossack Choir is coming, plus the "Mikado" by Gilbert and Sullivan.

## HALF-BAKED

Gripes, gripes, gripes—remember you were the one that had them. What happened at the Myskania Forum on Tuesday night: 18 people were present, 11 of whom were Myskania members. Now that it's certain that Myskania is interested a member presented one of the 2 plans what happened to the other 1538 people who are supposed to be interested in Student Government. If you aren't going to do anything to back up your gripes—then keep your mouth shut!

## WHY??

Why don't more people attend Student Council meetings and see the people they elected in action? Why do some of you act like stubborn mules when someone politely asks if he or she could get through the cafeteria congestion? Why is the only hot water in the school in the drinking fountains? Does anyone know who told the Co-op how to spell College? After seeing your Ped picture, don't you think the camera could be lying just this once?

Why do you have to go through so much red tape to arrange to use an activity room at Brubacher? Where are the Ped Supplements? When will the vitrola find its way back to the Commons? Why did only 6 Sophomores show up at the banner hunt, was it too wet or were they afraid of getting trampled by the frosh? How long will it take the Seniors to return their Teacher Placement folders? Will Wednesday ever come????

## BUSY BEES AND D'S

Rumor has it that 103 frosh got 300 warnings and that the "Warning Blues" will soon be hitting the top of the Hit Parade. This may be an answer to last week's article concerning our supposed disinterest in school affairs. The current question seems to be: is there too much emphasis on extra-curricular activities?

## ANSWER OF THE WEEK

It was through the kindness of the administration that we will all be well on our way home on Wednesday afternoon instead of Thursday mornin'.

# Athletic Association To Present Report

Last year a motion was made to set up a policy making body for intercollegiate sports. This committee would also serve as an advisory body to President Collins. This motion was carried through and the present Athletic Association was organized.

So far this year the A.A. has been holding weekly meetings and its business has centered around the football issue of last year. Although this motion was defeated last year, the A.A. has continued its investigations and presently are preparing their semi-annual report which they will present to the student body sometime in December.

# APA-EEP Tilt To Name Champs

The APA-Potter game didn't end in a scoreless tie Monday, but due to a pre-arranged agreement, the game is to be replayed. The teams agreed that if the full game couldn't be played, the game must be played over. When the officials called the contest because of darkness, Potter was on the long end of a 6 to 0 score.

Schaert Sparks EEP EOP teams played very hard ball. In the first half, Potter rocked APA cack on its heels by blocking two punts. George Schaert did the honors by blocking both of them. APA's defense was put to a severe test after the second blocked punt. The kick went into the APA endzone. After a heated debate among the officials and teams, the ball was placed in Potter's possession on the APA one yard line. The APA defense held for four downs.

In the second half, Potter couldn't be denied. After a long downhill drive, Ray Gibb tossed a pass to Paul Victor who took the ball into pay dirt. The APA defense stiffened to stop the point.

Game To Be Replayed Sunday With about 17 minutes left to go, the officials decided to call the game because of darkness. Because of the mutual agreement made by both teams, the game will take place at 2:30 Sunday afternoon on Beavercreek Park, because the Dorm Field Sunday "Blue Law" prohibits athletic events to take place on Dorm Field.

Both teams played fine head-up ball Monday. George Schaert and Kenny Stevenson sparked Potter's defensive play. Pat Carlo, who is doing a fine fill-in job for John Morrissey, and Ray Gibb were the stand-outs for the club's offense.

Al Brown and Jim Bennett turned in fine defensive performances for APA. Bill Wiley, Bob Hausner, and Dave Burroughs sparked what little offense APA could muster for the occasion.

# Hathawaymen 'S' Club Installs December Fifth Holds Conclave

Coach Merlin Hathaway's State Basketball team will open the '52-'53 season on December 2 at Page Hall Gym. The Peds are to tackle the State Alumni, a team which features five former captains of State Varsityes, including Bob Brown '52, and Paul Carter '51. Other ex-captains are O'Brien, Marzello, and George. This game will be the first real test for this year's team.

Varsity Scrimmages R.P.I. Last Thursday night Hathaway's charges scrimmaged the R.P.I. Varsity. The State team showed plenty of individual ability, but the players didn't work together very well; the team coordination was way off. On the other hand, the team played good defensive ball and showed rebounding strength. It also appeared that Hathaway will have the advantage of a strong bench to work with.

Captain Bob Tabor, Nels LeRoe, Bob Gillespie, Don Krug, and John Allasio are the squad's biggest men and should furnish most of the team's rebounding power. John Central, Bud Prout, Hy Walker, and Gerry McDonald played together last season and will probably be setting up plays. John Zanzgrove and Pete Teller are versatile players and are ball hawks on defense.

The small J.V. squad will be cut during Thanksgiving vacation; due to the small freshman turnout, only about four men will be cut. Contrary to an error in the schedule printed in the News, the game December 5 against Maritime is away rather than home. However, there is a home game December 6 against Oswego.
