

## The Proof Is Piling Up!

- Time cards subpoenaed by the court prove that the March 15 "secession" meetings were rigged and stacked, with attendance and votes bought and paid for.
- Jandreau confessed on April 22 before Federal Referee Julian Erway that he had received \$40,000 from GE on March 4, even before he wrote Carey that he was switching to IUE-CIO.
- The former UE Local 301 Business Agent also confessed that he and his staff of 11 had split up a big part of the \$40,000 for their personal use. They paid themselves the equivalent of "14 weeks salary."
- Jules Gilbert, IUE-CIO attorney, admitted in Federal Court House in Albany on May 3 that Jandreau had given the IUE-CIO \$54,900 of UE members' money.
- Donald Jenkins, testifying on behalf of the Industrial Bank of Schenectady, stated under oath that between March 2 and March 12, Jandreau and his office manager, Marshall White, had withdrawn 15 checks totalling \$118,535.76.
- The members never authorized Jandreau to misappropriate their money for his own or anyone else's personal use. They never voted to hand Carey's IUE-CIO \$54,900 of their money.
- THE MESS CAME TO LIGHT AFTER BEING HIDDEN FOR TWO MONTHS ONLY AFTER UE HAD ISSUED SUBPOENAS, FILED COURT ACTIONS, MADE INVESTIGATIONS.
- Yes, the contract and the conditions of the GE Schenectady workers were put up for sale. GE workers' answer will be—NO SALE!

SCHENECTADY, N. Y.

May 13, 1954

## NLRB Orders Special Hearing Thousands More Rally To UE

The National Labor Relations Board in a surprise action of far-reaching implications Tuesday ordered a special hearing on the IUE-CIO's election petition.

The Board's almost unprecedented action followed shocking revelations of conspiracy and conniving by the Carey-Jandreau clique.

## 1,800 In Turbine Form Unity Group To Guard UE Contract

Acting on the demand of fellow Turbine workers, representatives from each bay and on all shifts met on Monday to set up a permanent Rank and File Unity Committee as proposed by UE.

This development followed meetings of between 1,800 and 2,000 Turbine workers in the shipping yard last Friday. They were called together by UE Local 301 as a result of the events of last week.

Last Wednesday, the IUE-CIO group suddenly ordered all Turbine workers to stop work. Nobody knew what the issues were. There was no explanation... no preparation... no consultation. There was confusion.

Some groups walked—others worked; departments and shifts were pitted against each other. Bitterness mounted as it became known that Jandreau after pulling the stoppage went to Washington to get the help of the Taft-Hartley Board to break the UE contract, using the Turbine stoppage for pressure.

"No politics on grievances," UE demanded in leaflets. The UE way, as shown by the successful stackers' fight, is to—

- Unite the group!
- Give everyone the facts!
- Chart a clear course of action!
- Give fighting leadership and effective organization!

These principles applied to the stackers' stoppage resulted in a victory over a rate cut.

The Turbine Rank and File Unity Committee will meet in three lunch-hour sessions today at the Traffic Tower (Rice and West Rds.). The sessions, slated for 12 noon, 7:00 P.M. and 3:00 A.M., will discuss the next moves in forging Bldg. 273 unity.

On Tuesday, five stewards representing the Turbine Rank and File Unity Committee went to a "lost time" meeting of IUE-CIO "stewards." They went to present proposals for united action approved by 1800 Turbine workers at last Friday's meetings called by UE Local 301.

(Continued on Page 5)

## CORRECTED MISSING \$\$ FIGURES

Due to a printer's error, there was trifling inaccuracy in UE Local's 301's Tuesday leaflet exposing the huge sums that Leo Jandreau and Marshal White drew out of the members' bank account in the period from March 2 through March 12, 1954.

Following are the checks drawn, their dates and the total:

March 2	\$10,000.00	March 9	\$2,000.00
March 2	5,000.00	March 10	2,500.00
March 2	1,851.97	March 10	1,000.00
March 4	2,700.00	March 10	35,000.00
March 5	2,294.25	March 12	7,656.00
March 5	21,440.72	March 12	330.00
March 5	5,644.50	March 12	19,900.00
March 8	1,218.38		
		<b>TOTAL ...</b>	<b>\$118,535.82</b>

Realization that the so-called "secession" is a conspiracy, not a legitimate union development has been growing among GE workers. It is one of the reasons the title has definitely turned to UE in recent days.

UE intends at the special hearing which is scheduled for Tuesday, May 18 in Washington, D. C. to expose the conspiracy and protect the UE contract, UE Counsel David Scribner said today.

"Our contract is a bar to an election and a protection for every GE worker," Scribner declared. "Under all current rules, the Board must hold our contract is valid. It can not change the rules for Mr. Carey and Mr. Jandreau."

In the earlier Board hearings, UE had been prevented from showing the full extent of the conspiracy and misappropriation which was later brought out at the contempt hearings.

"We're entitled to prove the true nature of these financial dealings and of the conspiracy," Scribner added.

"We've shaken a hearing out of them," said UE Local 301 President Ernest W. Kopper upon learning of the sudden development. Noting that the IUE-CIO had advertised May 14 as the date for the election, Kopper pointed out that "the stampede time table of the Carey-Jandreau clique has been knocked out."

This latest development will undoubtedly accelerate the swing to UE which picked up tremendously because of the leadership given in Turbine.

## UE OUT FRONT AT RACETRACK

The tremendous surge of GE Schenectady workers to UE reported in building after building is very much in evidence at Racetrack.

Led by UE Steward Austin Grann, the night shifters met on Tuesday and after a full discussion voted unanimously to stick with UE, the UE contract and UE rank and file democracy.

Deep resentment over the IUE-CIO's "push button stoppages" and clique tactics also boiled over on the day shift where an IUE-CIO attempt to replace a UE steward with an IUE-CIO "steward" fell flat on its face.

Racetrack workers also spoke out for UE in a leaflet last week. Some of the comments:

"I like the UE because the men in the union are not afraid to speak up for their rights. Also, the UE has more on the ball."

— George Criscione

"I've never worked under any union contract that provides wages and conditions as good as those under UE. I'm not about to throw that away."

— Louis DeLuca

"I'm for UE because UE sticks to the issues and works for the members. I dislike the dirty campaign of the IUE-CIO."

— Fred Pandori

"I want UE. With UE I know what I've got — and I like it."

— Robert Roberts

"I am strictly opposed to any officer or member withdrawing the membership's funds without membership approval."

"I condemn the tactics of our former business agent. Therefore, I'm staying with UE."

— Carl Kauf

"UE has a record of gains for the people. The IUE-CIO smear campaign and efforts to intimidate us just don't go. I'm strong for UE."

— Hank DeGenova

"Whenever 'Officers' or 'Board Members' try to threaten a duly elected

(Continued on Page 6)

## SPEAKING OUT FOR UE

**JOHNNY ZECCA**, Bldg. 68 Says: "Sure, I'm for UE. It's the union which is always working for you, just as it is now in the fight to keep the company from moving out our jobs. It's also the union which can unite Schenectady GE workers to win what we need. All the IUE-CIO can do is to split us up and kill our wages and contract protections."

**ODELL PITTMAN**, Bldg. 68 Says: "I'm for UE because it's the union that I know I could always depend on. This business of trying to jam the IUE-CIO down our throats—after all we've always heard about the IUE—just doesn't go. The people in the shops know that it's UE which has the best contract, the best record and the most democracy."

## Porcelain Workers Unite In Job Fight

The workers in Bldg. 68 are getting together to do something about the work situation and the downgrading which between them are hurting where it hurts most.

Many are working only four days a week while others are bumping around the lower paying jobs.

This has been going on for months without any sign from the Jandreau clique that they were even mildly interested.

Last Friday a group of Bldg. 68 workers came to UE Local 301 Hall, 201 1/2 Broadway, where they formed a committee to unite the workers to save jobs and earnings. They reported that there was no lack of Porcelain work since the company is expanding the job—outside of Schenectady.

UE Local 301 promptly filed a grievance under Articles I, XI and XVII of the UE contract. These articles limit layoffs to lack of work, prohibits the moving of jobs while they are involved in a grievance, and requires the company to bargain on all matters relating to employment.

The grievance is being circulated for signatures. A leaflet accompanying the grievance points out that the situation in Bldg. 68 is facing workers in other divisions and that the UE's fight for jobs deserves the support of all regardless of union preference.

## UE Petition Fights Farming Out In 107

UE Local 301's fight to keep jobs from being farmed out from under Bldg. 107 workers gained momentum this week with the circulation of the grievance for signatures.

UE filed the grievance last week. Then, followed up by circulating a copy of the grievance for signatures to show management that the Grounds and Building workers are united on the issue.

## UE-GE LOCALS BACK OUR FIGHT

In a statement declaring that they are "proud of the record of our Union, the UE, in securing outstanding benefits for our members since the first UE National Contract with GE was signed in 1938," leaders of UE-GE workers throughout the U. S. and Canada have voiced support for the fight of Schenectady GE workers against the IUE-CIO raid: Signing the statement were officers of the following UE-GE locals:

UE Local 301—Schenectady  
UE Local 115—York, Pa.  
UE Local 120—Baltimore, Md.  
UE Local 125—Scranton, Pa.  
UE Local 128—Allentown, Pa.  
UE Local 204—Taunton, Mass.

UE Local 1421—Los Angeles, Calif.

ELECTRICAL UNION NEWS

# HERE'S WHAT IUE-CIO MEANS TO GE WORKERS

## LYNN

### LOWER WAGES

The IUE-CIO means lower wages for workers in all categories. There is no better way to prove this than by comparing the rates at the biggest GE plant in the IUE-CIO—Lynn—with those here in Schenectady. Below is a list of skilled work rates in the two plants.

	UE SCHENECTADY	IUE-CIO LYNN*
Blacksmith	\$2.48	\$2.08 1/2
Carpenter	2.24	2.00 1/2
Electrical Specialist	2.42 (aircraft)	2.16 (elect.)
Electrician	2.29 1/2	2.08 1/2
Machinist (All Round)	2.24	2.16
Machine Repair	2.24	2.08 1/2
Mason	2.24	2.08 1/2
Millwright	2.24	1.92 1/2
Repairman (Crane and Elevator)	2.24	2.08 1/2
Rigger	2.24	1.86
Structural Iron Worker	2.24	2.08 1/2
Tinsmith	2.24	2.08 1/2
Toolmaker	2.48	2.36

\* Lynn Rates are those submitted to the NLRB as the prevailing job rates under the IUE-CIO.

## IUE-CIO Strikes Can Be Called "Push Button" Style Ask GE Workers in Lynn and Pittsfield Plants

Under the UE Constitution only the membership, by secret ballot, can call a strike. Not so in IUE-CIO where the National Constitution is rigged so that the Carey clique-controlled conference Boards can decide on strikes and contract settlements.

This is not just a "paper" difference. In real life, IUE-CIO members in GE have on many occasions found themselves on strike without having any opportunity to decide democratically what they wanted

ELECTRICAL UNION NEWS

Here are some glimpses of what life is like in the IUE-CIO. Here is what Leo Jandreau meant when he wrote on Aug. 31, 1951, "this is the reason why IUE-CIO can't protect the workers in the day to day operations in the shop, why it sells out the workers in negotiations, and why it has to depend on empty brags and red-baiting to cover up its miserable record."

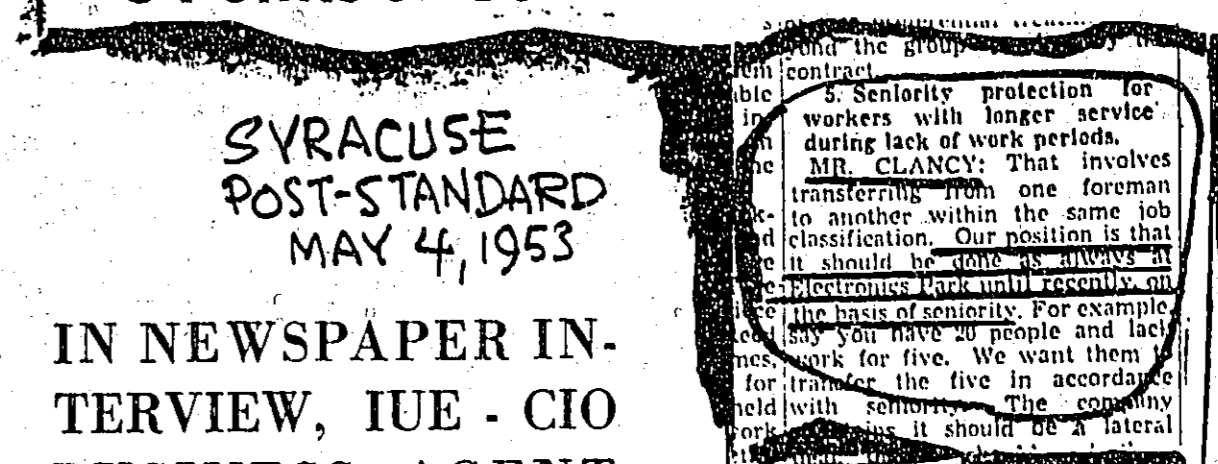

## SYRACUSE

### LOST SENIORITY

Here Are the Issues in GE Strike:

Company, Union Spokesmen Discuss 8 Points of Contention to Be Settled

SYRACUSE  
POST-STANDARD  
MAY 4, 1953

IN NEWSPAPER INTERVIEW, IUE - CIO BUSINESS AGENT

MARK CLANCY ADMITTED THAT ONE OF THE REASONS SYRACUSE GE WORKERS HAD TO STRIKE LAST YEAR WAS THE LOSS OF THE SENIORITY PROTECTIONS THEY HAD UNDER UE.

to do. Here are just two examples:

1. In Lynn GE in 1950, workers were called to a public meeting on Lynn Commons to discuss a grievance. They voted by a hand vote to support the grievance, then started back for the plant. When they reached the gates, they were astounded to find that the Carey machine had thrown up picket lines. They were TOLD that they were on strike.

2. In Pittsfield in 1952, crane operators and followers were called out by John

Callahan, head of the IUE-CIO GE Conference Board, without any strike vote. After pulling the switch, Callahan deserted the crane operators and followers who had to go back to work without any settlement, or even any negotiation of their grievance.

The man responsible for this deal is sitting in an office right here in Schenectady (1 Yates Street) running the IUE-CIO raid on our UE contract, wages, conditions and union democracy.

Thursday, May 13, 1954 • 3

# This Is An IUE-CIO Contract!

What kind of contract does the IUE-CIO get for its members—what kind of wages—what kind of rate protections—what kind of seniority—what kind of conditions—when it's on its own, with no UE Contract to ride on? Here's the answer to that—the IUE-CIO Contract at the Big Easy Washer Co. plant in Syracuse, just 125 miles from here.

UNION AGREEMENT	
Easy Washing Machine Corporation and Local 321 I.U.E. C.I.O.	
ARTICLE 13 Rates of Pay	
All Maintenance Classifications.....	1.03 — 1.96
All "B" Maintenance Classifications.....	1.40 — 1.80
All Maintenance Helpers.....	1.20 — 1.67
Power Truck Operators.....	1.30 — 1.57
Punch Press Setup.....	1.50 — 1.80
Machine Setup.....	1.40 — 1.50
Tool & Die "A".....	1.80 — 2.17
	Minimum Average
Washer Assembly.....	1.30 1.83
Painting.....	1.20 1.66
Sub-Assembly.....	1.10 1.64
Punch Press.....	1.30 1.63
Welders.....	1.20 1.94
Grinders.....	1.30 1.90
c. Piece work rates which have been definitely established shall not be decreased without giving one week's advance notification to the employees.	
5. All rate increases within rate ranges for all job classifications shall be based upon merit and not upon length of service.	
6. All rates of factory production and maintenance	
ARTICLE 6 Seniority	
1. The Company recognizes that all employees, as defined in this agreement, shall retain the right to seniority preference in employment. Such preference shall be determined on the basis of service of the employee with the Company and shall be subject to the Company's judgment as to the employee's ability and physical fitness.	
2. The application of the seniority rule shall be by non-interchangeable occupational groups whenever possible.	
ARTICLE 3 Management	
Direction of Working Forces	
6. Any employee or group of employees who fail to cooperate with the Company in the introduction or operation of new equipment or production methods with the intent or effect of holding down the quality or quantity of production shall be subject to discharge.	
c. Vacation Eligibility Rules	
(1) Employee must not be absent more than 3 days without the approval of the Company in writing.	

The above are exact photographs of sections of the IUE-CIO Contract with the Easy Washer Corp. in Syracuse.

These are only a few of the sell-out clauses in the 5-year contract between IUE-CIO Local 321 and the Easy Washing Machine Corp.—a contract currently in effect. Others leave room for CIO-style wage cuts; for lower hiring and job rates for women; for complete management control over hiring, firing, promotions, demotions, etc. Left on its own, the IUE-CIO can do nothing better than get a straight company union "contract" for workers in big plants like Easy.

## A. LOW WAGES!

Wage Rates 35c and 40c an Hour Below UE Rates—

## B. NO RATE PROTECTIONS!

The Company Can Cut Any Rate Just By Giving One Week's Notice!

## C. JOB RATES ON "MERIT"

Only Company Favorites Get More Than the Minimum Of the Wage Scale on "Merit."

## D. NO REAL SENIORITY!

Seniority When it is Applied at all, is Strictly Job Seniority—Never Plantwide Seniority!

## E. OK SPEEDUP OR BE FIRED!

Company Given Right to Fire Any Worker Who Opposes Speedup or Price Cutting!

## F. VACATIONS TAKEN AWAY!

Workers Lose Their Vacations if They Lose Nine Days Throughout The Year.

# MEMBERSHIP MEETING HEARS OF SWING TO UE 301 IN PLANT

A membership meeting that packed Scottish Hall on Clinton Street Monday night heard reports on humming UE Local 301 activity in the fight for jobs, the negotiation of grievances, national wage and contract negotiations and swelling support for UE.

As pointed out by UE International Representative Michael Jimenez, the upsurge of fighting activity in the shop and community mark a striking contrast to the situation just eight short weeks ago, when the Jandreau clique, after swallowing the local treasury, pulled its blitz raid against the local union.

A highlight of the meeting was a report by Elsa Ferguson, a member of a UE Local 301 delegation that went to Essington, Pa., to learn just how UE Local 107 carried on its successful fight to save 2,600 jobs that the company threatened to move out.

"They fought just like we are fighting here," she said. "They had to contend with treacherous leaders too—people that sold out to the IUE-CIO and wouldn't fight to save jobs. But the people got together in the Westinghouse shop, beat the IUE-CIO by five to one, and 2,600 people that would be out in the street are now working. That's the way it's going to be here. The UE strength is growing by leaps and bounds."

A report on national negotiations with GE was given by Chief Shop Steward Andrew Hmura, a delegate of UE Local 301 on the national negotiating committee.

## COMPENSATION SERVICE

UE Local 301 is handling the compensation cases of all GE workers who are injured in the plant or who become ill as a result of their jobs. Attorney Milton Turkel has been retained by the local to provide full compensation service.

Any worker with a compensation problem should contact the union at 201½ Broadway or by telephone, either by using the direct line from the plant (just ask for UE Local 301) or by calling 3-1337.

## TURBINE

(Continued from Page 1)

Jandreau failed to submit the proposals which were unanimously adopted by all three shifts at the meeting in the Bldg. 273 shipping yard. Nobody in "lost time park" at 301 Liberty St. rose to insist that the demand of the Turbine workers be brought on the floor.

The five who came with the proposals for united action on grievances were Alex Kotarski, who spoke on the rank and file proposal, Kenneth Brantley, George Crandall, Bert Hansoman, Howard Lawrence.

The rank-and-file proposals were:

1.—That the overwhelming majority of Turbine workers have voiced their approval for united action of everybody in the Turbine Division based on the proposition that an injury to one is an injury to all.

2.—That nobody should use the legitimate grievances of Turbine workers for any political purposes.

3.—That a Turbine Unity Committee be set up composed of a broad representation from each group to cover the entire Turbine Division.

4.—For the purpose of establishing the machinery of this Committee, that both sides should designate an equal number of representatives to work out the details and the program of this Turbine Unity Committee.

## UE AND GE CONTINUE WAGE AND JOB TALKS

UE is demanding a substantial wage increase because GE workers need it and are entitled to it, UE's National Negotiating Committee told the company in national negotiating sessions there last week.

GE's profits, up a record-breaking 42 per cent after taxes for the first three months of 1954, would make it very easy for the company to pay.

UE is demanding a 35-hour week at 40 hours pay to save the jobs of GE workers, who are being laid off by thousands in GE plants throughout the country. GE spokesmen at national negotiations admitted last week that despite the number of new plants the company is opening in sweatshop wage areas, the total of GE employment has fallen more than 6 per cent since August.

The UE demand for the elimination of geographical differentials, which enables the company to ship out jobs, is also directed to unemployment.

The UE demand to end wage discrimination against women workers, calling for the lifting of all rates at least to the rate of common labor, was strongly resisted by the company, which as usual denied that rate discrimination exists. Figures obtained by the Union from the company revealed, however, that the earnings of GE women incentive workers average 73 cents an hour less than men, and the earnings of women day workers average 53¢ less.

HAROLD HOWARD, Bldg. 273 Says: "I'm for UE because it's a union which the members run and which always fights for the members. I want no part of the IUE-CIO "push button" setup. I saw all I want to see of that stuff in the Turbine stoppages in the last few days."

## Fight GE McCarthyism!

## UE SUIT COMES UP TUESDAY

UE's lawsuit against General Electric Co. for suspending and firing employees who exercise their lawful and constitutional right to tell McCarthyite committees that their private beliefs and associations are none of their business comes up before the District Court, Washington, D. C. this coming Tuesday.

The suit filed by UE and John Nelson, President of UE Local 506, Erie, Pa. is on behalf of all GE employees fired under the General Electric Co.'s McCarthyite policy.

These employees include GE workers in Lynn, Schenectady, Erie, Syracuse, members of UE, IUE-CIO, AFL. Seven have been suspended here.

The UE-Nelson suit seeks an injunction against the company and damages in the amount of \$50,000. It charges the company with conspiracy to injure and intimidate citizens in the exercise of rights guaranteed by the Constitution, the laws of the United States and the contracts of the respective unions.

## NEED TAX RELIEF?

Write Senators Lehman and Ives to vote "Yes" on George Bill—S. 2983—to increase personal income tax exemptions by \$200. This would for a family of four be equivalent of an 8¢ an hour raise.

## DELEGATION SEES CITY LEADER IN JOB FIGHT

City Manager Arthur Blessing on Tuesday, his first day in office, found himself receiving a wholly unscheduled delegation of 20 Bldg. 269 workers who want the help of city authorities to keep GE jobs in Schenectady.

Specifically, they want to stop the Thyatron job from moving out from under 400 workers in Bldg. 269.

Mr. Blessing promised to speak to the Mayor, the City Council and to Plant Manager A. C. Stevens. He said he would arrange a meeting next Thursday at which he, the Mayor and at least one City Council member would be present. He said he would call a special meeting of the City Council on the job situation.

Robert George and Fred Austin are co-chairmen of the Bldg. 269 Unity Committee which sponsored the action.

A "Unity Committee To Save Our Jobs" has been formed in Bldg. 269 with the all-out support of UE Local 301.

In its first statement to Bldg. 269 workers, the committee declared that some of its members at present favor UE; others, the IUE-CIO while some are undecided.

"All of us agree, however, that our differences must not be permitted to stop a real united fight against the company's plans to move our jobs -- which automatically cause layoffs, bumping, downgrading, rate slashing and speedup."

Job moving in Bldg. 269 threatens 400 workers.

Although the Carey clique has been trying to weave a shroud of defeatism about the job fight, Tube workers have been rallying behind the UE demand that "not a job, not a single machine be moved at the expense of a single worker."

A meeting last Tuesday under the auspices of the Unity Committee brought out several hundred Tube workers although the collapsing Carey clique tried to disrupt the leaflet distribution for the meeting and tried to discourage the workers from making a united fight for their jobs and earnings.

Among those attending Bldg. 269 Unity Committee meetings are Morton V. Pointon, Ed Knack, Fred Austin, Bill Stevens, Robert George, John

Bjorklum, Natalie Patnode, George Koliwasky, Stanley Stage, Clement Barczyk, N. Bruce, George Hunt, Lydia Brown, Lucien Stano.

### Big Delegation To Go To Women's Conference

Thirty-five Schenectady GE workers will take part in the Second UE National Women's Conference in New York City this weekend. The UE Local 301 delegates will represent workers all over the plant.

Purpose of the conference will be to launch the second round of UE's fight for the end of discrimination in pay and seniority against women workers. Schenectady workers will report on the situation here where many women workers with 10 and 11 years' service have been laid off.

Expenses for the big delegation will come from a special giveaway drawing at the Subway gate tomorrow at noon. Prizes will include a hand-trolled lady's handbag, a Shakespeare fishing reel and 10 two-quart thermos bottles.

Tickets (25¢ each 3 for 50¢) have been on sale throughout the plant for the last two weeks.

## CIO ABOUT TO LOSE ITS LARGEST UNION?

Shown above are left to right President David McDonald, CIO Steel; President John L. Lewis, United Mine Workers (Ind.); President Dave Beck, AFL Teamsters. Following a meeting of the three that again

stirred speculation that steel was quitting the CIO, Lewis declared over NBC television last Sunday: "Neither the present leadership of the AFL nor of the CIO are protecting the interests of their vast memberships."

**SOLIDARITY** — UE Local 301 delegates are welcomed during their recent Essington visit. Left to right Geo. Crandall; UE Organizer Tom Flanagan; Elsa Ferguson; UE 107 Bus. Agent Ed Savitsky; 107 Pres. Carl Gray; and Bill Whitney.

### Race Track Out Front

(Continued from Page 2)

shop steward and try to deny the membership their right to pick their own representatives, they are not union men."

— Austin H. Grann

Others who defied the Carey clique and declared themselves for UE on the Racetrack leaflet include: Ed Epting, Frank Lojewski, Bill Knothe, Lou Passikoff, Frank Rennie, Gil Youngs, Ernie Raco, Joe Glamm, George Keyrouze, Arthur R. Veino, Robert Grosse, Earl Miller, Robert Paley Salvatore Rizzo, Harold Smith, Nils Pedersen, L. Galarneau, R. Greenwood, C. Gifford, R. Kerley.

### NLRB KILLS OFF IUE PETITION

The National Labor Relations Board has thrown out the phony IUE-CIO petition for a chair-wide election in General Electric plants, the NLRB Regional Director informed UE in a letter dated Apr. 27.

The IUE-CIO had pulled the "winner take all" stunt in last year's Lynn election. Carey's IUEers, it was found, did not have the necessary legal showing and valid cards.

The IUE-CIO may try the stunt here despite the Board's ruling.

## FAMOUS PHOTO FAKES

### The Carey-Jandreau Fake

Turbine Stewards as they met Tuesday to reaffirm decision to unite the GE chain in IUE-CIO.

ABOVE is the faked photograph as it appeared in last week's IUE-CIO paper. GE workers were quick to note the tell-tale diagonal line that showed where the picture had been doctored. Purpose of the fraud was to cover up the fact that the Carey clique is completely discredited in Turbine.

BELOW is the famous McCarthy fake. In this one, persons were cut out of the picture to create the illusion that Army Secretary Stevens and Dave Schine of McCarthy's committee were alone. The IUE-CIO copied this technique but gave it a reverse twist. They added people to a picture. Either way, it's a typical Carey-McCarthy "Big Lie."

### The McCarthy Fake
