Women Hoopsters Crush Siena

by Christine Bellini

Albany State's Women's Varsity Basketball team scored their first victory of the season 71-37 at Siena Wednesday to even their record at

The Danettes lost to Skidmore, 61-35, in December.
"We were very unhappy not play-

ing on our own court," said Coach Barbara Palm. "We were scheduled to play at home but unfortunately. because of a mistake, we couldn't get

The Women's team was asked to go to Siena because their scheduled court was to be occupied by in-

"We realize that Siena was in close proximity, but is is the principle that counts," continued Palm. "We have a facility problem because of enrollment and priorities, but we think that once in awhile we should be considered a priority."

Despite the abrupt change in plans, the players were informed at 3 p.m. of their changed location for a 7:30 p.m. game, and the team left

Center Mary Ann Crotty led the way with 10 points. Albany was conidered the home team.

"We played a different opponent this time than with Skidmore," said Palm. "Siena has lost some height and speed since last year, but if we continue to play a balanced game, I really think we're going to gel and be a good team."

Basically Freshmen

This year's team, basically a freshman squad, consists of seven freshmen, one sophomore, two juniors, and one senior. With only four returnees on the team, it will take time for the squad to gain experience, according to Palm.

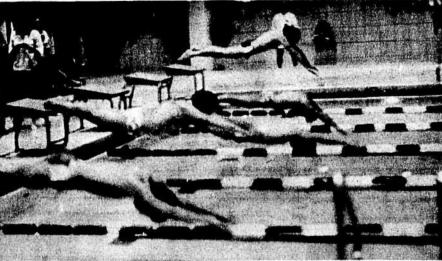

"We must rely on speed and height." Palm said, "We have no weak teams on our schedule; each game we're out to play against good

Albany finds its stiffest competition against Potsdam and Hartwick

Albany's starting line-up con sisted of Mary Ann Crotty-center. Kathy Harig-forward, Mary Ellen Foley-forward, Nancy Bartle-guard, and Tracy Sugihars-guard. High scorers were Crotty with 16 points, Sugihara and Harig with 14 points and Sue Winthrop with 12 points. The speed of Sugihara and precise shooting of Crotty and Winthrop helped bring Albany to its first vice tory of the season.

"Although our endurance wasn't too good, I'm optimistic for the season ahead," said Palm, "I just wonder if the men's varsity team would have been asked to leave their Needless to say, the players were very disappointed and upset

The team's next game will be 7:00 p.m. against Castleton College.

Albany swimmers dove into the fray but came out empty, losing to RPI, 70-43, Wednesday.

Fields Hints At Further Position Cuts As SUNYA Tightens Its Belt

erday to hear President Emmett B. Fields translate Carey's 1976-77 Executive Budget into the austere reality that SUNYA faces in the immediate future. Fields, speaking at a special open session of the University Senate, announced the possibility that he will be forced to cut more

Fields explained that the numbers recommended by the Governor's adget may prove to be misleading.

The budget suggested that SUNYA ax 27 faculty, 28 faculty support, and 33 other positions in r to save an estimated \$1,343,-200 per year in salaries. But, according to Fields, the average salary figures that Governor Carey's people d were higher than what they are in reality. Fields concluded that, there is a clear possibility that we must eliminate more positions than

South African Forces Leave Angola

LUSAKA, Zambia (AP) Westerners arriving from Angola reported Monday that leaders of the National Union—UNITA—told them South African forces have completed their withdrawal from the civil war in the former Portuguese territory and the Soviet-backed Popular Movement - MPLAnas used jet fighters in the conflict for the first time. There has been no official South African government announcement of withdrawal thus far, and opposition leader Sir De Villiers Graaf introduced a no-confidence motion in the Cape Town Parliament today, attacking the government for its silence. He also urged the government to set up a safe zone on the South-West African side of the border to harbor fleeing Angolan refugees.

Kummerfeld Named City Budget Director

NEW YORK(AP) Mayor Abraham D. Beame Monday named ar experienced government and private-sector financial analyst. Donald Kummerfeld to be city budget director, replacing Melvin Lechner, who resigned last Thursday. Kummerfeld, 41, a Manhattan resident and a native of Gilroy, Calif., is vice president of the public finance department of the First Boston Corporation, one of the nation's leading financial advisory firms. He also is a consultant to the newly created Budget Committee of the U.S. House of Representatives. He served in the U.S. Bureau of the Budgetin 1959 as a management analyst

Levitt Warns Unemployment Fund Depletion

ALBANY, N.Y. (AP) The unemployment insurance fund which provides jobless benefits for thousands of New Yorkers is rapidly being depleted by the ession and could go broke in a matter of months, comptroller Arthur Levitt reported Monday. There is not danger that benefits will be cut off it that happens, because federal law allows for loans to states whose unemployment funds become insolvent. But Levitt's audit report said the situation may require increases in the taxes on employers that pay for the benefits - a step it said could worsen the state's already grim employment

Quinlans Ask That Respirator Be Shut Off

TRENTON, N.J. (AP) The attorney for Joseph and Julia Quinlanasked the Newalsessy, Supreme, Court, Monday 180, 1745, what his clients have then daughter's life-sustaining respirator shut off. The Quinlans are not asking for euthanasia, the attorney said, but seek guidance from the court in a controversial medical situation where the natural bodily processes of a terminally ill person are thwarted by futile medical measures. Attorney Paul W. Armstrong, under close questioning by the seven justices, said he was not seeking blanket approval for euthanasia — mercy killing. He said the justices should consider only the case of Karen Anne Quinlan, the Quinlans' 21-yearold daughter who has been in a coma since last April.

pressed concern that the dissent Carey Refuses to Investigate Corruption

NEW YORK (AP) Gov. Hugh Carey said today he will authorize expansion of Special State Prosecutor Maurice Nadiari's probe into alleged corruption in The Bronx if Atty. Gen. Louis J. Lefkowitz determines the evidence warrants the investigation. Carey said Bronx Dist. Atty. Mario Merola had asked him to determine the merits of the investigation, but the governor declined to put himself in that position.

Ford Declares Major Tax Cut Possible

WASHINGTON(AP) Declaring that the future should be encouraging to all Americans, President Ford told Congress on Monday another major tax cut will be possible by 1979 if federal spending is held in check. The reduction would be in addition to the \$28 billion in permanent tax reductions Ford already has proposed for this year and next. He did not indicate now large a new tax cut could be. In his annual economic report to Congress, Ford said he is very encouraged about our economy. The trends are all right and are all moving in the right direction.

Hugh Carey Promises No New Taxes

ROCHESTER, N.Y. (AP) Gov. Hugh Carey, beginning a campaign-style effort to sell his austerity budget plan to New Yorkers, reiterated Monday his promise that there will be no new taxes. The governor flew into Rochester from Albany on the first leg of a two-day swing his office said was designed to inform the public, through the local news media, of the urgent need for reduced governmental spending. The campaign was designed to counter expected opposition from local officials and others to spending cuts in the \$10.76 billion budget plan Carey proposed last week.

Bayger Refuses to Delay Attica Trial

BUFFALO(AP) Ajudge rejected a prosecution request Monday to delay the trial of 10 former Attica prison inmates accused of seizing guards as hostages the day the 1971 Attica revolt broke out. Justice Frank R. Bayger of state Supreme Court said he did not see the slightest justification for any turther delay in the proceedings. He said it is the duty of the court to provide individuals and society both with speedy trials

Nigeria Evacuates Harassed Laborers

LAGOS, Nigeria (AP) Nigeria is evacuating 45,000 contract laborers from Equatorial Guinea because of what it calls a long history of brutal ill treatment of its citizens there. Since the middle of last year about 20,000 Nigerians, nearly all working on the island of Malabo, 60 mile south of the Nigerian coast, have been repatriated at government expense.

Student Dorm Vandals Pose Costly Problem

Vandalism in the dorms is a major roblem at SUNYA. Furniture damage, exit sign removal and untinguishers are a few of the types of sabotage cited by Director of Residences John Welty.

Most damage in the dorms is caused by residents. Welty said, "I think for the most part, the on-campus students are responsible for the vandalism. Alumni Quad is an exception as some of the damage can be traced to people from the local area."

Liz Zivanov, Residence Director of Waterbury Hall on Alumni Quad, agrees and adds, "Townies go through the dorms and punch out the ceiling tiles. Students don't let me know who does the damage unless it is super-extensive.

Damage Intentional

Although some of the damage found in the dorms is accidental, Welty feels most of it is intentional. The most common problem is lounge furniture destruction and window breakage. Wherever possible a renair job order request is submitted. If a student is responsible for the damage she or he is billed directficult to find the culprit in areas that are frequently used. If the funds are not readily available, repairs are

Two of the most serious problems in the residence halls are the removal of fire exit signs and the discharging of fire extinguishers. Welty said the maintenance staff attempts to replace the damaged signs but it is virtually impossible to keep up as they are constantly being removed. The problem of discharged fire extinguishers is obvious. Although they are checked every two weeks, there are times that they are empty. Aside from the general inconvenience caused by these problems, a major safety problem arises. Welty commented, "These are two of our most frustrating problems. If we should have a fire in one of the buildings, there can be a tragic loss of property and life."

Unlike damage caused in the halls and lounges, vandalism in individual rooms and suites is much easier to trace. When students arrive in the Justice says taking back the rug not . . . there's no judgement per pletes a room condition form. The had been cut to fit the office and had no reason to suppose that."

JANUARY 27, 1976

rooms are then checked in the spr process is thorough and three people ctually inspect the room before a final assessment of the damage is check. This is followed by an exation by the hall director and a final inspection by a member of

Although normal wear and tear is acceptable, students are billed for any additional damage. If the bill for damage is not paid, there is an official hold placed on transcripts and future registration privileges. Damage assessments can be appealed, but according to Welty, 'There aren't too many successful appeals as we have accurate

The biggest problem with the billsaid, "The general attitude is that it's ing arises in suites because the cost of damage is divided equally among the deal. Students fail to realize that the suitemates if the residence office is not made aware of who is responsireal problem. ble Last year, students were billed

Another popular attitude is that

the student will not be held responsible for damage done while they are drunk. Welty explained, "This is not the policy and the students are as responsible, if not more so, for

anifestations of vandalism in SUNYA dormi

analysis, the students will pay. He tied a bit too much." Welty has several ideas that may help to alleviate the vandalism problem. First, students must treat

damage they do after they have par-

Director of Residences John Welty pointed out that window breakage and destruction of lounge

Next, he said, there are tentative plans to make information about the costs of typical damages available to all residents. In the fall, if the plan receive sample damage price lists. Most students do not realize the high cost of vandalism until it is too late. It costs \$10 for each wallthathastape the dorms as close as they can to be- or chip marks, \$5-\$10 for each nai hole, \$16.07 to replace windows and between students is essential if the \$124 to replace damaged desks.

Carpet Case Closed; Voucher System Tighter

by Ed Moser

Last December the great carpet case was finally settled, as Sears and allowed to leave the store in the first SA lawyers agreed on a \$100 out-of court settlement concerning the rug definite [sales] procedure in these nstalled in the EOPSA office.

Sears carpet worth \$640 bought through a voucher by Fred Stokelin, the former president of EOPSA. accepted the apparently technically invalid purchase order, and installed the rug. Denied payment, Sears had threatened legal action.

According to the Sears affiliated tamper with "the good relations possibility of bad publicity helped if he tho

among the worst had 23 percent.

Cheating Methods, by percent: Looking at another student's paper. lilegal access to exam. Method unknown... Someone else taking exam. Rates of Cheating, by Exam Type: on Math problem type10%

the respondent about background Teachers who were rated among the variables, attitudes and courses taken in the fall term. The respondent read these questions to himself, answered them, and sealed them (along with the earlier questions) in an anvelope. This envelope was either mailed or hand-delivered to the instructor of the course.

The questions on cheating behavior asked the respondent if he had cheated on his last hourly exam. This was repeated for up to four courses. (If the respondent took more than four courses, a random technique was used to limit the inter view to just four.) Of those who had taken at least one hourly exam, thir ty percent admitted to having cheated at least once. Because the survey did not cover more than four courses, and because it asked only about each course's last hourly exam, the real percent is probably

The type of cheating was also recorded. Of those who cheated, 73 percent looked at another student's paper; 11 percent had illegal access to the exam; 9 percent cheated in some unknown way (i.e., the method was not precoded); 6 percent used crib sheets; and only I percent had someone take the exam for them.

Cheating was also broken down by classes. The data showed that about 15 percent of the students in any class cheated on the last exam. Combined with the type of cheating information above, this suggests the in the "average" class of 100 students on the last hourly exam, Il looked at someone else's paper and 4 cheated

Cheating within class was broken down by type of course, type of exam and "type" of instructor. The highest Business School (21 percent) and in the Division of Social Sciences (18 percent). The lowest rates occurred

Symphony Orchestra.

Stirring Strings

Lovers of serious music had much to be thankful for this weekend. The musical fare ran the gamut from the playfulness of lves to the spiritual other-worldliness of Bela Bartok

On Saturday night the Albany Symphony Orchestra presented a program entitled "Pops American." This concert of music by American composers stressed the lighter side. with an abundance of program type music. Though there was no performance of "Turkey in the Straw", neither was there much meat here. The works that were performed, the labor of nine American composers, was highlighted by several popular favorites, George Gershwins' "Porgy and Bess",
ponard Bernstein's "Fancy Free Ballet
Misic", Charles Ives' "Variations on
America" and Ferde Grofe's "On the Trail"

These works belong mainly to the type of music called "program music" or "tone poems". This music serves to remind the listener of a specific image or emotion. It i music as illustration. Its expressive qualities derstanding) are limited. It is music to please

The performance was a good one. The orchestra seems to have gained some confidence. The stops were crisp and the strings wind section was quite strong, with fine per-formances by Irwin Gilman on flute and Ranall Ellis on oboe. The final work, Aaron Copland's "Jazz Concerto" featured Findlay Cockrell on piano. Cockrell known and loved by many at SUNYA, played with technical virtuosity, though his purcussiveness was a bit

This weekend also saw the Tokyo String Quartet in the third concert of the University celebrity series at Page Hall. They began with Mozart's Quartet in C major K465. One of Mozarts later works, it harkens to the qualities of Beethoven. It is music of supreme charm, yet it hints at something greater. There are moments of melancholy expressive of anguish. There is not yet the romantic "triumph amid suffering" so well understood by the genius of Beethoven, though there are suggestions.

The next work performed is perhaps one o the greatest in string quartet literature. Its use of multiple tonalities, its dissonances and its moments of lyricism are a great achievement. It is music of a highly different order than "pops". This music is expressive of universal

It is music that induces in its listeners a "felt wisdom." Like great poetry, music can be a "friend to sooth the cares and lift the thought of man." When it is performed with the vi tuosity that the Tokyo String Quartet bring to music, it is a delight. The Quartet's balance was exquisite. The difficult shifts in dynamic and the many stops and starts were perform

Their performance was the musical highlight of the weekend. In their inspired readings of works by Mozart, Bartok and Debussey the Tokyo String Quartet displayed

Lancelot Drowns In Lake

Guilderland's Star Plaza Twin Theater, now metamorphosized into the Movies 1 & 2, has altered its Movies' policy will be to present "art films" and to draw a younger clientele who the Movies' management hopes to God is fed up with sharks and zeppelins and Redfords. And there's talk of a reduced admission price for students. Best of luck and all that, but it's my guess that it won't take long for the Movies to plunge into the red, the way of many an art mart.

The current fare at the Movies. Robert Bresson's "Lancelot of the Lake," is a bad choice to build a new image on. The film, released nally some months ago, is Bresson's esoteric, unadorned, and very moody pasting up of the legends of King Arthur. Bresson's premise is novel and

screwy after all, he asks, weren't Lancelot and his pals really great philosophers misplaced in a backward age of castles and feudal commendation? Couldn't it be omething like our search for meaning in the sixties? Isn't their disappintment ours? And ours theirs? Is the Pope Catholic? I'm not entirely sure the Arturian legends aren't suited for setting up such a metaphor, but all Bresson has really managed to accomplish is crawl out on a limb, and, sword in hand, hack

JANUARY 27, 1976

knight crashed to the ground, a geyser of blood spewing from his neck. Another warrior has received a piercing blow to the stomach; blood runs form the rent armor. A pile of bodies has been heaped together and put to the torch. This is just about the last we'll get to see of any armed combat in the film -from here on in Bresson replaced the din of battle with the neighing of horses and the eackle of birds, symbols that remain enigmatic, obtrusive and downright annoying because they are deliberately used to establish a theme that Bresson doesn't feel like sharing with us. Is there a pattern here? Possibly. Bresson has stripped the legends of their pomp, their machismo, and most regretably, their charm. Can you imagine Ingmar Bergman filming "The Iliad?"

What one can untangle of the plot is that Arthur's men, after losing a third of their ranks in the quest for the Holy Grail, have returned not only empty-handed but bereft of purpose. Suffering from post-war ennui (is this 845? 1945?), the men are reduced to contemplating their collective navel. Not that they mind all that much. A scene that fairly well sums up the tenor of the film finds Gawain and company staring thoughtfully at the full moon, which is partially obscured by clouds and at the cobalt-blue filter that apparently

Bresson's opening shots reveal the aftermath of some gory, unidentified the entire shooting. Gawain, asked feudal skirmish. A decapitated what he's up to, replies, "We're in disagreement over the moon. He ways it is being strangled by the clouds. I prefer to think it is drowning." The Knights of The Round Table Meet Albert Camus and the Myth of Sysyphus. "Give us a goal," Gawain later implores King Arthur. Did he say Godot? Lancelot is the only character with

dominas), his lady love, is his con-

solation prize after not coming up with a Grail. There is also a villain Mordred, who spends much time plotting against Lancelot. Mordred zazz and charisma, but one can't say for sure. In fact, one best not venture much more, as far as characterization, that Gawain is a braggart and a bully, Lancelot is rebellious and realistic, Arthur is dignified and responsible. Mordred is the heavy (hint: black beard). Guinevere is a girl. In the great tradition of the cinema of post-war Italy and esnecially France, motives are hazy or flatly, and all action is implied. Bresson asks us to keep out distance and subsequently, never convinces me that Arthur and his men were anything more that a band of rowdy roustabouts afflicted with hypertense religious fanaticism. "Mony Python and the Holy Grail" makes more sense.

is probably jealous of Lancelot's piz- Luc Simon, left, and Laura Condominas in Bresson's "Lancelot of The Lake": it makes "Monty Python and the Holy Grail" look like an epic.

Bresson's Arthurian vision of all of their films highly, especially constriction results at first, then for fifty cents nowadays? curiousity, and finally resigned mystification. See it if you didn't like "Scenes From a Marriage" because it had no story.

And speaking of art films (we were, weren't we?), I'd like to applaud all my buddies at I.F.G. for their impressive line-up for this semester. I apologize for those nasty things I wrote last Fall. I recommend

ove, piety, courage, and resolution "Blow Up" and "The Clowns", and if in the face of meaninglessness, not you haven't seen "Dr. Strangelove" very engaging in its concept, is yet, you've just run out of excuses, weakened even further by his odd Shame on anyone who missed camerawork. I believe about half the "Throne of Blood" last week. It was, shots in the film concentrate on admittedly, no "Godzilla" but characters feet and legs. A feeling of where can you get a good catharsis

Phone Number The following information is intended to help students living off campus obtain a better understanding of the community in which they live. We wish to let students (and everyone) be aware of their rights and recourses once outside of the womb (living with their parents or in the dorms). We also want to pass along the services that living in the Albany area offers. While it's impossible to teach someone to be resourceful, we can offer resources to those who are.

This section is only the first installment, and shall include: emergency and crisis phone numbers in the community, housing information (lea ses., landlord/ten ant relationships, security deposits, insurance, protection, housing codes, moving out, eviction and legal recourse, utilities, etc.)

Part III will cover transportation (hitching, bike safety, car buying maintenance and driving ips), food stamps, day care, etc.

Towards the end of March we will publish a section on how to locate and evaluate housing, dealing with landlords, leases, inspection, choosing of roommates, etc.

Towards the end of March we will publish a section on how to locate and evaluate housing, dealing with landlords, leases, inspection, choosing of roommates, etc.

Extra copies of these guides will be available in both the Off Campus Association Office, CC 118 (next to the billiards room) and in the Office of Student Life, CC 130 (past the information desk, then left).

The information in this guide has been compiled and edited by Lee Loursbury and Sandy Voit. Contributors include: Stephen Immerman and Buddy Voit. Special thanks are due to: the ASP, the Office of Student Life, the United Fund and NYP-1RE.

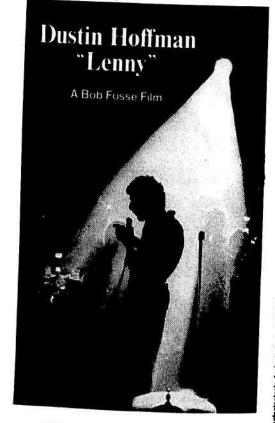

Cut along dotted lines carefully. Four page section will become half-size eight-page section.

Under a written lease, a beginning and ending date is usually established at the time the lease is originally negotiated. Consequently, the tenancy simply expires on the ending date without notice on the part of the landlord or tenant.

However, some written leases contain an automatic renewal of a lease. Such clauses provide for the automatic renewal of a lease by the following procedure. As the tenancy nears the completion of the term, the landbord must send the tenancy nears the completion of the term, the lease will be renewed 15 to 30 days prior to the designated notice period. This notice protects the tenant by calling attention to the lease's automatic renewal. Unless the tenant by calling attention to the lease's automatic renewal. Unless the tenant as the is planning to terminate the tenant wants to terminate the tenant wants to ierminate the tenant wants to da larefm, the tenant must simply give the landdord proper notice.

Termination Under an Oral Agreement

If the eviction proceedings are based on non-payment of rent, the landlord must first demand the rent from the tenant. If, after three days, the rent is not paid, the landlord can begin proceedings. The tenant can raise defences to the effect that s he doesn't owe rent. This may be due to the tenant's entitlement to rent abatement, withholding of rent due to a lack of repairs, or debts which would cancel out the landlord's claim. If the amount of rent is withheld, the court may require that it be paid into the court may require that it be paid into the court or put in escrow. If the landlord delays for about six months in bringing a non-payment proceeding, the tenant can argue that the landlord delays for about six months in bringing a non-payment proceeding, the tenant can argue that the landlord dean such or cost of repairs if the lease provides that the landlord would be rentiled to attorney's fees, and/or cost of repairs if the lease provides that the landlord would be entitled to attorney's fees, and the tenant wins the hearing, the tenant would be entitled to attorney's fees, and the tenant would be entitled to attorney's fees from the landlord.

If an eviction judgement is granted, the court will issue a Warrant of Eviction which can be given to the Sheriff or Marshall, who will serve a 72 hour totice to the tenant's belongings will then be removed and then put into storage, but the tenant is responsible for the cost of storage.

An eviction proceeding issusually a complex and unpleasant experience, involving time, energy, and money. It is an inconvenience to both tenant and landlord. The best wayto avoid a such an experience is to choose a surand be a surand.

When articles are left behind in the apartmenta after the tenancy has ended, the landlord is required to return upon request. If the landlord ask them to escort you inside the apartment do not try to re-enter the apartment and the tenant should have no trouble reclaiming items which have been accidentally left behind in the apartment. However, if you still owe your landlord money for rent, it may not be so easy to retrieve these articles. The landlord may keep them until the rent is paid. When faced with such a situation, consult the S.A. Law Service.

Last Minute Details

Remember to cancel all utilities before moving out. Notify newspapers, magazines, and other home delivery services of the change of address. Leave a forwarding address at the post office.

The Policy

On Beco ming A Tenant

Arrangements for off campus housing are made directly between the individual and the managers and owners of the buildings.

When an individual becomes a tenant, whether in a private home, an apartment, or a house, she/he enters into a specific legal relationship with the landlord of those premises. Although she/he may never see the owner-or indeed never know his/her name—the manager of the premises acts as the owner's agent and speaks for him/her. Legally, any ent with the manager is an ereement with the owner

While normally there is a written agreement between the landlord and the tenant which sets out the rights and duties of their relationship, there are, in addition, other laws which also apply to and affect that ship. Most of those laws, only in the absence of an agreement thus, if the agreement contains a law; it will almost invariably be the agreement, not the law, which will

Almost all tenancies fall within one of two categories: either they are under a lease or they are "periodic" encies, usually month-to-month.

diord and Tenant Respon-

With or without a written lease, the tenant and the landlord have

to inform the landlord of the need for repairs. -to avoid interfering with neighbors.

-to inform landlord of intent to move out (30 days notice).

Almost any conditions for a lease can be asked by a landlord. Leases are written by landlords and therefore usually emphasize respon

A lease is desirable from a tenant's point of view for really only two reasons: you are assured of the right to live on the leased premises for a specific period of time under conditions which will remain the same and you have an established ren during that period. Otherwise, the majority of lease provisions are designed to protect the landlord.

antages of lease include: limiting your mobility by obligating you to a specific place for a specific length of time for a fixed amount of money. If you sign a lease with an absurd clause(s) in it, you are stuck with it. (Example: "If any legal proceedings are necessary, the tenant shall pay all damages, court costs, interest, expenses, and attorney's fees, incurred by the landlord in such proceedings." Once the terms have been agreed upon and the lease has been signed. the provisions it contains can and probably will be enforced. There are exceptions-some provisions, even when written in the lease, are not legally binding. These include the olding of the security deposit by the landlord for any reason other than damages caused by tenant negligence, and any statement which exempts the landlord or his agents from liability for negligence.

A verbal agreement is effective for any period of time up to a year. Usually this involves a "month-tomonth tenancy", with a renewal of the agreement every time you nay rent. This arrangement offers you, as well as the landlord, the most flexibility. The landlord may change the rent or other conditions at the beginning of a rental period. Either party may terminate the agreement with thirty days notice from payment date. (If you pay by the week, one week's notice is needed.)

(Example: If your landlord wants to raise your rent by \$10 he must give you thirty days notice (a full payment period). If he tells you or March I that he wants \$10 more, you have two options-to pay the increased rent on April 1st, thereby renewing your agreement, or pay the same rent and your landlord can then give you thirty days notice to leave the apartment.) Notice by either the tenant or the landlord should be written and sent by certified mail if it cannot be delivered

In deciding whether to accept a lease, you should examine its provisions carefully and weigh the benefits as well as the disadvantages. If you have questions, take a copy of it to a lawyer before you sign it. (see Legal Services section) Do not hesitate to question any section of the lease which puzzles you. Don't be satisfied with answers from the landlord like "Don't worry about that, it won't apply to you." If it won't apply to you then have it omitted from the lease. Remember: All that and only that which is in writing is legally binding.

Have You Signed Away Your Rights to Privacy?

Oddly enough, instead of taking away your right of privacy, many landlords actually assure you of privacy in an obscure phrase included in most leases. The phrase usually says that the tenant shall have the right to the "quiet enjoyment of the premises." Even without a specific clause that prohibits the landlord from intruding on you, the prohibition of such intrusions is inherent in the phrase. In fact, you can even sue the landlord for trespass (unless he has entered to collect rent that is due, to comply with health or police regulations, or to prevent damage).

Some landlords protect themselves from being sued for trespass by writing a clause that lists the situations for which they can enter (such as showing the apartment to prospective tenants or making needed repairs). However, in most cases, the judge will hold the landlord to those specific reasons. If he entered for other reasons without your permission, you'll probably win. As one New York judge summarized the situation, "Tenants as well as owners are protected by the ancient maxim that a man's home is

cumbered, to dispose of garbage and refuse into provided facilities in a clean and sanitary manner, to exterminate insects, rodents, or other pests within his her dwelling unit it it is the only one infested in the premises, to keep his her domestic animals and pets in an appropriate manner and under control, and maintain cooking and refrigeration equipment in proper operating condition if these are provided by the tenant.

It should be noted that this housing code, as well as most leases, are written from a landlord's point of view and thus basically emphasize tenant responsibilities. Don't forget landlord's are big owners and are usually active in local politics, which may account for laws favorable to landlords.

Here are some of the housing standards from the Code:

Plumbing:

Plumbing fixtures in each dwelling unit must include one kitchen sink, one water closet, one bathtub or shower, and one lavatory. The water supply system shall be installed and maintained so as to provide at all times a supply of water to all plumbing fixtures sufficient volume and at pressures adequate to enable them to function satisfactorily and without undue noise under normal conditions of use. Buildings must be provided with plumbing systems designed to dispose of sewage from all fixtures. Cold water must be furnished to every water closet and urinal, and hot and cold water to every sink, lavatory, bathtub, and shower. Hot water must be at least 120° F. Potabel (approved for drinking) water must be available at all times in residential buildings.

Buildings intended for occupancy between September 15 and June 15 must be provided with heating equipment designed to maintain a temperature of not less than 70° F. at a distance of three ft. from exterior walls and at a level of 5 feet above the floor. The capability of the heating equipment to maintain such indoor temperatures shall be based on outdoor temperatures of -10°F. Heat shall be provided to maintain the indoor temperature at 70°F. 3when outside temperature

talls below 55 F Fuel burning water heaters shall

not be located in sleeping rooms, bathrooms, or toilet rooms Lighting:

Habitable space (space occupied for living, sleeping, eating, or cooking) must be provided with electric light. There shall be a switch or other means for controlling a light in each dwelling unit near the point of entrance to each unit. Electrical wiring and equipment shall be firmly secured to the surface on which it is mounted. Every habitable space must also have natural light thru one or more windows or other transparent or translucent surfaces This window in each habitable space must also provide natural ventilation and must be constructed so at least 45% of its area may be opened.

Garbage:

Exterior property area shall be kept free from conditions that might become a health, accident, or fire hazard. It is prohibited to accumulate garbage or rubbish in halls or stairways. Every dwelling unit shall be provided with enough receptacles as may be necessary to contain all garbage and rubbish and all such receptacles shall be maintained in good repair. Receptacles for garbage must be made of durable material, be watertight, and must be provided with tight fitting covers.

Basement Dwelling Units:

The Housing Code gives a detailed outline of what makes a basement habitable. There are many requirements, some of which are ceilings in every room must be at least 7 ft. 6 in. high and must be at least 3 ft. 6 in. above ground level. Every room must have at least one window opening upon the outside. The total area of windows in every room shall be at least one-eighth o the floor area of the room. All exterior walls and floors must be damp-proof and water-proof.

Buildings with communal kitchens and/or dining rooms,these rooms must be accessible to occupants sharing them without going through the dwelling unit of another

occupant

Steps, walks, driveways, parking spaces, and similar areas must be maintained so as to afford safe passage under normal use and weather conditions. (The Housing Code does not specify who is supposed to do this.)

Defects, cracks, or holes must be tightly sealed to prevent the entrance of vermin and rodents.

From May I to November I, entrances to residential buildings must be provided with self-closing type devices or screens, and windows or other openings used for ventilation must be appropriately screened. NOTE: For more information concerning Albany's Housing Codes, copies are located in the Off Campus Association Office and the Office of

Eviction

Student Life.

Normally, a landlord must give thirty days notice (one payment period) to terminate a month-tomonth tenancy or request a mutual breaking of a written lease. However, in some circumstances, a tenant may be evicted in less than thirty days. When a landlord wants a tenant out in less than 30 days and the tenant wants to stay, the landlord must obtain a court-ordered eviction through a Summary Proceeding. This is the only legal method of eviction. Do not be intimidated by verbal threats or official looking notices drawn up by a landlord as these will not stand up legally. New York State law also makes it illegal for the landlord to turn off the utilities in order to force eviction or payment of

Eviction proceedings may be begun by the landford when a tenant remains in possession of the landlord's property, refuses to pay or defaults on the rent or other assessments s/he has agreed to pay, or uses the premises for illegal purposes. A petition must be served to the tenant stating the date, time, and place of the hearing. This petition may be served personally, or may be left "nailed" to the door or with a person of suitable age as long as an additional copy is mailed by certified mail. Make sure you show up in court for such a hearing-you lose automatically if you don't. Although you don't need a lawyer, having one might be helpful. (see Legal Services section-also United Tenants may be able to help 436-8997)

We Have Joined... **OPERATION**

All Items of value on these premises have been marked for ready identification by Law **Enforcement Agencies.**

Operation ID

This is a program whereby the police have available an engraving pen for you to etch your social security number on all valuables. They also supply you with cards (to be placed in windows and doors) warning intruders that your belongings "have been marked for ready identification by law enforcement agencies". The University Police also have engraving pens available, but they are not participating in the program.

Police Security Check

The Police also supply other services. They will watch your house while you're away and if you live within the area bounded by Myrtle, Lake, Swan and Washington Avenue along the Park, call 463-4141, ext. 243 (Burglary). The detective there will come out to your home and give a security check, engrave valuables, and give you the sticker. This is a special detective unit, funded with a federal grant, due to the high crime rate in that area.

If you live west of Lake St., go to the Division 1 station (on Madison and Western) where you can borrow an engraving pen, get stickers and make a list of your valuable to be given to the police.

The sticker is the biggest deterrance against robbery. The markings help in proving where the items came from, in the event of a robbery.

If You've Been Robbed First, don't play Sam Spade and rush into check things out. The in-

truder might still be there. Go to a neighbor's, call the police, report the break-in, and have them send over

Cheap?

Did you hear? There is a general interest meeting for Telethan '76 in the Campus Center Ballroom. Thursday, Jan. 29th at 7:30 p.m. Let's gol

Sharon, Karyn, and Marge from your new suitematel

by the Albany State Lacrosse Team Donations 50

When he arrives, let the officer into the apartment ahead of you so he can check to make sure no one's there. Then begin your own complete survey, taking care not to disturb potential evidence such as fingerprints, damaged or ransacked property, or objects left by the

looter. While he's there, the officer will ask you to file a report with as complete a list as possible of everything missing. You'd do well to keep an itemized list of makes, models, serial numbers, and Operation ID numbers of all valuables and appliances.

To avoid possible complications in filing insurance claims, it's a good idea to go one step further and have your valuables photographed. Take pictures now and send them to your parents for safekeeping. Then, in case you're robbed, you can enclose the photos when you send in the

claim papers. There's a good chance that the police will send a detective to follow up the initial investigation. He'll ask a lot of questions, so be patient. And keep in mind that this detective may also want to fingerprint your apart-

ment. Next, contact the landlord, especially if it was a faulty door lock or defect in the main security system that contributed to the break-in. Ask to replace the lock and/or take further precautions to assure better

security for the entire building. If you have a tenant's insurance policy that provides similar coverage, report the losses to your

agent and have them send you claim papers. Fill them out as soon as you receive them. Provide full serial numbers, plus physical description, replacement value and your photographs.

The Case For Tenants Insurance

tenants is that their belongings are protected from theft and fire under the owner's insurance plan. This is frequently not the case. Unforfind this out until it is too late. This section will, therefore, acquaint the tenant with the provisions of a typical tenant's insurance policy (which can be purchased for as little as \$28 per year) and offer suggestions for purchasing such a

policy.

Most family homeowners' policies cover you even if you are "off the premises", but sometimes they set limits. You should check to see if you are covered by your family's policy, (Note: Students living in dormitories are not covered by the University. If you're not covered by your parents' policy this policy can still be

applied.) If you want to get your own policy, tenants insurance is your best bet. The smallest coverage available covers \$4,000 at approximately \$28 and up (depending on type of structure and location of dwelling, etc.) per year. It handles everything from fire to tornadoes and theft due to

Like auto insurance, an agent might not underwrite a policy for you because of the risk involved. Character does play a major role in his/her decision and even the area in which you live can make a big difference if it is classified as a high crime area.

These policies are generally written for either families or for individuals. Most agents will not underwrite a policy for more than one person if they are unrelated, because the risk of theft and accidents are higher and because previous

policy for you.

out furniture. If your apartment is unfurnished, you will have to move in furniture you already have or

borrow, rent, or buy furniture. If you move in furniture, you will need either a friend with a truck, a rented truck, or a moving company. A friend with a truck is usually the cheapest way to move. A U-Haul trailer (4 feet by 6 feet) can be rented for \$12.50 plus a \$10.00 deposit for 24 hours. A 12 foot van can be rented for \$20.00, 22e a mile, \$5.00 for insurance, plus a \$40.00 refundable deposit: (Look in the Yellow Pages of the telephone book under "trailers" for places to rent U-Hauls.) A moving company is usually the most expensive way to move. (Look in the Yellow Pages under

Used furniture may be purchased Salvation Army store is located at 452 Clinton Avenue and has used furniture for sale. Other stores in Albany also have used furniture-Used Furniture Discount Center, 69 Central Avenue (463-3221), Used Furniture Outlet, 73 Central Avenue (434-1770), and Community Church Thrift Shop, 304 Lark Street (463-2702) are a few used furniture stores in Albany. Others are listed in the

Yellow Pages under "furnitureused." Check the Albany newspapers (Times Union, Knickerbocker News) for auctions and garage sales. These are both sources of used furniture as well as other household items Check the classified ads in the Albany papers and the ASP for fur-

niture and other household items. There are a couple of places to rem furniture near Albany-Standard Furniture Rentals, 690 New Loudon Road, Latham (783-7711) and -Sherman Furniture ren Route 9, one-fourth mile south of Latham Circle (785-3050). You can rent furniture for the living room, om, and kitchen for about \$25 00

You can also rent furniture by the piece at both of these stores, but Albany-Sherman Furniture requires m rental of \$20 per month. A damage deposit of about one mouth's rent is required by both stores, as is a delivery and pick-up rge of about \$25.00. If you decide to buy the furniture, the first twelve mouths rent and the damage deposit may be applied toward the purchase price. Prices differ between the two stores and it is best to call or go and

check out the prices. Before making any improvements (painting, wallpapering, etc.) make sure you understand who is responsible for buying the materials and doing the labor. New York State law says "When a landlord agrees to pay for any improvements the tenant may make, if the tenant does make improvements, even though under no obligation to do so, then the landlord is obligated to pay for them." Note that it must be agreed beforehand that the landlord will pay for any improvements. If you don't have such an agreement in writing, it will be very difficult, if not impossible to prove that such an

ment existed.

Security Keeping your guard up means a lot more than simply laying out like. Experts think of security as a "program" which includes hardware, routine procedures, and large doses of common sense.

Following is a checklist you can use in blocking out your own security program. Each item will then be brought into detail after the list.

-You can get a good idea of quality of a lock by judging the amount of material used in it's construction. If a lock has a "dead holt" or a "dead locking latch", that's in its

-Close the door and see if it rattles. Give it a good shove and try to force it.

-If the door has glass, it should also be equipped with double cylinder locks. These are key operated from inside as well as out. -The door hinges should be in-

side. If they're on the outside. anyone can pull out the hinge pins and, voila!-instant entry. -If you have an inside room that can be locked, so much the better.

It's a good place to stow valuables -Immediately report any burned-out hallway bulbs, lost keys,

or faulty locks to your landlord. -Invest in insurance to cover personal property losses and keep securities or papers that can't be

replaced in a bank box. Have your valuables marked with an engraving pen for quick identification purposes. Monogram the item in a visible place to discourage a thief from taking it.

-When going out, lock you apartment and leave a lamp burning. You can buy inexpensive timers that operate lights and/or radios at ap-

deliveries (newspaper, mail, etc.) The Post Office will hold your mail

from \$20 to \$50. \$21). You can have a field day shopassure a professional installation.

have battery operated alarms.

Interior Security-inexpensive and easily installed one way peepholes (\$1.50 and up) belong on front doors. Insist on one that gives you a fully wide angle view at your

lets you turn lights on and off when

a radio to a timer.

An article ("Bus Services Cut at Prime Hours") in the Friday, Jan. 23 edition of the ASP quoted Plant Superintendent Ira DeVoe as having said that he has had little cooperation from students in the matter of reduced bus service between the uptown and down-town campuses, and that "students should be willing to leave for uptown five or ten minutes earlier" than usual to alleviate overcrowding.

I feel that we students have been more tha cooperative regarding the bus situation. I don't mind leaving five or ten minutes earlie for a class uptown, however, I do mind that, in order to be on time for my 10:10 a.m. class on Tuesdays and Thursdays, I have to leave my room at 9:10 a.m. It seems absurd that one ha to allot an hour's time to go three miles on a bus. I also resent the fact that I cannot get on the bus at the Alumni Quad bus stop, but must walk to Quail Street just to get on.

This, I feel, shows cooperation on my part and on the part of my fellow students (since they must go through the same hassles to get to

heir classes).
Perhaps Mr. DeVoe should spend more time working with students on improving the bus schedule and less time complaining to the ASP about the lack of cooperation he is

pen pal

To the Editor:

a decision...

To the Editor:

It is my understanding that the future of the vironmental Studies Program at SUNYA is in icopardy. As an alumnus working in the environmental field I can only begin to express my consternation for the prospect of having the department absorbed by another, or dis-

The interdisciplinary nature of this field, as well as the need for identity and respect, oban entity unto itself with the full support of the university behind it. Environmental concerns have matured from "pulling tires from streams" to a scientifically based and politically notent national force. In order to effectively integrate environmental concerns with various planning and decision-making processes, the academic world must produce environmental professionals, not professional environmentalists. To this end I hope you will dedicate yourself to maintaining an Environmental Studies Department within which a high quality multi-disciplinary education may be obtained for those who wish to pursue a life protecting the public health and welfare through environmental careers.

David Comarow nmental Planner/ Air Quality Specialist

...to wreck

the environment

To the Editor:

As an alumnus ('73), and as one who worked on establishing the Environmental Studies Program, I am deeply troubled by the recent suggestions to incorporate the program into another department.

Environmental Studies grew out of the recognition of the failure of traditional educational programs (being narrow and fragmented) in preparing students to assume nsible roles in society. The value of the traditional education has, consequently, been questioned and fallen prey to charges of irrelevancy. Much of this criticism can be

Environmental Studies provides a unique opportunity for students to receive a broad and flexible education, one that can be more appropriate to the students' future needs and one that encourages the well balanced

As a major social institution, the University has a responsibility to integrate its educational programs with the social needs, and planning and decision-making functions, by preparing people who can capably assume positions of responsibility. A strong, integrated, interdisciplinary education is a prerequisite for the responsible and competent exercise of leadership, administration, and planning in The university is in a position to provide such educations, and it should respond to such needs as they develop.

To integrate Environmental Studies with another department will not only contravene deprive students of a timely opportunity to acquire the requisite education for becoming capable citizens and competent leaders. Such a move will leave State students with few, if any, viable alternatives. Can a major universi ty such as State afford to place itself in such a

I strongly urge you to do all you can to eninued operation, autonomy, and upgrading of the Environmental Studies Program. If the university fails to provide portunities perhaps it should be reexamined to determine the value of what is offered, not only to the individual, but to society. Is taxpayers' money being put to the best use possible? Please inform me of what you intend to do.

John L. Stirling

Ed. Note: The above letter was sent to President Fields and to the ASP.

attendance dissidence

To the Editor:

I have had it with professors who insist upon 'regular' attendance, with a tone that clearly announces that marks will suffer without it. Are these teachers too blinded by ompetence to realize that one only needs to insist students show up when one's teaching ability tells them not to waste their

I suppose fear prompts attendance demands in many instances, department chairmen frown upon instructors who have no students showing up for their classes. Last semester I had one 'teacher' who, for three weeks at the end of the semester, had the class show up at 9 teacher would ask is there were any questions about the term project, which there never were, and would dismiss us, "to the library, to work on your papers." I doubt his intent was to enlighten us as to the joys early morning research (most of us had yet to fully awaken), rather he could collect his paycheck, and document class-teaching time without doing anything. For this I pay my tuition dollars? For this business the business world wants me to get a college degree?

I'll grant that there are some courses where in-class verbal interplay is important, but those courses usually don't have to threaten grades to have students show up. But too often "the importance of class participation" is cited shows up (whether or not they get anything out of it), when there is little actual class participation. And that which is called 'important-class-participation' is nothing more than student-hopping ("Well, that's im portant too, Jon, but it's not what I'm looking for . . .") until one student is found who finishes the sentence as the teacher would.

The teacher who insists that his students show up is announcing his incompetence, and forewarning his students of what the semester

castles burning

Write On

The latest craze in gifts, they tell me, is to give that special someone a pet rock. Some guy out on the West Coast is making a fortune putting polished rocks in cute little cardboard boxes with a funny booklet which explains about your new pet (such as feeding: Don't worry about it; Tricks: Lie down, Stay, Play Dead, Fall, etc.) These things are selling like crazy in the finest of stores, and quite a lot of people are getting a kick out of them (including my housemate who had the exact same idea three years ago and did nothing with it, and is kicking himself). But for all these people who think they are finding the joys of pet ownership through an inanimate lump of igneous material, I feel nothing but pity.

The true exhilarations and exasperations of a relationship between a person and their pet lies. rather, between human and living, feeling, thinking, acting entity. I speak, of course, of the special love between a person and their pet pen . . .

Tenderly, he reminisces

I can still remember how my pet pen looked when I first got her. (I use the female gender as I am referring to a mechanical pencil-and a beautiful, lusterous one at that! Since the word 'pencil' conjures up an image of a cheap yellow splint of wood, we use pen, and refer to it in the

Her brother was also given to me at the same time, a fine, strong, broad pointed fellow. But, alas, he was lost one fateful day in the Campus Center a few months ago, -but-please, I'd rather not talk about it . . . sniff, sniff . . .)

He regains his composure . . .

Ahem! Well, I looked down at her, lying there so jewel-like and frail beneath her protective elastic loop, and then turned my head and thoughts towards the horizon, towards the future. I realized then that everything this pet of mine would ever be was in my control. I took a pledge to make my pen all it was capable of being!

I planned Feeling's education well. (I called her Feeling so I could tell people that I write with Feeling.) I sat in on a myriad of courses here at school, taking notes with Feeling in each, to p her knowledge of this complex world, so difficult for a lone writing instrument to learn. Some friends questioned if I wasn't wasting a lot of time on a mechanical pencil.

The fools, my pen now has a higher I.Q. than they do! My pen can write in five different anguages, my pen can do computer flowcharting, my pen can do income taxes. Look who's ig now, hahahah!

And it's not like I'm limited to write in only one color with Feeling. If I want my pen to write, say, red, then by golly, 'red' will be written. You say you want blue? 'Blue.' Green? 'Green.' And 'Orange,' 'Lavender' or 'Plaid.' My pet is a versatile, wonderful companion. But in all fairness, I should also note some of the dra wbacks of pen ownership. Not all pens are

perfect, in fact few are. On several occasions, when I was taking an exam with my cherished, she decided to play with me, mischie vously changing my correct answer and instead writing a wrong one. What an elf-like pixie, you're probably thinking, but it caused me real trouble . . . Believe it or not, teachers were unsympathetic to my explanation when I told it to them after getting my test back. Can you

Only once was I unfaithful to Feeling. I was hustled by this foxy electric typewriter. I tell you, she looked slick, moved fast, and had a special touch control. I was dazzled for a while, but it oon wore off and we parted ways. She was so meticulous, every goddam letter had to be perfect. But the deciding thing was shen I realized her style was Elite, you know the type. So I left that Elitist mid article and finished up with Feeling

And it felt good to be back with my pen pal

'Another Triumph -- Once Again I've saved us FROM GOING OVER THE EDGE"

Russian Farmers

Harvesting A Food Riot?

by Robert M. Bartell

Another Russian Crop disaster, the second in three years, is threatening to unbalance the Soviet power structure.

Now as in 1973, the year of the great grain looking for alternative suppliers. The Ford ed nearly static in Russia. Production varies Administration, like the Nixon Administration, is searching frantically for means to bail compared with more than 32 bushels per acre the Soviet rulers out of their predicament.

Again, the official explanation is poor weather. But clandestine reports from behind the Iron Curtain suggest another reason for their recurring crop disasters. Those reports reveal that the Soviet crop failures are manmade and the result of the combined efforts of poor crop in one location was always balanced millions of "collective farm workers". . . the wretched peons who want to get out from under the Soviet yoke.

They want to upend the Soviet hierarchy by creating food riots among factory workers. and other Western allies will bail out the Soviets again.

Before the Bolshevik takeover and the advent of the Soviet regime, Russia was a leading exporter of foodstuffs, comparable with the Lenin, United States and well ahead of Canada, Argentina and Australia. Bushels-per-acre figures for Russian farms then were marginalbelow those for American farms. . . an average of 15 bushels of wheat per acre compared with 15 to 20 bushels here.

at that time in Russia. Today chemical fertilizers are used extensively there as well as here, Canada, and in other major wheatproducing countries. But while the yield-perrobbery, the Soviet government frantically is acre has doubled in this country, it has remainbetween 13 to 21 bushels of wheat per acre

The fact is, bad weather has had little to do with turning Russia from a major wheat exporter under the Czars into the biggest wheat importer under the Soviets. Climate variations have always existed in Russia, but a by good crops in other areas. . . until the Soviet regime was established.

The Bolshevik Revolution proclaimed the toilers alone had the right to own land, and Their major concern is that the United States split the great estates among the villagers. But then the hapless farmers, taken in by communist slogans, found out to their sorrow that while they "owned" the land, they did not own

Lenin, Trotsky and Stalin had forgotten to mention that the farmers had been turned into ndentured servants for the benefit of the communist elite.

Now the Russian farmer is using the only means at his disposal to rid himself of comared with 15 to 20 bushels here. munist oppression. . . sabotaging the food production on the Soviet plantation.

That's the language they're (SUNY Central) giving us: Negative Appropriations." —President Emmett B. Flelds describing cuts at yesterday's special Senate meeting editorial/comment

Bureaucratic Barber Bouncing

Late last semester the Board of Directors of what used to be called Faculty-Student Association (FSA) voted to remove the Campus Center barbershop so it could be replaced by a Student Association-sponsored food co-op. FSA, now called UAS (University Auxiliary Services), came under student control last semester, which explains how the barbershop was moved. Student Association had been trying to remove he shop for two years.

One argument often used by UAS General Manager Norbert Zahm and Vice President for Management and Planning John Hartley (when Hartley was UAS President) was that there was no place to put the barbershop if it were removed.

Yet late in this semester, when new student UAS President Stu Klein made it clear to

Zahm the shop had to be out by this semester, Hartley promptly found a spot under the

Social Science building.

Hartley was able to do this before intersession even began, though all other space assignments at SUNYA have taken months or years of committee work, reports and ureaucratic delays.

Student organizations have the most problems with space, partly because of their

unfamiliarity of and impatience with SUNYA bureaucracy. Yet there are pressing needs for more student-oriented space on this campus. An FM WSUA will need a better site, for example, and proposals for head shops, record co-ops, liquor stores and other operations have been around for a long time.

The barbershop move provides an unexpected solution to these problems. Hartley obviously thinks the barbershop is important, so the next step is to convince the UAS board to uproot the barbershop to make space for something the students deem more important. When Hartley pulls another room out of the bowels of the podium for the displaced barbershop, students should kick it out again to replace it with some other more useful service.

From then on it's simple. Students find a need for something, UAS transfers the barbershop space to it. Hartley finds a new spot and so on. Student groups will stake out spots all around the podium, trying to convince Hartley to put the barbershop in "their" spot. Eventually Hartley will be displacing academic offices and classrooms, all to the benefit of student groups. As the barbers march from place to place, students will march behind them, taking increasing amounts of space until they occupy the entire

In this way students will finally agree that a barbershop on campus provides a real

Worth the Risk?

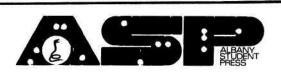

How important is an English Ph.D. program to this university? There has been a great deal of disagreement about this since President Fields began his attempt to resurrect the English doctoral program, terminated last month by State Education Commissioner Fwald B. Nyquist

Fields believes the English Ph.D. is important. Prestige, English's centrality in a university and quality are surely factors in that belief. But these reasons for Fields'

effort are by themselves unsatisfying.

This issue is further blurred by a confusion between quality and the Ph. D. program. Fields told an ASP reporter that "whether or not it [the English department] has a degree, it ought to have a faculty capability to give the degree." Yet Fields must recognize that quality education and quality faculty are not synonymous, and that there is a high price paid in undergraduate learning for obtaining a scholarly faculty without having the Ph.D.

Fields' entire plan could easily do more harm than good. We don't think it's worth

Wrestlers Drop 13th Straight

by Craig Bell
The Albany Great Danes Wrestling team dropped their eleventh, twelfth and thirteenth straight matches of the year Saturday as they were downed by Colgate, Amherst, and Southern Connecticut in a home

Colgate defeated the Danes 46-0 and went on to take the honors as they shutout Southern Connecticut (167), and Earl Jordan (177) all place 28-10. Amherst finished se-

cond, beating Albany 40-6, and continued from page sixteen
Southern Connecticut 21-9, and layup with 56 seconds tied the score once again. Albany had a chance to for a third place finish by a 36-7 The Colgate match saw the

"young and inexperienced" Danes unable to win a single weight class. The Danes suffered three pins and lost two more matches on forfeits. Gary Ferber (118), John Alden wrestled well in a losing cause for

footed tie with the Red Dragons in records, and a 7-6 mark overall.

"The ball was supposed to go to [Bob] Audi at the high post," said Cesare of the game-winning play. "But I ended up with it and drove the middle looking for a foul. I just got

But to a great extent so was the earlier. Oneonta had a chance to Kevin Croutier, who shoots 44 per cent from the line, stood at the foul line in a one-and-one situation and off the back rim and was pulled down by the Danes' Barry be in more than one place. If this is Cavanaugh—giving the hosts true, it might be ten weeks (long after possession with 25 seconds left, and Albany called for time-out.

The excitement was not confined Trevett can play basketball again. "It happened about six minutes to the extra session. In fact, the widest margin held by either team into the second half," Gary said, "I me was four points. The scoring "battle" waged by Oneonta's [Oneonta's] center. I reached in to Steve Blackmon (22 points) and slap the ball away and got nothing but ball. It was like my wrist hit a Cavanaugh (20 points), only added

nued on page fifteen Both teams began rather sluggishpoints of the game via foul shots, but Carl Mabry's jumper gave Oneonta Cavanaugh sunk two free throws nds later to put the hosts on the board, before Gary Trevett garnered the first Dane bucket with seven

> The lack of scoring on both sides was due partially to the aggressive man-to-man and zone defenses employed and partially to cold shooting. The Red Dragons held on o their slim lead until a twisting drive by Trevett knotted the score at ten midway through the half. The score was tied twice more before Oneonta opened up a four-point lead on a fast break bucket by Blackmon and a jumper from the corner by John Minicucci.

Audi then converted an offensive rebound but Oneonta's Ken Ford retaliated with a driving layup to

from Kevin Keane with 2:53 left Both teams proceeded to miss good nces and turn th over at least once before Albany gained possession with 45 seconds left. Stalling for the last shot, Cesare by a 22-20 score—their first lead all

The shooting statistics, not surprisingly, were poor for both squads. Albany's 9 for 27 from the floor was matched by Oneonta's 8/21. But the missed opportunities and sloppy passing on each side gave the impression that neither club wanted to win

The second half began auspiciously for the Danes as they won the tap, but a quick turnover led to a Mabry driving layup, and the score was tied The Danes soon opened up a four point lead when Mike Suprunowicz connected on a 20-footer and Cavanaugh bagged a 12-foot turnaround jumper. But Joe Lewis' layup cut the gap to two before Blackmon's jumper from the top of the key knotted matters at 30.

Albany baskets by Cesare and

Swimmers Spared In Van Mishap

ninutes left. Audi picked up a Cavanaugh were countered each bucket underneath and then tied the time by Blackmon; first on a 17-foot score on a beautiful backdoor pass swish from the corner and then on an incredible underhand driving layup after switching the ball to his right hand in mid-air.

The aggressiveness of Audi and Cavanaugh off both the offensive and defensive boards began to pay dividends, keeping Albany in the for an easy layup, and the Danes lead each time Onconta tied it. With found themselves ahead at halftime less than eight minutes to go, neither wed any signs of away, and the game boiled down to

> With the score again tied at 42. Oneonta made a bid to grab the lead for the first time in the entire half, when Blackmon headed down the lane and pulled up short for a jumper. But Keane rejected it and Cesare's drive put the Danes up again. Oneonta then came downcourt and Keane stuffed Blackmon again bringing the fans to their feet.

Ralph Cristian's layup tied the score a moment later, however, and nail-biting time with five minutes left. Keane's jumper and free throw at the three minute mark put the Danes up 47-44. But a Lewis
