Seminar Series in Modern Inorganic Chemistry

The Department of Chemistry

State University of New York at Albany

concludes its program of topical lectures describing recent advances in inorganic and organometallic chemistry with two events in the Organic Seminar Series.

Professor Jon A. Zubieta, SUNY-Albany, "Structure and Electrochemical Investigation of Dimeric Molybdenum-Sulfur Complexes."

Professor Zubieta is a 1971 Columbia Ph.D. from the laboratory of Professor S. J. Lippard where he investigated the chemistry of the thioxanthate complexes of iron and cobalt. He spent two years with Professor R. Mason at the University of Sussex in England applying x-ray crystallographic techniques to the structures of ferredoxin and other iron-sulfur proteins. His recent interests include the chemistry of biological nitrogen fixation.

4:00 P.M., Tuesday, 6 May, 1975.

Professor J. J. Zuckerman, SUNY-Albany, "Novel Organotin Chemistry and Structures".

Professor Zuckerman studied under Professor A. G. MacDiarmid at Pennsylvania, E. G. Rochow at Harvard and H. J. Emeléus, F.R.S. at Cambridge. His recent interests include the application of nmr and Mossbauer spectroscopies to the elucidation of the structures and dynamics of organotin compounds, and the synthesis of subvalent organotin(II) species.

4:00 P.M., Tuesday, 13 May, 1975.

CHAMBER MUSIC CONCERT APRIL 29

Music by Vivian Fine will be performed on Apr. 29 at 8:30 p.m. in the Recital Hall of the Performing Arts Center, State University of New York at Albany, by Irvin Gilman, David Gibson, and other musicians from Bennington and New York. Presently Ms. Fine teaches at Bennington College. She is considered to be one of America's foremost women composers. There is no admission fee.

NATURAL HISTORY LECTURE APRIL 29

In an illustrated talk, Dr. Werner Baum, SUNYA professor of biology, will discuss the incredible richess of Adirondack plant life, its natural history, and the specific habitats in which it is found. His lecture, "Adirondack Flora", will begin at 8 p.m. in Lecture Center 18. There is no admission fee for the public lecture.

Special to News Editor:

EMMETT B. FIELDS TO BE 13TH PRESIDENT OF STATE UNIVERSITY OF NEW YORK AT ALBANY

Emmett B. Fields will be the 13th president of what is now State University of New York at Albany, effective July 1. He currently is executive vice president and dean of faculties at the University of Houston. Louis T. Benezet, whom Dr. Fields will succeed, will join the faculty at State University of New York at Stony Brook on Sept. 1 after completing a five-year term as president of the State University Center at Albany.

Dr. Fields has been at the University of Houston since 1969 when he was named vice president and dean of faculties. He held that position, in addition to the faculty post as professor of history, until 1971 when he was named to his present post. Earlier he had served in faculty and administrative capacities from 1957-1969 at Vanderbilt University, his alma mater. He left Vanderbilt as dean of the College of Arts and Science.

Dr. Fields received his Doctor of Philosophy in American history from Vanderbilt in 1953 and his Master of Arts from that institution in 1959. He was awarded a Bachelor of Arts, magna cum laude, from Ouachita College in Arkadelphia, Ark., in 1948.

Among other professional boards and societies, Fields is a member of the American Conference of Academic Deans, the Organization of American Historians, the Southern Historical Association, the Southwest Center for Urban Research, and the Texas Committee for the Humanities.

SENATOR WEICKER TO BE SUNYA COMMENCEMENT SPEAKER

United States Senator Lowell P. Weicker, Jr., will be the speaker at the 131st commencement program of State University of New York at Albany on Sunday, June 1, at 1:30 p.m. His subject will be "Our State of the Union."

Senator Weicker, who holds out his own career as evidence that the voice and influence of young Americans can be effective, was elected in 1962, at age 31, a State Representative from his home town of Greenwich to the Connecticut General Assembly. He went from that legislative body to the United States Senate, winning eight straight election contests on the way.

Senator Weicker serves on the Senate Committee on Aeronautical and Space Sciences, and the Banking, Housing and Urban Affairs Committee. He also serves as an assistant Senate minority whip and vice chairman of the Republican Senatorial Committee. He is a member of the Select Committee on Presidential Campaign Practices which investigated Watergate matters.

In 1953 Senator Weicker received a Bachelor of Arts from Yale University and, in 1958, a Bachelor of Laws from the University of Virginia School of Law.

\$22,803 RAISED BY PHONOTHON FOR UNIVERSITY CENTER

The State University at Albany third annual Phonothon was described as a "gratifying success" by Ronald Schafer, director of the Alumni Association, as \$22,803, the highest total in its three-year history, was pledged.

Some 208 alumni, faculty, and student volunteers manned the telephones during eight evenings seeking pledges for assistance to the SUNYA Annual Fund. This year the fund will support talented student grants, library acquisitions, a bicentennial series of programs, and an undesignated category. Some 4,200 calls were made in all to alumni and friends of the university throughout the state.

Since future prospects for institutional development based upon State resources are slim, Albany, as other public institutions, is turning to the private sector for the supplemental resources necessary to develop and maintain environments of excellence within the university.

In the past, the Annual Fund monies had been used to build the Alumni House and Conference Center, a solar energy powered building located on campus and scheduled for completion this summer.

This year's Phonothon not only raised more money than previous phone solicitations, but more per individual pledge. The average pledge last year was close to \$15, while this year the average pledge was \$19.78.

Parker Mathusa, a 1959 graduate of State University of New York at Albany and chief of energy research and conservation for the New York State Public Service Commission, is national chairman of the 1975 Annual Fund.

SUNYA MUSIC FACULTY AND GUESTS ARTISTS IN MAY CONCERTS

The music department at State University of New York at Albany will be sponsoring an assortment of programs during early May.

On Monday, May 5, at 7:30 p.m., the SUNYA music faculty will present "Ravel Chamber Music" in the Main Theatre of the Performing Arts Center. The principal performers will be Marvin Morgenstern on violin, David Gibson on cello, Findlay Cockrell and Paula Ennis on piano, Irvin Gilman on flute, and guest artist, Jane Bucci, soprano. The program will feature Ravel's "Violin Sonata," "Chansons Madecasses," and "Trio."

Lois Whiteman, a pianist from New York City, will perform her fourth annual recital on Thursday, May 8, at 8:30 p.m. in the Recital Hall. The program will include works by Beethoven, Prokofieff, and Schumann. Highlighting the evening's program will be Schumann's "Grand Sonata in F Sharp."

On Monday, May 12, at 12:15 p.m., the voice students of Marjory Fuller will present 19th and 20th century vocal selections in the Recital Hall. The works of Ned Rorem will highlight the program.

At 8:30 that evening, in the same place, the music faculty will present a second faculty chamber music concert. The performers will be Charles Bioto on clarinet, Randall Ellis on oboe, Arthur Stidfole on bassoon, Ann Teahan on horn, James Morris on trumpet, Findlay Cockrell, Lyn Tolkoff, and Helen Ghiradella on piano, and Jane Bucci, soprano. The program will feature Mozart's "Piano-wind Quintet, K. 452," Schubert's "Der Hirt Auf Dem Felsen," Saint Saens' "Oboe Sonata," and Telemann's "Heldenmusic for Trumpet."

Admission to all concerts is free, and no tickets are required.

SUNYA CHAMBER ORCHESTRA TO PERFORM ON MAY 13

On Tuesday, May 13, at 8:30 p.m., the University Chamber Concert Orchestra at State University of New York at Albany will give its final performance of the season in the Main Theatre of the Performing Arts Center. Nathan Gottschalk, chairman of the university's music department, will conduct.

Highlights of the evening will include "Kanon," by Pachelbel, "Les Nuit d'Ete," by Berlioz, featuring Marjory Fuller as soloist; "Accompaniment to a Cinematographic Scene," by Schoenberg; and Mozart's "Symphony K. 385."

Admission tickets to the concert are free.

SUNYA PROFESSOR AUTHOR OF TWO NEW BOOKS

Leonard V. Gordon, professor of educational psychology and statistics in the School of Education at State University of New York at Albany is the author of "The Measurement of Interpersonal Values" and the co-author, with Akio Kikuchi of Fukushima University, of "Social Psychology of Values--Cross Cultural Studies."

"The Measurement of Interpersonal Values," published by Science Research
Associates of Chicago, has as its major focus the empirical development of a personality
typology based on the ways that individuals prefer to relate to one another. The
typological model describes how individuals in different occupations are similar and
dissimilar in their interpersonal values orientations, and a simple technique which
may be employed to describe individuals in terms of the typological model is outlined.

"Social Psychology of Values--Cross Cultural Studies," published by Kawashima-Shoten of Tokyo, is concerned with research on the measurement of values, undertaken both in the Program for Behavioral Research in the School of Education, where Professor Kikuchi was a visiting scholar in 1968-69, and in Japan after the latter's return. The book discusses various models employed in values measurement, as well as problems associated with the use of such measures in cross-cultural research.

Dr. Gordon, a native of Canada, was educated at the University of California and at Ohio State University where he received two degrees in psychology. He served four years as laboratory chief in the U.S. Army Personnel Research Office in the Pentagon and joined the SUNYA faculty in 1966.

SOLAR ENERGY SUBJECT OF MOHNEN LECTURE

Volker Mohnen, acting director of the Atmospheric Sciences Research Center,

State University of New York at Albany, will be the final speaker in the current
natural history lecture series sponsored by the State Department of Environmental

Conservation, the New York State Museum and Science Service, and ASRC. He will
speak at 8 p.m. in Lecture Center 18 at the university on the topic, "Solar Energy:
Now and the Future."

Dr. Mohnen will review the current and future outlooks for the use of the sun's energy with particular emphasis on recent developments in New York State. An illustrated weather briefing by Ray Falconer, of ASRC, will precede the lecture.

The SUNYA scientist is a Fellow of the American Association for the Advancement of Science and served last year on the Rensselaerville Institute on Man and Science board of counselors. He joined the university faculty in 1967.

Dr. Mohnen holds degrees from the University of Karlsruhe, Vordiplom, and from the University of Munich where he received a Master of Science and a Doctor of Philosophy in physics, meteorology and astrophysics.

Admission to the public program is free.

MEMORIAL FUND ESTABLISHED AT STATE UNIVERSITY OF NEW YORK AT ALBANY

A fund in memory of Glenn Bumpus of Tonawanda, a senior biology student at State University of New York at Albany who was killed on May 3, has been established by the university's department of biology for undergraduate research. Mr. Bumpus was fatally injured when a block of ice fell from the top of a hill and struck him on the head as he was entering Knox Cave, Town of Knox. Another SUNYA student accompanying him was critically injured by the same piece of ice.

Mr. Bumpus was an active member of Beta Beta Beta, an honorary biology fraternity, and of the Scuba Diving Club. A fine scholar, the senior had delivered a paper at the Eastern Colleges Sciences Conference held last April in Chester, Pa., on research he had conducted at the university. He was interested primarily in ecology and plankton and had been accepted by New York University and by the University of Wisconsin, where he had planned to matriculate next fall.

Those wishing to contribute to the Glenn Bumpus Memorial Fund should make checks payable to SUNYA Foundations, Inc., AD 231, State University at Albany 12222.

ALUMNI WEEKEND AT SUNYA

Alumni Weekend 1975 begins Friday (May 9) at State University of New York at Albany and continues through Sunday morning with a variety of events scheduled on both the uptown and downtown campuses. Highlights of the activities include an all-alumni luncheon Saturday (May 10) in the Campus Center ballroom, where more than 300 persons will pay tribute to Coach Richard J. Sauers' 20 winning basketball seasons, and a gala alumni banquet in the ballroom in the evening when there will be a special tribute to President Louis T. Benezet and Mrs. Benezet and to outgoing Alumni Association president Lloyd L. Kelly.

Kay Hotaling '67 and Howard Woodruff '63 have co-chaired the committee which planned this year's program. The weekend's events will begin Friday with an Alumni Association board of directors meeting and dinner, followed by a wine and cheese reception from 7:30-10 in the Fine Arts Gallery. Various class reunions and receptions, with particular emphasis on classes ending in "0" and "5", also are scheduled.

Saturday morning there will be a Continental breakfast, 9-10, in the Campus Center Fireside Lounge, followed immediately by the annual Alumni Association meeting in the Assembly Hall. On the agenda are reports from Dr. Benezet, the association, and Student Association, as well as awards to alumni and students. Tours of the campus and a day-long student exhibit in the Art Gallery also are to be offered.

The luncheon will begin at 12:30 in the ballroom. In addition to honoring Dr. Sauers, alumni will induct the Class of 1925 into the Half-Century Club and will bestow the 1975 Bertha Brimmer, Excellence-in-Service, and other awards.

-continued-

State University of New York at Albany ALUMNI WEEKEND AT SUNYA Page 2

During the afternoon, returning grads will be able to choose from among thletic events, an ice cream social, carillon concerts, and films. Both the "130 Years of SUNYA History" film and the premiere of a film on the SUNYA-Soviet student exchange will be shown in the Campus Center. A tour of the Alumni House-Conference Center, under construction, also is planned.

A cocktail party on the Campus Center terrace from 6-7:15 p.m. will precede the 7:30 banquet in the ballroom. Special alumni awards and entertainment will share the spotlight with the salutes to Dr. Benezet and Mr. Kelly.

The weekend will conclude Sunday morining on the downtown campus with a brunch at 10:30 at the Peristyle, a film on the restoration of the Hawley Library murals, and tours of the downtown campus.

TWO SUNYA STUDENTS WIN LEHMAN AWARDS

Pamela J. Byard and Joel B. Zucker, two students at State University of New York at Albany, have been selected as winners of the New York State Herbert H. Lehman Graduate Fellowships in Social Sciences and International Affairs. The awards are the most highly-prized in the program of scholarships and awards presented each year by New York State.

The Lehman Fellowships were established by the Legislature in 1966 in honor of the former Governor of New York State. The competition is open to outstanding college graduates throughout the United States who plan to pursue graduate study in a college situated in New York State. Recipients of the awards, who are designated as New York State Lehman Fellows, may receive up to \$19,000 for four years of graduate study, beginning in September 1975.

Applications for the fellowships were received from a total of 197 candidates, of whom 47 are residents of other states. Of the 30 fellowship winners, 21 are residents of New York State.

A special committee composed of senior graduate faculty from institutions in New York reviewed the qualifications of candidates. Awards were based on an evaluation of test scores, academic records, and personal qualifications.

Ms. Byard, a graduate of Liverpool High School, is an anthropology major and plans to enroll in a master's program in physical anthropology at SUNYA or at another university in New York State. She is a member of Phi By a Kappa and of the Outing Club.

STUDENTS, ALUMNI ELECTED TO PHI BETA KAPPA AT UNIVERSITY CENTER

Ninety-one students and former students have been selected for membership in the Alpha Alpha Chapter of Phi Beta Kappa at State University of New York at Albany. The spring initiation of new members took place Thursday (May 8) evening in the Assembly Hall of the university center's Campus Center, preceded by a social hour.

In the group of new members are 66 seniors, 20 juniors, one graduate student, and four alumni. Among the latter are two historians, a biostatistician and epidemiologist, and a theologian.

Gerhard L. Weinberg who was graduated magna cum laude from SUNYA in 1948, is currently W. R. Kenan Jr. Professor at the University of North Carolina, Chapel Hill, N.C. He is the author of many publications on modern German and diplomatic history, culminating in his "Foreign Policy of Hitler's Germany" (1970) for which he was awarded the G.B. Beer Prize of the American Historical Association.

Robert F. Berkhofer, a magna cum laude graduate from SUNYA in 1953, currently is professor of history at the University of Michigan, Ann Arbor, Mich. He, too, is the author of numerous publications, particularly on theory and methodology of history. An example is "A Behavioral Approach to Historical Analysis" (1971).

Calvin Zippin, a Class of 1947 alumnus, was graduated magna cum laude. Presently, he is professor of epidemiology at the Cancer Research Institute of the University of California Medical Center. His published works include numerous authoritative publications on the study of cancer.

Donald M. Stine, a summa cum laude graduate and valedictorian of the Class of 1953, is editor of "Enquiry" and associate for adult resources, Program Agency, United Presbyterian Church in the U.S.A. He is the recipient of the Old Testament Prize, Princeton Theological Seminary, where he taught at one time.

Newly-elected officers of the chapter of Phi Beta Kappa at SUNYA are Henry G. Kuivila, chemistry, president; M.E. Grenander, English, vice president; Arthur A. Ekirch, Jr., history, historian; Perry D. Westbrook, English, secretary; and William Reedy, history, treasurer.

NEW GRADUATE ACCOUNTING PROGRAM AT SUNYA COMPLETING FIRST YEAR

It hasn't been what you'd call a seller's market in many major academic fields, but one which has held up well is accounting. That, in part, accounts for the interest in a new graduate accounting program being offered at State University of New York at Albany.

Now nearing its second year, it has attracted students who have had no previous accounting experience or course work, and who have degrees in areas about as far removed from accounting as one can get. Some examples are philosophy, psychology, German, sacred music, civil engineering, physical therapy and physics.

The four-semester curriculum, with a maximum of 57 semester hours, leading to the Master of Science in accounting, was put into operation during the present year. The program is designed for candidates holding an undergraduate degree in any academic area of the humanities, the social sciences, the sciences, and the like, and does not require any prior preparation in accounting or business. It thus meets the need of those who decided on a career in public accounting after having graduated in another academic field.

The program has been approved by the New York State Education Department Bureau of Licensing which enables the successful graduate to take the Certified Public Accountant examination upon completion.

While the program is intended primarily for full-time study, parttime arrangements may be made in individual cases depending on a candidate's por academic work in accounting, statistics, mathematics, economics, or

other business-related areas. Additional information is available from the Graduate Admissions Office, School of Business, 457-8514.

CHORAL AND PERCUSSION PROGRAMS AT SUNYA

Among musical events scheduled by the department of music for the week of May 12 at State University of New York at Albany are a choral workshop-performance and a student recital.

The Choraliers of Northport, Long Island, directed by Garland Butts, will perform Wednesday, May 14, at 3 p.m. in the Recital Hall of the Performing Arts Center. The noted junior high choral organization will sing works by Handel, Frackinpoll, Brahms, and Persichetti. There is no admission charge.

Warren Stein, percussion, will be heard in a student recital Saturday, May 17, at 8:30 p.m., also in the Recital Hall. Performing with him will be Findlay Cockrell and Diane Guernsey, piano, and Richard Albagli, percussion. Selections will include "Sonata for Two Pianos and Percussion," Bela Bartak; "Three Visions for Percussion," Albagli; and "Sonata for Three Unaccompanied Kettledrums," Daniel Jones.

Admission is free and no tickets are required.

SUNYA POLITICAL SCIENTIST TO BE JOINT RESEARCH FELLOW AT COLUMBIA

Erik P. Hoffmann, associate professor of political science, Graduate School of Public Affairs, State University of New York at Albany, has received a grant from the American Council of Learned Societies and the Social Science Research Council. He will be a joint Senior Research Fellow at the Research Institute on International Change and the Russian Institute of Columbia University during the academic year, 1975-76.

Professor Hoffmann is one of thirteen scholars to receive the post-doctoral grants for research in the humanities and social sciences. The individual grants are intended for the provision of free time, for domestic or foreign travel necessary to gain access to materials, for clerical or research assistance, or for purchase or reproductions of research materials. With grant support, Dr. Hoffmann will study the scientific-technological revolutions and the Soviet political system.

The political scientist, who received his doctorate at the University of Indiana, is the author of published works on the Soviet political system, including "Soviet Metapolicy: Information Processing in the Communist Party of the Soviet Union," which appeared in the Journal of Comparative Administration, and "Political Opposition in the Soviet Union" printed in the book, "Political Opposition and Dissent," published by Nunellen.

CONFERENCE ON SEXUALITY TO BE HELD AT SUNYA

A conference on "Communication and Sexuality" will be held Wednesday, June 11, and Thursday, June 12, at State University of New York at Albany in Lecture Center 18. The Council on Human Sexuality, a capital area council promoting programs to improve communication between adults and youth about human sexuality, is sponsoring the sessions.

The objectives of the conference are to recognize the importance of accepting one's sexuality as a unique expression of self, to gain an awareness of the need for communication in the expression of human sexuality, and to gain an awareness of the impact of sexuality on family relationships.

Beryl and Noam Chernick, practicing physicians in London, Ontario, will speak at the conference. After completing extensive post-doctoral training in marriage counseling, the couple has worked for six years as a co-therapy team helping those with marital and sexual problems. They have addressed numerous professional organizations and community groups throughout North America, including the American Medical Association, Nursing Educators, Mental Health Associations, and the American Association of Sex Educators and Counselors. In addition, the Chernicks have produced the widely acclaimed film, "Sexuality and Communication," and have been guests on the Mike Douglas Show.

Wednesday's program is entitled "Sexuality and Marriage" and will be held from 8 to 10 p.m. Registration will begin at 7:30 p.m. Thursday morning's topic will be "Sexuality in the Early Years--Birth Through Adolescence" and will be held from 1:30 to noon, following registration at 9 a.m. Thursday afternoon's topic will be "As Sexuality Matures--From

State University of New York at Albany CONFERENCE ON SEXUALTIY TO BE HELD AT SUNYA Page 2

20 to 90" and will begin at 1 and end at 3:30.

Those interested in attending the conference may write to Family and Children's Service of Albany, Inc., 12 South Lake Avenue, Albany 12203 to obtain an application. All forms must be submitted by June 1.

UNIVERSITY SCHOLAR RECEIVES SIXTH GUGGENHEIM AWARD

Joseph Szoverffy, chairman of the department of comparative literature at State University of New York at Albany, has received his sixth Guggenheim grant. Dr. Szoverffy will use the grant to publish a twovolume Abelard edition.

In addition to the grant, the scholar has been invited to participate at the ninth seminar of the Symposium on the East European Peasantry to be held at Harvard University this month. He also has received a grant from the Research Foundation of SUNY for a study on "Contemporary Context of Abelard's Social Criticism," to be completed by 1976.

Professor Szoverffy, one of six SUNYA faculty members appointed
SUNY Faculty Exchange Scholars, was visiting professor at SUNY Binghamton
and there spoke on "The Tormented Cry: Abelard as World and Social
Critic." At SUNYA this year, he gave an illustrated lecture on "Opera
and Ideology: The Magic Flute Between Baroque and Enlightenment" in the
Aspects of Opera series sponsored by the university's department of music.

Dr. Szoverffy, a renowned scholar, is the author of numerous books and articles in many languages. Among them are a study entitled "A Hebrew Legend About the Death of Aaron and the Medieval Pilate Traditions" in "Melanges Labande," celebrating the 25th anniversary of the Centre d'Etudes Superieures de Civilisation Medieval of the University of Poitiers, France, an article on Kultgeschichte aund Politik" in the "Archiv f.Kulturgeschichte" in Cologne, Germany, and another long study on "A Conscious Artist in Medieval Hymnody: Introduction to Peter Abelard Hymns" in the Classica and Iberica."

APRIL GRANTS AT UNIVERSITY CENTER TOTAL \$480,030

Grants totaling \$480,030 have been received by 22 faculty members at State University of New York at Albany, and by the institution, for the month of April, according to a report issued by Louis R. Salkever, vice president for research.

The recipients, sponsors, project titles, and awards are:

Geirmundur Arnason, atmospheric sciences, National Science Foundation, "Numerical Simulation of Moist Convection in Two and Three Dimensions," \$55,800; Thomas M. Barker, history, American Philosophical Society,
"Military Nobility in 17th and 18th Century Austria," \$750; Paul Bulger,
educational administration, Research Foundation of State University of
New York, "Region III Graduate Assistant for Council of Presidents,"
\$1,500; Lindsay N. Childs, mathematics, NSF, "Azumaya Algebra and
Galois Extensions," \$8,400.

Also, Charles Edwards, biology, Heart Association of Eastern
New York, "Muscle Contraction Velocity and Actomyosin Kinetics," \$5,910;
Tara P. Das, physics, NSF, "Electronic Structure and Electron Nuclear
Hyperfine Interactions in Solid State," \$31,200; Nathaniel Friedman,
mathematics, NSF, "Ergodic Theory," \$10,800.

Also Sheldon A. Grand, counseling and rehabilitation services,

SUNYA SCIENTIST RECEIVES SLOAN RESEARCH FELLOWSHIP

Helmut Hirsch, assistant professor of biology at State University of New York at Albany, has been given another research boost with the award of a Sloan Foundation Research Fellowship. It is one of 86 granted in 1975 to young scientists in 53 colleges, universities, and research institutions.

The Sloan Fellowship will be worth some \$17,000 for continuing research. Dr. Hirsch's work involves the learning process in the brain with regard to sight. He studies cats under controlled sight experiences during their infancy.

Using brain probes, Dr. Hirsch and his research team of graduate students have been able to trace patterns of learning. He feels the kind of work he and others are doing could eventually lead to the development of an artificial eye. More immediately, his work is developing a body of knowledge on the psychological and physiological relationships of sight.

Dr. Hirsch credits the University Center at Albany with providing him "a tremendous freedom to develop, with enough funds and with intellectual freedom."

"It is an accepting atmosphere, warm and supportive," he said.

Dr. Hirsch also has been the recipient of a major National Institute

of Health award earlier.

For the fourth time in the 20 years of the Sloan Foundation program, the awards include fellowships in neuroscience, Dr. Hirsch's field. Ten of the fellows are neuro-scientists. The Sloan Fellowships make possible advances in fundamental research by young scientists at an early stage of their careers. Dr. Hirsch is 31. Six hundred nominations were received nationally.

SUNYA DISTINGUISHED PROFESSOR ELECTED TO SPANISH ACADEMY

Gonzalo Torrente-Ballester, recently retired Distinguished
Professor of Spanish at State University of New York at Albany, has
been elected a member of the Spanish Academia Real, the most distinguished assemblage of writers and scholars in Spanish.

Professor Torrente-Ballester is an outstanding novelist, critic, and literary historian. His books, "Panorama of Contemporary Spanish Literature" and "Contemporary Spanish Theatre," are now standard works in the field of Spanish literature. The scholar also is the author of numerous articles and essays which have appeared in newspapers and literary reviews.

A professor of literature since 1940, Mr. Torrente-Ballester received his education at the universities of Madrid, Oviedo, and Santiago in Spain and at The Sorbonne in France. He joined the faculty at State University at Albany in 1966.

FOR RELEASE 6 p.m. 5/20/75

REPORT OF THE SELECT COMMITTEE ON ACADEMIC PROGRAM PRIORITIES

Extensive changes in academic programs at State University of New York at Albany, including suspending or phasing out several undergraduate, Master of Arts and Doctor of Philosophy programs while strengthening others, have been recommended to University President Louis T. Benezet. The recommendations were made by a special faculty-student committee appointed by Dr. Benezet in January.

The committee found that 80 percent of the academic programs of the niversity Center at Albany were soundly conceived and administered. Some, the committee said, were clearly superior and nationally distinguished. Of the 62 academic units, containing 151 academic programs evaluated by the committee, 12 degree programs were recommended for suspension or termination. Of them, six are at the doctoral level, three at the master's level, and three at the undergraduate level. The committee also suggested reductions in the resources made available to six programs, and the continuation, under specified conditions, of several other programs. On the expansion side of the ledger, the committee asked for the addition of resources to five programs and the establishment of two new programs.

President Benezet declined to identify the affected fields "until department chairmen and deans have studied the recommendations pertinent to them and submitted their responses to my office." He said several councils of the University Senate and other advisory bodies would also be consulted before any action is taken on the major recommendations of the committee.

1400 WASHINGION AVENUE • ALBANY, NEW YORK 12222 • AREA CODE 518 457-4901

State University of New York at Albany REPORT OF THE SELECT COMMITTEE ON ACADEMIC PROGRAM PRIORITIES Page 2

The committee's study is the most comprehensive assessment of academic quality since the campus's designation as a University Center in the early 60's.

The committee concluded that, because of financial pressures and a sense of public responsibility, State University at Albany cannot continue full "horizontal development" of academic programs at all levels, but must become more selective in its goals and in the choice of options. However, it stressed the principal aim of "the continuing development of the excellence of this campus." The committee's report pointed out that the development of the Albany campus within the State University system was virtually stopped in 1970-71. While New York State funding for all institutions of higher education increased by 41 percent between 1972 and 1974, the Albany campus's share increased by only 15 percent, the lowest of the for University Centers and lower than the rate of inflation.

Six criteria were applied by the committee in establishing the priority of each academic program:

- 1. quality and effectiveness
- 2. external and internal demand
- 3. present costs and improvement costs
- 4. leadership and capacity for growth
- 5. centrality to the total educational enterprise
- 6. relationship to the State University system and to regional needs

Composed of ten professors, a graduate suudent, and an undergraduate student, the Select Committee said, in the body of its report, "This University Center can ill afford high-cost, low-enrollment programs which do not represent the finest extensions of scholarship and teaching in contemporary education. The obverse of the coin is to attract outstanding, established, and emerging scholar-teachers who will move programs to new -continued-

of the State and the rest of the University community."

The committee stressed that it "does not accept the view that one chooses either research or teaching." And the report added that "There is no real conflict between teaching and scholarship, in the fullest and best sense of both of those endeavors."

Commenting on the report, President Benezet said, "The Select Committee in four hard months, without release from regular teaching duties, has covered a remarkable breadth and depth of SUNYA's academic programs. Our task now is to test these recommendations in terms of positive decisions for the University's progress, balancing traditional and socially responsive programs. The time required for thorough consideration means that many decisions inevitably will become the responsibility of the incoming President, Dr. Emmett Fields. We shall be in frequent consultation with him meanwhile."

ALBANIAN RECEIVES LEMON AWARD AT UNIVERSITY CENTER FOR THESIS

Raymond Taylor, of Albany, has been selected at State University of New York at Albany to receive the 1975 Paul C. Lemon Award for outstanding research in ecology and environmental studies for his Master of Science thesis, "Seasonal Trends in CO₂ Exchange Characteristics and Growth of Understory Species of the Deciduous Forest."

The award was established by Dr. Lemon, former chairman of SUNYA's department of biological sciences, to encourage and recognize distinguished scientific scholarship completed by master's or doctoral candidates.

The award and the accompanying prize of \$300 were presented to Mr. Taylor at a luncheon in the university's Campus Center. John Mackiewicz, biology, served as chairman of the selection committee. Other committee members were Jon Scott, environmental studies; Daniel McKinley, biology; Joseph Heikoff, public administration; and John Aronson, chemistry.

The winning thesis was one of 12 narrowed from a field of Ph.D. and 55 M.S. theses for the calendar years 1973 and 1974.

STATE UNIVERSITY SENIOR WINS DAR HISTORY AWARD

Curt Woodcock, a senior majoring in history at State University of New York at Albany, is the recipient of the annual scholarship given by the New York State Daughters of the American Revolution for graduate work in American history. Mrs. Henry J. Horstman, chairman of the New York State American History Award Committee of the DAR, presented the award in the university's Campus Center.

The \$400 scholarship is given to a senior history major who is preparing to teach history in either high school or college and who has an overall academic standing of 3.0 or better. A committee from the social science department at SUNYA nominates three candidates, and a committee of three of the American History Award of the DAR makes the final selection.

Mr. Woodcock, originally from Lockport, is a graduate of Newfane Central H.S., Newfane, and hopes to teach social studies in the fall in New York State. The recipient has participated in basketball at the junior varsity level and in track and cross-country at the varsity level. He is a member of Alpha Phi Alpha fraternity.

Also attending the award presentation were Mrs. S. Benjamin Meyers, a member of the committee of three and a member of the Gansevoort Chapter of DAR; Caroline A. Lester, professor emeritus at SUNYA and a member of the Mohawk Chapter of DAR; and Catharine Newbold, professor of history at SUNYA and a member of the university's nomination committee.

UNIVERSITY CENTER AT ALBANY TO AWARD NEARLY 4,000 DEGREES

131st Commencement Program Slated for Sunday, June 1; U.S. Senator Lowell P. Weicker, Jr. To Speak

An estimated 3,978 degrees will be conferred at the 131st commencement program at State University of New York at Albany on Sunday, June 1, beginning at 1:30 p.m. on the Campus Center Mall. Of that number, 2,607 persons are candidates for degrees completed during the spring semester. The academic procession will begin at 1 p.m.

Total figures for the 1974 August and December graduating groups and the June 1 degree candidates are as follows: Bachelor of Arts, 1,323; Bachelor of Science, 912; Master of Arts, 425; Master of Science, 712; Master of Public Administration, 72; Master of Library Science, 173; Master of Business Administration, 59; Master of Social Work, 102; University Certificate, 91; Doctor of Philosophy, 66; Doctor of Education, 40; Doctor of Public Administration, 2; and Doctor of Arts, 1.

The main commencement address, "Our State of the Union," will be given by United States Senator Lowell P. Weicker, Jr. Innovations in this year's graduation program will be an address by the president of the Senior Class, Linda Weinstock, and music by the Colonie Central High School Band under the direction of Paul Aldi. The invocation will be given by Rabbi Joel Chazin of Congregation Ohav Sholom.

Many schools, colleges, and divisions are planning receptions on

commencement day, most of them prior to the program. President

Louis T. Benezet will be host at a reception for the 109 doctoral

degree recipients, their advisors, families, and friends in the Campus

Center Patroon Room immediately following the ceremonies.

In the event of rain, the commencement ceremony will be held in the main gymnasium of the Physical Education Building. Families and guests will view the full graduation program via live, closed-circuit television in Lecture Center halls, the Campus Center Ballroom and Assembly Hall, and the Main Theatre in the Performing Arts Center.

Date.. May.. 29, .. 1975.

Miss Denise R. Rubin 192 Delaware Ave. Freeport, N.Y.

Dear Miss Rubin:

We are in the process of writing a hometown release on the students inducted into Myskania.

We would appreciate your sending us information about yourself, including any activities and offices you have held or hold, your major, and your plans after graduation. The name and address of your hometown newspaper also will be needed.

Thank you very much.
