## TEA DANCE AND BRIDGE PARTY IN COLLEGE HALLS TO-MORROW, TWO TO FIVE

Senior Class Plays Hostess to All College Students

### NO ADMISSION

At last! Something new going on at State College! A tea dance! Saturday, March 19, from two until five. A snappy, jazzy orchestra on the first floor will provide the incentive for the "light fantastic", and inviting tables and chairs on the second floor will pacify the ardent disciples of Mah Jong and Bridge. Also, it's free, absolutely no admission and not even a collection, thanks to the Senior class. There will be a traffic cop at each entrance to guide the overflow to the Gym. Only State College students are to be admitted.

### H. E. CLUB NOMINATES FOR NEXT YEAR'S OFFICERS

Home Economics Club has taken action toward installation of next year's staff. The Club, as a successful functioning part of College life has been a success and with the elections approaching its hopes rise high for the coming year.

#### Nominations are:

For President: Jessie Wayman, Marjorie Livingston, Jacquelyn Monroe.

Vice-President: Ruth Bussey, Jeanette Manville.

Secretary, Veronica Noone, Ellen Watson.

Treasurer: G. Root, Jean Dardess. Marshall: Elizabeth Bender, Dorothy Sinnott, Helen Smith, Dorothy Rex, Mary Flannigan, M. Martin.

Reporter: J. Dardess, Marion Record.

Senior Editor: Dorothy Taylor, Alida Boughton, Mildred Babcock, Zelma Gorman.

Junior Editor: M. Gruman, E. Cope, D. Lamb, Doris Begar.

### MISS PERINE GAVE COLOR LECTURE TO FRESHMEN

Have you ever noticed how Nature mixes her colors, in what way she produces the greatest harmony in her children? Miss Perine, in freshmen lecture, March 25, demonstrated how Nature is the best model after which to fashion our color schemes.

In spring the colors are light and dainty, the light green of the leaves, and the delicate hues of the blossoms. As summer comes on the colors grow darker of a richer, deeper tint, until in the autumn they are very dark, and coming winter robs them of their glory. It is indeed very true that everything in Nature is full of color.

There are three principle colors (1) yellow, that color which is nearest sunshine, (2) red, (3) blue. The warm colors are yellow, red, and orange and the cold colors are green, blue, and purple.

(Continued on Page Four)

## ANNIVERSARY "STEAL" ATTEMPTED BY THE FRESHMEN AT SOIREE

Bribery Played Big Part In Averted Tragedy

Failure of the freshmen to re-enact the now famous drama entitled, "The Flight of the Sophomore Banner from the Soiree," first portrayed at State College by the class of 1925 two years ago, has brought to light during the last week sensational details of an attempted bribe.

Should the bribe have been accepted and the same details, as are now known, leaked out, the New York State Legislature would have had a little Teapot Dome party all of its own. Because of the source from which the details have been learned concerning the bribe offer made by a "high official" of the freshman class, all the facts of the case cannot be divulged.

A plea of self-incrimination having been taken by the author of this horrifying expose, it is necessary first that it be known that on Friday night, one week ago, the sophomore Soiree took place in the gymnasium. A few hours before the start of that social affair, a "special" meeting of the freshmen was held secretly, having been called by President Comstock.

If all the minutes of this meeting were available for publication, it would send the Senate oil probes into three fits. The facts are known, but they are not to be told, outside of the fact that it was at the meeting that bribe plans were conceived.

The essence of the case is that a certain member of the freshman class offered Leo Coleman "any sum he might name" to stay away from the gymnasium when it was about time for the soiree to break up. Under such conditions, it was foreseen, the attempt to "steal" the soph banner might have succeeded. But the mighty Leo wasn't desirous of having his name added to the political embryo, and consequently, the sophomore banner is now back where it has been for some months.

### NEW CONTRIBUTIONS KEEP ON SWELLING DORM. FUND

Over Ninety Percent of Senior Class Has Pledged

Pledges for the Residence Hall Fund are coming in at the rate of about five hundred dollars a week. They come from alumni of all the different classes, those who pledged last week ranging from George Boussard, '68, to Florence Littell, '20. The total pledges to Monday, March 24, amount to \$110,200. Of this, almost forty thousand dollars has already been paid. Nearly ninety percent of the class of '24 have already pledged, their pledges amounting to \$99,635.

## COLLEGE SING IN CHAPEL APRIL 4TH — BRING SONG BOOKS

There will be a sing in Chapel on the first Friday in April. Everybody come and bring their song books and their best Sunday go-to-meeting singing voice!

## SOPH.-FROSH DEBATE AROUSED GREAT SHOW OF ENTHUSIASM FOR AND AGAINST THE BOK PEACE PLAN ISSUES

A second battle was staged in Assembly on Friday morning, March 21; this time the contestants were the sophomores and the freshmen. The threes were quite equally matched, making the interest more intense. It was apparent from the previous debate that it is not always the higher class that is superior in knowledge and pep so the result was all the more uncertain. The members of the teams were:

<b>Sophomores</b>	<b>Freshmen</b>
Mary Flannigan	Ruth Colburn
Robert McFarland	Kent Pease
Isabel Plude	Helen Zimmerman
Marguerite Leishman (alternate)	Julia Fay (alternate)

## FANTASY AND IRISH COMEDY NEXT DRAMATIC PRODUCTION

The next two plays to be given by the Advanced Dramatic class will be "Manikin and Minikin," directed by Rosaline Greenberg, and "Mrs. Pat and the Law," directed by Helen Orr.

## SENIOR APPOINTMENTS EXCITE MORE THAN THOSE APPOINTED

Mysterious whispers, much hand-shaking and quiet little ripples of laughter every now and then! Underclassmen at State suddenly sat up and utilized the gray matter last week. What was it all about? Senior appointments, of course. The class of '24 is preparing to leave the home nest, and everyone watches with interest the start of the flight. Many appointments from the various departments have been made. From the Commercial side of the house, Professor York announces the appointment of Marie Millet for a position in Millbrook, New York, and Marca Todd in Cobleskill, New York.

## PICTURES IN EXHIBIT TO BE ROTATED—WATCH!

The Dramatic and Art Association is bringing to State college a group of pictures from the American Federation of Art, one of the noted traveling Exhibits now in this country.

The pictures extend over different art periods and are of a general interest to every student.

They are to be on exhibit in the halls for the next three weeks. The exhibit will be changed from time to time, and so watch the boards for new paintings.

## MOTHER AND DAUGHTER WEEK-END HOLDS BIG SURPRISES FOR ALL VISITING PARENTS

Y. W. C. A. Makes Arrangements For Entertainment of Mothers

Have you written your mother yet? You must do your part and the Y. W. promises hers. Inform your mother that you expect her to come to Albany that week-end instead of Moving-Up Day. The Y. W. promises to make her outing well worth while.

## DR. BRUBACHER TO PRE-SIDE AT DISTRICT SUPERINTENDENTS' MEETING

President Brubacher will deliver the principal address at the annual meeting of New York State district school superintendents on April 11 at Chancellor's hall, State Education Building.

## 900,000 DOLLAR APPROPRIATION TO BE GIVEN TO THE COLLEGE BUILDING FUND

State Legislature Expected To Pass On Building Fund

An appropriation of \$900,000 is to be included in the general appropriation bill of the state for the erection of an addition to State College, Senator William T. Byrne of Albany, author of the Milne hall plan, has assured President Brubacher.

The Senate finance committee and the Assembly ways and means committee are busy formulating the general budget, which will be adopted next week, just before the end of the 1924 session of the legislature. It is said with some authority at the Capitol that the State College appropriation will be given a preferred place on the budget.

Although the state budget this year is to be higher than last year, it is not believed the legislature will prune any of the expenditures for educational purposes, as the development of the state's school system is one of Governor Smith's pet projects.

The inclusion of the college appropriation in the general bill to be passed by both houses will start the ball rolling for the realization of Dr. Brubacher's plans to make State College rank as a leader in teacher training. The addition of a science building, to be known as Milne hall, will allow a registration of close to 1,200 students each year, it is figured.

## PRIZE ESSAY CONTEST PROGRESSING RAPIDLY

Professor Hidley says that the History essay contest is getting along very well. Already there are fifteen applicants and many more to come.

## State College News

Vol VIII March 28, 1924 No. 22

Published weekly during the college year by the Student Body of the New York State College for Teachers at Albany, New York.

The subscription rate is three dollars per year. Advertising rates may be had on application to the business manager.

(Articles, manuscripts, etc., must be in the hands of the editors before Monday of the week of publication.)

### A FRESHMAN'S WAIL

The freshman class has been informed by the authorities that it may have no spring dance. "It is a college tradition that the freshman class has no social function," they are told. We have noticed that in the past college traditions have been revised with very little difficulty. Also, the class of '27 is the largest that has yet graced State's halls, and therefore is leaving more with the college than has any previous class. Should not the class doing more for the college receive a little extra consideration?

#### To the Freshmen Who Wail:

Would you be very very happy if you could do everything in the world that you wanted to do; if you had everything just as you liked it, always? Would you be happy in a world or even a section of a world where there was nothing to look forward to, nothing to leave a bit better than you found it?

Would you really be happy here at College, if you could do just what you wanted to do just when you wanted to do it?

What would be the use or fun of being a senior if you had enjoyed all the senior privileges during your freshman year?

Please, please, think a bit toward the year 1927 and of the two intervening years. And in thinking of the seniors who seem to hold you in strict repression, think of the time when they too were only freshmen, when they too wanted to do things which were not permitted. Will you take the advice of a senior who has run the race from repression to freedom and dignity; will you look at your fellows with a bit more understanding and remember that life everywhere is worthwhile only when you "live and let live?"

'24.

## STUDENT OPINION

### A MERE MAN EXPRESSES HIS OWN OPINION ABOUT THIRTY-SEVEN GIRLS

Alas! when we look at the few of our number who have withstood the desire to have their hair left in some convenient barber shop with the sign "Hair Bobbing a Specialty." Thirty-seven of our number have been tempted and have not been able to withstand. As a result we have a few more girlish looking maidens going forth to teach our future citizens. As a consolation we can yet say, "Yes, we have a few old-fashioned girls left." But for how long?

### MAN TO MAN

There is one thing we want at State and that is more men. We not only want them; we need them. Certainly, not all men want to be teachers, but there is a reasonably large number who every year, are turning to this profession. Why not get them for State? You men who are here, put it up good and strong to them. Show them that State has something to offer.

Athletics have a good start, keep them going. Good teams put a college on the map quicker than any other activity. We want S. C. T. to have her place, firm and secure.

Men here's your chance. When you knock off work for the spring vacation and later for the summer, talk State, and talk it as if you knew what you were saying and meant it. Get men here at State. Perhaps even the women would welcome a few more to relieve the present one-sided ratio. '26.

## BROADCAST

Miss Countermine, of the Library School at the State Education Building, is doing a month's practice work in our own college library upstairs. Kappa Delta Rho welcomes John Gainer, '26, as pledge member.

Shorty Hawthorne, '21, was a guest at the Kappa Delta Rho house last Sunday evening.

**Thursday, April 3**

Basketball Banquet—6:00-8:00—Cafeteria

**Friday, April 4**

Senior Hop—8:00-1:00—Gymnasium

### NEWMAN NOTES

At the Cathedral of the Immaculate Conception members of the Newman Club from Troy, Schenectady, and Albany attended High Mass on Sunday, March 23. Bishop Gibbons of Albany gave the sermon. A Quarterly Communion of Newman Club will be held on Sunday, April 6 at St. Vincent de Paul's church. There will be a breakfast immediately afterwards in the Vincentian Hall.

A cake sale on St. Patrick's day, March 17, netted the sum of fifty dollars for the Dormitory Fund from Newman Club.

Thru  
The  
Keyhole

Ralph Beaver has received a cookbook from one of the large manufacturing concerns. We wonder what subjects Ralph intends to teach next year? Can it be Domestic Science?

Did you know that your success for the year is measured by the distance you see your first robin from the ground? Make sure your robin is in the clouds and not on the ground.

It appears that Minerva needs medical care and moral guiding. She stands in her accustomed place but between her lips she still retains the end of a cigarette and as she has never smoked before and didn't know when to stop she burned severely her nose and mouth. Will she be expelled?

### SCULPTOR FASCINATED STUDENTS WITH SKILL AND CLEVER REMARKS

To those whose privilege it was to hear the lecture given by Mr. Lorado Taft at Chancellor's hall Tuesday evening, March 25, little need be said as to its real worth; to those who were not present we can only hope to give a glimpse of the value and enjoyment of being given an opportunity to see something of the real life of a sculptor.

Mr. Taft's first aim was to give an elementary knowledge of the human body and its relation to his art. His next was to show by use of various models the manner of expression and the methods employed to produce it in the field of sculpture.

In the person of Mr. Taft was present not only the genius but a wonderful and congenial personality as well. He made an instant appeal to the entire audience not only to those interested in this phase of art but to all interested in the beautiful things of life. His various models were taken from life and presented in a manner which made the lecture more than the moulding of clay; it showed that Mr. Taft was heart and soul in his work and wished to impart to others a little of the zeal which he felt.

The Dramatic and Art Association deserves much credit for having secured such an artist as Mr. Taft to come before the students of the college and those interested in art to give them a deeper and truer understanding of that great art, sculpture.

H. G.

### LORADO TAFT ENTERTAINED BY PEOPLE OF ALBANY

Miss Perine and Miss Brate entertained for Mr. Lorado Taft at a buffet supper Tuesday afternoon at six o'clock at Miss Brate's home at 721 Madison Avenue.

Among the guests were Walter Lant Palmer and Mrs. Palmer. Mr. Palmer is one of the noted artists of the day and a resident of Albany. Mr. David Lithgow from Troy and Mr. Hughes, a portrait painter. Mrs. Lathrop and Misses Dorothy and Gertrude Lathrop all of whom are deeply interested in art and sculpture. Mrs. Fidler, president of the Women's Club of Albany, Mrs. Barcus, Mr. and Mrs. Winslow, Mrs. Brubacher, and many others deeply interested in all artistic problems.

Dorothy Bennis, '24, president of the Dramatic and Art Council, and Olga '26, secretary, assisted Miss Perine and Miss Brate at the supper.

### MUSIC CLUB HEARS A PEPPIY PROGRAM

A peppiy little banjo program was planned for the weekly meeting of the Music Club on Thursday, March 27. The members of the Orchestra who made up this entertainment were Dot Hoyt, Isabel Wallace, Martha Lomax, Edna Layton, and Marion Benedict. Music Club offerings are furnishing a bright spot in every week for the lovers of the tuneful art, and more than one freshman despite history quizz and its attendant horrors, hails Thursday with genuine delight. At a meeting on Thursday, March 27, the election of Music Club Council members took place.

### MATH CLUB TO GIVE INITIATION PARTY IN GYM

The Mathematics club is planning its usual annual attraction. When? Saturday, March 29. Where? The College Gymnasium. What? Its initiation! Stunts, refreshments, songs and dancing, what else could be added to make an evening enjoyable? Ask Marilla Van Gelder, General Chairman of the committee, and she may hint of other surprises in store for those who attend. If fear of a chaperon keeps members away, the most amiable of ladies have been invited, so rest assured on that score, all you initiates, and don't fail to attend.

### CANTERBURY CLUB HEARD GIRLS FRIENDLY SECRETARY

A regular meeting of Canterbury Club was held Thursday evening, March 27, at Mrs. Plum's, 285 Quail St. Mrs. Woodard, the travelling secretary of the Girls' Friendly society, gave an interesting talk on "The Problems of the Girl in Industry."

### SILVER BAY MEETING NEXT TUESDAY IN ROOM B

A Silver Bay meeting will be held Tuesday, April 1, Josephine Kent, chairman.

### CANTERBURY COMMUNION

A Corporate Communion will be held at St. Andrew's church, at Main and Western avenues, Sunday, March 30, at 11 o'clock.

### MATH CLUB VS. POLY SI

Another debate is in store for State College! This time Math. Club and Political Science Club are to hold forth.

EDMUND HALLEY  
1656-1742

Son of a London soap-boiler who became Astronomer-Royal. At the age of 20 headed an expedition to chart the stars of the Southern hemisphere. Financed and handled the printing of Newton's immortal *Principia*.

## The comet came back

The great comet that was seen by William of Normandy returned to our skies in 1910 on its eleventh visit since the Conquest. Astronomers knew when it would appear, and the exact spot in the sky where it would first be visible.

Edmund Halley's mathematical calculation of the great orbit of this 76-year visitor—his scientific proof that comets are part of our solar system—was a brilliant application of the then unpublished *Principia* of his friend Sir Isaac Newton.

The laws of motion that Newton and Halley proved to govern the movements of a comet are used by scientists in the Research Laboratories of the General Electric Company to determine the orbit of electrons in vacuum tubes.

As spectacular as a comet has been the world's electrical development. By continuous scientific research the General Electric Company has accelerated this development and has become a leader in the industry.

# GENERAL ELECTRIC

## CLASSICAL CLUB HEARD HUMOROUS TALE OF WOE OF LATIN TEACHERS' FATE

"Bubbles, bubbles, who has troubles?" The Latin school ma'am, of course, as proved by Alice Sisson at a recent meeting of the classical club, held Wednesday, March 19. In a humorous article composed by Miss Sisson, the terrible struggles of a Latin school master of the past and a Latin school teacher of the present were amusingly depicted. Members of the Club laughed in the very face of such difficulties and lustily entered into the singing of Latin songs. An enjoyable half hour was passed by all in spite of the cloud of financial embarrassment which overhangs the association. It may yet pay its bill to the pedagogic board by means of the drive for dues and the cake sale held this week.

**MISS PERINE GAVE COLOR LECTURE TO FRESHMEN**

(Continued from page 1)

**Shows Violet Oakley Book**

Miss Perine showed the freshmen a very interesting book called "The Holy Experiment" by Miss Violet Oakley. This book tells, in beautifully colored pictures, and interesting printing, the story of William Penn. Miss Oakley is a descendent of the Quakers, and she has narrated their story in a most sympathetic manner.

There are only five hundred copies in the world of this great book. State College has the only one in this part of New York State. The book has been exhibited in the Education Building.

**CHANGES IN NEW CATALOGUES**

Reduction of the number of required hours in major subjects and a proportionate increase in the number of elective hours will be noticeable in the 1924-25 catalogues, it is announced by Dr. Brubacher. The catalogues will probably be ready for distribution in about a month.

The change in the system of required subjects for majors is based upon the practice in other colleges and universities, which has been steadily gaining in favor throughout the United States. That practice is to allow wider choice in the selection of courses in which a student is specializing. The selection will be based thereby more on the personal sensibilities of the student, than on the faculty.

The change to go into effect at State next September will also affect not to as great degree as majors. Notable reductions in the number of required subjects will be marked in the science departments, chiefly Physics and Chemistry.

Another feature of the new catalogues will be regarded in the master's requirements. Holders of bachelor's degrees from other institutions, who work for their master's degree at State College, will not be required to take as many courses in Education as heretofore, providing they have had the requirement for their bachelor's degree, similar to the requirement at State. This new system, Dr. Brubacher avers, will allow graduate students to pursue more courses in their special subject.

**"DREAMS OF A STATE COLLEGE MAIDEN"**

The time you became a missionary in wild Africa and taught the pygmies how to sing, "Two Little Girls All Dressed in White. . . ."

II

The time you shingled Louis XIV hair and was established court barber for life.

III

The time you were shipwrecked on a desert island with some of our beloved professors, and they wore skins of animals and carried spears.

IV

The time a sheik bore you off to the "Land of Figs" and fed you on "dates" the rest of your life.

V

The time a poet cavalier compared your voice to that of a nightingale, your lips and teeth to rosebuds filled with snow and your eyes as the gates to heaven, while the moon shone and Cupid scattered roses.

VI

The time you were an Egyptian dancer and taught the Pharaohs how to play bridge.

VII

The time you received an A in practice teaching and King Tut immediately engaged you as private tutor to his royal heirs.

Dr. Painter in Psychology quiz a young lady who is unable to answer the question given her:

"Your smile is very sweet, but I'd like the words better."

Prof. Erskine—In History Quiz—Remember, each of these questions is to be answered in one word—or less.

Professor Conwell (teaching logarithms)—"Now when you multiply, you add; and when you divide, you subtract.

The back row fades.

Prof. Painter: Explain 'perception.'

Student: "Perception must be grasped—"

Prof. P.: "Just so, come let me clutch thee—"

**KEEP HAPPY AND HEALTHY IN ORDER TO ENJOY LIFE**

Dr. Croasdale states, "that to keep the mind and body equally balanced is essential for every student in order to have a successful college career." The physical status of State College is improving year by year. The student's physical health comes above or before college work, but that does not mean that the student must neglect his studies." We must remember that a sound mind and a sound body is tested by its ability to act in a crisis. Let every student try to maintain the happy medium, and State College will send forth stronger, better types of individuals into the world.
