

22 August, 1966

Walter M. Hisdale

President Evan R. Collins

Campus Progress Report No. 70

At an acceptance inspection today, the University accepted the basement of the Humanities building and roof monitor, thus completing the total acceptance of the interior areas of this building. Exterior areas were not included in this or any other building. Included as a part of the basement of Humanities is the Psychology laboratory under the south west corner of the podium.

In the Social Sciences building, we accepted the monitor on the roof and the dock loading area. No other areas were ready for turnover in the basement of the Social Sciences building.

Rooms SB-20 and SB-21 in the sub-basement of the Library were also accepted for beneficial occupancy and use. It is anticipated that the balance of the sub-basement of the Library will be ready for turnover about 25 August.
