## State Employees Get Extra Increment As Pay Increase

### Levitt Forms Retirement System Advisory Council; Powers Named A Member

ALBANY, March 23 — A long time goal of the Civil Service Employees Association—to gain an employee voice in the affairs of the State Retirement System — took a hefty stride toward fulfillment.

State Comptroller Arthur Levitt announced that he has formed

JOHN F. POWERS

a five-member Advisory Council to the State Retirement System. Named among the first five was John F. Powers, Association president.

"The council members will assist me," Mr. Levitt said, "in the formulation of policy and in evaluating all phases of the operation of the Retirement System."

Mr. Powers called the action a long stride toward removal of an "odious situation."

Pointing out that public employees had a tremendous financial investment in the System Mr. Powers declared that "it would be unthinkable in any ordinary business to deny a voice in the affairs of the business to those persons having a considerable financial stake in its operation."

"Mr. Levitt's action," he said, "is therefore a step toward reality and will provide the basis for working toward gaining the em- operation of the Retirement ployee some real voice in the System."

Also named advisors were: Edward F. N. Uthe, executive secretary of the State Association of Towns; Addison Mallory, executive secretary of the Conference of Mayors; Robert H. Miller, president of the County Officers Association and Cyrus M. Higley, former president of State School Boards Association.

Mr. Levitt added: "Each member has had a long and distinguished career in public service and now holds positions of leadership in key associations working closely with the State and with local government. I am certain that their experience and ability will make this Council a vital arm of the Retirement System."

The first meeting of the group was held today in Albany.

### Highway Engineers' Assn. Holds 20th Convention

The 20th annual convention of the New York State Highway Engineers Association was held last week in the Sheraton-McAlpine Hotel.

In a 3-day session, delegates heard discussions on topics ranging from problems in bridge construction to highway planning, operational procedures and personnel problems.

Among the speakers were J. Burch McMorran, new State Superintendent of Public Works; Henry Ten Hagen, PW chief en-

gineer; T. T. Wile, NYC Traffic Commissioner; Othmar H. Ammann and W. Earle Andrews, consulting engineers; Maynard A. Bebee, director of the State Bureau of Highway Planning; W. R. Bellis, chief of the Traffic Design and Research Section, New Jersey State Highway Department; Samuel A. Marshall, Jr., assistant civil engineer, Department of Public Works; Edward S. Olcott, executive assistant to the Director of the New York Port Authority; Warren S. Welch, Public Works, personnel direction, and Roman Wolchuk, noted international engineer.

George J. Marks, the association's president, general chairman of the event. The Babylon Section, District 10, were hosts.

ALBANY, March 23 — The \$20,000,000 proposed for salary increases by Gov. Nelson A. Rockefeller will be distributed in the form of an extra increment to all State Employees.

The legislation, prepared by the Governor and Republican legislative leaders, provides that every employee shall receive a salary increase equal to the annual increment of his pay grade but that no person shall receive less than \$200. The maximum annual increment in the salary schedule is \$486. Those scheduled to receive an increment will receive that increment plus the extra one provided in the new legislation.

A separate bill has been introduced allotting \$200,000 for raises to judiciary employees.

The plan, which was developed over a period of several weeks in conferences between representatives of the Administration and the Civil Service Employees' Association, would apply to all state employees (except legislative and judiciary). Employees holding positions where salaries are not set by statutory salary schedules would receive comparable increases, but not to exceed \$486.

#### Powers' Comment

John F. Powers, president of the Civil Service Employees Association, in commenting on the pay plan declared: "We must face the facts. The Governor and the leaders in the Legislature had a difficult task seeking pay raises for State employees at a time when a vast new tax program was being proposed and cuts were being ordered elsewhere. Our Association is fully aware that these men stuck to their guns throughout the session on the issue of a salary increase and we owe them a debt of thanks."

"However," Mr. Powers continued, "the Governor knows, the leaders know and we know that this year's proposals only gave employees a 'half-loaf.' We intend to insist that the Administration's awareness of how far public employees lag behind those in private industry obligates the Governor and the Legislature to bring these employees up to first-class citizenship as workers." (For further comment see "The Public Employee," on Page 3.)

Governor Rockefeller and the legislative leaders said that Comptroller Levitt has indicated that he will cooperate with the administration in an effort to include the increases in the first pay checks received by state employees after April 1.

At top left is a comparison of the present salary schedule with the Republican proposal.

### No Mass Move of Labor Dept. Employees to Albany

(Special to The Leader)

ALBANY, March 23 — Reports that some 600 New York City residents employed by the State Department of Labor may have to move to Albany or lose their jobs are without foundation. The Leader has learned.

The reports, which received wide circulation, were apparently based on the fact that the new Labor Commissioner, Martin P. Catherwood, announced that he would make Albany his permanent headquarters.

However, The Leader learned that the only transfer of personnel affected by Mr. Catherwood's decision would be members of his legal and public relations staff, probably not totaling more than a dozen employees.

An Albany source said that Mr. Catherwood, whose home is in nearby Ithaca, would be spending more time in the Capital than in New York City and that this apparently was the basis for the shift. The majority of Labor Commissioners in the past have been New Yorkers or lived in the Metropolitan area.

There was no explanation as to why rumors over a mass move of personnel were not quieted earlier.

Consternation was rampant among employees in the New York City offices of the department and legislation introduced which called for all department and agencies to have their main offices in Albany caused the concern to spread to other branches of state service.

The bill to require Albany main offices died in the Legislature, however.

In the meantime, New York City employees were preparing to fight the rumored move and the New York City chapter of the Civil Service Employees Association passed a resolution which condemned the move and asked that it be rescinded.

Approximately 1,300 persons are employed in the New York City offices of the Labor Department. With the exception of the public relations and legal staffs it is now certain that the personnel employed there will stay right where they are.

# Last Opportunity To Apply in Federal Entrance Test Ends Soon

The final application period for the Federal service entrance examination from which 5,000 appointments will be made this year remains open until April 23. This is the last chance to get on this year's eligible list. The test for the new filing period is scheduled for May 9.

The current filing period closes March 26. Those who have applied before that date will be tested April 11.

This test is the Federal Government's primary source of college level personnel in 60 different specialty fields. More appointments from this examination are made in the New York-New Jersey area than in any other Federal civil service regional area.

Fields in which positions are to be filled include administration, business analysis and regulation, production planning, communications, budget management, agricultural economics, market reporting, park ranger activities, editorial, social sciences, mathematics, electronic data processing, library science, statistics, investigation, adjudication, plant pest control inspection, and fish and wildlife activities.

### What the Jobs Pay

For the jobs, at \$4,040 a year to start, candidates must be within 21 months of completing a four-year college course leading to a degree, or have three years administrative, professional, investigative technical or other experience in responsible work. Thus a college degree is not necessary.

## Many Pay Tax They Don't Owe

ALBANY, March 23 — In spite of cancellation of the 1958 State income tax, the State Tax Commission continues to receive 2,000 to 3,000 tax returns daily, Commission President Joseph H. Murphy said.

The returns and payments have to be screened and returned to taxpayers in cases where they do not involve net capital gain tax or unincorporated business tax.

An equivalent combination of education and experience, at the rate of one academic year to nine months' experience, may also be accepted at the discretion of the U.S. Civil Service Commission, in lieu of a degree.

Candidates who, in addition to those requirements, score high in the examination and have a B average in college or a year in graduate study, or a year's acceptable experience, or a Doctor of Laws degree, may qualify for appointments at \$4,880.

### Where to Apply

Candidates who score exceptionally high and have at least another year of graduate study or experience, in addition to the requirement will be considered for management intern appointments.

Apply at your college placement office, any U.S. post office, or to the director, U.S. Civil Service Commission, regional office, 641 Washington Street, New York 14, N.Y.

### Exam Locations

Examinations will be held in New York State at Albany, Auburn, Batavia, Binghamton, Brooklyn, Buffalo, Dunkirk, Elmira, Flushing, Glens Falls, Hamilton, Hempstead, Hornell, Ithaca, Jamaica, Jamestown, Kingston, Malone, Middletown, Newburgh, New Rochelle, New York, Niagara Falls, Norwich, Ogdensburg, Olean, Oneonta, Oswego, Patchogue, Peekskill, Plattsburg, Port Chester, Poughkeepsie, Riverhead, Rochester, Saranac Lake, Schenectady, Syracuse, Utica, Watertown and Yonkers.

# Amended Bills Still Rouse Accountants' Ire

The Society of Municipal Accountants, and several other governmental accounting organizations, as well as several civil service groups, are strongly opposed to two amended companion bills introduced by Assemblyman Sidney H. Asch, Int. 1591, and Senator Earl W. Brydges, Int. 1293, in relation to the practice of public accountancy and providing for the enrollment of public accountants.

The principal objection is that they require, as did the bills they'd amend, 13 years' governmental accounting experience or a combination of governmental and public accounting experience to enroll as a public accountant.

Another objection is the requirement that a governmental accountant with 5 years experience may only file a declaration of intention to practice at a future date, after leaving government service.

"These requirements will work a great injustice on many governmental accountants, among whom are many veterans," says the society. "We urge that these bills be opposed unless amended to provide enrollment at 10 years of service, a declaration of intention to practice at a future date at five years of service together with the right to enroll after the 10th year of accounting experience is achieved."

If a governmental accountant cannot enroll or file a declaration, while in government service, he may lose all opportunity to practice public accounting, since the

Board of C.P.A. Examiners will not accept high grade governmental accounting experience as qualifying one for admittance to the C.P.A. examinations, the society adds.

In 1940, Assemblyman Steingut and Senator Schwartzwald, and in 1945, Assemblyman Milmo and Senator Young, introduced bills to enroll public accountants, and only three years' experience was required of governmental accountants for enrollment. These bills, as amended, were approved by the State Society of Certified Public Accountants.

The Society of Municipal Accountants cannot see why a three-year requirement for enrollment as a public accountant, acceptable in 1940 and 1945, isn't acceptable now, when a 13-year requirement is made for enrollment. It is the opinion of the society that the amended bills should be liberalized as it suggests, otherwise must be opposed.

These bills are now in the Assembly Rules Committee and the Senate Finance Committee.

# THE PUBLIC EMPLOYEE

By JOHN F. POWERS  
President  
Civil Service Employees Association

## The Salary Increase

The salary bill has finally passed. It provides an increase for all state employees of about five percent. In all fairness, we must appreciate the strenuous efforts of the Governor and the legislative leaders who held the money for the increase in the budget during the stormy days of controversy over the increase in state taxes and the demands for budget cuts. The 20 million dollars recommended by the Governor for a salary increase must have been a tempting morsel for the budget cutters. It was a sitting duck for all to shoot at. Some of the legislators, as you know, did take pot shots—particularly those from Onondaga County.

However, whatever our appreciation we must say, in all candor, we are disappointed that the state has once again failed to face the salary problem for state employees realistically. It has become the accepted standard of measurement in setting public salaries to equate them with salaries paid in industry. This standard was used by Governor Rockefeller during his campaign and it is the basis upon which the Civil Service Employees Association formulated its own salary program. It was also used by an official state agency who found that state salaries were lagging behind those in industry by some 10 percent.

## Double Standard Used

There is no difference today—if there ever was—between the working skills needed for public or industrial jobs. With a minimum of exceptions any job found in industry can be related to a similar job in the public service and vice versa. It is just as important to have capability, efficiency, high morale and loyalty in the public service as it is in industry. Lack of any of these segments will cause social damage. In our highly integrated, complex twentieth century society any jar caused by poor service in the working machinery of government or industry could be very dangerous for the security and prosperity of our country.

With the comparable standards for merit and fitness existing in both industry and government today there is absolutely no logic in denying the application of the doctrine of equal salary standards. There is no longer any reason why a public employee should be paid less than his counterpart in industry. Just because one is paid on the basis of a legislative statute from funds raised by taxes should not make any difference. The industrial workers pay is, in the main, similarly controlled by contracts and the source of his money is in the price tags on the washing machine, television set or automobile.

## A Job for Employees

By the public employees taking a positive stand on this issue—positive in their continued demonstrated efficiency and capability—positive in the maintenance of good public relations at all times with the public they serve and by the Civil Service Employees Association through augmented services stepping up their public relations and community programs we could overcome the obstacles of prejudice, muddled thinking and double standards which retard placing both groups on an equal pay status. It is primarily a public relations job—but it is one which needs a lot of help.

# CSEA Pushes Action On Thruway Aides' Problems; Many Matters Reviewed

Representatives of the Civil Service Employees Association met with representatives of the Thruway Authority recently to urge remedies for several important problems of the State Thruway Authority employees.

Representing the Thruway was William E. Tinney, Director of Administrative Services; representing CSEA were Executive Director Joseph D. Lochner and Salary Research Analyst P. Henry Galpin; and the following Thruway Chapter representatives — Frank A. Couse, Albany Division; William J. Nolan and Gregory Jackson, New York Division; Ralph Sanders, Kenneth Schuller and Betty Lauffer, Buffalo Division; J. Nyles Leach and Louise Kimmey, Syracuse Division; Frank Sands of the Maintenance Supervisors group.

### Problems Reviewed

Following are the various matters which were discussed in detail:

1. Time and a half pay for overtime work — The Thruway Representative advised, that the policy of the Thruway on this question would probably depend on what the State does in the future on this matter.

2. Payment of overtime on a bi-weekly basis — This will probably be possible in the near future through new payroll procedure being established. CSEA Representatives also asked that the payroll check stub contain information as to the information of hours covered by the overtime pay check.

3. Meal allowance accorded for overtime work be increased from \$1.25 to \$2.50 per meal — The Thruway Representative advised that this question would be looked into carefully. CSEA Representatives pointed out that the \$2.50 amount was the usual meal allowance in effect for State employees who work at least three hours overtime.

4. Out of title work was discussed at considerable length. CSEA Representatives requested a more complete definition of what constituted an emergency from the standpoint of requiring employees to work out of title for temporary or extended periods. CSEA Representatives requested that more detailed information be furnished employees as to descriptions of positions and the duties and responsibilities of each. The Thruway Authority was requested to emphasize to all Supervisors its ruling that when employees are worked for a period in excess of two weeks performing the work of a higher title, that such employees' rate of pay be adjusted accordingly. The Thruway Representative agreed that the ruling referred to would be re-emphasized and that additional steps would be considered relative to this particular matter.

5. Publication of list of equipment to be operated by employees having specific titles — The Thruway Representative advised that such a list, which has been prepared but not publicized to date, will be reviewed and issued as soon as possible. The Association Representatives requested more definite description of the work to be performed under the

titles of Motor Equipment Repairman, Maintenance Man — Mechanic, Machinist, etc.

### Overtime Advisement

6. Improved system of keeping employees advised periodically as to accumulated vacation, overtime and sick leave and enabling employees to accurately know as to whether time off requested is charged to personal leave, vacation, sick leave, etc. The Thruway Authority advised that this matter will be given very careful consideration in the hopes that a procedure can be worked out to provide the information sought by employees. CSEA Representatives claim that personal leave was refused too frequently and requested the Thruway to direct its Supervisors to accord personal leave where requested and where it can be given without handicapping work programs.

CSEA Representatives also requested that the employees be given the option to have time off for sickness or death in the immediate family charged against personal leave or sick leave on an optional basis. The Thruway Representative advised that this matter would be looked into carefully with the hope that such option might be given in the case of death in the immediate family and as to sickness in the immediate family, it was hoped that the option to charge it against personal leave or sick leave would be controlled to some extent by the fact as to whether such leave was arranged in advance as required under the State Attendance Rules.

### Safety Measures

7. CSEA representatives made a number of requests relative to safety measures:

(a) The north door on the Buffalo Division garage, which is a fire exit, was locked with padlock and hasp. The Thruway Representative advised that this would be looked into and CSEA Headquarters has received a letter from him advising that this was a temporary measure necessary because of damage to the garage door, but that the condition has now been corrected and the door can now be opened from the inside.

(b) Toll Collectors who are requested to place lane guides on the approach to toll stations be supplied with safety belts or visible protective means. Some of the approaches to the toll stations are not lighted. The Thruway Representative advised that this matter would be looked into.

(c) First aid kits be made available for use on a reasonable basis at each toll collection station, garage, etc.

(d) A Safety Officer be appointed in each section.

(e) A safety chain be installed on tow bars.

(f) The Thruway provide prescription ground safety glasses for use in their shops.

(g) That there be trained Fire Instructors in each section.

(h) That emphasis be put on prompt reporting to the proper State Agency of occupational accidents to assure that employees interested are properly protected, and make certain that injured employees get required medical care. The Thruway Representa-

tive advised that items covered in paragraphs (c) through (h) would be looked into and proper steps taken.

8. CSEA representatives inquired into the Thruway Authority policy relative to part-time employment and discussed the effect on the permanent work force of unreasonable amount of part-time employment. We requested replacement of Toll collectors and other employees who have transferred, promoted or resigned on a more expeditious basis. The Thruway Representative advised that this matter would be looked into.

### Discard Janitor Work

9. CSEA requested that Toll Collectors be relieved of janitorial work they have been required to perform in the past, and the Thruway Representative advised that this matter would be reviewed.

10. Identification cards for all Thruway employees was discussed and the Thruway Representative advised that such cards would be issued at an early date to all employees down through the ranks of Foremen and Section Supervisors in tolls and further consideration will be given to issuance of such cards to other employees.

11. More efficient heating arrangements in 1954 and 1955 dump trucks was requested, and the Thruway Representative advised that these trucks will probably be replaced.

## Membership Memo

Your job is important to you and your family. The Civil Service Employees Association is devoted to improvement of your work conditions — salaries, retirement, work hours, etc. CSEA should be important to you and all public employees because it works day in and day out for your benefit — it is your Bread and Butter Organization.

The officers and committees of CSEA and its Chapters number several thousand — they give unselfishly of their time to CSEA work, without pay from CSEA. This is one of the reasons why CSEA dues are only \$7.50 per year while the Unions in public service charge four times that amount.

The program, accomplishments and services of CSEA merit the active membership support of every state and local government employee. Urge your fellow employees to be active CSEA members — attend Chapter meetings — take an active part in all activities and in support of CSEA programs to assist its members.

## New Residence Set for Roswell Park Institute; Work Starts Soon

ALBANY, March 23 — Construction of a 1.4 million dollar residence building for personnel and students at the State Health Department's Roswell Park Memorial Institute for cancer research in Buffalo will start this spring. Dr. Herman E. Hilleboe, State Health Commissioner, announced.

Dr. Hilleboe said that construction plans and mortgage commitments have been approved by James W. Gaynor, State Housing Commissioner. The structure, to be erected with financial assistance from the State under the provisions of the Mitchell-Lama

Profit Housing Law, will be located at Elm and Carlton Streets on a site presently used by the Institute as a parking lot.

Construction plans call for a 13-story building. The 90-unit structure will provide apartments of one, two and three rooms. The B.A.A. Construction Company Inc., of Buffalo, George E. Weichmann, President, is the general contractor.

Roswell Park Memorial Institute is one of the largest and most modern cancer research facilities in the world, Dr. Hilleboe said. "However, the Institute has been confronted with a critical shortage of housing for students, resident physicians and other members of the staff," he added.

"With the completion of its five million dollar construction program and with an enlarged staff of physicians, research scientists, technicians and nurses, Roswell Park offers unparalleled facilities for basic and clinical research, and the training of medical and nursing students," he said.

*\$100 a month helps keep him out of the red*

\$100 a month may not sound like a lot of money, but it means a lot to a State Hospital employee who is recovering from a hip injury. This is the amount of the disability check this man has received every month for the past 33 months. He uses it to help pay some important bills... to help keep him out of the red financially.

Because an accident and sickness can strike anybody, even you, you too need the protection offered under the C.S.E.A. Plan of Accident and Sickness.

**EDITORIAL**

**Intolerable Kink**

**A**N APPEAL was argued before the New York City Classification Board for giving the title of foreman of laborers to ex-assistant foremen whose title was eliminated. Naturally they must have some suitable title. As they showed that they perform the same work as foremen, their request for the foreman title was inevitable. If a qualifying test is deemed necessary, once the appeal is successful, no doubt such a test would be given promptly. That particular aspect is up to the City Civil Service Commission.

New rates for laborers are to take effect as soon as some few remaining details are settled. The laborers are under the Prevailing Rate Law (Section 220 of the Labor Law). Foremen of laborers are under the Career and Salary Plan. The two pay bases don't coincide, as employees well know. Unless the foreman rate is raised by the Board of Estimate, laborers will be paid under the new prevailing rate about \$1,000 a year more than their foremen. This anomaly is no novelty in civil service, but government acts fairly fast these days in getting rid of that particular kink. The foremen therefore have ground for feeling that their separate appeal for upward reallocation will be approved. They are requesting a rate \$500 a year higher than the run of laborers will receive, in line with industrial practice. Certainly the City could not defend a policy of paying supervisors less than the employees they supervise.

Meanwhile the ex-assistant foremen, now in the No Man's Land of titles, look forward to reclassification, with the benefits of higher pay for foremen.

## The State Pay Increase

EARLY IN THE 1959 session of the New York State Legislature, Gov. Nelson A. Rockefeller announced that he was proposing in his budget a fund of \$20,000,000 to allow a salary increase for State employees. His proposal was made in the midst of acrimonious debate and public reaction to earlier proposals for a large, overall increase in taxes.

In the ensuing days this \$20 million was a tempting victim for the legislative axe and five GOP lawmakers from Onondaga County actually drafted legislation to have the amount cut in half. Despite all open and private attacks on this money Governor Rockefeller stood firm on a pay boost for State employees and he was solidly backed up by the Republican leaders in both houses.

To say the least, it was a difficult stand to take because the usual tendency on behalf of every one is to immediately sacrifice the public employee when there is a need to scalp. Under the heavy pressures extant during the session it was a courageous stand to take and we congratulate the Governor and the Republican leaders for sticking to their guns on the workers' pay issue.

We are not unmindful of the fact that a GOP-dominated Legislature turned down a state worker salary increase last year. Nor do we fail to recognize that Governor Rockefeller's proposals for this year go slightly less than half-way toward fulfillment of his expressed desire to place public employees at salaries commensurate with those in private industry.

However, the gap has been shortened and the State's workers, while not losing sight of the goal of full equality in pay with private industry, have reason aplenty to appreciate a bold action under such difficult circumstances. As we have said before, any increase in pay is always preferable to none at all and the State's workers do have reason for some degree of gratitude.

## Cut in Raises for NYC

ONCE again the civil servant is being offered as a sacrificial lamb, this time by Mayor Robert Wagner. The Mayor has announced that because of his inability to gain all the new tax levies he needs for the forthcoming fiscal year he will need to practice severe austerity, which will include cuts in proposed raises for teachers, firemen, policemen and correction officers. The City's other branches of civil service will not be directly affected.

Tragic — that is the only word that comes to mind. It is not enough that present members of the teaching, fire and police corps will suffer another blow in career, morale and living standard. What is additionally so bad is that the Mayor is making the city civil service appear in its most unattractive state for the recruitment of new and high calibre personnel. Employment where the worker is the least consideration can be of little attraction to anyone.

If the Mayor must practice austerity — or perhaps the word should be economy — let him go a little further and cut enough corners to keep present proposed pay raises intact. If this is not done the expense in the long run will be far greater.

Our teachers, firemen, police officers and correction personnel deserve first consideration. Our citizens want the best in all these fields and they are willing to pay for it.

## Federal Auditor, Accountant Jobs Open Nationwide

Country-wide openings for the positions of Auditor and Accountant at \$4,040 and \$4,980 have just opened up in many Federal agencies, the United States Civil Service Commission announced today.

Applicants must have had appropriate accounting education or experience with a written test required of those who wish to qualify on the basis of experience alone.

Students who have not yet received degrees may also apply, but may not enter on duty until all the required courses have been completed.

Information on where to file applications is contained in announcement No. 188, available at man. post offices; U.S. Civil Service Regional offices, and the Civil Service Commission's Examining Information Unit, Pension Building, Washington, D.C.

## Law Cases

Sidney M. Stern, counsel, submitted to the New York City Civil Service Commission the following report on law cases:

### JUDICIAL DECISIONS

**Appellate Division, First Dept.**  
*Hymes v Schechter.* The court affirmed the order of Special Term which had upheld the Commission's right to use a conversion formula in rating the written test of the examination for promotion to assistant housing manager.

### Appellate Term

*Hines v NYC Transit Authority.* In this action for sick leave pay the court held that a rule which purports to create an irrebuttable presumption that an employee was not ill because he was not at home when an investigator called is not within the power of the Transit Authority. The plaintiff, however, must prove his case before he will be entitled to recover and is therefore not entitled to summary judgment.

### Special Term, N. Y. County Supreme Court

*Lefkowitz v Kennedy.* Petitioner was appointed, in 1937, special patrolman, board of water supply, from the eligible list of patrolman (P.D.). He was appointed patrolman (P.D.) in 1942 after having attained a place on another list for that position. He now wishes to retire claiming his service with the board of water supply should be counted toward service in the police department. The court granted his petition citing the provision of the Administrative Code which deals with the rights of members of the pension funds who are situated as is the petitioner.  
New York County Supreme Court  
O'Leary v Schechter. The court

dismissed the petition which attacked the method of rating employed in the examination for promotion to captain (P.D.), pointing out that the same contention had been disposed of in other decisions dealing with the same question.

### Special Term, Schenectady County Supreme Court

*Foster v Municipal Housing Authority.* Where senior maintenance man applied for and was granted a leave of absence from December 11, 1955 to April 1, 1956 and leave was extended to December 31, 1956, it was beyond power of the court to reinstate him to such position where county civil service rule provided that leave of absence for more than one year should be deemed equivalent to resignation from service.

### PROCEEDINGS INSTITUTED

*Dickstein v Schechter.* Petitioners failed examination for Real Estate Appraiser. They seek to stay appointment of eligible from list until their pending appeals for higher ratings have been decided.

*Simon v Kennedy.* Petitioner was passed over for appointment as Patrolman (P.D.). He seeks to compel his appointment.

*Sewell v Schechter.* Petitioner was disqualified medically for Patrolman (P.D.). He seeks to annul the determination.

*Daddario v Felix.* Petitioner, classified as assistant engineer, seek to be reclassified as engineer.

*Agress v NYC Transit Authority.* Petitioner seeks to have his classification of civil engineer (structural) made retroactive to July 1, 1954.

*Davis v Kross.* Petitioner was dismissed at end of probationary period as correction officer. He seeks restoration to his position.

## Questions Answered On Social Security

I am a woman and will be 62 years old in July. If I do not retire when I am 62, must I then wait until I am 65? P.W.O.

No. You may retire in any month you please after reaching 62. When computing the amount of your benefit, your Social Security office will reduce your benefits only by the number of months by which you are under 65.

I am completely disabled, but am only 32 years old. Is there any need for me to contact a Social Security office before I reach age 50? J.J.

Yes. If you were in employment or self-employment covered by the Social Security Act for at least 5 out of the 10 years before you became disabled and are now so severely disabled that you cannot work, you should apply for the disability freeze.

I have suffered from arthritis for years. For about a year I have been able to work only three or four days a week. I am 60. Am I eligible for disability benefits? K.O.

Probably not. To be eligible for disability benefits, you must be unable to engage in substantial work. Regular part time work would generally be considered substantial gainful work.

When I go to file my claim for

old-age benefits, must I bring a statement of my wages? If so, for so far back? P.V.O.R.

Yes. It will speed up the processing of your claim, if you can bring in your W-2, withholding tax statement, for the past calendar year. You should also bring in a list of the names and addresses of your employers and the approximate amount of your wages during the current year.

I am currently receiving benefits for my brother who is mentally incompetent. He worked part of last year. Is it necessary for me to file an annual report for him for last year? C.C.E.

If you receive benefits for someone else, you are responsible for making any reports necessary.

I have, through the years, managed to acquire 3 houses on which I receive a total of \$250 per month. I plan to retire when I am 65 in July. Will my income from these houses keep me from drawing my Social Security benefits when I retire? K.V.J.

No. The money you receive from the houses is considered income from rents. It would not be included in the \$1,200 a beneficiary under age 72 is allowed to earn in a year without losing one or more of his benefit checks.

## NOW... AN INSTALLMENT PLAN FOR DENTAL WORK!

An important Planned Payment Program has recently been announced by the Metropolitan Dental Service—MDS. This vitally-needed program now makes it possible to pay for DENTAL WORK ON A CONVENIENT TIME PAYMENT PLAN. With MDS, there is no down payment, no banks to deal with, no outside financial organizations. It is a dentist-administered, non-profit program which arranges payments to suit your needs, regardless of your income bracket. Chartered by N.Y. State, this recognized dental group will issue to you an Identification Credit Card. Show your MDS Card to any member dentist of your choice and it establishes your credit immediately... and avoids all distasteful financial interviewing by the dentist. You and your dentist merely decide on the amount and the number of payments to be made, and MDS does the rest.

Don't put off till tomorrow the dental protection you and your family need today. Write for an informative brochure on the MDS program. No obligation, no solicitors will call. Send your name and address to:

### Judge Denies Police Grievance Petition

State Supreme Court Justice Irving L. Levey has denied a Patrolman's Benevolent Association petition requesting the establishment of a grievance procedure for the Police Department. In making his ruling, Mr. Levey said that the problem was being studied by the Mayor's office and suggested "a bit more patience" on the part of the organization.

The Association's petition followed Mayor Wagner's recent executive order granting many city employees grievance and labor rights long enjoyed in private industry. Police Commissioner Kennedy has opposed application of the order to the Police Department on the grounds that a police union would disrupt necessary departmental discipline.

### EMPLOYEES ACTIVITIES

#### St. Lawrence

A general membership meeting of the Saint Lawrence Chapter, Civil Service Employees Association, was held Tuesday, March 10, in the court house at Canton. Attending were members of the board of directors, chapter members and guests.

Miss Kip, executive representative, gave a report on the March meetings in Albany which she and Mrs. Marian Murray, Chapter president, attended. She also reported on the workshop and the February 14 dinner in Syracuse, which she and Mrs. Murray also

attended. Mr. J. Ambrose Donnelly, field representative, gave more high-lights on the legislative program and gave a pep talk on membership. Mrs. Mary Manning, chairman of the membership committee, reported the Chapter is making every effort to get new members and the president urged all members to renew at once. A drive for further membership is anticipated in the Star Lake and Massena and non-teaching areas soon.

A report of the public relations committee was given and members were asked by the president to express their ideas relative to aims and policies for the year and an open discussion followed. Most members present stated what they would like the Chapter to do for their departments in the next year. The ideas will be referred to the public relations committee to become part of the program for the year.

The Chapter expressed its sympathy to Mr. Thomas Farley of Ter Bush and Powell on the death recently of his wife. The president complimented Village of Gouverneur employees on their generosity in donating proceeds from both the candy and the ice cream machines to the Chapter treasury. She urged other units to take part in helping finance the Chapter by having some kind of financial campaign.

Glen W. Miller, chairman of the nominating committee, presented a slate of officers and directors for next year. Other members of the nominating committee are Barbara Chase, Carson James, James Kane, John Loucks, John Moon and Marshall Lepper. It was decided to leave all arrangements regarding date and place of the annual dinner, to be held in May, up to the social committee and plans for this will be announced in the near future.

The president appointed the following members to the board of canvassers: Maurice Gardner, chairman, Mary Roop, Fred Hitchman, Clethia Rushman and Dolly Scott. This committee will report the results of the election to be held at the Canton County Home on April 14. All members are urged to attend.

It was announced by A. Cornelius, special agent in charge of the Albany bureau, Federal Bureau of Investigation, that Leo P. LeBeau, chief of police of Ogdensburg, has sent Sergeant David Alexander Bell to the 63rd session of the F.B.I. National Academy which convened in Washington, D. C. on March 11. The invitation was extended by J. Edgar Hoover, F.B.I. director. Mr. LeBeau is a member of the Chapter's board of directors and Mr. Bell is a past member of the board. Congratulations from the Chapter.

Lee P. Finley, commission of welfare, and his wife, daughter and father, will leave soon for a short European trip, including a visit with their son, Robert, and his family in Germany. Mr. Marian Murray, Chapter president, was a guest of the Onondaga County Chapter at its meeting in Syracuse March 11. She spoke on "Ways and means of securing membership." She is a member of the Statewide membership committee.

All Chapter members are again urged to attend the annual meeting April 14 at the County Home in Canton, starting at 8 P.M.

### Where to Write

These travel offerings are designed to fit the pocketbook of the person who ordinarily could not afford a trip to Europe but the quality of the journey is first rate. The low price is made possible by group purchasing.

## ACTIVITIES OF EMPLOYEES IN STATE

### Binghamton

The Binghamton Chapter, Civil Service Employees Association held a regular business meeting at the Veterans of Foreign Wars Clubhouse, 65 Carroll Street, Binghamton, at 8 P.M. Monday, March 16.

Guest speaker was Daniel Pagano, a representative of the New York State Employees Retirement System, who spoke on retirement rights of State employees. A question and answer period followed his address.

A report of the special delegates' meeting held in Albany March 4 was given. In addition, the nominating committee presented its proposed slate of officers and delegates for the coming year. Nominations were made from the floor.

After the meeting, free refreshments were served. There was dancing to the music of the Binghamton State Hospital "Serenaders."

### Brooklyn State

The annual winter dance held on Saturday, February 28 was a very successful affair and the Association wishes to express its appreciation for the cooperation of all those who participated. Music was supplied continually by Varga's Orchestra. Three prizes were awarded and the lucky winners were George Pullin, Anello Puma and Selvin Wilson.

The Chapter welcomes back Frank Montenegro who recently returned from an educational leave; also Blanche Miller, Mae Rebhan and Charles Tyree who returned following their illness.

Congratulations are in order to Mr. Henry A. Girouard, chief supervising nurse, on his re-election for a three year period as a director of District 14 New York State Nurses' Association of the Counties on Long Island.

We wish Mrs. Minerva Ruban and Miss Eva Reiman good luck in their new positions.

Congratulation to Mr. and Mrs. Thomas Driskill in their recent bundle of joy — a baby girl.

A recent visitor at one of the meetings of the chapter was Mr. William Rossiter from Rochester. All of his old friends were most happy to see him.

Our good wishes go to the following employees who are retiring from the hospital: Earle C. Marshall, Katherine R. Riley, Joseph Earle and Frank Bley. May they have many years of good health and happiness.

Brooklyn State Hospital was very happy to have been host to the chaplains of the various Mental Hygiene institutions in the State during their advanced course at the hospital.

It is with regret that we re-

port the recent death of James Cox who had been employed at this institution for a great many years. He will be greatly missed by his co-workers and friends at the hospital. We wish to express our sincere sympathy to Mrs. Genevieve Cox on her great loss. Our deepest sympathy also to the family of Mrs. Agnes Johnson, dental hygienist, who recently passed away. We are very sorry to report the recent death of Mrs. Mary Fiebich, a graduate of Brooklyn State Hospital School of Nursing. Mrs. Norman Smith, a teacher in the Syracuse School System, showed colored slides taken on her trips abroad. These slides covered scenes from East Berlin, France and England which were extremely interesting. ### Germany

**Munich (Nineteenth Day)**. The morning is spent seeing Munich. Heavily bombed, the city has been wholly rebuilt. But many beautiful old facades are left standing, often with nothing behind them, and other historic buildings have been recreated. The famous art galleries were destroyed, but their treasures can be seen to the limit of our time (it would take days to view them all). Afternoon excursion to Nymphenburg Castle. Dinner at the world-famous Hofbrauhaus.

**Heidelberg (Twentieth Day)**. The day begins with a morning

train ride through the Swbian hill country, reaching Heidelberg in time for lunch. ## Thruway Problems Get Airing

(Continued from Page 3)

ably be replaced at an early date and the Association Representatives thereupon requested that the Thruway Authority in replacing these trucks endeavor to arrange adequate heating devices in the new vehicles to be purchased.

12. CSEA representatives requested that the Thruway Authority assure its employees freedom of right to report problems to CSEA and use efficient grievance machinery without fear of recrimination, and the Thruway Representative advised that such notice would be distributed.

13. Passengers cars were requested for use of Supervisors in maintenance instead of the trucks now being used as means of encouraging more efficient operation. This matter will be taken under advisement.

14. Protective clothing or adequate clothing allowance was requested for automotive maintenance employees in line with the

fact that these employees in private industry are normally given such allowance or supplied with clothing by the industry or employer. The Thruway Representative advised also that this matter would be considered further.

15. CSEA representatives requested that ladders or steps be installed on spreaders, trucks and other equipment where needed to enable employees to more readily get on to these vehicles in the course of performing their work. The Thruway Authority advised that this recommendation would be studied as to the need of such ladders or steps.

16. Relative to movable maintenance men, CSEA representatives requested that the Thruway regulations be checked into and corrected if necessary to arrange for having the flag man closer to the work crew to prevent vehicles from cutting back and injuring movable maintenance men engaged in Thruway repair. The Thruway Representative advised that this situation would be looked into, and that any advisable amendments to the regulations would be worked out.

17. The pending job abolitions and layoffs in the Thruway were reviewed and the Association requested that extreme care be taken to observe seniority and give job opportunities where possible to employees affected.

Mr. Tinney advised the CSEA representatives that the Authority would prepare a statement to review the various matters brought up and to furnish the decisions of the Thruway Authority on such matters. As soon as this statement is furnished by the Thruway Authority, The Leader will publicize it to Thruway personnel.

## ACTIVITIES OF EMPLOYEES IN STATE

### Harlem Valley

A total of forty newly employed attendants at Harlem Valley State Hospital completed the American Red Cross standard first aid course. This unit is now an integral part of the basic 85-hour, on-the-job training program.

In addition seven practical nurses and fifty seven staff attendants completed the First Aid Course as part of their yearly in-service program. Wilfred Colteux, R.N., Supervising Nurse, gave the course.

Dr. Arthur M. Sullivan, Clinical Director, attended the National Convention of Guild of Catholic Psychiatrists at Catholic University, Washington, D.C. on February 2, 3, 4, 1959.

Two freshman students in the School of Nursing have made the Dean's list at the State University of New York Teachers College at New Paltz. They are Richard Bennett and Craig Wyman.

Miss Marjorie Crotty, Assistant Director of Nursing Services, Department of Mental Hygiene, spent three days at the hospital on official business.

The personnel of the hospital were saddened at the death of Patrick Harkins, 59, of the engineering Department. He had been a popular employee for 24 years and will be greatly missed by all. Our deepest sympathy is extended to his family in their bereavement.

On Wednesday, February 11, Joseph Sanfilippo was guest of honor at a farewell party given by the employees of the business office. Cake and ice cream were served and Joe was given a Parker "51" Pen by his co-workers. Mr. Cohen, Business Officer, presented the gift and expressed best wishes for Joe's future on behalf of the employees. Mrs. Raymond Heinchon celebrated her birthday at the same time.

There are three new employees in the Business Office; Mrs. Helen Lang, Miss Aida Siravo, and Mrs. Mary Phelps.

The employees of the business office wish to extend their deepest sympathy to co-worker, Paul Becker, whose wife recently passed away.

Miss Marjorie Wilcox is enjoying a vacation at home.

Mrs. Inez Brielord, a laundry employee, is confined to our hospital infirmary. We wish her a speedy recovery.

George Orton, the 6-year-old son of Mrs. William Orton, laun-

dry employee, had the misfortune to seriously injure an eye while playing and intensive surgery was necessary. We hope his vision will not be impaired and that he will soon be able to resume his usual activities.

Mrs. Dorothy Brush, waitress in Staff 18, recently returned from a month's vacation which she spent visiting her sister in Fort Lauderdale, Florida. While there she had a pleasant reunion with Mr. and Mrs. Louis Illig (the former was our chief stationary engineer) and also Mr. and Mrs. Raymond Kenny (Mr. Kenny was our chief male supervisor for many years). Both families are enjoying their retirement in Florida, and according to all reports had a marvelous time.

Our popular cook, Mr. Earl Slocum, spent part of his vacation at the Mardi Gras at New Orleans, Louisiana, and according to all reports had a marvelous time.

To shake off the winter doldrums, a committee of employees with the assistance of the hospital Recreation Department are planning for an Employee-Guest Dance. As the date March 19 is midway between St. Patrick's Day and the first day of spring, everyone is looking forward to dressing up and spending an evening of formal dancing, square dancing and mixers. The music will be supplied by the "Hollywood Trio," a famous jazz combo in the valley. With a minimum donation to the patient's recreation fund it should be a lively evening with an opportunity for older employees to meet the newer, and the new ones to meet each other, and fun for all.
