Applications for Health Plan On the Way; Deadline Oct. 21; Insurance Starts December 5

ALBANY, Sept. 16—October 21 has been set as the deadline for State employees to sign up for low-cost, State-supported health insurance, the State Civil Service Department announced.

Applications for participation in the new program are being distributed to State workers this week and must be returned by the October date. First deductions will take place on the November 20 payroll.

The long awaited program will start December 5.

New employees starting after

October 21 are urged to sign up immediately in order to obtain prompt coverage.

John F. Powers, president of the Civil Service Employees Association, urged state workers to sign their applications promptly.

Said Mr. Powers: "The State Health insurance plan has become a reality after years of effort on your behalf by the Association. No employee should deny himself the great benefits being offered now at such a comparatively low cost. It is to your own interest to get coverage as soon as it is offered so that you and your dependents may be protected against any disaster resulting from illness. Don't take any chances. Sign your application at once."

What is Offered

Under the plan, as approved by the Legislature, Governor Harriman and the Temporary Health Insurance Board State employees are being offered hospitalization, surgical-medical benefits and major medical coverage. Carriers for the Statewide Plan are Blue Cross, Blue Shield and Metropolitan Life Insurance Co.

Employees in areas served by General Health Insurance and Health Insurance Plan programs may select either the statewide plan or one of the two programs mentioned above as a substitute for the basic surgical-medical and major medical parts of the statewide plan.

Cost to employees for the coverage is as follows: Single employees, \$31 a year; family coverage, \$165 a year. The state share is estimated at \$31 for single employees and \$73 for those with families.

The State has set up a payroll deduction plan for employees choosing the coverage.

State Civil Service Department officials, in charge of administering

the program, have announced that there will be no physical examination required for those employees signing up within a two-payroll period, after becoming eligible.

Because of the complications in

receiving of applications and forwarding them to the Comptroller's office for authorization of deductions, the Department urges employees to act on their applications now to assure coming under the first payroll deduction.

THE PUBLIC EMPLOYEE

By JOHN F. POWERS
President
Civil Service Employees Association

No Time For Complacency

THE OFTEN QUOTED figures on the size of the membership of the Civil Service Employees Association must not make us complacent. Compared to any other employee organization in this state or in any state, they are impressive. A paid membership of 75,000 does look good, but when we compare our membership to the total number of public employees in the State, we still have a long way to go.

There are still many places on the State level as on the county level where hard work needs to be done. Take membership committees. Good, working committees are still a very important part of our organization. They should not be neglected or allowed to become inoperative. This is particularly true on the State level where there might be a tendency to think that since we have payroll deduction for Association dues, the problems are all solved. By no means are all solved yet. There are many State chapters who could materially better their membership standing.

By a good effort, it is not impossible to increase our enrollments by another 15,000 next year. However, this will depend upon the efficiency of our organization. It will depend upon good membership committees in the state and local chapters. It will depend upon good chapter organization.

NYC Chapter Votes to Rejoin CSEA's Metropolitan Conference

The New York City chapter of the Civil Service Employees Association voted last week to rejoin the Association's Metropolitan New York Conference.

Sol Bendet, chapter president, announced the decision following a vote on the subject by the chapter's executive committee.

A former president of the chapter was on hand at the meeting to install the officers for the coming year. He was J. Earl Kelly, State Director of Classification and Compensation.

"It's been some years since I have been able to attend a New York City chapter meeting," said Mr. Kelly, "but in my absence I see that both your chapter and the Civil Service Employees Association continues to grow and to increase the efforts on behalf of the public employee."

Installed by Mr. Kelly were Mr. Bendet, president; Samuel Emmett, second vice president; Al Corum, third vice-president; Joseph J. Byrnes, treasurer; Edward Axarigian, financial secretary, and Margaret Shields, secretary.

Absent were Max Lieberman, first vice president, and Irene Waters, recording secretary.

Guests Present
Candidates for office in the statewide CSEA election were guests of the chapter. They included Thomas Conkling, who seeks the office of president;

Charles Lamb, candidate for first vice president; Robert Soper, candidate for second vice president; Henry Shemin, candidate for fifth vice president, and Irwin Schlossberg, candidate for Labor Dept. representative.

Other guests included James Casey, CSEA field representative; Harold Hertzstein, CSEA regional attorney, and Paul Kyer, editor of The Leader.

U.S. Steps Up Job Study; Pay in 600 Titles at Stake

WASHINGTON, Sept. 16 — The U. S. Civil Service Commission will step up its drive to increase the yearly production of current job classification standards which are used by Federal agencies to determine the rate of pay for individual Government jobs in more than 600 major occupations.

In fiscal year 1957 Commission production of job standards increased to 21 from 11, the 1950-56 yearly average. Estimates are that 51 job standards will be produced in 1958 and that a further increase will be made in 1959. Each standard provides guidelines for classifying a number of related positions in an occupation.

Reason for Revisions

The production will be increased by further improvement of work methods, greater participation of Federal agencies in standards development, and the temporary reassignment to standards work of some Commission personnel, the Commission said.

At present new or revised standards are needed for 214 occupations. Increased production of standards is due in large part to rapid advances in certain fields, such as the physical sciences, which cause standards to be out of

date within a relatively short time, and also because of the new occupations. Says the Commission:

"Production of a standard requires intensive research into every phase in a particular occupation from the entry level to the top level, with the establishment of meaningful levels of difficulty and responsibility consistent with basic principles in the Classification Act. It is the level of work difficulty and the responsibilities of a job that determine where it falls in the pay scales set by the Classification Act."

Nassau Offers Clerical Jobs

Nassau County has clerical openings in six titles. Apply in writing, in person or by representative until October 4 to the Civil Service Commission, 54 Mineola Boulevard, Mineola, for the examinations to be held on October 26. Information also may be obtained by phoning Pioneer 2-3000, Extension 2265 or 2277.

The positions and pay:
 Senior, stenographer, \$3,640-\$4,490
 Senior clerk, \$3,640-\$4,490
 Stenographer, \$2,980-\$3,700
 Clerk, \$2,830-\$3,520
 Typist-clerk, \$2,830-\$3,520
 Typist, \$2,700-\$3,360.

The maximum salary is reached after four years of continuous service. A longevity increment is granted additionally, after five years of service at the top of the grade.

The tests are open to residents of the county.

Dorothy Sheerin Wed

Dorothy Ann Sheerin, of Woodhaven, Queens, John J. McDermott, of Ridgewood were married at a Mass in the Church of St. Elizabeth, Ozone Park. Miss Sheerin is the daughter of Walter J. Sheerin, president of the Uniformed Firemen's Association. She is a graduate of Catherine McAuley High School, Brooklyn, and is at present a secretary with the N. Y. Telephone Company.

Mr. McDermott is a graduate of Pace Institute and is associated with General Electric Company.

75 YEARS OF CIVIL SERVICE TO BE CELEBRATED IN '58

The diamond anniversary of U. S. civil service will be celebrated nationally on January 16.

The Civil Service Act of 1883 was passed in response to nationwide public demand, on the wave of popular indignation that followed the assassination of President Garfield in 1881 by a disappointed political job-seeker.

SANITATION HEBREW SOCIETY TO DINE AND DANCE

The twenty-fifth anniversary dinner dance of the Hebrew Spiritual Society, Department of Sanitation, City of New York, will be held Saturday, October 19, at the Hotel Diplomat. President Meyer Scher is chairman of the affair. Other committee members are Nat Kleinman, Judore Scher, David Seiden and David Stern.

ACTIVITIES OF EMPLOYEES IN STATE

Industry

During the same two weeks 12 boys from Industry were also at Camp Massewepie sponsored by the Rochester Rotary Club of Rochester, and under the care of "Doc" Funk, Scoutmaster, assisted by Mr. Catalano and Mr. Tompolski. Doc Funk brought back another silver cup, won by Industry Troop 120, while at Camp.

We wish to welcome new members to our Staff, as houseparents, Mr. and Mrs. Arthur Campbell, Mr. and Mrs. Clarence Kohler, and Mr. and Mrs. Earl Hopkins. Robert Fagan, James Least, Fred Burgess, Norbert Kurtz, John Lynaugh, Richard Jenkinson, Leonard Waterman, and Irving Smith, joined our group of Boys' Supervisors in recent weeks.

September 18th is the date set for dedication of the new Scout lodge. Materials were donated by the Rochester Rotary Club and the work has been done by our maintenance department.

Midshipman John Mason of the U. S. Naval Academy has completed his Mediterranean cruise and is visiting with his parents Mr. and Mrs. Charles Mason, before returning to Annapolis for his last year of study.

Our sympathy is extended to Vincent Melfi on the loss of his wife Mary, after a long illness.

Periodic Eye Tests Provide Safety

It is not true that a person losing the sight in one eye probably will lose the use of the other because the remaining eye has to do the work of two.

A one-eyed person actually is subject to less eye fatigue than a person with normal vision because the muscles that cause both eyes to converge on a single object are not used.

The best method to preserve vision is to have the minor faults that develop with age corrected when they first occur. Periodic eye examination will detect these faults promptly.

Many individuals working under conditions that strain eyes do not realize that much of the "low feeling" that they have can be attributed to continuous eye strain that could be eliminated.

Corcoran Wins Right to Run For UFO Post

The American Arbitration Association has handed down a decision paving the way for Lieutenant John J. Corcoran to run as a representative on the executive board of the Uniformed Fire Officers' Association.

The general election has been delayed because some members of the board had held that Lieutenant Corcoran is ineligible under the by-laws of the UFOA, which forbids candidates who are officers of any other Fire Department employees' organization from running on UFOA posts. He had headed the Fire Lieutenant Eligible's Association.

The Arbitration Association held: "The organized group of firemen who were on the eligible list for promotion to the rank of lieutenant is not a group which comes within the purview of the prohibition of the by-laws of the Uniformed Fire Officers' Association."

Plans are under way to distribute ballots for the election by Friday, September 20.

The candidates are:

Chiefs' representative, Charles J. Freeman and Peter A. McNulty.

Captains' representative, Harold Gold, unopposed.

Lieutenants' representative, Francis P. Martin and Mr. Corcoran.

The newly elected executive board will choose the officers of the UFOA for the coming year from amongst themselves.

Brockport Teachers

Bernard W. Drake, a faculty member at State University Teachers College at Brockport for 21 years and former dean of the college, died of a heart attack September 2, 1957 while visiting friends in Jamestown.

A native of Dunkirk, Prof. Drake was a graduate of Fredonia State Normal School (now State University Teachers College at Fredonia) and St. Lawrence University. He earned his masters degree at Columbia University. He taught at Celeron, near Jamestown; Falconer and Cassadaga. He was superintendent of schools at Silver Creek and Babylon, L. I. In 1936 he came to Brockport as director of training at the Campus School. Prof. Drake was dean of the college from 1947 until last year when he resigned to return to duties as professor in the education department.

Donald M. Tower, president of the college, said, "Mr. Drake gave 21 years of faithful service to the college and to the State of New York and he will be greatly missed by many of his friends in the faculty, the town, and the alumni."

Jean Bail, a member of the College Health and Physical Education Dept., is recuperating from an operation at her home in Pennsylvania.

James Wolck, a former member of the college maintenance staff, is now employed at the State School at Industry.

Adam Memorial

Employees at J. N. Adam Hospital attended a picnic held by the Chapter on August 24 at the Collins Conservation Club.

Food was served during the early evening and games were played. Jack Kurtzman, field representative, installed the new officers: Richard Mulcahy, President; Phyllis Lane, Vice-President; Dora Lindemuth, Secretary; Katherine Burke, Treasurer; and Royal Benton, Sergeant at Arms. Public Administration

Incentive Plan Soars

LAST YEAR'S CROP of ideas submitted to the federal government by its employees was up more than one-third over the year before, two-thirds over fiscal year 1954. Ideas actually used increased even more.

Nearly 300,000 suggestions were submitted; 80,000 were used, saving the government more than \$100 million in money apart from improving service. Employees received nearly \$6 million in reward for their ideas.

Co-Operative Effort

Personnel officers from 20 federal government agencies in the Chicago area have agreed to help one another expand the incentive award system in each agency, sharing promotional material and ideas on stimulating more and better suggestions from employees. This is the first such cooperative organization of federal agencies to promote incentive awards in a region, although the Civil Service Commission's Incentive Awards Section assists all federal agencies in suggestion programs, says the American Society for Public Administration.

New York State's employee suggestion system also broke records in 1956, the Society reports, paying \$10,000 to employees who saved the State \$165,000. California State government had an upsurge of useful employee suggestions this spring.

On the local level, Madison, Wis., paid its first large suggestion awards recently, \$250 for a mechanism that warns of emergency conditions in the water system and \$125 for a change in property assessment records that has already saved the city \$3,700 and started a further search for savings in the department's record-keeping.

New York City will save \$100,000 a year from an idea submitted

and his family joined us for the festivities.

The officers wish to express their thanks to all those who worked to make the affair enjoyable. Everyone who attended enjoyed a very pleasant evening and are looking forward to another soon.

During the past few months, many happy occasions have been celebrated: Rosalie Pingitore became the bride of Richard Mulcahy; Betty Braniff became Mrs. Robert Schultz; Mary Birch became Mrs. Liguori Lynch; Joan Bartlett announced her engagement to Ensign Paul Molenda who is attached to the Naval Air Reserve in Ireland. Mr. and Mrs. William Lacey, Mr. and Mrs. Robert Arrigo, Mr. and Mrs. James Young, and Mr. and Mrs. William Hardy are proud new parents. Dr. Walter Evans has been appointed to the position of Assistant Director, Richard Nauen, Jr. received a scholarship and is beginning a career in medicine at Columbia University. Milton Wheeler is pursuing his studies at Lawrence, Kansas. Best wishes to all!

We wish a speedy recovery for Art Kori, and Leo Oragetti. Glad Dr. William Rozwig, Ed Wittek, to see Mrs. Nina Wagner and Mr. Herman Berber back on duty after a long period on the sick list.

Many of our members enjoyed vacations in various places: Dr. and Mrs. Nauen and children in the western states; Mr. and Mrs. Erwin Yeager in Denver, Colo.; Mr. and Mrs. Ben Moss in Texas; Mrs. Lila Bennighoff and Mrs. Catherine O'Connell were abroad during the summer.

Welcome to the new employees who arrived during recent weeks: Alfreda Wheeler, Ainah Richmond, Myrna Hanson, Anne Paul, Mary Lou Bugenhagen, and Johnny Shaw. Also Gladys Murrett, Elnora Haight, Varneice Pierce, and Mary Nagel who joined us from Thomas Indian School.

through the City's Employees Suggestion Program that will keep maps up-to-date more economically. The employee received \$500 for his plan.

Recent employee awards in Los Angeles totalled \$1,000 to 26 employees for saving that city \$27,000 a year through improved methods.

Safety in Numbers?

Properly trained police can give better protection patrolling alone than in pairs, a study of one-man patrols in 15 cities over 400,000 population shows, says the American Society for Public Administration.

The St. Louis Governmental Research Institute reported that a lone patrolman is in no greater danger than two policemen driving together. In fact, might be safer. However, special training is recommended for the lone policeman in pursuing suspected lawbreakers and in using radio to summon help.

Housing Bias Banned

Five states now prohibit discrimination in rental or sale of housing financed by mortgages backed by government agencies such as the Federal Housing Administration and Veterans Administration, the National Association of Housing and Redevelopment Officials reports.

Four of these laws were added by Massachusetts, New Jersey, Oregon and Washington. New York was the first state with such legislation.

Bills prohibiting bias in rental or sale of any housing — whether publicly-backed or not — came

near passage but failed in the Minnesota and New York legislatures.

Minnesota's legislature, however, set up a commission to investigate the need for such legislation in the state.

Meat-Buying Plan

Meat buying for city institutions has been streamlined in Hartford, Conn., after a four-year study, the International City Managers' Association says.

After each institution lists the meat it needs for a month, the purchasing department advertises for bids on the entire month's purchase, but delivery to each institution weekly.

Federal meat inspectors receive a copy of the contract, pick out the proper meat in the supplier's plant, and stamp the time he selects it. The meat then must be delivered to the institution within 48 hours.

The new system eliminates complicated weekly bidding and purchasing, says the association.

Water Conservation

Water that formerly evaporated in reservoirs may be saved for cities badly needing it, according to the American Municipal Association.

Covering the reservoir with a thin layer of a chemical — hexadecanol — locks in the water, reducing evaporation 25 to 30 per cent, studies by the U.S. Reclamation Bureau show. The chemical spreads automatically on the surface.

Tests so far indicate it is non-toxic, and costs less than 60 cents an acre of water.

An Unjust Veto

PRESIDENT Eisenhower's veto of the pay-increase bills not only disappoints Federal employees thus denied a raise but also offends public employees generally who would assume that the President of the United States would use only tenable arguments.

The President cited the increase in the cost of living since July, 1951 as 8.9 percent, and said that the 1955 raises increased postal pay 8 percent and classified pay 7.5 percent. He then added the percentage figures of the proposed raises, and said that the measures would lift postal pay, 20.6 per cent since July, 1951, and classified pay 18.5, which would be, he said, unfair, unnecessary, inflationary, and a menace to the national debt.

Employees' Case Strong

That kind of argument does not hold water. One does not just take the pay of employees as it existed at some particular time in the past, compare an increase granted since then with the rise in the cost of living, and discover the answer to the question whether a raise is or is not justified now. One has to measure the pay at that past reference level with the pay for similar work in the other government jurisdictions and in private industry at that time. It would then be discovered that Federal employees' pay lagged considerably behind, and that industry's history in particular since then has been one of a succession of raises, not just one raise. Since the premise is false, so much of the conclusion as was based on it must be false.

The postal and classified employees made out a strong case for the raises proposed in the bills, \$546 a year, or 12½ percent for postal workers, \$515 or 11 percent for classified, judiciary and legislative employees. The unions' economists presented convincing statistics that the President seems to have ignored. He does promise to recommend pay action by Congress early next year, but that hardly atones for the present denial.

The measures though overwhelmingly voted by Congress were doomed from the start to be vetoed, as The Leader emphasized. The White House made no secret of it. The Senators and Representatives knew it better than most other persons. There were indeed some stalwart supporters of the employees in both Houses of the Congress, but in general the sincerity of the vote is open to question. The employees seem to have been taken for a ride and it's a shame.

If, And, But

There were unofficial intimations that had the measures provided for smaller raises they might not have been vetoed. That sounds queer, contrasted with the statistics supplied by the unions, showing that even if the proposed raises were granted, the employees still would not have kept pace with the dual competition of rise in cost of living and substandard 1951 salaries. Only in the lowest grades was there anything like an approach to keeping pace. The majority are not in the lowest grades.

The President conditions postal pay raises on increases in postal rates, and has as much as intimated that his pay plan for next year would be on that basis. This puts postal employees in the unjust position of having to finance part of the postal deficit on the ground that their present salaries help to create the deficit. What rates to increase to finance a raise for classified employees, the

LETTERS TO THE EDITOR

STAGGERED BY ANNUITY CONTRIBUTION RATES

Editor, THE LEADER:

I was appointed as a prison guard, State Department of Correction, in 1934 and became a member of the New York State Retirement System at that time. In 1950 I signed up for the 55-year retirement plan, and was notified that there were arrears of \$2,400 in my account, that if I wished to pay this deficiency up there would be a 12.32 percent deduction from my salary. I elected to do this although at that time at \$26 deduction from my bi-monthly check really hurt.

At the time the Retirement System sent us our last annual statement, it also sent an application form for joining a new 55-year retirement plan, whereby upon retirement we would benefit by 1/6 more for each year of service rendered over age 55. It also stated that there would be no change in our present contributions for members under age 55. This looked good, as I had planned on working a few years past age 55 to earn the full 40 quarters of Social Security. I signed the application.

Gets Another Notice

Several weeks later I was notified that under the revised 55-year retirement plan my new rate of contribution would be 6.90 percent. I understood there would be no change in my present 12.32 percent rate. What happened to the percentage rate I was paying on that \$2,400 arrears? Well, I would just wait till my next pay day and see. There was no mistake; 6.90 percent it was.

The same day I received another letter from the Retirement System stating that under the revised 55-year plan my new deficiency was \$2,200 and I could pay this up at 16.92 percent rate. That meant a \$36 deduction from each pay check. The \$36 with another \$5 or \$5 for Social Security, plus \$32 income tax, plus \$25 loan, and \$9 insurance!

I just can't swing this one. The original 12.32 percent or \$26 was tough enough—Oh! well I would make a special trip to Albany and try to be reinstated at my former contribution rate, but I was informed that when I signed up for the new retirement plan I signed away my rights to pay the old arrears up at the old percentage rate I could pay only the new deficiency of \$2,200 either by cash or at the rate of 16.92 percent. So it looks at this writing as if I'll have to string along with the 6.90 percent contribution.

The 'Good Old Days'

The old 25 year men didn't have deductions to worry about; they could retire after 25 years of service at half pay with no contributions. No options? How many of the thousands of New York State employees can retire on an

(Continued on Page 7)

President does not say, but perhaps we are being tempted to wait on that score.

No Defense

The argument that government is excused if it pays sub-standard salaries, because it can not afford to pay competitive rates, carried much force a century ago. Now government dictates what minimum salaries industry must pay, to end sub-standard salaries. Industry has no redress from this, and is entitled to none. Government is entitled to no more. Government must toe the mark, too, and not only in regard to minimum pay. Even the size of the national debt is no defense.

MERIT MAN

Paul Williams Rendering Noteworthy Public Service in Fight Against Wrongdoers—Clean Bill of Health for Civil Service Unions.

OUR MERIT MAN for the week is an official whose alertness has done much to protect the working and individual freedom of Americans.

Meet Paul Williams, U. S. Attorney for the Southern District of New York, whose jurisdiction extends from the Battery at Lower Manhattan to the edge of the Albany area.

With his calm air and striking appearance, Paul Williams could fill the bill for any movie version of the big time D.A. But while he is no "percentage" attorney (one who devotes all his efforts merely to piling up an impressive percentage of convictions to make a good-looking record), neither is he one to be trifled with.

The underworld of graft, labor racketeering and espionage have suffered from depopulation be-

since the Civil War days. In nearly a century no law enforcement officer had been able to obtain a major conviction of any person important enough to affect the situation.

That is not until Mr. Williams was appointed a special attorney by Governor Dewey, and handed the task of wiping out the evils spawned by a century of laxity.

When Mr. Williams finished his investigations of that area the corruption he had been commissioned to wipe out was at an end.

Reds and Spies

During his tenure as U. S. Attorney, there has been an almost daily news record of Mr. Williams' efforts against Communism, espionage, labor racketeering and the dope trade. He has broken some of the largest dope rings in the world. He has exposed Communism in many vital areas of everyday life and, in the course of this operation has uncovered espionage activities directed against the United States.

In view of all these heavy and continued investigations it was with some pride that The Leader reporter heard Mr. Williams remark:

"It is a pleasure for me to add that I have never had any cause to investigate any civil service employee group. This is one area of employee organization where it appears all the cleaning up is done on the inside. They are certainly an example to some other parts of labor in this country."

In talking with Mr. Williams, one is struck by his sense of justice. He is a man out to do a job for his country and out to do it fairly. His honesty shows so much that we were not surprised to learn he had never been offered a bribe. No one would dare.

Registration Open For 10 NYU Courses Until September 27

New York University will offer 10 short courses in its special curriculum for municipal employees during the fall semester. They will be given in human relations, personnel management, communications, organization and methods, social service and housing.

The program is run jointly by NYU's Graduate School of Public Administration and Social Service and the New York City Department of Personnel. All municipal employees are eligible.

Students who successfully complete a course receive a certificate, and the Department of Personnel notifies their agency, requesting that the certificate be incorporated in their record.

Registration continues through Friday, September 27, 9 A.M. to 5 P.M. daily, Room 200 at 299 Broadway. On September 20, the Division will accept registrations until 7 P.M. Registration may also be made until then by mail.

Instruction in the program will begin the week of October 7.

A bulletin may be obtained from the Graduate School of Public Administration and Social Service, Room 520, Main Building, New York University, Washington Square, New York, N. Y.

cause of Mr. Williams' hard-hitting blows against crime and treason.

On-the-Scene Man

In addition to his first-rate ability as a prosecutor, Paul Williams has that rare ability of spotting crime in action before it has attracted attention elsewhere.

Six months before the U. S. Senate investigations of labor racketeering, Mr. Williams was conducting investigations on evil labor practices in his own area. His findings of malpractice among certain unions assumed nationwide importance within weeks after his investigations started.

In this particular field of investigation, Mr. Williams was also one of the first to point out that in many areas such racketeering would not have been possible in the first place without the cooperation of businessmen who were either afraid or were willing to do business with labor bosses.

First to Crack Saratoga

During the administration of Governor Thomas E. Dewey, Mr. Williams accomplished another impressive first.

Illegal gambling, prostitution and police corruption had been a problem in the Saratoga area ever

option other than the top pay one?

What can we do to obtain a retirement where we are not squeezed to the point of denying our loved ones the right to live also? I don't know the answer, but I do know that if the State matched our annuity with a double amount it wouldn't hurt that billion-dollar or so asset too much, and we as loyal retired employees could live a little.

LETTERS WANTS GLASSES ALLOWED IN PATROLMAN TEST

Editor, The Leader:
There is a big drive on for men to take the New York City Patrolman Test, yet not nearly enough applications are being received. There must be about 25,000 men with glasses who have 20/30 vision but the requirements state "no glasses allowed." Yet a patrolman may wear glasses after his probationary period. Why doesn't someone go to bat for us men with glasses who want to take the patrolman test?

I spent two and a half years in the Korean War wearing glasses, and I am sure that I could serve 20 years on the police force with equal satisfaction all around.

Editor, The Leader,
Congratulations to the Civil Service Employees Association for the splendid program launched for 1958. All State employees

Hearing Aids Are Job Aids, Too

Faculty hearing need not be a deterrent to applying for a civil service job. In the New York City government in more than half of the 190,000 positions subnormal hearing is no bar. This applies to any person who has his hearing corrected by the use of a hearing aid. Recent developments in the design of these devices have made it almost impossible to tell that one is using such an aid. The Medical Division of the Department of Personnel will certify users of hearing aids to any clerical job in the civil service system.

\$143.75 a month
helps her pay the bills

\$143.75 a month means a lot to a state employee in Rochester who is suffering from a blood disease. This is the amount she received in disability benefits every month for 24 months because she had enrolled in the CSEA Plan of Accident and Sickness Benefits.

If you should be stricken with an accident or illness, you too would want money to help meet your regular living expenses while you were out of work. That's why it pays to enroll in the CSEA Plan of Accident and Sickness Benefits. This needed protection is not included in the new State Health Plan.

When you select your health insurance under the New York State program

THE G.H.I. OPTION

(THE G.H.I. FAMILY DOCTOR PLAN with full Blue Cross Hospital Plan)

Coverage From The First Visit...

Free Choice of Doctor... Broad Benefits...
Bills Paid in Full!

BREAK THE "COST BARRIER"... between you and the doctor of your choice! The G.H.I. Option pays benefits in the most frequent types of illness, beginning with the very first visit to your doctor. You need pay nothing, in addition to your share of the premium, before the G.H.I. FAMILY DOCTOR PLAN begins to pay benefits for these services.

Fear of expense makes most people hesitate to consult a doctor. Yet, prompt treatment at the first sign of illness can often stop a disease from becoming serious. In addition, medical advice, when you are well, can often prevent sickness before it gets started. The G.H.I. FAMILY DOCTOR PLAN encourages you to get prompt diagnosis and early treatment and also pays for such preventive services as annual check ups, immunizations and out-of-hospital well-baby care.

THE FIRST DOLLAR... The G.H.I. FAMILY DOCTOR PLAN reimburses for the first dollar of covered doctor bills. Once you have paid your share of the premium, you are eligible for immediate benefits. If you follow the simple procedures explained on the facing page, almost all your doctor bills can be paid in full, REGARDLESS OF YOUR INCOME.

CHOOSE ANY DOCTOR... Under the FAMILY DOCTOR PLAN, you are free to continue to use your own doctor or choose any doctor you wish, any where in the world (including dentists, osteopaths, and podiatrists in appropriate cases). Bills can be PAID IN FULL when you use the services of a "Participating Physician" or a "Participating Family Doctor" (doctors who have agreed to accept the G.H.I. allowances as their full fees - see facing page). More than ten thousand physicians and surgeons participate.

Even if you choose a non-participating doctor, you receive the G.H.I. allowances as cash benefits.

BROAD COVERAGE

- **Complete coverage for hospital expense** for 120 days through the BLUE CROSS PLAN. This hospital bill coverage is the same in all of the choices offered you under the State program.
 - **General Medical Care, including:**
An unlimited number of visits to your Doctor's Office.* An unlimited number of visits by your Doctor to your home.* Diagnostic X-rays.* Diagnostic Laboratory Tests.* Specialist Consultations (\$15 payment for one consultation in each specialty field in an illness). Physio-Therapy Treatments (including Osteopathic manipulations) up to four treatments in an illness or injury.* Allergy Treatments (up to \$50 per person per calendar year).*
 - **Maternity Care, including:**
Pre-Natal care of expectant mother.* Normal Delivery.* Post-Partum care of mother and child.* Miscarriage.* Ectopic Pregnancy.* Caesarian Section.* Maternity benefits are provided only if husband and wife were insured at time of conception.
 - **Preventive Medical Care, including:**
Annual Physical Examination, including X-rays and laboratory tests.* Immunizations (excluding cost of drugs).* Well-Baby care (monthly visits to doctor during first year, semi-annual visits during next six years).*
 - **Surgical-Medical Care, including:**
Surgery performed in the hospital, including aftercare, and including the treatment of fractures and dislocations.* Surgery performed in the doctor's office or at home, including the treatment of fractures and dislocations.* Medical care in the hospital - up to a maximum of 201 days in non-surgical, non-maternity cases. (maximum cash payment of \$655, made to any doctor).* Specialist Consultation in the hospital - (\$15 payment for one consultation by an accredited specialist in each period of hospitalization when requested by the attending physician). Radiation therapy-unlimited number of out-of-hospital, superficial X-ray treatments, and up to 20 deep X-ray treatments per person per calendar year.*
 - **Nursing Care:**
Visiting nurse service, when ordered by the attending physician.*
- *Bills for all of the listed benefits starred above ("Service" Benefits) can be PAID IN FULL - provided the simple procedures described on the facing page are followed. Note that specialist consultations, in or out of the hospital, are cash payments. These payments are in addition to benefits for covered diagnostic X-ray and laboratory tests.

BILLS PAID IN FULL - "SERVICE" BENEFITS

Most of the services covered by the G.H.I. FAMILY DOCTOR PLAN - and that means almost all the doctor services you and your family will need - will be PAID IN FULL by the PLAN if you use a "Participating Family Doctor" or a "Participating Physician" and, in hospitalized cases, apply for and use semi-private or ward accommodations.

These PAID IN FULL features ("Service" Benefits) APPLY WITHOUT REGARD TO YOUR INCOME OR THAT OF YOUR FAMILY! Thousands of "Participating Physicians" have agreed to accept the G.H.I. allowances as full payment for medical or surgical care rendered in a hospital to insured patients who apply for and use semi-private accommodations. More thousands of Participating Family Doctors have agreed to accept G.H.I. allowances as full payment for services rendered in their offices or in your home. (Note: "Participating Family Doctors" may make an additional charge of \$2 for home calls between 6 and 10 PM and of \$5 for calls between 10 PM and 8 AM.)

Directories of "Participating Physicians" and "Participating Family Doctors" will be available to you at your place of employment. There are varying numbers in different counties. The directories are issued periodically in order to keep up-to-date lists available to you. Be sure to consult these directories to see if your doctor is a Participant. If not, ask him to join. It costs him nothing.

Non-Participating Doctors have not entered into any agreement with G.H.I. The same G.H.I. fees are paid for their services, but they are free to charge subscribers additional amounts. The patient is responsible for the difference, if any, between the G.H.I. payment and the total charge.

**G.H.I. has recently initiated a campaign to enroll "Participating Physicians" and "Participating Family Doctors" in starred counties. These starred counties do not at the present time have a substantial number of "Participating Physicians" and "Participating Family Doctors" whereas the other counties listed do have a substantial number of such doctors. (See G.H.I. directories at your place of employment.) Even if you use a non-participating doctor, you receive the G.H.I. allowances as cash benefits.

CONVERSION PRIVILEGES: If your coverage or that of an insured dependent terminates under this PLAN, you are privileged (within 31 days) to subscribe to a G.H.I. Direct Payment Medical-Surgical Contract.

EASY TO USE: Inform your doctor that you are a G.H.I. subscriber before receiving services and, after treatment, fill out a G.H.I. claim form with your doctor. Such forms are available at your place of employment.

In "Service" Benefit cases, G.H.I. pays the doctor directly and in full - you do not even receive a bill. In cases where you have paid the doctor, G.H.I. will send his check to you.

LIMITATIONS AND EXCLUSIONS: The G.H.I. FAMILY DOCTOR PLAN applies, during any single period of hospitalization, to only one type of care. That type of care shall be the one giving the greatest benefits to the insured. The PLAN covers up to 9 antrum punctures in a calendar year; 10 varicose vein injections in one leg or 15 in two legs in a calendar year; and suturing of 9 lacerated tendons in one accident.

THE G.H.I. FAMILY DOCTOR PLAN does not apply to: services not required in accordance with accepted standards of medical practice; injection therapy except for the injection of a specific, other than hormones, for a particular disease; cutting or other treatment of corns, bunions, callouses or nails of the feet (except for the removal of an entire nail) or the diagnosis or care of fallen arches or of weak feet; care of functional mental or nervous disorders, drug addiction and chronic alcoholism, except for out-of-hospital consultations; circumcisions performed within 30 days of birth and well-baby care in the hospital; care of pulmonary tuberculosis after diagnosis as such, except for surgical care given in any such case; aftercare rendered by any person other than the operating surgeon; medications or drugs, except allergens; administration of anesthesia; general dental care, except for the correction of damage received in an accident while covered under the PLAN; expenses for eyeglasses or hearing aids; cosmetic surgery; workman's or veteran's compensation cases; services needed as the result of war; and services for which the employee incurs no charge or which are covered under any other employee group plan.

Southern Conference To Meet in Newburgh

The Southern Conference of the Civil Service Employees Association will meet Friday, Sept. 20, at 8 P.M. in the Newburgh Armory, Newburgh, N. Y., Mrs. Nellie Davis, Conference president, announced.

eral government, and only if you were on the State payroll during any part of the retroactive period. You are not entitled to retroactive or current benefit for any period during which you are not on the payroll.

HOW CAN I FIND OUT what earnings have been credited to my Social Security number and how many quarters of coverage I have? —P.E.J.

Write to the Social Security Administration, Baltimore, Md., and ask for the information. If there is any reason to question your wages or quarters of coverage, your local Social Security district office will assist you in correcting the record.

I AM a State employee who has 12 quarters of Social Security to my credit from previous employment. I am told I lose it even if I join Social Security now under the State plan. Is this so. P.D. Join. You don't lose it.

I HEARD RECENTLY that Social Security payments this year will be more than receipts from taxes. Where will the money come from to pay the deficit? P. L.

It's true that payments will exceed tax receipts, but, in addition, the Social Security Trust Fund will receive interest of about half a billion dollars this year, which will more than cover the difference. Thus total receipts for 1957 (taxes plus interest on investments) will exceed total payments.

I AM A FIREMAN employed by New York City. If I elect to be covered by Social Security and die next year, will my wife and four-year-old daughter have any protection? C. E.

Certainly, if the firemen elect to be covered. Your child would be eligible to receive benefits until she reaches age 18, and your widow would collect benefits so long as the child stayed in her care and she did not earn more than \$1,200 a year. (Even if she did earn more than \$1,200, she might still collect some checks for herself.)

"I AM EMPLOYED full-time by the City for over \$4200 a year. I also have a part-time job under Social Security. If I elect coverage retroactive to 1956, I will have to pay back taxes that will go over the \$84.00 that I'm supposed to pay for 1956. Must I pay the full amount?"

You must pay the full amount for which the City bills you, but when you file your 1957 income tax return you may request a refund or tax credit for the years 1956 and 1957.

Caretakers Take First Step Toward Laborer Title

A determined drive has been begun by Local 237, Tenmasters, to have the title of caretakers employed by the New York City Housing Authority changed to laborer. That would keep them in the competitive class, but would entitle them to receive the rates prevailing in local private industry.

Henry Feinstein, president of Local 237, said that that the industrial rates are far higher than what the City is now paying laborers.

Hearings are to begin soon, after which a determination will be made by Comptroller Lawrence E. Gerosa as to what the prevailing rate is, or a stipulation signed setting rates higher than those under the Career and Salary Plan.

Duties Found the Same

As a preliminary to seeking change of title, a delegation representing the union conferred with Joseph Schechter, the City's Personnel Director. Present for the union were Louis J. Yavner, counsel, and Arthur Foley, chairman of the housing division.

The union will wage an appeal before the Classification Appeals Board. Meanwhile it is sounding out all quarters concerned, including the Housing Authority, and has prepared a brief that sets forth in detail the duties of a caretaker, showing their correspondence with those of a laborer.

How to Cure Hiccups

There's one subject on which everyone's an expert — how to stop hiccups.

In my time, friends have suggested the following cures. I pass them on for what they're worth: (1) hold your breath and drink water, (2) blow into a paper bag until your ears pop, (3) sit in the middle of a room and let someone creep up behind you and scare the hiccups away.

People have pet theories about electrical troubles, too. Whenever a TV picture shrinks, or a toaster heats slowly, or lights dim, they are likely to conclude that there's something wrong with the appliances.

Frequently the trouble is inadequate home wiring. Four out of five N.Y.C. homes don't have large enough wiring or enough circuits to handle their electric load.

Better check with your electrician or landlord. And for help in checking your wiring send for a free copy of Con Edison's adequate wiring booklet, with Magic Link Pencil. Write Con Edison, Room 833N, 4 Irving Place, New York 3, New York.

New Buildings To House Three HIP Centers

Three of the 32 medical groups affiliated with the Health Insurance Plan of Greater New York (HIP) will open new medical centers next month. Dr. George Baehr, president and medical director of the Plan, announced. The cost of each of the three new structures is in excess of \$500,000.

HIP, a non-profit organization, serves 515,000 enrollees through medical groups consisting of family doctors and a roster of specialists. Each group operates a modern, fully equipped medical center where most of the specialist and laboratory services are provided.

APPEAL IS ATTEMPTED OVER POLICE CAPT. TEST

The Police Lieutenants who unsuccessfully attempted to challenge the conversion formula, in connection with the recent Police Captain examination, whereby the number of eligibles passing the examination was increased because of a reduction in the penalty for wrong answers, will make an application in the Appellate Division for leave to appeal to the Court of Appeals, from the final order of the Appellate Division which affirmed Judge Gavagan and upheld the conversion formula.

The unsuccessful Police Lieutenants are represented by Morris Gordon. The application for leave to appeal will be opposed by Samuel Resnicoff, representing the Police Lieutenants, who benefited by the conversion formula, many of whom have since been promoted to Captain.
