State University of New York

May 15, 2015

Alexander N Cartwright, Ph.D.
Provost and Executive Vice Chancellor
State University of New York
State University Plaza
Albany, NY   12246

Dear Dr. Cartwright,

Please accept the attached Program Revision proposals to change the names of two of our registered programs. The African Studies undergraduate program title changed to Africana Studies several years ago but the change was not reflected in one of our joint programs. The proposal to change the name of our current Public Policy undergraduate major and related programs to Public Policy and Management will align the title with the content of the curriculum. These changes have been fully approved on campus via multi-level governance review.

Should there be a need for additional information or clarification to facilitate processing, please contact Celine Forsyth, Assistant to the Vice Provost for Undergraduate Education at cforsyth@albany.edu.

Thank you for your consideration and assistance.

Sincerely,

James R. Stellar
Senior Vice President for Academic Affairs and Provost

Section 2. Requested Changes.

Section 2.1. Changes in Program Content

a) **Check all that apply. Describe each proposed change and why it is proposed.**

- [ ] Cumulative change from SED's last approval of the registered program of one-third or more of the minimum credits required for the award (e.g., 20 credits for associate degree programs, 40 credits for bachelor's degree programs)
- [ ] Changes in a program's focus or design
- [ ] Adding or eliminating one or more options, concentrations or tracks
- [ ] Adding or eliminating a requirement for program completion (such as an internship, clinical placement, cooperative education, or other work or field-based experience)
- [ ] Altering the liberal arts and science content in a way that changes the degree classification of an undergraduate program, as defined in Section 3.47(c)(1-4) of Regents Rules

b) **Provide** a side-by-side comparison of all the courses in the existing and proposed revised program that clearly indicates all new or significantly revised courses, and other changes.

a) For each new or significantly revised course, **provide** a syllabus at the end of this form, and, on the *SUNY Faculty Table* provide the name, qualifications, and relevant experience of the faculty teaching each new or significantly revised course. NOTE: *Syllabi for all courses should be available upon request. Each syllabus should show that all work for credit is college level and of the appropriate rigor. Syllabi generally include a course description, prerequisites and corequisites, the number of lecture and/or other contact hours per week, credits allocated (consistent with SUNY policy on credit/contact hours), general course requirements, and expected student learning outcomes.*

c) What are the additional costs of the change, if any? If there are no anticipated costs, explain why.

Section 2.2. Other Changes

Check all that apply. Describe each proposed change and why it is proposed.

[**X**]Program title

Change name from Public Policy to Public Policy and Management

This change is to align the name of the degree with the content of the curriculum. Coursework focuses heavily on topics related to management such as managerial decision making, organizational design and structure, organizational politics, and organizational behavior. The curriculum balances attention to public policy and management.

The request that the degree name include the term "Management" fits the intellectual evolution of public sector studies. Over the last twenty years the term "public management" largely has supplanted the term "public administration" in the establishment of new programs and professional associations, largely to convey that the field now draws on a wider range of disciplines touching on managerial processes. In the past ten years two major new professional associations have been established—the Public Management Research Association and the International Public Management Network, both including the word Management. Thus, a degree designation of "Public Policy and Management" would correspond to this intellectual evolution.

- [ ] Program award
- [ ] Mode of delivery

NOTES: (1) If the change in delivery enables students to complete 50% of more of the program via distance education, submit a Distance Education Format Proposal as part of this proposal. (2) If the change involves adding an accelerated version of the program that impacts financial aid eligibility or licensure qualification, SED may register the version as a separate program.

[ ] Format change(s) (e.g., from full-time to part-time), based on SED definitions, for the **entire** program
    1) State proposed format(s) and consider the consequences for financial aid
    2) Describe availability of courses and any change in faculty, resources, or support services.

[ ] A change in the total number of credits in a certificate or advanced certificate program

[ ] Any change to a registered licensure-qualifying program, or the addition of licensure qualification to an existing program. **Exception:** Small changes in the required number of credits in a licensure-qualifying program that do not involve a course or courses that satisfy one of the required content areas in the profession.

Section 3. Sample Program Schedule

a) For **undergraduate programs**, complete the *SUNY Undergraduate Sample Program Schedule* to show the sequencing and scheduling of courses in the program.   If the program has separate tracks or concentrations, complete a *Sample Program Schedule* for each one.

See Appendix 1: Sample Program Schedule

a) If applicable, provide information on faculty members who will be teaching new or significantly revised courses in the program. Expand the table as needed. N/A

b) **Append** at the end of this document position descriptions or announcements for each to-be-hired faculty member
