RONAN, LEVITT SPEECHES HIGHLIGHT TWIN WORKSHOP

Aides Face Better Future With New Administration, Ronan Tells Workshop

KIAMESHA LAKE, April 27 — Gov. Nelson A. Rockefeller's new tax programs have laid the basis for taking proper care of the State's employees in the future, William J. Ronan, secretary to the Governor, declared here last week. Addressing more than 200 dele-

gates attending the third annual Spring Workshop of the Metropolitan and Southern Conferences of the Civil Service Employees Association, Mr. Ronan said the tax increases had been necessary to keep the State from going into deficit financing.

The former dean of the New York University School of Public Administration said that proper financing laid the only solid basis for real employee gains in the future. Acknowledging the fact that employees were taking home a slightly smaller pay check now, Mr. Ronan declared that "the initial steps are being taken to bring our State service more in line with private industry."

Long-Range Program He cited studies on vested rights, supplemental pensions to retired persons and plans for an incentive program as preliminary steps to a long-range improvement of the service. In addition, Mr. Ronan pointed out that a reorganization study of

the State service would soon be under way and would result in efficiencies from which the public employee would benefit, too. Later, Mr. Ronan reported that the Governor had been pleased at the action of the Legislature on the Administration's pay proposals. "I am sure you all appreciate the fact that Mr. Rockefeller stuck to his pay proposals despite outside pressures exerted because of new tax programs," he said.

Praising the Association for its "tremendous role" in the improvement of state government, Mr. Ronan said "I know we can call on you to aid in our reorganization study as well."

"I also want you people to feel free at any time to call on me to discuss any problems you might have. My door is always open to any of you," he declared.

The Governor's secretary was speaker for the first evening event, of the two-day affair, held at the Concord Hotel here. A welcome of guests was made by James O. Anderson, president of the Southern Conference. Toastmaster for the evening was Joseph Lochner, CSEA executive director.

Variety Made Workshop A Huge Success

KIAMESHA LAKE, April 27 — The third annual Spring Workshop sponsored jointly by the Metropolitan and Southern Conferences of the Civil Service Employees Association offered more than 200 persons a two-day session with everything from a kaffe klatch to panel discussions to speeches. The highly successful program for the event, held at the Concord Hotel here, was arranged by co-chairmen Charles E. Lamb, of the Southern Conference, and Irwin Schlossberg, of the Metropolitan Conference. Mr. Lamb served as moderator for a panel discussion on salary structure problems as discussed by F. Henry Galpin, CSEA salary research analyst. Mr. Galpin substituted for J. Earl Kelly, State Director of Classification and Compensation, who was unable to attend. Important changes in the Social Security Law were reported on by Edward G. Sorenson, director of the State Social Security Agency, in a later session. William J. Rossiter, was moderator. Final panel discussion was a

Levitt Hits GOP Inaction On Supplemental Pensions Again; Asks Vested Rights

KIAMESHA LAKE, April 27 — Comptroller Arthur J. Levitt has again attacked the failure of the GOP-dominated Legislature to provide already-retired State workers with additional pension funds. Mr. Levitt, final speaker at the two-day Spring Workshop here of the Metropolitan and Southern Conferences of the Civil Service Employees Association, called the Republican refusal to pass a supplemental pension bill "callous and hard-hearted."

Cites This Bill

The state official told some 200 persons attending the final dinner session of the Workshop that there was no need for delay on a vested rights bill, either. "I submitted a bill to this Legislature," said Mr. Levitt, "that adequately covered the legislation needed to provide our employees with a good vested rights program."

The Comptroller said he felt employees had earned the right to leave their contributions on credit with the Retirement System and should be allowed to let these contributions earn a pension for

them, even though leaving State service.

Calls for Action

"I shall continue to insist on the sharp need for supplemental pensions and the necessity for a vested rights program. They need

ARTHUR J. LEVITT

no further study — just action," he declared.

In the main, Mr. Levitt reiterated improvements in the Retirement System under his stewardship. He cited the increase to 3½ percent on the yield the System now gains for its investments and said it was his goal to get a 4 percent return for all members of the System.

Mr. Levitt said he thought this would be possible now that the Legislature had authorized him to invest some portion of the Systems funds in very high grade corporate bonds. Citing in addition the 55-year retirement plan and the advent of Social Security Mr. Levitt said he would continue to broaden the base and benefits possible under the Retirement System in every way that he could.

The Comptroller's speech was the final event of the Workshop, held at the Concord Hotel. The welcoming address for that evening was delivered by Irwin Schlossberg, president of the CSEA Metropolitan Conference. Toastmaster for the evening was John J. Kelly, Jr., CSEA associate counsel.

YOUTH GROUP HEAD NAMED ALBANY, April 27 — Governor Rockefeller has named A. Van Hancock of Syracuse as chairman of the state committee on the 1960 White House Conference for Children and Youth. Mr. Hancock is former president of the Children's Bureau of Syracuse.

CHAIRMEN WELCOME LEVITT TO WORKSHOP

Comptroller Arthur J. Levitt, center, is seen here as he was welcomed as one of the guest speakers to the third annual combined Spring Workshop of the Metropolitan and Southern Conferences of the Civil Service Employees Association, held last week at the Concord Hotel. He is greeted by Charles E. Lamb, left, and Irwin Schlossberg, right, co-chairmen of the very successful event attended by more than 200 persons.

NEW REAL ESTATE DEPT. IS CREATED

ALBANY, April 27 — Legislation creating a new Department of Real Estate in New York City has been signed by Governor Rockefeller.

The legislation had been sought by Mayor Robert Wagner of New York City.

TA Power Plant Men Ask Switch to Other CS Jobs

Transit workers have formed a new group to fight loss of their civil service status when New York City sells its power plants to Consolidated Edison. They have asked for transfers to jobs in other City agencies, and for a conference on the transfers with City chiefs.

The new group, several hundred strong, is called the United Power Plant Employees Unincorporated Association. It has retained attorney Samuel Resnicoff, who has forwarded the association's requests in a letter to Mayor Robert Wagner.

The wording of the Civil Service Law, Mr. Resnicoff stated in his letter, shows its intent to protect civil service employees who are about to lose their jobs through no fault of their own. Moreover, he said, both the Law and the State Constitution, give veterans priority in keeping civil service jobs.

Civil Service Law

Mr. Resnicoff pointed to Section 81 of the Civil Service Law, which reads:

"Any person who while holding a position in the competitive class under the civil service law or rules, has been separated from the service through the abolition of a department . . . or whose position is abolished or made unnecessary, through no delinquency or misconduct on his part shall be deemed to be suspended without pay, which suspension shall be made in the inverse order of original appointment in the service, and shall have his name entered upon a preferred list for the position last held by him or any other position having the same or similar requirements for entrance . . . It shall be the duty of the state civil service department or of the municipal commission, . . . forthwith to place the name of said person upon a preferred list for the office, or position, in which he has been employed, or for any corresponding or similar office or position in the same class, grade, group, or substantially similar or corresponding group as the position he formerly held, and to certify from such list the names of persons for reinstatement, in the order of their original appointment, before making certification from any other list, for such position or similar position . . . When the state department or municipal commission, as the case may be, certifies names for any position for which a preferred list for any corresponding or similar office or position in the same grade, group, or corresponding group or substantially similar or corresponding group exists no

other name shall be certified from any other list until such preferred list has been exhausted."

Rights Protected

Mr. Resnicoff said that a reading of the section would show that "it was the intent of the Legislature to protect the rights of all permanent employees occupying competitive civil service positions who are about to be separated from their positions through no fault or misconduct on their part. This section, which is to be liberally construed, conferred definite rights and benefits.

"Chapter 790 of the Laws of 1958, which enacted the new Civil Service Law effective April 1, 1959, does not expunge the right of permanent employees occupying competitive positions, in the event of the abolition of their positions, to be transferred to other positions in the City service where the duties are substantially similar. Section 80 and 81 (Title C) of the new law, apply only in futuro."

Mr. Resnicoff pointed to Section 185 of the new law which states:

"Nothing contained in this act shall affect or impair any act done or right accruing, accrued or acquired prior to the time when this act shall take effect, under or by virtue of the provisions of the civil service law as in force immediately prior to the time this act shall take effect, but the same may be asserted and enforced as fully and to the same extent as if this act had not been enacted."

Veterans' Priority

In addition, said Mr. Resnicoff in his letter, many members of the new association are veterans, both disabled and non-disabled. "Both the New York State Constitution and the Civil Service Law expressly provide for preference

in retention, in the event of the abolition or elimination of any position in the civil service," he said.

He added, "There are a number of positions in the various City agencies and department where-in the duties of said positions are substantially similar to the duties presently being performed by my clients. To properly protect the interests of my clients, and to avoid a minimal violation of their rights by the proposed sale of the power plants, it is my suggestion that a conference be arranged between Commissioner Felix, Mr. Schechter and myself, for the purpose of ascertaining the various positions in other City agencies to which my clients could be transferred."

Mr. Resnicoff stated his confidence in the results of such an open discussion, which, "in all probability would eliminate litigation."

Merchants Show Enthusiasm For Employees Buying Plan; Many New Stores Join List

First reaction from merchants to the Public Employees Buying Plan, announced last week in the Civil Service Leader, appeared to be enthusiastic cooperation.

Most merchants indicated that they hoped the concentration of buying of certain products and services would reduce their own costs to a point where profits would be increased, and many merchants joining the plan indicated they felt "civil servants deserve a break." One merchant suggested: "After all, they work for me too!"

Immediately following the first

announcement forty stores were added to the list of merchant members, several additional product listings were requested, one store asked to withdraw from the plan, and two stores asked that corrections be made in listings.

The Public Employees Buying Plan announced on April 21 makes available to eligible civil servants rebates on purchases made from hundreds of cooperating merchants. Rebates vary from a standard 7½ per cent to 3½ per cent, the figure allowed by discount houses and on certain product lines where mark ups are smaller than average. All members of CSEA are automatically eligible to use the plan.

How the Plan Works

The Plan is operated by a non-profit corporation sponsored by the Civil Service Leader as a service to public employees. Consumer members merely send sales slips on purchases made from Merchant Members to the plan, together with a summary of the slips. The Plan collects rebates from the Merchant Members and remits the appropriate amount to Consumer Members. Unless purchases are for sums of \$200 or more, consumers need make no mention of their affiliation with the plan at the time of making the purchase. However, on larger purchases, acknowledgment by the store after making purchase is required. Fair traded products and certain products noted in listings are excluded from plan benefits. All sales slips and summaries should be mailed to Public Em-

CENSUS JOE PREFERENCE

No Democracy Without A Dedicated Civil Service, Stratton Tells Conference

ONEONTA, April 27 — "A democracy such as we have in the United States could not function if it were not for the dedicated people who make civil service their career," U.S. Rep. Samuel Stratton told delegates and guests attending the spring meeting here of the West Central Conference of the Spring Workshop.

Teacher Retirement Amendment Signed

ALBANY, April 21 — Governor Rockefeller has approved an amendment to the state retirement system for teachers, placing a new requirement on those who may draw supplemental pension benefits.

The bill had the support of the State Teachers Retirement System, the State Commission on Pensions, the New York City Teachers' Retirement System and the State Teachers' Association.

Mr. Rockefeller noted that there have been some instances where retired teachers with 15 or more years of service have returned to teaching just long enough to be restored to membership in the system and who then retire so as to qualify for the supplemental pension.

This bill requires that the retired teacher have at least 20 months of membership in the system before retiring in order to be eligible for the increased pension.

APPLICATION NOTARY NEED GETS A VETO

ALBANY, April 21 — Governor Rockefeller has vetoed a bill which would eliminate the requirement of an applicant for an examination for a teaching position in New York City to have his or her application notarized.

Noting the bill created a serious ambiguity, Mr. Rockefeller said he was disapproving the legislation. The bill would have authorized punishment for a false statement intentionally made in such an application.

Addressing some 150 persons at a dinner for which Oneonta Chapter, CSEA, was host, Mr. Stratton said that "Without a strong civil service to meet the challenges of the years ahead we will have serious problems."

Tells of Europe

He then outlined a recent trip to Europe he made as a member of the armed services committee of Congress.

"No men are better trained, more alert or more enthusiastic than our men in West Germany and Berlin," Mr. Stratton said.

He said he would recommend to Congress that additional funds be made available for training in Europe, and that another division be stationed in Germany to strengthen the position of the United States.

"There is much less excitement in Berlin about the Berlin sit-

uation than in the United States," he said. "I think this is because the people in West Berlin feel confident that the United States and her allies are there to stay, and will not be forced out by Communist threats."

Other Guests

Also present at the dinner were Paul Talbot, Assemblyman from Otsego county; Edwyn E. Mason, Assemblyman from Delaware county; Guy Marvin, Assemblyman from Chenango county and Joseph Feily, CSEA first vice president; Vernon Tapper, CSEA third vice president; Robert Soper, CSEA second vice president; Mrs. Soper, Albert Killian, CSEA fifth vice president, Mrs. Killian; Raymond G. Castle, CSEA fourth vice president, and Mrs. Castle, and Charlotte Clapper, CSEA secretary.

In the afternoon, the Central Conference meeting was presided over by John E. Graveline, Conference president.

Samuel Boreilly was chairman for the County workshop.

Kaplan Sworn In As President Of Civil Service Commission

ALBANY, April 27 — Governor Rockefeller announced today that he will designate H. Eliot Kaplan as president of the State Civil Service Commission.

He will succeed Alexander A. Falk, who is being replaced as president of the Commission at his own request but who will remain a member of the Commission, said the Governor's press statement.

Mr. Kaplan, an authority on civil service law and procedures, was named a Commission member last month. He will be sworn into office as commission president at special ceremonies today at 11:15 A.M., at the Governor's office, 22 West 55th Street, New York City.

Mr. Falk has served continuously as a member of the Commission since his first appointment by Governor Dewey in 1947. He has served as president for the last four years.

valuable service for more than a decade. I know that the new president will bring to the job the same stature and the high qualifications as the man he succeeds.

I have been tremendously impressed by the affection and esteem held for Mr. Falk by the entire civil service of New York State. The people of the State owe him a great debt for the integrity and devotion with which he has looked after the best interests of the State by maintaining high standards of civil service as well as protecting the welfare of the many thousands of men and women who have devoted their lives to meeting the needs of the people through government service.

"Mr. Kaplan's extensive background and knowledge of this work will, I am certain, make him a worthy successor."

Marcy Cites 2 Employees For Deeds

Two employees of Marcy State Hospital were recently cited for meritorious service above and beyond the call of duty, at a ceremony at the hospital. They are Miss Betty Smith, supervisor of the Children's Service, and William Bayer, Institution safety employee.

On the night of January 22, during a period of thaw, water from drains outside of D. Building ran into the basement hitting steam pipes and causing the basement to be filled with hot steam. This basement area was stored with new furniture to be used in the Morningside Children's Unit. Although off duty and at home, Miss Betty Smith returned, gathered five of the older boys plus Mr. Buttenschon, who was also off duty, to assist her. The group moved the entire mass of furniture out of the hot steamy area, some by hand and some on the children's wagons until the wagons broke down. The operation was completed in about four hours, and the furniture for their new unit was undamaged through Miss Smith's splendid devotion to duty.

On the night of March 1, 1958, the interior and exterior overflow pipes on the hospital water tank froze and fractured. The outside temperature was at freezing. Water was overflowing from the tower. The shut offs were below the tank, under 6 feet of snow and 4 feet in the ground. After Mr. Newlands' crew removed the snow it was necessary to locate the valve boxes then flooded by 18 inches of water, which was continuing to spray this area from the tank. Mr. Bayer worked diligently in this water under these adverse conditions from shortly after 4 P.M. until 4 A.M., Sunday, March 2.

By his voluntary persistence and interest beyond the call of duty Mr. Bayer greatly aided in shutting off the water supply to the tank.

Harlem Valley Honors Aides

More than 500 persons attended a celebration recently at the Harlem Valley State Hospital honoring 12 employees who retired and 19 who completed 25 years' service during the past year. Those attending included members of the hospital's Board of Visitors, staff members, personnel and guests.

A buffet dinner and dancing followed the formal ceremonies.

Dr. Leo P. O'Donnell, director of the hospital, made the welcoming address. He introduced Dr. Helen E. Elliott, Deputy Assistant Commissioner of the State Department of Mental Hygiene.

Dr. Elliot said she was "quite impressed with the high morale and spirit conspicuous among

both employees and patients at the hospital." As a representative from Albany, she spoke warmly of the services rendered by employees to the patients and of the importance of these services.

Peter Garamone, president of the Hospital's chapter of the Civil Service Employees Association, presented a framed copy of "The Code of the Civil Servant" to Director O'Donnell, who read it aloud.

Dr. Harry A. LaBurt, director of Creedmoor State Hospital, and a former director of Harlem Valley State Hospital, was principal speaker of the evening. He reminisced about his days at Harlem Valley and told a number of anecdotes involving some of those being honored. He also talked of the "great changes" since he left.

Mrs. Katherine Premano, president of the hospital's Board of Visitors, presented certificates to the retiring employees. James Duffy, secretary of the Board, presented 25-year pins to the ladies, and Mrs. Marguerite Bailey, a member of the Board, presented them to the men.

Police Liability Bill Action Is Delayed

ALBANY, April 21 — Governor Rockefeller has called for further study of legislation to exempt police officers from liability in accepting custody of a prisoner who has been illegally arrested by a private citizen.

In vetoing a bill passed by the Legislature to provide such protection, Mr. Rockefeller said: "This bill does not merely protect an officer who has acted reasonably, for it also protects an officer who has acted unreasonably or negligently. I am certain that further study of this problem will permit us to give the needed protection to police officers reasonably attempting to perform their duty, without at the same time depriving of their remedies members of the public who have been illegally arrested."

No Need For Inferiority Among Public Employees

RECENTLY, this newspaper reported on a survey that showed civil servants to be suffering an inferiority complex as a result of being public workers. On the other hand, the survey said public opinion of the service was high.

Any feeling of inferiority on the part of the civil servant certainly is the result of long years of accusations that public employees were freeloaders, a burden on the taxpayers and the holders of unnecessary jobs.

Now, the average civil servant has reason to feel a lesser person when he looks at the financial rewards for his work—but a look at the caliber of men and women in the service should certainly dispel any sense of social inferiority.

An Impressive Roster

Who are the men and women that comprise our public employees? They are doctors, scientists, educators, judges, lawyers, accountants, administrators, librarians and a host of other professionals. They compete for their jobs, must constantly be reviewed for performance and again compete when promotions are available.

They get vast highway projects into action, protect the public health and safety, administer the law, collect taxes, provide sanitation, care for the mentally ill, educate our youth, protect our resources, provide recreation and a multitude of other services that make our American way of life the thing that it is. Without our public employees our country would be a lesser one.

Government is no simple operation these days and civil servants should feel proud of their vital role in our society. Professional recognition of their value is here. And government is slowly learning the painful experience of not adequately paying for service.

This newspaper will continue its fight for better working conditions and decent salaries for all civil servants but it will never feel that it has to apologize for the caliber of the public service. Those in service are among the country's finest people.

Merit, Not Pressure

The Board of Estimate has finally seen its way clear to give its 38,000 uniformed firemen, policemen and correction officers and its 40,000 school teachers a \$300 raise, which was the minimum promised before the City budget was drawn up. The fact that the pay raise has come proves either that the money to give it was there all the time, or that it was not and still is not there.

If it was there all the time, why were the employees forced to the frenzied pressuring tactics they have carried on since the original \$200 raise was announced? Pay raises should be based on merit, not pressure. The need for more pay for these and other City employees speaks for itself. If these stalling tactics were merely a device to make certain the raises, after all the shouting was over, would not come to more than \$300, it was a low trick that might backfire. If City servants learn that pressure works and that it is the only thing that works, amicable relations between the City and its employees, based on mutual respect and loyalty, might become a thing of the past.

LETTERS TO THE EDITOR

"FINGERPRINT EXPERT" REDEFINED AGAIN

Editor, the Leader:

In response to a letter in last week's Leader entitled "Fingerprinters Rebut Equal Duties Claim," we, the fingerprint technicians of the New York City Personnel Department, Department of Correction and Transit Authority point out that we, too, do responsible work, such as classifying, filing comparing and photographing fingerprints, feeding and assigning prisoners to cells and aiding in identification of unknown deceased.

We work hand in hand with the Police Department and the Federal Bureau of Investigation. We make reports to the Civil Service Commission on all candidates who have arrest records and maintain a fingerprint file on all City employees. We report to the Civil Service Commission any substitutions or impersonations in the City service and do other duties that the fingerprint men in Magistrates Courts may not be aware of.

We do not contend that our duties are more important than theirs, but feel that we are on a par with them and we urge the unification of all fingerprint technicians in the campaign for greater wage and title recognition.

WOULD WAIVER MEDICALS FOR GROUP INSURANCE

Editor, the Leader:

The Civil Service Employees Association has made available to its members for at least twenty years, a plan of accident and health disability insurance in addition to a group life policy, which are underwritten by the Travelers Insurance Company.

In February or March of each year, an opportunity is extended to members of the Association under age 50, who have not previously been rejected in the course of a medical examination administered by the company, to apply for a Group Life Policy, without taking a medical examination.

There appears to be no valid reason why the waiver of medical examination should not attach in an application for accident and health disability insurance during a specified month in any year. An unusually large number of members are participating in this plan. Similarly, there is no dearth of membership under the group life policy. The additional members accepted under a waiver provision would not have the effect of substantially increasing the company risk, if at all. It would also result in correcting the patent inequity which flows from the inapplicability of a limited medical waiver provision to the accident and health disability insurance plan.

Questions Answered On Social Security

In the event of my death would the Social Security Act provide for any burial benefit in addition to benefits for any widow and children?

The Social Security Act provides for the payment of a lump-sum death benefit not to exceed \$255.00 to the widow, if living in the same household with the deceased wage earner at the time of his death. This lump-sum death benefit is in addition to any monthly benefit which may be payable.

I am a man 61 years old and expect to retire in four years when I reach 65. My wife passed away two years ago but I have a son aged 30 who has never been able to work since birth because of his disability. Will he be eligible for benefits when I retire? What can he receive, in the event of my death?

A disabled child of an insured worker can receive payments when the worker becomes entitled to retirement payments. He may also be eligible for survivor's payments when the parent dies. These payments may continue for the duration of the lifetime of the disabled child.

Because of my disability, I receive a check from another source. Will this prevent me from receiving social security disability benefits?

No, it will not. When the disability provision of the Social Security Act were first enacted, some other types of disability payments could affect your social security payment, but this is no longer the case.

When a person has become age 65 and is receiving another pension, can he also receive Social Security benefits?

Yes, if a person meets the re-

quirements of eligibility for Social Security benefits, he will receive them no matter how much income he may have from pensions, or from such sources as interest, rent, dividends or gifts. He is limited only to the amount of income he may have from employment.

Is there some literature I could give my employers to help them understand their reporting obligations for domestic workers like myself?

Your employers may be interested in obtaining a copy of Leaflet 21 which contains information about reporting wages for domestic workers. Copies of Leaflet 21 may be obtained from any Social Security office or Internal Revenue Office.

I am 60 years old. My husband, who is 58, has been awarded disability benefits. Under the new 1958 law, can I collect on his account? We have no children. K.L.

No. You must be at least 62 years of age or have minor children or disabled children over 18 in your care in order to be eligible.

My son died recently leaving a widow and two small children who are not getting monthly social security payments. A neighbor told me that I might be able to get parents' benefits, but I thought that benefits could not be paid to a parent if a worker left a widow or child.

You may qualify for social security parents' benefits if you were dependent on your son for at least one-half your support at the time of his death. Because of a 1958 change in the law, it will make no difference that he was survived by a widow and children.

Law Cases

Sidney M. Stern, counsel, submitted to the New York City Civil Service Commission the following report on law cases:

JUDICIAL DECISIONS

Appellate Division

O'Connell v. Schechter. Petitioner contended he was entitled to greater credit on certain answers in an examination for promotion to captain (P.D.). He failed to show that the key answers were incorrect and Special Term refused to interfere since the answers were graded on an objective basis and standard. The Appellate Division has ordered the appeal to be argued at the October, 1959 term.

Benevento v. Schechter. Certain gardeners in the park department were reclassified as foremen of gardeners under the Career and Salary Plan. Special Term held such reclassification to be a promotion in violation of law. The Appellate Division has ordered argument of the appeal for the June term.

Ragonetti v. Schechter. The petitioner sought to invalidate the eligible list for promotion to captain (P.D.) on the ground that certain questions were not proper or adequate to test the knowledge required of a police captain. His petition was dismissed at Special Term. The Appellate Division has unanimously affirmed the order.

Brix, et al. v. Schechter. Petitioners, candidates in examination

for promotion to captain (P.D.), all received rating of 69.2 on part one and seek to have themselves declared as having passed that part. Special Term refused to interfere holding that the determination of the commission was lawfully made. The order dismissing the petition has been unanimously affirmed by the Appellate Division.

Special Term

Patrolmen's Benevolent Association v. Wagner. The petitioner sought to compel the establishment of a grievance procedure in the police department. The court denied the application without prejudice to a renewal after a final expression from the city officials or after a reasonable period has elapsed without a decision having been made on the pledge of such officials that they are studying the matter as to its desirability and wisdom.

Special Term

Konig v. Murtagh. The court has granted a motion to examine the respondents with regard to the specific number of days of vacation with pay and other leave of absence with pay received by each of the petitioners in the year 1958. Such information will cure the defects found to exist in the original and the amended petition and will enable the pleading of a second amended petition. The petitioners claim that they have not been accorded all the time to which they are entitled.

Agency Is Created For Local Problems

ALBANY, April 21 — Governor Rockefeller has approved legislation creating a controversial new state agency to deal with problems of local governments.

The agency is to be known as the Office for Local Government in the Executive Department. Proposed by Republicans, it has been opposed by Democrats who claim it is an effort to undermine the constitutional duties of the state comptroller. At present, the comptroller is the only statewide elected Democrat in Albany.

In signing the bill, Mr. Rockefeller said the new agency would coordinate the activities of state departments and agencies in providing more effective services to local governments and would keep him informed of local government problems.

these increases in the minimum salary have been rescinded effective with the close of business on March 31, 1959.

• Effective April 1, 1959 the Director of Classification and Compensation, with the approval of the Director of the Budget, has prescribed for certain of these classes new minimum salaries at steps in their respective salary grades higher than the normal minimum. Following is a list of these titles with the new minimums and the locations to

The new law creates a new Municipal Police Training Council of eight persons, which will recommend uniform standards and requirements for police officers.

These standards will apply to permanent appointments made after July 1, 1960.

Mr. Rockefeller said the original proposal came from law enforcement organizations and added: "This measure constitutes a great forward step in strengthening law enforcement in this state."

Although some reservations were expressed by the Legislative Committee of the Conference of Mayors about the bill, Mr. Rockefeller said "Responsible law enforcement officials have long deplored the lack of statewide minimum standards of police training."

BLUE SHIELD
... PROTECTION YOU CAN DEPEND ON!

Blue Shield is supported by those who know medicine... the doctors themselves. Almost seven million New York State residents have chosen Blue Shield as the protection they can depend on to pay their doctor.

Once your doctor depended almost solely on his own knowledge and skill. Now, in the hospital, he captains a team of specialists who control an ever-growing range of costly, mechanical, life-saving equipment.

Once medical care was fairly inexpensive. But in today's new era of medicine... an era of constant new advances, the cost of medical care has, of necessity, increased.

To meet this increasing cost... to help you pay for the highest quality of medical care found in any nation, the medical profession developed the Blue Shield method of paying your doctor for his services.

This is only one of reasons why the State of New York chose the combination of Blue Cross, Blue Shield and Metropolitan Major-Medical as the *only* plan available to *all* its employees.

Blue Cross, of course, pays most hospital bills in full and places *no dollar limit* on how much hospital service you need to help you get well.

Metropolitan Major-Medical* pays, after \$50 deductible, 80% of covered medical expenses. Covered medical expenses can include such areas of expense as home and office medical care, home and office specialist consultation, psychiatric care, prescription drugs and medicines and x-ray and radium treatment.

Major-Medical alone provides up to \$7,500 in medical expenses in a calendar year and \$15,000 total for each individual.

A MAN WITH AN IDEA

It all started years ago when a disciple of Epicurus came to Albany with an idea. Why not a French restaurant like New York and New Orleans boasted? He was qualified because he had lived in the home town of Lafayette and the Opera Comique and was brought up in the restaurant business. He called it "Little Paris" and packed in as much atmosphere of the French capital as he could under one roof, then resolved that his menus would list the same food par excellence one enjoys in the fashionable eating places along the Rue de Rivoli or Place Vendome. Today Host Gerber has seen his dream come true. Within a mile or two of the Hudson he has created a restaurant as faithful to Parisian skill in cookery as any on either bank of the Seine. . . . Note: You State employees who want to brush up on your French, pending a holiday on the Continent, will find opportunity at PETIT PARIS, 1000 Madison Ave., Albany, N. Y. Tel. 2-7664 for reservations.

TASTE THE WONDERFUL DIFFERENCE!

Now! Bleach safely, automatically in the

new MAYTAG AUTOMATIC WASHER with BLEACH DISPENSER

NO DILUTING...
Just add concentrated bleach through dispenser opening; bleach remains in separate container where it is automatically diluted at least four times before being introduced into the wash water. Eliminates pre-mixing forever.

PREVENTS DAMAGE TO FABRICS...
By providing automatic dilution and properly timed injection, Maytag prevents heavy concentrations of bleach from coming in contact with clothes. Gone forever are the holes in clothes, the weakened fibres, the uneven bleaching associated with strong liquid bleaches.

NO WAITING...
Maytag does the waiting for you. Properly diluted bleach remains in dispenser until washer has filled and washing action starts. Bleach is then added slowly over a four minute period to provide uniform effective bleaching action and to insure cleaner, brighter and whiter clothing. Only Maytag provides this automatic delay.

NO HALF-HEARTED DETERGENTS...
Modern detergents contain brightening agents which are destroyed by liquid bleach when bleach and detergent are added to wash water at the same time. By delaying the introduction of bleach until after the washing action has started, Maytag preserves the full effectiveness of your detergent and clothes come out sparkling clean, white, and color bright wash after wash.

and MAYTAG lint-filter agitator gives cleaner, lint-free washings

| <p>Maximum Lint Removal</p>  <p>New full time filter is under water where all lint is, provides constant filtration. Lint is filtered out as water circulates through agitator. No pans or trays to get in the way.</p> | <p>Positive Detergent Distribution</p>  <p>Detergent dispenser in agitator prevents damage to fabrics from undissolved detergent. Simply add detergent; circulating water dissolves it completely before contact with clothes.</p> | <p>Greater Washing Action</p>  <p>Wash water circulated through the Filter Agitator is forced out through channels in the bottom to amplify normal agitation. Frank Vignola (seated, left), of Otisville Training School, receives one of first 1959 awards of State Merit Award Board from Dr. Benjamin J. Hill, school superintendent, under eyes of Maurice Weiner, school business manager, and Charles Crockett, school stationary engineer. The award, which included a desk set and \$15 in cash, was for Mr. Vignola's ingenuity in devising ways to keep school TV sets running well at low cost.

They were prominent among the Albany guests who attended the third annual Spring Workshop of the Metropolitan and Southern Conferences held last week at the Concord Hotel.

Photo Report On Twin Workshop

The third annual Spring Workshop sponsored by the Metropolitan and Southern Conferences of the Civil Service Employees Association was held last week in the Concord Hotel at Kiamasha Lake. During the two-day session, the more than 200 guests at the event attended several panel discussions and two major dinner meetings where they heard as

speakers William J. Ronan, secretary to the Governor; Comptroller Arthur J. Levitt, F. Henry Galpin, CSEA salary research analyst; Joseph Lochner, CSEA executive director, and John J. Kelly, Jr., CSEA associate counsel. The photographs seen here were taken during the various sessions. Co-chairmen for the workshop were Charles E. Lamb and Irwin Schlossberg.
