CIRCULAR.

DESIGN OF THE NORMAL SCHOOL.

The design of the institution is to furnish well qualified teachers for the public schools of the State of New York. Students receive a thorough drilling in all the branches which they will be called to teach and in such other studies as experience has shown to be best adapted to discipline and develop the mind. Those who train the minds of others, should themselves have well trained minds.

Besides receiving from the faculty instruction in the art of teaching, the pupils are, at the proper stages of their progress, required to teach in the model and primary schools, for a term of nine weeks, under the supervision and criticism of the president and other teachers.

The course of instruction and practice occupies two years. The year is divided into two terms of twenty weeks each. The students

are divided into four classes. These, for purposes of recitation, are subdivided into as many sections as circumstances may require.

COURSE OF STUDY.

Arithmetic, Algebra, English Grammar, Geography.

Junior Class — Second Term.

Algebra continued, Higher Arithmetic, Natural Philosophy Botany, Rhetoric, English Grammar, Geometry.

Senior Class — Second Term.

English Literature, Intellectual Philosophy, Trigonometry and Surveying, Chemistry, Geology, Book-keeping, Evidences of Christianity, Butler's Analogy, Composition, Elocution, Vocal Music, Penmanship and Drawing, receive prominent attention throughout the course.

TERMS OF ADMISSION.

All candidates for admission to the school must furnish satisfactory evidence of good moral character.

Candidates for admission to the lowest class must, if ladies, be not less than sixteen years of age, and if gentlemen, not less than eighteen. They must pass a satisfactory examination in Spelling, Reading, Writing, Geography, Arithmetic and English Grammar, and must subscribe a declaration that their object in connecting themselves with the school, is to prepare themselves for the work of instruction in the public schools of the State.

Those who desire to enter on an advanced standing, must, in addition to the examination above mentioned, pass a satisfactory examination in all the studies which have been pursued by the class to which they seek admission.

Those who would avail themselves of the best advantages afforded by the institution, should take the whole course. A large part of

the instruction given is oral. Much of this must be lost to those entering an advanced class. If any part of the course be omitted it should be the latter part.

PERSONS ENTITLED TO ADMISSION.

Each county is entitled to twice as many pupils as it has representatives in the Assembly. Students are appointed by the Superintendent of Public Instruction on recommendation of the school commissioners, subject to the required examination. When the quota of a county is filled, candidates having the proper qualifications will be appointed to fill vacancies in the representation of other counties, on application to the president. *As such vacancies have always existed, the school is practically open to all who desire to fit themselves to become teachers.*

CERTIFICATE OF APPOINTMENT.

To AERAM B. WEAVER, *Superintendent of Public Instruction:*

TUITION AND TEXT-BOOKS.

Tuition and text-books are furnished free of charge. *The amount of fare necessarily paid in coming by public conveyance to the school will be refunded to those who are present at the beginning of the term and remain till its close.*

BOARD.

The price of board in respectable families varies from four dollars and fifty cents to five dollars per week, in most cases, exclusive of washing. Those who wish to board themselves, can procure furnished rooms at one dollar per week. By so doing, they can reduce their expenses for board to three dollars per week.

LIBRARY.

Besides an abundant supply of text-books upon all the branches of the course of study, there is a well selected miscellaneous library to which all the pupils have access free of charge. The State Library is also freely accessible to all.

APPARATUS.

The chemical and philosophical apparatus of the school is large and complete in all departments.

TERMS AND VACATIONS.

The Fall term begins on the first Wednesday in September.

The Spring term begins on the third Wednesday in February.

PROMPT ATTENDANCE.

Students should reach Albany the day before the opening of the term. They should come at once to the Normal School building, whence they will be directed to boarding-houses approved by the faculty. They should retain their checks until they procure rooms, when their baggage will be delivered free of charge.

As the recitations begin immediately at the opening of the term, every day's absence must prove a serious disadvantage to the student.

THE MODEL AND PRIMARY SCHOOLS.

These schools are destined to furnish models of organization, government and instruction, and to afford ample opportunities for observation and practice on the part of the pupils of the Normal School.
