Hobbies and Sidelines Of Employees Featured At Anniversary Exhibit

ALBANY, May 18—One of the highlights of the Albany observance of the 70th anniversary celebration of the passage of the State Civil Service Law is an outstanding display dedicated to hobbies or sidelines of area members.

Situated on the second floor of the State Education Building in the rotunda of the State Library, the display offers talent of a diversified nature.

Francis P. Kimball, Department of Commerce, has two of his books on display. Titles of the works are "The Capitol Region of N. Y. State" and "New York—The Canal State."

An eye-attracting exhibit is made up of the pottery work of Anne Hubiciki, who works in the Miscellaneous Tax Unit, Taxation and Finance.

Articles and Veneer

Mary E. O'Connor, director of purchase, Division of Standards and Purchase, is obviously a woman who knows her work. A bound copy of "Purchasing" is shown, opened to pages featuring the first of 15 of her articles on purchasing. Title of the first article is "Spending and Saving the People's Money."

A copy of the Harvard Business Review gives top billing to an article by Clement J. Berwitz, Department of Labor, headed: "The Work Committee—An Administrative Technique."

Elmer H. Wise, Department of Civil Service, Municipal Services Division, contributed an inlaid veneer picture consisting of 255 separate pieces.

Richard Kirk, Department of Commerce, loaned two "first" scripts of his plays which have been produced commercially.

A copy of "Scientific Monthly" features a story by Edith W. Stone, Department of Audit and Control, on Joseph Henry, who made many important discoveries in electromagnetism while in Albany.

Another author, Fred Everett, Department of Conservation, displayed his book, "Fun With Trout." Sam F. Ciulla, Civil Service Department, loaned back copies of some of the country's largest magazines in which his stories are featured.

Children's Books

Two workers from the Department of Public Works collaborated on a book for children entitled "The Silly Billy Goat." Joe Hammer wrote the text and Stanley Trimble did the illustrations.

In the photograph section are the works of Marjorie Huber, who has won national recognition and prizes for her color photography; Donald Guy Simmons, and Arnold W. Wise, Taxation & Finance, whose excellent photos would be welcome in any salon showing.

The whole exhibit is built around the remarkable toy soldier collection of John V. Fox, Management Unit, State Division of the Budget. Highlight of the Lilliputian parade is the coronation cavalcade of Elizabeth II. Mr. Fox has approximately 20,000 figures in his collection—which makes it one of the largest of its kind.

Library Exhibit Popular

The State Library exhibit being held in conjunction with the anniversary is drawing large crowds. A record attendance may be achieved. The exhibit, which has been placed in the main foyer of the State Library, is attractively arranged with a well-lighted display of the coronation parade, by exhibits of documents relative to the passage of the Civil Service Law and the samples of creative activities of contemporary civil service employees.

Some valuable documents from the archives of the Civil Service Reform Association have been loaned for the exhibit. These include the early minute books of the Association, recording the first meeting at 2 East 29th Street, NYC, in the home of Dorman B. Eaton in May, 1877.

Sidelight on History

Original letters of Charles Guiteau, who shot President Garfield

to death, are shown. These letters have been loaned to the Civil Service Employees Association by H. R. Leland, nephew of the United States Attorney who prosecuted Guiteau in 1883. Guiteau's letters refute an early concept of the shooting of Garfield which has always been recorded in the history books as the work of a "disappointed office-seeker." The letters, written immediately after the shooting and while the President lingered between life and death four months, state that Garfield was shot because of "political necessity."

First Issue of LEADER

Also, in one of the exhibit cases is the first issue of The Civil Service LEADER, dated September 19, 1939.

Other articles on exhibit are plays, photographs, short stories, historical works, woodworking, etc. The exhibitors to date, and their departments, are: Lois D. Hoff, Mental Hygiene; Marjorie D. Huber, Social Welfare; Donald Guy Simmons, Civil Service; Arnold W. Wise, Taxation; Joe Hammer, Public Works; Stanley Trimble, Public Works; Sam F. Ciulla, Civil Service; Fred Everett, Conservation; Richard Kirk, Commerce; Muriel O'Dell, Institute of Applied Arts & Sciences, State University, Utica; Edith W. Stone, Audit & Control; Elmer H. Wise, Civil Service; Clement J. Berwitz, Labor; Mary E. O'Connor, Division of Standards & Purchase; Anne Hubiciki, Taxation; Francis P. Kimball, Commerce.

Poster Displays

Posters have been displayed throughout Albany. Through the courtesy of the United Traction Company there will be a free display in all the busses of posters advertising the exhibit, during the last two weeks of May.

Salant Heads Insurance Examiners

Jack Salant was elected president of the Association of New York State Insurance Department Examiners at a meeting held at 61 Broadway, NYC, last week. The other officers elected were Chester A. Cassidy, 1st vice president; George L. Gould, 2nd vice president; Stanley J. Novak, treasurer, and Bernard Eisner, secretary.

The new executive committee consists of three former presidents, Solomon Bendet, Edmund J. Pieret and Thomas J. Calogero, as well as John B. Byrne, Charles F. Horan, Irvig W. Layman, Herbert Stern, William Karlin, Howard S. Thompson, and Jack Lavanhar.

The association has about 200 members.

10-Year Shortage in Woman Job Market Foreseen

WASHINGTON, May 18—The current shortage of young women workers to fill vital professional, semi-professional and office jobs will continue throughout the present decade, the Women's Bureau of the U. S. Department of Labor has prophesied.

The shortage in women between 18 and 34 years of age, without family responsibilities, is due largely to the low birth rate of the depression years and to the present tendency of earlier marriages, the agency said.

Competition of good-paying jobs in business and industry is decreasing the number of women who enter the fields of teaching, nursing, social work and medical services, the agency added.

State Promotion Policy Clarified

ALBANY, May 18—The minimum requirements in State promotion exams were the subject of a memo distributed last week to inquirers, including departments, by William J. Murray, administrative director, State Civil Service Department. He circulated a statement made by J. Edward Conway, President of the State Civil Service Commission.

At the April Commission meeting, said Mr. Murray in the memo, President Conway summarized the Commission's policy with respect to the subject. Mr. Murray believed that this statement might well be circulated to those whose work requires them to determine promotion examination requirements.

Conway's Statement

The statement President Conway made:

"When an adequate promotion field exists in the title in the direct line of promotion, competition in a promotion examination will normally be limited to those holding that title.

"When necessary to get adequate competition, an examination may be opened to titles with related or comparable duties at approximately the same grade as the title in the direct line of promotion. If an adequate promotion field is thus obtained, competition will be limited at this point.

"If an adequate promotion field is not available through these steps, competition may then be opened to all titles at or above a designated grade.

Closeness Not to Govern

"When the competition is opened to a certain title or class, all employees in that class who

otherwise meet the requirements will be eligible. The fact that the duties of one position in a class are more or less closely related than another to those of the position for which the examination is to be held will not be considered.

"Each case will be decided individually on the basis of how far it is necessary to extend competition to get an adequate promotion field for the particular examination in question. No decision will set a precedent that is binding in any other case."

Servicemen and Veterans

The subject of holding comparable promotion exams was discussed in a recent memo by Mr. Murray to all State departments and agencies, as follows:

"In recent months an increasing number of State employees are returning from military duty. Many of these employees have missed the opportunity to compete in promotion examinations which were held during their absence.

"The Military Law, Section 246(5), grants such employees the right to a comparable examination upon their return to State service. This section provides, in part:

"If a promotion examination is held while a public employee entitled to participate therein is on military duty, such public employee shall be given a comparable examination, provided he makes request therefor within sixty days after restoration to his position. . . .

"It is the returning veteran's responsibility to find out what promotion examinations were held during his absence. Normally, fellow employees or personnel officers can furnish such information. Ideally, each department and agency should develop a regular procedure by which these returning employees are informed as to promotion examinations held during their absence. (The monthly listings of newly established eligible lists, if kept on file in the personnel offices, would furnish this information.)

60-Day Limit

"As a further source of assistance to the veteran, this Department has available a compilation of promotion eligible lists established in recent years. This listing may be inspected at the information counter of the Certification Section, located on the 23rd floor of the Alfred E. Smith State Office Building in Albany.

"Returning veterans should be cautioned about the 60-day limit on requesting comparable examinations. The veteran must make his request, for all promotion examinations held during his absence on military duty, within a period of sixty days following his return to work. The veteran need not actually file his examination application during this period. The filing of the request satisfies the statute."

State Employees Win Top Honors

ALBANY, May 18—Two Albany area employees of State departments won coveted awards of the Albany chapter, Public Administration Society, at the society's annual dinner last week.

Dr. William R. Thompson, senior biochemist, Department of Health's Division of Laboratories and Research, won the Alfred E. Smith prize for his work in statistical analysis.

The Charles Evans Hughes award went to Stanley M. Remez, an employment interviewer in the Labor Department's Employment Division.

Bronze plaques marking the awards were presented to the winners by Dr. Hollis Ingraham, Deputy Commissioner of Health, and Edward Corsi, State Industrial Commissioner.

Paul Robinson New President

Speakers at the dinner at the Aurania Club included Budget Director T. Norman Hurd, Senate Finance Chairman Walter J. Mahoney, and Herbert Emmerich, executive director of the Public Administration Clearing House.

Donald Axelrod, of the Division of the Budget, retiring president, presided. Earle S. Legg, also of Budget, was chairman of the dinner committee.

Newly elected officers of the Albany chapter, PAS, are Paul Robinson, administrative assistant, Health Department, president, and Mrs. Edith Avery, vice president. Named directors were Vernon Santen, Margaret Delehanty and William Tinney.

What Remez Did

Mr. Remez was nominated by the New York State chapter of the International Association of Per-

sonnel in Employment Security. The nomination was based on Mr. Remez's achievement in the placement of parolees of Elmira Reformatory and the New York State Vocational Institution at West Coxsackie. In each of these institutions there were many boys, without family or friends outside of prison to assist them in obtaining employment upon becoming eligible for parole. They could not be paroled until they obtained employment.

Mr. Remez was assigned by the State Employment Service to serve as liaison between that agency and the Division of Parole to get jobs for these potential parolees. Every boy in the past two years, who has been eligible for parole and assigned to Mr. Remez, has been released from Elmira Reformatory on time through the efforts of Mr. Remez. When this placement program was extended to West Coxsackie in October 1951, the results were even more spectacular. Since October 1952, every single boy eligible for parole assigned to Mr. Remez was out of the Institution and in a job.

Dr. Thompson's Work

Dr. Thompson has made many valuable contributions to the field of public health by his work in statistics. In his work with the Division of Laboratories and Research he serves as a consultant in research planning, in the design of experiments, in the analysis and evaluation of experimental results and in other related fields. Dr. Thompson's application of statistical methods to biologic problems has had not only a tremendous influence on the work of the Division but has benefited the State and its people as well. As the result of his work he has become a world-recognized authority and his original researches have been used in many countries. His specific contributions during 1952 were considered to be so outstanding as to merit his selection for the winner of the Alfred E. Smith award.

Honorable Mention

Honorable mention was won by Pieter Fosburgh, managing editor of "The New York State Conservationist," for contributions to forest preserve policy, and Herman D. Brice, for an inventory of surface water resources in Suffolk County. Mr. Brice is employed by the U. S. Geological Survey at Albany.

CHAUFFEUR LICENSES

ALBANY, May 18—If you're one of the 1,250,000 licensed chauffeurs, examine your license expiration date. Many such licenses expire May 31. Fees for the three-year chauffeur licenses have risen to \$6 from the former \$4.

How Benefits Steadily Rose In Accident-Health Insurance Plan at No Increase in Cost

By CHARLES A. CARLISLE, JR.
Manager, Group Department,
Ter Bush & Powell, Inc.

I have been asked to comment regarding the study, planning and experience necessary successfully to develop a group plan of insurance of the magnitude of the fine, new, improved plan available to members of the Civil Service Employees Association.

In 1936, when this plan was started, no one wanted to tackle the uncertain and huge job of establishing a plan of such magnitude. The cost to the agency and the insuring company was considerable. A tremendous amount of hard work was involved on the part of the Association, agency and company officers and staff.

The Association President in those days was Charley Brind. Beulah Bailey Thull was chairman of its insurance committee and Joe Lochner was executive secretary. These persons, with the author, spent many hours planning and carrying out the development of a safe and economical plan of accident and sickness insurance for Association members. From this beginning has developed the finest plan written for any group of public employees anywhere.

Through these 17 years I have worked constantly in the very careful supervision of all features of the plan, studying and considering claim procedure and complaints, making sure the insured received just settlement, working with the Company's claim organization to guarantee good and efficient claim service.

When the loss experience under the plan began to improve under the watchful eye of the Association's Insurance Committee, a careful survey was made and the plan was steadily improved as follows:

September 1, 1948—1, 2% additional monthly benefit added to all sickness claims; 2, limit of payment for non-occupational accidents increased from 5 to 10 years. Both at no extra premium.

November 1, 1949—1, 2% additional monthly sickness benefit replaced by 10% additional monthly sickness benefit on claims originating prior to the 60th birthday of the assured providing the policy has been in force at least one year; 2, 10-year non-occupational accident coverage continued; 3, principal sum raised from \$500 to \$1,000 on all policies; 4, total medical reimbursement for minor injuries increased from one-quarter of a month's indemnity to a full month's indemnity; 5, provision made for payment of monthly accident indemnity in addition to any payment of principal sum in the case of a dismemberment that included total disability; 6, a new scale of lower rates for all those under age 40 amounting to about 20% on male assureds and to about 10% on female assureds. All six benefits—still no extra premium.

November 1, 1951—1, increased the additional monthly sickness benefit from 10% to 15%, and 2, increased the monthly accident benefit by 15%. Both at no extra cost.

For the past year the Association's officers, staff, insurance committee and our agency has studied the possibility of further improving the plan to make it undisputedly the best accident and sickness insurance plan available anywhere to public workers. In all deliberations it was sought to protect insured members as much as possible against increase in premium costs in the future which would result if the Association indiscriminately accepted offers of increased benefits from any company which might bid for the group plan with the expectancy that the increased benefits offered would force an increased premium cost to members of our Association.

The insurance committee of the Association conferred with representatives of various insurance companies and reported its recommendations to the Association's board of directors. The board of directors of the Association, on December 18, 1952, after giving full consideration to all facts involved, voted to transfer the plan of accident and health insurance to The Travelers Insurance Company, to obtain substantial new benefits for insured members at

POLICYHOLDERS ARE URGED TO RETURN RECEIPT CARDS

Ter Bush & Powell, Inc., 148 Clinton Street, Schenectady, N.Y., issued the following notice to Civil Service Employee Association members who hold such policies: "The new Travelers accident and health disability policies for all who are insured under a commercial insurance company policy have been mailed to the last address in our records.

"Enclosed in the envelope was a green business reply card which acknowledges receipt of your new policy and indicates you will be covered by the new and broader coverages July 1, 1953 at no extra cost.

"If you have not returned the green reply card please complete the blank and drop it in the nearest mail box for the completion of our records.

"The return postage is guaranteed. You do not need a stamp."

no increase in premium cost. This decision was made with no other thought than to assure full protection and the best possible service to all Association members.

Our agency, with its 17 years' experience in servicing the Association's Group Plan of Accident and Sickness Insurance, will continue to render full and efficient service to the very best of our ability. You may have heard that Gene Vanderbilt, my assistant for the past five years, is leaving our Agency. Gene has decided to move on in the insurance business and we wish him success in his new work. I have elected Robert N. Boyd to succeed Gene. Bob has a great deal of experience servicing large Association groups through our Agency and fortunately he has been assisting me for some time with the development of this new improved plan. Bob is already known to a host of Association members and I am very confident that his services will prove most satisfactory.

The new, improved plan underwritten by The Travelers Insurance Company will start on July 1, 1953. Members now insured under the Association's plan have received their new policies providing the additional benefits effective are at no increase in premium, at July 1. These increased benefits explained in the Association form letter transmitting these new policies. The new benefits:

1. **Principal sum increases:** For injuries occurring before you are 60 years old, the principal sum of \$1,000 increased \$500 at the end of each consecutive year of insurance until the principal sum reaches \$2500. So, for such injuries the principal sum would be \$2500 at once if you have been continuously insured for three years under the Association's Accident and Sickness plan.

2. **Period of sickness indemnity**

increases: For total disability due to sickness (except tuberculosis and pregnancy) and commencing before you are 60 years old, the indemnity limit of twelve months is increased four months at the end of each consecutive year of insurance until the indemnity limit reaches twenty-four months. So, for such total disability the indemnity limit would be twenty-four months at once if you have been continuously insured for three years under the Association's Accident and Sickness Plan.

[NOTE: In computing the above period of continuous insurance credit will be given for continuous insurance under the present policy with the Commercial Insurance Company if you continue your insurance without interruption under the new Travelers policy enclosed herewith.]

3. **Sickness benefits during hospital confinement:** For total disability due to sickness and commencing before you are 60 years old, total disability benefits are payable while you are in a hospital forty-eight hours or more during the first seven days of total disability. The old plan did not provide any benefits for the first seven days of sickness disability.

4. **Minimum indemnities for fractures and dislocations:** In the event of certain fractures, dislocations or amputations, monthly indemnity of not less than specified amounts is payable irrespective of the period of total disability. Under the old plan the indemnity for total disability due to any injuries, including fractures and dislocations, is limited to the actual period of total disability, even though you should return to work shortly after the accident with your arm or leg in a cast, splint or brace.

[NOTE: For complete statement of these benefits see Section B of the Additional Benefits Rider attached to your policy. These benefits apply to any policy in which the rate of monthly indemnity for total disability is \$75. or more. If the monthly indemnity rate of your policy is less than \$75, you can arrange for it to be increased to \$75. at the premium for that amount by written request mailed to the agent within 60 days from the date of the policy. These benefits remain in effect until July 1, 1954 and the Association will negotiate with the Company in your behalf for their continuation beyond that date.]

Hundreds of letters are pouring into our agency every day complimenting the Association and the Agency for the development of the new, improved plan.

If you are not insured under this great plan get an application and send it to our Agency today. A very broad, low cost plan of accident and sickness insurance is now available to members of The Civil Service Employees Association.

Certificates of completion of a training course are awarded to four employees of the Institution for Male Defective Delinquents, at Napanock. Thomas J. Hanlon makes the presentation to Robert Michel, Howard Stewart, Kenneth McCarthy, and Fred Conroy, power house personnel. The course was an advance one in stationary engineering sponsored by the State Department of Civil Service. Chief Engineer Michel was instructor of a class of 19.

Entertainment was provided by Roland Tuttle, who is an expert whistler and has some clever dancing dolls. Group singing was enjoyed by all.

Dr. Bergman, assistant director, presented awards to the departments with 80 percent membership or better. Mr. Christie presented 25-year service pins to Mary Lane and Ruth Shaffner.

State Senator George Metcalf discussed accomplishments of the last legislative session.

Laboratories and Research, Albany

THE LABORATORIES and Research, Albany chapter, CSEA, held its annual spring dinner-dance at the Circle Inn, Latham on May 7. Square dancing and a conga line highlighted the dancing.

Feature event was the presentation of a watch and a traveling clock to Mary Salm by President Richard Davis. Mr. Davis voiced the sentiments of everyone, assuring Mary that her work for the chapter and the CSEA was truly appreciated. Miss Salm will join the Retirement Department soon. Everyone wishes her success. Mary was chairman of the chapter's social committee.

The chapter lays claim to a man who can vie with the mailman when it comes to defying the elements. Despite seven inches of snow, Andrew Matthews traveled to Vermontville, just outside of Saranac Village, to plant 4,000 trees on one of his properties. The trees were obtained through the Conservation Department. Congratulations, Andy.

Things are happening on lunch hour these days. That clanging is just the boys behind the East Animal Unit pitching horseshoes. A round robin tournament is in full swing, and a championship pair will be coming up real soon.

Arlene Gorman, formerly of the Diagnostic Laboratories, is now working in Tax and Finance. Her many friends wish her success in

her new job. Mrs. Kline is back on the job after her recent illness.

Welcome to the following new chapter members: Christina Hand, Regina Cunningham, Alice Brown, Margaret Ray, Marie Green, Beatrice Kaplan and Irene M. Lathrop.

James Moylan Jr. accepted an honorary membership for his father, James Moylan Sr., who retired last year and was an outstanding member of the Association. Here's hoping young Jim will follow in his pop's footsteps in this respect.

Association policies will lapse unless arrear dues are paid. If you haven't paid, yours yet, better hurry!

The chapter sends deepest sympathy to Mrs. Jesse Hungerford in the loss of her mother.

State Insurance Fund

THE EXECUTIVE board of the State Insurance Fund chapter, CSEA, endorsed Al Greenberg for treasurer of the Metropolitan Conference.

Bowling results: Biggest upset of the night came when Accounts, ninth-place team, trounced Orphans for four points, eliminating last year's champion from a possible repeat. Orphans are now regrouping forces for position week with Underwriters. And they've already begun to map plans for next year's bowling season. Policy holders took three points from Medical, dropping the latter to third place. Claims Examiners kept Actuarial in the cellar by making a clean sweep of four points. Safety stopped Underwriters for three points. Claims Seniors came from behind, after dropping the first game by three pins, and took three points from steam-rolling Payroll. Payroll is almost in. Individual high: Bill Price, 228.

Last call for bowling dinner on May 28. See W. Price.

Welcome to the following new chapter members: Helen Harren, Anna Archer and Laura Heltze, Machine Division; Paul R. Capuccio, Safety, and Pauline Levine, Underwriting.

At the bowling jamboree at Gowanda the women's team, the Sea Shrimps, placed second. Individual prizes were won by Doris Waldron Plusch, Jimmie Travis, Bucky Bryan and Helen Arthur. All scores were computed with handicap. The women's team consisted of Ginger Poynter, Mary Davis, Phyllis Youdavich, Doris Plusch and Helen Arthur.

Gertrude Thompson of Smithtown Branch, employee of the business office, and Larry McDonald of Goshen, chief supervisor, were married in the Little Church Around the Corner, NYC. They visited Gowanda and Niagara Falls on their honeymoon. Congratulations and best wishes.

Margaret Heaney is off duty because of an arm injury. Roberta Anderson, Blanche Zaloudek and Florence Perkowski are on the sick list.

The evening of May 4, the Brentwood Choral Club entertained the patients and employees of Pilgrim. Tuesday afternoon and evening, May 5, a musical program was presented by the patients of Pilgrim for patients and employees.

Cap and chevron exercised for the class of '55 of Pilgrim State Hospital School of Nursing was held Wednesday evening, May 6 at the hospital assembly hall. Each of the 11 members of the class receiving a cap or chevron was sponsored by a registered professional nurse.

An orchestra, made up of patients in the music department, and directed by Parker La Bach,

furnished music. Mrs. Patricia La Bach, at the organ, accompanied the senior class in the singing of "My Creed."

Greetings and a comment regarding Mental Hygiene Week were given by Dr. Hyman Barahal, associate director. Dr. Francis Bauer, senior psychiatrist, emphasized the importance of cooperation in the psychiatric team.

Betty Baker, a senior student, explained the significance of the cap and chevron. They were presented by Mae E. Dearling, principal of the School of Nursing. Each student was accompanied to the stage by his or her sponsor who handed the cap and chevron to Miss Dearling for presentation. Janny Honing, senior student and president of the student organization, explained the meaning of the lighting of the candles, following which each sponsor lighted a candle and presented it to the student whom she was sponsoring. Mrs. Mildred Currier, chief supervising nurse of the hospital, led the students in the Nightingale Pledge.

The following young women received their caps: Dorothy Brady, Ann Hoobs, Jacquelin Myres, Marybelle Nutter, Dorothy Plonski, Mary Sheehan and Nancy Tyler. Manhattan State Hospital

A FINE TIME was had by all who attended the retirement party for Delia McMahon at Manhattan State Hospital. Dr. Nobe E. Stein, assistant director, presented Miss McMahon with a traveling clock on behalf of the employees. Arthur Gillette, business officer, presented her with a bouquet of roses, gift of officers and members of MSH chapter, CSEA. A congratulatory telegram from Dr. Nicholas Gioscia of Creedmoor State Hospital, and best wishes from Dr. and Mrs. John H. Davis, senior director of MSH, were received.

The committee which performed a wonderful job consisted of Nora Tracey, Betty Lavin, Larry Lillis, Dave Shannon, Gerald Griffin and Frank Montoux. Dr. Stein, Dr. Schnieder, Mr. Gillette, Lyle Nicholas and Miss Sherman also cooperated to make the affair a success.

Employees at the hospital find the Mental Hygiene booklet, This Is Your Job, interesting and informative.

Nora Tracey has been promoted to head dining room attendant. Congratulations.

Julia Joyce sends appreciation to those who sent her get-well wishes and Mass cards.

The chapter wishes a speedy recovery to Peg Mahoney, Frank Michalski, Mrs. William Murphy, Florence Reddan, William Oshinski.

The chapter welcomes back Dr. and Mrs. John H. Travis. They attended a conference in California.

Construction work on Ward's Island is going at full steam these days. Foundations have been started for the Catholic and Protestant churches, and other excavation work is under way. Patients and employees are proudly watching progress on the modern institution.

Attendant John O'Bierne of Manhattan State won the Psychiatric Aide Award. It couldn't happen to a nicer or more deserving guy. John has always shown great interest in the patients' care and well being. MSH is proud of his achievement. Good luck, John, keep up the good work.

The patients' baseball team practices every day now, and is looking forward to a successful season. The team shows great promise, will probably beat all opponents.

New members are still coming in regularly. The membership committee is doing a fine job. Have you helped a new member to join the CSEA chapter? Ste-

phen Smith and John J. Ryan joined last week. Applications may be secured from Mr. O'Shea in the business office, or Mr. Wallace in the electric shop.

Delia McMahon, for whom a retirement party was tendered, thanks those who made the party a success, and her many friends for their expressions of kindness and best wishes.

The powerhouse horseshoe teams are really warming up to the game. Stiff opposition is being provided by the shop teams. Larry Lillis, Bob Bagee, Joe Sopagee, Mike Samsok, Frank Burfield, Tim Sullivan, Bill Bonfield, Ralph Cargano, Mike Dolan, Ed Moran, John Price and George Shanks are some of the deadeye participants.

Employment, NYC

AL REINHARDT, chairman of the grievance committee of the Employment Chapter, CSEA, reports that all evaluation appeals have now been processed. In the last few weeks, one senior and two employment interviewer appeals were taken to oral hearings. In each case an employment chapter staff member, as requested, appeared in support of the appellants. Decisions are now pending and will be reported as soon as received.

Mr. Reinhardt also received a letter from John Kelly Jr., CSEA assistant counsel, regarding the status of appellants in the senior interviewer exam appeal. Mr. Kelly reports that he has been in touch with, but as yet has no definite answer from the Civil Service Department. He will notify Mr. Reinhardt promptly of further developments.

A meeting of Local Office representatives and committee chairmen will be held May 20 at 6 P.M. on the fourth floor of 87 Madison Avenue. Plans for the coming year will be discussed. The plans will affect the chapter membership. All LO representatives are urged to attend.

Napanoch

MORE THAN 200 employees, their families and guests, attended the sixth inter-faith Communion breakfast at Napanoch Institute.

The principal speaker, Edward Huben, publicity director for the Central Hudson Gas and Electric Corporation, lauded the non-sectarian assemblage as truly American and exemplifying the spirit of brotherhood. He complimented institution employees for their accomplishments in the rehabilitation of inmates. Using a quotation, "We are all a part of those we have met," he assured the employ-

ees that men sent back into the free world will never forget the lessons they learned at the institution, where old prison methods have been replaced by intelligent and humane treatment.

The welcoming address was given by Superintendent Thomas J. Hanlon. Rev. Daniel L. Haynes of Kingston, retired actor distinguished for his role of the Lord in the Broadway production of Green Pastures, spoke, and also sang Negro spirituals.

Above the head table hung a painting of the four chaplains of the Dorchester, who died during the sinking of their ship in World War II. The picture was painted by a group of inmates under the direction of Officer Henry Bookman.

Guests included Mayor Frank Muller of Ellenville, distinguished visitors from Kingston and New York, and prominent members of the community.

The Rev. William Coombs of Ellenville gave the invocation. The benediction was pronounced by Rabbi Herbert I. Bloom of Kingston, Jewish chaplain at Napanoch.

Breakfast was prepared by Assistant Superintendent Lloyd Wilklow, assisted by Garry Brown, Joe Hornbeck, Kenneth Kile and Johnny McClay, and was served by the distaff members of the institution personnel.

Ernest Montanye acted as toastmaster. The committee on arrangements consisted of George Winsman, Harry Shapiro and James Morrow.

Civil Service Needs Better Exploitation

We have always felt, and often said, that Civil Service Commissions don't do a good promotion job, in selling their wares to the public. Whenever we note efforts to induce more persons to take civil service tests, our kindly feelings toward the Commissions rise.

The State Civil Service Commission has just issued a booklet, "Is There A Job For Me In New York State Government?" It describes the types of jobs in which opportunities abound. A copy may be obtained free, by addressing the State Civil Service Commission, Governor Alfred E. Smith State Office Building, Albany, N. Y. It would be false witticism to say that this attractive and succinct booklet is worth the price.

We liked, also, the posters that the NYC Civil Service Commission used in advertising the exams for filling helper jobs in the Board of Transportation.

The Federal Government gets out some attractive booklets, too, makes campus efforts at collegiate recruitment, and even gets a spot now and again on television.

Must Do More and Better

Such efforts are laudable. They do not, however, represent attainment. If in private industry one resorted to such scattered efforts at promotion, a busy world would pay little attention to the wares or services one offered.

Not only do individual exams require promotion, but the whole idea of working for the government has to be sold to the public, sold all over again perhaps, because of recent adverse publicity which wrongfully hurt public employees and may have had a retarding effect on recruitment.

The Ideal Spot

We would like to make one suggestion. We speak neither from sheer hope nor from mere theory, but from practice. We have recently started another publication, "Children's Times," on a national scale. Its success arises in part from the intensity and calibre of the promotion behind it. Therefore let the NYC Civil Service Commission take heed:

The patrolman physical test is to be held in the fall in Van Cortlandt Park. That's a good place to hold it, for purposes of the competition itself, but for publicity purposes, the location lacks everything. The test should be held for all to see. Enormous publicity in the metropolitan press and national magazines would result. There's room enough, and if there's only resourcefulness and enthusiasm enough, the police physicals, and the fireman physicals as well would be held in the plaza of City Hall Park.

NYC Jobs Plentiful Even Amid the Furor

IN SPITE of the current fiscal crisis in NYC, which many employee groups have seen as a threat to job security, the City is continuing to hire permanent personnel. In fact, the very unit which is causing the financial furor, the Board of Transportation, is seeking a couple of thousand new employees. So, if all one reads are the front-page headlines of the daily press, a wrong impression would result.

WASHINGTON, May 18 — Annuitants under the Civil Service Retirement System were assured by Philip Young, Chairman of the U. S. Civil Service Commission, that annuity payments will not be affected in any way if Congress fails to provide the \$368,154,000 in the Commission's 1954 budget request for financing the government's share of the cost. Persons now on the retirement rolls will continue to receive their usual checks, he said.

Question, Please

COULD YOU say that the White House was in favor of granting permission to the Secretaries of State and Commerce, and the Attorney General, to fire employees at will? Does the House action in rejecting the bill spell the end of the attempt to confer these powers? O.L.K.

Answer—The White House did not declare its stand. Evidently it interposed no objection. However, the united stand of employee and veteran organizations, and others, against the bill, may have convinced the White House that the move was unwise. The position of the President is reported to be security and loyalty is sufficient, and that the additional powers are not necessary. The State Department has had the authority for years, but hasn't exercised it much, until recently, and then in relation to deviates. As things stand now, if the bill were passed, the President would probably veto it. The move to confer some additional powers of dismissal is not dead; limitation to 5 percent of total employees is now being discussed.

WHEN WILL the first appointments be made from the U. S. custodial laborer eligible register? I.T.C.

Answer—There has been no announcement on the subject. When a department needs to fill positions, it notifies the U. S. Civil Service Commission, which then submits names of eligibles. Then the department calls in eligibles for an interview. The eligibles don't learn about this unless they are among those called in for departmental interview. The same situation exists in New York State and NYC civil service.

Comment

FINANCIAL QUESTIONNAIRES PROTESTED AS UNFAIR

Editor, The LEADER:

It has been the practice for politicians to be appointed to high positions in the NYC courts. Now an investigation of the courts is being made. Civil Service employees no doubt also will be required to fill out one of those financial questionnaires.

We employees of the courts in Queens County protest this. We must hide our identities under the name of the Court Employees Association of Greater New York not because we have anything to hide but because judges in Queens County frown on our organizing. Here is our argument:

Take a man who has worked all of his life, saved his nickels and dimes, and denied himself many things. A co-worker is reckless with his funds and has nothing to show for his years of work. Yet, in a financial questionnaire, the thrifty person is put on the defensive while the spendthrift is deemed in the clear.

The questionnaire is an outrageous invasion of privacy. The Governor is about to appoint a commission to investigate the courts and their personnel. We fail to see the necessity of investigating the personnel, for, in our opinion, there is no more courteous, diligent and honest group in the civil service.

COURT EMPLOYEES ASSOCIATION OF GREATER NEW YORK

They Say

GEORGE M. MOORE, U. S. CIVIL SERVICE COMMISSIONER — "My colleagues, Chairman Philip Young, and Commissioner Frederick Lawton, believe that under the leadership of President Eisenhower we can produce the best, strongest, and most effective civil service in the history of our country."

EDWARD P. MULROONEY, former Police Commissioner of NYC: "Officials can not expect a good police force unless they pay the policemen adequate wages, and train them properly."

CIVIL SERVICE

NEWS

Letter

GOVERNMENT departments usually pay their police force on an annual basis, although the checks may be paid semi-monthly, but the Village of Ticonderoga, in Essex County, N. Y., pays its police sergeants \$1.39 an hour. . . . An electric storm put the power supply out of commission at the Navy's Hydrographic Office, Suitland, Md. The employees were ordered to quit work, and the time out was charged to their annual leave. . . . President Eisenhower recently issued an executive order setting up new Schedule C, so some jobs in the competitive class would be switched into the exempt class. So far only upper bracket jobs have been affected, and employee organizations couldn't find any fault if those posts are filled at the discretion of a department head. But what about the job of chauffeur, Mutual Security Administration, now in the group of titles excepted from civil service competition? Is that to remain included among the policy-making or top administrative jobs?

THE BILL to include all U. S. prison personnel in the group entitled to extra pay, because of the hazardous or arduous duties, is making no progress. The House did pass a back pay bill for this group of employees, but it's still in the Senate Judiciary Committee.

JAMES C. O'BRIEN, formerly on the staff of the U. S. Civil Service Commission, who administered the first U. S. test for filling personnel officers jobs, is now taking a dose of his own medicine. He's been appointed personnel director of the new Department of Health, Education and Welfare.

VARIOUS PROPOSED amendments to the Thomas rider, which limits U. S. annual leave, have been proposed by Senators and Representatives. The one the White House is reported as favoring would allow employees to accumulate annual leave up to twice the amount they could earn in a calendar year. Some liberalization of the restrictive statute is almost certain to be enacted.

MODIFICATION of the Veteran Preference Act is likely. Probable provisions: veterans first must pass an exam, to get additional points for being veterans (Now they may add the premium points to the earned score to help achieve or exceed the pass mark). The points would remain 10 for disabled veterans, 5 for non-disabled veterans, but no jumping veterans to the top of a list, except disabled veterans and only those whose disability is service-connected and earns them a VA or Defense Department pension.

NYC IS NOW CONDUCTING or will soon open every large exam in its total of more than 300 tests. This accounts for the present crowded schedule and the difficulty of fitting in more exams. Now being held are the patrolman (P.D.), fireman (F.D.) and sanitationman, tests, while the trackman written test is scheduled for Saturday, May 23. Coming up are the correction officer exam, for both men and women, and the transit patrolman test, as well as the exam for filling hundreds of clerk, grade 2, vacancies. Next month the surface line operator test opens for receipt of applications. The NYC Civil Service Commission is a busy place these days. . . . We suppose it's all right for NYC to hold medical and physical tests in all these exams, but it seems to us that any candidate who can move the revolving door at 299 Broadway, where the Commission has its offices, has met all medical-physical qualifications for any job.

COMMISSION FOR BLIND HAS 40th ANNIVERSARY

The Commission for the Blind, New York State Department of Social Welfare, is celebrating its 40th anniversary. The years were devoted to prevention of blindness and providing work for the blind.

Education Board Includes Bonus in Figuring Pension

Administrative civil service employees of the NYC Board of Education who are members of the Board of Education Retirement System will enjoy added pension privileges under an amendment to the System's rules and regulations.

The amendment will permit employees, upon retirement, to make a lump-sum contribution to their annuity fund, based upon cost-of-living salary adjustments paid to them during the five-year period preceding retirement. The City will contribute its share toward the pension, based on the bonus amount, as well as on base pay.

This will increase the benefits of employees who retire after the effective date of this amendment.

The administrative employees thus get the same privileges now enjoyed by other City employees, except school teachers.

Competitive Promotions In U. S. Service on Way

Promotions in the Federal service, through competitive examinations, are definitely on the way. They may not be ordered this week or next, but the U. S. Civil Service Commission is considering recommendations which, if adopted, would bring that improvement about.

In a talk to the Eastern Regional Conference, Civil Service Assembly, given in Boston, U. S. Civil Service Commissioner George M. Moore listed six objectives. One of them was: "Adoption of an effective and uniform promotion policy within the Federal service."

Incentive from Within

While it would be easy to read too much into that, five U. S. Government departments do make promotions on a competitive basis, though not necessarily department-wide. One of them is the Navy, which has been outstandingly successful with such tests. Also, the brochure, "Building Better Promotion Programs," issued by the Commission's own Inspection Division, calls for objective rating devices, and a rating sheet. Whenever you see the phrase "rating sheet" you know that competitive examinations are meant, though it may be diplomatic to use circumlocution in the early stages of such a proposed upheaval.

Competitive promotion examinations would markedly improve the diverse and not always defensible results obtained under the present laissez-faire promotion practice.

Competitive Standing For 200,000 Seen Likely

BOSTON, May 18—Judging from remarks made by U.S. Civil Service Commissioner George M. Moore, in a talk to the Eastern Conference, Civil Service Assembly, the Eisenhower Administration intends to make a big thing out of the new Schedule C created by the Presidential executive order. Into this Schedule are to be put all of the jobs that will be outside of civil service, including some of the jobs already outside of the competitive class. Then Schedule C will be the one pool of exempt jobs.

There are 310,000 jobs now outside of civil service. These jobs are being studied, said Commissioner Moore, to determine which ones shall be included in Schedule C.

In his judgment, said the Commissioner, Schedule C will finally represent less than one-half percent of all Federal employment. That would mean about 10,000 jobs. Also, it would necessarily follow that, even allowing for shrinkage, at least 200,000 employees in jobs outside of civil service would be brought within the competitive group. Incumbents would be covered into the competitive class. This is usually done without the necessity of passing an examination.

Funny Bone Tickled To Raise Team Fund

ALBANY, May 18—Served up in the same format as official communications to appointing officers is a plea for funds for the Civil Service Department's softball team, couched in President J. Edward Conway's best humorous vein. But the plea is serious, just the same. Here's the whole thing:

MEMORANDUM

TO: All Employees
NATURE: Unofficial and Strictly Personal
SUBJECT: "Come Back Little Sheekles."
(or)

"When All is Said and Done, a Lot More is Said Than is Done"

You don't have to read this. You don't have to pay taxes or die, either. You don't have to be another Steve Brodie to read this, but it helps.

If you are one of those who carry an umbrella on fair days or check the locomotive before getting on the train, turn to page 10 (or any other page) and forget the whole business. BUT if you are one of those who will try the girl friend's first cake without batting an eye or ride with Mattie Lavenia without a governor in the car—then, brother, come closer; you're just the sucker we're looking for.

The theme of this classic epistle is "Brother Can You Spare a Dime? If Not, a Buck will Do Just Fine." The soft-ball team needs dough and we do mean dough! As the season opens they haven't

got a single Cadillac convertible to take them to the field. Even Sing Sing refused to furnish them with uniforms. The only available bats are those people who are hard driven.

The team has devised a scheme for raising money painlessly (clever chaps) and I hope you will help them along. Believe me, they need it worse than they need fans, pitchers, catchers, fielders and water-boys, and that's more than somewhat!

Only those who would refuse to support their grandmothers would refuse to support the team. Come out and see grandma on second base.

Any other questions?

Failures Near 100 P. C. in Two Exams

The percentage of failures ran extraordinarily high in two groups of the test for promotion to maintainer's helper, NYC Board of Transportation.

- The failures, by groups:
- A—36 out of a total of 37 candidates or 97 percent of failures.
 - B—66 out of 592, or 11 percent.
 - C—14 out of 43, or 32 percent.
 - D—82 out of 85, or 96 percent.
 - E—17 out of 30, or 56 percent.

How Candidates Are Affected
These results not only affect directly the aspirants to the jobs through promotion, but also indirectly the candidates in the series of open-competitive exams for which applications closed on Monday, May 18.

The job prospects of eligibles on the new lists for Groups A and D rise, and are even improved for above expectations open-competitive eligibles in Group E. Vacancies are filled open-competitively only after promotion lists are exhausted, or become inactive.

The specialties of the five groups A, electrical; B, mechanical; C, electrical (somewhat relating to power electricity, rather than the smaller apparatus and equipment covered in A); D, structures; E, marine or stationary steam power.

Master's Degree to Crown 10 Years of Night Study

ALBANY, May 18 — Philip Florman, senior publicity editor in the State Department of Commerce and editorial director of the department's travel bureau, will receive a master's degree from Siena College, Loudonville, on June 2, after 10 years of evening studies.

Mr. Florman joined the Conservation Department in 1938, without high school credit. For the next four years he attended Albany Evening High School, then entered Siena College for evening courses. Military service in the Marine Corps interrupted his studies. In 1947, then employed by the Commerce Department, he was included in "Who's Who Among Outstanding American College and University Students." He was graduated cum laude, with a B.A. degree, in 1948, and received a four-year excellency prize in English.

Mr. Florman was a newspaperman before entering State service. He lives in Latham.

Wow! Just think! Last year 163,340 babies like Nancy were born in New York City. As the City grows, Con Edison must plan at least 5 years ahead to be ready with all the dependable, low-cost electricity little Nancy and her neighbors will want. This means continuous expansion—more cable—more generators—even more electric plants. Right now, Con Edison is in the midst of a billion-dollar expansion program.

Good Will—Chairman of this group, Laura Gurniak, has mailed 52 cards since the first of the year and has received several acknowledgments. Let her know when there is a member ill in your department, or any occasion that

you would like a card sent to a member. The chapter can not know these things unless a co-worker notifies it. Mary Duda keeps an eye on the newspapers for occasions to send flowers. Don't let her miss any one. Call 74-2751—these gals are anxious to do a good turn.

456 More Gas Masks Needed, UFOA Reports

The Uniformed Fire Officers Association is continuing its efforts to have two gas masks provided for each company or squad, basing its argument of the importance of human health and life, which it says isn't recognized in budgets from which proposals for increase in such equipment are annually deleted. Failure to provide the masks is false economy, says the NYC fire officers.

The bill to require the gas masks was passed by the Legislature again this year, but vetoed again

by Governor Thomas E. Dewey. The UFOA regretted the Governor's action, and says that the rejection must have resulted from a misconception of the realities.

The UFOA has impressed Fire Department headquarters. In new equipment, a minimum of two gas masks will be provided, according to a Headquarters statement. This represents ground gained, but department-wide application of the remedy is what the UFOA seeks. The UFOA finds that the department has now only 195 self-contained masks in use, while 261 are on order, though the UFOA estimates that a total of 725, or 456 more than present and prospective quantities, would be needed.

Inhalation of smoke and flame is the greatest peril to fire-fighters, says the UFOA, hence gas masks would provide the greatest protection against the greatest danger.

Just What Parents Have Been Wishing For!

"It is, therefore, a pleasure to report the appearance of a publication that is interesting and entertaining for children of all ages, yet, too, a fine force for good rather than evil." — Senator Estes Kefauver.

"CHILDREN'S TIMES represents a truly wholesome and fresh departure. It brings children to understand the concept of a newspaper and of a free press." — Governor Theodore McKeldin of Maryland.

Americans. Like is the first. G-Man Hoover next. Best answer yet to the racy, risqué and satirical comic books. . . .

Walter Winchell.

It is a handsome publication, full of pictures and wonderful drawings, with everything geared for the interest of our younger citizens. . . . Hon. Louis B. Heller on the floor of Congress.

IN THIS ISSUE STORIES, GAMES, NEWS

Good Comics

Clean, exciting, wholesome comics! The lovely fantasy of Paul Scops, who becomes known as Space Boy . . . Yankee Doodle Barn, which tells stories from American history — the battle of the Monitor and Merrimac, Paul Revere, Daniel Boone.

Puzzles and Games

Amusing and educational riddles, puzzles, nonsense rhymes, rebuses, jokes, etc. Designed by experts and considered by psychologists as absorbing, lasting fun.

Reviews of Toys, Records, Books, TV

Dr. Ruth Hartley, child psychologist, reviews new toys, selecting those which are "right" for children. Every issue includes comments on movies, books, records, and television shows.

Mr. Wizard's Science Secrets

TV's Mr. Wizard reveals the wonders of the world — and how they work. He shows children how to perform real experiments. In this week's issue, he shows how you can "pur" air — just like water.

Your Pet

Boys and girls love their pets. Each issue of Children's Times tells them how to care, bathe, feed and train their pets. This issue tells how to make parakeets talk.

Stories on Culture

Culture is an important part of Children's Times. In each issue they learn about musical instruments, and they get the real music for a song they can sing or play on the piano.

Your Job

Every issue your child learns about an occupation. This issue tells how a train engineer does his job, with exciting photographs. Next issue tells the story of a student nurse.

Current News and Pictures

Meet the man who has made the world's most powerful kite . . . The junior reporters who got a good answer from the Mayor of a big city . . . The family of 13 girls buying hats.

Life in Other Lands

Feature stories about real people. See the story of a traveling family in Italy, how they live, play, work together.

What Would You Do?

Children are given real-life problems to solve, problems they actually meet. "Your best friend agrees to trade a toy, then changes his mind. Should you be angry about it?"

How To Do It

Hobbies that are fun and educational. In this issue children learn to start their own gardens. Even city children are given wonderful little gardening ideas.

Classics for Children

The greatest stories for children. Treasure Island by Robert Louis Stevenson. The folk stories about Pecos Bill . . . Sure to help every child love better literature.

And Much, Much More!

HERE is a new newspaper — for children! It has been in the planning stage for more than three years. During this time the editors and publishers analyzed every existing effort to interest, educate and entertain children. Books, magazines, plays, games, movies, radio, television, comics, daily newspapers — all were examined. Children of all ages were tested. Parents were questioned. Out of this intensive study of what children want, and what parents want them to have, has come Children's Times. We believe it will become one of the most vital forces for good that can be placed in the hands of boys and girls of all ages. But we admit that we are biased. So we are offering to send a copy of the current issue free to any parent requesting it. We would like your opinion — and through you, your child's reaction. There is no obligation to subscribe unless you care to do so. Simply fill in and mail the coupon below if you would like to see this new newspaper for children — Children's Times.

Every issue of Children's Times will be designed to satisfy a child's natural curiosity; he will discover the wonders of the world he lives in; he will satisfy his normal craving to learn, to play, to laugh, to think, to enjoy. Above all, he will feel a part of everything he reads in Children's Times. This is his newspaper.

We have attempted briefly here to describe Children's Times. However, no description can possibly convey to you the wholesome effect this new newspaper for children can have on your child.

Even the partial list of the contents of the first issue as printed on the left can give you only a remote idea of how great its influence can be on any youngster. We therefore offer to send you a sample copy of Children's Times — without charge. Read it yourself — then hand it to your child. Watch his face as he reads each page. If you are delighted in every way, and would like to have Children's Times come into your home twice a month for a full year, we will send you our bill for only \$2.00. Yes, only \$2.00 for 24 issues — less than 10¢ a copy! If, however, you are not thrilled by the joy your child shows, just mail us a card and we will cancel the charge. It is not necessary to send any money now — just the coupon. And you pay nothing at any time unless you decide to subscribe after examining the free sample copy! In any event the sample copy is free.

A Better Way For Children to Spend Their Time

If your child is 5 to 12 years of age, boy or girl, fill his heart with joy by mailing the coupon below for a sample copy of Children's Times — the new newspaper that will delight every child, and fulfill the wish of every parent!

When your child receives his copy, watch his face as he turns the pages! Then note how he loses interest in those time-consuming pursuits and habits which have given you so much concern.

Instead of spending endless hours on over-stimulating or utterly useless activities; instead of contaminating his mind with lurid comics; instead of being exposed to news of crimes, robberies; instead of wondering "what to do now" — your child will find good company in the stories, articles, pictures, games, good comics and other editorial matter that Children's Times will always contain.
